THEGLOBE.COM, INC. AND SUBSIDIARIES

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(1) ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

DESCRIPTION OF THEGLOBE.COM

theglobe.com, inc. (the “Company” or “theglobe”) was incorporated on May 1, 1995 (inception) and commenced operations on that date. Originally, theglobe.com was an online community with registered members and users in the United States and abroad. However, due to the deterioration of the online advertising market, the Company was forced to restructure and ceased the operations of its online community on August 15, 2001. The Company then sold most of its remaining online and offline properties. The Company continued to operate its Computer Games print magazine and the associated CGOnline website, as well as the e-commerce games distribution business of Chips & Bits, until their shutdown in March 2007. On June 1, 2002, Chairman Michael S. Egan and Director Edward A. Cespedes became Chief Executive Officer and President of the Company, respectively. On November 14, 2002, the Company entered into the Voice over Internet Protocol (“VoIP”) business by acquiring certain VoIP assets.

On May 9, 2005, the Company exercised an option to acquire all of the outstanding capital stock of Tralliance Corporation (“Tralliance”), an entity which had been designated as the registry for the “.travel” top-level domain through an agreement with the Internet Corporation for Assigned Names and Numbers (“ICANN”).

As more fully discussed in Note 3, “Discontinued Operations,” in March 2007, management and the Board of Directors of the Company made the decision to discontinue the operating, research and development activities of its VoIP telephony services business and terminate all of the remaining employees of that business.

On September 29, 2008, the Company sold its Tralliance business and issued 229,000,000 shares of its Common Stock to a company controlled by Michael S. Egan, the Company’s Chairman and Chief Executive Officer. As a result of the sale of its Tralliance business, the Company became a shell company (as defined in Rule 12b-2 of the Securities and Exchange Act of 1934) with no material operations or assets. The Company presently intends to continue as a public company and make all the requisite filings under the Securities and Exchange Act of 1934. However, certain matters, as more fully discussed in Note 2, “Liquidity and Going Concern Considerations,” raise substantial doubt about the Company’s ability to continue as a going concern.

PRINCIPLES OF CONSOLIDATION

The condensed consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries from their respective dates of acquisition. All significant intercompany balances and transactions have been eliminated in consolidation.

UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL INFORMATION

The unaudited interim condensed consolidated financial statements of the Company as of March 31, 2014 and for the three months ended March 31, 2014 and 2013 included herein have been prepared in accordance with the instructions for Form 10-Q under the Securities Exchange Act of 1934, as amended, and Article 10 of Regulation S-X under the Securities Act of 1933, as amended. Certain information and note disclosures normally included in consolidated financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations relating to interim condensed consolidated financial statements.

In the opinion of management, the accompanying unaudited interim condensed consolidated financial statements reflect all adjustments, consisting only of normal recurring adjustments, necessary to present fairly the financial position of the Company at March 31, 2014 and the results of its operations and its cash flows for the three months ended March 31, 2014 and 2013. The results of operations and cash flows for such periods are not necessarily indicative of results expected for the full year or for any future period.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. These estimates and assumptions relate primarily to valuations of accounts payable and accrued expenses. Our estimates, judgments and assumptions are continually evaluated based upon available information and experience. Because of estimates inherent in the financial reporting process, actual results could differ from those estimates. See Note 2, "Liquidity and Going Concern Considerations" for a discussion of the Company's derecognition and write off of certain accounts payable and accrued expenses).

NET INCOME PER SHARE

The Company reports basic and diluted net income per common share in accordance with FASB ASC Topic 260, "Earnings Per Share." Basic earnings per share is computed using the weighted average number of common shares outstanding during the period. Common equivalent shares consist of the incremental common shares issuable upon the exercise of stock options and warrants (using the treasury stock method). Common equivalent shares are excluded from the calculation if their effect is anti-dilutive.

Due to the anti-dilutive effect of potentially dilutive securities or common stock equivalents that could be issued, such securities were excluded from the diluted net loss per common share calculation for all periods presented. Such potentially dilutive securities and common stock equivalents consisted of the following for the periods ended March 31:

| | 2014 | 2013 |
|--|-----------|-----------|
| Options to purchase common stock | 4,000,000 | 5,650,000 |
| Common shares issuable upon exercise of warrants | — | 500,000 |
| Total | 4,000,000 | 6,150,000 |

RECENT ACCOUNTING PRONOUNCEMENTS

Management has determined that all recently issued accounting pronouncements will not have a material impact on the Company's financial statements or do not apply to the Company's operations.

RECLASSIFICATIONS

Certain amounts in the prior year financial statements have been reclassified to conform to the current year presentation.

