Notes to the CONDENSED Consolidated Financial Statements

(unaudited)

Note 1: Organization and Basis of Presentation

Background

On December 14, 2009, America's Suppliers, Inc. was incorporated under the laws of the State of Delaware. America's Suppliers, Inc. is an internet-based provider of general merchandise through its wholly owned subsidiaries (collectively, the "Company"), DollarDays International, Inc. ("DollarDays") and WowMyUniverse Inc. ("Wow"). DollarDays is a wholesaler of general merchandise to small independent resellers through its website www.DollarDays.com. Wow targets general consumers through its website WowMyUniverse.com. Orders are placed by customers through the Company's websites where, upon successful payment, the merchandise is shipped directly from the vendors' warehouse.

Basis of Presentation

In the opinion of management, the accompanying unaudited condensed consolidated financial statements include all adjustments, consisting of only normal recurring accruals, necessary for a fair statement of financial position, results of operations, and cash flows. The information included in this Quarterly Report on Form 10-Q should be read in conjunction with the consolidated financial statements and the accompanying notes included in our Annual Report on Form 10-K for the year ended December 31, 2012. The accounting policies are described in the "Notes to the Consolidated Financial Statements" in the 2012 Annual Report on Form 10-K and updated, as necessary, in this Form 10-Q. The year-end consolidated balance sheet data presented for comparative purposes was derived from audited consolidated financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States. The results of operations for the three months ended March 31, 2013 are not necessarily indicative of the operating results for the full year or for any other subsequent interim period.

A reclassification has been made to the statement of cash flows for the three months ended March 31, 2012. There was no change to previously reported stockholders' equity or net loss.

Note 2: Summary of Significant Accounting Policies

Revenue Recognition

Revenue is recognized when the four criteria for revenue recognition are met: (1) persuasive evidence of an arrangement exists; (2) shipment or delivery has occurred; (3) the price is fixed or determinable and (4) collectability is reasonably assured. Cash payments received in advance of product shipment are deferred as reflected as a deferred revenue liability in the accompanying consolidated balance sheets. Allowances for sales returns and discounts are recorded as a component of revenues in the period the allowances are recognized.

All amounts billed to customers for shipping and handling costs are included in revenues in the consolidated statements of operations. Actual shipping costs incurred are reflected as a component of cost of goods sold in the accompanying consolidated statements of operations. Total shipping expense included in cost of goods sold for the three months ended March 31, 2013 and 2012 was \$413,909 and \$417,253, respectively.

The Company has evaluated the provisions of ASC 605-45 regarding reporting revenue gross as a principal or net as an agent, noting that the task force determined that it is a matter of judgment and a preponderance of the evidence as to whether a company satisfies the gross versus net indicators. As a result of its analysis, the Company has determined that it qualifies for "gross" revenue recognition.

Advertising revenue is recognized as the service is provided on our website in accordance with the terms of the advertising arrangement.

Accounts Receivable

Accounts receivable represent amounts earned but not collected in connection with the Company's revenues. Trade receivables are carried at their estimated collectible amounts and generally consist of amounts due from credit card transactions.

The Company follows the allowance method of recognizing uncollectible accounts receivable. The allowance method recognizes bad debt expense as a percentage of accounts receivable based on a review of individual accounts outstanding, and prior history of uncollected accounts receivable. The allowance for doubtful accounts at March 31, 2013 and December 31, 2012 was \$0 as the Company expected to collect substantially all amounts due. Bad debt expense (recovery) for the three months ended March 31, 2013 and 2012 was \$8,708 and (\$12,792), respectively.

The Company follows the allowance method of recognizing sales returns. The allowance method recognizes sales returns as a percentage of sales based on a prior history of sales returns. The allowance for sales returns at March 31, 2013 and December 31, 2012 was \$0. Sales returns expense for the three months ended March 31, 2013 and 2012 was \$57,415 and \$97,819, respectively.

Note 3: Fair Value of Financial Instruments

Fair value measurements are performed in accordance with the guidance provided by ASC 820, *Fair Value Measurements and Disclosures* ("ASC 820"). ASC 820 defines fair value as the price that would be received from selling an asset, or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Where available, fair value is based on observable market prices or parameters or derived from such prices or parameters. Where observable prices or parameters are not available, valuation models are applied.

ASC 820 establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Assets and liabilities recorded at fair value in the financial statements are categorized based upon the hierarchy of levels of judgment associated with the inputs used to measure their fair value. Hierarchical levels directly related to the amount of subjectivity associated with the inputs to fair valuation of these assets and liabilities, are as follows:

Level 1 – Quoted prices in active markets for identical assets or liabilities that an entity has the ability to access.

Level 2 – Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 – Unobservable inputs that are supportable by little or no market activity and that are significant to the fair value of the asset or liability.

The Company's financial instruments include cash and cash equivalents, certificates of deposit, short term receivables and payables, and a line of credit. The carrying value of these instruments approximates fair value due to the short-term nature of such instruments. The Company used inputs that would qualify as Level 2 inputs to make its assessment of the approximate fair value of the line of credit.

Note 4: Line of Credit

The Company has a \$150,000 revolving line of credit with a financial institution. The line of credit has no stated maturity date and interest payments are due monthly at an annual rate of 6.5%. On March 22, 2013, the Company borrowed \$50,000 under the terms thereof. As of March 31, 2012, the balance outstanding on the line of credit was \$50,000. No interest expense was recorded during the three months ended March 31, 2013.

Note 5: Equity Compensation*Stock Options*

The Company has historically granted stock options to certain vendors and employees and in connection with certain financing transactions.

