Approximate date of commencement of proposed sale to the public: As soon as practicable after the effective date of this registration statement.

If any of the securities being registered on this Form are to be offered on a delayed or continuous basis pursuant to Rule 415 under the Securities Act of 1933 check the following box.

If this Form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act, please check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

If this Form is a post-effective amendment filed pursuant to Rule 462(c) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

Edgar Filing: Cazador Acquisition Corp Ltd. - Form F-1/A

If this Form is a post-effective amendment filed pursuant to Rule 462(d) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

TABLE OF CONTENTS

CALCULATION OF REGISTRATION FEE

- (1) Estimated solely for the purpose of calculating the registration fee.
- (2) Includes 600,000 Units and 600,000 Ordinary Shares and 600,000 Warrants comprising such Units which may be issued on exercise of a 45-day option granted to the Underwriters to cover over-allotments, if any.
- (3) No fee pursuant to Rule 457(g).
- (4) Pursuant to Rule 416, there is also being registered such indeterminable number of additional ordinary shares as may be issued to prevent dilution resulting from share dividends, split-up, reverse split-up or similar event.
- (5) Previously paid.

The Registrant hereby amends this Registration Statement on such date or dates as may be necessary to delay its effective date until the Registrant shall file a further amendment which specifically states that this Registration Statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933 or until the Registration Statement shall become effective on such date as the Commission, acting pursuant to said Section 8(a), may determine.

TABLE OF CONTENTS

The information in this prospectus is not complete and may be changed. We may not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities and we are not soliciting offers to buy these securities in any jurisdiction where the offer or sale is not permitted.

PRELIMINARY PROSPECTUS

SUBJECT TO COMPLETION, DATED OCTOBER 5, 2010

\$40,000,000

4,000,000 Units

Cazador Acquisition Corporation Ltd. is an exempted company recently incorporated in the Cayman Islands with limited liability as a blank check company. We were incorporated for the purpose of effecting a merger, share capital exchange, asset acquisition, share purchase, reorganization or similar business combination, which we refer to as our initial business combination, with one or more operating businesses or assets, which we refer to as our target business or target businesses. We will focus on a business combination in developing countries in Central and Eastern Europe,

Latin America and Asia, which we refer to as emerging markets, but we may pursue opportunities in other geographical areas. Our efforts to identify a prospective target business will not be limited to a particular industry. To date, our efforts have been limited to organizational activities as well as activities related to this offering. We do not have any specific initial business combination under consideration. If we do not consummate our initial business combination within 18 months of the closing date of this public offering, but have entered into a letter of intent or a definitive agreement with respect to an initial business combination, the period of time to consummate our initial business combination will be extended by an additional 6 months. If we fail to sign a letter of intent or a definitive agreement within such 18-month period or if we fail to consummate an initial business combination within such 18-month period (or 24 months if we sign a letter of intent or a definitive agreement within such 18 month period), we will compulsorily repurchase all shares held by the public shareholders for their respective portion of the amount in the trust account and automatically liquidate our trust account, within five business days, pursuant to the procedures in our amended and restated memorandum and articles of association (for the purposes herein references to liquidate or liquidation shall refer to the liquidation of our trust account).

This is the initial public offering of our securities. We are offering 4,000,000 units. The public offering price will be \$10.00 per unit. Each unit consists of one ordinary share and one warrant that entitles the holder to purchase one ordinary share at an exercise price of \$7.50. The warrants will become exercisable on the later of the completion of our initial business combination and one year from the date of this prospectus, provided that at that time we have an effective registration statement covering the ordinary shares issuable upon exercise of the warrants, and a current prospectus relating to the offer and sale of those ordinary shares is available. The warrants will expire five years from the date of the initial business combination, unless earlier redeemed by us.

We have granted the underwriters a 45-day option to purchase up to an additional 600,000 units to cover over-allotments, if any, from us at the public offering price less the underwriting discounts and commissions to cover over-allotments, if any.

Cazador Sub Holdings Ltd., an exempted company incorporated in the Cayman Islands with limited liability, which we refer to as our sponsor, and owned by Cazador Holdings Ltd., has agreed to purchase an aggregate of 4,340,000 warrants, at a price of \$0.50 per warrant (\$2,170,000 in the aggregate) in a private placement that will occur immediately prior to the consummation of this offering. We refer to these warrants as the sponsor's warrants. The proceeds from the sale of the sponsor's warrants will be deposited into a trust account and will be subject to a trust agreement, described below, and will be part of the funds distributed to our public shareholders upon repurchase or in the event we are unable to complete an initial business combination.

Currently, there is no public market for our units, ordinary shares or warrants. We have applied to have the units listed on the Nasdaq Capital Market under the symbol CAZAU. We intend to have the ordinary shares and warrants comprising the units offered hereby begin separate trading on the Nasdaq Capital Market, under the symbols CAZA and CAZAW respectively, five trading days following the earlier to occur of the expiration or termination of the underwriters' over-allotment option and its exercise in full, subject to our filing of a Report of Foreign Private Issuer on Form 6-K or on Form 8-K, as applicable, with the Securities and Exchange Commission containing an audited balance sheet reflecting our receipt of the gross proceeds of this offering and our issuing of a press release announcing when such separate trading will begin. We cannot assure you, however, that our securities will continue to be listed on the Nasdaq Capital Market.

Investing in our securities involves a high degree of risk. See Risk Factors beginning on page 25 of this prospectus for a discussion of information that should be considered in connection with an investment in our securities.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

No offer or invitation to subscribe for shares may be made to the public in the Cayman Islands.

	Per Unit	Total without Over-Allotment	Total with Over-Allotment
Public offering price	\$ 10.00	\$ 40,000,000	\$ 46,000,000
Underwriting discounts and commissions	\$ 0.225	\$ 900,000	\$ 1,035,000
Proceeds to us (before expenses)	\$ 9.775	\$ 39,100,000	\$ 44,965,000

The underwriters are offering the units on a firm commitment basis. The underwriters expect to deliver the units to purchasers on or about , 2010. Of the proceeds we receive from this offering and the sale of the sponsor's warrants described in this prospectus, approximately \$40,300,000, or \$10.075 per share in the aggregate (or approximately \$46,165,000, or approximately \$10.036 per share in the aggregate if the underwriters' over-allotment option is exercised in full), will be deposited into a trust account, at JPMorgan Chase Bank, N.A. These funds will not be released until the earlier of the completion of our initial business combination and our liquidation of our trust account (which may not occur until 18 months from the consummation of this offering or 24 months if we enter into a letter of intent or definitive agreement to enter into a business combination within such 18 month period).

SUMMARY

This summary only highlights the more detailed information appearing elsewhere in this prospectus. As this is a summary, it does not contain all of the information that you should consider in making an investment decision. You should read this entire prospectus carefully, including the information under Risk Factors and our financial statements and the related notes included elsewhere in this prospectus, before investing. References in this prospectus to we, us or our company refer to Cazador Acquisition Corporation Ltd. References to our sponsor's ordinary shares refer to the 1,150,000 shares, (of which up to 150,000 are subject to compulsory repurchase by us if the underwriters' overallotment option is not exercised), purchased from us for approximately \$25,000 prior to the date hereof. References in this prospectus to public shareholders refer to those holders of the ordinary shares included in the securities offered by this prospectus (either purchased in this offering or afterwards), and shall include any of our officers, directors and sponsor who either purchase securities in this offering or units or ordinary shares afterwards, provided that such individuals' status as public shareholders shall only exist with respect to those ordinary shares so purchased. References in this prospectus to our management team refer to our officers and directors. References to our sponsor refer to Cazador Sub Holdings Ltd. Unless we tell you otherwise, the information in this prospectus assumes that the underwriters will not exercise their over-allotment option. All dollar amounts referred to in this prospectus are in U.S. dollars unless otherwise indicated. Any discrepancies in the tables included herein between the amounts listed and the totals thereof are due to rounding.

We are an exempted company recently incorporated in the Cayman Islands with limited liability as a blank check company. As a Cayman Islands exempted company, we have obtained a tax exemption undertaking from the Cayman Islands government that, in accordance with section 6 of the Tax Concessions Law (1999 Revision) of the Cayman Islands, for a period of 20 years from the date of the undertaking, no law which is enacted in the Cayman Islands imposing any tax to be levied on profits, income, gains or appreciations shall apply to us or our operations and, in addition, that no tax to be levied on profits, income, gains or appreciations or which is in the nature of estate duty or inheritance tax shall be payable (i) on or in respect of our shares, debentures or other obligations or (ii) by way of the withholding in whole or in part of a payment of dividend or other distribution of income or capital by us to our members or a payment of principal or interest or other sums due under a debenture or other obligation of us.

We were incorporated for the purpose of effecting a merger, share capital exchange, asset acquisition, share purchase, reorganization or similar business combination, which we refer to throughout this prospectus as our initial business combination, with one or more operating businesses or assets, which we refer to throughout this prospectus as our target business or target businesses. Our efforts in identifying a prospective target business will not be limited to a particular industry or geographic location, but will concentrate on those opportunities that our management believes provide opportunities for growth. As such, we intend to initially focus our search for potential business combinations in developing countries in Central and Eastern Europe, Latin America and Asia (which we refer to as emerging markets). In recent years, certain emerging markets have been exhibiting positive economic trends and have continued to grow despite a general deceleration of economic activity in developed markets. At the same time, companies in emerging markets have had limited access to capital due to historical circumstances and inefficient capital markets. Therefore, we believe that companies in these regions offer significant opportunities for value creation by addressing the growing needs of the local population and exporting raw materials and finished or semi-finished goods to other countries. However, we could also explore opportunities within the United States and more developed countries in Europe, Asia and Oceania.

We are sponsored by Cazador Sub Holdings Ltd., a Cayman Islands exempted company. All of the shares in our sponsor are owned by Cazador Holdings Ltd., a Cayman Islands exempted company.

To date, our efforts have been limited to organizational activities as well as activities related to this offering. We do not have any specific initial business combination under consideration. We currently do not anticipate entering into an initial business combination with an entity affiliated with our directors, officers or sponsor. We have not, nor has anyone on our behalf, including without limitation any of our directors or officers, contacted or been contacted by any potential target business, conducted research with respect to or evaluated any potential target business or had any substantive discussions, formal or otherwise, with respect to a target business either prior to or following our incorporation. Additionally, we have not identified or located

TABLE OF CONTENTS

any suitable acquisition candidate, conducted any research or taken any measures, directly or indirectly, to locate a target business, nor have we engaged or retained any agent or other representative to identify or locate any suitable acquisition candidate, conduct any research or take any measures, directly or indirectly, to locate a target business.

Business Strategy

We will seek to capitalize on the investing experience and existing relationships of our management team, including investing in operating companies in emerging markets, and we believe that their skills in valuation, financial structuring, due diligence, governance and financial and management oversight will be valuable in our efforts to identify and evaluate a target business. Our executive officers and directors have on average over 20 years of experience investing in emerging markets. Over the years, they have built and maintain networks of relationships that we believe will provide us with access to numerous acquisition opportunities.

Their networks extend to key market participants, including investment and commercial banking firms, business communities, national leaders, legal professionals, and government development institutions in emerging markets. Certain of our executives and directors are affiliated with Arco Capital Corporation Ltd. (Arco) and/or Arco Capital Management LLC (ACM). Arco, a Cayman Islands exempted company incorporated with limited liability, is a specialty finance holding company that, through its subsidiaries, provides financing solutions primarily in emerging European, Latin American and Asian markets. Arco is externally managed by ACM. We believe that our relationship with Arco and ACM, and their experience in emerging markets and access to potential target businesses, will constitute a core strength of our company. Currently, ACM has offices in Puerto Rico and Bulgaria. We believe that this network of on-the-ground resources allows our executive officers and directors to maintain existing relationships and develop new ones and provides us with greater awareness of investment opportunities, market developments and business and cultural matters in these markets than competitors for target businesses who lack such a presence.

In our analysis of potential initial business combinations, we will employ the analytic and due diligence processes and procedures that have formed the basis of ACM's management team successful emerging market investments. Moreover, our sponsor will leverage the resources of ACM to provide administrative services to us including accounting, legal and operational support, and access to information technology.

Our executive officers and directors include:

Jay Johnston, Chairman and Co-Chief Executive Officer. Mr. Johnston has over two decades of investment experience in emerging markets. Mr. Johnston has served as Chief Executive Officer of ACM since January 1, 2007. He is also Chief Executive Officer and Chairman of Arco. From 2009 to August 2010, Mr. Johnston served as a Senior Advisor to Gramercy Advisors LLC (Gramercy). From 1999 to 2009, Mr. Johnston was the Co-Managing Partner of Gramercy, where he co-managed the portfolio investments of the Gramercy Emerging Markets Fund and other accounts managed by Gramercy. Prior to joining Gramercy, Mr. Johnston was Managing Director and Head of Emerging Markets Fixed Income Sales at Deutsche Bank Securities, Inc. from 1998 to 1999. From 1996 to 1998, Mr. Johnston was a Senior Vice President at Lehman Brothers in the Emerging Markets Group. From 1984 to 1996, Mr. Johnston worked in institutional fixed income, emerging market and high yield sales at a variety of institutions including ING Baring Securities, Inc., Oppenheimer & Company, Inc. and Dean Witter Reynolds, Inc. From 1983 to 1984, Mr. Johnston was a Portfolio Manager at Patterson Capital Corporation responsible for managing a \$1.3 billion portfolio of mortgage backed securities for a variety of U.S. savings and loans. Mr. Johnston received a B.S. degree in Finance from the University of Florida.

Francesco Piovanetti, Director, Co-Chief Executive Officer, Chief Financial Officer and President. Mr. Piovanetti has served as ACM's President since its formation. He is also the President, Chief Operating Officer, and Director of Arco. Mr. Piovanetti has more than a decade and a half of experience working in various areas of corporate finance, capital markets and investment banking. From 2003 to 2006, Mr. Piovanetti served as Managing Director for Asset Sourcing at Gramercy. Prior to joining Gramercy, from 1997 to 2003, Mr. Piovanetti was employed as an Analyst and later as an Associate, a Vice President and then as a Director at Deutsche Bank in its Structured Capital Markets Group, which executed proprietary and client arbitrage transactions. From 1995 to 1997, he was a Senior Analyst in Deloitte & Touche, LLC's Corporate

TABLE OF CONTENTS

Finance Group, where he consulted in the areas of commercial lending, mergers and acquisitions, management buyouts, capital sourcing and valuation services. Mr. Piovanetti received B.A. in Economics and B.S. in Finance from Bryant University, and an M.B.A. from Columbia Business School.

Facundo Bacardí, Director. Mr. Bacardí has served as our Director since August 2010. Mr. Bacardí is a member of the family that owns Bacardí Limited, one of the largest family owned companies in the worldwide liquor manufacturing and distributing business. At Bacardí Limited, he served as executive officer and director in Brazil and Trinidad. Mr. Bacardí was responsible for the creation of Bacardí Centroamericana, S.A. in 1980, which was sold in 1991. He has served as President and Director of Suramericana de Inversiones, S.A. since 1995, an investment company in Panamá that he founded in 1995. Mr. Bacardí was also Chairman and President of Nations Flooring, a flooring and window dressing company, between 1995 to 2004. From 1993 to 2000, he served as a director of CTA Industries, Inc., an insulation manufacturer. He also served as a director of JSM Holdings, Corp., an investment company, from 2003 to 2007. He graduated with a Bachelors of Science from Babson College in 1967.

David P. Kelley II, Director. Mr. Kelley has served as our Director since August 2010. Mr. Kelley is a partner of Zenith Capital Partners, LLC, a private equity firm located in New York, where he has served since 2006, and a founding partner of Andover Partners Strategic Security Solutions, LLC (AP-S3, LLC), a security and intelligence consulting firm, where he has served since December 2009. From 1985 to 1988, Mr. Kelley was a tax lawyer in the law firm of Brown and Wood located in New York. From 1988 to 1991, Mr. Kelley worked at Merrill Lynch in New York, where he was promoted to a Director of the Global Swap Group. From 1991 to 1994 Mr. Kelley was a Managing Director at UBS Securities in New York, in charge of the US Structured Products Group. From 1994 to 1998, Mr. Kelley was a Managing Director and Head of the Global Structured Products Group at Deutsche Bank Securities in New York. From 1998 to 2006, Mr. Kelley was a Managing Director of Integrated Capital Associates, a private equity firm, located in New York. Mr. Kelley is currently a Director of the Apex-Guotai Junan Greater China Fund, headquartered in Hong Kong. Mr. Kelley graduated from Emory University with a BA degree in 1979. He graduated with a J.D. degree from Temple University School of Law in 1983, and he received an L.L.M. in Taxation from New York University School of Law in 1985.

