Note 1 – Business Organization, Nature of Operations and Basis of Presentation

BioRestorative Therapies, Inc. (together with its subsidiaries, “BRT” or the “Company”) develops therapeutic products and medical therapies using cell and tissue protocols, primarily involving adult stem cells. BRT’s website is at www.biorestorative.com. BRT is currently pursuing a Disc/Spine Program. Its lead cell therapy candidate, btxDISC™ (Disc Implanted Stem Cells), is a product formulated from autologous (or a person’s own) cultured mesenchymal stem cells collected from the patient’s bone marrow. The product is intended to be used for the non-surgical treatment of protruding and bulging lumbar discs in patients suffering from chronic lumbar disc disease. BRT is also engaging in research efforts with respect to a platform technology utilizing brown adipose (fat) for therapeutic purposes and has labeled this initiative its ThermoStem® Program. Through the program, BRT is developing an allogeneic cell-based therapy to target obesity and metabolic disorders using brown adipose (fat) derived stem cells to generate brown adipose tissue (“BAT”). BAT is intended to mimic naturally occurring brown adipose depots that regulate metabolic homeostasis in humans. Further, BRT has developed an ingredient derived from human adult stem cells, which can be used by third party companies in the development of their own skin care products. The ingredient was developed pursuant to BRT’s btx-C Cosmetic Program. BRT’s Stem Pearls® brand offers plant stem cell-based cosmetic skincare products that are available for purchase online at www.stempearls.com.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information. Accordingly, they do not include all of the information and disclosures required by GAAP for annual financial statements. In the opinion of management, such statements include all adjustments (consisting only of normal recurring items) which are considered necessary for a fair presentation of the condensed consolidated financial statements of the Company as of June 30, 2015 and for the three and six months ended June 30, 2015 and 2014. The results of operations for the three and six months ended June 30, 2015 are not necessarily indicative of the operating results for the full year ending December 31, 2015 or any other period. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and related disclosures of the Company as of December 31, 2014 and for the year then ended, which were filed with the Securities and Exchange Commission on Form 10-K on March 31, 2015.

Effective January 1, 2015, the Company changed its state of incorporation from the State of Nevada to the State of Delaware pursuant to a plan of conversion, dated December 22, 2014 (the “Plan of Conversion”). Pursuant to the Plan of Conversion, the Company also adopted new bylaws, which became effective on January 1, 2015.

Effective July 7, 2015, pursuant to authority granted by the stockholders of the Company, the Company implemented a 1-for-20 reverse split of the Company's issued and outstanding common stock (the "Reverse Split") and a reduction in the number of shares of common stock authorized to be issued by the Company from 200,000,000 to 30,000,000. All share and per share information has been retroactively adjusted to reflect the Reverse Split for all periods presented, unless otherwise indicated.

Note 2 – Going Concern and Management Plans

As of June 30, 2015, the Company had a working capital deficiency and a stockholders' deficiency of \$4,673,421 and \$2,880,523, respectively. During the three and six months ended June 30, 2015, the Company incurred net losses of \$1,420,298 and \$3,180,419, respectively. These conditions raise substantial doubt about the Company's ability to continue as a going concern.

The Company's primary source of operating funds since inception has been equity and debt financings. The Company intends to continue to raise additional capital through debt and equity financings. There is no assurance that these funds will be sufficient to enable the Company to fully complete its development activities or attain profitable operations. If the Company is unable to obtain such additional financing on a timely basis and, notwithstanding any request the Company may make, the Company's debt holders do not agree to convert their notes into equity or extend the maturity dates of their notes, the Company may have to curtail its development, marketing and promotional activities, which would have a material adverse effect on the Company's business, financial condition and results of operations, and ultimately the Company could be forced to discontinue its operations and liquidate.

Note 2 – Going Concern and Management Plans - Continued

The accompanying unaudited condensed consolidated financial statements have been prepared in conformity with GAAP, which contemplate continuation of the Company as a going concern and the realization of assets and satisfaction of liabilities in the normal course of business. The carrying amounts of assets and liabilities presented in the financial statements do not necessarily purport to represent realizable or settlement values. The unaudited condensed consolidated financial statements do not include any adjustment that might result from the outcome of this uncertainty.

