

Sino-Global Shipping America, Ltd.
Form 10-Q/A
November 15, 2011

U.S. SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, DC 20549

FORM 10-Q/A
First Amendment

- Quarterly report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the three and six month periods ended September 30, 2011
- Transition report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the transition period from to .

Commission File Number 001-34024
Sino-Global Shipping America, Ltd.
(Exact name of registrant as specified in its charter)

Virginia
(State or other jurisdiction of
Incorporation or organization)

11-3588546
(I.R.S. employer
identification number)

136-56 39th Avenue, Room #305
Flushing, New York 11354
(Address of principal executive offices and zip code)
(718) 888-1814
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company.

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date. The Registrant is authorized to issue 10,000,000 shares of common stock, without par value per share, and 1,000,000 shares of preferred stock, without par value per share. As of the date of this report, the Registrant has 2,903,841 shares of common stock outstanding and no shares of preferred stock.

Explanatory Note: The Registrant is filing this amendment for the sole purpose of including XBRL files required to be filed within 30 days of the filing of this Form 10-Q. Other than as described above, the Form 10-Q is identical to the previously filed Form 10-Q. The Registrant has filed the entire Form 10-Q/A as a convenience to allow shareholders to review the entire document in a single location.

FINANCIAL STATEMENTS	F-1

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This document contains certain statements of a forward-looking nature. Such forward-looking statements, including but not limited to projected growth, trends and strategies, future operating and financial results, financial expectations and current business indicators are based upon current information and expectations and are subject to change based on factors beyond the control of the Company. Forward-looking statements typically are identified by the use of terms such as “look,” “may,” “will,” “should,” “might,” “believe,” “plan,” “expect,” “anticipate,” “estimate” and similar words. Some forward-looking statements are expressed differently. The accuracy of such statements may be impacted by a number of business risks and uncertainties that could cause actual results to differ materially from those projected or anticipated, including but not limited to the following:

- the ability to timely and accurately provide shipping agency services;
- its dependence on a limited number of larger customers;
- political and economic factors in the Peoples’ Republic of China (“PRC”);
- the Company’s ability to expand and grow its lines of business;
- unanticipated changes in general market conditions or other factors, which may result in cancellations or reductions in the need for the Company’s services;
- a weakening of economic conditions which would reduce demand for services provided by the Company and could adversely affect profitability;
- the effect of terrorist acts, or the threat thereof, on consumer confidence and spending, or the production and distribution of product and raw materials which could, as a result, adversely affect the Company’s shipping agency services, operations and financial performance;
- the acceptance in the marketplace of the Company’s new lines of services;
- foreign currency exchange rate fluctuations;
- hurricanes or other natural disasters;
- the Company’s ability to identify and successfully execute cost control initiatives;
- the impact of quotas, tariffs, or safeguards on the importation or exportation of the Company’s customer’s products; or
- other risks outlined above and in the Company’s other filings made periodically by the Company.

Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. The Company undertakes no obligation to update this forward-looking information. Nonetheless, the Company reserves the right to make such updates from time to time by press release, periodic report or other method of public disclosure without the need for specific reference to this Report. No such update shall be deemed to indicate that other statements not addressed by such update remain correct or create an obligation to provide any other updates.

PART I. FINANCIAL INFORMATION

Item 1. Financial Statements

See the financial statements following the signature page of this report, which are incorporated herein by reference.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our company's financial condition and results of operations should be read in conjunction with our unaudited condensed consolidated financial statements and the related notes included elsewhere in this report. This discussion contains forward-looking statements that involve risks and uncertainties. Actual results and the timing of selected events could differ materially from those anticipated in these forward-looking statements as a result of various factors.

Overview

We are a shipping agency service provider for ships coming to and departing from Chinese ports. Our company was incorporated in New York in February 2001. On September 18, 2007, we amended the Articles of Incorporation and Bylaws of our New York corporation to merge into a new Virginia corporation, Sino-Global Shipping America, Ltd.

Our principal geographic market is in the People's Republic of China ("PRC"). As PRC laws and regulations restrict foreign ownership of shipping agency service businesses, we operate our business in the PRC through Sino-Global Shipping Agency, Ltd. ("Sino-China"), a PRC limited liability company wholly owned by our founder and Chief Executive Officer, Cao Lei, and Chief Financial Officer, Zhang Mingwei, both of whom are PRC citizens. Sino-China holds the licenses and permits necessary to provide shipping services in the PRC. Headquartered in Beijing with branches in Ningbo, Qingdao, Tianjin, Qinhuangdao and Fangchenggang, we provide general shipping agency services in all commercial ports and cooperation with all other ports in China.

On November 13, 2007, we formed our wholly foreign-owned enterprise, Trans Pacific Shipping Limited ("Trans Pacific Beijing"), which has two subsidiaries, (i) the 90%-owned, Trans Pacific Logistics Shanghai Limited ("Trans Pacific Shanghai" Trans Pacific Beijing and Trans Pacific Shanghai are referred to collectively as "Trans Pacific".) and (ii) the 40%-owned Sino-Global Shipping Agency Development Co., Limited ("Sino-Global Development"). Trans Pacific Beijing and Sino-China do not have a parent-subsidiary relationship. Trans Pacific Beijing has contractual arrangements with Sino-China and its shareholders that enable us to substantially control over Sino-China.

To build an international shipping agency service network, we formed a wholly-owned subsidiary, Sino-Global Shipping Australia Pty Ltd. ("Sino-Global AUS") in Perth, Australia on July 3, 2008, which serves the needs of customers shipping into and out of Western Australia. We also signed an agreement with Monson Agencies Australia ("Monson"), one of the largest shipping agency service providers in Australia. Through Monson, we are able to provide general shipping agency services to all ports in Australia.

We established another wholly-owned subsidiary, Sino-Global Shipping (HK) Limited ("Sino-Global HK") on September 22, 2008. Sino-Global HK is our control and management center for southern Chinese ports and enables our company to extend its offering of comprehensive shipping agency services to vessels going to and from one of the world's busiest ports. On July 27, 2009, Sino-Global HK signed an exclusive partnership agreement with Forbes & Company Limited ("Forbes"), which is a listed company on the Bombay Stock Exchange (BOM: 502865) and one of the largest shipping and logistic service providers in India. Through our relationship with Forbes, we are able to provide general shipping agency services to all ports in India.

On July 5, 2011, Sino-China signed a Strategic Cooperative Agreement with COSCO Container Shipping Agency Co. Limited, one of the largest state-owned shipping agents in China. The Agreement entitles us to use COSCO Container Shipping Agency's name to market business in China and overseas. In addition, we are able to provide shipping agency services through over 50 COSCO offices in China.

On October 12, 2011, we signed a Memorandum of Understanding with King & Sons Shipping Agency (“King & Sons”), subsidiary of Grindrod Limited, a public company listed on the JSE Securities Exchange (JSE: GNDP) and one of the oldest shipping agents in South Africa. Through our relationship with King & Sons, we are able to provide general shipping agency services to all ports in South Africa.

