Cautionary Statement Regarding Forward Looking Statements

This Quarterly Report on Form 10-Q for the period ended June 30, 2015 (this “**Report**”) contains forward-looking statements intended to qualify for the safe harbor contained in Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the “**Exchange Act**”). Forward-looking statements often include words such as “may,” “will,” “should,” “anticipate,” “estimate,” “expect,” “project,” “intend,” “plan,” “seek,” “would,” “could,” and similar words or expressions and are made in connection with discussions of future operating or financial performance.

Forward-looking statements reflect our management’s expectations at the date of this Report regarding future conditions, events or results. They are not guarantees of future performance. By their nature, forward-looking statements are subject to risks and uncertainties. Our actual results and financial condition may differ materially from what is anticipated in the forward-looking statements. There are many factors that could cause actual conditions, events or results to differ from those anticipated by the forward-looking statements contained in this Report. They include the factors discussed in Part 1, Item 1A. “Risk Factors” of the Company’s Annual Report on Form 10-K for the year ended December 31, 2014 (“**2014 Form 10-K**”).

Readers are cautioned not to place undue reliance on forward-looking statements in this Report or that we make from time to time, and to consider carefully the factors discussed in Part I, Item 1A. “Risk Factors” of the 2014 Form 10-K in evaluating these forward-looking statements. We have not undertaken to update any forward-looking statements.

MMA Capital Management, LLC

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1—description of the business and BASIS OF PRESENTATION

MMA Capital Management, LLC, the registrant, was organized in 1996 as a Delaware limited liability company. When used in this Quarterly Report on Form 10-Q for the period ended June 30, 2015 (this “**Report**”), the “**Company**,” “**MMA**,” “**we**,” “**our**,” or “**us**” may refer to the registrant, the registrant and its subsidiaries, or one or more of the registrant’s subsidiaries depending on the context of the disclosure.

Description of the Business

The Company uses its experience and expertise to partner with institutional capital to create attractive and impactful alternative investment opportunities, to manage them well and to report on them effectively. Beginning in 2015, the Company operates through three reportable segments – United States (“**U.S.**”) Operations, International Operations and Corporate Operations.

U.S. Operations

Our U.S. Operations consists of three business lines: Leveraged Bonds, Low-Income Housing Tax Credits (“**LIHTCs**”) and Other Investments and Obligations.

The Leveraged Bonds business line finances affordable housing and infrastructure in the U.S. This business line manages the vast majority of the Company’s bonds and bond related investments (“**bonds**”) and associated financings. The bond portfolio is comprised primarily of multifamily tax-exempt bonds, but also includes other real estate related bond investments.

Our LIHTC business consists primarily of a secured loan receivable from Morrison Grove Management, LLC (“**MGM**”) and an option to purchase MGM beginning in 2019.

The Other Investments and Obligations business line includes legacy assets targeted for eventual disposition and serves as our research and development unit for new business opportunities in the U.S., which has resulted in the creation of a renewable energy capital business that operates as MMA Energy Capital, LLC (“**MEC**”).

International Operations

We manage our International Operations through a wholly owned subsidiary, International Housing Solutions S.à r.l. (“**IHS**”). IHS’s strategy is to raise, invest in, and manage private real estate funds. IHS currently manages three funds: the South Africa Workforce Housing Fund (“**SAWHF**”), which is a multi-investor fund and is fully invested; IHS Residential Partners I, which is a single-investor fund targeted at the emerging middle class in South Africa; and IHS Fund II, which is a multi-investor fund targeting investments in affordable housing, including green housing projects, within South Africa and Sub-Saharan Africa. During the second quarter of 2015, IHS and a South African property management company formed a company in South Africa, IHS Property Management Proprietary Limited (“**IHS PM**”), to provide property management services to the properties of the IHS managed funds and ventures. IHS owns 60% of IHS PM and the third party property manager owns the remaining 40%.

Corporate Operations

Our Corporate Operations segment is responsible for accounting, reporting, compliance and planning, which are fundamental to our success as a global fund manager and publicly traded company in the U.S.

Use of Estimates

The preparation of the Company’s financial statements requires management to make estimates and judgments that affect the reported amounts of assets and liabilities, commitments and contingencies, and revenues and expenses. Management has made significant estimates in certain areas, including the determination of fair values for bonds, derivative financial instruments, guarantee obligations, and certain assets and liabilities of consolidated funds and ventures (“**CFVs**”). Management has also made significant estimates in the determination of impairment on bonds and real estate investments. Actual results could differ materially from these estimates.

Basis of Presentation and Significant Accounting Policies

The consolidated financial statements include the accounts of the Company and of entities that are considered to be variable interest entities in which the Company is the primary beneficiary, as well as those entities in which the Company has a controlling financial interest, including wholly owned subsidiaries of the Company. All intercompany transactions and balances have been eliminated in consolidation. Equity investments in unconsolidated entities where the Company has the ability to exercise significant influence over the operations of the entity, but is not considered the primary beneficiary, are accounted for using the equity method of accounting.

New Accounting Guidance

Accounting for Debt Issuance Costs

On April 7, 2015, the Company adopted ASU No. 2015-03, “*Interest – Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs.*” This guidance provides an amendment to the accounting guidance related to the presentation of debt issuance costs and is effective for fiscal years beginning after December 15, 2015 with early adoption allowed. This guidance is applied retrospectively to all prior periods. Under the new guidance, debt issuance costs are to be presented as a direct reduction from the related debt liability rather than as an asset. As a result of adopting this guidance, the Company reclassified \$2.9 million of debt issuance costs at December 31, 2014, from “Other Assets” to “Debt” on the consolidated balance sheet.

Note 2—BONDS available-for-sale

Bonds Available-for-Sale

The Company’s bond portfolio is comprised primarily of mortgage revenue bonds, but also includes other real estate related bond investments.

Mortgage revenue bonds are issued by state and local governments or their agencies or authorities to finance multifamily rental housing; typically however, the only source of recourse on these bonds is the collateral, which is either a first mortgage or a subordinate mortgage on the underlying properties. The Company’s rights under the mortgage revenue bonds are defined by the contractual terms of the underlying mortgage loans, which are pledged to the bond issuer and assigned to a trustee for the benefit of bondholders to secure the payment of debt service (any combination of interest and/or principal as set forth in the trust indenture) on the bonds. At June 30, 2015, the Company had \$190.9 million (unpaid principal balance (“**UPB**”) of mortgage revenue bonds with a fair value of \$169.5 million. Included in this amount were subordinate bonds (\$10.3 million of UPB and \$10.6 million fair value) where the payment of debt service occurs only after payment of senior obligations held by third parties that have priority to the cash flow of the underlying collateral.

The weighted average pay rate on the Company’s bond portfolio was 5.3% and 5.2% at June 30, 2015 and December 31, 2014, respectively. Weighted average pay rate represents the cash interest payments collected on the bonds as a percentage of the bonds’ average UPB for the preceding 12 months for the population of bonds at June 30, 2015 and

December 31, 2014, respectively.

The following table summarizes the Company's bonds and related unrealized losses and unrealized gains at June 30, 2015 and December 31, 2014, respectively.

⁽¹⁾ Consists of the UPB, unamortized premiums, discounts and other cost basis adjustments, as well as other-than-temporary impairments ("OTTI") recognized in earnings.

⁽²⁾ At June 30, 2015, \$0.6 million represents the non-credit loss component of unrealized losses associated with bonds that were deemed to be OTTI.

⁽³⁾ Comprised of bonds in a gross unrealized loss position for less than 12 consecutive months that had a fair value of \$2.0 million at June 30, 2015, as well as bonds in a gross unrealized loss position for more than 12 consecutive months that had a fair value of \$6.1 million at June 30, 2015.

At December 31, 2014, \$0.6 million represents the non-credit loss component for certain unrealized losses deemed (4)to be other-than-temporarily impaired and \$0.3 million represents unrealized losses that were not considered other-than-temporarily impaired.

Comprised of bonds in a gross unrealized loss position for less than 12 consecutive months that had a fair value of (5)\$1.8 million at December 31, 2014, as well as bonds in a gross unrealized loss position for more than 12 consecutive months that had a fair value of \$6.0 million at December 31, 2014.

See Note 9, "Fair Value Measurements" which describes the factors contributing to the \$15.2 million decrease in the Company's reported bond fair value.

Maturity

Principal payments on bonds are based on amortization tables set forth in the bond documents. If no principal amortization is required during the bond term, the outstanding principal balance is required to be paid in a lump sum payment at maturity or at such earlier time as may be provided under the bond documents. At June 30, 2015, seven bonds (amortized cost of \$16.3 million and fair value of \$24.0 million) were non-amortizing with principal due in full between February 2030 and August 2048. The remaining bonds are amortizing with stated maturity dates between September 2017 and June 2056.

Bonds with Prepayment Lockouts, Premiums or Penalties

Substantially all of the Company's bonds include provisions that allow the borrowers to prepay the bonds at a premium or at par after a specified date that is prior to the stated maturity date. The following table provides the UPB, amortized cost and fair value of bonds that were prepayable without restriction, premium or penalty at June 30, 2015, as well as the year in which the remaining portfolio becomes prepayable without restriction, premium or penalty at each period presented.

Non-Accrual Bonds

The fair value of bonds on non-accrual was \$45.0 million and \$43.6 million at June 30, 2015 and December 31, 2014, respectively. During the period in which these bonds were on non-accrual, the Company recognized interest income on a cash basis of \$0.5 million and \$0.7 million for the three months ended June 30, 2015 and 2014, respectively, and \$1.1 million and \$3.6 million for the six months ended June 30, 2015 and 2014, respectively. Interest income not recognized during the period in which these bonds were on non-accrual was \$1.1 million and \$1.7 million for the three months ended June 30, 2015 and 2014, respectively, and \$2.2 million and \$3.0 million for the six months ended June 30, 2015 and 2014, respectively.

Bond Aging Analysis

The following table provides the fair value of bonds available-for-sale that were current with respect to principal and interest payments, as well as the fair value of those bonds that were past due with respect to either principal or interest payments at June 30, 2015 and December 31, 2014.

Note 3—INVESTMENTS IN PREFERRED STOCK

These investments are prepayable at any time and are comprised of preferred stock investments in a private national mortgage lender and servicer specializing in affordable and market rate multifamily housing, senior housing and healthcare. At June 30, 2015, the carrying value of the preferred stock investments was \$31.4 million and the UPB and estimated fair value was \$36.6 million with a weighted average pay rate of 14.4%. The Company accounts for the preferred stock using the cost method and tests for impairment at each balance sheet date. An impairment loss is recognized if the carrying amount of the preferred stock is not deemed recoverable. The Company did not recognize impairments on the preferred stock for the six months ended June 30, 2015 and 2014.

As of June 30, 2015, \$25.0 million (principal) of the preferred stock investment was the reference asset for two total return swap (“**TRS**”) agreements with a maturity date of March 31, 2016. See Note 6, “Debt” for more information.