Shai Novik, Director. Mr. Novik has served as our Director since August 2010. Mr. Novik has served as the President and a director of PROLOR Biotech since 2005. From 2003 to 2005, Mr. Novik was the Managing Director of A.S. Novik, a private investment firm, and from 2000 to 2002, he was Managing Director of A-Online Capital, an investment firm. Mr. Novik previously served as Chief Operating Officer and Head of Strategic Planning of THCG, a technology and life sciences investment company, from 1998 to 2000. THCG was a portfolio company of Greenwich Street Partners, a large U.S.-based private equity fund. THCG's portfolio included several life sciences and medical device companies. Prior to his position at THCG, Mr. Novik served as Chief Operating Officer and Chairman of Strategy Committee of RogersCasey, an investment advisory company serving Fortune 500 companies such as DuPont, Kodak, General Electric and others, from 1994 to 1998. Mr. Novik is the co-founder and Chairman of the Board of Stentomics Inc., a private drug-eluting stent technology company developing next-generation, polymer-free drug-eluting stent solutions. Mr. Novik also serves on the boards of the privately-held companies Ucansi Inc., a company developing non-invasive vision correction products, and Odysseus Ventures Ltd., a managing partner of a small venture fund. Mr. Novik served for seven years in the Israeli Defense Forces, and received his M.B.A, with Distinction, from Cornell University.

Carlos Valle, Director. Mr. Valle has served as our Director since August 2010. Mr. Valle is a seasoned professional with broad global experience in finance. In May 2009, Mr. Valle retired from Merrill Lynch & Co. where he served for over 20 years in many diverse assignments. His expertise includes Leveraged Finance, Corporate Bonds, Structured Finance, Private Equity and Sales Management of both Institutional Fixed Income and Equities as well as International High Net Worth Private Clients. Prior to Merrill Lynch, Mr. Valle was a bond analyst for a major

Insurance company. He holds a Bachelor of Science degree from the Wharton School, University of Pennsylvania and an M.B.A. from the Darden School, University of Virginia. Mr. Valle served as Adjunct Professor at the Darden School in the Spring of 2010 and acts as advisor to various boards of directors.

3

TABLE OF CONTENTS

In addition to our executive officers and directors, we will draw on the experience of, and expertise of, officers and employees of ACM and we will seek to capitalize on the business experience and contacts of our board of directors:

For additional information on the background of our executive officers and directors, please see the sections in this prospectus entitled Proposed Business Management Expertise and Access to Resources and Management.

In addition we anticipate that target business candidates could be brought to our attention from various unaffiliated sources, including investment banks, venture capital funds, private equity funds, leveraged buyout funds, management buyout funds and other members of the financial community. Target businesses may be brought to our attention by such unaffiliated sources as a result of being solicited by us. These sources may also introduce us to potential target businesses on an unsolicited basis, since many of these sources will have read this prospectus and know what types of businesses we are targeting.

Certain members of our management team may stay involved in our management following our initial business combination. The roles that they may fill will depend on the type of business with which we combine and the specific skills and depth of the target's management. If one or more members of our management team remain with us in a management role following our initial business combination, we may enter into employment or other compensation arrangements with them, the terms of which have not been determined. If one or more of our executive officers or directors remain associated in some capacity with us following an initial business combination, it is unlikely that any of them will devote their full efforts to our affairs subsequent to an initial business combination. Moreover, we cannot assure you that members of our management team will have significant experience or knowledge relating to the operations of the particular target business.

Our initial business combination must be with one or more target businesses whose fair market value, individually or collectively, is equal to at least 80% of the balance in the trust account at the time of such initial business combination plus any amounts previously distributed to shareholders who have exercised their shareholder redemption rights (as described below). This may be accomplished by identifying and acquiring a single business or multiple operating businesses or operating assets, which may or may not be related, contemporaneously. If we acquire an operating business, we will always acquire at least a controlling interest in a target business (meaning more than 50% of the voting securities of the target business). If we acquire operating assets, such assets will constitute an operating business, or a portion thereof, and we will provide financial statements for any operating business or assets in the documentation provided to the shareholders in connection with the shareholder vote.

Our proposal to effect a business combination is subject to the provisions of Exchange Act 13e-4 and Regulation 14E and we will comply with the tender offer rules, including filing a Schedule TO when we provide shareholders with an opportunity to convert their shares.

The target business or businesses that we acquire may have a collective fair market value substantially in excess of the balance in the trust account. In order to consummate such an initial business combination, we may issue a significant amount of our debt or equity securities to the sellers of such business and/or seek to raise additional funds through an offering of debt, equity or other securities. There are no limitations on our ability to incur debt or issue securities in order to consummate an initial business combination; however, our amended and restated memorandum and articles of association prohibit us from incurring debt for borrowed money prior to an initial business combination, unless such debt does not require the payment of interest prior to an initial business combination and the lender waives any rights to the amounts held in trust. If we issue securities in order to consummate an initial business combination, our shareholders could end up owning a minority of the combined company as there is no requirement that our shareholders own a certain percentage of our company after our initial business combination. In addition, if our initial business combination involves a share exchange or similar reorganization or recapitalization, our shareholders could

end up owning different securities or securities of another entity. Since we have no specific initial business combination under consideration, we have not entered into any such arrangement to issue our debt, equity or other securities and have no current intention of doing so.

TABLE OF CONTENTS

If we are unable to consummate an initial business combination within 18 months from the consummation of this offering (or 24 months from the consummation of this offering if a letter of intent, an agreement in principle, or a definitive agreement to complete a business combination has been entered into within such 18-month period) we will notify our shareholders that we will compulsorily repurchase all shares held by the public shareholders and automatically liquidate our trust account pursuant to the procedure in our amended and restated memorandum and articles of association; provided, however, that there is no guarantee that investors will recover their full investment upon dissolution as creditor claims may take priority.

Conflicts of Interest

Our executive officers may be deemed an affiliate of any company for which he serves as an officer or director with respect to which that executive officer otherwise has a pre-existing fiduciary duty or contractual obligation and a conflict of interest could arise if an opportunity is appropriate for one of such companies. Thus, we may not be able to pursue opportunities that otherwise may be attractive to us unless these companies and entities have declined to pursue such opportunities. These pre-existing fiduciary duties may limit the opportunities that are available to us to consummate our initial business combination.

Some of our executive officers are employees and/or directors of Arco and/or ACM and as such owe a pre-existing fiduciary duty to Arco, ACM and/or their subsidiaries.

Private Placements and Future Purchases of Securities

We issued 1,437,500 shares to our sponsor for an aggregate of \$25,000 in cash at a purchase price of approximately \$0.01739 per share on June 16, 2010. On October 5, 2010 the Company repurchased 287,500 sponsor's ordinary shares for an aggregate purchase price of \$1.00. We refer to the current holders of these outstanding shares as our sponsor, and we refer to these outstanding shares as the sponsor's ordinary shares. As a result of the repurchase, the sponsor currently owns 1,150,000 ordinary shares. This includes an aggregate of up to 150,000 shares that are subject to compulsory repurchase by us from the sponsor on a pro rata basis to the extent that the underwriters' over-allotment option is not exercised in full so that our sponsor will own 20% of our issued and outstanding shares after this offering. The sponsor's ordinary shares have the terms described in this prospectus, and will be identical (with the exception of being subject to compulsory global repurchase by us) to the ordinary shares included in the units being offered by this prospectus.

In addition, our sponsor has agreed to purchase 4,340,000 sponsor's warrants at a price of \$0.50 per warrant (\$2,170,000 in the aggregate) in a private placement that will occur immediately prior to the consummation of this offering. The \$2,170,000 of proceeds from this private placement will be added to the proceeds of this offering and will be held in the trust account pending our completion of our initial business combination on the terms described in this prospectus. If we do not complete an initial business combination, then the \$2,170,000 will be part of the distribution to our public shareholders upon liquidation of our trust account, and the sponsor's warrants may expire worthless. The sponsor warrants will not be redeemable by us and our sponsor or its permitted transferees will have the right to exercise the sponsor warrants on a cashless basis, so long as such warrants are held by our sponsor or affiliates of our sponsor, any of our officers or directors or any of our officers and directors' respective immediate families or controlled affiliates, which we refer to as permitted transferees. To the extent that sponsor warrants are exercised on a cashless basis, we would not receive additional proceeds from such exercise. Warrants included in the

units sold in this offering may be exercisable on a cashless basis only at our discretion, and unless cashless exercise is authorized by us the exercise price with respect to the warrants must be paid in cash directly to us.

We are a Cayman Islands exempted company incorporated with limited liability on April 20, 2010. Our executive offices are located at c/o Arco Capital Management LLC, 7 Sheinovo Street, 1504 Sofia, Bulgaria and our telephone number is +359 2 895 2000.

TABLE OF CONTENTS

The Offering

In making your decision on whether to invest in our securities, you should take into account not only the backgrounds of the members of our management team, but also the special risks we face as a blank check company, and the fact that this offering is not being conducted in compliance with Rule 419 promulgated under the U.S. Securities Act of 1933, as amended (the Securities Act). You will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings. You should carefully consider these and the other risks set forth in the section below entitled Risk Factors beginning on page 25 of this prospectus.

Securities offered:

4,000,000 units, each unit consisting of:

one ordinary share; and

one warrant.

Trading commencement and separation of ordinary shares and warrants:

The units will begin trading on or promptly after the date of this prospectus. The ordinary shares and warrants will begin to trade separately five trading days after the earlier to occur of the termination or expiration of the underwriters' option to purchase up to 600,000 additional units to cover over-allotments and the exercise in full of that option. No fractional warrants will be issued and only whole warrants will trade. In no event will separate trading of the ordinary shares and warrants commence until we have filed an audited balance sheet reflecting our receipt of the gross proceeds of this offering and issued a press release announcing when separate trading will begin. We will file a Report of Foreign Private Issuer on Form 6-K or on Form 8-K, as applicable, with the Securities and Exchange Commission, including an audited balance sheet, promptly upon the consummation of this offering, which is anticipated to take place four business days after the date of this prospectus. The audited balance sheet will reflect our receipt of the proceeds from the exercise of the over-allotment option if the over-allotment option is exercised prior to the filing of the Form 6-K or Form 8-K. If the over-allotment option is exercised after our initial filing of a Form 6-K or Form 8-K, we will file an amendment to the Form 6-K or Form 8-K to provide updated financial information to reflect the exercise and consummation of the over-allotment option. We will also include in this Form 6-K or Form 8-K, or an amendment thereto, or in a subsequent Form 6-K or Form 8-K, information indicating the date on which separate trading of the ordinary shares and warrants will begin.

The units will continue to trade along with the ordinary shares and warrants after the units are separated. Holders will need to have their brokers contact our transfer agent in order to separate the units into ordinary shares and warrants.

Units:

Number outstanding before this offering:

0 units

TABLE OF CONTENTS

Number to be outstanding after this offering:	4,000,000 units ²
Ordinary shares:	
Number outstanding before this offering:	1,000,000 shares ³
Number to be outstanding after this offering:	5,000,000 shares ²
Warrants:	
Number outstanding before this offering:	0 warrants
Number to be sold privately immediately prior to the consummation of this offering:	4,340,000 warrants
Number to be outstanding after this offering and the private placement:	8,340,000 warrants ⁴
Exercisability:	Each warrant is exercisable for one ordinary share.
Exercise price:	\$7.50 per share.
Exercise period:	The warrants will become exercisable on the later of: the completion of our initial business combination; and

, 2011, one year from the date of this prospectus;
provided in each case that a registration statement under the Securities Act covering the ordinary shares issuable upon exercise of the warrants is effective and a current prospectus is available for use.

We have agreed to use our best efforts to have an effective registration statement covering the ordinary shares issuable upon exercise of the warrants as of the date the warrants become exercisable and to maintain a current prospectus relating to those ordinary shares until the warrants expire or are redeemed. In no event will we be required to net cash settle a warrant exercise.

² Assumes the over-allotment option has not been exercised. Excludes 200,000 units underlying the underwriter's purchase option to purchase 200,000 units after the consummation of a business combination. Assumes the over-allotment option has not been exercised. This number does not include an aggregate of 150,000 sponsor ordinary shares that will become subject to compulsory repurchase by us if the over-allotment option is not exercised pursuant to an agreement expected to be executed between us and the sponsor prior to the effectiveness of our initial public offering. The number of sponsor's ordinary shares necessary for our sponsor to maintain no more than its 20% ownership interest in our issued and outstanding shares will be compulsorily repurchased by us upon consummation of this offering. Excludes 200,000 shares underlying the underwriter's purchase option to purchase 200,000 units after the consummation of a business combination.

⁴ Assumes the over-allotment has not been exercised. Excludes 200,000 warrants underlying the underwriter's option to purchase 200,000 warrants after the consummation of a business combination.

TABLE OF CONTENTS

The warrants will expire five years from the date of the initial business combination or earlier upon redemption of the warrants by us.

On the exercise of any warrant, the warrant exercise price will be paid directly to us and not placed in the trust account.

Redemption of Warrants:

At any time while the warrants included in the units offered hereby are exercisable and there is an effective and current registration statement covering the ordinary shares issuable upon exercise of the warrants, we may redeem the outstanding warrants (except as described below with respect to the sponsor's warrants):

in whole and not in part;

at a price of \$0.01 per warrant;

upon a minimum of 30 days' prior written notice of redemption (the "30-day redemption period"); and

if, and only if, the last sale price of our ordinary shares on the Nasdaq Capital Market, or other national securities exchange on which our ordinary shares may be traded, equals or exceeds \$15.00 per share for any 20 trading days within a 30 trading day period ending three business days before we send the notice of redemption.

We will not redeem the public warrants unless a registration statement under the Securities Act, relating to the ordinary shares issuable upon exercise of the warrants included in the units offered hereby is effective and expected to remain effective to and including the redemption date, and a prospectus relating to the ordinary shares issuable upon exercise of the warrants is available throughout the 30-day redemption period. We do not need the consent of the underwriters or our shareholders to redeem the outstanding public warrants.

If we call the public warrants for redemption, we will have the option to require all holders that wish to exercise public warrants to do so on a cashless basis, although the public warrant holders are not eligible to do so at their own option. In such event, each holder would pay the exercise price by surrendering the warrants for that number of ordinary shares equal to the quotient obtained by dividing (x) the product of the number of ordinary shares underlying the warrants, multiplied by the difference between the fair market value (defined below) and the exercise price of the warrants by (y) the fair market value. The fair market value shall mean the average reported last sale price of the ordinary shares for the 10 trading days ending on the third trading day prior to the date on which the notice of redemption is sent to the holders of warrants. This would have the effect of reducing the number of shares received by holders of the warrants.

TABLE OF CONTENTS

Reasons for redemption limitations:

We have established the above conditions to our exercise of redemption rights to provide:

public warrant holders with adequate notice of exercise only after the then-prevailing ordinary share price is substantially above the warrant exercise price; and

a sufficient differential between the then-prevailing ordinary share price and the warrant exercise price so there is a buffer to absorb the market reaction, if any, to our redemption of the warrants.

If the foregoing conditions are satisfied and we issue a notice of redemption, each warrant holder can exercise warrants prior to the scheduled redemption date. However, the price of the ordinary shares may fall below the \$15.00 trigger price as well as the \$7.50 warrant exercise price after the redemption notice is issued.

Nasdaq Capital Market Listing:

We have applied to list the units (and subsequent to separation, the ordinary shares and the warrants), on the Nasdaq Capital Market upon consummation of this offering. Although after giving effect to this offering we expect to meet on a pro forma basis the minimum initial listing standards of the Nasdaq Company Guide, which only requires that we meet certain requirements relating to shareholders' equity, market capitalization, aggregate market value of publicly held shares and distribution requirements, we cannot assure you that our securities will continue to be listed on the Nasdaq Capital Market as we might not meet certain continued listing standards.