Subsequent to June 30, 2015, the Company has raised an aggregate of \$180,000 and \$200,000 through equity financing and debt financing, respectively, and (b) \$30,000 and \$1,736 of debt and accrued interest, respectively, has been exchanged for or converted into common stock. The Company currently expects to be able to fund its operations through September 2015. While there can be no assurance that it will be successful, the Company is in active negotiations to raise additional capital. As of the filing date of this report, the Company has notes payable with an aggregate principal balance of \$275,000 which are past due. The Company is currently in the process of negotiating extensions or discussing conversions to equity with respect to these notes. However, there can be no assurance that the Company will be successful in extending or converting these notes. See Note 8 – Subsequent Events for additional details.

Note 3 – Summary of Significant Accounting Policies

Principles of Consolidation

The unaudited condensed consolidated financial statements of the Company include the accounts of Stem Cell Cayman Ltd. (“Cayman”) and Stem Pearls, LLC. All significant intercompany transactions have been eliminated in the consolidation.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the dates of the financial statements and the reported amounts of revenue and expenses during the periods. The Company's significant estimates and assumptions include the recoverability and useful lives of long-lived assets, the fair value of the Company's stock, stock-based compensation, warrants issued in connection with notes payable and the valuation allowance related to the Company's deferred tax assets. Certain of the Company's estimates, including the carrying amount of the intangible assets, could be affected by external conditions, including those unique to the Company and general economic conditions. It is reasonably possible that these external factors could have an effect on the Company's estimates and could cause actual results to differ from those estimates.

Concentrations and Credit Risk

Two pharmaceutical clients comprised substantially all of the Company's revenue during the three and six months ended June 30, 2015. See Revenue Recognition – Research and Development Agreements below.

Revenue Recognition

Research and Development Agreements

The Company's policy relating to research and development agreements is to recognize research and development revenues associated with such agreements either (a) on a straight-line basis over the term of the agreement, or (b) in accordance with the milestone method of revenue recognition, depending on the nature of the contract terms, subject to potential acceleration upon achievement of contractually specified deliverables.

On February 11, 2015, the term of the March 19, 2014 research and development agreement with a Japanese pharmaceutical company was extended by three months to June 19, 2015. During the three and six months ended June 30, 2015, the Company recognized revenue of \$50,000 and \$100,000, respectively, upon achievement of specified deliverables (milestone method). During the six months ended June 30, 2015, the final deliverable pursuant the research and development agreement was completed and delivered. Through June 30, 2015, \$200,000 had been received under the agreement, \$250,000 had been recognized as revenue and the unpaid \$50,000 is recorded as accounts receivable.

Note 3 – Summary of Significant Accounting Policies - Continued

Revenue Recognition – Continued

Research and Development Agreements – Continued

During the six months ended June 30, 2015, in connection with a March 24, 2014 research and development agreement with a U.S. pharmaceutical company, the Company received the third and fourth of four quarterly payments in the aggregate amount of \$177,234. Through June 30, 2015, \$605,359 had been received under the agreement, \$491,241 had been recognized as revenue and \$114,118 was recorded as deferred revenues on the condensed consolidated balance sheet.

During the three and six months ended June 30, 2015, the Company recognized revenue related to research and development agreements of \$146,764 and \$327,466. During the three and six months ended June 30, 2014, the Company recognized revenue related to research and development agreements of \$175,025.

Other

The Company's policy is to recognize product sales when the risk of loss and title to the product transfers to the customer, after taking into account potential returns. The Company recognizes sublicensing and royalty revenue when all of the following have occurred: (i) persuasive evidence of an arrangement exists, (ii) the service is completed without further obligation, (iii) the sales price to the customer is fixed or determinable, and (iv) collectability is reasonably assured.

Edgar Filing: BioRestorative Therapies, Inc. - Form 10-Q

During the three and six months ended June 30, 2015, the Company has recognized \$2,000 and \$6,000 respectively, of revenue related to the Company's sublicense agreement. During the three and six months ended June 30, 2014, the Company recognized no revenue related to the Company's sublicense agreement.

During the three and six months ended June 30, 2015, the Company recognized revenue related to sales of Stem Pearls® skincare products of \$0 and \$200, respectively. During the three and six months ended June 30, 2014, the Company recognized revenue related to sales of Stem Pearls® skincare products of \$916 and \$1,291, respectively.

