EXPLANATORY NOTE

Park National Corporation ("Park") is filing this Form 10-Q/A (Amendment No. 2) (this "Form 10-Q/A for June 30, 2011") with respect to its Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2011, as originally filed with the Securities and Exchange Commission (the "SEC") on August 15, 2011 (the "Original June 30, 2011 Form 10-Q"), in order to amend Part I – Items 1, 2 and 4, and Part II – Items 1A and 6. This Form 10-Q/A for June 30, 2011 is being filed to amend and restate our unaudited consolidated condensed financial statements as of and for the three and six month periods ended June 30, 2011 included in "Item 1 – Financial Statements" of Part I and related disclosures in "Item 2 – Management's Discussion and Analysis of Financial Condition and Results of Operations" of Part I to make the corrections identified below.

This Form 10-Q/A for June 30, 2011 is being filed to reflect the impact on the consolidated financial information as of and for the three and six month periods ended June 30, 2011 of the restatement of Park's audited consolidated financial statements as of and for the year ended December 31, 2010. This Form 10-Q/A for June 30, 2011 should be read in conjunction with and follows the filing by Park of Form 10-K/A (Amendment No. 2) for the fiscal year ended December 31, 2010, which was filed on February 28, 2012. The restatement of consolidated financial information as of and for the three and six month periods ended June 30, 2011 results in the following corrections:

Impact on Items Reported in Consolidated Condensed Statements of Income (Unaudited):

- The provision for loan losses decreased by $11.4 million to $12.5 million, compared to $23.9 million as originally reported for the three months ended June 30, 2011 (the "second quarter"). The provision for loan losses decreased by $10.8 million to $26.6 million, compared to $37.4 million as originally reported for the six months ended June 30, 2011.
- Net interest income after provision for loan losses increased by $11.4 million to $57.5 million, compared to $46.1 million as originally reported for the second quarter. Net interest income after provision for loan losses increased by $10.8 million to $112.7 million, compared to $101.9 million as originally reported for the six months ended June 30, 2011.
- Other real estate owned ("OREO") devaluations decreased by $1.9 million to $3.4 million, compared to $5.3 million as originally reported for the second quarter. OREO devaluations decreased by $3.8 million to $5.9 million, compared to $9.7 as originally reported for the six months ended June 30, 2011.
- Total other income increased by $1.9 million to $15.1 million, compared to $13.2 million as originally reported for the second quarter. Total other income increased by $3.8 million to $30.2 million, compared to $26.4 million as originally reported for the six months ended June 30, 2011.
- Income before income taxes increased by $13.3 million to $41.0 million, compared to $27.7 million as originally reported for the second quarter. Income before income taxes increased by $14.5 million to $71.5 million, compared to $57.0 million as originally reported for the six months ended June 30, 2011.
- Income taxes increased by $4.6 million to $12.0 million, compared to $7.4 million as originally reported for the second quarter. Income taxes increased by $5.1 million to $20.4 million, compared to $15.3 million as originally reported for the six months ended June 30, 2011.

Net income increased by $8.6 million to $29.0 million, compared to $20.3 million as originally reported for the second quarter. Net income increased by $9.5 million to $51.2 million, compared to $41.7 million as originally reported for the six months ended June 30, 2011.

- Net income available to common shareholders increased by $8.6 million to $27.5 million, compared to $18.9 million as originally reported for the second quarter. Net income available to common shareholders increased by $9.4 million to $48.2 million, compared to $38.8 million as originally reported for the six months ended June 30, 2011.
- Basic and diluted earnings per share increased by $0.57 to $1.79 per common share, compared to $1.22 per common share as originally reported for the second quarter. Diluted earnings per share increased by $0.61 to $3.13 per share, compared to $2.52 per common share as originally reported for the six months ended June 30, 2011.