CAZAW

Sponsor's ordinary shares:

On June 16, 2010, our sponsor purchased 1,437,500 shares for an aggregate purchase price of \$25,000. On October 5, 2010, the Company repurchased 287,500 of our sponsor's ordinary shares for an aggregate purchase price of \$1.00. As a result of the repurchase, the sponsor currently owns 1,150,000 ordinary shares. This includes an aggregate of 150,000 shares that are subject to compulsory repurchase by us from our sponsor to the extent that the underwriters' over-allotment option is not exercised so that our sponsor will own no more than 20% of our issued and outstanding shares after this offering. The compulsory repurchase will be on a pro rata basis. The sponsor's ordinary shares are identical to those shares being sold in this offering, except that:

the sponsor's ordinary shares will be placed in an

TABLE OF CONTENTS

escrow account (as described below) and are subject to the restrictions described below;

subject to certain limited exceptions (as described below), the shares will not be transferable during the first 12 months following the consummation of the business combination. Our sponsor has agreed to vote their ordinary shares in the same manner as the majority of the ordinary shares voted by the public shareholders in connection with any vote required to approve our initial business combination;

our sponsor will not be able to exercise shareholder redemption rights (as described below) with respect to the sponsor's ordinary shares; and

our sponsor has agreed to waive its rights to participate in any liquidation of our trust account with respect to the sponsor's ordinary shares if we fail to consummate an initial business combination.

The sponsor, and its beneficial owners, have agreed not to sell or otherwise transfer any of the sponsor's ordinary shares other than to permitted transferees until (i) with respect to 50% of such shares, when the closing price of our ordinary shares exceeds \$11.50 for any 20 trading days within a 30-trading day period following the consummation of our initial business combination, and (ii) with respect to 50% of such shares, when the closing price of our ordinary shares exceeds \$15.00 for any 20 trading days within a 30-trading day period following the consummation of our initial business combination, provided, however, that in any event all of the foregoing shares shall be released from escrow upon the first anniversary of the initial business combination, and in any case, if, following a business combination, we engage in a subsequent transaction resulting in our shareholders having the right to exchange their shares for cash or other securities. In addition, Cazador Holdings Ltd., a Cayman Islands exempted company, will agree not to transfer its ownership interests in our sponsor or to take any steps to cause our sponsor to issue new ownership interests to anyone other than a permitted transferee. We refer to such restrictions as the "transfer restrictions" throughout this prospectus. A permitted transferee is a person or entity that receives such securities pursuant to a transfer (i) to one or more of our officers, directors or sponsor, (ii) to an affiliate, or to an affiliate under common control with the transferor, (iii) to an entity's beneficiaries upon its liquidation or distribution, (iv) to relatives and trusts for estate planning purposes, (v) by virtue of the laws of descent and distribution upon death, (vi) by private sales with respect to up to 33% of the sponsor's ordinary shares made at or prior to the consummation of an initial business combination at prices no greater than the recalculated price at which the units were purchased (\$0.01739 per share) or (vii) pursuant to a qualified domestic relations order; and in each case the

TABLE OF CONTENTS

transferee enters into a written agreement agreeing (i) to be bound by the transfer restrictions described above, (ii) to vote in accordance with the majority of the ordinary shares voted by public shareholders as described above and (iii) to waive any rights to participate in any liquidation of our trust account if we fail to consummate an initial business combination and, in the case of the sponsor's shares subject to compulsory repurchase, agreeing to the compulsory repurchase of such ordinary shares to the extent that the underwriters' over-allotment option is not exercised. For so long as the sponsor's ordinary shares are subject to such transfer restrictions they will be held in an escrow account maintained by Continental Stock Transfer & Trust Company, acting as escrow agent. The sponsor will retain all other rights as our shareholders with respect to the sponsor's ordinary shares, including, without limitation, the right to vote their ordinary shares and the right to receive dividends, if declared. For so long as the sponsor's ordinary shares are subject to such transfer restrictions, if dividends are declared and payable in units, such dividends will also be placed in escrow. If we are unable to effect an initial business combination and subsequently liquidate our trust account, our sponsor will not receive any portion of the trust account proceeds with respect to the sponsor's ordinary shares.

In addition, the sponsor or its permitted transferees are entitled to registration rights with respect to the sponsor's ordinary shares under an agreement to be signed on or before the date of this prospectus as described herein.

Sponsor's warrants:

Our sponsor has agreed, pursuant to a written agreement with us, to purchase an aggregate of 4,340,000 sponsor's warrants at a price of \$0.50 per warrant (\$2,170,000 in the aggregate). Our sponsor is obligated to purchase the sponsor's warrants from us immediately prior to the consummation of this offering. The sponsor's warrants will be purchased separately and not in combination with ordinary shares or in the form of units. The purchase price of the sponsor's warrants will be added to the proceeds from this offering to be held in the trust account pending the completion of our initial business combination. If we do not complete an initial business combination that meets the criteria described in this prospectus and are forced to liquidate the trust account, then the \$2,170,000 purchase price of the sponsor's warrants will become part of the distribution to our public shareholders and the sponsor's warrants may expire worthless.

The sponsor's warrants are identical to the warrants included in the units being sold in this offering, except that the sponsor's warrants (i) are non-redeemable, so long as they are held by any of the sponsor or its permitted transferees; (ii) are exercisable on a cashless basis at the election of the holder, so long as they are held by our sponsor or its permitted transferees, rather than at our election; and (iii) are

TABLE OF CONTENTS

not transferable or saleable by our sponsor or any of the sponsor's beneficial owners, except to permitted transferees (as defined above) until 6 months after the consummation of an initial business combination. In addition, each of the shareholders of our sponsor will agree not to transfer their respective ownership interests or take any steps to cause our sponsor to issue new ownership interests in such entities to anyone other than a permitted transferee (as defined above). The sponsor's warrants are not exercisable and will be held in the escrow account while they are subject to such transfer restrictions. In addition, commencing after the consummation of our initial business combination, the holders of the sponsor's warrants and the underlying ordinary shares and their permitted transferees are entitled to registration rights under an agreement to be signed on the date of this prospectus as described below.

Registration Rights:

Concurrently with the consummation of this offering, we will enter into a registration rights agreement with our sponsor with respect to securities held by it from time to time and with our sponsor with respect to the sponsor's warrants, sponsor's ordinary shares and any units purchased in this offering or the aftermarket by the sponsor (including ordinary shares and warrants comprising any of the units and the ordinary shares underlying any of the warrants). The registration rights agreement will provide that, after the consummation of our initial business combination, our sponsor and these holders (and their respective affiliates and other permitted transferees) may require us to register the resale of any of our securities held by them on a registration statement filed under the Securities Act, provided that the related securities may be sold under the registration statement only when those securities are released from escrow under the terms of the escrow agreement. We will bear the expenses incurred in connection with filing any such registration statement. See **Principal Shareholders' Registration Rights**. The holders of the warrants included in the units purchased in this offering will not be able to exercise those warrants unless we have an effective registration statement covering the shares issuable upon their exercise and related current prospectus is available. Although the ordinary shares issuable pursuant to the sponsor's warrants may or may not be issued pursuant to a registration statement, the warrant agreement provides that the sponsor's warrants and the sponsor's warrants may not be exercised unless a registration statement relating to the ordinary shares issuable upon exercise of the warrants purchased in this offering is effective and a related current prospectus is available. We will not be required to settle any warrant exercise for cash, whether by net cash settlement or otherwise.

TABLE OF CONTENTS

Offering proceeds and sponsor's warrants private placement proceeds to be held in trust account and amounts payable prior to trust account distribution:

\$40,300,000 or \$10.075 per unit (\$46,165,000 or approximately \$10.036 per unit, if the underwriters' over-allotment option is exercised in full) of the proceeds of this offering and the private placement of the sponsor's warrants will be placed in a trust account at JPMorgan Chase N.A. with Continental Stock Transfer & Trust Company as trustee, pursuant to an agreement to be signed on the date of this prospectus. We believe that the inclusion in the trust account of the purchase price of the sponsor's warrants is a benefit to our public shareholders because additional proceeds will be available for distribution to them if a liquidation of our trust account occurs prior to the consummation of our initial business combination. Except as described below, proceeds in the trust account will not be released until the earlier of our consummation of our initial business combination or our liquidation of the trust account. Unless and until our initial business combination is consummated, proceeds held in the trust account will not be available for our use for any purpose, including the payment of expenses related to (i) this offering, and (ii) the investigation, selection and negotiation of an agreement with one or more target businesses, except that there can be released to us from the trust account (a) interest income earned on the trust account balance to pay our tax obligations, (b) interest income earned of up to \$2,000,000 on the trust account balance to fund our working capital requirements, and (c) payments to public shareholders who properly exercise their shareholder redemption rights; provided, however, that we will not be allowed to withdraw interest income earned on the trust account for our working capital requirements unless we have sufficient funds available to us (including interest income on the trust account) to pay our tax obligations on such interest income or otherwise then due at that time. With these exceptions, expenses incurred by us while seeking a business combination may be paid prior to an initial business combination only from the net proceeds of this offering not held in the trust account (initially, \$545,000).

Limited payments to insiders:

There will be no fees, reimbursements or other cash payments paid to our sponsor, officers, directors or their affiliates prior to, or for any services they render in order to effectuate, the consummation of an initial business combination (regardless of the type of transaction that it is) other than:

repayment of a non-interest bearing loan of up to \$200,000 made to us by our sponsor; and

13

TABLE OF CONTENTS

reimbursement for any expenses incident to this offering and identifying, investigating and consummating an initial business combination with one or more target businesses. There is no limit on the amount of out-of-pocket expenses that could be incurred; provided, however, that to the extent such out-of-pocket expenses exceed the available proceeds not deposited in the trust account, only up to \$2,000,000 of the interest income earned on the balance in the trust account may be used to reimburse for such out-of-pocket expenses unless we consummate an initial business combination.

Our audit committee will review and approve all reimbursements made to our sponsor, officers, directors or their affiliates, and any reimbursements made to members of our audit committee will be reviewed and approved by our board of directors, with any interested director abstaining from such review and approval.

Release of funds in the trust account upon consummation of our initial business combination:

All amounts held in the trust account that are not distributed to public shareholders who properly exercise their shareholder redemption rights (as described below) or previously released to us as interest income for our working capital requirements and tax obligations, will be released on closing of our initial business combination with one or more target businesses, subject to compliance with the conditions to consummating an initial business combination that are described below. Funds released from the trust account to us can be used to pay all or a portion of the purchase price of the business or businesses with which our initial business combination occurs. If our initial business combination is paid for using equity, debt or other securities, we may apply the cash released to us from the trust account for general corporate purposes, including for maintenance or expansion of operations of the acquired businesses, the payment of principal or interest due on indebtedness incurred in consummating our initial business combination, to fund the purchase of other companies or for working capital.

Amended and restated memorandum and articles of association:

As discussed below, there are specific provisions in our amended and restated memorandum and articles of association, including the requirement to seek shareholder approval of our initial business combination and to provide for shareholder redemption rights of public shareholders if they do not approve of such an initial business combination, that will be in effect as of the date of this prospectus and that may only be amended by a consent of 66.66% of the issued and outstanding ordinary shares voting at a meeting in which the holders of 95% of the issued and outstanding ordinary shares must be present in person or by proxy in order to constitute a quorum. All other provisions of our

TABLE OF CONTENTS

amended and restated memorandum and articles of association may be amended with the consent of 66.66% of the issued and outstanding shares present in person or by proxy at a meeting in which the holders of a majority of the issued and outstanding ordinary shares must be present in person or by proxy in order to constitute a quorum. Our amended and restated memorandum and articles of association, which will be in effect as of the date of this prospectus, also provides that if after 18 months from the consummation of this offering we have not consummated our initial business combination (or 24 months from the consummation of this offering if we have entered into a letter of intent or a definitive agreement with respect to an initial business combination within such 18 month period), we are unable to consummate an initial business combination, we will notify our shareholders that we will compulsorily repurchase all shares held by the public shareholders and automatically liquidate our trust account in accordance with the procedure in our amended and restated memorandum and articles of association. The shares held by the public shareholders will be cancelled and our sponsor will be the only remaining shareholder and we will continue to survive.

We view all of these provisions, including the provision requiring liquidation of our trust account by , 2012 (or , 2012 if there is an extension) and the requirement that the holders of 95% of the issued and outstanding ordinary shares must be present in person or by proxy to constitute a quorum with respect to the above-referenced provisions, which are contained in our amended and restated memorandum and articles of association, as obligations to our shareholders. Each of our sponsor, directors and officers has agreed not to make any proposal to amend or waive any of these provisions prior to the consummation of our initial business combination.

Shareholders must approve initial business combination:

We will seek shareholder approval before effecting our initial business combination regardless of the type of transaction it is, even if the initial business combination would not ordinarily require shareholder approval under applicable law.

We will proceed with an initial business combination only if (i) a majority of the ordinary shares voted by the public shareholders present in person or by proxy are voted in favor of the business combination and (ii) no more than 49.9% of the shares sold in this offering properly exercise their shareholder redemption rights. Accordingly, it is our intention in every case to structure our proposed initial business combination such that we can proceed with our initial business combination if no more than 49.9%, on a cumulative basis, of the public shareholders exercise their shareholder redemption rights. In connection with the vote required for our initial business combination, a majority of

TABLE OF CONTENTS

our issued and outstanding shares (whether or not held by public shareholders) present in person or by proxy will constitute a quorum. Redeeming shareholders may vote either for or against the business combination but will receive no pro rata interest income in the event they vote against such business combination (this will be the case with respect to both redemption proceeds if the proposal is approved and the liquidation of the trust account if not) which will incentivize redeeming shareholders to vote for the business combination since redeeming shareholders voting for the business combination will be eligible to receive a pro rata share of the interest income earned by the trust not released to us for working capital purposes and as a result have a higher redemption price, and we will retain the difference to the extent of a liquidation of the trust account.

Conditions to consummating our initial business combination:

Our initial business combination must occur with one or more target businesses that collectively have a fair market value of at least 80% of the balance in the trust at the time of such initial business combination plus any amounts previously distributed to shareholders who have exercised their shareholder redemption rights. If we acquire less than 100% of a target business in our initial business combination, the aggregate fair market value of the portion we acquire must equal at least 80% of the balance in the trust account at the time of such initial business combination plus any amounts previously distributed to shareholders who have exercised their shareholder redemption rights. However, we will always acquire at least a controlling interest in a target business (meaning more than 50% of the voting securities of the target business), although after the consummation of the business combination our existing shareholders may own less than a majority of the voting securities of the combined businesses. We may seek to consummate an initial business combination with an initial target business or businesses with a collective fair market value in excess of 80% of the balance in the trust account. However, we may need to obtain financing to consummate such an initial business combination and have not taken any steps to obtain any such financing.

We will consummate our initial business combination only if our shareholders approve the consummation of that transaction, as set forth above.

Shareholder redemption rights for shareholders voting to reject our initial business combination:

We will not complete our proposed initial business combination if public shareholders owning more than 49.9% of the shares sold in this offering vote against the initial business combination and properly exercise their shareholder redemption rights. We will not increase or decrease the shareholder redemption threshold prior to the consummation of our initial business combination. We have set the

TABLE OF CONTENTS

shareholder redemption percentage at 49.9% in order to reduce the likelihood that a small group of investors holding a block of our ordinary shares will be able to stop us from completing an initial business combination or extending the period of time in which we may complete an initial business combination that may otherwise be approved by a large majority of our public shareholders. Redeeming shareholders may vote either for or against the business combination but will receive no pro rata interest income in the event they vote against such business combination (this will be the case with respect to both redemption proceeds if the proposal is approved and proceeds received from the liquidation of the trust account if not) which will incentivize redeeming shareholders to vote for the business combination since redeeming shareholders voting for the business combination will be eligible to receive a pro rata share of the interest income earned by the trust not released to us for working capital purposes and as a result have a higher redemption price, and we will retain the difference to the extent of a liquidation of the trust account. If our initial business combination is not approved or completed for any reason, then public shareholders voting against our initial business combination will not be entitled to redeem their ordinary shares for a pro rata share of the aggregate amount then on deposit in the trust account, even if they have chosen to exercise their shareholder redemption rights. Our sponsor and all of our officers and directors, have agreed to vote the ordinary shares owned by them immediately before this offering in the same manner as a majority of the ordinary shares voted by the public shareholders in connection with any vote required to approve our initial business combination. They also have agreed to vote any shares acquired by them in this offering or in the aftermarket in favor of an initial business combination. As a result the sponsor will not be able to exercise shareholder redemption rights with respect to any of our ordinary shares that they may acquire prior to, in or after this offering under any circumstances; however, the sponsor will be entitled to a pro-rata amount in trust with respect to ordinary shares acquired in the aftermarket.

