PROXY STATEMENT

This proxy statement is furnished in connection with the solicitation by the board of directors, or the board, of Senesco Technologies, Inc., a Delaware corporation, referred to herein as the Company, Senesco, we, us or our, of proxies to be voted at our annual meeting of stockholders to be held on March 28, 2013, referred to herein as the Meeting, at the offices of Morgan, Lewis & Bockius LLP at 101 Park Avenue, New York, NY 10178, at 10:00 A.M., local time, and at any adjournment or adjournments thereof. The holders of record of our common stock, \$0.01 par value per share, also referred to herein as common stock, as of the close of business on February 12, 2013, also referred to herein as the Record Date, will be entitled to notice of and to vote at the Meeting and any adjournment or adjournments thereof. As of the Record Date, there were 146,975,283 shares of our common stock issued and outstanding and entitled to vote. Each share of our common stock is entitled to one (1) vote on any matter presented at the Meeting.

If proxies in the accompanying form are properly voted and received, the shares of our common stock represented thereby will be voted in the manner specified therein. If not otherwise specified, the shares of our common stock represented by the proxies will be voted:

1. FOR the election of the ten (10) nominees named below as directors;
2. FOR the approval of an amendment to the Company's Certificate of Incorporation to increase the total number of authorized shares of common stock, \$0.01 par value per share, of the Company from 350,000,000 to 500,000,000;
3. FOR the authorization of our Board of Directors to effect a reverse stock split in any ratio up to 1-for-20;
4. FOR the advisory (non-binding) vote on executive compensation;

5. FOR every three years on the advisory (non-binding) vote on frequency of holding an advisory vote on executive compensation;
6. FOR the ratification of the appointment of McGladrey, LLP as our independent registered public accounting firm for the fiscal year ending June 30, 2013; and
7. In the discretion of the persons named in the enclosed form of proxy, on any other proposals which may properly come before the Meeting or any adjournment or adjournments thereof.

Any stockholder who has submitted a proxy may revoke it at any time before it is voted, by timely delivery of a later dated proxy (including a telephone or Internet vote), by delivering a written notice of your revocation addressed to and received by our Corporate Secretary or by electing to vote in person at the Meeting. The mere presence at the Meeting of the person appointing a proxy does not, however, revoke the appointment.

The presence, in person or by proxy, of holders of shares of our common stock having a majority of the votes entitled to be cast at the Meeting shall constitute a quorum.

Proposal No. 1—Election of Directors. Approval of the election of directors requires the affirmative vote of a plurality of the shares present in person or represented by proxy and entitled to vote on Proposal No. 1. Brokers are not authorized to vote without instructions on this proposal. As a result, abstentions will have the same effect as voting against the proposal and broker non-votes will have no effect on the vote outcome.

Proposal No. 2—Increase of Authorized Shares. Approval of an amendment to the Company's Certificate of Incorporation to increase the total number of authorized shares of common stock, \$0.01 par value per share, of the Company from 350,000,000 to 500,000,000 requires the affirmative vote of our stockholders representing a majority of the shares of common stock outstanding as of the Record Date. Brokers are authorized to vote without instructions on this proposal. Abstentions will have the same effect as voting against the proposal.

Proposal No. 3—Approval of Reverse Split. Approval of the authorization of our Board of Directors to effect a reverse stock split in any ratio up to 1-for-20 requires the affirmative vote of our stockholders representing a majority of the shares of common stock outstanding as of the Record Date. Brokers are authorized to vote without instructions on this proposal. Abstentions will have the same effect as voting against the proposal.

Proposal No. 4—Advisory and non-binding vote on executive compensation. Approval of the advisory non-binding resolution regarding the compensation of the Company's named executive officers requires the affirmative vote of a majority of the shares present in person or represented by proxy and entitled to vote on Proposal No. 4. Brokers are not authorized to vote without instructions on this proposal. As a result, abstentions will have the same effect as voting against the proposal and broker non-votes will have no effect on the vote outcome.

Proposal No. 5—Advisory and non-binding vote on frequency of holding an advisory vote on executive compensation. This advisory vote provides a choice among three frequency periods for future advisory votes on executive compensation, i.e., every one, two or three years. A particular frequency will be deemed to have been approved if it receives the affirmative vote of a majority of the shares present in person or represented by proxy and entitled to vote on Proposal No. 5. Brokers are not authorized to vote without instructions on this proposal. Accordingly, abstentions will count as negative votes and broker non-votes will have no effect on Proposal No. 5. However, whether or not a particular frequency receives majority approval in accordance with the above standard, our Board of Directors will have the discretion to determine the actual frequency at which the required advisory stockholder vote on the compensation of our named executive officers will be conducted, because the vote on such frequency is only advisory and non-binding. The Board's determination on the actual frequency of such vote will be disclosed in a Form 8-K to be filed in accordance with the rules of the Securities and Exchange Commission.

Proposal No. 6—Ratification of Appointment of Independent Registered Accounting Firm. Ratification of the appointment of McGladrey, LLP as our independent registered public accounting firm for the fiscal year ending June 30, 2013 requires the affirmative vote of a majority of the shares present in person or represented by proxy and entitled to vote on Proposal No. 6. Brokers are authorized to vote without instructions on this proposal. Abstentions will have the same effect as voting against the proposal.

Abstentions are included in the shares present at the Meeting for purposes of determining whether a quorum is present, and are counted as a vote against for purposes of determining whether any of the foregoing Proposals are approved. Broker non-votes are when shares are represented at the Meeting by a proxy specifically conferring only limited authority to vote on certain matters and no authority to vote on other matters. Therefore, broker non-votes are included in the determination of the number of shares represented at the Meeting for purposes of determining whether a quorum is present but are not counted for purposes of determining whether a proposal has been approved in matters where the proxy does not confer the authority to vote on such proposal. In this year's vote, brokers are entitled to vote without instructions on Proposals 2, 3 and 6, but not on Proposals 1, 4 or 5. Accordingly, broker non-votes are not counted as a vote against and will not affect the outcome of Proposals 1, 4 or 5.

Your vote is very important. All properly completed proxy cards delivered pursuant to this solicitation, whether via mail, telephone or the Internet, and not revoked will be voted at the Meeting in accordance with the directions given. In voting by proxy with regard to the election of directors, you may vote in favor of all nominees, withhold your votes as to all nominees or withhold your votes as to specific nominees. With regard to other proposals, you may vote in favor of each proposal or against each proposal, or in favor of some proposals and against others or you may abstain from voting on any or all proposals. You should specify your respective choices on the proxy card. If you do not give specific instructions with regard to the matters to be voted upon, the shares of common stock represented by your completed proxy card will be voted in accordance with the board of directors' recommendation with respect to Proposals 1 through 6. If any other matters properly come before the Meeting, the persons named as proxies will vote for or against these matters according to their best judgment. We strongly encourage you to submit your voting instructions and exercise your right to vote as a stockholder.

You may revoke your proxy and reclaim your right to vote up to and including the day of the Meeting by giving written notice of your revocation to the Secretary of Senesco, by timely delivery of a later dated proxy (including a telephone or Internet vote) or by voting in person at the Meeting. All written notices of revocation and other communications with respect to revocations of proxies should be addressed to: Secretary, Senesco Technologies, Inc., 721 Route 202/206, Suite 130, Bridgewater, New Jersey 08807.

On or about February 25, 2013, this proxy statement, together with the related proxy card, is being mailed to our stockholders of record as of the Record Date. Our annual report to our stockholders for the fiscal year ended June 30, 2012, including our financial statements, is being mailed together with this proxy statement to all of our stockholders of record as of the Record Date. In addition, we have provided brokers, dealers, banks, voting trustees and their nominees, at our expense, with additional copies of our annual report so that our record holders could supply these materials to our beneficial owners as of the Record Date.

Dr. Thompson has an in-depth knowledge and understanding of the science underlying our technology and how it relates to human health and agricultural applications.

Director Experience, Qualifications, Attributes and Skills

We believe that the backgrounds and qualifications of our directors, considered as a group, should provide a composite mix of experience, knowledge and abilities that will allow the board to fulfill its responsibilities. The board is composed of a diverse group of leaders in their respective fields. Many of the current directors have leadership experience at major domestic and international companies with operations inside and outside the United States, which provides an understanding of different business processes, challenges and strategies. Other directors have prior

experience as former executive officers of other entities, which brings unique perspectives to the board. Further, the Company's directors also have other experience that makes them valuable members, such as prior public policy or regulatory experience that provides insight into issues faced by companies.

Our board of directors recommends a vote "FOR" the election of each of the nominees to the board of directors.

Board Leadership Structure and Role in Risk Oversight

The board evaluates its leadership structure and role in risk oversight on an ongoing basis. In March 2010, the Company's board leadership structure separated the Chairman of the Board, the Chief Executive Officer and the Lead Director roles into three positions. Currently, Harlan W. Waksal, M.D. is the Chairman of the Board, Leslie J. Browne, Ph.D. is the Chief Executive Officer and David Rector is the Lead Director. The board determines what leadership structure it deems appropriate based on factors such as the experience of the applicable individuals, the current business environment of the Company or other relevant factors. In his capacity as Lead Director, Mr. Rector consults independently of the Chairman of the Board with other members of the board in matters that are presented for the independent board member's consideration. After considering these factors, the board determined that continuing to separate the positions of Chairman of the Board, Lead Director and Chief Executive Officer is the appropriate board leadership structure at this time.

The board is also responsible for oversight of the Company's risk management practices while management is responsible for the day-to-day risk management processes. This division of responsibilities is the most effective approach for addressing the risks facing the Company, and the Company's board leadership structure supports this approach. The board receives periodic reports from management regarding the most significant risks facing the Company. In addition, the Audit Committee assists the board in its oversight role by receiving periodic reports regarding the Company's risk and control environment.

Corporate Governance Guidelines

Our board has long believed that good corporate governance is important to ensure that we are managed for the long-term benefit of our stockholders. During the past year, our board has continued to review our governance practices in light of the Sarbanes-Oxley Act of 2002, the new rules and regulations of the Securities and Exchange Commission and the new listing standards, policies and requirements of NYSE MKT. Although we are no longer listed on the NYSE MKT, we intend to continue to adhere to the corporate governance policies and requirements of the NYSE MKT.