On May 20, 2008, we completed an initial public offering of 1,229,032 shares of common stock at a \$7.75 offering price. Our shares started trading on the NASDAQ Capital Market the next day. Following the initial public offering, our Board authorized a stock repurchase program under which we were authorized to repurchase up to 10% of our outstanding common stock for a period of 12 months. In September 2009, our Board approved the extension of the stock repurchase program for another six months ending April 2010. In total, we repurchased 125,191 shares of our common stock from the open market at an average price of \$2.98 per share, including trading expenses. The total cost of stock repurchase was \$372,527.

Revenues

Revenue Growth

Our growth rate decreased in the quarter ended June 30, 2011, due to the Chinese government’s strict financing policies which resulted in lower iron ore imports to China. For the first quarter ended September 30, 2011, our total revenues amounted to approximately \$8.59 million, compared to total revenues of \$8.20 million for the quarter ended September 30, 2010. We managed to increase revenue by 4.80% in a challenging economic environment with intensive marketing activities to attract new clients. For the three months ended September 30, 2011, our revenues from our existing major client, Beijing Shourong Forwarding Limited, was approximately 51% of total revenues, compared to 67% of total revenues for the three months ended September 30, 2010.

Our total revenues are net of PRC business taxes and related surcharges. Sino-China’s revenues are subject to a 5% business tax as well as an additional 0.5% surcharge after deducting the costs of services. We deduct these amounts from our gross revenues to arrive at our total revenues.

We charge shipping agency fees in two ways: (1) the fixed fees are predetermined with a customer, and (2) the cost-plus fees are calculated based on the actual costs incurred plus a mark up. We generally require payments in advance from customers and bill them the balances within 30 days after the transactions are completed.

We believe the most significant factors that directly or indirectly affect our shipping agency service revenues are:

- the number of ships to which we provide port loading/discharging services;
- the size and types of ships we serve;
- the rate of service fees we charge;
- the number of ports at which we provide services; and
- the number of customers we serve.

Historically, our services have primarily been driven by the increase in the number of ships and customers, provided that the rate of service fees is determined by market competition. We believe that an increase in the number of ports served generally leads to an increase in the number of ships and customers. We expect that we will continue to earn a substantial majority of our revenues from our shipping agency services. As a result, we plan to continue to focus most

of our resources on expanding our business to cover more ports in the PRC and overseas. In addition, we will allocate our resources in marketing our brand to customers, including ship owners and charters, which transport goods from all ports around the world to China. We believe that our diversified focus on loading and discharging cargo in both Chinese and overseas ports will enable us to continue growing quickly and also place us in a better position to manage the exchange rate risk associated with the trend of the U.S. dollar's devaluation against the RMB because our overseas revenues and port charges are normally paid in foreign currencies. To the extent these other foreign currencies devalue against the RMB, of course, we would still face exchange rate risks.

Operating Costs and Expenses

Our operating costs and expenses consist of costs of revenues, general and administrative expenses, selling expenses and other expenses. Our company's total operating costs and expenses increased as a percentage of total revenues for the three months ended September 30, 2011. To maintain our top line growth, we conducted intensive market activities to attract new clients. As a result, our general and administrative expenses and selling expenses increased significantly in the quarter. The following table sets forth the components of our company's costs and expenses for the periods indicated.

	For the three months ended September 30,							
	2011		2010		Change			
	US\$	%	US\$	%	US\$		%	
Revenues	8,592,707	100.00	8,199,344	100.00	393,363		4.80	
Costs and expenses								
Cost of revenues	(7,754,218)	(90.24)	(7,394,678)	(90.19)	(359,540)		4.86	
General and administrative								
General and administrative	(1,381,913)	(16.08)	(1,027,199)	(12.53)	(354,714)		34.53	
Selling								
Selling	(104,582)	(1.22)	(54,345)	(0.66)	(50,237)		92.44	
Others								
Others	20,760	0.64	29,026	0.35	(8,266)		(28.48)	
	(9,219,953)	(107.30)	(8,447,196)	(103.02)	(772,757)		9.15	

Costs of Revenues. Costs of revenues represent the expenses incurred in the periods when a ship docks in a harbor to load and unload cargo. We typically pay the costs of revenues on behalf of our customers. Except for Australia and Canada where our revenues and costs are settled in the local currencies, we receive most revenues from our clients in U.S. dollars and pay most costs of revenues to the local port agents in RMB in China.

As such, the costs of services will change if the foreign currency exchange rates change. Our costs of revenues could also increase if the ports were to raise their charges, particularly in the case of overtime payments during the public holidays. Our costs of revenues as a percentage of our total revenues increased from 90.19% to 90.24% for the three months ended September 30, 2010 and 2011 respectively, because the port charges for the larger vessels we served were slightly higher. In addition, the U.S. dollar devaluated approximately 2.32% against the Chinese RMB for the three months ended September 30, 2011, resulting in increased costs of revenues. We have successfully negotiated with our largest customer, Beijing Shourong Forwarding Limited for an increase in agency fee of approximately 5% beginning in March 2011. This fee increase partially mitigated the negative impact from the U.S. dollar devaluation on our gross margin beginning in March 2011.

General and Administrative Expenses. Our general and administrative expenses primarily consist of salaries and benefits for our staff, both operating and administrative personnel, depreciation expenses, office rental expenses and expenses for legal, accounting and other professional services. Our general and administrative expenses as a percentage of our total revenues increased from 12.53% for the three months ended September 30, 2010 to 16.08% for the three months ended September 30, 2011 because of the increase of expenses in implementing our international expansion strategies. The general and administrative expenses of our Australian and Hong Kong offices constituted about 11.84% of our total general and administrative expenses for the period ended September 30, 2011, compared to 6.23% for the period ended September 30, 2010.

Selling Expenses. Our selling expenses primarily consist of commissions and traveling expenses for our operating staff to the ports at which we provide services. In line with our efforts to promote rapid business growth, our selling expenses increased in absolute amount and as a percentage of our total net revenues for the three months ended September 30, 2011.

Critical Accounting Policies

We prepare the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America (“US GAAP”). These accounting principles require us to make judgments, estimates and assumptions on the reported amounts of assets and liabilities at the end of each fiscal period, and the reported amounts of revenues and expenses during each fiscal period. We continually evaluate these judgments and estimates based on our own historical experience, knowledge and assessment of current business and other conditions, our expectations regarding the future based on available information and assumptions that we believe to be reasonable.

The selection of critical accounting policies, the judgments and other matters affecting application of those policies and the sensitivity of reported results to changes in conditions and assumptions are factors that should be considered when reviewing our financial statements. We believe the following accounting policies involve the most significant judgments and estimates used in the preparation of our condensed consolidated financial statements.

Revenue Recognition

Revenue comprises the value of charges for the services in the ordinary course of our company’s activities and disbursements made on behalf of customers. Revenues are recognized from shipping agency services upon completion of the services, which generally coincides with the date of departure of the relevant vessel from port. Advance payments and deposits received from customers prior to the provision of services and recognition of the related revenues are presented as current liabilities.