Public shareholders who redeem their ordinary shares for a pro rata share of the trust account will be paid their shareholder redemption price promptly following the consummation of our initial business combination and will continue to have the right to exercise any warrants they own. The initial per share shareholder redemption price is \$10.00 per share, without taking into account any interest earned on such funds.

TABLE OF CONTENTS

Notwithstanding the foregoing, a public shareholder, together with any affiliate of his or any other person with whom he is acting in concert or as a partnership, syndicate or other group for the purpose of acquiring, holding or disposing of our securities, will be restricted from exercising shareholder redemption rights with respect to more than 10% of the ordinary shares sold in this offering in connection with the shareholder vote required to approve our initial business combination. Shares redeemed in connection with the vote on the initial business combination will be aggregated for purposes of this 10% limit. We believe this restriction will discourage shareholders from accumulating large blocks of ordinary shares before the vote held to approve a proposed business combination and attempting to use the shareholder redemption right as a means to force us or our management to purchase their ordinary shares at a significant premium to the then current market price. Absent this provision, a public shareholder who owns in excess of 10% of the ordinary shares sold in this offering could threaten to vote against a proposed business combination and exercise shareholder redemption rights, regardless of the merits of the transaction, in order to obtain certain advantages. By limiting a shareholder's ability to redeem only 10% of the ordinary shares sold in this offering, we believe we have limited the ability of a small group of shareholders to unreasonably attempt to block a transaction which is favored by our other public shareholders. However, we are not restricting the shareholders' ability to vote all of their shares against the transaction.

Further, we may require public shareholders, whether they are a record holder or hold their shares in street name, to either tender their certificates to our transfer agent at any time through the vote on the initial business combination or to deliver their shares to the transfer agent electronically using The Depository Trust Company's DWAC (Deposit/Withdrawal At Custodian) System, at the holder's option no later than the business day immediately preceding the vote on the initial business combination. The proxy solicitation materials that we will furnish to shareholders in connection with the vote for any proposed initial business combination will indicate whether we are requiring shareholders to satisfy such certification and delivery requirements. Accordingly, if we were to include this requirement, a shareholder would have from the time we send out our proxy statement through the vote on the initial business combination to tender his shares if he wishes to seek to exercise his redemption rights. This time period varies depending on the specific facts of each transaction. See Proposed Business Effecting an Initial Business Combination Shareholder Redemption Rights for a more complete discussion.

TABLE OF CONTENTS

Public shareholders who exercise their shareholder redemption rights will continue to retain all rights with respect to the warrants included as part of the units purchased in this offering that they hold.

If the initial business combination is not approved or completed for any reason, then public shareholders voting against our initial business combination, who exercised their shareholder redemption rights would not be entitled to redeem their ordinary shares for a pro rata share of the aggregate amount then in the trust account. If we have required public shareholders to deliver their certificates prior to the meeting, we will promptly return such certificates to the public shareholder. Public shareholders would be entitled to receive their pro rata share of the aggregate amount then in the trust account only in the event that such shareholder votes for the initial business combination and the initial business combination was duly approved and subsequently completed or in connection with our liquidation of our trust account.

Automatic liquidation of the trust account if no initial business combination:

As described above, if we are unable to consummate an initial business combination within 18 months (or 24 months if we have entered into a letter of intent or a definitive agreement with respect to an initial business combination) from the consummation of this offering, we will notify our shareholders that we will compulsorily repurchase, within five business days, all shares held by the public shareholders and automatically liquidate our trust account in accordance with the procedure in our amended and restated memorandum and articles of association.

We cannot assure you that the per-share distribution from the trust account, if we liquidate the trust account, will not be less than \$10.00 per ordinary share, plus interest then held in the trust account for the following reasons:

Although we will seek to have all third parties (other than our independent accountants, but including vendors, which means entities that provide goods and services to us) or other entities we engage after this offering, prospective target businesses and providers of financing, if any, enter into agreements with us waiving any right, title, interest or claim of any kind they may have in or to any monies held in the trust account, there is no guarantee that vendors, prospective target businesses or other entities will execute such waivers or, even if they execute such waivers, that they would be prevented from bringing claims against or directly or indirectly seeking recourse to the trust account, including but not limited to fraudulent inducement, breach of fiduciary responsibility and other similar claims, as well as claims challenging the enforceability of the waiver. Further, we could be subject to claims from parties not in contract with us who have not executed a waiver, such as a third party claiming tortious interference as a result of our efforts to

TABLE OF CONTENTS

consummate our initial business combination. Each of ACM and our sponsor has agreed that it will be jointly and severally liable, by means of direct payment to the trust account, to ensure that the proceeds in the trust account are not reduced by the claims of target businesses or claims of vendors or other entities that are owed money by us for services rendered or contracted for or products sold to us. However, the agreement entered into by our sponsor specifically provides for two exceptions to this indemnity; there will be no liability (1) as to any claimed amounts owed to a third party who executed a legally enforceable waiver or (2) as to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. Based upon representations from our sponsor that it has sufficient funds available to satisfy this indemnification obligation to us, we believe that our sponsor will be able to satisfy any indemnification obligations that may arise given the limited nature of the obligations. However, in the event that our sponsor has liability to us under these indemnification arrangements, we cannot assure you that it will have the assets necessary to satisfy those obligations. See Risk Factors

If third parties bring claims against us, the proceeds held in trust could be reduced and the per-share price from the liquidation of the trust account received by shareholders may be less than \$10.00 per share.

If we are unable to conclude an initial business combination and we expend all of the net proceeds from this offering and the sale of the sponsor's warrants not deposited in the trust account, without taking into account any interest earned on the trust account, we expect that the initial per-share price from the liquidation of the trust account will be approximately \$10.075 (or approximately \$10.036 per share if the underwriters' over-allotment option is exercised in full). The proceeds deposited in the trust account could, however, become subject to claims of our creditors that are payable in preference to the claims of our shareholders. Additionally, if we become insolvent or if a petition to wind up the company is filed against us that is not dismissed, the proceeds held in the trust account will be subject to applicable Cayman Islands insolvency and liquidation law, and may be included in our insolvent estate and subject to the claims of third parties with priority over the claims of our shareholders (including claims of our shareholders for amounts owed to them as a result of the redemption or repurchase of our shares). To the extent any such claims deplete the trust account, we cannot assure you we will be able to return to our public shareholders at least \$10.00 per ordinary share.

Survival after liquidation of trust account:

In the event that we fail to consummate a business combination by , 2012 (eighteen months from the closing of this offering) or , 2012 (twenty- four months from the closing of this offering) if the period

TABLE OF CONTENTS

to complete our business combination has been extended, we will liquidate the trust account, within five business days, pursuant to the procedures in our amended and restated memorandum and articles of association. Following such liquidation, each shareholder, other than our initial shareholder, shall have their shares repurchased using the proceeds from the liquidation of our trust account and such shares shall be cancelled, leaving our initial shareholder as the only shareholder. We will continue in existence as a public shell company and, subject to the provisions of our Amended and Restated Memorandum and Articles of Association, our management will have broad discretion to determine the future of our business, if any. In addition, as substantially all of our assets are expected to be distributed pursuant to the liquidation of our trust account, unless we obtain third-party financing, the surviving public shell company will have limited, or no, financial resources to pursue a new business.

Escrow of securities:

On the date of this prospectus, the sponsor's ordinary shares and sponsor's warrants will be placed into an escrow account maintained by Continental Stock Transfer & Trust Company, acting as escrow agent. These securities will not be transferable during the escrow period except to permitted transferees and will not be released from escrow until the applicable transfer restrictions described above no longer apply.

Audit committee to monitor compliance:

Effective upon consummation of this offering, we will establish, and will maintain, an audit committee to, among other things, monitor compliance on a quarterly basis with the terms described above and the other terms relating to this offering. If any noncompliance is identified, then the audit committee will be charged with the responsibility to promptly take all action necessary to rectify such noncompliance or otherwise cause compliance with the terms of this offering. Our audit committee will review and approve all reimbursements made to our sponsor, officers, directors or their affiliates and any reimbursements made to members of our audit committee will be reviewed and approved by our board of directors, with any interested director abstaining from such review and approval.

TABLE OF CONTENTS

Determination of offering amount:

We agreed to value the offering at \$40,000,000 based on the previous transactional experience of our management team. We also considered the size of the offering to be an amount we believed could be successfully utilized in our initial business combination. This belief is not based on any research, analysis, evaluations, discussions, or compilations of information with respect to any particular investment or any such action undertaken in connection with our organization. We cannot assure you that our belief is correct, that we will be able to successfully identify target businesses, that we will be able to obtain any necessary financing or that we will be able to consummate a transaction with one or more target businesses. We may utilize the cash proceeds of this offering and the private placement of the sponsor's warrants, our share capital, debt, other securities or a combination of these as the consideration to be paid in our initial business combination.

22

TABLE OF CONTENTS

RISKS

We are a newly incorporated company that has conducted no operations and has generated no revenues. Until we complete an initial business combination, we will have no operations and will generate no operating revenues. In making your decision on whether to invest in our securities, you should take into account not only the background of our management team, but also the special risks we face as a blank check company. This offering is not being conducted in compliance with Rule 419 promulgated under the Securities Act. Accordingly, you will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings. You should carefully consider these and the other risks set forth in the section entitled **Risk Factors** beginning on page 25 of this prospectus.

23

TABLE OF CONTENTS**SUMMARY FINANCIAL DATA**

The following table summarizes the relevant financial data for our business and should be read in conjunction with our financial statements and related notes, which are included in this prospectus. We have not had any significant operations to date, so only balance sheet data is presented.

	As of June 22, 2010	
	Actual	As Adjusted
Balance Sheet Data:		
Working capital (deficiency)	\$ 11,704	\$ 11,704
Total assets	\$ 55,000	\$ 40,900,000
Total liabilities	\$ 43,296	\$ 43,296
Value of ordinary shares which may be redeemed for cash	\$ 0	\$ 20,109,700
Shareholders' equity	\$ 11,704	\$ 20,747,004

The as adjusted information gives effect to the sale of the units we are offering including the application of the related gross proceeds, the receipt of \$2,170,000 from the sale of the sponsor's warrants and the payment of the estimated remaining expenses of this offering. It also gives effect to the repurchase of 287,500 shares from the sponsor on October 5, 2010 for an aggregate purchase price of \$1.00.

The as adjusted total assets amounts include approximately \$40,300,000 to be held in the trust account, which will be distributed to us on completion of our initial business combination. We will use such funds to pay amounts owed to any public shareholders who properly exercise their shareholder redemption rights. All such proceeds will be distributed to us from the trust account only upon the consummation of an initial business combination within 18 months (or 24 months if we have entered into a letter of intent or a definitive agreement with respect to an initial business combination within such 18 month period) from the consummation of this offering. If an initial business combination is not so consummated, any net assets outside of the trust account and the proceeds held in the trust account, and all interest thereon, net of interest income on the trust account balance previously released to us to pay our tax obligations and interest income of up to \$2.0 million on the trust account balance previously released to us to fund our working capital requirements, will be distributed solely to our public shareholders as part of our liquidation of our trust account, within five business days, pursuant to the procedures in our amended and restated memorandum and articles of association.

We will not consummate an initial business combination if public shareholders owning 49.9% or more of the ordinary shares sold in this offering vote against the initial business combination and properly exercise their shareholder redemption rights. If shareholders owning up to 49.9% of the ordinary shares sold in this offering properly exercise their shareholder redemption rights, we would be required to redeem for cash up to 49.9% of the ordinary shares sold in this offering at an initial per-share redemption price of approximately \$10.075 for approximately \$20,109,700 in the aggregate (or approximately \$10.036 per share for approximately \$23,036,634 in the aggregate if the underwriters exercise their over-allotment option in full). The actual per-share redemption price will be equal to:

the aggregate amount then on deposit in the trust account as of two business days prior to the proposed consummation of an initial business combination,

divided by the number of ordinary shares sold in this offering.

TABLE OF CONTENTS

RISK FACTORS

An investment in our securities involves a high degree of risk. You should consider carefully all of the material risks described below, together with the other information contained in this prospectus before making a decision to invest in our units. We believe that the risks described below are all of the material risks we face. If any of the following events occur, our business, financial condition and operating results may be materially adversely affected. In that event, the trading price of our securities could decline, and you could lose all or part of your investment. This prospectus also contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in the forward-looking statements as a result of specific factors, including the risks described below.

Risks Associated with Our Business

We are a recently incorporated development stage company with no operating history and no revenues, accordingly, you will have no basis upon which to evaluate our ability to achieve our business objective.

We are a recently incorporated development stage company with no operating results. Therefore, our ability to begin operations is dependent upon obtaining financing through this offering. Because we do not have an operating history, you will have no basis upon which to evaluate our ability to achieve our business objective, which is to consummate our initial business combination with one or more operating businesses. We have no plans, arrangements or understandings with any prospective target business concerning an initial business combination and we have neither identified, nor been provided with the identity of, any prospective target businesses. Neither we nor any representative acting on our behalf have had any contacts or discussions with any prospective target business regarding our initial business combination or taken any direct or indirect measures to locate a specific target business or consummate our initial business combination. As a result, you have a limited basis to evaluate whether we will be able to identify an attractive target business. We will not generate any revenues (other than interest income on the proceeds from this offering and the private placement) until, if at all, after the consummation of our initial business combination. We cannot assure you as to when, or if, our initial business combination will occur. If we expend all of the \$545,000 in proceeds from this offering not held in trust and interest income earned of up to \$2.0 million on the balance of the trust account (net of taxes) that may be released to us to fund our working capital requirements in seeking our initial business combination, but fail to complete a business combination, we will never generate any operating revenues.

We may not be able to consummate an initial business combination within the required time frame, in which case, we would be forced to distribute the trust account proceeds and liquidate our trust account.

Pursuant to our amended and restated memorandum and articles of association, we have 18 months from the completion of this offering in which to consummate our initial business combination (24 months if we have entered into a letter of intent or a definitive agreement with respect to an initial business combination prior to . 2012). If we fail to consummate our initial business combination within the required time frame, this will trigger the compulsory repurchase by us, within five business days, of all shares held by the public shareholders and the distribution of amounts in the trust account by paying each public shareholder a pro rata portion of the amount in the trust account in return for such shareholder's shares (which will be subsequently cancelled upon completion of the redemption of such shares).

The foregoing requirements are set forth in Article 47, which we refer to as our business combination articles, in our amended and restated memorandum and articles of association and may not be amended except by approval of 66.66% of the issued and outstanding shares at a meeting where the holders of 95% of the outstanding ordinary shares must be present in order to constitute a quorum. We may not be able to find suitable target businesses within the required time frame. In addition, our negotiating position and our ability to conduct adequate due diligence on any potential target may be reduced as we approach the deadline for the consummation of our initial business combination. Furthermore, we will be unable to consummate an initial business combination if holders of 49.9% or more of the shares included in the units sold in this offering vote against the initial business combination and exercise their shareholder redemption rights for a pro rata share of the trust account, even if a majority of our public shareholders approve the transaction. We do not have any specific business combination under consideration, and neither we, nor any representative acting on our behalf,

TABLE OF CONTENTS

has had any contact with any target businesses regarding an initial business combination, nor taken any direct or indirect actions to locate or search for a target business.

If we are forced to liquidate our trust account before the completion of an initial business combination and distribute the trust account, our public shareholders may receive less than \$10.00 per share and our warrants may expire worthless.

If we fail to sign a definitive agreement with respect to our initial business combination, or if we fail to complete an initial business combination within 18 months (or 24 months if we have entered into a letter of intent or a definitive agreement with respect to an initial business combination), we will notify our shareholders that we will compulsorily repurchase all shares held by the public shareholders using the proceeds in our trust account.

In these circumstances, the per-share repurchase distribution may be less than \$10.00 because of the expenses of this offering, our general and administrative expenses and the anticipated costs of seeking an initial business combination.

If we were unable to conclude our initial business combination and have expended all of the net proceeds of this offering, other than the proceeds deposited in the trust account, and without taking into account interest, if any, earned on the trust account, net of income taxes payable on such interest and net of up to \$2.0 million in interest income on the trust account balance previously released to us to fund working capital requirements, the initial per-share repurchase amount for the shares issued in this offering would be \$10.00. Furthermore, there will be no distribution with respect to our outstanding warrants.

If we are unable to consummate an initial business combination, our public shareholders will be forced to wait the full 18 months (or 24 months if we have entered into a letter of intent or a definitive agreement with respect to an initial business combination) before receiving the trust account proceeds.