The following table summarizes the Company's stock option activity during the three months ended March 31, 2013:

	Number of Units	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value

\$1.20 - \$1.30	417,483
	1,722,628

Note 6: Net Loss Per Share

Basic net loss per share is computed based on the weighted average number of common shares outstanding and excludes any potential dilution. Diluted loss per share reflects potential dilution from the exercise or conversion of securities into common stock. As the Company reported a net loss for the three months ended March 31, 2013 and 2012, the incremental shares from assumed conversions of the Company's potentially dilutive securities are not included in computing diluted net loss for those periods, as the effect would be anti-dilutive. Accordingly, basic net loss per common share is equal to diluted net loss per common share for the three months ended March 31, 2013 and 2012.

The following potentially dilutive securities were excluded from the computation of diluted net loss per share because their effect would have been anti-dilutive:

	Three Months Ended March 31,	
	2013	2012
Stock options	998,086	1,054,288
Warrants	1,722,628	1,722,628

Overview

We develop software programs that allow us to provide general merchandise for resale to businesses through our website at www.DollarDays.com. We have been recognized as a leader in the Internet wholesale market of discounted merchandise by a leading business periodical and trade associations. Our objective is to provide a one-stop discount shopping destination for general merchandise for smaller distributors, retailers and non-profits nationwide seeking single and small case-sized lots at bulk prices. We launched our first website in October 2001. The site offers customers an opportunity to shop for bargains conveniently, while offering our suppliers an alternative sales channel. We believe our website offers a unique benefit to smaller businesses in that they are able to purchase goods from wholesalers and importers in single and small case lots, with no minimum purchase requirements at discounted prices. We believe the prevailing reason our business has been able to obtain bulk pricing for single case lots is our ability to reach smaller distributors, retailers and non-profits that most general merchandise suppliers cannot economically reach. We provide all the logistics and customer support to serve this sales channel and grow our customer base.

We continually add new, limited inventory products to our website in order to create an atmosphere that encourages customers to visit frequently and purchase products before the inventory sells out. Through our Internet catalog, we offer approximately 230,000 products, including up to 25,000 closeout items at further discounted prices. Closeout merchandise is typically available in inconsistent quantities and prices.

We accept orders, either online or via telephone sales staff, collect payment in the form of credit or debit card, PayPal or similar means, and coordinate with manufacturers, importers and close-out specialists regarding delivery particulars. PayPal refers to the online payment platform located at www.paypal.com and its localized counterparts. Our proprietary software and service procedures allow us to sell merchandise to a single customer, and bill as a single order, items purchased and delivered from multiple suppliers. We do not take possession of inventory, but we are responsible for processing customer claims and returns.

Our website has a registered base of approximately 230,000 small businesses and receives approximately 3 million monthly page views. We receive an average of approximately 5,000 orders per month. Our target audience is smaller businesses and not-for-profit companies.

During 2010, we established a majority-owned subsidiary, WowMyUniverse.com to develop a retail online business to sell directly to consumers. On October 1, 2010, this subsidiary became wholly owned as we acquired the non-controlling interest in exchange for our interest in an unconsolidated subsidiary. While we experienced limited sales through test marketing in early 2011, we began full operations in the second half of 2011. Net losses from WowMyUniverse.com were \$11,828 and \$33,515 for the three months ended March 31, 2013 and 2012 respectively.

Liquidity and Capital Resources

Our operating cash outflows were \$686,032 for the three months ended March 31, 2013 as compared to outflows of \$322,362 for the three months ended March 31, 2012, constituting an increase in cash used by operations of \$363,670. The change in net operating cash outflows is attributable to an increase in net loss of \$210,445 and a decrease in accounts payable and accrued liabilities of \$294,613, partially offset by an increase in cash flows related to prepaid and other current assets of \$169,147 and other minor changes in non-cash charges and operating assets and liabilities.

Investing cash outflows for the three months ended March 31, 2013 consisted of \$6,496 of purchases of equipment to support our business operations. Investing cash inflows for the three months ended March 31, 2012 consisted of \$199,996 of cash received from the maturities of certificates of deposit, offset by \$21,003 of purchases of equipment and website development costs.

Financing cash inflows for the three months ended March 31, 2013 consisted of \$50,000 of proceeds from our line of credit to support our business operations. There were no financing activities for the three months ended March 31, 2012.

We intend to generate operating cash flows through the growth of our existing business, the improvement of operating margins and by growth through acquisitions. Although there can be no assurance, management believes such measures will provide enough liquidity to operate our current business and continue as a going concern in the short term.

Off-balance sheet arrangements

We did not have any off-balance sheet arrangements at March 31, 2013.

Item 4. Controls and Procedures.

Disclosure Controls and Procedures

Disclosure controls and procedures are designed with an objective of ensuring that information required to be disclosed in our periodic reports filed with the Securities and Exchange Commission, such as this Quarterly Report on Form 10-Q, is recorded, processed, summarized and reported within the time periods specified by the Securities and Exchange Commission. Disclosure controls are also designed with an objective of ensuring that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, in order to allow timely consideration regarding required disclosures.

The evaluation of our disclosure controls by our principal executive officer and principal financial officer included a review of the controls' objectives and design, the operation of the controls, and the effect of the controls on the information presented in this Quarterly Report. Our management, including our principal executive officer and principal financial officer, does not expect that disclosure controls can or will prevent or detect all errors and all fraud, if any. Also, projections of any evaluation of the disclosure controls and procedures to future periods are subject to the risk that the disclosure controls and procedures may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Based on their review and evaluation as of the end of the period covered by this Quarterly Report, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) are effective as of the end of the period covered by this report.

Changes In Internal Controls Over Financial Reporting

There have not been any changes in internal controls over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) that occurred during the fiscal quarter ending March 31, 2013, that have materially affected, or are reasonably likely to affect, our internal controls over financial reporting.