Some contracts provide that revenues are recognized as a mark up of actual expenses incurred. In a situation where the services are completed but the information on the actual expenses is not available at the end of the fiscal period, we estimate revenues and expenses based on our previous experience for the revenues of the same kind of vessels, port charges on the vessel’s particulars/movement and costs rate of the port. In general, the estimated revenues are based on the contract amounts. In other situations, the estimated revenues are based on the contract amounts plus any additional costs incurred, such as extra weight taxes because of extended parking time at a harbor, additional tow boats used because of inclement weather, overtime during public holidays and so on. If such contributory factors change, our revenues will increase or decrease accordingly. The estimated costs of revenue are based on the cost information provided by the local port and /or our historical experience of similar transactions. Since all estimated costs and expenses are paid in RMB, if the valuation of the RMB increases compared to the USD, then the estimated costs and expenses will increase accordingly.

Basis of Consolidation

The consolidated financial statements include the accounts of the parent and its subsidiaries. All significant inter-company transaction and balances are eliminated in consolidation. Sino-China is considered to be a Variable Interest Entity (“VIE”) and we are the primary beneficiary. On November 14, 2007, our company through Trans Pacific Beijing entered into agreements with Sino-China, pursuant to which we receive 90% of Sino-China’s net income. We do not receive any payment from Sino-China unless Sino-China recognizes net income during its fiscal year. Sino-China pays consulting and marketing fees equal to 85% and 5%, respectively, of its net income to our wholly foreign-owned subsidiary, Trans Pacific Beijing, and Trans Pacific Beijing supplies the technology and personnel needed to service Sino-China. Sino-China was designed to operate in China for the benefit of our company.

The accounts of Sino-China are consolidated in the accompanying consolidated financial statements pursuant to Accounting Standard Codification (“ASC”) 810-10, “Consolidation”. As a VIE, Sino-China’s sales are included in our total sales, its income (loss) from operations is consolidated with our company’s, and our net income (loss) from continuing operations before non-controlling interest in income (loss) includes all of Sino-China’s net income (loss). Our

non-controlling interest in its income (loss) is then added in calculating the net income (loss) attributable to our company. Because of the contractual arrangements, our company had a pecuniary interest in Sino-China that requires consolidation of our and Sino-China's financial statements.

Equity Investment

Investments in companies that are owned 20% to 50% for which we have significant influence but not control are accounted for by the equity method. Under the equity method, we recognize in earnings our proportionate share of the income or loss of the investee. Our income and earnings per share are affected by the income or loss of the investee.

With an expectation to open additional business opportunity to the Company, Sino-Global Development was formed on November 9, 2009. Trans Pacific Beijing has 40% shareholding of Sino-Global Development. Since Sino-Global Development has reported successive losses and is insolvent, Trans Pacific Beijing has recognized an investment loss of \$188,084 for the quarter ended September 30, 2011.

Accounts Receivable

Accounts receivable are recognized at net realizable value. We maintain allowances for doubtful accounts for estimated losses resulting from the failure of customers to make required payments in the relevant time period. We review the accounts receivable on a periodic basis and record general and specific allowances when there is doubt as to the collectability of individual balances. In evaluating the collectability of individual receivable balances, we consider many factors, including the age of the balance, the customer's historical payment history, its current credit-worthiness and current economic trends. Receivables are considered past due after 365 days. In accordance with the Company's accounting policies, management has determined that an allowance of \$290,145 was required at September 30, 2011, and \$194,955 at June 30, 2011. Accounts are written off only after exhaustive collection efforts. Because of the worldwide financial crisis, we have experienced difficulties in collecting cash from some of our customers. As a result of these experiences, management has determined that its bad debt allowance should be increased.

When a client requests our shipping agency services, we communicate with port officials and our service partners rely on our prior experience for similar vessels with similar needs in the same ports to obtain an estimate for the cost of services. We then calculate our shipping agency fees in two ways: (1) the fixed fees are predetermined with a customer, and (2) the cost-plus fees are calculated based on the actual costs incurred plus a mark up.

We generally obtain advance payment of our shipping agency fees prior to providing service to our clients. This significantly reduces the amount of accounts receivable when the shipping agency fees are recognized. To the extent our estimates are insufficient; we bill our clients for the balance to be paid within 30 days.

We use advance payments to pay a number of fees on behalf of our clients before their ships arrive in port, including harbor, berthing, mooring/unmooring, tonnage, immigration, quarantine and tug hire fees. We record the amounts we receive as Advances from Customers and the amounts we pay as Advances to Suppliers. We recognize revenues and expenses once the client's ship leaves the harbor and the client pays any outstanding amounts. In some cases, a delay in receiving bills will require us to estimate the Service Revenues and Costs of Services in accordance with the rate and formulas approved by the Ministry of Communications. When this happens, we record the difference between Service Revenues (as recognized) and Advances from Customers as Accounts Receivable and the difference between Cost of Services and Advances to Suppliers as Accounts Payable. To the extent we recognize revenues and costs in this way, our Accounts Receivable and Accounts Payable will reflect this estimation until we receive the bills and information we require to adjust revenues and expenses to reflect our actual Service Revenues and Cost of Services. Any adjustment to actual from the estimated Revenues and Cost of Services recorded has been and is expected to be immaterial.

Property and Equipment

We calculate gains and losses on disposals by comparing proceeds with the carrying amount of the related assets and include these gains and losses in the consolidated statements of operations. We consider the carrying value of a long-lived asset to be impaired when the anticipated undiscounted cash flow from such asset is less than its carrying value. If impairment is identified, a loss is recognized based on the amount by which the carrying value exceeds the fair value of the long-lived asset. Fair value is determined primarily using the anticipated cash flows discounted at a rate commensurate with the risk involved or based on independent appraisals.

Translation of Foreign Currency

The accounts of our company and Sino-China are measured using the currency of the primary economic environment in which the entity operates (the “functional currency”). Our functional currency is the U.S. dollar, while Trans Pacific and Sino-China report their financial position and results of operations in Renminbi. The accompanying unaudited condensed consolidated financial statements are presented in U.S. dollars. Foreign currency transactions are translated into U.S. dollars using the fixed exchange rates in effect at the time of the transaction. Generally foreign exchange gains and losses resulting from the settlement of such transactions are recognized in the consolidated statements of operations. We translate foreign currency financial statements of Sino-China, Trans Pacific, Sino-Global HK and Sino-Global AUS in accordance with ASC 830-10, “Foreign Currency Matters”. Assets and liabilities are translated at current exchange rates quoted by the People’s Bank of China at the balance sheet dates and revenues and expenses are translated at average exchange rates in effect during the periods.

Taxation

Because we and Sino-China are incorporated in different jurisdictions, we file separate income tax returns. We are subject to income and capital gains taxes in the United States. Additionally, dividend payments made by our company are subject to withholding tax in the United States.

The Company follows the provisions of ASC 740-10, “Accounting for Income Taxes”, which addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under ASC 740-10, the Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position would be measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. ASC 740-10 also provides guidance on derecognition, classification, interest and penalties on income taxes, accounting in interim periods and requires increased disclosures.

The implementation of ASC 740-10 resulted in no material liability for unrecognized tax benefits and no material change to the beginning retained earnings of the Company. The Company recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations.

