

APOLLO GOLD CORP
Form 424B3
July 06, 2009

Filed Pursuant to Rule 424(b)(3)

Registration No. 333-158095

PROSPECTUS

APOLLO GOLD CORPORATION

17,160,000 Common Shares

The selling shareholder identified on page 21 may use this prospectus to offer and resell from time to time up to 17,160,000 common shares of Apollo Gold Corporation (together with its subsidiaries, “we,” “us” or “our company”). The 17,160,000 common shares offered hereby are comprised of 8,580,000 common shares issuable to RAB Special Situations (Master) Fund Limited, which we sometimes refer to in this prospectus as RAB, upon conversion of \$4,290,000 principal amount of our convertible debentures issued on February 23, 2007 and due February 23, 2010, which we sometimes refer to in this prospectus as the February 2007 convertible debentures, and 8,580,000 common shares issuable upon exercise of warrants included with such convertible debentures. For more information regarding the foregoing, see “The Company – Recent Events” on page 6 of this prospectus.

Our common shares are traded on the NYSE Amex exchange under the symbol “AGT” and on the Toronto Stock Exchange under the symbol “APG.” On June 11, 2009, the closing price for our common shares on the NYSE Amex exchange was \$0.46 per share and the closing price on the Toronto Stock Exchange was Cdn\$0.51 per share.

We will not receive any proceeds from the sale of the shares resold under this prospectus by the selling shareholder. The issuance of the February 2007 convertible debentures described above were made in a private placement in reliance upon and exemption from registration contained in Regulation S of the U.S. Securities Act of 1933, as amended.

The selling shareholder may sell the shares in transactions on the NYSE Amex exchange or the Toronto Stock Exchange and by any other method permitted by applicable law. The selling shareholder may sell the shares at prevailing market prices or at prices negotiated with purchasers and will be responsible for any commissions or discounts due to brokers or dealers. The amount of these commissions or discounts cannot be known at this time because they will be negotiated at the time of the sales. See “Plan of Distribution” beginning on page 21.

References in this prospectus to “\$” are to United States dollars. Canadian dollars are indicated by the symbol “Cdn\$”.

The common shares offered in this prospectus involve a high degree of risk. You should carefully consider the matters set forth in “Risk Factors” beginning on page 9 of this prospectus in determining whether to purchase our common shares.

Neither the U.S. Securities and Exchange Commission nor any state securities commission has approved or disapproved our common shares, or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus is July 2, 2009.

You should rely only on information contained or incorporated by reference in this prospectus. See “Incorporation of Certain Documents by Reference” on page 2 of this prospectus. We have not authorized anyone to provide you with information different from that contained or incorporated in this prospectus. If anyone provides you with different or inconsistent information, you should not rely on it. Information on any of the websites maintained by us does not constitute a part of this prospectus.

You should assume that the information appearing in this prospectus or any documents incorporated by reference in this prospectus is accurate only as of their respective dates. Our business, financial condition, results of operations and prospects may have changed since those dates.

WHERE YOU CAN FIND MORE INFORMATION

We are subject to the reporting requirements of the Securities Exchange Act of 1934, as amended (which we sometimes refer to in this prospectus as the Exchange Act), and file annual, quarterly and periodic reports, proxy statements and other information with the United States Securities and Exchange Commission, which we sometimes refer to in this prospectus as the SEC. The SEC maintains a web site (<http://www.sec.gov>) on which our reports, proxy statements and other information are made available. Such reports, proxy statements and other information may also be inspected and copied at the public reference facilities maintained by the SEC at 100 F Street, NE, Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the operation of the public reference facilities.

We have filed with the SEC a Registration Statement on Form S-3, under the Securities Act of 1933, as amended (which we sometimes refer to in this prospectus as the Securities Act), with respect to the securities offered by this prospectus. This prospectus, which constitutes part of the Registration Statement, does not contain all of the information set forth in the Registration Statement, certain parts of which have been omitted in accordance with the rules and regulations of the SEC. Reference is hereby made to the Registration Statement and the exhibits to the Registration Statement for further information with respect to the securities and us.

CURRENCY AND EXCHANGE RATE INFORMATION

We report in United States dollars. Accordingly, all references to “\$,” “U.S.\$” or “dollars” in this prospectus refer to United States dollars unless otherwise indicated. References to “Cdn\$” or “Canadian dollars” are used to indicate Canadian dollar values.

