The Registrant's Quarterly Report on Form 10-Q for the fiscal quarter ended March 31, 2015 (the "Quarterly Report") cannot be filed within the prescribed time period because the Registrant requires additional time to complete the audit of its 2014 financial statements and the filing of the Annual Report on Form 10-K for the period ended December 31, 2014 and the financial statements included therein. Yes ☒ No ☐

As disclosed in the Company's Current Report on Form 8-K filed with the SEC on May 12, 2015, in January 2015 the Company substantially curtailed and eventually ceased its oil blending/reselling business operations. The cessation of the oil blending/reselling operations resulted from adverse market conditions in the petroleum products markets in China that caused the Company to operate at negative margins, thus rendering this line of business unprofitable in the short term. The shift in the profitability of the Company's oil blending/reselling business operations was exacerbated by a significant change in the commercial credit environment in China during the same period. Following a substantial tightening of credit availability in China, the Company's experienced difficulty in renegotiating its commercial loan facilities, which matured in March 2015, leaving the Company without the necessary liquidity to operate its business.

It is the Company's expectation that its sales revenues and cost of sales for the three months ended March 31, 2015 will be materially adversely affected by the foregoing business and operational developments.