PRC Enterprise Income Tax

PRC enterprise income tax is calculated based on taxable income determined under PRC GAAP. Sino-China and Tran Pacific are registered in PRC and governed by the Enterprise Income Tax Laws of the PRC. Their taxable incomes are subject to an enterprise income tax rate of 25%.

PRC Business Tax

Revenues from services provided by Sino-China are subject to PRC business tax of 5% and additional surcharges of 0.5%. We pay business tax on gross revenues generated from our shipping agency services minus the costs of services, which are paid on behalf of our customers.

2012 trend

The lack of growth in the quarter ended June 30, 2011 gave way to a 4.8% increase in revenues for the three months ended September 30, 2011 compared to the same period in 2010. In addition to the revenue increases from our agency services to vessels coming to Chinese ports, our revenue growth was attributed to our expanding business at loading

ports in Australia, Canada and South Africa. We have added Baosteel, one of the largest steel manufacturers in China, to our customer list and provide services to Baosteel's vessels loading at overseas ports. In the uncertain economic environment, we believe that growth is a key for a small company like us to survive and develop. As such, we will continue setting top line growth as our first priority. We believe we will achieve relatively high growth in fiscal 2012, supported by our efforts to maintain our current clients, attract new clients and open operations in new markets in China and overseas.

Our gross profits increased slightly in absolute amount, and our gross margin continued to decrease. Because we receive most of our revenues in U.S. dollars and pay most of our expenses in Chinese RMB, we have faced increased costs of revenues due to the devaluation of U.S. dollar against the RMB over the last few years. The devaluation of U.S. dollar against Chinese RMB is still our main challenge. We expect the trend will continue in fiscal 2012 and our gross margin will continue to be negatively affected by the devalued U.S. dollar. As a small company, we cannot bear the risk of using financial instruments to hedge foreign exchange rates. Our strategies are to allocate our funds into different currencies and encourage our customers to pay us in their local currency. In the first quarter of 2012, we received some of our revenues in Australian dollars and Canadian dollars.

Our general and administrative expenses are significantly higher than their pre-IPO levels as a result of our domestic and international business expansion and our company's public listing. We reduced these amounts for the year ended June 30, 2011 compared to the same period in 2010. In the 2012 fiscal year, we will continue our combined efforts to control our budget and promote business growth.

Results of Operations

Due to the economic uncertainties associated with the world wide financial crisis, it is difficult for us to predict future operating results. We believe that period-to-period comparisons of operating results should not be relied upon as indicative of future performance.

Three Months Ended September 30, 2011 Compared to Three Months Ended September 30, 2010

Revenues. Our total revenues increased by 4.80% from \$8,199,344 for the three months ended September 30, 2010 to \$8,592,707 in the comparable three months in 2011. The number of ships that generated revenues for us increased from 103 in the three months ended September 30, 2010, to 106 in the three months ended September 30, 2011, representing an increase of 2.91%. Following the trend that the receivers use larger vessels to save freight expenses, the average ship size served and agency fees per ship increased in the first quarter of 2012.

Total Operating Costs and Expenses. Our total operating costs and expenses increased by 9.15% from \$8,447,196 for the three months ended September 30, 2010 to \$9,219,953 for the three months ended September 30, 2011. This increase was primarily due to increases in our general and administrative expenses and selling expenses.

- **Costs of Revenues.** Our cost of revenues increased by 4.86% from \$7,394,678 for the three months ended September 30, 2010 to \$7,754,218 for the three months ended September 30, 2011. Costs of revenues increased faster than revenues, resulting in a decrease of gross margins from 9.81% down to 9.76% for the comparative three months ended September 30, 2010 and 2011, respectively. The 0.06% decrease in gross margin was largely due to the devaluation of the U.S. dollar against the Chinese RMB. The average foreign exchange rate was \$1.00 to RMB6.4176 for the three months ended September 30, 2011, compared to \$1.00 to RMB6.7692 for the three months ended September 30, 2010, a 5.19% increase during the period. In March 2011, we have negotiated an agency fee increase of approximately 5% with our largest customer, Beijing Shourong Forwarding Limited. The agency fee change improved our overall gross margin and partially mitigated the negative impact from the U.S. dollar devaluation on our gross margin.
- **General and Administrative Expenses.** Our general and administrative expenses increased by 34.53% from \$1,027,199 for the three months ended September 30, 2010 to \$1,381,913 for the three months ended September 30, 2011. This increase was mainly due to (1) an increase of \$135,661 in salaries and human resource expenses, (2) an increase in our bad debts provision of \$95,190 and (3) an increase of \$199,881 in business promotion. In the current challenging business environment, we have allocated additional funds to maintain our current clients and to market to the potential clients in China and internationally.

- **Selling Expenses.** Our selling expenses increased by 92.44% from \$54,345 for the quarter ended September 30, 2010 to \$104,582 for the quarter ended September 30, 2010. Most selling expenses are commissions paid to business partners who refer shipping agency businesses to us.

7

Operating Loss. We had an operating loss of \$627,246 for the three months ended September 30, 2011, compared to operating loss of \$247,852 for the comparable three months in 2010. The operating loss for the first quarter of fiscal 2012 was primarily due to the increase in selling expenses and in general and administrative expenses.

Financial Income, Net. Our net financial loss was \$44,003 for the three months ended September 30, 2011, compared to our net financial income of \$86,141 for the three months ended September 30, 2010. The net financial income losses were derived largely from the foreign exchange losses recognized in the financial statement consolidation. As described in the above “Translation of Foreign Currency”, foreign exchange gains and losses resulting from the settlement of such transactions are recognized in the consolidated statements of operations.

Loss from Equity Investment. As explained previously, we recognized an investment loss of \$188,084 in the Sino-Global Development for the quarter ended September 30, 2011, because it reported successive operating losses and became insolvent.

Taxation. Our income tax benefits were \$23,121 for the three months ended September 30, 2011, compared to income tax expenses of \$28,188 for the three months ended September 30, 2010. As we made tax provision of \$26,879 and recognized net deferred tax assets of \$50,000, the income tax benefits of the first quarter of 2012 were \$23,121. See Note 10 of the consolidated financial statements for more details.

Net Loss. As a result of the foregoing, we had a net loss of \$826,940 for the quarter ended September 30, 2011, compared to a net loss of \$201,527 for the quarter ended September 30, 2010. After deduction of non-controlling interest in loss, net loss attributable to Sino-Global Shipping America, Ltd. was \$665,787 for the three months ended September 30, 2011, compared to net loss of \$143,281 for the three months ended September 30, 2010. Since we allocated more resources to international marketing and more personnel for overseas operations, the expenses related to Sino-Global Shipping America Limited increased significantly.

Liquidity and Capital Resources

Cash Flows and Working Capital

We have financed our operations primarily through cash flows from operations and cash derived from our initial public offering. As of September 30, 2011, we had \$4,489,198 in cash and cash equivalents. Our cash and cash equivalents primarily consist of cash on hand and cash in banks.