Net Loss Per Common Share

Basic loss per common share is computed by dividing net loss by the weighted average number of vested common shares outstanding during the period. Diluted loss per common share is computed by dividing net loss by the weighted average number of vested common shares outstanding, plus the impact of common shares, if dilutive, resulting from the exercise of outstanding stock options and warrants, plus the conversion of convertible notes.

The following securities are excluded from the calculation of weighted average dilutive common shares because their inclusion would have been anti-dilutive:

	June 30,	
	2015	2014
Options	789,200	435,450
Warrants	728,850	316,283

Note 3 – Summary of Significant Accounting Policies - Continued

Stock-Based Compensation

The Company measures the cost of services received in exchange for an award of equity instruments based on the fair value of the award. For employees, the fair value of the award is measured on the grant date and for non-employees, the fair value of the award is generally re-measured on vesting dates and interim financial reporting dates until the service period is complete. The fair value amount is then recognized over the period during which services are required to be provided in exchange for the award, usually the vesting period. Since the shares underlying the Company's 2010 Equity Participation Plan (the "Plan") were registered on May 27, 2014, the Company estimates the fair value of the awards granted under the Plan based on the market value of its freely tradable common stock as reported on the OTCQB market. The fair value of the Company's restricted equity instruments was estimated by management based on observations of the cash sales prices of both restricted shares and freely tradable shares. Awards granted to directors are treated on the same basis as awards granted to employees.

Subsequent Events

The Company evaluates events that have occurred after the balance sheet date but before the financial statements are issued. Based upon the evaluation, the Company did not identify any recognized or non-recognized subsequent events that would have required adjustment or disclosure in the condensed consolidated financial statements, except as disclosed in Note 8.

During the six months ended June 30, 2015, a note in the principal amount of \$244,000 bears no interest and was issued for cash consideration of \$200,000. The \$44,000 difference between the principal amount of the note and the cash received was recorded as debt discount and is being amortized to interest expense over the term of the note.

As of June 30, 2015, convertible notes with an aggregate principal balance of \$315,000 were convertible into [2] shares of common stock at the election of the Company. Of such aggregate principal balance, under certain circumstances, the holder has the right to convert \$75,000 in principal into shares of common stock.

Bermuda Lender

On May 11, 2015, Cayman and a lender to Cayman (the “Bermuda Lender”) agreed to extend the maturity date of a note with a principal balance of \$410,938 from May 7, 2015 to June 30, 2015 (the “New Maturity Date”). The Bermuda Lender waived any and all defaults under the note, including with respect to the failure by the Company to pay to the Bermuda Lender pursuant to the note the aggregate amount of \$316,297 (the “Unpaid Amount”) received by the Company from its research and development agreements (see Note 3 – Summary of Significant Accounting Policies – Revenue Recognition – Research and Development Agreements). The Unpaid Amount was payable on the New Maturity Date together with all other amounts then payable pursuant to the note.

On May 27, 2015, the Company and the Bermuda Lender agreed to exchange five notes (including the note referred to in the above paragraph) with an aggregate principal amount of \$4,410,937 and aggregate accrued interest of \$69,436 for 746,730 shares of common stock and an immediately vested five-year warrant to purchase 186,682 shares of common stock at an exercise price of \$15.00 per share with a grant date fair value of \$672,056. In connection with the exchange, the Company extended the expiration date of a previously outstanding warrant to purchase 40,000 shares of common stock from December 31, 2015 to December 31, 2017. During the three and six months ended June 30, 2015, the Company recognized a \$5,327 loss on the extinguishment of notes payable in connection with the exchange for the shares of common stock and a warrant.

As of June 30, 2015, the Bermuda Lender is a related party as a result of the size of its ownership interest in the Company’s common stock.

Convertible Notes and Other Notes - Continued

Conversions, Exchanges and Other - Continued

During the six months ended June 30, 2015, the contingently adjustable conversion ratio associated with a certain convertible note was resolved. The Company estimated the intrinsic value of the embedded conversion option based upon the difference between the fair value of the underlying common stock at the commitment date of the note transaction and the effective conversion price embedded in the convertible note. During the three and six months ended June 30, 2015, the Company recognized \$0 and \$10,690, respectively, of intrinsic value related to the beneficial conversion feature as debt discount which was amortized immediately. During the three and six months ended June 30, 2014, the Company recognized \$41,384 of intrinsic value related to these beneficial conversion features as debt discount and the entire amount was amortized immediately.