We have 18 months (or 24 months if we have entered into a letter of intent or a definitive agreement with respect to an initial business combination within such 18 month period) in which to complete our initial business combination. If we do not consummate our initial business combination during such time period, we will notify our shareholders that we will compulsorily repurchase, within five business days, all shares held by the public shareholders.

We have no obligation to return funds to investors prior to the expiration of 18 months (or 24 months) unless we consummate an initial business combination prior thereto and only then in cases where investors have properly sought shareholder redemption of their shares. Only after the expiration of this full time period will public shareholders be entitled to repurchase distributions if we are unable to complete an initial business combination. Accordingly, investors' funds may be unavailable to them until such date.

We may proceed with an initial business combination even if public shareholders owning 49.9% of the shares sold in this offering (minus one ordinary share) exercise their shareholder redemption rights.

We may proceed with an initial business combination even if public shareholders owning not more than 49.9% less one share of the shares sold in this offering vote against the initial business combination and exercise their shareholder redemption rights. Accordingly, shareholders holding no more than 49.9% of the ordinary shares purchased in this

If we are forced to liquidate our trust account before the completion of an initial business combination and distribute

offering may exercise their shareholder redemption rights as described above and we could still consummate a proposed business combination. We have set the shareholder redemption percentage at 49.9% in order to reduce the likelihood that a small group of investors holding a block of our ordinary shares will be able to prevent an initial business combination from being completed that is otherwise approved by a majority of our public shareholders.

Our initial business combination may require us to use substantially all of our cash to pay the purchase price. In such a case, because we will not know how many shareholders may exercise such shareholder redemption rights, we may need to arrange third party financing to help fund our business combination in case a larger percentage of shareholders exercise their shareholder redemption rights than we expect. Additionally, even if our initial business combination does not require us to use substantially all of our cash to pay the purchase price, if a significant number of shareholders exercise their shareholder redemption rights, we will have less cash available to use in furthering our business plans following an initial business combination and may need to arrange third party financing. We have not taken any steps to obtain third party financing for either situation. We may not be able to obtain such third party financing on terms favorable to us if at all.

TABLE OF CONTENTS

You will not be entitled to protections normally afforded to investors of blank check companies.

Since the net proceeds of this offering are intended to be used to complete an initial business combination with a target business that has not been identified, we may be deemed to be a blank check company under the United States securities laws. However, since our securities will be listed on the Nasdaq Capital Market, a U.S. national securities exchange, and we will have net tangible assets in excess of approximately \$40 million upon the successful consummation of this offering and will file a Report of Foreign Private Issuer on Form 6-K or on Form 8-K, as applicable, including an audited balance sheet demonstrating this fact, we are exempt from rules promulgated by the U.S. Securities and Exchange Commission, or the SEC, to protect investors in blank check companies such as Rule 419. Accordingly, investors will not be afforded the benefits or protections of those rules such as completely restricting the transferability of our securities, requiring us to complete an initial business combination within 18 months of the effective date of the initial registration statement and restricting the use of interest earned on the funds held in the trust account. Because we are not subject to Rule 419, among other things, our units will be immediately tradable, we will be entitled to withdraw up to \$2.0 million of interest, after taxes, earned on the funds held in the trust account prior to the completion of our initial business combination and we have a longer period of time to complete our initial business combination than we would if we were subject to such rule. For a more detailed comparison of our offering to offerings that comply with Rule 419, please see Proposed Business Comparison of This Offering to Those of Blank Check Companies Subject to Rule 419.

Because of our limited resources and structure, we may not be able to consummate an attractive initial business combination.

We expect to encounter intense competition from entities other than blank check companies having an initial business objective similar to ours, including venture capital funds, leveraged buyout funds and operating businesses competing for acquisitions. Many of these entities are well established and have extensive experience in identifying and effecting business combinations directly or through affiliates. Many of these competitors possess greater financial, technical, human and other resources than we do. Our ability to compete in acquiring certain sizable target businesses will be limited by our available financial resources. This inherent competitive limitation gives others an advantage in pursuing the acquisition of certain target businesses. As of August 18, 2010, 96 of the 163 blank check companies that have gone public in the United States since August 2003 have either consummated a business combination or entered into a definitive agreement for a business combination and 64 companies have failed to complete business combinations and have either dissolved or announced their intention to dissolve and return trust proceeds to their shareholders. This may indicate that there are fewer attractive target businesses available to such entities like our company or that many target businesses are not inclined to enter into these types of transactions with publicly held blank check companies like ours. Further:

our obligation to seek shareholder approval of our initial business combination may cause us to be viewed as a less attractive buyer compared to buyers who do not need such approval given the time required to seek such approval and the concomitant potential delay in the consummation of a transaction;

our obligation to redeem into cash up to 49.9% (minus one share) of the ordinary shares held by public shareholders in certain instances may materially reduce the resources available for a business combination; and

our outstanding warrants, and the future dilution they potentially represent, may not be viewed favorably by certain target businesses.

These obligations may place us at a competitive disadvantage in successfully negotiating our initial business combination. We cannot assure you that we will be able to effectuate a business combination within the required time period. If we are unable to find a suitable target business within the required time period, we will be forced to

liquidate our trust account.

TABLE OF CONTENTS

If the net proceeds of this offering not being held in the trust account, together with the \$2.0 million of interest in the trust account (net of taxes) which may be released to us for working capital purposes, are insufficient to allow us to operate for at least the next 18 months (or 24 months if extended), we may be unable to complete an initial business combination.

We believe that, upon consummation of this offering, the funds available to us outside of the trust account, plus the interest earned on the funds held in the trust account that may be available to us, will be sufficient to allow us to operate for at least the next 18 months (or 24 months if we have entered into a letter of intent or a definitive agreement with respect to an initial business combination), assuming that an initial business combination is not consummated during that time. However, we cannot assure you that our estimates will be accurate. We could use a portion of the funds available to us to pay fees to consultants to assist us with our search for a target business. We could also use a portion of the funds as a down payment or to fund a no-shop provision (a provision in letters of intent designed to keep target businesses from shopping around for transactions with other companies on terms more favorable to such target businesses) with respect to a particular proposed business combination, although we do not have any current intention to do so. If we entered into a letter of intent where we paid for the right to receive exclusivity from a target business and were subsequently required to forfeit the funds (whether as a result of our breach or otherwise), we might not have sufficient funds to continue searching for, or conduct due diligence with respect to, a target business.

We may require shareholders who wish to redeem their shares in connection with a proposed initial business combination to comply with specific requirements for shareholder redemption that may make it more difficult for them to exercise their shareholder redemption rights prior to the deadline for exercising their rights.

We may require public shareholders who wish to redeem their shares in connection with a proposed initial business combination to either physically tender their certificates, if they hold physical share certificates, to our transfer agent at any time prior to the vote taken at the shareholder meeting relating to such business combination or to deliver their shares to the transfer agent electronically using the Depository Trust Company's DWAC (Deposit/Withdrawal At Custodian) System. While we have been advised that it takes a short time to deliver shares through the DWAC System, we cannot assure you of this fact, or of the amount of time required to deliver physical share certificates. Accordingly, if it takes longer than we anticipate for shareholders to deliver their shares, shareholders who wish to redeem may be unable to meet the deadline for exercising their shareholder redemption rights and thus may be unable to redeem their shares.

Public shareholders, together with any affiliates of theirs or any other person with whom they are acting in concert or as a partnership, syndicate or other group for the purpose of acquiring, holding or disposing of our securities, will be restricted from seeking shareholder redemption rights with respect to more than 10% of the shares sold in this offering.

In connection with any shareholder approval to approve our initial business combination, we will offer each public shareholder the right to have his, her, or its ordinary shares redeemed for cash if the shareholder votes against the consummation of our initial business combination, if, our initial business combination is approved and completed.

If the net proceeds of this offering not being held in the trust account, together with the \$2.0 million of interest in the trust account, are insufficient to allow us to operate for at least the next 18 months (or 24 months if extended), we may be unable to complete an initial business combination.

Notwithstanding the foregoing, a public shareholder, together with any affiliate of his or any other person with whom he is acting in concert or as a partnership, syndicate or other group for the purpose of acquiring, holding or disposing of our securities, will be restricted from exercising redemption rights with respect to more than 10% of the shares sold in this offering on a cumulative basis, in connection with the shareholder vote, required to approve our initial business combination. Accordingly, if you, alone or as part of such a partnership, syndicate or group, purchase more than 10% of the shares sold in this offering you will not be able to seek shareholder redemption rights with respect to the full amount of your shares and may be forced to hold such additional shares or sell them in the open market. We cannot assure you that the value of such additional shares will appreciate over time or that the market price of the ordinary shares will exceed the per-share redemption price.

TABLE OF CONTENTS

After we consummate our initial business combination, we may be required to take write-downs or write-offs, restructuring, and impairment or other charges that could have a significant negative effect on our financial condition, results of operations and our ordinary share price, which could cause you to lose some or all of your investment.

We must conduct a due diligence investigation of each target business we intend to acquire. Intensive due diligence is time consuming and expensive due to the operations, accounting, finance, legal and other professionals who must be involved in the due diligence process. Even though we intend to conduct extensive due diligence on a target business with which we combine, we cannot assure you that this due diligence will reveal all material issues that may affect a particular target business, or that factors outside the control of the target business and outside of our control will not later arise. If our due diligence fails to identify issues specific to a target business, industry or the environment in which a target business operates and we subsequently consummate a business combination with that target, we may be forced to later write-down or write-off assets, restructure our operations, or incur impairment or other charges that could result in our reporting losses. Even though these charges may be non-cash items and may not have an immediate impact on our liquidity, the fact that we report charges of this nature could contribute to negative market perceptions about us or our securities. In addition, charges of this nature may cause us to violate net worth or other covenants to which we may be subject as a result of assuming pre-existing debt held by a target business or by virtue of our obtaining post-combination debt financing.

A decline in interest rates could limit the amount available to fund our search for a target business or businesses and complete an initial business combination since we will depend on interest earned on the trust account to fund our search, to pay our tax obligations and to complete our initial business combination.

Of the net proceeds of this offering, only \$545,000 will be available to us initially outside the trust account to fund our working capital requirements. We will depend on sufficient interest being earned on the proceeds held in the trust account to provide us with up to \$2.0 million in additional working capital that we will need to identify one or more target businesses and to consummate our initial business combination, as well as to pay any tax obligations that we may owe. Although we do not know the exact rate of interest to be earned on the trust account, we believe that the recent historical interest rates of U.S. Treasury Bills with less than six months maturities are indicative of the interest to be earned on the funds in the trust account. According to the Federal Reserve Statistical Release dated August 3, 2010, which appears on the Federal Reserve website, U.S. Treasury Bills with four week, three month and six month maturities were approximately yielding, as of the week ended August 3, 2010, .15%, .16% and .20% per annum, respectively. While we cannot assure you the balance of the trust account will be invested to yield these rates, we believe such rates are representative of those we may receive on the balance of the trust account. While we do not necessarily expect to receive interest income of \$2.0 million from the trust account, we are entitled to have released to us for such purposes up to \$2.0 million in interest earned on the funds in the trust account. Without a substantial increase in interest rates, however, we may not have sufficient funds available with which to structure, negotiate or close an initial business combination. In such event, we would need to borrow funds from our sponsor, officers or directors to operate or may be forced to liquidate our trust account. Our sponsor, officers or directors are under no obligation to advance funds in such circumstances.

After we consummate our initial business combination, we may be required to take write-downs or write-offs, restructur

If third parties bring claims against us, the proceeds held in trust could be reduced and the per-share price from the liquidation of our trust received by shareholders may be less than \$10.00 per share.

Our placing of funds in the trust account may not protect those funds from third party claims against us. Although we will seek to have all vendors and service providers we engage, and prospective target businesses we negotiate with, and other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account for the benefit of our public shareholders, there is no guarantee that they will execute such agreements and the execution of such an agreement is not a condition to our doing business with anyone. Furthermore, there is no guarantee that, even if such entities execute such agreements with us, they will not seek recourse against the trust account, nor is there any guarantee that such entities will agree to waive any claims they may have in the future as a result of, or arising out of, any negotiations, contracts or agreements with us and will not seek recourse directly or

TABLE OF CONTENTS

indirectly against the trust account for any reason. There is also no guarantee that a court would uphold the validity of such agreements. Further, we could be subject to claims from parties not in contract with us who have not executed a waiver, such as a third party claiming tortious interference as a result of our initial business combination.

Accordingly, the proceeds held in trust could be subject to claims which could take priority over those of our public shareholders and, as a result, the per-share price from the liquidation of our trust account could be less than \$10.00 due to claims of such creditors. If we distribute amounts held in trust to our public shareholders pursuant to the exercise of shareholder redemption rights in connection with the consummation of our initial business combination, or if we liquidate our trust account before the completion of our initial business combination, each of ACM and our sponsor has agreed that it will be jointly and severally liable, by means of direct payment to the trust account, to ensure that the amount in the trust account is not reduced by the claims of target businesses or claims of vendors or other entities that are owed money by us for services rendered or contracted for or products sold to us. However, there will be no liability (1) as to any claimed amounts owed to a third party who executed a legally enforceable waiver or (2) as to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. Based upon representations from our sponsor that it will have sufficient funds available to satisfy its indemnification obligations to us, we believe that our sponsor and ACM will be able to satisfy any indemnification obligations that may arise given the limited nature of the obligations. However, in the event they have liability to us under these indemnification arrangements, we cannot assure you that they will have the assets necessary to satisfy those obligations. Furthermore, there could be claims from parties other than vendors or target businesses that would not be covered by this indemnity, such as shareholders and other claimants who are not parties in contract with us who file a claim for damages against us. Obtaining trust fund waivers from prospective target businesses and vendors, and the contractual commitments we have received from our sponsor discussed above, are the only actions we will take to ensure that the funds in the trust account are not depleted by claims against the trust. Because we will seek to have all vendors (other than our independent accountants), providers of financing and prospective target businesses execute agreements with us waiving any right, title, interest or claim of any kind they may have in or to any monies held in the trust account, we believe the likelihood of our sponsor having any such obligations is minimal. However, there is no guarantee that vendors, prospective target businesses or other entities will execute such waivers, or even if they execute such waivers that they would be prevented from bringing claims against the trust account, including but not limited to fraudulent inducement, breach of fiduciary responsibility and other similar claims, as well as claims challenging the enforceability of the waiver, in each case in order to seek recourse against our assets, including the funds held in the trust account. Further, we could be subject to claims from parties not in contract with us who have not executed a waiver, such as a third party claiming tortious interference as a result of our initial business combination. Notwithstanding the foregoing, we have questioned our sponsor with respect to their financial net worth and reviewed their financial information and believe that they will be able to satisfy any indemnification obligations that may arise. However, we cannot assure you that they will be able to satisfy those obligations. Therefore, we cannot assure you that the per-share distribution from the trust account, if we liquidate our trust account, will not be less than \$10.00, plus interest, due to such claims.

Additionally, if we became insolvent or a petition to wind up our company is filed against us which is not dismissed, the proceeds held in the trust account could be subject to applicable Cayman Islands insolvency law, and may be included in our insolvent estate and subject to the claims of third parties with priority over the claims of our shareholders (including claims of our shareholders for amount owed to them as a result the redemption or repurchase of our shares). To the extent any insolvency claims deplete the trust account, we cannot assure you we will be able to return to our public shareholders at least \$10.00 per share.

If third parties bring claims against us, the proceeds held in trust could be reduced and the per-share price from the

Our shareholders may be held liable for claims by third parties against us to the extent of distributions received by them.

Our amended and restated memorandum and articles of association provides that if after 18 months (or 24 months, if we have entered into a letter of intent or a definitive agreement with respect to an initial business combination) from the completion of this offering we have not consummated our initial business

TABLE OF CONTENTS

combination, we will notify our shareholders that we will compulsorily repurchase all shares held by the public shareholders, including the repayment of our shareholders, using the proceeds of our trust account.

To the extent any claims deplete the trust account we cannot assure you we will be able to return to our public shareholders the repurchase amounts payable to them. In addition, under certain limited circumstances, distributions received by shareholders could be viewed by applicable laws (including insolvency laws and certain equitable and/or restitution principles) as either fraudulent transfers or mistaken or otherwise wrongful payments. In those circumstances, a Cayman Islands court could order that amounts received by our shareholders be repaid to us.