Note 4—INVESTMENTS IN REAL ESTATE PARTNERSHIPS

The following table provides the carrying value of investments in real estate partnerships at June 30, 2015 and December 31, 2014:

(1) *See Note 15, "Consolidated Funds and Ventures" for more information.*

Investments in U.S. Real Estate Partnerships

At June 30, 2015, \$16.3 million of the reported balance represents the Company's interest in a real estate venture that was formed during the fourth quarter of 2014. The Company accounts for this investment as an equity investment and does not consolidate the real estate venture because it is not deemed to be the primary beneficiary. The Company made an initial contribution of \$8.8 million (representing 80% of the real estate venture's initial capital). The Company has rights to a preferred return on its capital contribution, as well as rights to share in excess cash flows of the real estate venture.

At June 30, 2015, the majority of the remaining balance (\$6.2 million) represents a 33% interest in a partnership that was formed to take a deed-in-lieu of foreclosure on land that was collateral for a loan held by the Company. The Company accounts for its interest as an equity investment and does not consolidate the partnership because the Company is not deemed to be the primary beneficiary.

The following table displays the total assets and liabilities held by the U.S. real estate partnerships in which the Company held an equity investment at June 30, 2015 and December 31, 2014:

Investments in IHS-managed Funds and Ventures

At June 30, 2015, the Company held equity co-investments ranging from 2% to 4.25% in three IHS-managed funds and ventures (SAWHF, IHS Residential Partners I and IHS Fund II). IHS provides asset management services to each of these investment vehicles in return for asset management fees. For each investment vehicle, IHS also has rights to investment returns on its equity co-investment as well as carried interest which is contingent upon the investment returns generated by each investment vehicle.

The Company accounts for its interest in SAWHF, IHS Residential Partners I and IHS Fund II as equity investments pursuant to the equity method of accounting because the Company is not deemed to be the primary beneficiary of such funds and ventures. At June 30, 2015, the carrying basis of the Company's investment in SAWHF and IHS Residential Partners I was \$3.6 and \$1.6 million, respectively. At June 30, 2015, the Company had no equity investment basis in IHS Fund II because no capital had been called.

The following table displays the total assets and liabilities held by the three IHS-managed funds and ventures in which the Company held an equity investment at June 30, 2015 and December 31, 2014, respectively:

(in thousands)	June 30, 2015	December 31, 2014
Total assets	\$276,493	\$ 276,007
Total liabilities	111,106	104,863

The following table displays the net income (loss) for the three months and six months ended June 30, 2015 for the three IHS-managed funds and ventures. The net income (loss) for the three months and six months ended June 30, 2014 was related only to IHS Residential Partners I because at that time the Company consolidated SAWHF and thus its equity investment in SAWHF was eliminated in consolidation.

Loans Held-for-Investment

We report the carrying value of loans that are held for investment (“**HFI**”) at their UPB, net of unamortized premiums, discounts and other cost basis adjustments and related allowance for loan losses.

The following table summarizes the amortized cost and allowance for loan losses for loans that were classified as HFI at June 30, 2015 and December 31, 2014:

(in thousands)	June 30, 2015	December 31, 2014
Amortized cost	\$25,824	\$ 40,163
Allowance for loan losses	(17,771)	(17,771)
Loans held for investment, net	\$8,053	\$ 22,392

At June 30, 2015 and December 31, 2014, loans held for investment had an UPB of \$26.4 million and \$40.9 million, respectively, as well as deferred fees and other basis adjustments of \$0.6 million and \$0.7 million, respectively. At June 30, 2015 and December 31, 2014, loans that were specifically impaired had an UPB of \$18.4 and were not accruing interest.

At June 30, 2015 and December 31, 2014, no loans that were 90 days or more past due in either principal or interest were still accruing interest.

During the second quarter of 2015, the \$17.3 million (UPB) bridge loan (“**Bridge Loan**”) to MGM was repaid in full. The book basis of the Bridge Loan was \$14.4 million at payoff. The remaining \$2.9 million of principal due related to the seller financing provided to MGM, which was off-balance sheet at the time of payoff because the Company was not able to meet sale accounting. As a result of the payoff, the Company recorded a \$14.4 million reduction to the Bridge Loan and a \$2.9 million increase to Other liabilities.

In addition, the previously-issued term loan (“**Term Loan**”) to MGM was restructured into a subordinate loan (“**Subordinate Loan**”). Just prior to the restructuring, the Term Loan had a legal principal balance due of \$13.2 million of which \$13.0 million was restructured into a Subordinated Loan and the remaining \$0.2 million (comprised of capitalized extension fees) was repaid during the third quarter of 2015. The Subordinate Loan, designated as held for investment, has a maturity date of June 30, 2025 and an annual fixed interest rate of 11% with contingent interest up to an additional 13%. The contingent interest will decline to 2% per annum after December 31, 2019. The Subordinate

Loan is non-amortizing; however, \$1.5 million can be prepaid prior to December 31, 2019.

At June 30, 2015, the Company's off-balance sheet loan receivable relating to the seller financing provided to MGM was the \$13.0 million Subordinate Loan.

Interest collected during the three months and six months ended June 30, 2015 on the seller financing was \$0.3 million and \$0.6 million, respectively, which was recorded as a deferred gain through "Other liabilities."

At June 30, 2015, the deferred gain recorded on the seller financing was \$3.9 million (\$2.9 million of principal collected and \$1.0 million of interest collected).

Loans Held-for-Sale

During the second quarter of 2015, MEC entered into five loans for the late stage development and construction of solar projects. While these loans were designated as held for sale, the Company elected the fair value option for these loans and, as a result, such assets are subsequently measured on a fair value basis through earnings. At June 30, 2015, these solar loans had an aggregate UPB and fair value of \$4.9 million.

At June 30, 2015, there were no solar loans 90 days or more past due, and there were no solar loans on non-accrual status.

Interest income on the solar loans was \$0.1 million for the three and six months ended June 30, 2015 recognized on an accrual basis through "Interest on loans and short-term investments".

During the third quarter of 2015, the Company sold the five solar loans to Solar Construction Lending, LLC at par, resulting in no gain or loss. On July 21, 2015 the Company announced that one of its wholly owned subsidiaries, MEC, entered into a venture with a third party to provide capital for development and construction of solar power projects throughout the U.S. The venture will operate under the name Solar Construction Lending, LLC and will be administered by MEC. MEC and the third party each have a 50% interest in the venture and each have a capital commitment of \$25 million. The Company expects to account for its interest in the venture using the equity method of accounting.

Unfunded Loan Commitments

Unfunded loan commitments are agreements to fund construction or renovation of properties securing certain loans. At June 30, 2015, there were unfunded loan commitments of \$10.3 million on our solar loans which as mentioned above were sold during the third quarter of 2015. There were no unfunded loan commitments at December 31, 2014.

Real Estate Owned

The following table summarizes the carrying value of the Company's investments in real estate at June 30, 2015 and December 31, 2014.

(in thousands)	June 30, 2015	December 31, 2014
Real estate held-for-sale	\$ 3,560	\$ 10,145
Real estate held-for-use	2,619	18,417
Total real estate	\$ 6,179	\$ 28,562

During the second quarter of 2015, the Company sold two affordable multifamily properties with a combined carrying basis of \$21.1 million. These two sales resulted in a gain on sale of \$5.6 million.

Asset Management Fees and Reimbursements Receivable

At June 30, 2015, the Company had a \$3.5 million asset management fees and reimbursements receivable of which \$3.2 million was due from IHS-managed funds and ventures.

Derivative Assets

At June 30, 2015, the Company had \$3.4 million in derivative assets related primarily to TRSs. See Note 7, "Derivative Financial Instruments" for more information.

Solar Facilities

At June 30, 2015, the Company owned five solar facilities that were classified as held for investment. These facilities generate energy that is sold under long-term power purchase agreements to the owner or lessee of the properties on which the projects are built. The useful life of these solar facilities is generally 20 years.

Note 6—DEBT

As previously discussed in Note 1, “Description of the Business and Basis of Presentation,” the Company made reclassifications to other assets and debt on its previously issued 2014 consolidated balance sheet as a result of early adoption of ASU No. 2015-03. We have reclassified \$2.9 million of debt issuance costs at December 31, 2014, from “Other Assets” to “Debt”.

The table below summarizes outstanding debt balances and the associated weighted-average interest rate based on amounts due within one year or after one year at June 30, 2015 and December 31, 2014:

Asset related debt is debt which finances interest-bearing assets and the interest expense from this debt is included in “Net interest income” on the consolidated statements of operations. Other debt is debt which does not finance interest-bearing assets and the interest expense from this debt is included in “Interest expense” under “Operating and other expenses” on the consolidated statements of operations.

(1) Included in notes payable and other debt – bond related are unamortized debt issuance costs of \$0.2 million and less than \$0.1 million at June 30, 2015 and December 31, 2014, respectively.

(2) The subordinate debt balances include a net adjustment of \$9.4 million and \$7.2 million at June 30, 2015 and December 31, 2014, respectively. These adjustments are comprised of net premiums due to effective interest adjustments of \$12.2 million and \$10.1 million at June 30, 2015 and December 31, 2014, respectively, offset by debt issuance costs of \$2.8 million at June 30, 2015 and December 31, 2014.

During the second quarter of 2015, the Company paid \$1.1 million of debt that was due and payable and operating under a forbearance agreement. At June 30, 2015, the Company was not in default under any of its debt arrangements.

Asset Related Debt***Notes Payable and Other Debt – Bond Related***

At June 30, 2015, this debt was comprised of TRS financing agreements on bonds available-for-sale.

During the second quarter of 2015, the Company entered into a TRS financing agreement with a notional amount of \$8.1 million using an existing bond as the reference asset. Under the terms of the TRS agreement, the counterparty is required to pay the Company an amount equal to the interest payments received on the underlying bonds (UPB of \$7.4 million with a pay rate of 6.60% at June 30, 2015) and the Company is required to pay the counterparty a rate of Securities Industry and Financial Markets Association (“**SIFMA**”) 7-day municipal swap index plus a 100 basis points (“**bps**”) spread. At June 30, 2015, the pay rate was 107 bps.

Edgar Filing: MMA CAPITAL MANAGEMENT, LLC - Form 10-Q

At June 30, 2015, the aggregate UPB and the weighted average pay rate of the bonds underlying the TRS financing agreements were \$94.6 million and 5.8%, respectively and the notional amount of the associated TRS financing agreements was \$96.2 million with a weighted average pay rate of 140 bps.

Interest expense on notes payable and other debt – bond related totaled \$0.7 million and \$1.8 million for the six months ended June 30, 2015 and 2014, respectively.

Other Debt

Subordinate Debt

The table below provides a summary of the key terms of the subordinate debt issued by MMA Financial Inc. (“**MF**I”) and MMA Financial Holdings, Inc. (“**MF**H”) and held by third parties at June 30, 2015:

(dollars in thousands)

	\$ 124,671	\$ 9,431	\$ 134,102			

On May 12, 2015, the Company made interim principal payments in the aggregate principal amount of \$15.4 million which reduced the UPB of MFH tranches to \$96.4 million. On May 21, 2015, the Company entered into a series of agreements with certain third party lenders related to the \$96.4 million MFH subordinated debt. These agreements included a reduction to the annual interest rate of 3-month London Interbank Offer Rate (“**LIBOR**”) plus 330 bps to 3-month LIBOR plus 200 bps. In addition, the subordinated debt principal payments changed from a single balloon payment due in 2035 to quarterly principal amortization equal to one-half percent (50 bps) of the then outstanding principal balance and a balloon payment of the remaining outstanding principal balance in 2035.