Note 6 – Commitments and Contingencies

Operating Lease

During the three and six months ended June 30, 2015, the Company recognized approximately \$29,000 and \$64,000, respectively, of rent expense. Rent expense amounted to approximately \$4,000 and \$14,000 during the three and six months ended June 30, 2014, respectively.

Litigations, Claims and Assessments

In the normal course of business, the Company may be involved in legal proceedings, claims and assessments arising in the ordinary course of business.

In November 2013, an action was commenced against the Company in the Circuit Court of Palm Beach County, Florida by an alleged former consultant. The action was associated with an alleged \$5,000 loan made in 2009 and an alleged consulting/employment agreement entered into with the Company effective in 2009. Pursuant to the action, the plaintiff was seeking to recover an unspecified amount of damages as well as the repayment of the alleged loan with interest, reimbursement for certain out-of-pocket fees and expenses, two weeks vacation pay per year, and the issuance of shares of the Company's common stock (or alternatively the market value of such securities). On April 27, 2015, the Company and the plaintiff entered into a settlement agreement for an amount which had been accrued as of March 31, 2015. In connection with the legal settlement agreement, during the six months ended June 30, 2015, the Company issued the plaintiff 4,230 shares of common stock and five-year, immediately vested warrants to purchase an aggregate of 30,000 shares of common stock at exercise prices ranging from \$7.60 to \$12.00 per share. The aggregate value of the issuances of \$152,000 was recognized immediately.

The Company records legal costs associated with loss contingencies as incurred and accrues for all probable and estimable settlements.

Employment Agreements

On February 9, 2015, the Company hired a President for its Disc/Spine Division (“Division President”) pursuant to an at-will employment agreement which entitles him to a specified salary and a discretionary bonus. In the event the Company terminates the Division President without cause, the Division President is entitled to cash severance payments of \$150,000 paid over nine months. As additional compensation, the Company granted the Division President a ten-year option to purchase 25,000 shares of common stock at an exercise price of \$9.20 per share, pursuant to the Plan. The shares vest over three years on the grant date anniversaries. The grant date value of \$200,400 will be recognized proportionate to the vesting period.

On March 9, 2015, the Company and its Chief Executive Officer (“CEO”) agreed to extend the term of his employment agreement to December 31, 2017. Pursuant to the employment agreement, the CEO is entitled to receive a salary of \$400,000 per annum. The CEO is entitled to receive an annual bonus for 2015 equal to 50% of his annual base salary and an annual bonus for the years 2016 and 2017 equal to 50% of his annual base salary in the event certain performance goals, as determined by the Company’s Compensation Committee, are satisfied. Pursuant to the employment agreement, in the event that the CEO’s employment is terminated by the Company without cause, or the CEO terminates his employment for “good reason” (each as defined in the employment agreement), the CEO would be entitled to receive severance in an amount equal to his then annual base salary and certain benefits, plus \$100,000 (in lieu of bonus). In addition, pursuant to the employment agreement, the CEO would also be entitled to receive such severance in the event that the term of his employment agreement is not extended beyond December 31, 2017 and, within three months of such expiration date, his employment is terminated by the Company without “cause” or the CEO terminates his employment for any reason. Further, in the event that the CEO’s employment is terminated by the Company without cause, or the CEO terminates his employment for “good reason”, following a “change in control” (as defined in the employment agreement), the CEO would be entitled to receive severance in an amount equal to one and one-half times his then annual base salary and certain benefits, plus \$300,000 (in lieu of bonus).

On March 9, 2015, the Company agreed to amend the at-will employment agreement with its Vice President of Research and Development (“VP of R&D”). Pursuant to the employment agreement, as amended, in the event that the VP of R&D’s employment with the Company is terminated without cause, the VP of R&D would currently be entitled to receive a cash severance payment equal to one-half of his base annual salary (such one-half amount currently \$125,000).

Board of Directors

On April 6, 2015, the Company elected a new director to replace a director who had previously resigned. Concurrent with the election, the Company granted a ten-year option to purchase 15,000 shares of common stock at an exercise price of \$8.00 per share, pursuant to the Plan. The shares vest ratably over three years on the grant date anniversaries and the grant date fair value of \$104,100 will be recognized proportionate to the vesting period.