Our board has adopted corporate governance guidelines to assist it in the exercise of its duties and responsibilities and to serve the best interests of Senesco and its stockholders. These guidelines, which provide a framework for the conduct of our board's business, include that:

- the principal responsibility of the directors is to oversee the management of Senesco;
- a majority of the members of our board shall be independent directors;
- the independent directors met regularly in executive session;

· directors have full and free access to management and, as necessary and appropriate, independent advisors; new directors participate in an orientation program and all directors are expected to participate in continuing director education on an ongoing basis; and
at least annually, our board and its committees will conduct a self-evaluation to determine whether they are functioning effectively.

Board Determination of Independence

Under the current rules set forth in the NYSE MKT Company Guide, a director will, among other things, qualify as an “independent director” if, in the determination of our board, that person does not have a relationship that would interfere with his or her exercise of independent judgment in carrying out the responsibilities of a director. Our board currently consists of Rudolf Stalder, John E. Thompson, Ph.D., John N. Braca, Christopher Forbes, Warren J. Isabelle, Thomas C. Quick, David Rector, Jack Van Hulst, Leslie J. Browne, Ph.D. and Harlan W. Waksal, M.D. We were traded on the NYSE MKT, which requires our board be comprised of a majority of independent directors. Our board has determined that each of Messrs. Stalder, Braca, Forbes, Isabelle, Quick and Rector is an “independent director” as defined under Section 803 of the NYSE MKT Company Guide.

Committees and Meetings of our Board of Directors

Our board held four (4) meetings during Fiscal 2012. Throughout this period, each member of our board attended or participated in at least 75% of the aggregate of the total number of meetings of our board held during the period for which such person has been a director, and the total number of meetings held by all committees of our board on which each the director served during the periods the director served, except for Jack Van Hulst who attended 50% of the aggregate of the total number of meetings of our board held during the period,. Our board has three standing committees: the Compensation Committee, the Audit Committee, and the Nominating and Corporate Governance Committee. From time to time, our board may form additional committees on a short-term basis, such as a Pricing Committee to review the Company's financing activities and an Executive Committee to review certain of the Company's significant developments. Each standing committee operates under a charter that has been approved by our board. Each of these charters is also posted on our website at www.senesco.com. Our corporate governance guidelines provide that directors are expected to attend the annual meeting of stockholders. All of our directors, except for Jack Van Hulst, attended the 2012 annual meeting of stockholders.

Compensation Committee. Our Compensation Committee was established in July 1999, pursuant to the Compensation Committee Charter. Our Compensation Committee generally makes recommendations concerning salaries and incentive compensation for our management and our employees. The primary responsibilities of our Compensation Committee, as more fully set forth in the Compensation Committee Charter adopted in July 1999 and amended and restated on March 11, 2011, include:

- annually reviewing and approving, or recommending for approval by our board, the corporate goals and objectives relevant to executive officer compensation;
- reviewing and approving, or recommending for approval by our board, the salaries and incentive compensation of our executive officers;
- preparing the Compensation Committee report, including the Compensation Discussion and Analysis;
- administering our 2008 Incentive Compensation Plan, or similar stock plan adopted by our stockholders; and
- reviewing and making recommendations to our board with respect to director compensation.

Our Compensation Committee is currently comprised of David Rector and John. N. Braca. Mr. Rector currently serves as the chairman of the Compensation Committee. All members of our Compensation Committee are considered independent pursuant to Section 803 of the NYSE MKT Company Guide. Our Compensation Committee held five (5) meetings during Fiscal 2012.

Compensation Committee Interlocks and Insider Participation

No member of the Compensation Committee is or has been an officer or employee of our company or any of our subsidiaries. In addition, no member of the Compensation Committee had any relationships with us or any other entity that requires disclosure under the proxy rules and regulations promulgated by the SEC and none of our executive officers served on the Compensation Committee or board of any company that employed any member of our board.

Audit Committee. Our Audit Committee was established in July 1999. On March 11, 2011, our board adopted an Amended and Restated Audit Committee Charter. The primary responsibilities of our Audit Committee include:

- appointing, approving the compensation of, and assessing the independence of our independent registered public accounting firm;
- overseeing the work of our independent registered public accounting firm, including through the receipt and consideration of certain reports from our independent registered public accounting firm;
- reviewing and discussing with management and our independent registered public accounting firm our annual and quarterly financial statements and related disclosures;
- monitoring our internal control over financial reporting, disclosure controls and procedures and code of business conduct and ethics;
- discussing our risk management policies;
- establishing policies regarding hiring employees from our independent registered public accounting firm and procedures for the receipt and retention of accounting related complaints and concerns;
- meeting independently with our independent registered public accounting firm and management; and
- preparing the audit committee report required by SEC rules.

Our Audit Committee is currently comprised of John N. Braca, David Rector and Rudolf Stalder. Mr. Braca currently serves as the chairman of the Audit Committee. The NYSE MKT currently requires an Audit Committee comprised solely of independent directors. Messrs. Braca, Rector and Stalder are “independent” members of our board as defined in Rule 10A-3 under the Securities Exchange Act of 1934, as amended, or the Exchange Act, and Section 803 of the NYSE MKT Company Guide. In addition, our board of directors has determined that Mr. Braca satisfies the definition of an audit committee “financial expert” as set forth in Item 407(d) (5) of Regulation S-K promulgated by the SEC. Our Audit Committee held five (5) meetings during Fiscal 2012.

Review and Approval of Related Person Transactions

Our Audit Committee Charter requires that our Audit Committee review and approve or ratify transactions involving us and any executive officer, director, director nominee, 5% stockholder and certain of their immediate family members, also referred to herein as a related person. The policy and procedures cover any transaction involving a related person, also referred to herein as a related person transaction, in which the related person has a material interest and which does not fall under an explicitly stated exception set forth in the applicable disclosure rules of the SEC.

A related person transaction will be considered approved or ratified if it is authorized by the Audit Committee after full disclosure of the related person’s interest in the transaction. In considering related person transactions, the Audit Committee will consider any information considered material to investors and the following factors:

- the related person's interest in the transaction;
- the approximate dollar value of the transaction;
- whether the transaction was undertaken in the ordinary course of our business;
- whether the terms of the transaction are no less favorable to us than terms that we could have reached with an unrelated third party; and
- the purpose and potential benefit to us of the transaction.

Nominating and Corporate Governance Committee. The primary responsibilities of our Nominating and Corporate Governance Committee, as more fully set forth in the Nominating and Corporate Governance Committee Charter and Corporate Governance Guidelines adopted on October 15, 2004, and amended and restated on March 11, 2011 include:

- identifying individuals qualified to become our board members;
- evaluating and recommending to our board the persons to be nominated for election as directors at any meeting of stockholders and to each of our board's committees;
- reviewing and making recommendations to our board with respect to management succession planning;
- developing and recommending to our board a set of corporate governance principles applicable to Senesco; and
- overseeing the evaluation of our board.

Our Nominating and Corporate Governance Committee was formed on September 29, 2004, and it is currently comprised of Messrs. Stalder, Forbes and Quick. Mr. Forbes currently serves as the chairman of the Nominating and Corporate Governance Committee. All members of our Nominating and Corporate Governance Committee are independent, as independence for nominating and corporate governance committee members is defined under Section 803 of the NYSE MKT company Guide. The Nominating and Corporate Governance Committee did not hold any meetings during Fiscal 2012.

The Nominating and Corporate Governance Committee does not have a specific policy with regard to the consideration of diversity in identifying director nominees. The Nominating and Corporate Governance Committee considers the diversity of the professional experience, education and skill set in identifying the director nominees.

Code of Business Ethics and Conduct. On March 17, 2003, our board adopted a Code of Business Ethics and Conduct, which may also be found on our website at www.senesco.com. Our Code of Ethics contains written standards designed to deter wrongdoing and to promote:

- honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships;
- full, fair, accurate, timely, and understandable disclosure in reports and documents filed with the SEC and in other public communications made by the Company;
- compliance with applicable governmental laws, rules and regulations;
- the prompt internal reporting of violations of our Code of Ethics to an appropriate person or persons identified in our Code of Ethics; and
- accountability for adherence to our Code of Ethics.

Each of our employees, officers and directors completed a signed certification to document his or her understanding of and compliance with our Code of Ethics.

Director Candidates

The process followed by our Nominating and Corporate Governance Committee to identify and evaluate director candidates includes requests to board members and others for recommendations, meetings from time to time to evaluate biographical information and background material relating to potential candidates and interviews of selected candidates by members of the committee and the board.

In considering whether to recommend any particular candidate for inclusion in the board's slate of recommended director nominees, our Nominating and Corporate Governance Committee will apply the criteria contained in the committee's charter. These criteria include, but are not limited to, the candidate's integrity, business acumen, knowledge of our business and industry, age, experience, diligence, conflicts of interest and the ability to act in the interests of all stockholders. Our Nominating and Corporate Governance Committee does not assign specific weights to particular criteria and no particular criterion is a prerequisite for each prospective nominee. In addition, although we do not have a formal diversity policy, we review diversity as one of the criteria for nomination. We believe that the backgrounds and qualifications of our directors, considered as a group, should provide a composite mix of experience, knowledge and abilities that will allow the board to fulfill its responsibilities.

Stockholders may recommend individuals to our Nominating and Corporate Governance Committee for consideration as potential director candidates by submitting their names, together with appropriate biographical information and background materials and a statement as to whether the stockholder or group of stockholders making the recommendation has beneficially owned more than \$2,000 in market value, or 1%, of our common stock for at least one (1) year as of the date such recommendation is made, to: Nominating and Corporate Governance Committee, c/o Corporate Secretary, Senesco Technologies, Inc., 721 Route 202/206, Suite 130, Bridgewater, NJ 08807. Assuming that appropriate biographical and background material has been provided on a timely basis, the committee will evaluate stockholder-recommended candidates by following substantially the same process, and applying substantially the same criteria, as it follows for candidates submitted by others.

Communicating with our Independent Directors

Our board will give appropriate attention to written communications that are submitted by stockholders, and will respond if and as appropriate. The Lead Director, with the assistance of our outside counsel, is primarily responsible for monitoring communications from our stockholders and for providing copies or summaries to the other directors as he considers appropriate. Communications are forwarded to all directors if they relate to important substantive matters and include suggestions or comments that the Lead Director considers to be important for the directors to know. In general, communications relating to corporate governance and long-term corporate strategy are more likely to be forwarded than communications relating to ordinary business affairs, personal grievances and matters as to which we tend to receive repetitive or duplicative communications.