Impact on Items Reported in Consolidated Condensed Balance Sheet (Unaudited):

- The allowance for loan losses increased by $10.0 million to $120.2 million, compared to $110.2 million as originally reported as of June 30, 2011.
- Loans, net of the allowance for loan losses decreased by $10.0 million to $4,590 million, compared to $4,600 million as originally reported as of June 30, 2011.
- OREO decreased by $263,000 to $47.7 million, compared to $48.0 million as originally reported as of June 30, 2011.
- Other assets increased by $3.6 million to $174.3 million, compared to $170.7 million as originally reported as of June 30, 2011. The only adjustment within other assets was to reflect the deferred tax asset impact of the restatement.
- Total assets decreased by $6.7 million to $7,322 million, compared to $7,329 million as originally reported as of June 30, 2011.
- Retained earnings decreased by $6.7 million to $425.7 million, compared to $432.3 million as originally reported as of June 30, 2011.
- Total stockholders' equity decreased by $6.7 million to $741.1 million, compared to $747.8 million as originally reported as of June 30, 2011.
- Total liabilities and stockholders' equity decreased by $6.7 million to $7,322 million, compared to $7,329 million as originally reported as of June 30, 2011.

For a more detailed description of the restatement of the consolidated condensed financial statements, see Note 1A, "Restatement of Financial Statements" in our Notes to Unaudited Consolidated Condensed Financial Statements.

Park has not modified or updated the information in the Original June 30, 2011 Form 10-Q, except as necessary to reflect the effects of the restated consolidated condensed financial statements which took into consideration subsequent additional information about conditions that existed at June 30, 2011. This Form 10-Q/A for June 30, 2011 continues to speak as of the dates described herein, and we have not updated the disclosures contained in the Original June 30, 2011 Form 10-Q to reflect any events that occurred subsequent to such dates except as necessitated by the restatement and to discuss a subsequent event in Note 19 - Sale of Vision Bank. Information not affected by the restatement is unchanged and reflects the disclosures made at the time of the filing of the Original June 30, 2011 Form 10-Q on August 15, 2011. With respect to management's discussion, within "Item 2 – Management's Discussion and Analysis of Financial Condition and Results of Operations" in Part I, of the projected results for the fiscal year ending December 31, 2011, we have removed the portion of the discussion related to items that would no longer be appropriate given the nature of the restatement of the consolidated financial information as of and for the quarterly period ended June 30, 2011 and the impact it had on certain line items in the Consolidated Condensed Statements of Income for the three and six month periods ended June 30, 2011, including the provision for loan losses. Accordingly, this Form 10-Q/A for June 30, 2011 should be read in conjunction with our subsequent filings with the SEC, as information in such filings may update or supersede certain information contained in this Form 10-Q/A for June 30, 2011.

Park has modified "Item 4 – Controls and Procedures" of Part I in order to reflect the reevaluation by Park's management of the effectiveness of the design and operation of Park's disclosure controls and procedures as of June 30, 2011 in connection with the restatement of the consolidated condensed financial statements as described in this Form 10-Q/A for June 30 , 2011.

Park has also modified the risk factor included in "Item 1A – Risk Factors" of Part II to include the restated financial information for Vision Bank where appropriate. The risk factor, including the corrected information, remains applicable as of the filing date of the Original June 30, 2011 Form 10-Q.

Park has updated the Computation of Ratio of Earnings to Fixed Charges and the Computation of Ratio of Earnings to Fixed Charges and Preferred Dividends included as Exhibit 12 to this Form 10-Q/A for June 30, 2011, in order to reflect the corrected consolidated financial information. Additionally, updated certifications pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 have been included as Exhibits 31.1 and 31.2 to this Form 10-Q/A for June 30, 2011, and updated certifications pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 have been included as Exhibits 32.1 and 32.2 to this Form 10-Q/A for June 30, 2011, which have been reflected in "Item 6 – Exhibits" of Part II. Finally, Park has also included Exhibit 101, which provides certain financial information from Park's Form 10-Q/A for June 30, 2011 formatted in XBRL pursuant to Rule 405 of Regulation S-T.