The following table sets forth a summary of our cash flows for the periods indicated:

	For the three months ended September 30,	
	2011	2010
	US\$	US\$
Net cash (used in) provided by operating activities	(380,144)	302,040
Net cash used in investing activities	(1,796)	(34,030)
Net cash used in financing activities	(8,993)	(2,780)
Net (decrease) increase in cash and cash equivalents	(389,630)	242,399
Cash and cash equivalents at beginning of period	4,878,828	5,926,153
Cash and cash equivalents at end of period	4,489,198	6,168,552

Operating Activities

Our sales slightly increased for the first quarter of fiscal 2012 compared to the first quarter of fiscal 2011. Our operating loss increased primarily due to higher general and administrative expenses in the first quarter of fiscal 2012. Net cash used in operating activities of \$380,144 for the three months ended September 30, 2011, is mainly attributable to a net loss of \$826,940, an increase in advance to suppliers of \$319,903 and an increase in accounts receivable of \$104,492, partially offset by an increase in accounts payable of \$616,590.

Since we collect most of our revenues in U.S. dollars and pay most of our costs and expenses in RMB, the increase in the valuation of the RMB against the U.S. dollar has caused a decline in gross margin and higher expenses for our Company for the period ended September 30, 2011. These factors further resulted in our company using net cash in operating activities.

Our revenues have continuously increased since 2006, and in order for us to maintain a steady and positive cash position, we believe the U.S. dollar has to increase and maintain its valuation against the RMB or we need to become less reliant on the U.S. dollar in our operations. The vast majority of our revenues are either received in U.S. dollars or calculated in U.S. dollars and paid in local currencies, so we expect we will be substantially dependent on the value of the U.S. dollar for the foreseeable future, even where the revenues are not paid in U.S. dollars. If the U.S. dollar does not increase its valuation against the RMB, we will continue to focus on maintaining our high growth rate so as to overcome, or at least mitigate, the negative impact from the U.S. dollar's devaluation. In addition, we believe that our diversified operations in China and overseas will also help us to manage the foreign exchange rate risks.

Investing Activities

Net cash used in investing activities was \$1,796 compared to net cash used in investing activities of \$34,030 for the three months ended September 30, 2011 and 2010, respectively. We made capital expenditures of \$1,796 and \$34,030 for the first quarter of fiscal 2011 and 2010, representing 0.02% and 0.38% of our total assets, respectively.

Financing Activities

Net cash used in financing activities was \$8,993 for the three months ended September 30, 2011 from the increase of non-controlling interest in our majority-owned subsidiary.

We believe that current cash, cash equivalents, and anticipated cash flow from operations will be sufficient to meet our anticipated cash needs, including cash needs for working capital and capital expenditures for at least the next 12 months. We may, however, require additional cash due to changing business conditions or other future developments, including any investments or acquisitions we may decide to pursue. If our existing cash is insufficient to meet our requirements, we may seek to sell additional equity securities or borrow from banks. However, financing may not be available in the amounts we need or on terms acceptable to us, if at all. The sale of additional equity securities, including convertible debt securities, would dilute our shareholders. The incurrence of debt would divert cash from working capital and capital expenditures to service debt obligations and could result in operating and financial covenants that would restrict our operations and our ability to pay dividends to our shareholders. If we are unable to obtain additional equity or debt financing as required, our business, operations and prospects may suffer.

Contractual Obligations and Commercial Commitments

We have leased certain office premises and apartments for employees under operating leases through October 31, 2013. Below is a summary of our company's contractual obligations and commitments as of September 30, 2011:

	Total	Payment Due by Period		
		Less than 1 year	1-3 years	More than 3 years
Contractual Obligations				
Operating leases	\$240,888	\$161,682	\$79,206	\$--

The Labor Contract Law of the PRC requires employers to assure the liability of severance payments if employees are terminated and have been working for their employers for at least two years prior to January 1, 2008. The employers will be liable for one month of severance pay for each year of service provided by the employees. As of September 30, 2011, our company has estimated its severance payments to be approximately \$141,000, which has not been reflected in our consolidated condensed financial statements.

Company Structure

We conduct our operations primarily through our wholly-owned subsidiaries, Trans Pacific, Sino-AUS and Sino-HK and our variable interest entity, Sino-China. As a result, our ability to pay dividends and to finance any debt we may incur depends upon dividends paid by our subsidiaries and management fees paid by Sino-China. If our subsidiaries incur debt on their own behalf in the future, the instruments governing their debt may restrict their ability to pay dividends to us. In addition, Trans Pacific is permitted to pay dividends to us only out of its retained earnings, if any, as determined in accordance with PRC accounting standards and regulations. Under PRC law, wholly foreign-owned enterprises like Trans Pacific are required to set aside at least 10% of their after-tax profit each year to fund a statutory reserve until the amount of the reserve reaches 50% of such entity's registered capital.

To the extent Trans Pacific does not generate sufficient after-tax profits to fund this statutory reserve, its ability to pay dividends to us may be limited. Although these statutory reserves can be used, among other ways, to increase the registered capital and eliminate future losses in excess of retained earnings of the respective companies, these reserve funds are not distributable as cash dividends except in the event of a solvent liquidation of the companies. Other than as described in the previous sentences, China's State Administration of Foreign Exchange ("SAFE") has approved the company structure between our company and Trans Pacific, and Trans Pacific is permitted to pay dividends to our company.

Off-Balance Sheet Commitments and Arrangements

We have not entered into any financial guarantees or other commitments to guarantee the payment obligations of any third parties. We have not entered into any derivative contracts that are indexed to our shares and classified as shareholders' equity or that are not reflected in our condensed consolidated financial statements. Furthermore, we do not have any retained or contingent interest in assets transferred to an unconsolidated entity that serve as credit, liquidity or market risk support to such entity. We do not have any variable interest in any unconsolidated entity that provides financing, liquidity, market risk or credit support to us or engages in leasing, hedging or research and development services with us.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Not applicable.

Item 4/4T. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our Company maintains a system of controls and procedures designed to ensure that information required to be disclosed by the issuer in the reports that it files or submits under the Act (15 U.S.C. 78a et seq.) is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Act is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

As of September 30, 2011, our company carried out an evaluation, under the supervision of and with the participation of management, including our company's chief executive officer and chief financial officer, of the effectiveness of the design and operation of our company's disclosure controls and procedures. Based on the foregoing, the chief executive officer and chief financial officer concluded that our company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) were effective in timely alerting them to information required to be included in the Company's periodic Securities and Exchange Commission filings.

Changes in Internal Control over Financial Reporting

There were no changes in our company's internal control over financial reporting (as defined in Rule 13a-15(f) of the Securities Exchange Act of 1934) during the three months ended September 30, 2011 that have materially affected, or are reasonably likely to materially affect, our company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

We are periodically involved in legal proceedings in the ordinary course of business. During the quarter ended September 30, 2011, neither we nor any of our subsidiaries or affiliate was involved in any material pending legal proceedings. Nor was any of our property subject to any such material pending legal proceedings.

Item 1A. Risk Factors

Not applicable.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(a) None

(b) The annual report filed on September 26, 2011 for the fiscal year ended June 30, 2011 (SEC Accession No. 0001144204-11-054806) is incorporated herein by reference, subject to the replacement of the table under Item 5 thereof with the following table showing the use of proceeds from our initial public offering.