Stockholders who wish to send communications on any topic to our board should address such communications to: Board of Directors, c/o Corporate Secretary, Senesco Technologies, Inc., 721 Route 202/206, Suite 130, Bridgewater, NJ 08807. Our Corporate Secretary will forward such communications to our Lead Director, with a copy to the Chairman of our board.

Compensation of Directors

We use a combination of cash and equity-based compensation to attract and retain qualified individuals to serve on our board, as described below. We provide reimbursement to directors for reasonable and necessary expenses incurred in connection with attendance at meetings of the board of directors and other Senesco business.

Dr. Thompson has received compensation for providing research and development management services to us and does not receive any additional compensation for his services as a board member. See “Certain Relationships and Related Transactions” which sets forth the details of the compensation arrangement with Dr. Thompson.

None of our current executive officers are related to any other executive officer or to any of our directors. Our executive officers are elected annually by our board and serve until their successors are duly elected and qualified.

COMPENSATION DISCUSSION AND ANALYSIS

This Compensation Discussion and Analysis explains the principles underlying our compensation policies and decisions and the principal elements of compensation paid to our executive officers during Fiscal 2012 and as anticipated for Fiscal 2013. Our Chief Executive Officer, Chief Financial Officer and all of our other executive officers included in the Summary Compensation Table will be referred to as the “named executive officers” for purposes of this discussion.

Compensation Objectives and Philosophy

The Compensation Committee of the board, also referred to herein as the Committee, is responsible for the following:

- annually reviewing and approving, or recommending for approval by our board, the corporate goals and objectives relevant to executive officer compensation;
- reviewing and approving, or recommending for approval by our board, the salaries and incentive compensation of our executive officers;
- preparing the Compensation Committee report, including the Compensation Discussion and Analysis;
- administering our 2008 Incentive Compensation Plan, or similar stock plan adopted by our stockholders; and
- reviewing and making recommendations to our board with respect to director compensation.

We are a development stage biotechnology company utilizing our patented and patent-pending technology related to certain genes, primarily eukaryotic translation initiation Factor 5A, or Factor 5A, and deoxyhypusine synthase, or DHS, and related technologies for human therapeutic applications to develop novel approaches to treat cancer and inflammatory diseases. To achieve this strategic objective, we have emphasized the recruitment of executives with significant industry or scientific experience. This is a very competitive industry and our success depends upon our ability to attract and retain qualified executives through competitive compensation packages. The Compensation Committee administers the compensation programs for our executive officers with this competitive environment in mind.

Pharmaceutical research, development and commercialization require sustained and focused effort over many years. As a consequence, the Compensation Committee believes our compensation program must balance long-term incentives that create rewards for the realization of our long-term strategic objectives with near term compensation that rewards employees for the achievement of annual goals that further the attainment of our long-term objectives and align the interests of our employees with those of our stockholders.

To this end, the objectives of our compensation program are:

- to motivate, recruit and retain executives with extensive industry or scientific experience and who are capable of meeting our strategic objectives;
- to provide incentives to ensure superior executive performance and successful financial results for us; and
- to align the interests of executives with the long-term interests of our stockholders.

The Committee seeks to achieve these objectives by:

- linking a substantial portion of compensation to our achievement of long-term and short-term research and development objectives and financial objectives and the individual's contribution to the attainment of those objectives;
- providing long-term equity-based incentives and encouraging direct share ownership by executives with the intention of providing incentive-based compensation to encourage a long-term focus on company profitability and stockholder value; and
- understanding the marketplace and establishing a compensation structure that is adjusted for our position in the marketplace and our current financial condition and limited capital resources.

Setting Executive Compensation

For Fiscal 2012, the Committee's objective was to target each component of compensation listed below to be competitive with comparable positions at peer group companies, and to target the total annual compensation of each named executive officer at the appropriate level for comparable positions at the competitive peer group companies. However, the Committee did not target each component of compensation or total annual compensation to a specific level or percentage as compared to the competitive peer group.

In establishing the peer group for Fiscal 2012, the Committee identified various companies in the biotech sector it felt were similar in scope of operation to Senesco. For Fiscal 2012, the companies we elected to evaluate as a peer group were as follows: Access Pharma (ACCP.OB); Adventrx (ANX); Poniard (PARD); Cortex (CORX.OB); Callisto (CLSP.OB); RXi Pharmaceuticals (RXII); Titan Pharma (TTNP.OB); Oxigene (OXGN); Entremed (ENMD); and Silence Therapeutics (SLNCF). For Fiscal 2013, the companies we elected to evaluate as a peer group were as follows: Access Pharma (ACCP.OB); Adventrx (ANX); Poniard (PARD); Cortex (CORX.OB); RXi Pharmaceuticals (RXII); Titan Pharma (TTNP.OB); Oxigene (OXGN); Entremed (ENMD); and Silence Therapeutics (SLNCF). In selecting companies to survey for compensatory purposes, the Committee considered many factors not directly associated with the stock price performance of those companies, such as geographic location, development stage, organizational structure and market capitalization. Because the biotechnology industry is a dynamic industry, our comparator group is periodically updated to ensure that companies continue to meet established criteria and remain similar in scope of operation to us.

During the compensation review process for Fiscal 2012, the Committee engaged J. Richard and Co., also referred to herein as J. Richard, a nationally recognized compensation consulting firm, as its compensation consultant, on an as needed basis regarding its proposed programs and approaches to compensation during Fiscal 2012. In particular, J. Richard provided advice with respect to the following key decisions made by the Committee during Fiscal 2012: the establishment of the appropriate level of base salary and incentive compensation for each executive officer, the size and structure of equity awards granted in Fiscal 2012 and Fiscal 2013 and the establishment of a severance policy in Fiscal 2013. J. Richard did not provide any additional services to the Committee or Senesco for Fiscal 2012, and compensation to J. Richard for services rendered in Fiscal 2012 was less than \$120,000. In addition, the Committee consulted with J. Richard in connection with its plans for Fiscal 2013.

There is no pre-established policy for allocation of compensation between cash and non-cash components or between short-term and long-term components. Instead, the Committee determines the mix of compensation for each named executive officer based on its review of the competitive data, its subjective analysis of that individual's performance and contribution to our financial performance, the financial strength and outlook of Senesco, recommendations of the CEO, and what is considered fair and reasonable by the Committee based on the scope of operations and responsibilities of the officer. As part of this process, the Committee considers a number of factors important to our stockholders, including ongoing concerns over the dilutive effect of option grants on our outstanding shares, the compensation expense we must take for financial accounting purposes in accordance with FASB Accounting Standards Codification Topic 718 (ASC 718, Compensation-Stock Compensation) with respect to option grants in relation to the actual value anticipated to be delivered to our executive officers from such awards, and the market volatility of our stock.

Finally, the Committee reviews the compensation metrics of the CEO versus the other named executive officers. Although certain percentages and allocations may differ, the overall cash and equity compensation package of the CEO is not materially greater than the overall cash and equity compensation package of each other named executive officer. On average, a large portion of an executive officer's total compensation is at risk, with the amount actually paid tied to our stock price performance and achievement of pre-established Company objectives and individual goals.

Components of Compensation

For Fiscal 2012, our executive compensation program included the following components:

base salary; and
annual equity incentives.

Currently, for Fiscal 2013, our executive compensation program includes the following components:

base salary; and
annual equity incentives.

Base Salary

In General – It is the Committee’s objective to set a competitive rate of annual base salary (or consulting fees for our Chief Scientific Officer) for each named executive officer as compared to the peer group companies. The Committee believes competitive base salaries are necessary to attract and retain top quality executives, since it is common practice for public companies to provide their executive officers with a guaranteed annual component of compensation that is not subject to performance risk. However, in establishing a competitive rate of base salary, the Committee recognizes that it must keep in mind the constraints imposed by our development stage and reliance on the capital markets as the primary source of our cash needs. Accordingly, when compared to comparable positions at the competitive peer group companies, historically, the base salary level for our executive officers has been below the 25th percentile of competitive peer group companies.

In setting the appropriate level of base salary, the Committee also considers a number of other factors, including our recent performance and each officer’s individual performance, the officer’s position and responsibilities and the CEO’s recommendations (with respect to officers other than the CEO).

Base Salary for Fiscal 2012 – After a review of the factors discussed above, and in connection with our decision not to award cash bonuses in Fiscal 2011, the base salaries of our named executive officers were increased for Fiscal 2012 as follows:

Name	Title	2012 Salary	2011 Salary	% Increase	
Leslie J. Browne, Ph.D.	President and Chief Executive Officer	\$262,500	\$250,000	5.0	%
John E. Thompson, Ph.D.	Executive Vice-President and Chief Scientific Officer	\$ 67,500 (1)	\$ 65,000 (1)	3.8	%
Joel P. Brooks	Chief Financial Officer, Secretary and Treasurer	\$170,000	\$164,800	3.0	%
Richard Dondero	Vice-President of Research and Development	\$153,200	\$147,300	4.0	%

(1) Represents consulting fees paid under a consulting agreement.

Base Salary for Fiscal 2013 – After a review of the factors discussed above, and in connection with our decision not to award cash bonuses in Fiscal 2012, the base salaries of our named executive officers were increased for Fiscal 2013 as follows:

Name	Title	2013 Salary	2012 Salary	% Increase	
Leslie J. Browne, Ph.D.	President and Chief Executive Officer	\$271,000	\$262,500	3.5	%
John E. Thompson, Ph.D.	Executive Vice-President and Chief Scientific Officer	\$ 70,000 (1)	\$ 67,500 (1)	3.5	%
Joel P. Brooks	Chief Financial Officer, Secretary and Treasurer	\$176,000	\$170,000	3.5	%
Richard Dondero	Vice-President of Research and Development	\$159,000	\$153,200	3.5	%

(1) Represents consulting fees paid under a consulting agreement.

Annual Bonuses for Fiscal 2012

In order to link a substantial portion of the cash compensation of our executive officers to our performance, the Committee generally provides the opportunity each year to all of the named executive officers to earn additional compensation through incentive programs based on the individual performance of each named executive officer and attainment of stated company objectives that enhance stockholder value. However, in order to conserve our limited cash resources, the Committee decided not to implement a cash incentive program for Fiscal 2012.