For the convenience of the reader, this Form 10-Q/A for June 30, 2011 sets forth the disclosures to be included in the Form 10-Q for the quarterly period ended June 30, 2011 in their entirety, although Park is only amending and restating Items 1, 2 and 4 of Part I and Items 1A and 6 of Part II from the Original June 30, 2011 Form 10-Q as these are the only Items affected by the corrected consolidated financial information.

Subsequent Event - Sale of Vision Bank

On November 16, 2011, Park and Vision Bank entered into a Purchase and Assumption Agreement (the "Purchase Agreement") with Home BancShares, Inc. ("Home") and its wholly-owned subsidiary Centennial Bank, an Arkansas state-chartered bank ("Centennial"), to sell substantially all of the operating assets and liabilities associated with Vision to Centennial for a purchase price of $27.9 million.

On February 16, 2012, Park and Vision Bank completed the transaction contemplated by the previously announced Purchase Agreement. In accordance with the Agreement, Vision sold approximately $354 million in performing loans, approximately $520 million of deposits, fixed assets of approximately $12.5 million and other miscellaneous assets and liabilities for a purchase price of $27.9 million.

Immediately following the closing of the transactions contemplated by the Agreement, Vision surrendered its Florida banking charter to the Florida Office of Financial Regulation (the “OFR”) and became a non-bank Florida corporation (the “Florida Corporation”). This Florida Corporation merged with and into a wholly-owned, non-bank subsidiary of Park, SE Property Holdings, LLC (“SE LLC”), with SE LLC being the surviving entity. Subsequent to the transactions contemplated by the Purchase Agreement, Vision will be left with approximately $22 million of performing loans and non-performing loans with a fair value of $88 million (both net of any necessary loan loss allowance that may have existed prior to the transactions). Park recognized a pre-tax gain, net of expenses directly related to the sale, of approximately $22 million.

PARK NATIONAL CORPORATION
NOTES TO UNAUDITED CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

Note 1 – Basis of Presentation

The accompanying unaudited consolidated condensed financial statements included in this report have been prepared for Park National Corporation (the "Registrant", "Corporation", "Company", or "Park") and its subsidiaries. In the opinion of management, all adjustments (consisting of normal recurring accruals) necessary for a fair presentation of results of operations for the interim periods included herein have been made. The results of operations for the three and six month periods ended June 30, 2011 are not necessarily indicative of the operating results to be anticipated for the fiscal year ending December 31, 2011.

The accompanying unaudited consolidated condensed financial statements have been prepared in accordance with the instructions for Form 10-Q and, therefore, do not include all information and footnotes necessary for a fair presentation of the condensed balance sheets, condensed statements of income, condensed statements of changes in stockholders' equity and condensed statements of cash flows in conformity with U.S. generally accepted accounting principles ("GAAP"). These financial statements should be read in conjunction with the audited consolidated financial statements included in the Annual Report on Form 10-K/A – Amendment No. 2 of Park for the fiscal year ended December 31, 2010 filed on February 28, 2012 (the "2010 Form 10-K/A"), which served to restate the audited consolidated financial statements which had been incorporated by reference in the Annual Report on Form 10-K of Park for the fiscal year ended December 31, 2010 filed on February 28, 2011, from Park's 2010 Annual Report to Shareholders (the "2010 Annual Report").

Park's significant accounting policies are described in Note 1 of the Notes to Consolidated Financial Statements included in Park's 2010 Form 10-K/A. For interim reporting purposes, Park follows the same basic accounting policies, as updated by the information contained in this report, and considers each interim period an integral part of an annual period. Management has evaluated events occurring subsequent to the balance sheet date, determining no events require additional disclosure in these consolidated condensed financial statements.