An effective registration statement may not be in place when an investor desires to exercise warrants, thus precluding such investor from being able to exercise his, her or its warrants and causing such warrants to expire worthless.

No warrant held by public shareholders will be exercisable and we will not be obligated to issue ordinary shares upon any such exercise unless, at the time a holder seeks to exercise a warrant, we have a registration statement under the Securities Act in effect covering the ordinary shares issuable upon the exercise of the warrants and a current prospectus relating to the resale of those ordinary shares. Under the terms of the warrant agreement, we have agreed to use our best efforts to have a registration statement in effect covering the ordinary shares issuable upon exercise of the warrants as of the date the warrants become exercisable and to maintain a current prospectus relating to the ordinary shares issuable upon exercise of the warrants until the later of the expiration of the warrants or the exercise of all of the warrants. However, we cannot assure you that we will be able to do so. We will not be required to net cash settle the warrants if we do not maintain a current prospectus or in any other circumstances whatsoever. In such event, the warrants held by public shareholders may have no value, the market for such warrants may be limited, such warrants may expire worthless and, as a result, an investor may have paid the full unit price solely for the ordinary shares included in the units.

An investor will only be able to exercise a warrant if the issuance of ordinary shares upon the exercise has been registered or qualified or is deemed exempt under the securities laws of the state or jurisdiction of residence of the holder of the warrants.

No warrants will be exercisable and we will not be obligated to issue ordinary shares unless the issuance of the ordinary shares upon an exercise has been registered or qualified or deemed to be exempt under the securities laws of the state or jurisdiction of residence of the holder of the warrants. Because the exemptions from qualification in certain states for resales of warrants and for issuances of ordinary shares by the issuer upon exercise of a warrant may be different, a warrant may be held by a holder in a state where an exemption is not available for issuance of ordinary shares upon an exercise and the holder will be precluded from exercise of the warrant. At the time that the warrants become exercisable (the later of our completion of an initial business combination and one year from the date of this prospectus), we expect to continue to be listed on a national securities exchange, which would provide an exemption from registration in every state or to seek another exemption from registration in such states. Accordingly, we believe holders in every state will be able to exercise their warrants as long as our prospectus relating to the ordinary shares issuable upon exercise of the warrants is current. However, we cannot assure you of this fact. As a result, the warrants may be deprived of any value, the market for the warrants may be limited and the holders of warrants may not be able to exercise their warrants and they may expire worthless if the ordinary shares issuable upon such exercise is not qualified or exempt from qualification in the jurisdictions in which the holders of the warrants reside.

An effective registration statement may not be in place when an investor desires to exercise warrants, thus precludi

Since we have not yet selected any target industry or target business with which to complete an initial business combination, we are unable to currently ascertain the merits or risks of our business operations.

Because we have not yet identified a prospective target industry or target business, investors in this offering currently have no basis to evaluate the possible merits or risks of the target business operations. To the extent we complete an initial business combination with a financially unstable company or an entity in its development stage, we may be affected by numerous risks inherent in the business operations of such entities. Although our management team will evaluate the risks inherent in a particular target business, we cannot

TABLE OF CONTENTS

assure you that they will properly ascertain or assess all of the significant risk factors. We also cannot assure you that an investment in our units will ultimately prove to be more favorable to investors than a direct investment, if such opportunity were available, in a target business. Except for the limitation that a target business have a fair market value of at least 80% of the balance in the trust account, we will have virtually unrestricted flexibility in identifying and selecting a prospective acquisition candidate.

Your only opportunity to evaluate and affect the investment decision regarding a potential business combination will be limited to voting for or against the business combination submitted to our shareholders for approval.

At the time of your investment in us, you will not be provided with an opportunity to evaluate the specific merits or risks of one or more target businesses. Accordingly, your only opportunity to evaluate and affect the investment decision regarding a potential initial business combination will be limited to voting for or against the initial business combination submitted to our shareholders for approval. In addition, a proposal that you vote against could still be approved if a sufficient number of public shareholders vote for the proposed initial business combination. Alternatively, a proposal that you vote for could still be rejected if a sufficient number of public shareholders vote against the proposed initial business combination or, even if approved by the affirmative vote of a majority of our outstanding shares, if holders owning more than 49.9% of our outstanding shares sold in this offering elect to exercise their shareholder redemption rights.

We are not required to obtain a fairness opinion from an independent investment banking firm as to the fair market value of the target business unless our board of directors is unable to independently determine the fair market value.

The fair market value of the target will be determined by the disinterested members of our board of directors based upon one or more standards generally accepted by the financial community (such as actual and potential revenues, earnings and cash flow and/or book value). If our board is not able to independently determine that the target business has a sufficient fair market value, we will obtain an opinion from an unaffiliated, independent investment banking firm which is a member of Financial Industry Regulatory Authority, or FINRA, with respect to the satisfaction of such criteria. We will not be required to obtain an opinion from an investment banking firm as to the fair market value if our board of directors independently determines that the target business complies with the 80% threshold.

There are inherent risks in our board of directors performing its own valuation and analysis in determining the fair market value of a target business.

Our board of directors may have limited experience in valuing certain business prospects of target businesses, especially those outside of emerging markets. Our board of directors is not required to provide shareholders with any information regarding their valuations and analysis or to quantify the value of any target business. Therefore, in any such event, you may have a limited basis for evaluating our board of directors' decisions in this area.

If we seek to effect an initial business combination with an entity that is directly or indirectly affiliated with members of our management team, conflicts of interest could arise.

Despite our agreement to obtain an opinion from an independent investment banking firm that an initial business combination with an affiliated entity is fair to our unaffiliated shareholders from a financial point of view and to have any such transaction approved by a majority of our disinterested independent directors, potential conflicts of interest may still exist, and, as a result, the terms of the initial business combination may not be as advantageous to our public shareholders as they would have been absent any conflicts of interest.

We may issue ordinary or preferred shares or debt or other securities to consummate our initial business combination. Issuance of our equity securities would reduce the equity interest of our shareholders and may cause a change in control of our ownership, while the issuance of debt or other securities may have a significant impact on our ability to utilize our available cash.

Our amended and restated memorandum and articles of association, which will be in effect at the time of consummation of this offering, authorizes the issuance of up to 100,000,000 ordinary shares, par value \$0.0001 per share, and 1,000,000 preferred shares, par value \$0.0001 per share. Immediately after this offering

TABLE OF CONTENTS

and the purchase of the sponsor's warrants (assuming no exercise of the underwriters' over-allotment option), there will be 86,260,000 authorized but unissued ordinary shares available for issuance (after appropriate reservation for the issuance of the shares upon full exercise of our outstanding warrants, including the sponsor's warrants and public shareholders' warrants) and all of the 1,000,000 preferred shares available for issuance. Although we have no commitment as of the date of this offering, we may issue a substantial number of additional shares of our ordinary or preferred shares, or a combination of ordinary and preferred shares, to complete an initial business combination. The issuance of additional ordinary shares or any number of our preferred shares:

may significantly reduce your equity interest in us;
may subordinate the rights of holders of ordinary shares if we issue preferred shares with rights senior to those afforded to our ordinary shares;
may cause a change in control if a substantial number of our ordinary shares are issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors;
may have the effect of delaying or preventing a change of control of us by diluting the ordinary share ownership or voting rights of a person seeking to obtain control of our company; and
may adversely affect prevailing market prices for our ordinary shares and/or warrants.

Similarly, we have no limitation as to the amount of debt securities we could issue and, if we issue debt or other securities, it could result in:

default and foreclosure on our assets if our operating revenues after an initial business combination are insufficient to repay our debt obligations;
acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;
our immediate payment of all principal and accrued interest, if any, if the debt security is payable on demand; and
our inability to obtain necessary additional financing if the debt security contains covenants restricting our ability to obtain such financing while the debt security is outstanding.

The value of your investment in us may decline if any of these events occur.

Resources could be wasted in researching business combinations that are not consummated, which could materially adversely affect subsequent attempts to locate and consummate our initial business combination with a target business.

It is anticipated that the investigation of each specific target business and the negotiation, drafting, and execution of relevant agreements, disclosure documents and other instruments will require substantial management time and attention and substantial costs for accountants, attorneys and others. If a decision is made not to proceed with a specific initial business combination, the costs incurred up to that point for the proposed transaction likely would not be recoverable. Furthermore, even if an agreement is reached relating to a specific target business, we may fail to consummate the initial business combination for any number of reasons including those beyond our control, such as that more than 49.9% of our public shareholders vote against the initial business combination and opt to have us redeem their shares for a pro rata share of the trust account even if a majority of our public shareholders approve the business combination. Any such event will result in a loss to us of the related costs incurred which could materially adversely affect subsequent attempts to locate and consummate our initial business combination with a target business.

TABLE OF CONTENTS

Our ability to successfully effect an initial business combination and to be successful thereafter will be totally dependent upon the efforts of our key personnel, some of whom may stay with us following an initial business combination.

Our ability to successfully effect an initial business combination is dependent upon the efforts of our executive officers, including Messrs. Johnston and Piovanetti with the support of certain officers and employees of ACM and/or its affiliates. We believe that our success depends on the service of these individuals, at least until we have consummated our initial business combination. We cannot assure you that these individuals will remain with us or will be available for the immediate or foreseeable future. In addition, none of our officers is required to commit any specified amount of time to our affairs and, accordingly, they could have conflicts of interest in allocating management time among various business activities, including identifying potential business combinations and monitoring the related due diligence. We do not have employment agreements with, or key-man insurance on the life of, any of our officers. The unexpected loss of the services of our key personnel could have a detrimental effect on us.

The role of our key personnel in the target business cannot presently be ascertained. Although some of our key personnel may remain with the target business in senior management or advisory positions following our initial business combination, it is likely that some or all of the management of the target business will remain in place. While we intend to closely scrutinize any individuals we engage after our initial business combination, we cannot assure you that our assessment of these individuals will prove to be correct. These individuals may be unfamiliar with the requirements of operating a public company which could require us to expend time and resources helping them become familiar with such requirements. This could be expensive and time-consuming and could lead to various regulatory issues that may adversely affect our operations.

Our key personnel may negotiate employment or consulting agreements with a target business in connection with a particular initial business combination. These agreements may provide for them to receive compensation following our initial business combination and as a result, may cause them to have conflicts of interest in determining whether a particular potential initial business combination is the most advantageous.

Our key personnel will be able to remain with the company after the consummation of an initial business combination only if they are able to negotiate employment or consulting agreements in connection with our initial business combination. Such negotiations would take place simultaneously with the negotiation of that business combination and could provide for such individuals to receive compensation in the form of cash payments and/or our securities for services they would render to the company after the consummation of our initial business combination. To the extent one of our officers or directors enters into such an agreement, the entry into any employment or consulting agreement will be disclosed to the shareholders and such agreement will be provided to the shareholders in the soliciting materials for a shareholder vote. The personal and financial interests of such individuals may influence their motivation in identifying and selecting a target business.

The officers and directors of an acquisition candidate may resign upon consummation of our initial business combination.

Our ability to successfully effect an initial business combination and to be successful thereafter will be totally dependent

The role of an acquisition candidate's key personnel upon the consummation of our initial business combination cannot be ascertained at this time. Although we contemplate that certain members of an acquisition candidate's management team will remain associated with us following our initial business combination, it is possible that members of the management of an acquisition candidate will not wish to remain in place.

Our officers and directors' interests in obtaining reimbursement for any out-of-pocket expenses incurred by them may lead to a conflict of interest in determining whether a particular target business is appropriate for our initial business combination and is in our best interests.

Unless we consummate our initial business combination, our officers, directors and/or our sponsor will not receive reimbursement for any out-of-pocket expenses incurred by them to the extent that expense reimbursement would cause us to exceed the amount of available proceeds not deposited in the trust account.

TABLE OF CONTENTS

and the amount of interest income from the trust account up to a maximum of \$2 million (net of taxes) that may be released to us as working capital. Our officers and directors may, as part of any initial business combination, negotiate the repayment of some or all of any such excess expenses. We do not have a policy that prohibits our officers and directors from negotiating for the reimbursement of such expenses by a target business. If the owners of the target business do not agree to such repayment, this could cause our management to view such potential business combination unfavorably, thereby resulting in a conflict of interest. The financial interest of our officers or directors could influence our officers and directors' motivation in selecting a target business and therefore there may be a conflict of interest when determining whether a particular initial business combination is in our best interests.

Our officers and directors will allocate their time to other businesses thereby causing conflicts of interest in their determination as to how much time to devote to our affairs. This conflict of interest could have a negative impact on our ability to consummate our initial business combination.

Our officers and directors are not required to commit their full time to our affairs, which could create a conflict of interest when allocating their time between our operations and their other commitments. We do not intend to have any full time employees prior to the consummation of an initial business combination. All of our executive officers and directors are engaged in several other business endeavors and are not obligated to devote any specific number of hours to our affairs. Although we expect our officers and directors to devote the time and attention necessary to fulfill their fiduciary duty to us, the possibility remains that, if our officers and directors' other business affairs require them to devote more substantial amounts of time to such affairs, it could limit their ability to devote time to our affairs and could have a negative impact on our ability to consummate an initial business combination. We cannot assure you that these conflicts will be resolved in our favor.

Our officers and directors are now, and may in the future become, affiliated with entities engaged in business activities similar to those intended to be conducted by us or that of our target business and accordingly, may have conflicts of interest in allocating their time and determining to which entity a particular business opportunity should be presented.

Our officers and directors may in the future become affiliated with entities, including other "blank check" companies, engaged in business activities similar to those intended to be conducted by us. Additionally, our officers and directors may become aware of business opportunities which may be appropriate for presentation to us and the other entities to which currently they owe fiduciary duties or with respect to which they have a contractual obligation. As a result, he or she may be required to present such business combination opportunity to such entity prior to presenting such business combination opportunity to us. Accordingly, our officers and directors may have conflicts of interest in determining to which entity a particular business opportunity should be presented.

Certain of our officers and directors will, directly or indirectly own shares issued prior to this offering. In addition, certain of our officers and directors may acquire and own ordinary shares or warrants following this offering.

Certain of these shares and warrants will not participate in liquidation distributions from our trust account and, therefore, our officers and directors may have a conflict of interest in determining whether a particular target

business is appropriate for an initial business combination.

Certain of our officers and directors either directly or indirectly beneficially own, or are directors or officers of affiliates of our sponsor that owns sponsor's ordinary shares that were issued prior to this offering and that has committed to purchase the sponsor's warrants immediately prior to the consummation of this offering. Our sponsor has waived its right to receive distributions with respect to the sponsor's ordinary shares upon our liquidation of the trust account if we are unable to consummate an initial business combination. Accordingly, the sponsor's ordinary shares, as well as the sponsor's warrants, and any underlying securities may be worthless if we do not consummate an initial business combination. The personal and financial interests of our directors and officers may influence their motivation in timely identifying and selecting a target business and completing an initial business combination. Consequently, our directors' and officers' discretion in identifying and selecting a suitable target business may result in a conflict of interest when determining whether the terms, conditions and timing of a particular business combination are appropriate and is in our best interests.

TABLE OF CONTENTS

The Nasdaq Capital Market may delist our securities from quotation on its exchange which could limit investors ability to make transactions in our securities and subject us to additional trading restrictions.

We anticipate that our securities will be listed on the Nasdaq Capital Market, a national securities exchange, upon consummation of this offering. However, we cannot assure you of this fact. Although after giving effect to this offering we expect to meet the minimum initial listing standards set forth in Rule 5550(a) and 550(b) of the Nasdaq Capital Market Company Guide, which only requires that we meet certain requirements relating to shareholders equity, market capitalization, aggregate market value of publicly held shares and distribution requirements, we cannot assure you that our securities will continue to be listed on the Nasdaq Capital Market in the future prior to an initial business combination. Additionally, in connection with our initial business combination, it is likely that the Nasdaq Capital Market will require us to file a new initial listing application and meet its initial listing requirements as opposed to its more lenient continued listing requirements. We cannot assure you that we will be able to meet those initial listing requirements at that time.

If the Nasdaq Capital Market delists our securities from trading on its exchange, we could face significant material adverse consequences, including:

- a limited availability of market quotations for our securities;
- reduced liquidity with respect to our securities;
- a determination that our ordinary shares are penny stock which will require brokers trading in our ordinary shares to adhere to more stringent rules, possibly resulting in a reduced level of trading activity in the secondary trading market for our ordinary shares;
- a limited amount of news and analyst coverage for our company; and
- a decreased ability to issue additional securities or obtain additional financing in the future.