Interest expense on the subordinate debt totaled \$4.1 million and \$5.1 million for the six months ended June 30, 2015 and 2014, respectively.

Notes Payable and Other Debt

This debt is mainly comprised of TRS financing arrangements on the Company’s preferred stock investments. This debt is non-amortizing and bears an interest rate of 3-month LIBOR plus 400 bps (4.3% at June 30, 2015), which resets quarterly.

Letters of Credit

The Company had no letters of credit outstanding at June 30, 2015.

Note 7—DERIVATIVE FINANCIAL INSTRUMENTS

Changes in the fair value of derivatives are recorded through current period earnings in “Net gains on assets and derivatives” on the consolidated statements of operations. Derivative assets are reported through “Other assets” and derivative liabilities are reported through “Other liabilities.”

The cash paid and received on TRSs that were reported as derivative instruments is settled on a net basis and recorded through "Net gains on assets and derivatives." Net cash received was \$1.0 million and \$0.6 million for the three months ended June 30, 2015 and 2014, respectively. Net cash received was \$2.0 million and \$0.6 million for the six months ended June 30, 2015 and 2014, respectively.

The cash paid and received on the interest rate swap is settled on a net basis and recorded through "Net gains on assets and derivatives." Net cash paid was \$0.1 million for the three months ended June 30, 2015 and 2014. Net cash paid was \$0.2 million for the six months ended June 30, 2015 and 2014.

TRSs

During the second quarter of 2015, the Company entered into a TRS agreement with a notional amount of \$14.6 million. The underlying bond was \$14.6 million (UPB) with a pay rate of 7.76%. The Company is required to pay the counterparty a rate of SIFMA 7-day municipal swap index plus a spread of 425 bps on the TRS.

As of June 30, 2015, the Company had 11 bond related TRS agreements accounted for as derivatives. Under the terms of the TRS agreements, the counterparty is required to pay the Company an amount equal to the interest payments received on the underlying bonds (UPB of \$99.5 million with a weighted average pay rate of 6.2% at June 30, 2015). The Company is required to pay the counterparty a rate of SIFMA 7-day municipal swap index plus a spread on the TRS (notional amount of \$100.8 million with a weighted average pay rate of 1.9% at June 30, 2015).

Interest rate cap

At June 30, 2015 and December 31, 2014, the Company had one interest rate cap contract that terminates on January 2, 2019. The notional amount on the interest rate cap was \$45.0 million at June 30, 2015 and December 31, 2014 and provides us with interest rate protection on \$45.0 million of our floating rate debt in the event SIFMA 7-day municipal swap index rises to 250 bps or higher.

Interest rate swap

At June 30, 2015 and December 31, 2014, the Company had one interest rate swap contract. Under the terms of the agreement, the counterparty is required to pay the Company SIFMA 7-day municipal swap index plus 250 bps (pay rate of 257 bps at June 30, 2015) and the Company is required to pay the counterparty a fixed interest rate of 6.5%.

Note 8—Financial Instruments

The following table provides information about financial assets and liabilities not carried at fair value at June 30, 2015 and December 31, 2014. This table excludes non-financial assets and liabilities.

The fair value estimates are made at a discrete point in time based on relevant market information and information about the financial instruments. A description of how the Company estimates fair values is provided below. These estimates are subjective in nature, involve uncertainties and significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

As required by generally accepted accounting principles (“GAAP”), assets and liabilities are classified into levels based on the lowest level of input that is significant to the fair value measurement. The determination of which level an asset or liability gets classified into is based on the following fair value hierarchy:

Level 1: Quoted prices in active markets for identical instruments.

Level 2: Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which significant inputs or significant value drivers are observable in active markets.

Level 3: Valuations derived from valuation techniques in which significant inputs or significant value drivers are unobservable.

Investment in preferred stock—The Company estimates fair value by using the terms and conditions of the preferred stock as compared to other, best available market benchmarks.

Loans receivable—The Company estimates fair value by discounting the expected cash flows using current market yields for similar loans. Loans receivable are recorded through “Other assets.”

Notes payable and other debt—The Company estimates fair value by discounting contractual cash flows using a market rate of interest or by estimating the fair value of the collateral supporting the debt arrangement, taking into account credit risk.

Subordinate debt—At June 30, 2015, the Company estimates the fair value of the subordinate debt by discounting contractual cash flows using an estimated market rate of interest of 20%. As outlined in the table above, at June 30, 2015 the aggregate fair value was estimated at \$49.1 million. At June 30, 2015, the estimated fair value of this debt would be \$63.1 million and \$40.2 million using a discount rate of 15% and 25%, respectively. The estimated fair value of this debt is inherently judgmental and based on management’s assumption of market yields. There can be no assurance that the Company could repurchase the remaining subordinated debt at the estimated fair values reflected in the table above or that the debt would trade at that price.

⁽¹⁾Amounts are reflected through “Net gains on assets and derivatives” on the consolidated statements of operations.

The following methods or assumptions were used to estimate the fair value of these recurring financial instruments:

Bonds Available-for-sale – If a bond is performing and payment of full principal and interest is not deemed at risk, then the Company estimates fair value using a discounted cash flow methodology; specifically, the Company discounts contractual principal and interest payments, adjusted for expected prepayments. The discount rate is based on expected investor yield requirements adjusted for bond attributes such as the expected term of the bond, debt service coverage ratio, geographic location and bond size. The weighted average discount rate for the performing bond portfolio was 5.9% and 6.2% at June 30, 2015 and December 31, 2014, respectively, for performing bonds still held in the portfolio at June 30, 2015. If observable market quotes are available, the Company will estimate the fair value based on such quoted prices.

For non-performing bonds and certain performing bonds where payment of full principal and interest is deemed at risk, the Company estimates fair value by discounting the property’s expected cash flows and residual proceeds using estimated market discount and capitalization rates, less estimated selling costs. The weighted average discount rate was 7.9% and 7.8% at June 30, 2015 and December 31, 2014, for the bonds remaining in our portfolio at June 30, 2015. The weighted average capitalization rate was 6.5% and 6.7% at June 30, 2015 and December 31, 2014, respectively, for the bonds remaining in our portfolio at June 30, 2015. However, to the extent available, the Company may estimate fair value based on a sale agreement, a letter of intent to purchase, an appraisal or other third-party indications of fair value.

The discount rates and capitalization rates discussed above are significant inputs to bond valuations and are unobservable in the market. To the extent discount rates and capitalization rates were to increase (decrease) in isolation the corresponding estimated bond values would decrease (increase).

The lack of liquidity in the bond markets in which the Company transacts, coupled with the significant judgments that are inherent in our valuation methodologies, results in a risk that if the Company needed to sell bonds, the price it is able to realize may be lower than the carrying value (*i.e.*, the fair value) of such bonds.

Loans Receivable – The Company estimates fair value using a discounted cash flow methodology whereby contractual principal and interest payments are discounted at expected investor yield requirements for similar assets.

Derivative Financial Instruments – The Company estimates fair value, taking into consideration credit risk, based on internal models and based on third party models using either a Level 2 or a Level 3 approach depending on the nature of the derivative contract.

Non-recurring Valuations

At June 30, 2015 and December 31, 2014, the Company had no assets that were measured at fair value on a non-recurring basis.

Note 10—GUARANTEES AND COLLATERAL

Guarantees

Guarantee obligations are recorded through “Other liabilities.”

The following table summarizes guarantees at June 30, 2015 and December 31, 2014:

	June 30, 2015		December 31, 2014	
(in thousands)	Maximum Exposure	Carrying Amount	Maximum Exposure	Carrying Amount
Indemnification contracts	\$ 13,209	\$ 698	\$ 13,209	\$ 864

Through the indemnification contracts outlined in the table above, the Company guarantees the investor yields on certain third party LIHTC Funds and property performance on certain third party LTPPs. The Company made no cash payments related to these indemnification agreements for the six months ended June 30, 2015 and 2014. The carrying amount represents the amount of unamortized fees received related to these guarantees with no additional amounts recognized as management does not believe it is probable that the Company will have to make payments under these indemnifications. These guarantees will expire by the end of 2017.

The Company's maximum exposure under its indemnification contracts represents the maximum loss the Company could incur under its guarantee agreements and is not indicative of the likelihood of the expected loss under the guarantee. The Company also has guarantees associated with certain consolidated LIHTC Funds. See Note 15, "Consolidated Funds and Ventures" for information on these guarantees.

Collateral and restricted assets

The following table summarizes assets that are either pledged or restricted for the Company's use at June 30, 2015 and December 31, 2014. This table also reflects certain assets held by CFVs in order to reconcile to the Company's consolidated balance sheets.

(1) The Company pledges collateral in connection with various guarantees that it has provided.

(2) *These are assets held by consolidated LIHTC Funds.*

Note 11—Commitments and Contingencies

Operating Leases

As of June 30, 2015, the Company had two non-cancelable operating leases, expiring in 2016 and 2020, respectively. These leases require the Company to pay property taxes, maintenance and other costs. The Company recognized rental expense of \$0.1 million and \$0.2 million for the three months and six months ended June 30, 2015 and 2014, respectively.

The following table summarizes the future minimum rental commitments on the two non-cancelable operating leases at June 30, 2015:

(in thousands)	
2015	\$ 242
2016	159
2017	139
2018	151
2019	164
Thereafter	56
Total minimum future rental commitments	\$911

Litigation

From time to time, the Company and its subsidiaries are named as defendants in various litigation matters arising in the ordinary course of business. These proceedings may include claims for substantial or indeterminate compensatory or punitive damages, or for injunctive or declaratory relief.

The Company establishes reserves for litigation matters when a loss is probable and can be reasonably estimated. Once established, reserves may be adjusted when new information is obtained.

It is the opinion of the Company's management that adequate provisions have been made for losses with respect to litigation matters and other claims that existed at June 30, 2015. Management believes the ultimate resolution of these matters is not likely to have a material effect on its financial position, results of operations or cash flows. Assessment of the potential outcomes of these matters involves significant judgment and is subject to change, based on future developments, which could result in significant changes.

Shareholder Matters

The Company is a defendant in a purported class action lawsuit originally filed in 2008. The plaintiffs claim to represent a class of investors in the Company's shares who allegedly were injured by misstatements in press releases and SEC filings between May 3, 2004 and January 28, 2008. The plaintiffs sought unspecified damages for themselves and the shareholders of the class they purported to represent. The class action lawsuit was brought in the United States District Court for the District of Maryland. The Company filed a motion to dismiss the class action, and in June 2012, the Court issued a ruling dismissing all of the counts alleging any knowing or intentional wrongdoing by the Company or its affiliates, directors and officers. The plaintiffs appealed the Court's ruling and on March 7, 2014, the United States Court of Appeals for the Fourth Circuit unanimously affirmed the lower Court's ruling. As a result of these rulings, the only counts remaining in the class action relate to the Company's dividend reinvestment plan.