1A. RESTATEMENT OF FINANCIAL STATEMENTS

In a Current Report on Form 8-K filed on January 31, 2012 (the "January 31, 2012 Form 8-K"), Park announced that on January 27, 2012, management determined that (i) Park's previously issued audited consolidated financial statements incorporated by reference in Park's Annual Report on Form 10-K for the year ended December 31, 2010, filed on February 28, 2011, and (ii) Park's unaudited condensed consolidated financial statements included in Park's Quarterly Reports on Form 10-Q for the quarterly periods ended March 31, 2011, June 30, 2011, and September 30, 2011, should be restated.

The accounting treatment giving rise to the restatement was the inclusion of estimated future cash flows supporting the allowance for loan losses related to certain impaired commercial loans. For the year ended December 31, 2010, as part of Park's process to measure impairment on certain impaired commercial loans at Vision Bank, management had relied on expected future cash flows from guarantors, as to whom we were in litigation. Management determined that reliance on expected future cash flows, which may require protracted litigation to actually be received, is inappropriate given the difficulty in obtaining objective verifiable evidence supporting a conclusion as to the amount and timing of the expected cash flows. GAAP requires that our assumptions be "reasonable and supportable" and the facts and circumstances around the existence of protracted litigation make this assumption more difficult to support.

The restatement also reflects certain OREO devaluations and additional loan loss provisions that are not related to guarantor support. These expense items are related to valuation issues identified at December 31, 2010, where Vision Bank management utilized (i) the work of a third-party contractor, which was not a licensed appraiser, when calculating the fair value of collateral for certain impaired loans and the fair value of certain OREO held by Vision Bank, and management did not have sufficient documentation to support the estimates of this third-party contractor, and (ii) internal estimates of collateral value when calculating specific reserves for certain impaired loans when, at times, such internal estimates were outdated. The impact is to reverse provisions for loan losses and OREO devaluations originally recorded in 2011 and recognize these provisions for loan losses and OREO devaluations in the restated audited consolidated financial statements for the year ended December 31, 2010.

The tables below detail the restated financial statement line items and Park's regulatory capital ratios for the three and six months ended June 30, 2011.

Note 2 – Recent Accounting Pronouncements

Adoption of New Accounting Pronouncements:

Improving Disclosures About Fair Value Measurements: In January 2010, the FASB issued an amendment to Fair Value Measurements and Disclosures, Topic 820, Improving Disclosures About Fair Value Measurements. This amendment requires new disclosures regarding significant transfers in and out of Level 1 and 2 fair value measurements and the reasons for the transfers. This amendment also requires that a reporting entity present separately information about purchases, sales, issuances and settlements, on a gross basis rather than a net basis for activity in Level 3 fair value measurements using significant unobservable inputs. This amendment also clarifies existing disclosures on the level of disaggregation, in that the reporting entity needs to use judgment in determining the appropriate classes of assets and liabilities, and that a reporting entity should provide disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for Level 2 and 3. The new disclosures and clarifications of existing disclosures for ASC 820 are effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. The adoption of ASC 820 did not have a material effect on the Company's consolidated financial statements.

Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses: In July 2010, FASB issued Accounting Standards Update 2010-20, Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses (ASU 2010-20), to address concerns about the sufficiency, transparency, and robustness of credit risk disclosures for finance receivables and the related allowance for credit losses. This ASU requires new and enhanced disclosures at disaggregated levels, specifically defined as "portfolio segments" and "classes". Among other things, the expanded disclosures include roll-forward schedules of the allowance for credit losses and information regarding the credit quality of receivables as of the end of a reporting period. New and enhanced disclosures are required for interim and annual periods ending after December 15, 2010, although the disclosures of reporting period activity are required for interim and annual periods beginning after December 15, 2010. The adoption of the new guidance impacted interim and annual disclosures included in the Company's consolidated financial statements.