Warrant and Option Valuation

The Company has computed the fair value of warrants and options granted using the Black-Scholes option pricing model. Option forfeitures are estimated at the time of valuation and reduce expense ratably over the vesting period. This estimate will be adjusted periodically based on the extent to which actual option forfeitures differ, or are expected to differ, from the previous estimate, when it is material. The Company estimated forfeitures related to option grants at annual rates ranging from 0% to 5% for options granted during the six months ended June 30, 2015 and 2014. The expected term used for warrants and options issued to non-employees is the contractual life and the expected term used for options issued to employees is the estimated period of time that options granted are expected to be outstanding. The Company utilizes the “simplified” method to develop an estimate of the expected term of “plain vanilla” employee option grants. Since the Company’s stock has not been publicly traded for a sufficiently long period of time, the Company is utilizing an expected volatility figure based on a review of the historical volatilities, over a period of time, equivalent to the expected life of the instrument being valued, of similarly positioned public companies within its industry. The risk-free interest rate was determined from the implied yields from U.S. Treasury zero-coupon bonds with a remaining term consistent with the expected term of the instrument being valued.

Stock Warrants

In applying the Black-Scholes option pricing model to warrants granted, the Company used the following weighted average assumptions:

	For The Three Months Ended		For The Six Months Ended	
	June 30,		June 30,	
	2015	2014	2015	2014
Risk free interest rate	1.32% - 1.71 %	1.55% - 1.74 %	1.22% - 1.71 %	0.39% - 2.20 %

Expected dividends	0.00	%	0.00	%	0.00	%	0.00 %

The weighted average estimated fair value of the warrants granted during the three and six months ended June 30, 2015 was \$3.76 and \$3.60 per share, respectively. The weighted average estimated fair value of the warrants granted during the three and six months ended June 30, 2014 was \$3.20 and \$3.80 per share, respectively.

On May 29, 2015, the Company extended the expiration date of previously outstanding warrants to purchase an aggregate of 5,000 shares of common stock from December 31, 2015 to December 31, 2017. During the three and six months ended June 30, 2015, the Company recognized \$10,000 of incremental expense related to the modification of the warrants which is reflected in general and administrative expense in the condensed consolidated statements of operations.

The Company recorded stock-based compensation expense of \$0 and \$0 during the three and six months ended June 30, 2015, respectively, and expense of \$113,400 and \$167,126 during the three and six months ended June 30, 2014, respectively, related to stock warrants issued as compensation, which is reflected as consulting expense in the condensed consolidated statements of operations. As of June 30, 2015, there was no unrecognized stock-based compensation expense related to stock warrants.

Subsequent to June 30, 2015, the Company issued an aggregate of 6,500 shares of immediately vested common stock to a consultant and the Company's legal counsel.

Subsequent to June 30, 2015, the Company granted ten-year options to employees and advisors to purchase an aggregate of 19,750 shares of common stock at an exercise price of \$8.75 per share, pursuant to the Plan. The shares vest as follows: (i) 12,250 shares vest ratably over three years on the grant date anniversaries and (ii) 7,500 shares vest pursuant to the satisfaction of certain performance conditions.

Common Stock and Warrant Offerings

Subsequent to June 30, 2015, the Company issued an aggregate of 26,430 shares of common stock at prices ranging from \$6.00 to \$7.00 per share to investors for gross proceeds of \$180,000. In connection with the purchases, the Company issued five-year warrants to purchase an aggregate of 22,680 shares of common stock at exercise prices ranging from \$10.00 to \$15.00 per share of common stock. In connection with these issuances previously outstanding warrants to purchase an aggregate of 24,500 shares of common stock had their exercise prices reduced to \$10.00 per share from exercise prices ranging from \$11.60 to \$50.00 per share.

Short Term Advances

Subsequent to June 30, 2015, the Company received an aggregate of \$55,000 in non-interest bearing advances from a director of the Company and an officer of the Company.

Note 8 – Subsequent Events – Continued

Notes Payable

On July 7, 2015, pursuant to the provisions of a convertible note with a principal balance of \$30,000, the Company elected to convert \$30,000 of principal, together with accrued interest of \$1,736, into 6,490 shares of common stock at a conversion price of \$4.89 per share.