The noon rate of exchange on June 11, 2009 as reported by the Bank of Canada for the conversion of Canadian dollars into United States dollars was Cdn\$1.00 equals \$0.9106 and the conversion of United States dollars was \$1.00 equals Cdn\$1.0982.

NON-GAAP FINANCIAL MEASURES

In this prospectus or in the documents incorporated herein by reference, we use the terms “cash operating costs,” “total cash costs,” and “total production costs,” each of which are considered non-GAAP financial measures as defined in the SEC Regulation S-K Item 10 and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with U.S. generally accepted accounting principles or U.S. GAAP. These terms are used by management to assess performance of individual operations and to compare our performance to other gold producers.

The term “cash operating costs” is used on a per ounce of gold basis. Cash operating costs per ounce is equivalent to direct operating cost as found on the Consolidated Statements of Operations, less production royalty expenses and mining taxes but includes by-product credits for payable silver, lead and zinc.

The term “total cash costs” is equivalent to cash operating costs plus production royalties and mining taxes.

The term “total production costs” is equivalent to total cash costs plus non-cash costs including depreciation and amortization.

These measures are not necessarily indicative of operating profit or cash flow from operations as determined under generally accepted accounting principles in Canada and the United States and may not be comparable to similarly titled measures of other companies. See Item 7, Management’s Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the fiscal year ended December 31, 2008 and Item 2,

Management's Discussion and Analysis of Financial Condition and Results of Operations in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2009 for a reconciliation of these non-GAAP measures to our Statements of Operations.

INCORPORATION OF CERTAIN DOCUMENTS BY REFERENCE

The SEC allows us to “incorporate by reference” our publicly filed reports into this prospectus, which means that information included in those reports is considered part of this prospectus. Information that we file with the SEC after the date of this prospectus will automatically update and supersede the information contained in this prospectus and in prior reports. We incorporate by reference the documents listed below and any future filings made with the SEC under Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act, other than information in a report on Form 8-K furnished pursuant to Item 2.02 or Item 7.01 of Form 8-K and exhibits filed in connection with such information, until all of the securities offered pursuant to this prospectus have been sold:

1. Our Annual Report on Form 10-K for the year ended December 31, 2008, filed with the SEC on March 27, 2009;
2. Our Quarterly Report on Form 10-Q for the quarter ended March 31, 2009, filed with the SEC on May 15, 2009;
3. Our Current Reports on Form 8-K, filed with the SEC on January 5, 2009, February 13, 2009, February 19, 2009, February 24, 2009, February 25, 2009, March 25, 2009 and June 4, 2009; and
4. The description of our capital stock set forth in our Registration Statement on Form 10, filed June 23, 2003.

In addition, all filings filed by us pursuant to the Exchange Act after the date of this registration statement and prior to effectiveness of this registration statement shall be deemed to be incorporated by reference into this prospectus.

We will furnish without charge to you, on written or oral request, a copy of any or all of the above documents, other than exhibits to such documents that are not specifically incorporated by reference therein. You should direct any requests for documents to the Chief Financial Officer, Apollo Gold Corporation, 5655 S. Yosemite Street, Suite 200, Greenwood Village, Colorado 80111-3220, telephone (720) 886-9656.

The information relating to us contained in this prospectus is not comprehensive and should be read together with the information contained in the incorporated documents. Descriptions contained in the incorporated documents as to the contents of any contract or other document may not contain all of the information that is of interest to you. You should refer to the copy of such contract or other document filed as an exhibit to our filings.

STATEMENTS REGARDING FORWARD-LOOKING INFORMATION

This prospectus and the documents incorporated by reference in this prospectus contain forward-looking statements, as defined in the Private Securities Litigation Reform Act of 1995, with respect to our financial condition, results of operations, business prospects, plans, objectives, goals, strategies, future events, capital expenditures, and exploration and development efforts. Forward-looking statements can be identified by the use of words such as “may,” “should,” “expects,” “plans,” “anticipates,” “believes,” “estimates,” “predicts,” “intends,” “continue,” or the negative of such terms, or other comparable terminology. These statements include comments regarding:

- plans for the further development of the Black Fox mine and mill including, without limitation, the timing of the development of the underground mine at Black Fox;
 - estimates of future production and the timing of gold pours at Black Fox;
 - our ability to meet our repayment obligations under the Black Fox project facility;
 - our ability to finance exploration at our Huizopa project;
 - our ability to repay the convertible debentures issued to RAB due February 23, 2010;
- the future effect of recent issuances and registration for immediate resale of a significant number of common share purchase warrants on our share price;