No. 2011-01 - Receivables (Topic 310) Deferral of the Effective Date of Disclosures about Troubled Debt Restructurings in Update No. 2010-20: In January 2011, FASB issued Accounting Standards Update 2011-01, Deferral of the Effective Date of Disclosures about Troubled Debt Restructurings in Update No. 2010-20 (ASU 2011-01). ASU 2011-01 was issued as a result of concerns raised from stakeholders that the introduction of new disclosure requirements (paragraphs 310-10-50-31 through 50-34 of the FASB Accounting Standards Codification) about troubled debt restructurings in one reporting period followed by a change in what constitutes a troubled debt restructuring shortly thereafter would be burdensome for preparers and may not provide financial statement users with useful information.

No. 2011-02 – Receivables (Topic 310) A Creditor’s Determination of Whether a Restructuring Is a Troubled Debt Restructuring: In April 2011, FASB issued Accounting Standards Update 2011-02, A Creditor’s Determination of Whether a Restructuring Is a Troubled Debt Restructuring (ASU 2011-02). The ASU provides additional guidance to creditors for evaluating whether a modification or restructuring of a receivable is a troubled debt restructuring (“TDR”). The new guidance requires creditors to evaluate modifications and restructurings of receivables using a more principles-based approach, which may result in more modifications and restructurings being considered TDRs. Additionally, creditors will be required to provide additional disclosures about their TDR activities in accordance with the requirements of ASU 2010-20, Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses, which was deferred by ASU 2011-01 Deferral of the Effective Date of Disclosures about Troubled Debt Restructurings in Update No. 2010-20 (ASU 2011-01). The new guidance will be effective for the first interim or annual period beginning on or after June 15, 2011, with retrospective application required to the beginning of the annual period of adoption. Disclosures requirements will be effective for the first interim and annual period beginning on or after June 15, 2011. Management is currently working through the guidance to determine the impact, if any, to the consolidated financial statements.

No. 2011-04 – Fair Value Measurement (Topic 820) Amendments to Achieve Common Fair Value Measurement and Disclosure Requirement in U.S. GAAP and IFRSs: In May 2011, FASB issued Accounting Standards Update 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirement in U.S. GAAP and IFRSs (ASU 2011-04). The new guidance in this ASU results in common fair value measurement and disclosure requirements in U.S. GAAP and IFRSs. Certain amendments clarify the FASBs intent about the application of existing fair value measurement requirements. Other amendments change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. These amendments also enhance disclosure requirements surrounding fair value measurement. Most significantly, an entity will be required to disclose additional information regarding Level 3 fair value measurements including quantitative information about unobservable inputs used, a description of the valuation processes used by the entity, and a qualitative discussion about the sensitivity of the measurements. The new guidance is effective for interim and annual periods beginning on or after December 15, 2011. Management is currently working through the guidance to determine the impact, if any, to the consolidated financial statements.

No 2011-05 – Presentation of Comprehensive Income: In June 2011, FASB issued Accounting Standards Update 2011-05, Presentation of Comprehensive Income (ASU 2011-05). The ASU eliminates the option to report other comprehensive income and its components in the statement of changes in equity. An entity can elect to present the components of net income and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The ASU does not change the items that must be reported in other comprehensive income, when an item of other comprehensive income must be reclassified to net income, or how earnings per share is calculated or presented. The new guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011 and must be applied retrospectively. The adoption of the new guidance will impact the presentation of the consolidated financial statements.

Note 3 – Goodwill and Intangible Assets

The following table shows the activity in goodwill and core deposit intangibles for the first six months of 2011.

(in thousands)	Goodwill	Core Deposit Intangibles	Total
December 31, 2010	$ 72,334	$ 6,043	$ 78,377
Amortization	-	1,338	1,338
June 30, 2011	$ 72,334	$ 4,705	$ 77,039

The core deposit intangibles are being amortized to expense principally on the straight-line method, over periods ranging from six to ten years. Management expects that the core deposit intangibles amortization expense will be approximately $669,000 per quarter for the third and fourth quarters of 2011.