The parties have engaged in settlement discussions leading to a settlement agreement. On April 20, 2015, the parties submitted the agreement and related documents to the United States District Court for the District of Maryland for approval. The agreement provides for a maximum of \$826,820 to cover payments to the class as well as the attorneys for the plaintiffs' counsel. The settlement is a claims-made settlement, in which payments will be made only to those plaintiffs who submit a claim and whose claim is approved, thus the final settlement amount to the class could be less than the amount stated above. Similarly, the court must approve the plaintiffs' counsel's attorneys' fees, thus the final amount could be less than stated. A hearing to approve the settlement is set for September 24, 2015.

The Company does not expect to directly incur any settlement costs, as all costs, including both class payments and plaintiffs' attorneys' fees, will be paid directly by its insurance company. As a result, the Company released the litigation reserve of \$0.5 million during the first quarter of 2015.

Common Share Information

The following table provides a summary of net income to common shareholders as well as information pertaining to weighted average shares used in the per share calculations as presented on the consolidated statements of operations for the three months and six months ended June 30, 2015 and 2014.

(in thousands)	For the three months ended June 30,		For the six months ended June 30,

⁽¹⁾ Includes common shares issued and outstanding, as well as non-employee directors' and employee deferred shares that have vested, but are not issued and outstanding.

⁽²⁾ At June 30, 2015, 410,000 stock options were in the money and had a potential dilutive share impact of 321,255 and 317,188 for the three months and six months ended June 30, 2015, respectively. In addition, 19,885 unvested employee deferred shares had a potential dilutive share impact of 9,895 and 15,276 for the three months and six months ended June 30, 2015, respectively. For the three months and six months ended June 30, 2015, the adjustment to net income for the awards classified as liabilities caused the common stock equivalents to be anti-dilutive.

At June 30, 2014, 410,000 stock options were in the money and had a potential dilutive share impact of 296,449 and 286,039 for the three months and six months ended June 30, 2014, respectively. In addition, 41,667 unvested (3) employee deferred shares had a potential dilutive share impact of 20,833 for the three months and six months ended June 30, 2014. For the three months and six months ended June 30, 2014, the Company had a net loss from continuing operations and thus, any incremental shares would be anti-dilutive.

For the three months and six months ended June 30, 2015, the number of options excluded from the calculations of diluted earnings per share was 42,221 either because of their anti-dilutive effect (i.e. options that were not in the money) or because the option had contingency vesting requirements. For the three months and six months ended (4) June 30, 2014, respectively, the number of options excluded from the calculations of diluted earnings per share was 60,211 either because of their anti-dilutive effect (i.e. options that were not in the money) or because the option had contingent vesting requirements.

Common Shares

Effective September 29, 2014, the Company executed a one-for-five reverse stock split. All share and per share information has been adjusted to reflect the reverse stock split.

As of June 30, 2015, the Board had authorized total stock repurchases of up to 2.05 million shares. Between July 1, 2015 and August 6, 2015, the Company repurchased 29,000 shares at an average price of \$12.46. As of August 6, 2015, the Company had repurchased 1.8 million shares at an average price of \$8.74 since the plan's inception. At its August 6, 2015 meeting, the Board amended the maximum price at which management is authorized to purchase shares based on an assessment of the economic benefit of such purchases to the Company. Effective after the filing of this Report and until modified by further action of the Board, that price is \$13.92 per share.

Effective May 5, 2015, the Company adopted a Tax Benefits Rights Agreement ("**Rights Plan**"). In connection with adopting the Rights Plan, the Company declared a distribution of one right per common share to shareholders of record as of May 15, 2015. The rights will not trade apart from the current common shares until the distribution date, as defined in the Rights Plan. Under the Rights Plan, should a new investor acquire greater than a 4.9% stake in the Company, all existing shareholders other than the new 4.9% holder will be provided the opportunity to acquire new shares for a nominal cost, thereby significantly diluting the ownership interest of the acquiring person. The Rights Plan will run for a period of five years, or until the Board determines the plan is no longer required, whichever comes first.

Noncontrolling Interests

The following table summarizes the noncontrolling interests at June 30, 2015 and December 31, 2014:

(in thousands)	June 30, 2015	December 31, 2014
CFVs (LIHTC Funds)	\$202,214	\$ 230,111
IHS	—	(397)
IHS PM	—	—
Total	\$202,214	\$ 229,714

LIHTC Funds

At June 30, 2015 and December 31, 2014, the noncontrolling interest holders were comprised of the limited partners as well as the GP in 11 guaranteed LIHTC Funds. The decline in the noncontrolling interest balance was primarily a result of a \$23.8 million reduction in the LIHTC Funds' investment balance due to net operating losses and impairment charges that were recognized during the six months ended June 30, 2015.

IHS

At December 31, 2014, 3.7% of IHS was held by a third party. During the second quarter of 2015, the Company purchased the remaining interest held by a third party and now has 100% ownership interest in IHS at June 30, 2015.

IHS PM

During the second quarter of 2015, IHS formed a company in South Africa, IHS PM, to provide property management services to the properties of the IHS-managed funds and ventures. IHS owns 60% of IHS PM and the third party property manager owns 40%. At June 30, 2015, the assets, liabilities and the equity attributable to the noncontrolling interest holder of IHS PM were inconsequential.

Note 13—STOCK-BASED COMPENSATION

The Company has stock-based compensation plans (“**Plans**”) for Non-employee Directors (“**Non-employee Directors’ Stock-Based Compensation Plans**”) and stock-based incentive compensation plans for employees (“**Employees’ Stock-Based Compensation Plans**”). All share and per share information has been adjusted to reflect the one-for-five reverse stock split to shareholders on September 29, 2014.

Total compensation expense recorded for these Plans was as follows for the three months and six months ended June 30, 2015 and 2014:

(in thousands)	For the three months ended June 30,		For the six months ended June 30,	
	2015	2014	2015	2014
Employees’ Stock-Based Compensation Plans	\$ 1,001	\$ 711	\$ 1,300	\$ 1,652
Non-employee Directors’ Stock-Based Compensation Plans	74	62	148	138
Total	\$ 1,075	\$ 773	\$ 1,448	\$ 1,790

Employees’ Stock-Based Compensation Plans

As of June 30, 2015, there were 375,134 share awards available to be issued under Employees’ Stock-Based Compensation Plans. While each existing Employees’ Stock-Based Compensation Plan has been approved by the Company’s Board of Directors, not all of the Plans have been approved by the Company’s shareholders. The Plans that have not been approved by the Company’s shareholders are currently restricted to the issuance of only stock options. As a result, of the 375,134 shares available under the plans, only 10,994 are available to be issued in the form of either stock options or shares; all remaining share awards must be issued in the form of stock options.

Employee Common Stock Options

The Company measures the fair value of unvested options with time-based vesting and all vested options (both time-based and performance based), using a lattice model for purposes of recognizing compensation expense. The Company believes the lattice model provides a better estimate of the fair value of these options as, according to Financial Accounting Standards Board’s (“**FASB**”) Accounting Standards Codification Topic 718, “the design of a lattice model more fully reflects the substantive characteristics of a particular employee share option.” Because options granted with stock price targets contain a “market condition” under FASB’s Accounting Standards Codification Topic

718, a Monte Carlo simulation is used to simulate future stock price movements for the Company. The Company believes a Monte Carlo simulation provides a better estimate of the fair value for unvested options granted with specific stock price targets as the model's flexibility allows for the fair value to account for the vesting provisions as well as the different probabilities of stock price outcomes.

The following table summarizes option activity under the Employees' Stock-Based Compensation Plans:

(in thousands, except per option data)	Number of Options	Weighted-average Exercise Price per Option	Weighted-average Remaining Contractual Life per Option (in years)	Aggregate Intrinsic Value ⁽¹⁾	Period End Liability ⁽²⁾

Outstanding at June 30, 2015	416	3.52	5.9	4,434	4,481
Number of options that were exercisable at:					
December 31, 2014	325	4.00	6.1		
June 30, 2015	380	3.68	5.8		

⁽¹⁾ *Intrinsic value is based on outstanding options.*

⁽²⁾ *Only options that were amortized based on a vesting schedule have a liability balance. These options were 416,211; 412,100; and 378,173; at June 30, 2015, December 31, 2014 and January 1, 2014, respectively.*

The value of employee options increased by \$0.9 million and \$1.2 million during the three months and six months ended June 30, 2015 due to the increase in market value of our stock price. This increase was recognized as additional compensation expense.

Employee Deferred Shares

The following table summarizes the deferred shares granted to employees. The grants outstanding at June 30, 2015 have both time and price vesting requirements, with a portion of the shares vesting over the next 12 months and the remainder of the shares vesting if, over a 30-day period, the average share price is at least \$12.50.

(in thousands, except per share data)	Deferred Share Grants	Weighted-average Grant Date Share Price	Period End Liability
Balance, January 1, 2015	42	\$ 4.40	\$ 336
Granted in 2015	—		
Issued in 2015	21	4.40	
Forfeited in 2015	1	4.40	
Balance, June 30, 2015	20	4.40	216

The Company recognized \$0.1 million of additional compensation expense related to employee deferred shares during the six months ended June 30, 2015, mainly driven by the increase in MMA's share price and amortization of existing grants.

Non-employee Directors' Stock-Based Compensation Plans

The Non-employee Directors' Stock-based Compensation Plans authorize a total of 1,130,000 shares for issuance, of which 431,114 were available to be issued at June 30, 2015. The Non-employee Directors' Stock-based Compensation Plans provide for grants of non-qualified common stock options, common shares, restricted shares and deferred shares.

On March 12, 2015, the Board adopted an amendment to the Non-employee Director's Stock-based Compensation Plans providing directors to be paid \$60,000 per year, an increase from \$50,000 per year for their services; 50% of their compensation is paid in cash and 50% is paid in share based grants. In addition, the Chairman now receives an

additional \$20,000 per year, the Audit Committee Chair receives an additional \$15,000 per year and the other committee chairs receive an additional \$10,000 per year.

The table below summarizes director compensation, including cash, vested options and common and deferred shares, for services rendered for the six months ended June 30, 2015 and 2014. The directors are fully vested in the deferred shares at the grant date.

	Cash	Common Shares Granted	Deferred Shares Granted	Weighted- average Grant Date Share Price	Options Vested	Directors' Fees Expense

Note 15—CONSOLIDATED FUNDS AND VENTURES

As previously discussed in our 2014 Form 10-K, the Company no longer consolidates SAWHF or the non-profit entity and its LTTPs as of December 31, 2014. As of December 31, 2014, CFVs was comprised of only LIHTC Funds.

LIHTC Funds

The Company guarantees the investor yield for 11 LIHTC Funds. At June 30, 2015 and December 31, 2014, the Company's maximum exposure under these guarantees was estimated to be approximately \$558.9 million; however, the Company does not anticipate any losses under these guarantees.