(2) LIQUIDITY AND GOING CONCERN CONSIDERATIONS

The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. Accordingly, the consolidated financial statements do not include any adjustments relating to the recoverability of assets and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. However, for the reasons described below, Company management does not believe that cash on hand and cash flow generated internally by the Company will be adequate to fund its limited overhead and other cash requirements beyond a short period of time. These reasons raise significant doubt about the Company's ability to continue as a going concern.

Since 2008, the Company was able to continue operating as a going concern due principally to funding of \$500,000 received during 2008 under a Revolving Loan Agreement with an entity controlled by Michael S. Egan, its Chairman and Chief Executive Officer and total proceeds of approximately \$1,963,000 received during 2009 to 2014 under an Earn-out Agreement with an entity also controlled by Mr. Egan, as well as the forbearance of its creditors.

At March 31, 2014, the Company had a net working capital deficit of approximately \$1,468,000. Such working capital deficit included (i) a total of approximately \$786,000 in principal and accrued interest owed under the aforementioned Revolving Loan Agreement; (ii) a total of approximately \$312,000 in management service fees owed under a Master Services Agreement to an entity controlled by Mr. Egan; (iii) a total of approximately \$131,000 of accrued officer compensation due primarily to Mr. Egan, and (iv) an aggregate of approximately \$244,000 in other unsecured accounts payable and accrued expenses owed to non-related parties (of which approximately \$121,000 relates to liabilities of our VoIP telephony service discontinued business). During the fourth quarter of 2013, the Company derecognized approximately \$296,000 of old liabilities of its former Tralliance business, including approximately \$170,000 of disputed accounts payable owed to 2 former vendors and accrued expenses totaling approximately \$126,000, based upon the belief that the statute of limitations applicable to enforcement of such liabilities had lapsed. As more fully described in Note 3, "Discontinued Operations," the Company derecognized approximately \$1,354,000 of old liabilities of its former VoIP telephony service business, including approximately \$1,000,000 of disputed liabilities, during the fourth quarter of 2012 based upon our belief that the statute of limitations applicable to enforcement of such liabilities has lapsed. Additionally, the Company also wrote off approximately \$85,000 of estimated contingent liabilities during the fourth quarter of 2012. Based upon the lapsing of the statute of limitations, the Company expects to derecognize approximately \$84,000 of unsecured accrued expense liabilities during 2014. There can be no assurance that the holders of derecognized account payables will agree with our application of statutes of limitation to time bar claims related to such payables nor seek to assert a basis to toll or suspend the running of the otherwise applicable statutes of limitation.

As discussed previously, on September 29, 2008, the Company (i) sold the business and substantially all of the assets of its Tralliance Corporation subsidiary to Tralliance Registry Management, and (ii) issued 229,000,000 shares of its Common Stock (the "Shares") to Registry Management (the "Purchase Transaction"). Tralliance Registry Management and Registry Management are entities controlled by Michael S. Egan. The closing of the Purchase Transaction resulted in the cancellation of all of the Company's remaining Convertible Debt, related accrued interest and rent and accounts payable owed to entities controlled by Mr. Egan as of the date of closing (totaling approximately \$6,400,000). However, the Company continues to be obligated to repay its principal borrowings totaling \$500,000, plus accrued interest at the rate of 10% per annum (approximately \$286,000 as of March 31, 2014), due to an entity controlled by Mr. Egan under the aforementioned Revolving Loan Agreement. All unpaid borrowings under the Revolving Loan Agreement, as amended on May 7, 2009, including accrued interest, are due and payable by the Company in one lump sum on the earlier of (i) five business days following demand for payment, which demand can be made at anytime, or (ii) the occurrence of an event of default as defined in the Revolving Loan Agreement. The Company currently has no ability to repay this loan should a demand for payment be made by the noteholder. All borrowings under the Revolving Loan Agreement are secured by a pledge of all of the assets of the Company and its subsidiaries. Immediately after giving effect to the closing of the Purchase Transaction and the issuance of the Shares thereunder, Mr. Egan beneficially owned approximately 76% of the Company's Common Stock and continues to beneficially own such amount at March 31, 2014.

As additional consideration under the Purchase Transaction, Tralliance Registry Management is obligated to pay an earn-out to theglobe equal to 10% (subject to certain minimums) of Tralliance Registry Management's net revenue (as defined) derived from ".travel" names registered by Tralliance Registry Management from September 29, 2008 through May 5, 2015 (the "Earn-out"). The minimum Earn-out payable by Tralliance Registry Management to theglobe was \$300,000 in the first year of the Earn-Out, increasing by \$25,000 in each subsequent year (\$400,000 for the most recent completed year) (pro-rated for the final year of the Earn-out). Due to various factors related to the collectability of Earn-out payments from Tralliance Registry Management, including the current weak financial condition of Tralliance Registry Management, and the fact that such Earn-out payments are payable to theglobe over an extended period of time (originally approximately 6 ½ years), there can be no assurance that theglobe will be able to collect the minimum Earn-out payments over the remaining life of the Earn-out.