Core deposit intangibles amortization expense is projected to be as follows for the remainder of 2011 and for each of the following years:

(in thousands)	Annual Amortization
Remainder of 2011	$ 1,338
2012	2,677
2013	690

Management's general practice is to proactively charge down loans individually evaluated for impairment to the fair value of the underlying collateral. At June 30, 2011 and December 31, 2010, there were $37.6 million and $12.0 million, respectively, of partial charge-offs on loans individually evaluated for impairment with no related allowance recorded and $51.1 million and $41.6 million, respectively, of partial charge-offs on loans individually evaluated for impairment that also had a specific reserve allocated.

The allowance for loan losses included specific reserves related to loans individually evaluated for impairment at June 30, 2011 and December 31, 2010, of $42.8 million and $66.9 million, respectively, related to loans with a recorded investment of $92.7 million and $162.3 million.

The following table presents the average recorded investment and interest income recognized on loans individually evaluated for impairment for the three and six months ended June 30, 2011:

Management’s policy is to initially place all renegotiated loans (troubled debt restructurings) on nonaccrual status. At June 30, 2011 and December 31, 2010, there were $72.6 million and $80.7 million, respectively, of troubled debt restructurings included in nonaccrual loan totals. Many of these troubled debt restructurings are performing under the renegotiated terms. At June 30, 2011 and December 31, 2010, $47.9 million and $50.3 million of the total troubled debt restructurings were included within current loans above. Management will continue to review the renegotiated loans and may determine it appropriate to move certain of the loans back to accrual status in the future. At June 30, 2011 and December 31, 2010, Park had commitments to lend $502,000 and $434,000, respectively, of additional funds to borrowers whose terms had been modified in a troubled debt restructuring.

Management utilizes past due information as a credit quality indicator across the loan portfolio. The past due information is the primary credit quality indicator within the following classes of loans: (1) mortgage loans and installment loans in the construction real estate segment; (2) mortgage loans, HELOC and installment loans in the residential real estate segment; and (3) throughout the consumer loan segment. The primary credit indicator for commercial loans is based on an internal grading system that grades all commercial loans from 1 to 8. Credit grades are continuously monitored by the respective loan officer and adjustments are made when appropriate. A grade of 1 indicates little or no credit risk and a grade of 8 is considered a loss. Commercial loans with grades of 1 to 4 (pass-rated) are considered to be of acceptable credit risk. Commercial loans graded a 5 (special mention) are considered to be watch list credits and a higher loan loss reserve percentage is allocated to these loans. Loans classified as special mention have potential weaknesses that deserve management’s close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loans or of the institution’s credit position at some future date. Commercial loans graded 6 (substandard), also considered watch list credits, are considered to represent higher credit risk and, as a result, a higher loan loss reserve percentage is allocated to these loans. Loans classified as substandard loans are inadequately protected by the current sound net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected. Commercial loans that are graded a 7 (doubtful) are shown as nonperforming and Park generally charges these loans down to their fair value by taking a partial charge-off or recording a specific reserve. Loans classified as doubtful have all the weaknesses inherent in those classified as substandard with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions and values, highly questionable and improbable. Any commercial loan graded an 8 (loss) is completely charged-off. The tables below present the recorded investment by loan grade at June 30, 2011 and December 31, 2010 for all commercial loans.

Note 5 – Allowance for Loan Losses

The allowance for loan losses is that amount management believes is adequate to absorb probable incurred credit losses in the loan portfolio based on management’s evaluation of various factors including overall growth in the loan portfolio, an analysis of individual loans, prior and current loss experience, and current economic conditions. A provision for loan losses is charged to operations based on management’s periodic evaluation of these and other pertinent factors as discussed within Note 1 of the Notes to Consolidated Financial Statements included in “Item 8 - Financial Statements and Supplementary Data” of Part II of Park’s 2010 Form 10-K/A.

The activity in the allowance for loan losses for the three and six months ended June 30, 2011 and June 30, 2010 is summarized below.