On July 9, 2015, the Company issued a convertible note in the principal amount of \$100,000 which bears interest at a rate of 10% per annum payable on maturity. The convertible note is payable as follows: (i) \$25,000 of the principal and the respective accrued interest on such principal is payable six months from the issuance date (the “July Note First Maturity Date”), (ii) \$25,000 of principal and the respective accrued interest on such principal is payable two weeks following the July Note First Maturity Date, (iii) \$25,000 of principal and the respective accrued interest on such principal is payable four weeks following the July Note First Maturity Date and (iv) \$25,000 of principal and the respective accrued interest on such principal is payable six weeks following the July Note First Maturity Date. Each \$25,000 of principal and the respective accrued interest on such principal is convertible into shares of the Company’s common stock at the election of the Company during the period beginning five days prior to each maturity date and ending on the day immediately prior to each maturity date at a conversion price equal to the greater of (a) 62% of the fair value of the Company’s stock or (b) \$3.00 per share. In the event that the Company elects to effect a conversion, then, during the five day period following the conversion, the holder shall have the right to convert the then outstanding principal amount of the convertible note, together with accrued and unpaid interest thereon, into shares of the Company’s common stock at a conversion price equal to the conversion price in the Company-effected conversion. In connection with the financing, a five-year warrant to purchase 3,300 shares of common stock at an exercise price of \$10.00 per share was issued to the lender.

On July 27, 2015, the Company issued a six-month convertible note in the principal amount of \$50,000 which bears interest at a rate of 10% per annum payable on maturity. This note and the accrued interest is convertible into shares of the Company’s common stock at the election of the Company during the period beginning five days prior to the maturity date and ending on the day immediately prior to the maturity date at a conversion price equal to 65% of the

fair market value of the Company's stock or \$3.00 per share, whichever is greater. In connection with the financing, a five-year warrant to purchase 1,500 shares of common stock at an exercise price of \$10.00 per share was issued to the lender.

On August 13, 2015, the Company issued a convertible note in the principal amount of \$60,000 for cash consideration of \$50,000 which bears interest at a rate of 1% per annum payable on maturity. The convertible note is payable as follows: (i) \$20,000 of the principal and the respective accrued interest on such principal is payable six months from the issuance date (the "August Note First Maturity Date"), (ii) \$20,000 of principal and the respective accrued interest on such principal is payable two weeks following the August Note First Maturity Date, and (iii) \$20,000 of principal and the respective accrued interest on such principal is payable one month following the August Note First Maturity Date. Each \$20,000 of principal and the respective accrued interest on such principal is convertible into shares of the Company's common stock at the election of the Company during the period beginning five days prior to each maturity date and ending on the day immediately prior to each maturity date at a conversion price equal to the greater of (a) 62% of the fair value of the Company's stock or (b) \$3.00 per share. In the event that the Company elects to effect a conversion, then, during the five day period following the conversion, the holder shall have the right to convert the then outstanding principal amount of the convertible note, together with accrued and unpaid interest thereon, into shares of the Company's common stock at a conversion price equal to the conversion price in the Company-effected conversion.

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of the results of operations and financial condition of BioRestorative Therapies, Inc. (together with its subsidiaries, "BRT") for the three and six months ended June 30, 2015 and 2014 should be read in conjunction with our financial statements and the notes to those financial statements that are included elsewhere in this Quarterly Report on Form 10-Q. References in this Management's Discussion and Analysis of Financial Condition and Results of Operations to "us," "we," "our," and similar terms refer to BRT. This Quarterly Report contains forward-looking statements as that term is defined in the federal securities laws. The events described in forward-looking statements contained in this Quarterly Report may not occur. Generally these statements relate to business plans or strategies, projected or anticipated benefits or other consequences of our plans or strategies, projected or anticipated benefits from acquisitions to be made by us, or projections involving anticipated revenues, earnings or other aspects of our operating results. The words "may," "will," "expect," "believe," "anticipate," "project," "plan," "intend," "estimate," and "continue," and their opposites and similar expressions, are intended to identify forward-looking statements. We caution you that these statements are not guarantees of future performance or events and are subject to a number of uncertainties, risks and other influences, many of which are beyond our control, which may influence the accuracy of the statements and the projections upon which the statements are based. Factors that may affect our results include, but are not limited to, the risks and uncertainties discussed in Item 7 ("Management's Discussion and Analysis of Financial Condition and Results of Operations – Factors That May Affect Results and Financial Condition") of our Annual Report on Form 10-K for the year ended December 31, 2014 filed with the Securities and Exchange Commission (the "SEC") on March 31, 2015.