We may only be able to complete one business combination with the proceeds of this offering, which will cause us to be solely dependent on a single business which may have a limited number of products or services.

Our initial business combination must be with one or more target businesses having an aggregate fair market value of at least 80% of the balance in the trust account at the time of such acquisition plus any amounts previously distributed to shareholders who have exercised their shareholder redemption rights. However, we may not be able to acquire more than one target business because of various factors, including the existence of complex accounting issues and the requirement that we prepare and file pro forma financial statements with the SEC that present operating results and the financial condition of several target businesses as if they had been operated on a combined basis. By consummating an initial business combination with only a single entity, we would not be able to diversify our operations or benefit from the possible spreading of risks or offsetting of losses, unlike other entities which may have the resources to complete several business combinations in different industries or different areas of a single industry. Accordingly, the prospects for our success may be solely dependent upon the performance of a single business.

Our lack of diversification may further subject us to numerous economic, competitive and regulatory developments, any or all of which may have a substantial adverse impact upon the industry in which we ultimately operate and may expose us to higher risk than other entities that have the resources to complete several business combinations or that have diversified operations.

TABLE OF CONTENTS

Alternatively, if we determine to simultaneously acquire several businesses and such businesses are owned by different sellers, we will need for each of the sellers to agree that our purchase of its business is contingent on the simultaneous closings of the other business combinations, which may make it more difficult for us, and delay our ability, to complete the business combination. With multiple business combinations, we could also face additional risks, including additional burdens and costs with respect to possible multiple negotiations and due diligence investigations (if there are multiple sellers) and the additional risks associated with the subsequent assimilation of the operations and services or products of the acquired companies in a single operating business. If we are unable to adequately address these risks, it could negatively impact our profitability and results of operations.

The ability of our shareholders to exercise their shareholder redemption rights may not allow us to effectuate the most desirable business combination or optimize our capital structure.

When we seek shareholder approval of any initial business combination, each public shareholder will have the right to redeem his, her or its ordinary shares for cash if that shareholder votes against our initial business combination, timely exercises its shareholder redemption rights, the business combination is approved and completed, and the public shareholder holds its shares through the closing of our initial business combination. Such holder must both vote for such initial business combination and then properly exercise his, her or its shareholder redemption rights by notifying us of such election to redeem at the appropriate time, as described in the proxy materials, to receive a pro rata portion of the trust account. Redeeming shareholders may vote either for or against the business combination but will receive no pro rata interest income in the event they vote against such business combination (this will be the case with respect to both redemption proceeds if the proposal is approved and proceeds from our trust account if not) which will incentivize redeeming shareholders to vote for the business combination since redeeming shareholders voting for the business combination will be eligible to receive a pro rata share of the interest income earned by the trust not released to us for working capital purposes and as a result have a higher redemption price, and we will retain the difference to the extent of a liquidation of our trust account. Accordingly, if our initial business combination requires us to use substantially all of our cash to pay the purchase price, because we will not know how many shareholders may exercise such shareholder redemption rights, we may either need to reserve part of the trust account for possible payment upon conversion, or we may need to arrange third party financing to help fund our initial business combination in case a larger percentage of public shareholders exercise their shareholder redemption rights than we expect. Since we have no specific business combination under consideration, we have not taken any steps to secure third party financing. Therefore, we may not be able to consummate an initial business combination that requires us to use all of the funds held in the trust account as part of the purchase price, or we may end up having a leverage ratio that is not optimal for our initial business combination. This may limit our ability to effectuate the most attractive initial business combination available to us.

We may be unable to obtain additional financing, if required, to complete an initial business combination or to fund the operations and growth of the target business, which could compel us to restructure or abandon a particular business combination.

Although we believe that the net proceeds of this offering, including the interest earned on the proceeds held in the trust account that may be available to us, will be sufficient to allow us to consummate an initial business combination, because we have not yet identified any prospective target business, we cannot ascertain the capital requirements for any particular transaction. If the net proceeds of this offering prove to be insufficient, either because of the size of the business combination, the depletion of the available net proceeds in search of a target business, or the obligation to

The ability of our shareholders to exercise their shareholder redemption rights may not allow us to effectuate the most

redeem for cash a significant number of shares from dissenting shareholders, we will be required to seek additional financing. We cannot assure you that such financing will be available on acceptable terms, if at all. To the extent that additional financing proves to be unavailable when needed to consummate a particular business combination, we would be compelled to either restructure the transaction or abandon that particular business combination and seek an alternative target business candidate. Even if we do not need additional financing to consummate an initial business combination, we may require such financing to fund the operations or growth of the target business. The failure to secure additional financing could have a material adverse effect on the continued development or

TABLE OF CONTENTS

growth of the target business. None of our officers, directors or shareholders is required to provide any financing to us in connection with or after an initial business combination.

Our sponsor controls a substantial interest in us and thus may influence certain actions requiring a shareholder vote.

Upon consummation of this offering, our sponsor (including certain of our officers and directors) will beneficially own 20% of our then issued and outstanding shares (assuming that none of them purchases any units in this offering). While our sponsor does not intend to purchase units in this offering, they are not prohibited from doing so or from purchasing units or our ordinary shares in the secondary market. If it does, our sponsor will have an even greater influence on matters requiring shareholder action.

Our board of directors is and will be divided into three classes, each of which will generally serve for a term of three years with only one class of directors being elected in each year. It is unlikely that there will be an annual general meeting of shareholders to elect new directors prior to the consummation of an initial business combination, in which case all of the current directors will continue in office until at least the consummation of the business combination. If there is an annual general meeting, as a consequence of our staggered board of directors, only a minority of the board of directors will be considered for election and our sponsor, because of its ownership position, will have considerable influence regarding the outcome. Accordingly, our sponsor, officers and directors will continue to exert control at least until the consummation of an initial business combination.

Our sponsor paid an aggregate of approximately \$25,000, or approximately \$0.01739 per ordinary share, for the sponsor's ordinary shares and, accordingly, you will experience immediate and substantial dilution from the purchase of our shares.

The difference between the public offering price per share and the pro forma net tangible book value per ordinary share after this offering constitutes the dilution to you and the other investors in this offering. Our sponsor acquired the sponsor's ordinary shares at a nominal price, significantly contributing to this dilution. Upon consummation of this offering, assuming the over-allotment option of 600,000 additional units is not exercised and 150,000 sponsor's ordinary shares, are compulsorily repurchased by us you and the other new investors will incur an immediate and substantial dilution of approximately 30.9% or \$3.09 per share (the difference between the pro forma net tangible book value per share of \$6.91, and the initial offering price of \$10.00 per unit). The sale and exercise of warrants, including the sponsor's warrants, would cause the actual dilution to investors to be higher, particularly where a cashless exercise is utilized.

We may redeem your unexpired warrants prior to their exercise at a time that is disadvantageous to you, thereby making your warrants worthless.

We have the ability to redeem outstanding warrants at any time after they become exercisable and prior to their expiration, at a price of \$0.01 per warrant, provided that the last reported sales price of our ordinary shares equals or exceeds \$15.00 per share for any 20 trading days within a 30 trading-day period on the third business day prior to proper notice of such redemption provided that on the date we give notice of redemption and during the entire period thereafter until the time we redeem the warrants, we have an effective registration statement under the Securities Act covering the issuance of our ordinary shares underlying the warrants and a current prospectus relating thereto.

Redemption of the outstanding warrants could force you (i) to exercise your warrants and pay the exercise price

therefor at a time when it may be disadvantageous for you to do so, (ii) to sell your warrants at the then current market price when you might otherwise wish to hold your warrants or (iii) to accept the nominal redemption price which, at the time the outstanding warrants are called for redemption, is likely to be substantially less than the market value of your warrants. None of the sponsor's warrants or sponsor's warrants will be redeemable by us as long as they are held by the sponsor or its permitted transferees.

TABLE OF CONTENTS

Our management's ability to require holders of our warrants to exercise such warrants on a cashless basis will cause holders to receive fewer ordinary shares upon their exercise of the warrants than they would have received had they been able to exercise their warrants for cash.

If we call our warrants for redemption after the redemption criteria described elsewhere in this prospectus have been satisfied, our management will have the option to require any holder that wishes to exercise his warrant to do so on a cashless basis. In such event, each holder would pay the exercise price by surrendering the warrants for that number of ordinary shares equal to the quotient obtained by dividing (x) the product of the number of ordinary shares underlying the warrants and the difference between the fair market value and the exercise price of the warrants by (y) the fair market value. The fair market value shall mean the average reported last sale price of our ordinary shares for the 10 trading days ending on the third trading day prior to the date on which notice of redemption is sent to the holders of the warrants. If our management chooses to require holders to exercise their warrants on a cashless basis, the number of ordinary shares received by a holder upon exercise will be fewer than it would have been had such holder exercised his warrant for cash. This will have the effect of reducing the potential upside of the holder's investment in our company.

Our outstanding warrants may have an adverse effect on the market price of our ordinary shares and make it more difficult to effect an initial business combination.

We will be issuing warrants to purchase 4,000,000 ordinary shares (or 4,600,000 ordinary shares if the underwriters over-allotment option is exercised in full) as part of the units offered by this prospectus. In addition, our sponsor has agreed to purchase an aggregate of 4,340,000 sponsor's warrants in a private placement that will occur immediately prior to the consummation of this offering. To the extent we issue ordinary shares to effect an initial business combination, the potential for the issuance of a substantial number of additional shares upon exercise of these warrants could make us a less attractive acquisition vehicle in the eyes of a target business. Such securities, when exercised, will increase the number of issued and outstanding ordinary shares and reduce the value of the shares issued to complete the initial business combination. Accordingly, our warrants may make it more difficult to effectuate an initial business combination or increase the cost of acquiring the target business. Additionally, the sale, or even the possibility of a sale, of the ordinary shares underlying the warrants could have an adverse effect on the market price for our securities or on our ability to obtain future financing. If and to the extent these warrants are exercised, you may experience a substantial dilution of your holdings.

If our sponsor exercises its registration rights with respect to its ordinary shares, sponsor's warrants, units purchased in this offering or the aftermarket and underlying securities, it may have an adverse effect on the market price of our ordinary shares and the existence of these rights may make it more difficult to effect an initial business combination.

The purchasers of sponsor's ordinary shares and the sponsor's warrants in this offering and their permitted transferees will be entitled to registration rights pursuant to an agreement to be signed prior to the effective date of this offering. The sponsor and the other holders of these securities will be entitled to an aggregate of four demands that we register their respective securities. They can elect to exercise these rights with respect to sponsor's ordinary shares, sponsor's

ordinary shares, sponsor's warrants, sponsor's warrants, any of the units purchased in this offering or the aftermarket (including ordinary shares and warrants comprising any of the units and shares underlying any of the warrants) after the consummation of our initial business combination, provided that they may not offer or sell any of the related securities under that registration statement until, at the earliest, those securities are released from escrow, under the terms of the escrow agreement, and provided, further, that the estimated market value of the securities to be registered is at least \$500,000 in the aggregate. The purchasers of sponsor's ordinary shares in this offering and the sponsor's warrants and their permitted transferees will also have certain piggy-back registration rights with respect to registration statements filed pursuant to this agreement. In general, we will bear the expenses incurred in connection with the filing of any such registration statements. However, the sponsor's ordinary shares, will continue to be held in escrow and to be subject to transfer restrictions until (i) with respect to 50% of such shares, when the closing price of our ordinary shares exceeds \$11.50 for any 20 trading days within a 30-trading day period following the consummation of our initial business combination, and (ii) with respect to

TABLE OF CONTENTS

50% of such shares, when the closing price of our ordinary shares exceeds \$15.00 for any 20 trading days within a 30-trading day period following the consummation of our initial business combination, provided, however, that in any event all of the foregoing shares shall be released from escrow upon the first anniversary of the initial public offering, and in any case, if, following a business combination, we engage in a subsequent transaction resulting in our shareholders having the right to exchange their shares for cash or other securities. Assuming the underwriters do not exercise the over-allotment option and 150,000 of the sponsor's ordinary shares are compulsorily repurchased by us, if all these holders exercise their registration rights with respect to all of their securities, then there will be an additional 1,000,000 ordinary shares eligible for trading in the public market. The presence of these additional securities trading in the public market may have an adverse effect on the market price of our ordinary shares. In addition, the existence of these rights may make it more difficult to effectuate an initial business combination or increase the cost of acquiring the target business, as the shareholders of the target business may be discouraged from entering into an initial business combination with us or will request a higher price for their securities because of the potential negative effect the exercise of such rights may have on the trading market for our ordinary shares.

The determination of the offering price of our units and the size of this offering is more arbitrary than the pricing of securities and size of an offering of an operating company and may not accurately reflect the value of your investment.

Prior to this offering, there was no public market for any of our securities. The public offering price of the units, the terms of the warrants, the aggregate proceeds we are raising and the amount to be placed in the trust account were the results of a negotiation between the underwriters and us.

The determination of our per-unit offering price and aggregate proceeds was more arbitrary than would typically be the case if we were an operating company. In addition, because we have not identified any potential target businesses, management's assessment of the financial requirements necessary to complete our initial business combination may prove to be inaccurate, in which case we may not have sufficient funds to consummate our initial business combination and we would be forced to either find additional financing or liquidate our trust account, or we may have too great an amount in the trust account to identify a prospect having a fair market value of at least 80% of the amount held in our trust account.

Because we are incorporated under the laws of the Cayman Islands, you may face difficulties in protecting your interests, and your ability to protect your rights through the U.S. Federal courts may be limited.

We are a company incorporated under the laws of the Cayman Islands. In addition, some of our directors and officers are nationals or residents of jurisdictions other than the U.S. and all or a substantial portion of their assets are located outside the U.S. As a result, it may be difficult for investors to effect service of process within the U.S. upon our directors or executive officers, or enforce judgments obtained in the U.S. courts against our directors or officers.

Our corporate affairs will be governed by our amended and restated memorandum and articles of association, the Companies Law (2010 Revision) of the Cayman Islands and other statutes (as the same may be supplemented or amended from time to time) and the common law of the Cayman Islands. The rights of shareholders to take action against the directors, actions by minority shareholders (including shareholder derivative actions) and the fiduciary responsibilities of our directors to us under Cayman Islands law are to a large extent governed by the common law of the Cayman Islands. The common law of the Cayman Islands is derived in part from comparatively limited judicial

precedent in the Cayman Islands as well as from English common law, the decisions of whose courts are of persuasive authority, but are not binding on a court in the Cayman Islands. The rights of our shareholders and the fiduciary responsibilities of our directors under Cayman Islands law are not as clearly established as they would be under statutes or judicial precedent in some jurisdictions in the U.S. Moreover, the Cayman Islands has a less prescriptive body of securities laws as compared to the U.S., and some states, such as Delaware, have more fully developed and judicially interpreted bodies of corporate law. In addition, Cayman Islands companies may not have standing to initiate a shareholder derivative action in a federal court of the U.S.

TABLE OF CONTENTS

Although there is no statutory enforcement in the Cayman Islands of judgments obtained in the U.S., the courts of the Cayman Islands will recognize a foreign judgment as the basis for a claim at common law in the Cayman Islands provided such judgment:

is given by a foreign court of competent jurisdiction;

imposes on the judgment debtor a liability to pay a liquidated sum for which the judgment has been given;

is final;

is not in respect of taxes, a fine or a penalty; and

was not obtained in a manner and is not of a kind the enforcement of which is contrary to the public policy of the Cayman Islands.

As a result of all of the above, public shareholders may have more difficulty in protecting their interests in the face of actions taken by management, members of the board of directors or controlling shareholders than they would as public shareholders of a U.S. company.

Being a foreign private issuer exempts us from certain Securities and Exchange Commission requirements that provide shareholders the protection of information that must be made available to shareholders of U.S. public companies, including with respect to our business combination.

We are a foreign private issuer within the meaning of the rules promulgated under the Securities Exchange Act of 1934, as amended. As such, we are exempt from certain provisions applicable to U.S. public companies including:

The rules requiring the filing with the SEC of quarterly reports on Form 10-Q or Current Reports on Form 8-K (although we have agreed with the underwriters of this offering to comply with the rules and regulations under the Exchange Act prescribing the requirements and filing deadlines for Current Reports on Form 8-K and will file reports on Form 6-K complying with those rules and regulations);

The sections of the Exchange Act regulating the solicitation of proxies, consents or authorizations with respect to a security registered under the Exchange Act;

Provisions of Regulation FD aimed at preventing issuers from making selective disclosures of material information; and

The sections of the Exchange Act requiring insiders to file public reports of their ordinary share ownership and trading activities and establishing insider liability for profits realized from any short swing trading transactions (i.e., a purchase and sale, or a sale and purchase, of the issuer's equity securities within less than six months).

