Energroupholdings Corporation
Notes to Consolidated Financial Statements
For the three-month periods ended March 31, 2008 and 2007

1. The Company and Principal Business Activities

Energroupholdings Corporation (the “Company”) (OTCBB: ENHD) is a holding company incorporated in the state of Nevada in the United States of America whose primary business operations is conducted through its three operating subsidiaries: (1) Dalian Chuming Processed Foods Company Ltd., (the “Foods Company”) (2) Dalian Chuming Slaughter and Packaging Pork Company Ltd. (the “Meat Company”), and (3) Dalian Chuming Sales Company Ltd. (the “Sales Company”), each incorporated in the People’s Republic of China (the “PRC”). The Company is headquartered in the City of Dalian, Liaoning Province of China.

The three operating subsidiaries were spun-off constituents of their former parent company, Dalian Chuming Group Co. Ltd. The Company indirectly holds the three operating subsidiary companies through its wholly owned intermediary subsidiaries: (A) Precious Sheen Investments Limited (“PSI”), a British Virgin Islands corporation, and (B) Dalian Chuming Precious Sheen Investments Consulting Co., Ltd., (“Chuming”), a wholly foreign owned enterprise incorporated in the PRC.

Dalian Precious Sheen Investments Consulting Co., Ltd. (“Chuming”) is an intermediary holding company established in the People’s Republic of China (the “PRC” or “China”) formed for the purpose of providing a group structure to enhance the viable capacity of its three PRC operating subsidiaries.

The Company’s primary business activities are the production and packing of fresh pork and production of processed meat products for distribution and sale to clients throughout the PRC.

Corporate Reorganization

PRC law currently has limits on foreign ownership of certain companies. To enable Chuming to raise equity capital from investors outside of China, it established an offshore holding company by incorporating Precious Sheen Investments Limited in the British Virgin Islands (“PSI”) in May 2007. On September 26, 2007, Chuming entered into share transfer agreements with Dalian Chuming Group Co., Ltd., under which Dalian Chuming Group Co., Ltd. agreed to transfer ownership of three operating subsidiaries (collectively known as “Chuming Operating Subsidiaries”) to Chuming. On October 23, 2007, Chuming completed all required registrations to complete the share transfer, and became the 100% owner of the Chuming Operating Subsidiaries. On November 14, 2007 the Dalian Commerce Bureau approved the transfer of Dalian Chuming Group Co., Ltd.’s 68% interest in Chuming to PSI, and upon this transfer, Chuming became a wholly foreign owned enterprise, with PSI as the 100% owner of Chuming (including its subsidiaries). On December 13, 2007, the PRC government authorities issued Chuming a business license formally recognizing it as a wholly foreign owned enterprise, of which PSI is the sole shareholder.

Energroupholdings Corporation
Notes to Consolidated Financial Statements
For the three-month periods ended March 31, 2008 and 2007

The following is a description of the Chuming Operating Subsidiaries: -

A. Dalian Chuming Slaughter and Packaging Pork Company Ltd., whose primary business activity is acquiring, slaughtering, and packaging of pork and cattle;

B. Dalian Chuming Processed Foods Company Ltd., whose primary business activity is the processing of raw and cooked meat products; and

C. Dalian Chuming Sales Company Ltd., which is responsible for Chuming's sales, marketing, and distribution operations.

Share Exchange Transaction

On December 31, 2007, the Company acquired all of the outstanding shares of PSI in exchange for the issuance of 16,850,000 restricted shares of our common stock to the shareholders of PSI, which represented approximately 97.55% of the then-issued and outstanding common stock of the Company (excluding the shares issued in the Financing). As a result of this transaction, PSI became our wholly owned subsidiary, and we acquired the business and operations of the three operating subsidiaries.

The share exchange transaction has been accounted for as a recapitalization of PSI where the Company (the legal acquirer) is considered the accounting acquiree and PSI (the legal acquiree) is considered the accounting acquirer. As a result of this transaction, the Company is deemed to be a continuation of the business of PSI.

Accordingly, the financial data included in the accompanying consolidated financial statements for all periods prior to December 31, 2007 is that of the accounting acquirer (PSI). The historical stockholders' equity of the accounting acquirer prior to the share exchange has been retroactively restated as if the share exchange transaction occurred as of the beginning of the first period presented.

2. Summary of Significant Accounting Policies

(A) *Method of Accounting*

The Company maintains its general ledger and journals with the accrual method accounting for financial reporting purposes. The financial statements and notes are representations of management. The consolidated financial statements, which include the Company and its subsidiaries, are compiled in accordance with generally accepted accounting principles in the United States of America. All significant inter-company accounts and transactions have been eliminated. The consolidated financial statements include 100% of assets, liabilities, and net income or loss of those wholly owned subsidiaries.