In connection with the closing of the Purchase Transaction, the Company also entered into a Master Services Agreement with an entity controlled by Mr. Egan whereby for a fee of \$20,000 per month (\$240,000 per annum) such entity will provide personnel and services to the Company so as to enable it to continue its existence as a public company without the necessity of any full-time employees of its own. Additionally, commensurate with the closing of the Purchase Transaction, Termination Agreements with each of its current executive officers, which terminated their previous and then existing employment agreements, were executed. Notwithstanding the termination of these employment agreements, each of our current executive officers and directors remain as executive officers and directors of the Company.

Immediately following the closing of the Purchase Transaction, theglobe became a shell company with no material operations or assets, and no source of income other than under the Earn-out. As a shell company, theglobe's operating expenses have consisted primarily of and are expected to continue to consist primarily of expenses incurred under the aforementioned Master Services Agreement and other customary public company expenses, including legal, audit and

other miscellaneous public company costs.

MANAGEMENT'S PLANS

On a short term liquidity basis, the Company must be successful in collecting the quarterly Earn-out payments contractually due from Tralliance Registry Management on a timely basis and must receive the continued indulgence of substantially all of its creditors, primarily including the continued forbearance of Mr. Egan and related entities in making demand for payment for amounts outstanding under the Revolving Loan Agreement and the Master Services Agreement, in order to continue as a going concern.

It is the Company's preference to avoid filing for protection under the U.S. Bankruptcy Code. However, based upon the Company's current financial condition as discussed above and recognizing that the Earn-out Agreement with Tralliance Registry Management terminates on May 5, 2015, management believes that additional debt or equity capital will need to be raised in order for theglobe to continue to operate as a going concern on a long-term basis. Any such capital would likely come from Mr. Egan, as the Company currently has no access to credit facilities and has traditionally relied on borrowings from related parties to meet short-term liquidity needs. Any such capital would likely result in very substantial dilution in the number of outstanding shares of the Company's Common Stock. Given theglobe's current financial condition, it has no intent to seek to acquire or start any new businesses at the present time.

(3) DISCONTINUED OPERATIONS

In March 2007, management and the Board of Directors of the Company decided to discontinue the operating, research and development activities of its VoIP telephony services business and terminate all of the remaining employees of the business. The Company's decision to discontinue the operations of its VoIP telephony services business was based primarily on the historical losses sustained by this business, management's expectations of continued losses for the foreseeable future and estimates of the amount of capital required to successfully monetize this business. All elements of its VoIP telephony services business shutdown plan were completed by the Company in 2007 except for the resolution of certain disputed vendor accounts payables, totaling approximately \$1,000,000, and the payment of remaining non-disputed accounts payable. The disputed accounts payables related primarily to telecommunications network service fees charged by various former telecommunication vendors during the period from 2004 to 2007. These charges were disputed by the Company primarily due to such items as incorrect quantities, rates, in-service dates, regulatory fees/charges, late fees and contract termination charges.

During the fourth quarter of 2012, the Company re-evaluated all remaining liabilities of its VoIP telephony services business in light of the passage of time and applicable state statute of limitation laws. Based upon this re-evaluation, the Company derecognized accounts payable liabilities related to six (6) former telecommunication vendors totaling approximately \$1,354,000, including the disputed liabilities of approximately \$1,000,000 discussed earlier, from its balance sheet at December 31, 2012. At March 31, 2014 and December 31, 2013, “Liabilities of Discontinued Operations” consists of a non-disputed accounts payable to one former VoIP telephony services business vendor that the Company intends to pay over the next several years on a monthly installment basis.

(4) STOCK OPTION PLANS

We have several stock option plans under which nonqualified stock options may be granted to officers, directors, other employees, consultants and advisors of the Company. In general, options granted under the Company’s stock option plans expire after a ten-year period and generally vest no later than three years from the date of grant. Incentive options granted to stockholders who own greater than 10% of the total combined voting power of all classes of stock of the Company must be issued at 110% of the fair market value of the stock on the date the options are granted. As of March 31, 2014, there were approximately 5,570,141 shares available for grant under the Company’s stock option plans.

There were no stock option grants or exercises during each of the three months ended March 31, 2014 and 2013.

Stock option activity during the three months ended March 31, 2014 was as follows:

| | Total Options | Weighted Average Exercise Price |
|----------------------------------|---------------|--|
| Outstanding at December 31, 2013 | 4,000,000 | \$ 0.12 |
| Granted | — | |
| Exercised | — | |
| Expired | — | — |
| Outstanding at March 31, 2014 | 4,000,000 | |
