Item 2.02 – Results of Operations and Financial Condition

On April 16, 2010, Park National Corporation (“Park”) issued a news release (the “Operating Results News Release”) announcing operating results for the three months ended March 31, 2010. A copy of this Operating Results News Release is included as Exhibit 99.1 to this Current Report on Form 8-K and incorporated by reference herein.

Park’s management uses certain non-GAAP (generally accepted accounting principles) financial measures to evaluate Park’s performance. Specifically, management reviews return on average tangible common equity, return on average tangible assets and tangible common book value per common share. Management has included in the Operating Results News Release information relating to the return on average tangible common equity, return on average tangible assets and tangible common book value per common share for the three-month periods ended March 31, 2010 and 2009 and December 31, 2009. For purposes of calculating the return on average tangible common equity, a non-GAAP financial measure, net income available to common shareholders for each period is divided by average tangible common equity during the period. Average tangible common equity equals average stockholders’ equity during the applicable period less (i) average goodwill and other intangible assets during the period and (ii) average preferred stock. For the purpose of calculating the return on average tangible assets, a non-GAAP financial measure, net income available to common shareholders for each period is divided by average tangible assets during the period. Average tangible assets equals average assets during the applicable period less average goodwill and other intangible assets during the applicable period. For the purpose of calculating tangible common book value per common share, a non-GAAP financial measure, tangible common equity is divided by common shares outstanding at period end. Tangible common equity equals stockholders’ equity less preferred stock and goodwill and other intangibles. Management believes that the disclosure of return on average tangible common equity, return on average tangible assets and tangible common book value per common share presents additional information to the reader of the consolidated financial statements, which, when read in conjunction with the consolidated financial statements prepared in accordance with GAAP, assists in analyzing Park’s operating performance and ensures comparability of operating performance from period to period while eliminating certain non-operational effects of acquisitions and, in the case of return on average common equity and tangible common book value per common share, the impact of preferred stock. In the Operating Results News Release, Park has provided a reconciliation of average tangible common equity to average stockholders’ equity, average tangible assets to average assets and tangible common equity to stockholders’ equity solely for the purpose of complying with SEC Regulation G and not as an indication that return on average tangible common equity, return on average tangible assets or tangible common book value per common share are substitutes for return on average equity, return on average assets or common book value per common share as determined by GAAP.

Item 7.01 — Regulation FD Disclosure

In Park’s 2009 Annual Report to Shareholders (“Annual Report”) (Exhibit 13 to Park’s Annual Report on Form 10-K for the fiscal year ended December 31, 2009), management provided guidance on the projected operating results for 2010. This guidance is included in the “Financial Review” section of the Annual Report on pages 35-40.

The following is a discussion of the actual operating results for the first three months of 2010, and a comparison of management’s latest projections for the twelve months ending December 31, 2010 to the guidance previously provided for 2010.

Net Interest Income:

For the first three months of 2010, net interest income was \$67.4 million. In the Annual Report on page 38, management had projected that net interest income would be \$265 million to \$275 million for 2010. The first quarter net interest income was in line to what management had expected. During the three months ended March 31, 2010, loans declined by \$43.1 million or an annualized 3.8 percent. In the Annual Report on page 35, management

had projected loan growth of 1 percent to 3 percent during 2010. Management expects loans to grow modestly during the remaining nine months of 2010, with no to very little growth in loans for the twelve months ended December 31, 2010 compared to the same period in 2009.

Provision for Loan Losses:

For the first quarter of 2010, the provision for loan losses was \$16.6 million and net loan charge-offs were \$13.6 million. In the Annual Report on page 40, management had projected that the provision for loan losses would be approximately \$45 million to \$55 million in 2010. The provision for loan losses for the first quarter was higher than management expected, however, management expects improvement for each of the next three quarters of 2010. Therefore, management now expects that the provision for loan losses will be approximately \$50 million to \$55 million in 2010.

Other Income:

For the first three months of 2010, total other income was \$16.7 million. In the Annual Report on page 39, management had projected that total other income, excluding gains from the sale of securities, would be approximately \$68 million for 2010. Total other income for the first quarter was in line with management's projections.

Gain on Sale of Securities:

In the Annual Report on page 39, management projected that a pre-tax gain of \$7.3 million would be recognized from the sale of \$200 million of securities during the first quarter of 2010. During the first quarter of 2010, Park sold \$201 million of investment securities, which resulted in a pre-tax gain of \$8.3 million.

Other Expense:

For the first quarter of 2010, total other expense was \$47.9 million. In the Annual Report on page 39, management had projected that total other expense would be \$191 million in 2010. Total other expense for the first quarter was consistent with management's projected results for 2010.