The LIHTC Funds' primary assets are their investments in LTPPs, which are the owners of the affordable housing properties (see Investments in LTPPs in the Asset Summary below). The LIHTC Funds account for these investments using the equity method of accounting.

Asset Summary:

The following table summarizes the assets of the consolidated LIHTC Funds at June 30, 2015 and December 31, 2014.

(in thousands)	June 30, 2015	December 31, 2014
Cash, cash equivalents and restricted cash	\$22,043	\$ 24,186
Investments in LTPPs	201,301	231,204
Other assets	10,081	11,128
Total assets of consolidated LIHTC Funds	\$233,425	\$ 266,518

All of the assets of the consolidated LIHTC Funds are restricted for use by the specific owner entity and are not available for the Company's general use.

Investments in LTPPs

The LIHTC Funds' limited partner investments in LTPPs are accounted for under the equity method because the third party GPs in the LTPPs are deemed to be the primary beneficiary. The following table provides the assets and liabilities of the LTPPs at June 30, 2015 and December 31, 2014:

(in thousands)	June 30, 2015	December 31, 2014
Total assets of the LTPPs ⁽¹⁾	\$1,243,323	\$ 1,273,903
Total liabilities of the LTPPs ⁽¹⁾	1,025,467	1,035,695

⁽¹⁾ *The assets of the LTPPs are primarily real estate and the liabilities are predominantly mortgage debt.*

The Company's maximum exposure to loss from the LIHTC Funds and the underlying LTPPs relate to the guarantee exposure associated with the LIHTC Funds discussed above and the Company's bonds that represent the primary mortgage debt obligation owed by certain LTPPs of the LIHTC Funds. The fair value of the Company's reported bonds secured by properties owned by the LTPPs at June 30, 2015 and December 31, 2014, was \$121.9 million and \$118.9 million, respectively.

Liability Summary:

The following table summarizes the liabilities of the consolidated LIHTC Funds at June 30, 2015 and December 31, 2014.

Excludes \$21,004 and \$77,326 of net loss allocable to the minority interest holder in IHS for the three months and six months ended June 30, 2014. These amounts are excluded from this presentation because IHS related activity is not included within CFV income statement activity above. There were no losses allocable to the minority interest holder in IHS for the three months and six months ended June 30, 2015.

Represents equity in losses from the Lower Tier Property Partnerships that the Company recognized as an allocation (see Note 15, "Consolidated Funds and Ventures"). The Company is allocated equity in losses in (2)situations where the LIHTC Funds' equity investment in the LTPP has reached zero, but the Company has a bond investment represented by mortgage debt owned by the LTPP. For purposes of the table above, the Company recognized \$1.7 million of losses in U.S. Operations and reduced the CFVs losses by the same amount.

⁽¹⁾Represents bond interest income that the Company recognized through an allocation of income (see Note 15, “Consolidated Funds and Ventures”) and for purposes of the table above, the \$0.6 million was reflected in total

interest income for U.S. Operations.

This amount includes \$0.6 million of asset management fees recognized by IHS through an income allocation (see Note 15, "Consolidated Funds and Ventures") and for purposes of the table above, the \$0.6 million was reflected in total fee and other income for International Operations. This amount also includes \$0.2 million of asset management fees and \$0.3 million of guarantee fees both related to the Company's LIHTC Funds and both recognized during the second quarter of 2014 through an allocation of income (see Note 15, "Consolidated Funds and Ventures") and for purposes of the table above, both were included in total fee and other income for U.S. Operations.

Represents net expenses recognized by the Company through an allocation of income (see Note 15, "Consolidated Funds and Ventures") and for purposes of the table above, these expenses were reflected as additional other expenses for U.S. Operations.

Represents the Company's share of its equity interest in the SAWHF (i.e., 2.7% of the SAWHF's second quarter of 2014 net income) which was recognized through an allocation of income (see Note 15, "Consolidated Funds and Ventures") and for purposes of the table above, the \$0.01 million was reflected as equity in income of unconsolidated ventures for International Operations.

Represents net expenses of CFVs that were eliminated in consolidation because they were payments or income allocations to MMA.

Represents equity in losses from the Lower Tier Property Partnerships that the Company recognized as an allocation (see Note 15, "Consolidated Funds and Ventures"). The Company is allocated equity in losses in situations where the LIHTC Funds' equity investment in the LTPP has reached zero, but the Company has a bond investment represented by mortgage debt owned by the LTPP. For purposes of the table above, the Company recognized \$1.0 million of losses in U.S. Operations and reduced the CFVs losses by the same amount.

Represents bond interest income that the Company recognized through an allocation of income (see Note 15, (1) “Consolidated Funds and Ventures”) and for purposes of the table above, the \$0.9 million was reflected in total interest income for U.S. Operations.

This amount includes \$1.3 million of asset management fees recognized by IHS through an income allocation (see Note 15, “Consolidated Funds and Ventures”) and for purposes of the table above, the \$1.3 million was reflected in total fee and other income for International Operations. This amount also includes \$0.4 million of asset (2) management fees and \$0.6 million of guarantee fees both related to the Company’s LIHTC Funds and both recognized during the first six months of 2014 through an allocation of income (see Note 15, “Consolidated Funds and Ventures”) and for purposes of the table above, both were included in total fee and other income for U.S. Operations.

Represents net expenses recognized by the Company through an allocation of income (see Note 15, “Consolidated (3) Funds and Ventures”) and for purposes of the table above, these expenses were reflected as additional other expenses for U.S. Operations.

Represents the Company's share of its equity interest in the SAWHF (i.e., 2.7% of the SAWHF's first quarter of 2014 net income) which was recognized through an allocation of income (see Note 15, "Consolidated Funds and (4) Ventures") and for purposes of the table above, the \$0.1 million was reflected as equity in income of unconsolidated ventures for International Operations.

(5) Represents net expenses of CFVs that were eliminated in consolidation because they were payments or income allocations to MMA.

Represents equity in losses from the Lower Tier Property Partnerships that the Company recognized as an allocation (see Note 15, "Consolidated Funds and Ventures"). The Company is allocated equity in losses in (6) situations where the LIHTC Funds' equity investment in the LTPP has reached zero, but the Company has a bond investment represented by mortgage debt owned by the LTPP. For purposes of the table above, the Company recognized \$1.9 million of losses in U.S. Operations and reduced the CFVs losses by the same amount.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

General Overview

The Company uses its experience and expertise to partner with institutional capital to create attractive and impactful alternative investment opportunities, to manage them well and to report on them effectively. Beginning in 2015, the Company operated through three reportable segments – United States (“U.S.”) Operations, International Operations and Corporate Operations.

U.S. Operations

Our U.S. Operations consists of three business lines: Leveraged Bonds, Low-Income Housing Tax Credits (“LIHTC”) and Other Investments and Obligations.

The Leveraged Bonds business line finances affordable housing and infrastructure in the U.S. This business line manages the vast majority of the Company’s bonds and associated financings. The bond portfolio is comprised primarily of multifamily tax-exempt bonds, but also includes other real estate related bond investments.

Our LIHTC business consists primarily of a secured loan receivable from Morrison Grove Management, LLC (“MGM”) and an option to purchase MGM in 2019.

The Other Investments and Obligations business line includes legacy assets targeted for eventual disposition and serves as our research and development unit for new business opportunities in the U.S., which has resulted in the creation of a renewable energy capital business that operates as MMA Energy Capital, LLC (“MEC”).

International Operations

We manage our International Operations through a wholly owned subsidiary, International Housing Solutions S.à r.l. (“IHS”). IHS’s strategy is to raise, invest in and manage private real estate funds. IHS currently manages three funds:

the South Africa Workforce Housing Fund (“**SAWHF**”), which is a multi-investor fund and is fully invested; IHS Residential Partners I, which is a single-investor fund targeted at the emerging middle class in South Africa; and IHS Fund II, which is a multi-investor fund targeting investments in affordable housing, including green housing projects, within South Africa and Sub-Saharan Africa. During the second quarter of 2015, IHS and a South African property management company formed a company in South Africa, IHS Property Management Propriety Limited (“**IHS PM**”), to provide property management services to the properties of the IHS managed funds and ventures. IHS owns 60% of IHS PM and the third party property manager owns the remaining 40%.

Corporate Operations

Our Corporate Operations segment is responsible for accounting, reporting, compliance and planning, which are fundamental to our success as a global fund manager and publicly traded company in the U.S.

Financial Results

As outlined on the balance sheet summary (Table 1) below, common shareholders’ equity increased \$2.8 million for the quarter to \$95.3 million at June 30, 2015 from \$92.5 million at March 31, 2015. The Company reported a 9.1% increase in diluted common shareholders’ equity per share representing an increase of \$1.16 to \$13.92 at June 30, 2015 from \$12.76 at March 31, 2015. The majority of the Company’s reported growth per share, or \$0.98 per share, was primarily due to net income generated during the second quarter, driven mainly by real estate sales, while \$0.18 per share was due to common share repurchases completed during the second quarter at prices below book value per share.

Balance Sheet Summary – Table 1

The table below summarizes the change in our balance sheet at June 30, 2015 from March 31, 2015. The balance sheet below presents the assets, liabilities and equity attributable to the noncontrolling interest holder of Consolidated Funds and Ventures (“CFVs”) as separate line items. At each period presented, CFVs were comprised of guaranteed LIHTC Funds. See “Notes to Consolidated Financial Statements – Note 15, Consolidated Funds and Ventures” for more information.

During the three months and six months ended June 30, 2015, we recorded net unrealized gains of \$1.3 million and \$3.1 million, respectively, on our bond portfolio (line 1 above). The majority of the unrealized gains recorded during the first six months of 2015 were due to the workout of certain non-performing bonds, improvements in the underlying credit and improvements in property operations that increased future expected cash flows in certain non-performing and collateral dependent performing bonds.

The bonds that were financed through total return swaps (“**TRS**”) and accounted for as derivatives had net unrealized gains of \$0.2 million for the six months ended June 30, 2015. These unrealized gains were driven by a decline in market yields and were reported as unrealized gains on derivatives in Table 3, line 5.

Other Changes in Common Shareholders' Equity – Table 5

The table below summarizes other changes in common shareholders' equity for the three months and six months ended June 30, 2015 and 2014:

Three Months Ended June 30, 2015 Compared to Three Months Ended June 30, 2014

Interest income on bonds increased by \$0.6 million primarily due to \$0.5 million of interest income accrued for a bond that was previously on non-accrual but became current in the fourth quarter of 2014. We also recognized \$0.1 million of additional interest on our non-accrual bonds.

Edgar Filing: MMA CAPITAL MANAGEMENT, LLC - Form 10-Q

Interest on loans and short-term investments increased by \$0.6 million primarily due to \$0.5 million of interest recognized on the Bridge Loan we made to MGM during the fourth quarter of 2014. This loan was paid off during the second quarter of 2015.

Asset related interest expense decreased by \$0.4 million primarily due to \$30.3 million of bond financings, with a 7.8% weighted average effective interest rate, that were terminated during the second quarter of 2014.