Description of Use	Budgeted Use of Net Proceeds		Through September 30, 2011			
	US\$	%	US\$	%		
Organization of our company and creation of contractual arrangements among our company, Sino-China and Trans Pacific	100,000	1.23	%	103,526	1.27	%
Domestic and international business expansion*	5,930,941	72.74	%	2,698,588	33.10	%
Sarbanes-Oxley compliance	500,000	6.13	%	296,689	3.64	%
Marketing of company across China, United States and internationally	244,621	3.00	%	808,060	9.91	%
Develop information exchange system	400,000	4.91	%	112,164	1.38	%
Train staff	163,081	2.00	%	406,347	4.98	%
Fixed asset purchase	407,702	5.00	%	438,791	5.38	%
Miscellaneous expenses	407,702	5.00	%	545,333	6.69	%
Stock repurchases				372,527	4.57	%
Total	8,154,047	100.00	%	5,781,825	70.91	%

*We have modified our description of Use of IPO Proceeds from “Business expansion in 15 to 35 main ports in China” to “Domestic and international business expansion”. We have identified opportunities to provide shipping agency services to vessels that load exported commodities at overseas ports and believe the modified use of proceeds will allocate the funds more efficiently and in the best interests of our shareholders.

(c) During the three months ended September 30, 2011, the company did not repurchase any shares of common stock.

Item 3 Defaults upon Senior Securities

None.

Item 4. [Removed and Reserved]

12

Item 5. Other Information

None.

SINO-GLOBAL SHIPPING AMERICA, LTD. AND AFFILIATE

NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. ORGANIZATION AND NATURE OF BUSINESS

Sino-Global Shipping America, Ltd. (the “Company”) was incorporated on February 2, 2001 in New York. On September 18, 2007, the Company amended the Articles of Incorporation and Bylaws to merge into a new Corporation, Sino-Global Shipping America, Ltd. in Virginia.

The Company’s principal geographic market is in the People’s Republic of China (“PRC”). As PRC laws and regulations restrict foreign ownership of shipping agency service businesses, the Company provides its services in the PRC through Sino-Global Shipping Agency Ltd. (“Sino-China”), a Chinese legal entity, which holds the licenses and permits necessary to operate shipping services in the PRC. Sino-China is located in Beijing with branches in Ningbo, Qingdao, Tianjin, Qinhuangdao and Fangchenggang and cooperation with all other ports in PRC.

On November 13, 2007, the Company formed a wholly owned foreign-owned enterprise, Trans Pacific Shipping Limited (“Trans Pacific Beijing”), which has two subsidiaries, (i) the 90%-owned Trans Pacific Logistics Shanghai Limited (“Trans Pacific Shanghai”) and (ii) the 40%-owned Sino-Global Shipping Agency Development Co., Limited (“Sino-Global Development”). Trans Pacific Beijing and Trans Pacific Shanghai are referred to collectively as “Trans Pacific.”

Trans Pacific Beijing and Sino-China do not have a parent-subsiidiary relationship. Trans Pacific Beijing has contractual arrangements with Sino-China and its shareholders that enable the Company to substantially control Sino-China.

To build an international shipping agency service network, the Company formed a wholly-owned subsidiary, Sino-Global Shipping Australia Pty Ltd. (“Sino-Global AUS”) in Perth, Australia on July 3, 2008, which serves the needs of customers shipping into and out of Western Australia. The Company also signed an agreement with Monson Agencies Australia (“Monson”), one of the largest shipping agency service providers in Australia. Through the Company’s relationship with Monson, the Company is able to provide general shipping agency services to all ports in Australia.

The Company established another wholly-owned subsidiary, Sino-Global Shipping (HK) Limited (“Sino-Global HK”) on September 22, 2008. Sino-Global HK is the Company’s control and management center for southern Chinese ports and enables the Company to extend its offering of comprehensive shipping agency services to vessels going to and from one of the world’s busiest ports. On July 27, 2009, Sino-Global HK signed an exclusive partnership agreement with Forbes & Company Limited (“Forbes”), which is a listed company on the Bombay Stock Exchange (BOM: 502865) and one of the largest shipping and logistic service providers in India. Through the Company’s relationship with Forbes, it is able to provide general shipping agency services to all ports in India.

On July 5, 2011, Sino-China signed a Strategic Cooperative Agreement with COSCO Container Shipping Agency Co. Limited, one of the largest state-owned shipping agents in China. The Agreement entitles us to use COSCO Container Shipping Agency's name to market business in China and overseas. In addition, we are able to provide shipping agency services through over 50 COSCO's offices in China.

On October 12, 2011, the Company signed a Memorandum of Understanding with King & Sons Shipping Agency ("King & Sons"), subsidiary of Grindrod Limited, a public company listed on the JSE Securities Exchange (JSE: GNDP) and one of the oldest shipping agents in South Africa. Through the Company's relationship with King & Sons, it is able to provide general shipping agency services to all ports in South Africa.

On May 20, 2008, the Company completed an initial public offering of 1,229,032 shares of common stock at a \$7.75 offering price. Our shares started trading on the NASDAQ Capital Market the next day. Following the initial public offering, the Company's Board authorized a stock repurchase program under which it was able to repurchase up to 10% of its then outstanding common stock for a period of 12 months. In September 2009, the Board approved the extension of the stock repurchase program for another six months ended April 2010. In total, the Company repurchased 125,191 shares of common stock from the open market at an average price of \$2.98 per share including trading expenses. The total cost of stock repurchase was \$372,527.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP"). The agency relationship between the Company and Sino-China and its branches is governed by a series of contractual arrangements pursuant to which the Company has substantial control over Sino-China.

In the opinion of the Company's management, the unaudited condensed consolidated financial statements include all adjustments necessary to present fairly the consolidated financial position, results of operations and cash flows of the Company for the periods presented. These unaudited condensed consolidated financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended June 30, 2011, filed on September 26, 2011 (the "Annual Report").

(b) Basis of consolidation

The condensed consolidated financial statements include the accounts of the parent and its subsidiaries. All significant inter-company actions and balances are eliminated in consolidation. Sino-China is considered a variable interest entity ("VIE"), and the Company is the primary beneficiary. The Company through Trans Pacific Beijing entered into agreements with Sino-China, pursuant to which the Company receives 90% of Sino-China's net income. The Company does not receive any payment from Sino-China unless Sino-China recognizes net income during its fiscal year. These agreements do not entitle the Company to any consideration if Sino-China incurs a net loss during its fiscal year. In accordance with these agreements, Sino-China pays consulting and marketing fees equal to 85% and 5%, respectively, of its net income to the Company's wholly owned foreign subsidiary, Trans Pacific Beijing, and Trans Pacific Beijing supplies the technology and personnel needed to service Sino-China. Sino-China was designed to operate in China for the benefit of the Company.