Any one or more of these uncertainties, risks and other influences could materially affect our results of operations and whether forward-looking statements made by us ultimately prove to be accurate. Overview

We develop therapeutic products and medical therapies using cell and tissue protocols, primarily involving adult (non-embryonic) stem cells. We are currently pursuing our Disc/Spine Program with our initial therapeutic product being called brtxDISC™ (Disc Implanted Stem Cells). We have obtained a license to use technology for adult stem cell treatment of disc and spine conditions, including protruding and bulging lumbar discs. The technology is an advanced stem cell injection procedure that may offer relief from lower back pain, buttock and leg pain, and numbness and tingling in the legs and feet. We are also developing our ThermoStem® Program. This pre-clinical program involves the use of brown fat in connection with the cell-based treatment of type 2 diabetes and obesity as well as hypertension, other metabolic disorders and cardiac deficiencies.

We are also developing a curved needle device (“CND”) that is a needle system to allow access to difficult to locate regions for the delivery or removal of fluids and other substances.

We also offer stem cell derived cosmetic and skin care products.

We have relocated our offices to Melville, New York where we have established a new laboratory facility in order to increase our capabilities for the further development of possible cellular-based treatments, products and protocols, stem cell-related intellectual property and translational research applications.

As of June 30, 2015, our accumulated deficit was \$28,580,445, our stockholders' deficiency was \$2,880,523 and our working capital deficiency was \$4,673,421. While we have recently begun to generate a modest amount of revenue, our losses have principally been operating expenses incurred in research and development, marketing and promotional activities in order to commercialize our products and services, plus costs associated with meeting the requirements of being a public company. We expect to continue to incur substantial costs for these activities over at least the next year.

Based upon our working capital deficiency as of June 30, 2015 and our forecast for continued operating losses, we require equity and/or debt financing to continue our operations. As of June 30, 2015, our outstanding debt of \$1,226,685, together with interest at stated rates ranging between 10% and 15% per annum, was due on various dates through February 2016. Subsequent to June 30, 2015, we have received aggregate equity and debt financing of \$180,000 and \$200,000, respectively, and \$30,000 and \$1,736 of debt and accrued interest, respectively, has been exchanged for common stock. Giving effect to the above actions, we currently have notes payable aggregating \$275,000 which are past due. Based upon our working capital deficiency and outstanding debt, we expect to be able to fund our operations through September 2015. We are currently in the process of negotiating extensions or discussing conversions to equity with respect to these notes. We are currently considering several different financing alternatives to support our operations thereafter. If we are unable to obtain such additional financing on a timely basis and, notwithstanding any request we may make, our debt holders do not agree to convert their notes into equity or extend the maturity dates of their notes, we may have to curtail our development, marketing and promotional activities, which would have a material adverse effect on our business, financial condition and results of operations, and ultimately we could be forced to discontinue our operations and liquidate. See "Liquidity and Capital Resources" below.

Recent Developments

Board of Directors

On April 6, 2015, our Board of Directors elected a new director to replace a director who had previously resigned. Concurrent with the election, we granted to such new director a ten-year option to purchase 15,000 shares of common stock at an exercise price of \$8.00 per share, pursuant to the Plan. The shares vest ratably over three years on the grant date anniversaries.

Consolidated Results of Operations**Three Months Ended June 30, 2015 Compared With Three Months Ended June 30, 2014**

The following table presents selected items in our unaudited condensed consolidated statements of operations for the three months ended June 30, 2015 and 2014, respectively:

	For The Three Months Ended June 30, 2015 2014

Gain on settlement of payables	-	166,668
Total Other Expense	(157,494)	(51,652)
Net Loss	\$(1,420,298)	\$(1,333,139)

Revenues

For the three months ended June 30, 2015, we generated \$148,764 of aggregate revenues, consisting of \$146,764 of revenues through the services provided pursuant to our research and development agreements and \$2,000 of royalty revenue in connection with our sublicense agreement. For the three months ended June 30, 2014, we generated \$175,025 of revenues through the services provided pursuant to our research and development agreements and \$916 of sales of Stem Pearls® skincare products.

Cost of sales

For the three months ended June 30, 2015, cost of sales was \$74,645 as compared to \$42,366 for the comparable 2014 period, primarily due to increased research and development activities related to our research and development agreements. For the three months ended June 30, 2015, cost of sales consisted solely of costs related to our research and development agreements. For the three months ended June 30, 2014, cost of sales consisted primarily of costs related to our research and development agreements.