Annual Bonuses for Fiscal 2013

Bonuses will be determined at the discretion of the board after the end of the fiscal year based upon the recommendation of the Committee.

Equity Incentive Awards

In General – Historically, the Compensation Committee has granted incentive stock options to our executive officers in order to provide long term incentives that align the interests of our executive officers with the achievement of our long term vision to develop and commercialize pharmaceutical products and with the interests of our stockholders. Given the long time periods involved in pharmaceutical development, the Committee believes that these long term incentives are critical to our success. The Compensation Committee’s goal each year is to weight the equity component of each executive officer’s compensation heavily, as part of our pay-for-performance philosophy and in order to align the interests of our executive officers with our stockholders. The exercise price for options granted by the Company is equal to the closing price of the Company’s stock on the option grant date; accordingly, the stock options only produce realizable value to the executive officer to the extent the Company’s stock price appreciates.

The Committee has followed a grant practice of tying equity awards to its annual year-end review of individual performance, and its assessment of our performance and our operational results. In determining the size of equity awards to make in Fiscal 2012, in order to provide an appropriate retention and incentive program for the Company’s executive officers, the Committee considered a number of factors, including peer group data, ongoing concerns over the dilutive effect of option grants on our outstanding shares, the compensation expense we must take for financial accounting purposes in accordance with FASB Accounting Standards Codification Topic 718 (ASC 718, Compensation-Stock Compensation) for option grants in relation to the actual value anticipated to be delivered to our executive officers, and the market volatility of our stock.

Equity Incentive Plan for Fiscal 2012 – The Committee awarded stock option grants to each executive officer that vest on the basis of individual achievements related to company performance and on each executive officer’s continued service. For the portion of the award that is to vest on the basis of our performance, the Committee, in coordination with our Chief Executive Officer, established goals and objectives for Fiscal 2012 based on the following:

Contributions relating to the development of our SNS01-T assets:

- o Demonstrate the pre-clinical effects of SNS01-T in combination with certain approved therapeutic products;
 - o Develop an improved SNS01-T formulation;
- o Complete treatment under the Phase 1b/2a clinical study for SNS01-T in multiple myeloma; and
 - o Plan a clinical study for SNS01-T in B cell cancers in addition to multiple myeloma;

Contributions relating to finance objectives:

- o Maintain sufficient working capital and plan and execute financing activities; and
 - o Regain and maintain NYSE MKT compliance;

Contributions relating to corporate development:

- o Expand product portfolio; and
- o Investigate partnering opportunities.

The foregoing goals and objectives were generally weighted as follows: 50% for contributions relating to the development of our SNS01-T assets; 25% to contributions relating to finance objectives; and 25% to contributions relating to corporate development. However, the specific weighting varied from executive officer to executive officer, in order to reflect that officer's specific duties and responsibilities.

The Committee established the following individual performance goals and objectives for Fiscal 2012 our Chief Executive Officer, Dr. Browne:

management of clinical trials, initiation of new clinical trials for our SNS01-T assets;

raising capital through financings and maintaining NYSES MKT compliance; and

expanding the product portfolio and integrating business acquisitions.

The Committee, working with our Chief Executive Officer, identified individual performance goals and objectives for Fiscal 2012 for Messrs. Brooks and Dondero and Dr. Thompson. Mr. Brooks's goals and objectives primarily include raising capital through financings, regaining and maintaining NYSE MKT compliance and increasing Senesco's trading volume. Mr. Dondero's goals and objectives primarily include management of Senesco's clinical trials, initiation of new clinical trials for our SNS01-T assets and expanding our product portfolio. Dr. Thompson's goals primarily include demonstrating the pre-clinical effects of SNS01-T in combination with certain approved therapeutic products and developing an improved SNS01-T formulation.

In September 2011, the Committee awarded options to purchase shares of our common stock to our named executive officers which vest on the basis of a two-step process. First, option shares vest based on the company's overall performance and the executive officer's individual performance based on the pre-established individual performance metrics. Second, the number of shares that were earned based on corporate and individual performance vest on the basis of the executive officer's continued service as follows: 25% of the option shares vest on the first anniversary of the option grant date, and the balance of the option shares vest in a series of thirty-six successive equal monthly installments, subject to the executive officer's continued service through each applicable vesting date.

The options were granted on September 30, 2011, two days after the filing of our annual report on Form 10-K for the year ended June 30, 2011, and have an exercise price of \$0.23 per share, which is equal to the closing price of the common stock on the date of grant.

In October 2012, the Committee evaluated our performance against the Fiscal 2012 goals and objectives and each executive officer's individual performance based on the pre-established individual performance metrics. Based on the Committee's determination, a percentage of the options granted in September 2011 were forfeited as follows:

Name	Initial Grant	Performance Adjustment	Options Retained	Options Forfeited
------	---------------	---------------------------	------------------	----------------------

		Percentage		
Leslie J. Browne, Ph.D.	819,000	45%	368,550	450,450
Joel Brooks	468,000	40%	187,200	280,800
Richard Dondero	468,000	40%	187,200	280,800
John E. Thompson, Ph.D.	468,000	70%	327,600	140,400

The retained option shares will continue to vest pursuant to the service-based vesting schedule set forth above.

Equity Incentive Plan for Fiscal 2013 – The Committee awarded stock option grants to each executive officer that vest on the basis of individual and company performance and on each executive officer’s continued service. For the portion of the award that is to vest on the basis of our performance, the Committee, in coordination with our Chief Executive Officer, established goals and objectives for Fiscal 2013 based on the following:

Contributions relating to the development of our SNS01-T assets:

- o Maintain schedule to complete multiple myeloma study in the second half of fiscal 2013;
- o Plan a clinical study for SNS01-T in B cell cancers in addition to multiple myeloma;
- o Validate preclinical candidate for approval for IND preparation; and
 - o Develop an improved SNS01-T formulation;

Contributions relating to finance objectives:

- o Improve the capital resources of the company through a financing transaction; and
 - o Regain and maintain NYSE MKT compliance;

Contributions relating to corporate development:

- o Expand product portfolio; and
- o Integrate business acquisitions.

The foregoing goals and objectives were generally weighted as follows: 50% for contributions relating to the development of our SNS01-T assets; 25% to contributions relating to finance objectives; and 25% to contributions relating to corporate development. However, the specific weighting varied from executive officer to executive officer, in order to reflect that officer's specific duties and responsibilities.

The Committee established the following individual performance goals for Dr. Browne: adding value to the Company's current assets, maintaining the Company's financial runway, building value in the Company through business development and building the Company's internal capabilities. The Committee, working with our Chief Executive Officer, identified individual performance goals and objectives for Fiscal 2013 for Messrs. Brooks and Dondero and Dr. Thompson. Mr. Brooks's goals and objectives primarily include raising capital through financings, regaining and maintaining NYSE MKT compliance and increasing Senesco's trading volume. Mr. Dondero's goals and objectives primarily include management of Senesco's clinical trials, initiation of new clinical trials for our SNS01-T assets and expanding our product portfolio. Dr. Thompson's goals primarily include demonstrating the pre-clinical effects of SNS01-T in combination with certain approved therapeutic products and developing an improved SNS01-T formulation.

In October 2012, the Committee awarded options to purchase shares of our common stock to our named executive officers which vest on the basis of a two-step process. First, option shares vest based on the company's overall performance and the executive officer's individual performance based on the pre-established individual performance metrics. Second, the number of shares that were earned based on corporate and individual performance vest on the basis of the executive officer's continued service as follows: 25% of the option shares vest on the first anniversary of the option grant date, and the balance of the option shares vest in a series of thirty-six successive equal monthly installments, subject to the executive officer's continued service through each applicable vesting date.

The following options were granted on November 16, 2012, two days after the filing of our annual report on Form 10-K for the year ended June 30, 2012, and have an exercise price of \$0.165 per share, which is equal to the closing price of the common stock on the date of grant:

Leslie J. Browne, Ph.D.	1,365,000
Joel Brooks	780,000
Richard Dondero	780,000

John E. Thompson, Ph.D. 780,000

Market Timing of Equity Awards

The Compensation Committee does not engage in any market timing of the equity awards made to the executive officers or other award recipients, and accordingly, there is no established practice of timing our awards in advance of the release of favorable financial results or adjusting the award date in connection with the release of unfavorable financial developments affecting our business. In general, we will attempt, when possible, to make equity awards to our executive officers and directors promptly after the release of our financial results.

Clawback Policy

Our current “clawback” policy provides for recoupment of incentive compensation paid to any executive as required by the provisions of the Sarbanes-Oxley Act of 2002 or the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010.

Analysis of Risk Associated with our Compensation Plans

We do not believe that the performance-based nature of the executive compensation program encourages excessive risk-taking by our executive officers that would threaten our economic viability. In Fiscal 2012 the Compensation Committee's performance milestones under the stock option grants for certain clinical objectives were focused on the achievement of specific milestones, rather than a successful outcome. The Compensation Committee believes that this strategy protects against the potential of short-term incentives to encourage excessive risk taking. In addition, long-term equity awards tied to the value of our common stock represent a significant component of an executive officer's total direct compensation, as evidenced by the compensation breakdown contained in the Summary Compensation Table that follows. Those awards promote a commonality of interest between the executive officers and our stockholders in sustaining and increasing stockholder value. Because the equity awards are typically made on an annual basis to the executive officers, those officers always have unvested awards outstanding that could decrease significantly in value if our business is not managed to achieve its long term goals. Accordingly the overall compensation structure is not overly-weighted toward short-term incentives, and we have taken what we believe are reasonable steps to protect against the potential of disproportionately large short-term incentives that might encourage excessive risk taking.

Executive Benefits and Perquisites

We do not offer a defined benefit pension plan, deferred compensation plan or supplemental executive retirement plan. Instead, we provide our executive officers with the opportunity to accumulate retirement income primarily through equity awards that increase in value as stockholder value is created and sustained.

The remaining elements of our executive compensation program, like our broader employee compensation programs, are intended to make our overall compensation program competitive with those of our peer companies, keeping in mind the constraints imposed by our reliance on the capital markets as the primary source of our cash needs. With the exception of the severance Policy described below, all of the remaining elements of our executive compensation program (401(k) Plan, Medical, Dental, and Vision Plans, Life and Disability Insurance) are available to all Company employees. We do not generally provide any additional benefits and perquisites.

