Forward-Looking Statements

This Quarterly Report on Form 10-Q, as well as other periodic reports filed with the Securities and Exchange Commission, and written or oral communications made from time to time by or on behalf of Sandy Spring Bancorp and its subsidiaries (the "Company"), may contain statements relating to future events or future results of the Company that are considered "forward-looking statements" under the Private Securities Litigation Reform Act of 1995. These forward-looking statements may be identified by the use of words such as "believe," "expect," "anticipate," "plan," "estimate," "intend" and "potential," or words of similar meaning, or future or conditional verbs such as "should," "could," or "may." Forward-looking statements include statements of Company goals, intentions and expectations; statements regarding our business plans, prospects, growth and operating strategies; statements regarding the quality of our loan and investment portfolios; and estimates of our risks and future costs and benefits.

Forward-looking statements reflect the Company's expectation or prediction of future conditions, events or results based on information currently available. These forward-looking statements are subject to significant risks and uncertainties that may cause actual results to differ materially from those in such statements. These risk and uncertainties include, but are not limited to, the risks identified in Item 1A of the Company's 2013 Annual Report on Form 10-K, Item 1A of Part II of this report and the following:

- general business and economic conditions nationally or in the markets that the Company serves could adversely affect, among other things, real estate prices, unemployment levels, and consumer and business confidence, which could lead to decreases in the demand for loans, deposits and other financial services that we provide and increases in loan delinquencies and defaults;
- changes or volatility in the capital markets and interest rates may adversely impact the value of securities, loans, deposits and other financial instruments and the interest rate sensitivity of our balance sheet as well as the Company's liquidity;
- the Company's liquidity requirements could be adversely affected by changes in our assets and liabilities;
- the Company's investment securities portfolio is subject to credit risk, market risk, and liquidity risk as well as changes in the estimates the Company uses to value certain of the securities in the portfolio;
- the effect of legislative or regulatory developments including changes in laws concerning taxes, banking, securities, insurance and other aspects of the financial services industry;
- competitive factors among financial services companies, including product and pricing pressures and the Company's ability to attract, develop and retain qualified banking professionals;

- the effect of changes in accounting policies and practices, as may be adopted by the Financial Accounting Standards Board, the Securities and Exchange Commission, the Public Company Accounting Oversight Board and other regulatory agencies; and

- the effect of fiscal and governmental policies of the United States federal government.

Forward-looking statements speak only as of the date of this report. The Company does not undertake to update forward-looking statements to reflect circumstances or events that occur after the date of this report or to reflect the occurrence of unanticipated events except as required by federal securities laws.

Sandy Spring Bancorp, Inc. and Subsidiaries

Notes to the CONDENSED Consolidated Financial Statements - UNAUDITED

Note 1 – Significant Accounting Policies

Nature of Operations

Sandy Spring Bancorp (the "Company"), a Maryland corporation, is the bank holding company for Sandy Spring Bank (the "Bank"), which conducts a full-service commercial banking, mortgage banking and trust business. Services to individuals and businesses include accepting deposits, extending real estate, consumer and commercial loans and lines of credit, equipment leasing, general insurance, personal trust, and investment and wealth management services. The Company operates in the Maryland counties of Anne Arundel, Carroll, Frederick, Howard, Montgomery, and Prince George's, and in Arlington, Fairfax and Loudoun counties in Virginia. The Company offers investment and wealth management services through the Bank's subsidiary, West Financial Services. Insurance products are available to clients through Sandy Spring Insurance, and Neff & Associates, which are agencies of Sandy Spring Insurance Corporation.

Basis of Presentation

The accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America ("GAAP") and prevailing practices within the financial services industry for interim financial information and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and notes required for complete financial statements and prevailing practices within the banking industry. The following summary of significant accounting policies of the Company is presented to assist the reader in understanding the financial and other data presented in this report. Operating results for the three and six months ended June 30, 2014 are not necessarily indicative of the results that may be expected for any future periods or for the year ending December 31, 2014. In the opinion of management, all adjustments (comprising only normal recurring accruals) necessary for a fair presentation of the results of the interim periods have been included. Certain reclassifications have been made to prior period amounts, as necessary, to conform to the current period presentation. The Company has evaluated subsequent events through the date of the issuance of its financial statements.