- future financing of projects, including the financing required for the M Pit expansion at Montana Tunnels;

- costs associated with placing the Montana Tunnels mine and mill on care and maintenance and the decision to undertake the M Pit expansion;
 - liquidity to support operations and debt repayment;
 - completion of a Canadian National Instrument 43-101 for the Huizopa project and the content thereof;
 - the establishment and estimates of mineral reserves and resources;
 - daily production, mineral recovery rates and mill throughput rates;
 - total production costs;
 - cash operating costs;
 - total cash costs;
 - grade of ore mined and milled from Black Fox and cash flows therefrom;
 - anticipated expenditures for development, exploration, and corporate overhead;
 - timing and issue of permits, including permits necessary to conduct phase II of open pit mining at Black Fox;
 - expansion plans for existing properties;
 - estimates of closure costs;
 - estimates of environmental liabilities;
 - our ability to obtain financing to fund our estimated expenditure and capital requirements;
 - factors impacting our results of operations; and
 - the impact of adoption of new accounting standards.

Although we believe that our plans, intentions and expectations reflected in these forward-looking statements are reasonable, we cannot be certain that these plans, intentions or expectations will be achieved. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of the risk factors set forth below and other factors described in more detail in this prospectus:

- changes in business and economic conditions, including the recent significant deterioration in global financial and capital markets;
 - significant increases or decreases in gold and zinc prices;
 - changes in interest and currency exchange rates including the LIBOR rate;
 - changes in availability and cost of financing;
 - timing and amount of production;
 - unanticipated ore grade changes;
 - unanticipated recovery or production problems;
 - changes in operating costs;
 - operational problems at our mining properties;
 - metallurgy, processing, access, availability of materials, equipment, supplies and water;
 - determination of reserves;
 - costs and timing of development of new reserves;
 - results of current and future exploration and development activities;
 - results of future feasibility studies;
 - joint venture relationships;
 - political or economic instability, either globally or in the countries in which we operate;
 - local and community impacts and issues;
 - timing of receipt of government approvals;
 - accidents and labor disputes;
 - environmental costs and risks;
 - competitive factors, including competition for property acquisitions;
 - availability of external financing at reasonable rates or at all; and
 - the factors discussed in this prospectus under the heading “Risk Factors.”

Many of these factors are beyond our ability to control or predict. These factors are not intended to represent a complete list of the general or specific factors that may affect us. We may note additional factors elsewhere in this prospectus and in any documents incorporated by reference into this prospectus. We undertake no obligation to update forward-looking statements.

THE COMPANY

Overview

Our earliest predecessor was incorporated under the laws of the Province of Ontario in 1936. In May 2003, we reincorporated under the laws of the Yukon Territory. We maintain our registered office at 204 Black Street, Suite 300, Whitehorse, Yukon Territory, Canada Y1A 2M9, and the telephone number at that office is (867) 668-5252. We maintain our principal executive office at 5655 S. Yosemite Street, Suite 200, Greenwood Village, Colorado 80111-3220, and the telephone number at that office is (720) 886-9656. Our internet address is <http://www.apollogold.com>. Information contained on our website is not a part of this prospectus or the documents incorporated herein by reference.

We are engaged in gold mining including extraction, processing, refining and the production of by-product metals, as well as related activities including exploration and development. We own the Black Fox project, an open pit mine and mill located near the Township of Matheson in the Province of Ontario, Canada. The Black Fox project consists of mining operations located 7 miles east of Matheson and the Black Fox mill complex located 12 miles west of Matheson, therefore approximately 19 miles from the mine. Mining of ores at the open pit mine began in March 2009 and the first gold bars were poured in May 2009. We are also the operator of the Montana Tunnels mine, which is a 50% joint venture with Elkhorn Tunnels, LLC. The Montana Tunnels mine, which is located near Helena, Montana, is an open pit mine and mill that historically has produced gold doré and lead-gold and zinc-gold concentrates. We ceased mining at Montana Tunnels on December 5, 2008 and, following the completion of milling of stockpiled ore at the end of April 2009, we placed the mine on care and maintenance.

We also own Mexican subsidiaries which own concessions at the Huizopa exploration project, located in the Sierra Madres in Chihuahua, Mexico. The Huizopa project is an 80% Apollo/20% Mineras Coronado joint venture.