Six Months Ended June 30, 2015 Compared to Six Months Ended June 30, 2014

Interest income on bonds decreased by \$1.2 million primarily as a result of a 2014 bond restructuring where we collected \$1.2 million of delinquent interest which was not repeated during the six months ended June 30, 2015.

Interest on loans and short-term investments increased by \$1.2 million primarily due to \$1.0 million of interest recognized on the Bridge Loan we made to MGM during the fourth quarter of 2014. This loan was paid off during the second quarter of 2015.

Asset related interest expense decreased by \$1.2 million primarily due to \$30.3 million of bond financings, with a 7.8% weighted average effective interest rate, that were terminated during the second quarter of 2014.

Fee and Other Income – Table 7

The following table summarizes our fee and other income for the three months and six months ended June 30, 2015 and 2014:

(in thousands)	For the three months ended			For the six months ended		
	June 30, 2015	June 30, 2014	Change	June 30, 2015	June 30, 2014	Change

4 Fee and other income	\$3,696	\$2,216	\$1,480	\$7,137	\$4,366	\$2,771

Three Months Ended June 30, 2015 Compared to Three Months Ended June 30, 2014

Fee and other income increased by \$1.5 million mainly due to a \$1.2 million increase in asset management fees and reimbursements from IHS funds and ventures. The majority of this increase was due to \$0.6 million of asset management fees recognized in the second quarter of 2015 associated with IHS Fund II which was a new fund starting in the third quarter of 2014. In addition, there was \$0.6 million of SAWHF asset management fees that were reported through Fee and other income during the second quarter of 2015; however, because SAWHF was previously consolidated, asset management fees of \$0.6 million for the second quarter of 2014 were reported as an allocation of income (see Table 11, line 8).

Six Months Ended June 30, 2015 Compared to Six Months Ended June 30, 2014

Fee and other income increased by \$2.8 million mainly due to a \$2.0 million increase in asset management fees and reimbursements from IHS funds and ventures. The majority of this increase was due to \$1.2 million of SAWHF asset management fees that were reported through Fee and other income during the first six months of 2015; however, because SAWHF was previously consolidated, asset management fees of \$1.2 million for the first six months of 2014 were reported as an allocation of income (see Table 11, line 10). In addition, we recognized \$1.0 million of IHS Fund II asset management fees in the first six months of 2015.

Other income on Table 7, line 3 above, increased mainly due to the \$0.5 million of litigation reserve that was released during the first six months of 2015. See “Notes to Consolidated Financial Statements – Note 11, Commitments and Contingencies” for more information.

Other interest expense – Table 8

The following table summarizes our other interest expense for the three months and six months ended June 30, 2015 and 2014:

Three Months and Six Months Ended June 30, 2015 Compared to Three Months and Six Months Ended June 30, 2014

Other interest expense represents interest expense associated with debt which does not finance interest-bearing assets. Declines in other interest expense for the three months and six months ended June 30, 2015 were mainly driven by the decline in the effective interest rate associated with MMA Financial Holdings, Inc. (“MFH”) subordinate debt which was restructured during the second quarter of 2015. Prior to the restructuring, the effective interest rate of this debt was 6.9% and subsequent to the restructuring the effective interest rate of this debt was 1.6%. Also contributing to the decline was the payoff of certain notes payable and other debt in the third and fourth quarters of 2014.

Operating Expenses – Table 9

The following table summarizes our operating expenses for the three months and six months ended June 30, 2015 and 2014:

Three Months Ended June 30, 2015 Compared to Three Months Ended June 30, 2014

Salaries and benefits increased by \$0.8 million mainly due to \$0.5 million of additional bonus accrual as well as \$0.3 million of additional stock option expense.

Other expenses primarily include asset management costs, asset workout expenses, depreciation and amortization, impairment on bonds and costs related to our ownership of real estate. Other expenses increased by \$0.9 million mainly due to \$1.0 million of fees related to the restructuring of the MFH subordinate debt, \$0.3 million of foreign currency losses recognized in the second quarter of 2015 and \$0.2 million of bond impairment. These expenses were

partially offset by a decline in asset management costs and real estate related expenses.

Six Months Ended June 30, 2015 Compared to Six Months Ended June 30, 2014

Salaries and benefits increased by \$0.8 million for the six months ended June 30, 2015 compared to the six months ended June 30, 2014 mainly due to additional bonus expense.

Net Gains on Assets, Derivatives and Extinguishment of Liabilities – Table 10

The following table summarizes our net gains (losses) on assets and derivatives for the three months and six months ended June 30, 2015 and 2014:

(in thousands)	For the three months ended June 30,			For the six months ended June 30,

Three Months Ended June 30, 2015 Compared to Three Months Ended June 30, 2014

Net gains on bonds were \$3.8 million for the second quarter of 2015. During the second quarter of 2015, we had a bond redemption that resulted in a gain on sale of \$3.8 million, of which \$3.4 million was due to unrealized gains previously recognized in AOCI that were transferred into net income at the time of sale. The Company recognized an overall increase of \$0.4 million to its common shareholders' equity associated with this bond redemption.

Net gains on sale of real estate were \$5.6 million for the second quarter of 2015 mainly due to the sale of an affordable multifamily property for \$14.6 million that resulted in a gain on sale of real estate of \$5.1 million, which was reported through continuing operations.

Six Months Ended June 30, 2015 Compared to Six Months Ended June 30, 2014

Net gains on bonds were \$4.4 million for the second quarter of 2015. In addition to the gain of \$3.8 million recognized during the second quarter of 2015 discussed above, we also sold a bond interest during the first quarter of 2015 for \$0.6 million that resulted in a gain on sale of \$0.6 million of which \$0.5 million was due to unrealized gains previously recognized in AOCI that were transferred into net income at the time of sale.

Net gains on sale of real estate of \$5.6 million for the first six months of 2015 were comprised of the second quarter 2015 sale activity discussed above.

Net Gains on Derivatives

Net gains on derivatives increased by \$0.6 million and \$1.9 million for the three months and six months ended June 30, 2015 as compared to 2014, respectively. The details of Net gains on derivatives (Table 10, line 3 above) for the three months and six months ended June 30, 2015 and 2014 are as follows:

(in thousands)	For the three months ended			For the six months ended		
	2015	2014	Change	2015	2014	Change
7 Interest income on bond related TRS	\$1,354	\$825	\$ 529	\$2,680	\$825	\$ 1,855
8 Interest expense on bond related TRS	(365)	(201)	(164)	(680)	(201)	(479)
9 Other (primarily represents change in derivative values)	(61)	(247)	186	(87)	(603)	516
10 Net gains on derivatives	\$928	\$377	\$ 551	\$1,913	\$21	\$ 1,892

Three Months and Six Months Ended June 30, 2015 Compared to Three Months and Six Months Ended June 30, 2014

Net gains on derivatives were higher during 2015 as compared to 2014 mainly due to the net interest income associated with \$95.5 million of bond-related TRSs (notional amount) that were entered into during the second quarter of 2014.

Net (Loss) Income Allocated to Common Shareholders Related to CFVs – Table 11

The table below summarizes the allocable net (loss) income related to funds and ventures that were consolidated for the three months and six months ended June 30, 2015 and 2014:

⁽¹⁾ Excludes \$21,004 and \$77,326 of net loss allocable to the minority interest holder in IHS for the three months and six months ended June 30, 2014. These amounts are excluded from this presentation because IHS related activity is not included within lines 1 through 5 above. There were no losses allocable to the minority interest holder in IHS for the three months and six months ended June 30, 2015.

The majority of the change period over period is due to the Company no longer consolidating SAWHF and the non-profit entity and its Consolidated LTTPs as of December 31, 2014.

The details of Net (loss) income from CFVs allocated to the common shareholders for the three months and six months ended June 30, 2015 and 2014 are as follows:

Guarantee fees associated with the guaranteed LIHTC Funds that we continue to consolidate represent revenue recognized from fees collected at fund formation. As of June 30, 2015, we had \$11.5 million of deferred guarantee fees.

Equity in losses from Lower Tier Property Partnerships are losses from certain LTPPs that are allocated to MMA's bond interest in the Lower Tier Property Partnerships. To the extent MMA has a bond interest in the Lower Tier Property Partnership and the consolidated LIHTC Funds' equity interest in the Lower Tier Property Partnership has no remaining book basis, MMA is required to pick up the limited partners' share of losses from the Lower Tier Property Partnership. Because we carry our bonds at fair value, these losses are equally offset by an increase to unrealized bond value recorded through AOCI having no impact on overall common shareholders' equity (see Table 4, line 2).

Asset management fees recognized during the three months ended and six months ended June 30, 2014 are primarily related to IHS's management of SAWHF (\$0.6 million and \$1.2 million, respectively). The fees earned from SAWHF for the three months ended and six months ended June 30, 2015 of \$0.6 million and \$1.2 million, respectively, are reported through asset management fees on Table 7, line 5, and are not recognized as an allocation of income because SAWHF is no longer consolidated as of December 31, 2014. The remaining asset management fees recognized during the three months and six months ended June 30, 2014 related to the management of certain LIHTC funds and those asset management rights were sold during the fourth quarter of 2014.

Liquidity and Capital Resources

Our principal sources of liquidity include cash and cash equivalents and cash flows from investing activities. At June 30, 2015 and December 31, 2014, we had unrestricted cash and cash equivalents of \$58.1 million and \$29.6 million, respectively and we believe we have sufficient liquidity to meet our obligations as they become due.

For the periods presented, we consolidated certain funds and ventures even though we had no or nominal equity interest in these entities, and we therefore reflected the cash flow activities for those funds and ventures as part of our consolidated statements of cash flow. As reflected on our consolidated balance sheets, the cash held by these CFVs was reported in "Restricted cash," rather than as cash and cash equivalents because the Company does not have legal title to this cash. Therefore, the net increase to cash and cash equivalents is representative of the change only to MMA's cash (*i.e.*, without the cash of CFVs); however, the individual operating, investing and financing categories include cash flow activity for MMA and the CFVs. The tables below provide the cash activity related to both MMA and the CFVs.

Operating activities

Cash flows used in operations for MMA were as follows for the six months ended June 30, 2015 and 2014:

(in thousands)	For the six months ended		
	June 30,		
	2015	2014	Change

Other	602	475	127
Net cash used in operating activities	\$ (5,836)	\$ (3,271)	\$ (2,565)

Cash flows used in operating activities were \$2.6 million higher during the six months ended June 30, 2015 as compared to the six months ended June 30, 2014.

During the second quarter of 2015, we funded \$4.2 million of loans held for sale through our new renewable energy capital business. As required by U.S. GAAP the amount of cash used to fund these loans was recognized as an operating activity because these loans were classified as held for sale for accounting purposes.

Through the first six months of 2015, we had a \$1.6 million increase in salaries and benefits largely as a result of higher bonus payments in 2015. In addition, we had a \$1.2 million decrease in other income primarily comprised of lower asset management fees as a result of selling our LIHTC business to Morrison Grove in the fourth quarter of 2014. Furthermore, we had a \$0.6 million reduction in IHS asset management fees received primarily due to reimbursements of IHS Residential Partners I fund start up costs received during the first six months of 2014. These impacts, which decreased operating cash flows, were partially offset by a decrease in interest paid of \$2.5 million as a result of significant debt pay downs during 2014. In addition, we spent approximately \$2.1 million less on general and administrative expenses and professional fees, primarily as a result of a discounted settlement of an obligation related to professional fees that was paid during the second quarter of 2014.