These statements should be read in conjunction with the financial statements and accompanying notes included in the Company's 2013 Annual Report on Form 10-K as filed with the Securities and Exchange Commission ("SEC") on March 14, 2014. There have been no significant changes to the Company's accounting policies as disclosed in the 2013 Annual Report on Form 10-K.

Principles of Consolidation

The unaudited condensed consolidated financial statements include the accounts of the Company and its wholly owned subsidiary, Sandy Spring Bank and its subsidiaries, Sandy Spring Insurance Corporation and West Financial Services, Inc. Consolidation has resulted in the elimination of all intercompany accounts and transactions.

Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements, and affect the reported amounts of revenues earned and expenses incurred during the reporting period. Actual results could differ from those estimates. Estimates that could change significantly relate to the provision for loan and lease losses and the related allowance, determination of impaired loans and the related measurement of impairment, potential impairment of goodwill or other intangible assets, valuation of investment securities and the determination of whether impaired securities are other-than-temporarily impaired, valuation of other real estate owned, prepayment rates, valuation of share-based compensation, the assessment that a liability should be recognized with respect to any matters under litigation, the calculation of current and deferred income taxes and the actuarial projections related to pension expense and the related liability.

Cash Flows

For purposes of reporting cash flows, cash and cash equivalents include cash and due from banks, federal funds sold and interest-bearing deposits with banks (items with stated original maturity of three months or less).

Loans Acquired with Deteriorated Credit Quality

Acquired loans are evaluated for evidence of credit deterioration since their origination as of the date of the acquisition are recorded at their initial fair value. Credit deterioration is determined based on the probability of collection of all contractually required principal and interest payments. The historical allowance for loan and lease losses related to the purchased loans is not carried over to the Company. The determination of credit quality deterioration as of the purchase date may include parameters such as past due and non-accrual status, commercial risk ratings, cash flow projections, type of loan and collateral, collateral value and recent loan-to-value ratios or appraised values. For loans acquired with no evidence of credit deterioration, the fair value discount or premium is amortized over the contractual life of the loan as an adjustment to yield. For loans acquired with evidence of credit deterioration, the Company determines at the acquisition date the excess of the loan's contractually required payments over all cash flows expected to be collected as an amount that should not be accreted into interest income (nonaccretable difference). The remaining amount representing the difference in the expected cash flows of acquired loans and the initial investment in the acquired loans is accreted into interest income over the remaining life of the loan or pool of loans (accretable yield). The present value of any decreases in expected cash flows after the purchase date is recognized as an impairment through a charge to the provision for loan losses. Increases in the present value of expected cash flows after the purchase date are recognized as an adjustment to the accretable yield. Subsequent to the purchase date, the methods utilized to estimate the required allowance for loan and lease losses ("ALLL") are similar to originated loans. Loans carried at fair value, mortgage loans held for sale and loans under revolving credit agreements are excluded from the scope of this guidance on loans acquired with deteriorated credit quality.

Pending Accounting Pronouncements

The FASB issued a standard in May 2014 that provides accounting guidance for all revenue arising from contracts with customers and affects all entities that enter into contracts to provide goods or services to customers. The guidance also provides for a model for the measurement and recognition of gains and losses on the sale of certain nonfinancial assets, such as property and equipment, including real estate. This standard may affect an entity's financial statements, business processes and internal control over financial reporting. The guidance is effective for the first interim or annual period beginning after December 15, 2016. The guidance must be adopted using either a full retrospective approach for all periods presented in the period of adoption or a modified retrospective approach. The Company is assessing this guidance to determine its impact on the Company's financial position, results of operations and cash flows.

Note 2 – Investments

<u>Investments available-for-sale</u>

The amortized cost and estimated fair values of investments available-for-sale at the dates indicated are presented in the following table:

	June 30, 2014				December 31, 2013			
(In thousands)	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
U.S. government agencies	$147,735	$2	$(3,294)	$144,443	$147,688	$-	$(8,222)	$139,466
State and municipal	158,102	9,729	-	167,831	159,524	6,060	(156)	165,428
Mortgage-backed	396,890	11,453	(3,598)	404,745	439,054	10,188	(6,992)	442,250
Corporate debt	2,000	1	-	2,001	2,000	4	-	2,004
Trust preferred	1,348	-	(206)	1,142	1,701	-	(288)	1,413
Total debt securities	706,075	21,185	(7,098)	720,162	749,967	16,252	(15,658)	750,561
Marketable equity securities	723	-	-	723	723	-	-	723
Total investments available-for-sale	$706,798	$21,185	$(7,098)	$720,885	$750,690	$16,252	$(15,658)	$751,284

Any unrealized losses in the U.S. government agencies, state and municipal, mortgage-backed or corporate debt investment securities at June 30, 2014 are not the result of credit related events but due to changes in interest rates. These declines are considered temporary in nature and are expected to decline over time and recover as these securities approach maturity.