Because of these exemptions, if we remain a foreign private issuer following our offering, our shareholders will not be afforded the same protections or information generally available to investors holding shares in public companies organized in the U.S. In particular, as a foreign private issuer, we are exempt from the rules under the Exchange Act prescribing the furnishing and content of proxy statements. Because of this exemption, at the time we seek approval from our shareholders of our initial business combination, we will not be required to file with the SEC preliminary proxy solicitation materials regarding our business combination, but rather will prepare and deliver proxy solicitation materials to our shareholders in accordance with: (i) Cayman Islands law, and (ii) the relevant provisions of our memorandum and articles of association, and, as required, file such materials with the SEC after mailing. Although we anticipate that such materials will contain many of the same disclosures as proxy materials prepared in conformance with the U.S. proxy rules, investors are cautioned that such materials will not have been reviewed by the SEC and may not have all of the material disclosures required under U.S. proxy rules.

If we are deemed to be a taxpayer in a particular jurisdiction, it may increase our tax liability.

Due to our activities spanning several countries, there is the possibility that we may be deemed to be taxable in a given jurisdiction, which may increase our tax liability, reduce our after tax income and reduce the proceeds held in the trust account.

TABLE OF CONTENTS

We may qualify as a passive foreign investment company, or PFIC, which could result in adverse U.S. federal income tax consequences to U.S. investors.

In general, we will be treated as a PFIC for any taxable year in which either (1) at least 75% of our gross income (looking through certain 25% or more-owned corporate subsidiaries) is passive income or (2) at least 50% of the average value of our assets (looking through certain 25% or more-owned corporate subsidiaries) is attributable to assets that produce, or are held for the production of, passive income. Passive income generally includes, without limitation, dividends, interest, rents, royalties, and gains from the disposition of passive assets. If we are determined to be a PFIC for any taxable year (or portion thereof) that is included in the holding period of a U.S. Holder (as defined in the section of this prospectus captioned Taxation United States Federal Income Taxation General) of our ordinary shares or warrants, the U.S. Holder may be subject to increased U.S. federal income tax liability and may be subject to additional reporting requirements. Our actual PFIC status for our current (2010) taxable year may depend on whether we qualify for the PFIC start-up exception (see the section of this prospectus captioned Taxation United States Federal Income Taxation U.S. Holders Passive Foreign Investment Company Rules). If we do not complete a business combination by the end of our current taxable year, and we have gross income for our current taxable year, we likely will be a PFIC for our current taxable year unless we complete a business combination in our 2011 taxable year and are not treated as a PFIC for either our 2011 or 2012 taxable year. Our actual PFIC status for any taxable year, however, will not be determinable until after the end of such taxable year. Accordingly, there can be no assurance with respect to our status as a PFIC for our current taxable year or any subsequent taxable year. We urge U.S. investors to consult their own tax advisors regarding the possible application of the PFIC rules. For a more detailed explanation of the tax consequences of PFIC classification to U.S. Holders, see the section of this prospectus captioned Taxation United States Federal Income Taxation U.S. Holders Passive Foreign Investment Company Rules.

If we are deemed to be an investment company under the Investment Company Act, we may be required to institute burdensome compliance requirements and our activities may be restricted, which may make it difficult for us to complete an initial business combination.

A company that, among other things, is or holds itself out as being engaged primarily, or proposes to engage primarily, in the business of investing, reinvesting, owning, trading or holding certain types of securities would be deemed an investment company under the United States Investment Company Act of 1940, as amended, which we refer to as the Investment Company Act. Since we will invest the proceeds held in the trust account, it is possible that we could be deemed an investment company. Notwithstanding the foregoing, we do not believe that our anticipated principal activities will subject us to the Investment Company Act. To this end, the proceeds held in trust may be maintained by the trustee and invested by the trust account agent only in United States government securities within the meaning of Section 2(a)(16) of the Investment Company Act of 1940 with a maturity of 180 days or less, or in money market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act of 1940. By restricting the investment of the proceeds to these instruments, we intend to avoid being deemed an investment company within the meaning of the Investment Company Act of 1940. This offering is not intended for persons who are seeking a return on investments in government securities. The trust account and the purchase of government securities for the trust account is intended as a holding place for funds pending the earlier to occur of either: (i) the consummation of our primary business objective, which is a business combination, or (ii) absent a business combination, liquidation of the trust account and return of the funds held in this trust account to our public shareholders. By restricting the investment of the proceeds to these instruments, we intend to meet the requirements

for the exemption provided in Rule 3a-1 promulgated under the Investment Company Act. If we are nevertheless deemed to be an investment company under the Investment Company Act, we may be subject to certain restrictions that may make it more difficult for us to complete an initial business combination, including:

restrictions on the nature of our investments; and
restrictions on the issuance of securities.

In addition, we may have imposed upon us certain burdensome requirements, including:

registration as an investment company;

TABLE OF CONTENTS

adoption of a specific form of corporate structure; and reporting, record keeping, voting, proxy, compliance policies and procedures and disclosure requirements and other rules and regulations. Compliance with these additional regulatory burdens would require additional expense for which we have not allotted.

There is currently no market for our securities and a market for our securities may not develop, which could adversely affect the liquidity and price of our securities.

There is currently no market for our securities. Investors therefore have no access to information about prior market history on which to base their investment decision. Furthermore, an active trading market for our securities may never develop or, if developed, it may not be sustained. You may be unable to sell your securities unless a market can be established and sustained.

Because we must furnish our shareholders with financial statements of the target business prepared in accordance with U.S. GAAP or IFRS or reconciled to U.S. GAAP, we may not be able to complete an initial business combination with some prospective target businesses.

We will provide shareholders with audited financial statements of the prospective target business as part of the proxy solicitation materials we deliver to our shareholders to assist them in assessing our initial business combination. We will deliver proxy solicitation materials with disclosure that we believe would have been required to be provided to shareholders had we not been a foreign private issuer but still had a class of equity securities registered under Section 12 of the Securities Exchange Act of 1934. However, as a foreign private issuer, we are not required and do not intend to file our proxy solicitation materials with the SEC for review. In all likelihood, the financial statements included in the proxy solicitation materials will need to be prepared in accordance with U.S. GAAP and/or IFRS. We cannot assure you that any particular target business identified by us as a potential acquisition candidate will have financial statements prepared in accordance with U.S. GAAP and/or IFRS or that the potential target business will be able to prepare its financial statements in accordance with U.S. GAAP and/or IFRS or reconciled to U.S. GAAP. To the extent that this requirement cannot be met, we may not be able to acquire the proposed target business. These financial statement requirements may limit the pool of potential target businesses with which we may combine.

Compliance with the Sarbanes-Oxley Act of 2002 will require substantial financial and management resources and may increase the time and costs of completing an acquisition.

Section 404 of the Sarbanes-Oxley Act of 2002 requires that we evaluate and report on our system of internal controls and requires that we have such system of internal controls audited as early as our Annual Report on Form 20-F or Form 10-K, as applicable, for the year ending December 31, 2011. If we fail to maintain the adequacy of our internal controls, we could be subject to regulatory scrutiny, civil or criminal penalties and/or shareholder litigation. Any inability to provide reliable financial reports could harm our business. Section 404 of the Sarbanes-Oxley Act also requires that our independent registered public accounting firm report on management's evaluation of our system of internal controls. A target company may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of their internal controls. The development of the internal controls of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such acquisition.

There is currently no market for our securities and a market for our securities may not develop, which could adversely

Furthermore, any failure to implement required new or improved controls, or difficulties encountered in the implementation of adequate controls over our financial processes and reporting in the future, could harm our operating results or cause us to fail to meet our reporting obligations. Inferior internal controls could also cause investors to lose confidence in our reported financial information, which could have a negative effect on the trading price of our securities.

If adjustments are made to the warrants, you may be deemed to receive a taxable distribution without the receipt of any cash.

Holders of units or warrants may, in certain circumstances, be deemed to have received taxable distributions if adjustments are made to the warrants, even though the holders would have not received any

TABLE OF CONTENTS

cash or property as a result of such adjustments. In certain circumstances, the failure to provide for such an adjustment may also result in a constructive distribution to the holders of units or ordinary shares. See Taxation United States Federal Taxation U.S. Holders Possible Constructive Distributions.

An investment in this offering may involve adverse U.S. federal income tax consequences because the redemption or liquidation price per share is greater than an investor's initial tax basis in an ordinary share.

There is a risk that an investor's entitlement to receive payments in excess of the investor's initial tax basis in our ordinary shares (see Taxation United States Federal Income Taxation Allocation of Purchase Price and Characterization of a Unit) upon exercise of the investor's redemption right or upon our liquidation of our trust account will result in constructive income to the investor, which could affect the timing and character of income recognition and result in U.S. federal income tax liability to the investor without the investor's receipt of cash from us. Prospective investors are urged to consult their own tax advisors with respect to these tax risks, as well as the specific tax consequences to them of purchasing, holding or disposing of our ordinary shares, warrants, or units.

An investor may be subject to adverse U.S. federal income tax consequences in the event the IRS were to disagree with the U.S. federal income tax consequences described herein.

As described in the section of this prospectus captioned Taxation United States Federal Income Taxation General, we have not sought a ruling from the IRS as to any U.S. federal income tax consequences described herein. The IRS may disagree with the descriptions of U.S. federal income tax consequences contained herein, and its determination may be upheld by a court. Any such determination could subject an investor or our company to adverse U.S. federal income tax consequences that would be different than those described herein. Accordingly, each prospective investor is urged to consult a tax advisor with respect to the specific tax consequences of the acquisition, ownership and disposition of our units, ordinary shares and warrants, including the applicability and effect of state, local or non-U.S. tax laws, as well as U.S. federal tax laws.

Risks Associated with Acquiring and Operating a Business in Emerging Market Countries

If we effect an initial business combination with a company located outside of the United States, we would be subject to a variety of additional risks that may negatively impact our operations.

We do not intend to focus our search on target businesses located in the United States. Accordingly, it is likely that we will effect an initial business combination with a company located outside of the United States. If we did, we would be subject to any special considerations or risks associated with companies operating in the target business home jurisdiction, including any of the following:

- rules and regulations or currency redemption or corporate withholding taxes on individuals;
- laws governing the manner in which future business combinations may be effected;
- exchange listing and/or delisting requirements;

If adjustments are made to the warrants, you may be deemed to receive a taxable distribution without the receipt of

tariffs and trade barriers;
regulations related to customs and import/export matters;
longer payment cycles;
tax issues, such as tax law changes and variations in tax laws as compared to the United States;
currency fluctuations and exchange controls;
rates of inflation;
challenges in collecting accounts receivable;
cultural and language differences;

TABLE OF CONTENTS

employment regulations;
crime, strikes, riots, civil disturbances, terrorist attacks and wars; and
deterioration of political relations with the United States.

We cannot assure you that we would be able to adequately address these additional risks. If we were unable to do so, our operations might suffer.

If we effect an initial business combination with a company located outside of the United States, the laws applicable to such company will likely govern all of our material agreements and we may not be able to enforce our legal rights.

We do not intend to focus our search on target businesses located in the United States. Accordingly, it is likely that we will effect an initial business combination with a company located outside of the United States. As such, the laws of the country in which such company operates will govern almost all of the material agreements relating to its operations. We cannot assure you that the target business will be able to enforce any of its material agreements or that remedies will be available in this new jurisdiction. The system of laws and the enforcement of existing laws in such jurisdiction may not be as certain in implementation and interpretation as in the United States. The inability to enforce or obtain a remedy under any of our future agreements could result in a significant loss of business, business opportunities or capital. Additionally, if we acquire a company located outside of the United States, it is likely that substantially all of our assets would be located outside of the United States and some of our officers and directors might reside outside of the United States. As a result, it may not be possible for investors in the United States to enforce their legal rights, to effect service of process upon our directors or officers or to enforce judgments of United States courts predicated upon civil liabilities and criminal penalties of our directors and officers under U.S federal securities laws.

Because of the costs and difficulties inherent in managing cross-border business operations, our results of operations may be negatively impacted.

Managing a business, operations, personnel or assets in another country is challenging and costly. Any management that we may have (whether based abroad or in the U.S.) may be inexperienced in cross-border business practices and unaware of significant differences in accounting rules, legal regimes and labor practices. Even with a seasoned and experienced management team, the costs and difficulties inherent in managing cross-border business operations, personnel and assets can be significant (and much higher than in a purely domestic business) and may negatively impact our financial and operational performance.

If social unrest, acts of terrorism, regime changes, changes in laws and regulations, political upheaval, or policy changes or enactments occur in a country in which we may operate after we effect a business combination, it may result in a negative impact on our business.

Political events in another country may significantly affect our business, assets or operations. Social unrest, acts of terrorism, regime changes, changes in laws and regulations, political upheaval, and policy changes or enactments could negatively impact our business in a particular country.

If we effect an initial business combination with a company located outside of the United States, the laws applicable

Because many countries have difficult and unpredictable legal systems and underdeveloped laws and regulations that are unclear and subject to corruption and inexperience, it may adversely impact our results of operations and financial condition.

Many countries have difficult and unpredictable legal systems and underdeveloped laws and regulations that are unclear and subject to corruption and inexperience. Our ability to seek and enforce legal protections, including with respect to intellectual property and other property rights, or to defend ourselves with regard to legal actions taken against us in a given country, may be difficult or impossible, which could adversely impact our operations, assets or financial condition.

Rules and regulations in many countries are often ambiguous or open to differing interpretation by responsible individuals and agencies at the municipal, state, regional and federal levels. The attitudes and actions of such individuals and agencies are often difficult to predict and inconsistent.

TABLE OF CONTENTS

Delay with respect to the enforcement of particular rules and regulations, including those relating to customs, tax, environmental and labor, could cause serious disruption to operations abroad and negatively impact our results.

If relations between the United States and a foreign government deteriorate, it could cause potential target businesses or their goods and services to become less attractive.

The relationship between the United States and foreign governments could be subject to sudden fluctuation and periodic tension. For instance, the United States may announce its intention to impose quotas on certain imports. Such import quotas may adversely affect political relations between the two countries and result in retaliatory countermeasures by the foreign government in industries that may affect our ultimate target business. Changes in political conditions in foreign countries and changes in the state of U.S. relations with such countries are difficult to predict and could adversely affect our operations or cause potential target businesses or their goods and services to become less attractive. Because we are not limited to any specific industry, there is no basis for investors in this offering to evaluate the possible extent of any impact on our ultimate operations if relations are strained between the United States and a foreign country in which we acquire a target business or move our principal manufacturing operations.

TABLE OF CONTENTS

CAUTIONARY NOTE REGARDING FORWARD LOOKING STATEMENTS

The statements contained in this prospectus that are not purely historical are forward-looking statements. Our forward-looking statements include, but are not limited to, statements regarding our or our management's expectations, hopes, beliefs, intentions or strategies regarding the future. In addition, any statements that refer to projections, forecasts or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. The words anticipate, believe, continue, could, estimate, expect, intend, may, possible, potential, predict, project, should, would and similar expressions may identify forward-looking statements but the absence of these words does not mean that a statement is not forward-looking. Forward-looking statements in this prospectus include, for example, statements about our:

- ability to complete our initial business combination;
- limited operating history;
- success in retaining or recruiting, or changes required in, our officers, key employees or directors following our initial business combination;
- officers and directors allocating their time to other businesses and potentially having conflicts of interest with our business or in approving our initial business combination, as a result of which they would then receive expense reimbursements;
- potential ability to obtain additional financing to complete an initial business combination;
- pool of prospective target businesses;
- the ability of our officers and directors to generate a number of potential investment opportunities;
- potential change in control if we acquire one or more target businesses for ordinary shares;
- public securities potential liquidity and trading;
- listing or delisting of our securities from the Nasdaq Capital Market or the ability to have our securities listed on the Nasdaq Capital Market following our initial business combination;
- use of proceeds not held in the trust account or available to us from interest income on the trust account balance;
- financial performance following this offering;
- risk of being classified as a PFIC; or
- regulatory and operational risks associated with acquiring a target business.

The forward-looking statements contained in this prospectus are based on our current expectations and beliefs concerning future developments and their potential effects on us. There can be no assurance that future developme