Executive Compensation Agreements

None of our named executive officers have a current employment agreement with us. However, based on the advice of J. Richard on October 9, 2012, our board of directors approved a Retention Policy for officers of the Company (the

“Policy”). Pursuant to the terms and provisions of the Policy, in the event that an officer is terminated without cause or resigns for good reason in connection with a change of control transaction, such officer will become entitled to receive the following payments and benefits, subject to his or her execution of a release of claims against us:

(i) A lump sum cash payment in an amount equal to the sum of (A) the officer’s target bonus for the calendar year in which the officer’s termination occurs, plus (B) a multiple of the officer’s annual base salary, based on the officer’s position with us as follows: CEO, 2x base salary; CFO, 1.5x base salary; VP R&D, 1.5x base salary; VP Clinical, 1.5x base salary; all other officers, 1x base salary;

(ii) Reimbursement of the officer's cost to continue health care coverage for the following period: CEO, 2 years; CFO, 1.5 years; VP R&D, 1.5 years; VP Clinical, 1.5 years; all other officers, 1 year; and

(iii) each of the officer's outstanding equity awards shall become fully vested and to the extent applicable, exercisable, and each such option outstanding following the effective date of the change in Control shall remain exercisable until the expiration of the maximum option term.

Notwithstanding the foregoing, if the aggregate compensation set forth in clauses (i) and (ii) above to be paid to all officers exceeds 10% of the value of the transaction, then the board of directors shall have the discretion to reduce such compensation pro-rata to the extent the Board determines is necessary or advisable in order to consummate the change of control transaction.

The Policy also provides our Board with discretion to grant a termination package in the event an officer is terminated without cause or resigns for good reason in the absence of a change in control.

The Compensation Committee believes that the severance benefits under the Policy provide financial protection against the potential loss of employment in designated circumstances and will allow our executive officers to focus attention on changes that are in the best interests of the stockholders, without undue concern as to each officer's own financial situation. The Compensation Committee also believes the accelerated vesting of equity awards is justified because those awards are designed to serve as the primary vehicle for the executives to accumulate financial resources for retirement. Finally, given the time periods and risks involved in pharmaceutical development, the Compensation Committee believes that the extended exercise period is an appropriate way to provide the officers with an opportunity to realize financial gains from decisions made during his or her tenure as an officer. J. Richard advised the Compensation Committee that the Policy is within the competitive range of comparable executive officer severance packages at other companies in the comparator group.

IRC Section 162(m) compliance

As a result of Section 162(m) of the Internal Revenue Code, publicly-traded companies such as us are not allowed a federal income tax deduction for compensation, paid to the Chief Executive Officer and the three other highest paid executive officers, to the extent that such compensation exceeds \$1 million per officer in any one year and does not otherwise qualify as performance-based compensation. Currently, our stock option compensation packages are structured so that compensation deemed paid to an executive officer in connection with the exercise of a stock option should qualify as performance-based compensation that is not subject to the \$1 million limitation. However, our equity incentive plan enables us to award other types of equity awards which may or may not so qualify. In

establishing the cash and equity incentive compensation programs for the executive officers, it is the Committee's view that the potential deductibility of the compensation payable under those programs should be only one of a number of relevant factors taken into consideration, and not the sole governing factor. For that reason the Committee may deem it appropriate to continue to provide one or more executive officers with the opportunity to earn incentive compensation, including cash bonus programs tied to our financial performance and RSU awards, which may be in excess of the amount deductible by reason of Section 162(m) or other provisions of the Internal Revenue Code. It is the Committee's belief that cash and equity incentive compensation must be maintained at the requisite level to attract and retain the executive officers essential to our financial success, even if part of that compensation may not be deductible by reason of the Section 162(m) limitation.

It is important to note that as of June 30, 2012, the Company had net operating loss carryforwards for federal income tax purposes of approximately \$45,451,000 that will expire between 2019 and 2032. These loss carryforwards would defer the impact of any deductions that the Company might lose under Section 162(m) for one or more of those carryforward years.

For Fiscal 2012, none of our executive officer's compensation reached the \$1 million limitation.

Report of the Compensation Committee

The Compensation Committee has reviewed and discussed the Compensation, Discussion and Analysis with management, and based on this review and these discussions, the Compensation Committee recommended to the board that the Compensation, Discussion and Analysis be included in Senesco's Annual Report on Form 10-K/A.

(1) Senesco's fiscal year ends on June 30.

(2) The dollar amount shown includes amounts deferred in connection with our 401(k) plan, a qualified plan under Section 401(k) of the Internal Revenue Code.

(3) The bonus earned for the fiscal year ended June 30, 2010 was declared and paid in October 2010.

(4) The dollar amounts shown are the grant date fair value of restricted stock units awarded to each named executive officer in each year. The fair values of the restricted stock units awarded were calculated based on the fair market value of the underlying shares of common stock on the respective grant dates in accordance with FASB ASC Topic 718 and were not adjusted to take into account any estimated forfeitures. For a discussion of valuation assumptions used in the calculations, see Notes 2 and 10 of Notes to Consolidated Financial Statements included in Part II, Item 8 of our 2012 Form 10-K.

⁽⁵⁾ The dollar amounts shown are the grant date fair value of stock options granted to each named executive officer, in accordance with FASB ASC Topic 718 based on the probable outcome of the attainment of one or more pre-established performance objectives. For a discussion of valuation assumptions used in the calculations, see Notes 2 and 10 of Notes to Consolidated Financial Statements included in Part II, Item 8 of our 2012 Form 10-K.

In October 2012, the Committee determined that the performance metrics had not been fully met and a percentage of the options granted in 2012 were forfeited as follows: Leslie J. Browne, Ph.D.; 55%; Joel Brooks and Richard Dondero, 60%; John E. Thompson, Ph.D., 30%. The grant date fair values used to calculate compensation costs were not adjusted to take into account the effect of the forfeitures.

(1) Represents a stock option grant that vests on the basis of corporate and individual performance, and the executive officer's continued service, as described below. In October 2012, based on Company performance and the executive officer's individual performance against the pre-established goals, a number of option shares were forfeited by each executive officer. The actual number of option shares outstanding for each executive officer following the performance adjustment is as follows: Leslie J. Browne, Ph.D., 368,550, Joel Brooks and Richard Dondero, 187,200; John E. Thompson, 327,600.

(2) The dollar amounts shown are the grant date fair value of stock options granted to each named executive officer, in accordance with FASB ASC Topic 718 based on the probable outcome of the attainment of one or more pre-established performance objectives. For a discussion of valuation assumptions used in the calculations, see Notes 2 and 10 of Notes to Consolidated Financial Statements included in Part II, Item 8 of our 2012 Form 10-K. The reported grant date fair values were not adjusted to take into account any estimated forfeitures. The grant date fair values used to calculate such compensation costs were not adjusted to take into account the effect of the actual forfeitures, which occurred in October 2012.

In September 2011 the Compensation Committee granted options to our executive officers that vest on the basis of a two-step process. First, option shares vest based on the company's overall performance and the executive officer's individual performance based on the pre-established individual performance metrics. For a discussion of these goals and objectives, please see the Equity Incentive Awards section of our Compensation Discussion and Analysis. Second, the number of shares that were earned based on corporate and individual performance vest on the basis of the executive officer's continued service as follows: 25% of the option shares vest on the first anniversary of the option grant date, and the balance of the option shares vest in a series of thirty-six successive equal monthly installments, subject to the executive officer's continued service through each applicable vesting date.

In October 2012, the Committee evaluated our performance against the Fiscal 2012 goals and objectives and each executive officer's individual performance based on the pre-established individual performance metrics. Based on the Committee's determination, a percentage of the options granted in September 2011 were forfeited as follows:

Name	Initial Grant	Performance Adjustment Percentage	Options Retained	Options Forfeited
Leslie J. Browne, Ph.D.	819,000	45%	368,550	450,450
Joel Brooks	468,000	40%	187,200	280,800
Richard Dondero	468,000	40%	187,200	280,800
John E. Thompson, Ph.D.	468,000	70%	327,600	140,400

(1) One-quarter of such options will vest on the first anniversary of the date of grant with one-thirty-sixth of the balance vesting each month thereafter.

(2) Options will vest on June 30, 2013.

(3) Such amounts consist of performance based options which vest upon the achievement of certain milestones under our long-term incentive plan, as well as the executive officer's continued service. In October 2012, the Committee determined that the performance metrics had not been fully met. Therefore, a percentage of the options granted in 2012 were forfeited as follows:

Leslie J. Browne, Ph.D.	819,000	55	%	450,450	368,550

Employment Contracts, Termination of Employment, and Change-in-Control Arrangements

None of our named executive officers have a current employment agreement with us. However, on October 9, 2012, our board of directors approved a Retention Policy for officers (the "Policy") that provides for the payment of severance benefits in the event that an officer is terminated without cause or resigns for good reason in connection with a change of control transaction, as follows:

(i) A lump sum cash payment in an amount equal to the sum of (A) the officer's target bonus for the calendar year in which the officer's termination occurs, plus (B) a multiple of the officer's annual base salary, based on the officer's position as follows: CEO, 2x base salary; CFO, 1.5x base salary; VP R&D, 1.5x base salary; VP Clinical, 1.5x base salary; all other officers, 1x base salary;

(ii) Reimbursement of the officer's cost to continue health care coverage for the following period: CEO, 2 years; CFO, 1.5 years; VP R&D, 1.5 years; VP Clinical, 1.5 years; all other officers, 1 year; and

(iii) Each of the officer's outstanding equity awards shall become fully vested and to the extent applicable, exercisable, as of the effective date of the officer's termination without cause or resignation for good reason and each such option outstanding following the effective date of the change in control shall remain exercisable until the expiration of the maximum option term.

Notwithstanding the foregoing, if the aggregate compensation set forth in clauses (i) and (ii) above to be paid to all officers exceeds 10% of the value of the transaction, then the Board shall have the discretion to reduce such compensation pro-rata to the extent the Board determines is necessary or advisable in order to consummate the change of control transaction.

The Policy also provides our Board with discretion to grant a termination package in the event an officer is terminated without cause or resigns for good reason in the absence of a change in control.

Overview and Reasons for Amendment

Stockholders are being asked to approve an amendment to our Amended and Restated Certificate of Incorporation, as amended to date, referred to herein as our Certificate of Incorporation, to increase the number of authorized shares of our common stock from 350,000,000 to 500,000,000. On February 12, 2013, our board adopted resolutions approving and authorizing the amendment and directing that the amendment be submitted to a vote of the stockholders at the meeting.