Dalian Chuming Processed Foods Co. Ltd.	PRC	100%	RMB 5,000,000

The consolidation of these operating subsidiaries into a newly formed holding company (i.e. the Company) is permitted by United States GAAP: ARB51 paragraph 22 and 23.

(C) *Use of Estimates*

The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Management makes these estimates using the best information available at the time the estimates are made; however, actual results could differ materially from these estimates.

(D) *Cash Equivalents*

For purposes of the statement of cash flows, the Company considers all highly liquid equity or debt instruments purchased with a maturity of three months or less to be cash equivalents.

Energroupholdings Corporation
Notes to Consolidated Financial Statements
For the three-month periods ended March 31, 2008 and 2007

(E) *Accounts Receivable*

The Company extends unsecured, non-interest bearing credit to its customers; accordingly, the Company carries an allowance for doubtful accounts, which is an estimate, made by management. Management makes its estimate based on prior experience rates and assessment of specific outstanding customer balances. Management may extend credit to new customers who have met the criteria of the Company's credit policy.

(F) *Inventory Carrying Value*

Inventory, consisting of raw materials in the form of livestock, work in progress, and finished products, is stated at the lower of cost or market value. Finished products are comprised of direct materials, direct labor and an appropriate proportion of overhead. Periodic evaluation is made by management to identify if inventory needs to be written down because of damage or spoilage. Cost is computed using the weighted average method.

(G) *Advances to Suppliers*

Advances to suppliers represent the cash paid in advance for purchasing raw materials. The advances to suppliers are interest free and unsecured.

(H) *Property, Plant, and Equipment*

Property, plant, and equipment are stated at cost. Repairs and maintenance to these assets are charged to expense as incurred; major improvements enhancing the function and/or useful life are capitalized. When items are sold or retired, the related cost and accumulated depreciation are removed from the accounts and any gains or losses arising from such transactions are recognized.

Construction in progress represents the direct costs of design, acquisition, and construction of buildings, building improvements and land improvements. Capitalization of these costs ceases when substantially all activities necessary to prepare the assets for their intended use are completed. At such point, construction in progress is transferred to its respective asset classification. No depreciation is provided until it is completed and ready for intended use.

Energroup Holdings Corporation
Notes to Consolidated Financial Statements
For the three-month periods ended March 31, 2008 and 2007

Property and equipment are depreciated using the straight-line method over their estimated useful life with a 5% salvage value. Their useful lives are as follows: -

Fixed Asset Classification	Useful Life
Land Improvements	10 years
Buildings	20 years
Building Improvements	10 years
Manufacturing Machinery & Equipment	10 years
Office Equipment	5 years
Furniture & Fixtures	5 years
Vehicles	5 years

(I)

Land Use Rights

(J)

Construction in Progress

Construction in progress represents the direct costs of design, acquisition, and construction of buildings, building improvements, and land improvements. These costs are capitalized in the Construction-in-Progress account until substantially all activities necessary to prepare the assets for their intended use are completed. At such point, the Construction-in-Progress account is closed, and the capitalized costs are transferred to their appropriate asset classification. No depreciation is provided until the assets are completed and ready for their intended use.

(J)

Accounting for Impairment of Assets

The Company reviews the recoverability of its long-lived assets, such as property and equipment, when events or changes in circumstances occur that indicate the carrying value of the asset group may not be recoverable. The assessment of possible impairment is based on the Company's ability to recover the carrying value of the asset from the expected future cash flows, undiscounted and without interest charges, of the related operations. If these cash flows are less than the carrying value of such assets, an impairment loss is recognized for the difference between estimated fair value and carrying value. The measurement of impairment requires management to estimate future cash flows and the fair value of long-lived assets.

(K)

Customer Deposits

Customer deposits represents money the Company has received in advance for purchases of pork and pork products. The Company considers customer deposits as a liability until products have been shipped and revenue is earned.

Earnings Per Share

Basic earnings per share is computed by dividing net income by the weighted average number of ordinary shares outstanding during the period. Diluted earnings per share is computed by dividing net income by the sum of the weighted average number of ordinary shares outstanding and dilutive potential ordinary shares during the years. During the years ended 2004, 2005, and 2006, no dilutive potential ordinary shares were issued.

The Company computes earnings per share ("EPS") in accordance with Statement of Financial Accounting Standards No. 128, "Earnings per share" ("SFAS No. 128"), and SEC Staff Accounting Bulletin No. 98 ("SAB 98"). SFAS No. 128 requires companies with complex capital structures to present basic and diluted EPS. Basic EPS is measured as the income or loss available to common shareholders divided by the weighted average common shares outstanding for the period. Diluted EPS is similar to basic EPS but presents the dilutive effect on a per share basis of potential common shares (e.g., convertible securities, options, and warrants) as if they had been converted at the beginning of the periods presented, or issuance date, if later. Potential common shares that have an anti-dilutive effect (i.e., those that increase income per share or decrease loss per share) are excluded from the calculation of diluted EPS.