Investing activities

Cash flows provided by investing activities for MMA were as follows for the six months ended June 30, 2015 and 2014:

(in thousands)	For the six months ended June 30,		
	2015	2014	Change
Proceeds from the sale of real estate and other investments	\$ 29,662	\$ 37,964	\$(8,302)
Principal payments and sales proceeds received on bonds and loans	16,740	8,565	8,175

Investments in property partnerships and real estate	(470)	(1,364)	894
Increase in restricted cash	(2,340)	(4,680)	2,340
Purchase, advances on and originations of bonds and loans	—	(9,980)	9,980
Net cash provided by investing activities	\$ 43,714	\$ 30,505	\$ 13,209

Cash flows provided by investing activities were \$13.2 million higher during the six months ended June 30, 2015 as compared to the six months ended June 30, 2014.

During the six months ended June 30, 2014, we had \$10.0 million of purchases, advances on and originations of bonds and loans compared to no cash used for this type of activity during 2015. For the six months ended June 30, 2015 we had an increase in principal payments and sales proceeds received on bonds and loans of \$8.2 million, as compared to the same period in 2014 largely due to \$14.4 million of the total cash payment of \$17.3 received from MGM on the Bridge Loan payoff during the second quarter of 2015. The remaining \$2.9 million cash payment related to a partial payment of the seller financing issued to MGM and is included in “Proceeds from the sale of real estate and other investments” within investing activities.

In addition, restricted cash increased by \$2.3 million, primarily as a result of cash pledged as collateral related to a new TRS arrangement which was partially offset by the release of cash pledged as collateral related to the termination of a \$11.6 million TRS financing arrangement associated with our preferred stock investments.

These positive impacts to investing cash flows were partially offset by an \$8.3 million decrease in proceeds from the sale of real estate and other investments.

Financing activities

Cash flows provided by (used in) financing activities for MMA were as follows for the six months ended June 30, 2015 and 2014:

(in thousands)	For the six months ended		
	June 30, 2015	2014	Change
Proceeds from borrowing activity	\$ 25,585	\$ –	\$25,585
Repayment of borrowings	(30,004)	(44,121)	14,117
Purchase of treasury stock	(4,668)	(4,648)	(20)
Payment of debt issuance costs	(128)	–	(128)
Distribution to holders of noncontrolling interest	(159)	(1,600)	1,441
Net cash provided by (used in) financing activities	\$ (9,374)	\$ (50,369)	\$40,995

Cash flows used in financing activities were \$41.0 million lower during the six months ended June 30, 2015 as compared to the six months ended June 30, 2014.

The decrease in cash used in financing activities was primarily due to proceeds of \$25.6 million generated from TRS financing arrangements that were entered into during the first six months of 2015 and a \$14.1 million decrease in repayment of borrowings. During 2014, the repayment of borrowings was largely comprised of \$38.5 million of cash used in the second quarter of 2014 to repurchase bonds, but treated as repayment of borrowings for accounting purposes as a result of the financing agreement. During 2015, the repayment of borrowings was largely due to \$15.4 million of interim principal payments made during the second quarter of 2015 on the subordinate debt issued by MFH and \$11.6 million of cash used to terminate one of the TRS financings associated with our preferred stock investments during the first quarter of 2015.

Off-Balance Sheet Arrangements

In the fourth quarter of 2014, we provided \$15.9 million of seller financing to MGM for the sale of substantially all of our LIHTC asset management operations including our general partner interests in 11 guaranteed LIHTC Funds. We did not record the seller financing on our balance sheet because we retained the yield guarantee to the investors in the 11 guaranteed LIHTC Funds. During the second quarter of 2015, MGM paid \$2.9 million of the seller financing, bringing the off-balance sheet receivable from MGM to \$13.0 million. We recorded the cash collected of \$2.9 million to deferred gain through "Other Liabilities." See "Notes to Consolidated Financial Statements – Note 5, Other Assets" for more information.

Debt

The following table summarizes the outstanding balances and weighted-average interest rates at June 30, 2015. See “Notes to Consolidated Financial Statements – Note 6, Debt” for more information on our debt.

(dollars in thousands)	June 30, 2015	Weighted-Average Interest Rate at June 30, 2015	
Asset Related Debt ⁽¹⁾			
Notes payable and other debt – bond related	\$96,072	1.5	%
Notes payable and other debt – non-bond related debt:	5,022	9.9	
Total asset related debt	101,094	1.9	
Other Debt ⁽¹⁾			
Subordinate debentures	134,102	2.9	
Notes payable and other debt debt:	29,289	4.1

Total asset related debt and other debt	264,485	2.7	
Debt related to CFVs	6,712	5.3	
Total debt	\$271,197	2.7	

Asset related debt is debt which finances interest-bearing assets. The interest expense from this debt is included in “Net interest income” on the Consolidated Statements of Operations. Other debt is debt which does not finance interest-bearing assets. The interest expense from this debt is included in “Interest expense” under “Operating and other expenses” on the Consolidated Statements of Operations.

Asset Related Debt**Notes Payable and Other Debt – Bond Related**

At June 30, 2015, this debt was comprised of TRS financing agreements on bonds available-for-sale. See “Notes to Consolidated Financial Statements – Note 6, Debt” for more information.

Other Debt

Subordinate debt

At June 30, 2015, the Company had \$124.7 million of subordinate debt (principal) with a carrying value of \$134.1 million and a weighted average effective interest rate of 2.9%. The carrying value includes \$12.2 million of net premiums as a result of effective interest rate adjustments that will amortize as a reduction to debt expense over the life of the debt, offset by \$2.8 million of unamortized debt issuance costs that will amortize as an increase to debt expense over the remaining life of the debt.

A significant portion of this debt (\$96.4 million of principal) was issued by MFH. On May 21, 2015, the Company restructured this debt to include a reduction of the annual interest rate to 3-month LIBOR plus 200 bps plus quarterly principal amortization. See “Notes to Consolidated Financial Statements – Note 6, Debt” for more information.

Notes payable and other debt

This debt is mainly comprised of TRS financing arrangements on the Company’s preferred stock investments. During the first quarter of 2015, the Company repaid \$11.6 million of this debt and \$25.0 million was extended and now matures on March 31, 2016. See “Notes to Consolidated Financial Statements - Note 3, Investment in Preferred Stock” for more information. This debt is non-amortizing and bears an interest rate of 3-month LIBOR plus 400 bps (4.3% at June 30, 2015) which resets quarterly. See “Notes to Consolidated Financial Statements – Note 6, Debt” for more information.

Covenant Compliance and Debt Maturities

During the second quarter of 2015, the Company paid \$1.1 million of debt that was due and payable and operating under a forbearance agreement. At June 30, 2015, the Company was not in default under any of its debt arrangements.

Guarantees

The following table summarizes guarantees at June 30, 2015:

(in thousands)	June 30, 2015	
	Maximum	Carrying
	Exposure	Amount
Indemnification contracts	\$ 13,209	\$ 698

Through the indemnification contracts, we guaranty the investor yield on certain third party LIHTC Funds and property performance of certain LTPPs. We made no cash payments related to these indemnification agreements for the six months ended June 30, 2015. The carrying amount represents the amount of unamortized fees received related to these guarantees with no additional amounts recognized as management does not believe it is probable that the Company will have to make payments under these indemnifications.

Our maximum exposure under the indemnification contracts represents the maximum loss we could incur under the guarantee agreements and is not indicative of the likelihood of the expected loss under the guarantees. We also have guarantees associated with certain consolidated LIHTC Funds. See “Notes to Consolidated Financial Statements – Note 15, Consolidated Funds and Ventures.”

Debt Related to CFVs

At June 30, 2015, debt related to CFVs included a \$6.7 million debt obligation of one of the consolidated LIHTC Funds. At June 30, 2015, this debt had a face amount equal to its carrying value, a weighted average effective interest rate of 5.3%, and was due on demand.

Company Capital

Common Shares

Effective September 29, 2014, the Company executed a one-for-five reverse stock split to shareholders.

As of June 30, 2015, the Board had authorized total stock repurchases of up to 2.05 million shares. Between July 1, 2015 and August 6, 2015, we repurchased 29,000 shares at an average price of \$12.46. As of August 6, 2015, the Company had repurchased 1.8 million shares at an average price of \$8.74 since the plan's inception. At its August 6, 2015 meeting, the Board amended the maximum price at which management is authorized to purchase shares based on an assessment of the economic benefit of such purchases to the Company. Effective after the filing of this Report and until modified by further action of the Board, that price is \$13.92 per share.

Dividend Policy

The Board makes determinations regarding dividends based on management's recommendation, which is based on an evaluation of a number of factors, including our common shareholders' equity, business prospects and available cash. We do not expect to pay a dividend for the foreseeable future.

Effective May 5, 2015, the Company adopted a Tax Benefits Rights Agreement ("**Rights Plan**"). In connection with adopting the Rights Plan, the Company declared a distribution of one right per common share to shareholders of record as of May 15, 2015. The rights will not trade apart from the current common shares until the distribution date, as defined in the Rights Plan. Under the Rights Plan, should a new investor acquire greater than a 4.9% stake in the Company, all existing shareholders other than the new 4.9% holder will be provided the opportunity to acquire new shares for a nominal cost, thereby significantly diluting the ownership interest of the acquiring person. The Rights Plan will run for a period of five years, or until the Board determines the plan is no longer required, whichever comes first. See Income Taxes section below for more information.

Bond Portfolio

The table below provides key metrics related to all of our bonds, including those bonds that are financed through TRSs that the Company accounted for as derivatives as of June 30, 2015. Because as an economic matter we have the same exposure across all bonds financed by TRSs regardless of whether those financings are accounted by the Company as secured borrowings or derivatives, the asset management of our bond portfolio includes the asset management of all of these bonds. The table below reflects the portfolio from an asset management perspective. See “Notes to Consolidated Financial Statements – Note 7, Derivative Financial Instruments.”

(1) Non-performing is defined as bonds that are 30+ days past due in either principal or interest.

(2) This amount included subordinate bonds with must-pay coupons with a UPB of \$7.6 million and a fair value of \$3.4 million.

Subordinate cash flow bonds do not have must-pay coupons and are payable out of available cash flow only. A portion of the debt service has been collected on these bonds over the preceding 12 months, however, debt service is not calculated on these bonds as non-payment of debt service is not a default.

(4) The weighted average pay rate represents the cash interest payments collected on the bonds as a percentage of the bonds’ average UPB for the preceding 12 months for the population of bonds at June 30, 2015.

