Item 4.02 Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review

On September 15, 2010, our management concluded that information contained in the company's financial statements regarding telecommunications revenue during the periods 2002 through 2004 should not be relied upon. This conclusion is based upon the statements made by Timothy M. Huff, the Company's former Chief Executive Officer and director, in connection with a plea of guilty entered by Mr. Huff in the action titled United States of America v. Timothy Huff (Case No. 09—60295-CR-Middlebrook). According to the documents filed in that proceeding, Mr. Huff, while employed at GlobeTel, created fraudulent invoices resulting in general ledger entries which were then incorporated into the Company's financial statements.

Given the age of the transactions, the previous disclosure of issues associated with the Company's telecommunication revenue, and the pendency of related actions, the Company is unable to quantify the extent of the issue or assess the materiality of the errors. The Company's management is currently evaluating whether this information concerning the 2002 through 2004 transactions will necessitate a restatement of the Company's condensed consolidated balance sheets and the related condensed consolidated statements of operations, condensed consolidated stockholders' equity and condensed consolidated statement of income for the periods specified above. If the Company determines that restatements are necessary, Management can not give any assurance that the Company has the ability to complete such restatements due to the historical nature of the financial information. Management has discussed the above with our independent accountants.