The accounts of Sino-China are consolidated in the accompanying unaudited condensed consolidated financial statements pursuant to Accounting Standards Codification (“ASC”) 810-10, “Consolidation”. As a VIE, Sino-China’s sales are included in the Company’s total sales, and its income (loss) from operations is consolidated with the Company’s. Because of the contractual arrangements, the Company had a pecuniary interest in Sino-China that requires consolidation of the Company’s and Sino-China’s financial statements.

The Company has consolidated Sino-China’s income because the entities are under common control in accordance with ASC 805-10, “Business Combinations”. For this reason, the Company has included 90% of Sino-China’s net income in the Company’s net income, and only the 10% of Sino-China’s net income not paid to the Company represents the non-controlling interest in Sino-China’s income. Management makes ongoing reassessments of whether the Company is the primary beneficiary of Sino-China.

The carrying amount and classification of Sino-China's assets and liabilities included in the Unaudited Condensed Consolidated Balance Sheets are as follows:

	September 30, 2011 US\$	June 30, 2011 US\$
Total current asstes	769,521	958,934
Total assets	1,099,347	1,324,636
Total current liabilities	293,922	308,737
Total liabilities	293,922	308,737

(c) Fair Value of Financial Instruments

The carrying amounts reported in the unaudited condensed consolidated financial statements for current assets and current liabilities approximate fair value due to the short-term nature of these financial instruments. The Company determined that the carrying value of the employee loan approximated this fair value. No interest was charged for the employee loans due to immateriality.

(d) Use of Estimates and Assumptions

The preparation of the unaudited condensed consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Estimates are adjusted to reflect actual experience when necessary. Significant accounting estimates reflected in the Company’s condensed consolidated financial statements include revenue recognition, allowance for doubtful accounts, the useful lives of property and equipment.

Since the use of estimates is an integral component of the financial reporting process, actual results could differ from those estimates.

(e) Translation of Foreign Currency

The accounts of the Company and Sino-China and each of its branches are measured using the currency of the primary economic environment in which the entity operates (the “functional currency”). The Company’s functional currency is the US dollars (“\$”) while Sino-China reports its financial position and results of operations in Renminbi (“RMB”). The accompanying condensed consolidated financial statements are presented in US dollars. Foreign currency transactions are translated into US dollars using the fixed exchange rates in effect at the time of the transaction. Generally foreign exchange gains and losses resulting from the settlement of such transactions are recognized in the unaudited condensed consolidated statements of operations. The Company translates foreign currency financial statements of Sino-China, Sino-Global AUS, Sino-Global HK and Trans Pacific in accordance with ASC 830-10, “Foreign Currency Matters”. Assets and liabilities are translated at current exchange rates quoted by the People’s Bank of China at the balance sheet dates and revenues and expenses are translated at average exchange rates in effect during the periods. Resulting translation adjustments are recorded as other comprehensive income (loss) and accumulated as a separate component of equity of the Company and also included in non-controlling interest.

(f) Cash and Cash Equivalents

Cash and cash equivalents consist of cash on hand, and other highly liquid investments which are unrestricted as to withdrawal or use, and which have maturities of three months or less when purchased. The Company maintains cash and cash equivalents with various financial institutions mainly in the PRC, Australia, Hong Kong and the United States. Cash balances in the United States are insured by the Federal Deposit Insurance Corporation subject to certain limitations.

(g) Property and Equipment

Property and equipment are stated at historical cost less accumulated depreciation and amortization. Historical cost comprises its purchase price and any directly attributable costs of bringing the assets to its working condition and location for its intended use. Depreciation is calculated on a straight-line basis over the following estimated useful lives:

Buildings	20 years
Motor vehicles	5-10 years
Furniture and office equipment	3-5 years

The carrying value of a long-lived asset is considered impaired by the Company when the anticipated undiscounted cash flows from such asset is less than its carrying value. If impairment is identified, a loss is recognized based on the amount by which the carrying value exceeds the fair value of the long-lived asset. Fair value is determined primarily using the anticipated cash flows discounted at a rate commensurate with the risk involved or based on independent appraisals. Management has determined that there were no impairments at the balance sheet dates.

(h) Equity Investment

Investments in companies that are owned 20% to 50% for which the Company has significant influence but not control are accounted for by the equity method. Under the equity method, the Company recognizes in earnings its proportionate share of the income or loss of the investee.

With an expectation to open additional business opportunity to the Company, Sino-Global Development was formed on November 9, 2009. Trans Pacific Beijing has 40% shareholding of Sino-Global Development. Since Sino-Global Development has reported successive losses and is insolvent, Trans Pacific Beijing has recognized an investment loss of \$188,084 for the quarter ended September 30, 2011.

(i) Revenue recognition

The Company charges shipping agency fees in two ways: (1) fixed fees that are predetermined with the customer, and (2) cost-plus fees that are calculated based on the actual costs incurred plus a markup. The Company generally requires payments in advance from customers and bills them on the balance within 30 days after the transactions are completed.

Revenues are recognized from shipping agency services upon completion of services, which coincides with the date of departure of the relevant vessel from port. Advance payments and deposits received from customers prior to the provision of services and recognition of the related revenues are presented as current liabilities.

Some contracts provide that revenues are recognized as a mark up of actual expenses incurred. In a situation where the services are completed but the information on the actual expenses is not available at the end of the fiscal period, we estimate revenues and expenses based on our previous experience for the revenues of the same kind of vessels, port charges on the vessel's particulars/movement and costs rate of the port. In general, the estimated revenues are based on the contract amounts. In other situations, the estimated revenues are based on the contract amounts plus any additional costs incurred, such as extra weight taxes because of extended parking time at a harbor, additional tow boats used because of inclement weather, overtime during public holidays and so on. If such contributory factors change, our revenues will increase or decrease accordingly. The estimated costs of revenue are based on the cost information provided by the local port and /or our historical experience of similar transactions. Since all estimated costs and expenses are paid in RMB, if the valuation of the RMB increases compared to the USD, then the estimated costs and expenses will increase accordingly.

The Company reports its revenue on the gross amounts billed to customers based on several criteria: (1) the Company assumes all credit risk for the amounts billed to customers, (2) the Company has multiple suppliers for services ordered by customers and discretion to select the supplier that provides the services, and (3) the Company determines the nature, type or specifications of the services ordered by customers and the Company is responsible for fulfilling these services.

(j) Accounts receivable

Accounts receivable are presented at net realizable value. The Company maintains allowances for doubtful accounts for estimated losses. The Company reviews the accounts receivable on a periodic basis and makes general and specific allowances when there is doubt as to the collectability of individual balances. In evaluating the collectability of individual receivable balances, the Company considers many factors, including the age of the balance, customer's historical payment history, its current credit-worthiness and current economic trends. Receivables are considered past due after 365 days. In accordance with the accounting policies, management has determined that an allowance of \$290,145 was required at September 30, 2011, and \$194,955 at June 30, 2011. Accounts are written off after exhaustive efforts at collection. Because of the worldwide financial crisis, the Company has experienced difficulties in collecting cash from some of our customers. As a result of these experiences, management has determined that its bad debt allowance should be increased.