The mortgage-backed securities portfolio at June 30, 2014 is composed entirely of either the most senior tranches of GNMA, FNMA or FHLMC collateralized mortgage obligations ($187.8 million), or GNMA, FNMA or FHLMC mortgage-backed securities ($216.9 million). The Company does not intend to sell these securities and has sufficient liquidity to hold these securities for an adequate period of time, which may be maturity, to allow for any anticipated recovery in fair value.

At June 30, 2014, the trust preferred portfolio consisted of one pooled trust preferred security. The pooled trust preferred security, which is backed by debt issued by banks and thrifts, totals $1.3 million with a fair value of $1.1 million. The fair value of this security was determined by management through the use of a third party valuation specialist due to the limited trading activity for this security.

The income valuation approach technique (present value) used maximizes the use of relevant observable inputs and minimizes the use of unobservable inputs. The methodology and significant assumptions employed by the specialist to determine fair value included:

- Evaluation of the structural terms as established in the indenture;
- Detailed credit and structural evaluation for each piece of issuer collateral in the pool;
- Overall default (.49%), recovery and prepayment (2%)/amortization probabilities by issuers in the pool;
- Identification of adverse conditions specifically related to the security, industry and geographical area;
- Projection of estimated cash flows that incorporate default expectations and loss severities;
- Review of historical and implied volatility of the fair value of the security;
- Evaluation of credit risk concentrations;
- Evaluation of the length of time and the extent to which the fair value has been less than the amortized cost; and
- A discount rate of 12.1% was established using credit adjusted financial institution spreads for comparably rated institutions and a liquidity adjustment that considered the previously noted characteristics.

As a result of this evaluation, it was determined that the pooled trust preferred security had not incurred any credit-related other-than-temporary impairment (“OTTI”) for the quarter ended June 30, 2014. Non-credit related decline in fair value on this security, which is not expected to be sold and which the Company has the ability to hold until maturity, was $0.2 million at June 30, 2014. This non-credit related decline in fair value was recognized in other comprehensive income (“OCI”) at June 30, 2014.

The methodology and significant inputs used to measure the amount related to credit loss consisted of the following:

- Default rates were developed based on the financial condition of the trust preferred issuers in the pool and the payment or deferral status. Conditional default rates were estimated based on the payment characteristics of the security and the financial condition of the issuers in the pool. Near term and future defaults are estimated using third party industry data in addition to a review of key financial ratios and other pertinent data on the financial stability of the underlying issuer;
- Loss severity is forecasted based on the type of impairment using research performed by third parties;
- The security contains one level of subordination below the senior tranche, with the senior tranche receiving the spread from the subordinate bonds;
- Credit ratings of the underlying issuers are reviewed in conjunction with the development of the default rates applied to determine the credit amounts related to the credit loss; and
- Potential prepayments are estimated based on terms and rates of the underlying trust preferred securities to determine the impact of excess spread on the credit enhancement, the removal of the strongest institutions from the underlying pool and any impact that prepayments might have on diversity and concentration.

The following table provides the activity of OTTI on investment securities due to credit losses recognized in earnings for the period indicated:

(In thousands)	OTTI Losses
Cumulative credit losses on investment securities, through December 31, 2013	$ 531
Additions for credit losses not previously recognized	-
Cumulative credit losses on investment securities, through June 30, 2014	$ 531

11

Gross unrealized losses and fair value by length of time that the individual available-for-sale securities have been in an unrealized loss position at the dates indicated are presented in the following table:

	June 30, 2014				
			Continuous Unrealized Losses Existing for:		
(Dollars in thousands)	Number of securities	Fair Value	Less than 12 months	More than 12 months	Total Unrealized Losses
U.S. government agencies	14	$ 141,158	$ 69	$ 3,225	$ 3,294
Mortgage-backed	22	128,669	133	3,465	3,598
Trust preferred	1