(5) *Debt service coverage is calculated on a rolling 12-month basis using property level information as of the prior quarter-end for those bonds with must pay coupons.*

(6) *The weighted average coupon and pay rate of the multifamily tax-exempt bonds and total bond portfolio excludes the population of subordinate cash flow bonds where non-payment of debt service is not a default.*

Includes 11 bonds financed by TRSs and accounted for as derivatives. These 11 bonds had a UPB of \$99.5 million and a fair value of \$103.5 million and were subject to TRSs with a notional amount of \$100.8 million, for a net derivative asset value of \$2.7 million. This amount also includes an additional 11 bonds financed by TRSs accounted for as a secured borrowing. These bonds had a UPB of \$94.6 million and a fair value of \$98.9 million and were subject to TRSs with a notional amount of \$96.2 million.

Real Estate Investments

At June 30, 2015, our U.S. real estate investments had a GAAP carrying amount of \$28.7 million with an estimated fair value of \$35.8 million. Of the \$28.7 million GAAP carrying amount, \$22.5 million was reported through investments in real estate partnerships and \$6.2 million was reported through other assets. At June 30, 2015, our U.S. real estate investments were comprised of interests in real estate partnerships that invest in commercial real estate, land and affordable multifamily rental properties as well as direct land investments. The Company estimates the fair value of its interests in real estate partnerships and direct land investments using various valuation techniques including discounting the expected cash flows from such investments, appraisals and other indications of fair value, including sale agreements and letters of intent to purchase if available.

Critical Accounting Policies and Estimates

The preparation of our consolidated financial statements is based on the selection and application of U.S. generally accepted accounting principles (“GAAP”), which requires us to make certain estimates and assumptions that affect the reported amounts and classification of the amounts in our consolidated financial statements. These estimates and assumptions require us to make difficult, complex and subjective judgments involving matters that are inherently uncertain. We base our accounting estimates and assumptions on historical experience and on judgments that are believed to be reasonable under the circumstances known to us at the time. Actual results could differ materially from these estimates. We applied our critical accounting policies and estimation methods consistently in all material respects and for all periods presented, and have discussed those policies with our Audit Committee.

We believe the following accounting policies involve a higher degree of judgment and complexity and represent the critical accounting policies and estimates used in the preparation of our consolidated financial statements.

Valuation of Bonds

Our bond portfolio includes mortgage revenue bonds and other municipal bonds. We account for investments in bonds as available-for-sale debt securities under the provisions of ASC No. 320, “*Investments – Debt and Equity Securities*.” Accordingly, these investments in bonds are carried at fair value with changes in fair value (excluding other-than-temporary impairments) recognized in other comprehensive income. For most of our performing bonds, we estimate fair value using a discounted cash flow methodology; specifically, the Company discounts contractual principal and interest payments, adjusted for expected prepayments. The discount rate for each bond is based on expected investor yield requirements adjusted for bond attributes such as the expected term of the bond, debt service coverage ratio, geographic location and bond size. If observable market quotes are available, we will estimate the fair value based on such quoted prices. For non-performing bonds (*i.e.*, defaulted bonds as well as certain non-defaulted bonds that we deem at risk of default in the near term), we estimate the fair value by discounting the property’s expected cash flows and residual proceeds using estimated discount and capitalization rates, less estimated selling costs. However, to the extent available, the Company may estimate fair value based on a sale agreement, a letter of intent to purchase, an appraisal or other third-party indications of fair value. There are significant judgments and estimates associated with forecasting the estimated cash flows related to the bonds or the underlying collateral for non-performing bonds, including macroeconomic conditions, interest rates, local and regional real estate market conditions and individual property performance. In addition, the determination of the discount rates applied to these cash flow forecasts involves significant judgments as to current credit spreads and investor return expectations. The bonds reflected on the Consolidated Balance Sheets at June 30, 2015 were priced on average at approximately 90% of the portfolio’s UPB.

Consolidated Funds and Ventures

We have equity investments in partnerships and other entities that primarily hold or develop real estate. In most cases our legal interest in these entities is minimal; however, we apply ASC No. 810, “*Consolidation*” in order to determine if we need to consolidate any of these entities. There is considerable judgment in assessing whether to consolidate an entity under these accounting principles. Some of the criteria we are required to consider include:

- The determination as to whether an entity is a variable interest entity (“**VIE**”).

- If the entity is considered a VIE, then the determination of whether we are the primary beneficiary of the VIE is needed and requires us to make judgments regarding: (1) our power to direct the activities of the VIE that most

significantly impact the VIE's economic performance, and (2) our obligation to absorb losses of the VIE that could potentially be significant to the VIE or our right to receive benefits from the VIE that could potentially be significant to the VIE. These assessments require a significant analysis of all of the variable interests in an entity, any related party considerations and other features that make such an analysis difficult and highly judgmental.

If the entity is required to be consolidated, then upon initial consolidation, we record the assets, liabilities and noncontrolling interests at fair value. As of June 30, 2015, all of our CFVs were investment entities that own real estate or real estate related investments and, as such, we make judgments related to the forecasted cash flows to be generated from the investments such as rental revenue and operating expenses, vacancy, replacement reserves and tax benefits (if any). In addition, we must make judgments about discount rates and capitalization rates.

Income Taxes

We are a limited liability company that elected to be taxed as a corporation for income tax purposes. All of our business activities, with the exception of our foreign investments and managing member interests in two remaining LIHTC Funds, are conducted by entities included in our consolidated corporate federal income tax return.

ASC No. 740, "Income Taxes," establishes financial accounting and reporting standards for the effect of income taxes. The objectives of accounting for income taxes are to recognize the amount of taxes payable or refundable for the current period and deferred tax assets and liabilities for future tax consequences of events that have been recognized in an entity's financial statements or tax returns. Significant judgment is required in determining and evaluating income tax positions, including assessing the relative merits and risks of various tax treatments considering statutory, judicial and regulatory guidance available regarding the tax position. We establish additional provisions for income taxes when there are certain tax positions that could be challenged and it is more likely than not these positions will not be sustained upon review by taxing authorities. Judgment is also required in assessing the future tax consequences of events that have been recognized in our consolidated financial statements or tax returns as well as the recoverability of our deferred tax assets. In assessing our ability to realize the benefit of our deferred tax assets and thereby measuring the required valuation allowance, we consider information such as forecasted earnings, future taxable income and tax planning strategies, all of which entail significant judgment.

As of December 31, 2014, we had an estimated \$418.2 million of federal net operating losses representing a significant potential asset of the Company, subject to a full valuation allowance as of that measurement date as discussed above. As discussed in our 2014 Annual Report filed on Form 10-K, there are a number of risks associated with the potential ability of the Company to use the net operating losses, including: 1) change of control for the Company; 2) lack of taxable income generated before expiration of the carryforward period beginning in 2027; and 3) potential challenges from tax authorities. On May 5, 2015, the Board adopted a Rights Plan to potentially mitigate the risk of a change of control event. Although the Rights Plan is generally an effective deterrent against, it does not absolutely prevent, a change of control and it could be subject to challenge following a trigger event. The Rights Plan will run for a period of five years, or until the Board determines the plan is no longer required, whichever comes first.

Item 2. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable.

Item 3. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our filings and submissions to the Securities and Exchange Commission (the “SEC”) under the Exchange Act is recorded, processed, and reported within the time periods specified in the SEC’s rules and forms. Such controls include those designed to ensure that information is accumulated and communicated to management, including our Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”), as appropriate, to allow timely decisions regarding required disclosures.

An evaluation was conducted under the supervision and with the participation of management, including the CEO and CFO, on the effectiveness of our disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Based on this evaluation, the CEO and CFO concluded that our disclosure controls and procedures were effective as of June 30, 2015.

Changes in Internal Control Over Financial Reporting During the Quarter Ended June 30, 2015

There were no changes in our internal control over financial reporting for the quarter ended June 30, 2015 that have materially affected, or that are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

Except as described below, we are not, nor are any of our subsidiaries, a party to any material pending litigation or other legal proceedings. Furthermore, to the best of our knowledge, we are not party to any threatened litigation or legal proceedings, which, in the opinion of management, individually or in the aggregate, would be likely to have a material adverse effect on our results of operations or financial condition.

The Company is a defendant in a purported class action lawsuit originally filed in 2008. The plaintiffs claim to represent a class of investors in the Company's shares who allegedly were injured by misstatements in press releases and SEC filings between May 3, 2004 and January 28, 2008. The plaintiffs sought unspecified damages for themselves and the shareholders of the class they purported to represent. The class action lawsuit was brought in the United States District Court for the District of Maryland. The Company filed a motion to dismiss the class action, and in June 2012, the Court issued a ruling dismissing all of the counts alleging any knowing or intentional wrongdoing by the Company or its affiliates, directors and officers. The plaintiffs appealed the Court's ruling and on March 7, 2014, the United States Court of Appeals for the Fourth Circuit unanimously affirmed the lower Court's ruling. As a result of these rulings, the only counts remaining in the class action relate to the Company's dividend reinvestment.

The parties have engaged in settlement discussions leading to a settlement agreement. On April 20, 2015, the parties submitted the agreement and related documents to the United States District Court for the District of Maryland for approval. The agreement provides for a maximum of \$826,820 to cover payments to the class as well as the attorneys for the plaintiffs' counsel. The settlement is a claims-made settlement, in which payments will be made only to those plaintiffs who submit a claim and whose claim is approved, so the final settlement amount to the class could be less than the amount stated above. Similarly, the court must approve the plaintiffs' counsel's attorneys' fees, so the final amount could be less than stated. A hearing to approve the settlement is set for September 24, 2015. At or in advance of the hearing, class members will have an option to exclude themselves from the settlement and pursue their own claims individually. No such claims are expected.

The Company does not expect to directly incur any settlement costs, as all costs, including both class payments and plaintiffs' attorneys' fees, will be paid directly by its insurance company. As a result, the Company released the litigation reserve of \$0.5 million during the first quarter of 2015.

Item 1A. Risk Factors

For a discussion of the risk factors affecting the Company, see Part I, Item 1A, "Risk Factors," of the Company's 2014 Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Recent Sales of Unregistered Securities

None for the three months ended June 30, 2015.

Use of Proceeds from Registered Securities

None for the three months ended June 30, 2015.

Issuer Purchases of Equity Securities

The following table provides information on the Company's common share repurchases during the three months ended June 30, 2015.

(in thousands, except per share data)	Total Number of Shares Purchased	Average Price Paid per Share	Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet be Purchased Under Plans or Programs ⁽¹⁾
4/1/2015 – 4/30/2015	185	\$ 9.99	185	473
5/1/2015 – 5/31/2015	130	10.33	130	343
6/1/2015 – 6/30/2015	75	12.05	75	268
Total	390	\$ 10.50	390	

At its May 7, 2015 meeting, the Board set \$12.76 as the maximum price at which management is authorized to purchase shares based on an assessment of the economic benefit of such purchases to the Company. As of June 30, 2015, the Board had authorized total stock repurchases of up to 2.05 million shares. Between July 1, 2015 and August 6, 2015, we repurchased 29,000 shares at an average price of \$12.46. As of August 6, 2015, the Company had repurchased 1.8 million shares at an average price of \$8.74 since the plan's inception. Effective after the filing of this Report and until modified by further action of the Board, that price is \$13.92 per share. Unless amended, the plan will terminate once the Company has repurchased the total authorized number of shares.