(k) Taxation

Because the Company and Sino-China are incorporated in different jurisdictions, they file separate income tax returns. The Company uses the liability method of accounting for income taxes in accordance with US GAAP. Deferred taxes, if any, are recognized for the future tax consequences of temporary differences between the tax basis of assets and liabilities and their reported amounts in the condensed consolidated financial statements.

The Company follows the provisions of ASC 740, "Income Taxes", which addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under ASC 740, the Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position would be measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. ASC 740 also provides guidance on derecognition, classification, interest and penalties on income taxes, accounting in interim periods and requires increased disclosures.

The implementation of ASC 740 resulted in no material liability for unrecognized tax benefits and no material change to the beginning retained earnings of the Company. The Company recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense.

Income tax returns for the year prior to 2008 are no longer subject to examination by tax authorities.

PRC Enterprise Income Tax

PRC enterprise income tax is calculated based on taxable income determined under PRC GAAP at 25%. Sino-China and Trans Pacific are registered in PRC and governed by the Enterprise Income Tax Laws of the PRC.

PRC Business Tax and Surcharges

Revenues from services provided by Sino-China and Trans Pacific are subject to the PRC business tax of 5%. Business tax and surcharges are paid on gross revenues generated from shipping agency services minus the costs of services which are paid on behalf of the customers.

In addition, under the PRC regulations, Sino-China is required to pay the city construction tax (7%) and education surcharges (3%) based on the calculated business tax payments.

F-10

Sino-China reports its revenues net of PRC's business tax and surcharges for all the periods presented in the condensed consolidated statements of operations.

(l) Earnings (loss) per share

Earnings (loss) per share is calculated in accordance with ASC 260, "Earnings Per Share". Basic earnings per share is computed by dividing net income attributable to holders of common shares by the weighted average number of common shares outstanding during the years. Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common shares were exercised or converted into common shares. Convertible, redeemable preferred shares are included in the computation of diluted earnings per share on an "if-converted" basis, when the impact is dilutive. Contingent exercise price resets are accounted for in a manner similar to contingently issuable shares. Common share equivalents are excluded from the computation of diluted earnings per share if their effects would be anti-diluted.

The following table sets forth the computation of basic and diluted per share information:

	For the three months ended September 30,	
	2011	2010
Numerator:		
Net loss attributable to Sino-Global Shipping America Ltd.	\$(665,787)	\$(143,281)
Denominator:		
Weighted average common shares outstanding	2,903,841	2,903,841
Dilutive effect of stock options and warrants	-	-
Weighted average common shares outstanding, assuming dilution	2,903,841	2,903,841

The effect of 138,000 stock options and 139,032 warrants for all periods presented were not included in the calculation of diluted EPS because they would be anti-dilutive.

3. OTHER RECEIVABLES / OTHER CURRENT LIABILITIES

(a) Other Receivables

Other receivables represent mainly amounts to be received from customers for advance payments made to the port agent for reimbursed charges to be incurred in connection with the costs of services and loans to employees.

(b) Other Current Liabilities

Other current liabilities represent mainly advance payments received from customers for reimbursed port agent charges to be incurred and miscellaneous accrued liabilities.

4. EMPLOYEE LOANS RECEIVABLE

The employee loans receivable represent receivables from employees other than executive officers for three automobiles sold to these employees. These receivables are secured by the automobiles and the personal assets of the employees. The Company has not imputed any interest on these receivables due to immateriality.

September 30, June 30,

	2011 US\$	2011 US\$
Loans from employees, secured by their personal assets, receivable in monthly installments of approximately \$1,014 bearing no interest through August 2014	19,929	22,558
Less : Current maturities	(9,546)	(10,662)
	10,383	11,896

F-11

4. ADVANCES TO SUPPLIERS/ADVANCES FROM CUSTOMERS

(a) Advances to Suppliers

Advances to suppliers represent costs of services and fees paid to suppliers in advance in connection with the agency services fees income to be recognized.

(b) Advances from Customers

Advances from customers represent money received from customers in advance in connection with the agency services fees income to be recognized.

6. PROPERTY AND EQUIPMENT

Property and equipment are as follows:

	September 30, 2011 US\$	June 30, 2011 US\$
Land and building	78,230	76,819
Motor vehicles	910,674	893,818
Computer equipment	113,620	110,479
Office equipment	37,731	37,059
Furniture & Fixtures	37,176	36,837
System software	119,970	117,807
Leasehold improvement	67,069	65,859
Total	1,364,470	1,338,678
Less : Accumulated depreciation and amortization	826,477	751,654
Property and equipment, net	537,993	587,024

7. NON-CONTROLLING INTEREST

Non-controlling interest in Sino-China consists of the following:

	September 30, 2011 US\$	June 30, 2011 US\$
Sino-China:		
Original paid-in capital	356,400	356,400
Additional paid-in capital	1,044	1,044
Accumulated other comprehensive loss	(41,171)	(34,390)
Accumulated deficit	(2,158,408)	(2,004,046)
Other adjustments	(30,350)	(23,559)
	(1,872,485)	(1,704,551)
Trans Pacific Logistics Shanghai Ltd.	36,999	45,992
Total	(1,835,486)	(1,658,559)

8. COMMITMENTS AND CONTINGENCY

(a) Office leases

The Company leases certain office premises and apartments for employees under operating leases through October 31, 2013. Future minimum lease payments under operating leases agreements were as follows:

	Amount US\$
Twelve months ending September 30,	
2012	161,682
2013	79,206
	240,888

Rent expense for the three months ended September 30, 2011 and 2010 was \$88,100 and \$76,505, respectively.

(b) Contingency

The Labor Contract Law of the People's Republic of China requires employers to assure the liability of the severance payments if employees are terminated and have been working for the employers for at least two years prior to January 1, 2008. The employers will be liable for one month for severance pay for each year of the service provided by the employees. As of September 30, 2011, the Company has estimated its severance payments of approximately \$141,000, which has not been reflected in its consolidated financial statements, as the probability of payment is remote.

9. FINANCIAL INCOME (EXPENSES), NET

Financial income (expenses) for the three months ended September 30, 2011 and September 30, 2010 are as follows:

For the three months
ended September 30,
2011 2010
US\$ US\$

Interest income	6,123	11,748
Interest expense	-	(710)
Bank charge	(4,112)	(4,837)
Foreign currency translation	(46,014)	79,940
	(44,003)	86,141

F-13

10. INCOME TAXES

The income tax (provision) benefit is as follows:

	For the three months ended	
	September 30,	
	2011	2010
	US\$	US\$
Current		
USA	(26,879)	(28,188)
China	-	-
	(26,879)	(28,188)
Deferred		
Allowance for doubtful accounts	47,000	-
Net operating loss carryforward	24,000	-
Valuation allowance	(21,000)	-
Net deferred	50,000	-
Total	23,121	(28,188)

11. MAJOR CUSTOMER

For the three months ended September 30, 2011, approximately 51% and 13% of the Company's revenues were from two customers. For the three months ended September 30, 2010, approximately 67% of the Company's revenues were from one customer. The Company provides services to one customer under an exclusive agency agreement that expires on December 31, 2011. At September 30, 2011, the same customer accounted for approximated 14% of the total accounts receivable balance.