The board determined that the amendment is in the best interests of Senesco and its stockholders and unanimously recommends approval by the stockholders. If the proposed amendment is approved by the stockholders, the board currently intends to file, with the Secretary of State of the State of Delaware, a Certificate of Amendment to the Certificate of Incorporation, referred to herein as the Certificate of Amendment, reflecting such amendment as soon as practicable following stockholder approval. The following summary is qualified in its entirety by reference to the Certificate of Incorporation. Attached hereto as *Appendix A* to this proxy statement is the proposed Certificate of Amendment.

Our board has proposed this increase in authorized shares of common stock to ensure that we have sufficient shares of common stock available for general corporate purposes including, without limitation, to reserve sufficient shares available underlying the securities issued in the financings, or to complete equity financings or acquisitions, establish strategic relationships with corporate and other partners, provide equity incentives to employees, and pay of stock dividends, stock splits or other recapitalizations. As disclosed in our public filings, we are also exploring additional financing opportunities and will likely issue such equity when an opportunity presents itself. Currently, we do not have any specific plans, arrangements, undertakings or agreements to issue shares in connection with the foregoing prospective activities.

Our Certificate of Incorporation currently authorizes the issuance of up to 350,000,000 shares of common stock and 5,000,000 shares of preferred stock, par value \$0.01 per share, referred to herein as the preferred stock. As of close of business on the Record Date, there were 995 shares of preferred stock currently issued and outstanding. The proposed amendment will not, if adopted, result in an increase in the number of authorized shares of preferred stock.

Of the 350,000,000 shares of common stock currently authorized, as of the close of business on the Record Date, there were 146,975,283 shares of common stock issued and outstanding. Furthermore, we have reserved for future issuance:

a. 1,989,100 shares of common stock upon the exercise of outstanding options granted under the 1998 Stock Plan;

b. 16,081,023 shares of common stock upon the exercise of options, of which 19,059,902 have been granted and 7,021,121 may be granted in the future, under the 2008 Incentive Compensation Plan;

c. 1,882,277 shares of common stock upon the exercise of warrants issued and outstanding;

d. 9,950,000 shares of common stock upon conversion, at the current conversion price of \$0.10, of the convertible preferred stock issued pursuant to a previously disclosed financing;

e. 8,975,223 shares of common stock which may be issued upon conversion, if the conversion rate is either adjusted in connection with the anti-dilution feature of the convertible preferred stock issued pursuant to a previously disclosed financing; and

f. an estimated 222,098 shares of common stock, which may be issued as dividend shares pursuant to a previously disclosed financing.

If the proposed amendment is approved, then after the meeting, there will still be 146,975,283 shares of common stock issued and outstanding.

Reason For Request For Stockholder Approval

In accordance with Delaware law, approval and adoption of an amendment to our Certificate of Incorporation to increase the authorized shares of our common stock and preferred stock requires stockholder approval.

Consequences if Stockholders Approve this Proposal

Dilution. As is the case with the current authorized but unissued shares of common stock, the additional shares of common stock authorized by this proposed amendment could be issued upon approval by our board without further vote of our stockholders except as may be required in particular cases by our Certificate of Incorporation, applicable law, or regulatory agencies. Under our Certificate of Incorporation, stockholders do not have preemptive rights to subscribe to additional securities that may be issued by Senesco, which means that current stockholders do not have a prior right to purchase any new issue of common stock in order to maintain their proportionate ownership interest in Senesco. However, the preferred stockholders do have preemptive rights in the event of a future equity issuance. In addition, if we issue additional shares of common stock or securities convertible into or exercisable for common stock, such issuance would have a dilutive effect on the voting power and could have a dilutive effect on the earnings per share of Senesco's currently outstanding shares of common stock.

The following table sets forth the total number of: (1) authorized shares of our common stock, (2) outstanding shares of our common stock, (3) reserved shares of our common stock, (4) shares of our common stock available for issuance, (5) proposed shares authorized by this Proposal 2 and (6) common stock available for issuance if this Proposal 2 is approved by the stockholders.

Currently Authorized Shares (1)	Currently Outstanding Shares	Shares Currently Reserved for Issuance	Shares Currently Available for Issuance	Proposed Authorized Shares (2)	Shares Potentially Available for Issuance(3)
350,000,000	146,975,283	109,099,721	93,924,996	500,000,000	243,924,996

(1) As of February 12, 2013.

(2) The number of authorized shares of our common stock, if this Proposal 2 is approved by the stockholders.

(3) The number of shares of our common stock available for issuance, if this Proposal 2 is approved by the stockholders.

Anti-takeover Effects. The proposed Certificate of Amendment could also, under certain circumstances, have an anti-takeover effect. The proposed increase in the number of authorized shares of common stock may discourage or make it more difficult to effect a change in control of Senesco. For example, we could issue additional shares to dilute the voting power of, create voting impediments for, or otherwise frustrate the efforts of persons seeking to take over or gain control of Senesco, whether or not the change in control is favored by a majority of our unaffiliated stockholders. We could also privately place shares of common stock with purchasers who would side with our board in opposing a hostile takeover bid. The board is not aware of any plans for or attempt to take control of Senesco.

No Appraisal Rights

Under Delaware law, stockholders are not entitled to appraisal rights with respect to the actions contemplated by Proposal 2.

Required Vote

The affirmative vote of a majority of the outstanding shares of common stock is required for approval of the proposed amendment. Therefore, abstentions and broker non-votes will have the same effect as votes against this Proposal.

OUR BOARD OF DIRECTORS RECOMMENDS A VOTE “FOR” THE PROPOSAL TO AMEND SENESCO’S CERTIFICATE OF INCORPORATION TO INCREASE THE TOTAL NUMBER OF AUTHORIZED SHARES OF COMMON STOCK.

PROPOSAL 3

BOARD AUTHORIZATION TO EFFECT REVERSE STOCK SPLIT

Our Board of Directors is proposing that our stockholders approve a proposal to authorize our Board of Directors to effect a reverse stock split of all outstanding shares of our Common Stock, at any ratio up to 1-for-20; however, please note that prior to July 4, 2013, the timing and ratio of any reverse stock split approved by our Board of Directors will require the prior approval of the purchasers holding a majority in interest of the shares of common stock and warrants to purchase shares of common stock issued by the Company in connection with the Securities Purchase Agreement dated as of January 4, 2013 among the Company and the investors signatory thereto. If this proposal is approved, our Board of Directors would have the authority to effect a reverse stock split at any time before our 2014 annual meeting, subject to the approvals described above. Our Board of Directors believes that approval of a proposal providing the Board of Directors with this generalized grant of authority with respect to setting the split ratio, rather than mere approval of a pre-defined reverse stock split, will give the Board of Directors the flexibility to set the ratio in accordance with current market conditions and therefore allow the Board of Directors to act in the best interests of the Company and our stockholders.

If our stockholders grant the Board of Directors the authority to effect a reverse stock split, we would file a Certificate of Amendment to the Company's Amended and Restated Certificate of Incorporation, as amended, with the Delaware Secretary of State to effect the proposed reverse stock split, in substantially the form attached to this proxy statement as *Appendix A*, the text of which may be altered for any changes required by the Delaware Secretary of State and changes deemed necessary or advisable by the Board of Directors. Our Board of Directors has approved and declared advisable the proposed Certificate of Amendment. If the proposed reverse stock split is implemented, then the number of issued and outstanding shares of our Common Stock would be reduced.

Purpose of Proposed Reverse Stock Split

The Board of Directors is proposing the reverse stock split in order to attempt to reduce the number of issued and outstanding shares and to increase the per share trading value of our Common Stock. Our Board of Directors believes that the reverse stock split would be beneficial in this regard because it would increase the price of our Common Stock and decrease the number of issued and outstanding shares of our Common Stock.

An increase in the per share trading value of our Common Stock would be beneficial because it would:

- improve the perception of our Common Stock as an investment security;

- reset our stock price to more normalized trading levels in the face of potentially extended market dislocation;
- appeal to a broader range of investors to generate greater investor interest in us; and
- reduce stockholder transaction costs because investors would pay lower commission to trade a fixed dollar amount of our stock if our stock price were higher than they would if our stock price were lower.

An increase in the price of our Common Stock would assist the Company in regaining compliance with the listing standards of a national securities exchange, such as the NYSE MKT. A decrease in the number of issued and outstanding shares of our Common Stock would be beneficial for the Company because by doing so, we will have more shares available for future issuance for financing or strategic purposes. Specifically, as we are required to reserve for future issuance any shares underlying the Series A Preferred Stock, effecting a reverse stock split will reduce the number of issued and outstanding shares, thereby increasing the number of shares available for future issuance upon conversion of the Series A Preferred Stock (as further discussed below).

You should consider that, although our Board of Directors believes that a reverse stock split will in fact increase the price of our Common Stock, in many cases, because of variables outside of a company's control (such as market volatility, investor response to the news of a proposed reverse stock split and the general economic environment), the market price of a company's shares of common stock may in fact decline in value after a reverse stock split. You should also keep in mind that the implementation of a reverse stock split does not have an effect on the actual or intrinsic value of our business or a stockholder's proportional ownership in our Company. However, should the overall value of our Common Stock decline after the proposed reverse stock split, then the actual or intrinsic value of the shares of our Common Stock held by you will also proportionately decrease as a result of the overall decline in value.

Potential Effects of the Proposed Reverse Stock Split

The immediate effect of a reverse stock split would be to reduce the number of shares of our Common Stock outstanding and to increase the trading price of our Common Stock. Notwithstanding the decrease in the number of outstanding shares following the proposed reverse stock split, our Board of Directors does not intend for this transaction to be the first step in a “going private transaction” within the meaning of Rule 13e-3 of the Exchange Act.

However, we cannot predict the effect of any reverse stock split upon the market price of our Common Stock over an extended period, and in many cases, the market value of a company’s Common Stock following a reverse stock split declines. We cannot assure you that the trading price of our Common Stock after the reverse stock split will rise in inverse proportion to the reduction in the number of shares of our Common Stock outstanding as a result of the reverse stock split. Also, we cannot assure you that a reverse stock split would lead to a sustained increase in the trading price of our Common Stock. The trading price of our Common Stock may change due to a variety of other factors, including our operating results and other factors related to our business and general market conditions.