Black Fox

On April 14, 2008, we filed a Canadian Instrument, NI 43-101 Technical Report. The mineral reserves reflected in the table below are taken from this report and were calculated based on a gold price of \$650 per ounce.

Black Fox Probable Reserve Statement as of February 29, 2008

Mining Method	Cutoff Grade Au g/t	Tonnes (000)	Grade Au g/t	Contained Au Ounces
Open Pit	0.88	4,350	5.2	730,000
Underground	3.0	2,110	8.8	600,000
Total Probable Reserves				1,330,000

Since April 2008, when we completed the bankable feasibility study on the Black Fox mine, we have made progress at Black Fox on a number of fronts. Specifically, we received all necessary permits and approvals required to commence mining activities, purchased all mining equipment required to commence mining at the open pit and transported such equipment to the Black Fox mine location.

On July 28, 2008, we completed the acquisition from St Andrew Goldfields Ltd., which we refer to in this prospectus as St Andrew, of a mill and related equipment, infrastructure, property rights, laboratory and tailings facilities, located near Matheson. Under the terms of the asset purchase agreement pursuant to which we purchased the mill complex, St Andrew agreed to sell the mill complex to us for a purchase price of Cdn\$20 million and the refund to St Andrew

of its bonding commitment at the mill complex in the amount of approximately Cdn\$1.2 million.

In the third quarter of 2008, we awarded GBM Engineering Limited an engineering, procurement, construction and management contract, which we refer to in this prospectus as an EPCM contract, to increase the throughput of the Black Fox mill from its current rate of 1,100 tonnes per day at a cost of approximately \$22.0 million. The mill was commissioned in April 2009 and, as a result of the work performed under the EPCM contract, reached a throughput rate of 1,500 tonnes per day by the end of May 2009.

On February 20, 2009, we entered into a project facility agreement with Macquarie Bank Limited and RMB Australia Holdings Limited, which we sometimes refer to as the project finance banks, pursuant to which we may borrow up to \$70,000,000 from the project finance banks at any time between February 20, 2009 and June 30, 2009, after which time any undrawn portion of the \$70,000,000 commitment will be cancelled and will no longer be available for drawdown. The project facility agreement refinanced the \$15,000,000 bridge facility agreement that we had previously entered into on December 10, 2008, under which we had drawn down \$14.8 million as of the closing of the project facility agreement. As of June 2, 2009, we had drawn down the full \$70 million available under the project facility agreement. See the discussion below under the heading “Recent Events – Black Fox Financing” for additional information.

As a result of the foregoing progress, we commenced open pit operations at the Black Fox project with the first blast on March 18, 2009.

The commissioning of the upgraded mill, with the exception of the new ball mill, commenced in mid April utilizing an existing low grade ore stockpile. During the first week of May 2009, the new ball mill was brought online and we are now processing normal grade ores from the Black Fox open pit. The first gold pour from Black Fox occurred at the end of May 2009.

Capital expenditures at Black Fox for the three months ended March 31, 2009 were approximately \$22 million, which included (1) \$13 million towards the cost of upgrading the Black Fox mill to increase its throughput rate from 1,100 tonnes per day to 2,000 tonnes per day, (2) \$3 million for contract pond and road construction at the mine site and (3) capitalized expenditures of \$6 million including contract pre-stripping of the open pit.

Montana Tunnels Mine

During the first quarter of 2009, the Montana Tunnels mill processed 1,086,163 tons of ore, which had been stockpiled as of December 31, 2008, at an average throughput of 12,100 tons per day for the quarter. Payable production in the first quarter of 2009 was 7,700 ounces of gold, 99,000 ounces of silver, 2,392,000 pounds of lead and 8,185,000 pounds of zinc. Our share of this production is 50%. Total cash costs for the first quarter of 2009 on a by-product basis were \$1,217 per ounce of gold and on a co-product basis they were \$1,083 per ounce of gold, \$16.87 per ounce of silver, \$0.68 per lb of lead and \$0.63 per lb of zinc.

The Montana Tunnels mine ceased milling operations on April 30, 2009 and we placed the mine and mill on care and maintenance at that time. See the discussion below under the heading “Recent Events – Cessation of Mining at Montana Tunnels” for additional information.

Huizopa Project

During the second quarter 2008, the helicopter assisted core drilling program on two identified targets (Puma de Oro and Lobo de Oro) at our Huizopa project was completed. On August 14, 2008, we announced the results of the core drilling program on the Puma de Oro exploration target. Twenty five NQ core holes were drilled on a north-trending zone targeted fo