Examples of Potential Reverse Stock Split at Various Ratios. The table below provides examples of reverse stock splits at various ratios up to 1-for-20:

Shares outstanding at February 12, 2013	Reverse Stock Split Ratio	Shares outstanding after Reverse Stock Split	Reduction in Shares Outstanding
146,975,283	1-for-2	73,487,642	50%
146,975,283	1-for-5	29,395,057	80%
146,975,283	1-for-10	14,697,528	90%
146,975,283	1-for-20	7,348,764	95%

The resulting decrease in the number of shares of our Common Stock outstanding could potentially adversely affect the liquidity of our Common Stock, especially in the case of larger block trades.

Effects on Ownership by Individual Stockholders. If we implement a reverse stock split, the number of shares of our Common Stock held by each stockholder would be reduced by multiplying the number of shares held immediately before the reverse stock split by the appropriate ratio and then rounding down to the nearest whole share. We would pay cash to each stockholder in lieu of any fractional interest in a share to which each stockholder would otherwise be entitled as a result of the reverse stock split, as described in further detail below. The reverse stock split would not affect any stockholder's percentage ownership interest in our Company or proportionate voting power, except to the extent that interests in fractional shares would be paid in cash.

Effect on Restricted Stock Units, Warrants, Series A Convertible Preferred Stock. In addition, we would adjust all outstanding shares of any restricted stock units, warrants and preferred stock entitling the holders to purchase shares of our Common Stock as a result of the reverse stock split, as required by the terms of these securities. In particular, we would reduce the conversion ratio for each instrument, and would increase the exercise price in accordance with the terms of each instrument and based on the 1-for-2, up to 1-for-20 ratio of the reverse stock split (i.e., the number of shares issuable under such securities would decrease by 50%, up to 95%, respectively, and the exercise price per share would be multiplied by 2, up to 20, respectively). However, please note that prior to July 4, 2013, the timing and ratio of any reverse stock split approved by our Board of Directors will require the prior approval of the purchasers holding a majority in interest of the shares of common stock and warrants to purchase shares of common stock issued by the Company in connection with the Securities Purchase Agreement dated as of January 4, 2013 among the Company and the investors signatory thereto. Also, we would reduce the number of shares reserved for issuance under our existing 2008 Incentive Compensation Plan proportionately based on the ratio of the reverse stock split. A reverse stock split would not otherwise affect any of the rights currently accruing to holders of our Common Stock or warrants exercisable for our Common Stock.

Other Effects on Outstanding Shares. If we implement a reverse stock split, the rights pertaining to the outstanding shares of our Common Stock would be unchanged after the reverse stock split. Each share of our Common Stock issued following the reverse stock split would be fully paid and nonassessable.

The reverse stock split would result in some stockholders owning "odd-lots" of less than 100 shares of our Common Stock. Brokerage commissions and other costs of transactions in odd-lots are generally higher than the costs of transactions in "round-lots" of even multiples of 100 shares.

Our Common Stock is currently registered under Section 12(g) of the Securities Exchange Act of 1934. As a result, we are subject to the periodic reporting and other requirements of the Securities Exchange Act. The proposed reverse stock split would not affect the registration of our Common Stock under the Securities Exchange Act.

Authorized Shares of Stock

The reverse stock split would affect all issued and outstanding shares of Common Stock and outstanding rights to acquire Common Stock. We will not change the number of shares of Common Stock currently authorized. However, upon the effectiveness of the reverse stock split, the number of authorized shares of Common Stock that are not issued or outstanding would increase due to the reduction in the number of shares of Common Stock issued and outstanding as a result of the reverse stock split.

As of February 12, 2013, we had (i) 350,000,000 shares of authorized Common Stock, of which 146,975,283 shares of Common Stock, par value \$.01 per share, were issued and outstanding, and (ii) 5,000,000 shares of authorized preferred stock of which 995 shares of Series A Preferred Stock, par value \$.01 per share, were issued and outstanding. If we issue additional shares, the ownership interest of holders of Common Stock will be diluted.

We will reserve for issuance any authorized but unissued shares of Common Stock that would be made available as a result of the proposed reverse stock split.

We do not have any plans, arrangements or understandings for the remaining portion of the authorized but unissued shares that will be available following the reverse stock split.

Procedure for Effecting the Proposed Stock Split and Exchange of Stock Certificates

If stockholders approve the proposal, we will file with the Delaware Secretary of State a Certificate of Amendment to our Amended and Restated Certificate of Incorporation, as amended. The reverse stock split will become effective at the time and on the date of filing of, or at such later time as is specified in, the Certificate of Amendment, which we refer to as the “effective time” and “effective date,” respectively. Beginning at the effective time, each certificate representing shares of Common Stock will be deemed for all corporate purposes to evidence ownership of the number of whole shares into which the shares previously represented by the certificate were combined pursuant to the reverse stock split.

Upon a reverse stock split, we intend to treat stockholders holding our Common Stock in “street name,” through a bank, broker or other nominee, in the same manner as registered stockholders whose shares are registered in their names. Banks, brokers or other nominees will be instructed to effect the reverse stock split for their beneficial holders holding our Common Stock in “street name.” However, these banks, brokers or other nominees may have different procedures than registered stockholders for processing the reverse stock split. If you hold your shares with a bank, broker or other nominee and if you have any questions in this regard, we encourage you to contact your nominee.

Following any reverse stock split, stockholders holding physical certificates must exchange those certificates for new certificates and a cash payment in lieu of any fractional shares.

Our transfer agent will advise registered stockholders of the procedures to be followed to exchange certificates in a letter of transmittal to be sent to stockholders. No new certificates will be issued to a stockholder until the stockholder has surrendered the stockholder’s outstanding certificate(s), together with the properly completed and executed letter of transmittal, to the transfer agent. Any old shares submitted for transfer, whether pursuant to a sale, other disposition or otherwise, will automatically be exchanged for new shares. Stockholders should not destroy any stock certificate(s) and should not submit any certificate(s) until requested to do so.

Fractional Shares

We would not issue fractional shares in connection with the reverse stock split. Instead, any fractional share resulting from the reverse stock split because the stockholder owns a number of shares not evenly divisible by the ratio would instead receive cash upon surrender to the exchange agent of the certificates and a properly completed and executed letter of transmittal. The cash amount to be paid to each stockholder would be equal to the resulting fractional interest in one share of our Common Stock to which the stockholder would otherwise be entitled, multiplied by the closing trading price of our Common Stock on the trading day immediately preceding the effective date of the reverse stock split. We do not anticipate that the aggregate cash amount paid by the Company for fractional interests will be material to the Company.

No Appraisal Rights

No appraisal rights are available under the Delaware General Corporation Law or under our Amended and Restated Certificate of Incorporation, as amended, or by-laws with respect to the reverse stock split. There may exist other rights or actions under state law for stockholders who are aggrieved by reverse stock splits generally.

Accounting Consequences

The par value of our Common Stock would remain unchanged at \$0.01 per share after the reverse stock split. Also, our capital account would remain unchanged, and we do not anticipate that any other accounting consequences would arise as a result of the reverse stock split.

Material U.S. Federal Income Tax Consequences of the Reverse Stock Split

The following is a summary of the material U.S. federal income tax consequences of the reverse stock split to holders of our shares. This summary is based on the Internal Revenue Code of 1986, as amended, or the Code, the Treasury regulations promulgated thereunder, and administrative rulings and court decisions in effect as of the date of this document, all of which may be subject to change, possibly with retroactive effect. This summary only addresses holders who hold their shares as capital assets within the meaning of the Code and does not address all aspects of U.S. federal income taxation that may be relevant to holders subject to special tax treatment, such as financial institutions, dealers in securities, insurance companies, foreign persons and tax-exempt entities. In addition, this summary does not consider the effects of any applicable state, local, foreign or other tax laws.

We have not sought and will not seek any ruling from the Internal Revenue Service, or the IRS, or an opinion from counsel with respect to the U.S. federal income tax consequences discussed below. There can be no assurance that the tax consequences discussed below would be accepted by the IRS or a court. The tax treatment of the reverse stock split to holders may vary depending upon a holder's particular facts and circumstances.

We urge holders to consult with their own tax advisors as to any U.S. federal, state, local or foreign tax consequences applicable to them that could result from the reverse stock split.

Except as described below with respect to cash received in lieu of fractional shares, the receipt of Common Stock in the reverse stock split should not result in any taxable gain or loss to a holder for U.S. federal income tax purposes. The aggregate tax basis of the Common Stock received by a holder as a result of the reverse stock split (including the basis of any fractional share to which a holder is entitled) will be equal to the aggregate basis of the existing Common Stock exchanged for such stock. A holder's holding period for the Common Stock received in the reverse stock split will include the holding period of the Common Stock exchanged therefor.

A holder who receives cash in lieu of a fractional share of Common Stock will be treated as first receiving such fractional share and then receiving cash in redemption of such fractional share. A holder generally will recognize capital gain or loss on such deemed redemption in an amount equal to the difference between the amount of cash received and the adjusted basis of such fractional share.

Recommendation of the Board of Directors

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE “FOR” THE APPROVAL OF THE PROPOSAL TO AUTHORIZE OUR BOARD OF DIRECTORS TO EFFECT A REVERSE STOCK SPLIT.

PROPOSAL 4:

ADVISORY VOTE ON EXECUTIVE COMPENSATION

General

Pursuant to Section 14A(a)(1) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), the Company’s Stockholders are entitled to vote at the annual meeting to approve the compensation of the Company’s named executive officers, commonly known as a “Say on Pay”, as disclosed in this proxy statement in accordance with the standards established under Item 402 of Regulation S-K under the Exchange Act. However, the Stockholder vote on executive compensation is an advisory vote only, and it is not binding on the Company or the Company’s Board of Directors or the Compensation Committee of the Board.

Although the vote is non-binding, the Company’s Board of Directors and the Compensation Committee of the Board value the opinions of the Stockholders and will consider the outcome of the vote when making future compensation decisions affecting the Company’s executive officers.

We design our executive compensation program to implement our core objectives of attracting and retaining superior executive talent, motivating and rewarding executives whose knowledge, skills and performance are critical to our business, ensuring executive compensation is aligned with our corporate strategies and business objectives and aligning executives’ incentives with the creation of Stockholder value. The key elements of the compensation programs that were in effect during the 2012 fiscal year for the Company’s named executive officers are described in detail in the Compensation Discussion and Analysis section of this proxy statement.

Resolution

The Company’s Stockholders are being asked to approve by advisory vote the following resolution relating to the compensation of the named executive officers as described in this proxy statement:

“Resolved that the Company’s Stockholders hereby approve the compensation paid to the Company’s executive officers named in the Summary Compensation Table of this proxy statement, as that compensation is disclosed

pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the Compensation Discussion and Analysis, the various compensation tables and the accompanying narrative discussion included in this proxy statement.”

The vote on this resolution is not intended to address any specific element of compensation; rather the vote relates to the compensation of the Company’s named executive officers, as described in this proxy statement in accordance with the compensation disclosure rules of the Securities and Exchange Commission.

Recommendation of the Board of Directors

THE BOARD OF DIRECTORS BELIEVES OUR EXECUTIVE COMPENSATION PROGRAM USES APPROPRIATE STRUCTURES AND SOUND PAY PRACTICES THAT ARE EFFECTIVE IN ACHIEVING OUR CORE OBJECTIVES. THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS AN ADVISORY VOTE FOR THE RESOLUTION TO APPROVE THE COMPENSATION OF THE NAMED EXECUTIVE OFFICERS AS DISCLOSED IN THIS PROXY STATEMENT IN ACCORDANCE WITH THE STANDARDS ESTABLISHED UNDER ITEM 402 OF REGULATION S-K UNDER THE EXCHANGE ACT. UNLESS OTHERWISE INSTRUCTED, THE PROXY HOLDERS NAMED IN EACH PROXY WILL VOTE THE SHARES REPRESENTED THEREBY FOR THE APPROVAL OF SUCH RESOLUTION.

PROPOSAL 5:

ADVISORY VOTE AS TO FREQUENCY OF THE ADVISORY STOCKHOLDER VOTE ON EXECUTIVE COMPENSATION

General

Pursuant to Section 14A(a)(2) of the Exchange Act, the Company's Stockholders are also entitled to vote at the annual meeting regarding whether the stockholder vote to approve the compensation of the named executive officers as required by Section 14A(a)(1) of the Exchange Act (and as presented in Proposal 4 of this proxy statement) should occur every year, once every two years or once every three years. Stockholders will also have the option to abstain from voting on the matter. The stockholder vote on the frequency of the say-on-pay vote to approve executive compensation is an advisory vote only, and it is not binding on the Company or the Board of Directors. Such an advisory vote will be provided to the Stockholders every six years.

Although the vote is non-binding, both the Board of Directors and the Compensation Committee value the opinions of the Stockholders and will consider the outcome of the vote when setting the frequency of the stockholder vote on executive compensation.

Stockholders have four choices with respect to the frequency of the stockholder vote for the approval of the compensation of the Company's named executive officers. The four choices are as follows:

- Every year;
- Every two years;
- Every three years; or
- Abstain.

Recommendation of the Board of Directors

The Board of Directors has determined that an advisory stockholder vote on executive compensation once every three years is the best approach for the Company and its Stockholders for a number of reasons, including the following:

A three-year cycle is in line with the long-term pay-for-performance objectives that the Compensation Committee seeks to attain in structuring executive officer compensation in a manner that focuses on long-term growth and sustained stockholder value rather than short-term results.

A three-year cycle will provide Stockholders with sufficient time and opportunity to evaluate the effectiveness of the Company's short-term and long-term incentive programs, compensation strategies and pay-for-performance philosophy.

A three-year cycle will also provide the Board of Directors and the Compensation Committee with sufficient time to thoughtfully evaluate and respond to stockholder input and effectively implement appropriate changes or modifications to the Company's executive compensation programs.

ACCORDINGLY, THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT THE STOCKHOLDERS CHOOSE, ON AN ADVISORY BASIS, A THREE-YEAR FREQUENCY (A VOTE FOR EVERY THREE YEARS) FOR THE ADVISORY STOCKHOLDER VOTE TO APPROVE THE COMPENSATION OF THE COMPANY'S NAMED EXECUTIVE OFFICERS. UNLESS OTHERWISE INSTRUCTED, THE PROXY HOLDERS NAMED IN EACH PROXY WILL VOTE THE SHARES REPRESENTED THEREBY FOR EVERY THREE YEARS AS THE FREQUENCY OF THE ADVISORY STOCKHOLDER VOTE ON EXECUTIVE COMPENSATION DESCRIBED IN THIS PROPOSAL 5.

However, the stockholder vote under this Proposal 5 is not to approve the Board's recommendation but is instead a direct advisory vote on the particular frequency at which each stockholder would like the advisory vote on executive officer compensation to be conducted.

PROPOSAL 6

Ratification of Appointment of Independent Registered Public Accounting Firm

The audit committee of our board of directors intends to, subject to stockholder ratification, retain McGladrey, LLP as our independent registered public accounting firm for the fiscal year ending June 30, 2013. Neither the firm nor any of its directors has any direct or indirect financial interest in or any connection with us in any capacity other than as auditors.

Although stockholder ratification of the selection of McGladrey, LLP, is not required by law, our board of directors believes that it is desirable to give our stockholders the opportunity to ratify this selection. If this Proposal is not approved at the Meeting, our board of directors will reconsider the selection of McGladrey, LLP.

Our board of directors recommends a vote “FOR” the ratification of the appointment of MCGLADREY, LLP as our independent registered public accounting firm for the fiscal year ending June 30, 2013.

Principal Accountant Fees and Services

The aggregate fees billed by McGladrey, LLP and RSM McGladrey, Inc. for services performed for the years ended June 30, 2012 and 2011 are as follows:

	2012	2011
Audit Fees	\$101,118	\$98,500
Audit Related Fees	4,000	38,500
Tax Fees	-	-
All Other Fees	-	-
Total Fees	\$105,118	\$137,000

AUDIT FEES

The aggregate audit fees for the years ended June 30, 2012 and 2011 were primarily related to the audit of the our annual financial statements and review of those financial statements included in our quarterly reports on Form 10-Q and fees for professional services rendered in connection with documents filed with the Securities and Exchange Commission.

AUDIT RELATED FEES

Audit related fees for the years ended June 30, 2012 and 2011 were primarily incurred in connection with our equity offerings and registration statements.

Pre-Approval Policies and Procedures

In accordance with its charter, the Audit Committee is required to approve all audit and non-audit services provided by the independent auditors and shall not engage the independent auditors to perform the specific non-audit services prescribed by law or regulation.

The Audit Committee has adopted policies and procedures relating to the pre-approval of all audit and non-audit services that are to be performed by our independent registered public accounting firm. This policy generally provides

that we will not engage our independent registered public accounting firm to render audit or non-audit services unless the service is specifically approved in advance by the Audit Committee or the engagement is entered into pursuant to one of the pre-approval procedures described below.

From time to time, the Audit Committee may pre-approve specified types of services that are expected to be provided to us by our independent registered public accounting firm during the next 12 months. Any such pre-approval is detailed as to the particular service or type of services to be provided and is also generally subject to a maximum dollar amount.

The Audit Committee has also delegated to the chairman of the Audit Committee the authority to approve any audit or non-audit services to be provided to us by our independent registered public accounting firm. Any approval of services by a member of the Audit Committee pursuant to this delegated authority is reported on at the next meeting of the Audit Committee.

Audit Committee Report

The Audit Committee oversees our financial reporting process on behalf of the board. The Audit Committee consists of three members of the board who meet the independence and experience requirements of the NYSE MKT.

On March 11, 2011, we amended and restated our Audit Committee Charter, which was originally adopted on July 26, 1999.

The Audit Committee held five (5) meetings during Fiscal 2012.

Management is responsible for our financial reporting process including its system of internal controls and for the preparation of consolidated financial statements in accordance with generally accepted accounting principles. Our independent registered public accounting firm is responsible for auditing those financial statements. The Audit Committee's responsibility is to monitor and review these processes. As appropriate, the Audit Committee reviews and evaluates, and discusses with our management and our independent registered public accounting firm, the following:

- the plan for, and the independent registered public accounting firm's report on, each audit of our financial statements;
- the independent registered public accounting firm's review of our unaudited interim financial statements;
- our financial disclosure documents, including all financial statements and reports filed with the Securities and Exchange Commission or sent to stockholders;
- our management's selection, application and disclosure of critical accounting policies;
- changes in our accounting practices, principles, controls or methodologies;
- significant developments or changes in accounting rules applicable to us; and
- the adequacy of our internal controls and accounting and financial personnel.

The Audit Committee reviewed and discussed with our management our audited financial statements for the year ended June 30, 2012. The Audit Committee also reviewed and discussed the audited financial statements and the matters required by Statement on Auditing Standards No. 61, titled Communication with Audit Committees, with our independent registered public accounting firm. These standards require our independent registered public accounting firm to discuss with our Audit Committee, among other things, the following:

- methods used to account for significant unusual transactions;
- the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus;
-

the process used by management in formulating particularly sensitive accounting estimates and the basis for the auditors' conclusions regarding the reasonableness of those estimates; and disagreements with management over the application of accounting principles, the basis for management's accounting estimates and the disclosures in the financial statements.

The Audit Committee has received the written disclosures from the independent registered public accounting firm required by the applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountants' communications with the audit committee concerning independence, as currently in effect, and has considered whether the provision of non-audit services by the independent registered public accounting firm to us is compatible with maintaining the auditor's independence and has discussed with the auditors the auditors' independence.

Based on our discussions with management and our independent registered public accounting firm, and our review of the representations and information provided by our management and our independent registered public accounting firm, the Audit Committee recommended to our board that the audited financial statements be included in our annual report on Form 10-K for the year ended June 30, 2012.

By the Audit Committee of the Board of Directors of

Senesco Technologies, Inc.

STOCKHOLDERS’ PROPOSALS

Stockholders may submit proposals on matters appropriate for stockholder action at annual meetings in accordance with the rules and regulations adopted by the Securities and Exchange Commission. Any proposal that an eligible stockholder wishes to submit for inclusion in our proxy statement must advise our Secretary of such proposals in writing by August 6, 2013. If we do not receive notice of a stockholder proposal within the timeframes set forth above, our management will use its discretionary authority to vote the shares they represent, as our board of directors may recommend. We reserve the right to reject, rule out of order, or take other appropriate action with respect to any proposal that does not comply with these requirements.