For the three months ended June 30, 2015, gross profit was \$74,119 (50% of revenues) as compared to \$133,575 (76% of revenues) for the comparable 2014 period, primarily due to increased research and development costs related to our research and development agreements. The Company incurred additional costs in the current period relating to its research agreements as a result of the increased usage of a third-party lab.

Marketing and promotion

Marketing and promotion expenses include advertising and promotion, marketing and seminars, meals, and entertainment and travel expenses. For the three months ended June 30, 2015, marketing and promotion expenses increased by \$33,556, or 216%, to \$49,091 from \$15,535 in the comparable 2014 period. The increase is primarily due to increased travel expenses of approximately \$9,000 and increased hotel expenses of approximately \$8,000.

We expect that marketing and promotion expenses will increase in the future as we increase our marketing activities following full commercialization of our products and services.

Consulting

Consulting expenses consist of consulting fees and stock-based compensation to consultants. For the three months ended June 30, 2015, consulting expenses decreased \$418,574, or 75%, to \$138,991 from \$557,565 in the comparable 2014 period. The decrease is primarily due to an approximate \$445,000 decrease in non-cash stock-based compensation to directors, consultants and advisors, partially offset by an increase of approximately \$34,000 in cash compensation to consultants.

Research and development

Research and development expenses include cash and non-cash compensation of our Chief Executive Officer (in part) along with employee, consultant and other costs related to our brown fat and disc/spine initiatives. Research and development expenses are expensed as they are incurred. For the three months ended June 30, 2015, research and development expenses increased by \$159,158, or 54%, to \$452,488 from \$293,330 in the comparable 2014 period. The increase is primarily attributable to an increase in payroll of approximately \$111,000 due to hiring of new staff, an increase in stock-based compensation to directors, consultants and advisors in the amount of approximately \$70,000, the costs incurred related to operating our Melville laboratory of approximately \$68,000, all partially offset by a decrease in cash compensation to consultants of approximately \$62,000 and a decrease in compensation to our Chief Executive Officer of approximately \$26,000.

We expect that our research and development expenses will increase with the continuation of the aforementioned initiatives.

General and administrative

General and administrative expenses consist primarily of salaries, bonuses, payroll taxes, severance costs and stock-based compensation to employees (excluding any cash or non-cash compensation of our Chief Executive Officer or employees attributable to research and development) as well as corporate support expenses such as legal and professional fees, investor relations and occupancy related expenses. For the three months ended June 30, 2015, general and administrative expenses increased by \$147,721, or 27%, to \$696,353 from \$548,632 in the comparable 2014 period. The increase is primarily due to increased professional fees of approximately \$76,000 primarily due to additional accounting costs associated with the relocation to our Melville location, an increase in stock-based compensation to employees in the amount of approximately \$42,000 due to awards granted during the second half of 2014, and increased salary and payroll expenses associated with hiring additional personnel of approximately \$26,000.

We expect that our general and administrative expenses will increase as we expand our staff, develop our infrastructure and incur additional costs to support the growth of our business.

Interest expense

For the three months ended June 30, 2015, interest expense decreased \$12,294, or 17%, to \$60,096 from \$72,390 in the comparable 2014 period. The decrease was due to a lower average debt balance as compared to the second quarter of 2014.

Amortization of debt discount

For the three months ended June 30, 2015, amortization of debt discount decreased by \$74,561, or 51%, to \$71,369 from \$145,930 in the comparable 2014 period. The decrease was primarily due to the decrease to note issuances and timing.

Loss on extinguishment of notes payable, net

For the three months ended June 30, 2015, we recorded a loss on extinguishment of notes payable, net of \$26,029, which is associated with investors' exchange of debt into equity securities. For the three months ended June 30, 2014, there was no loss on extinguishment of notes payable, net.

Gain on settlement of payables

For the three months ended June 30, 2015, we recognized a gain on settlement of payables of \$0. For the three months ended June 30, 2014, we recorded a \$166,668 gain on the settlement amendment of our University of Utah Research Agreement regarding our brown fat and disc/spine initiatives, whereby a portion of the fees payable to the University of Utah were cancelled.

Six Months Ended June 30, 2015 Compared With Six Months Ended June 30, 2014

The following table presents selected items in our unaudited condensed consolidated statements of operations for the six months ended June 30, 2015 and 2014, respectively:

Net Loss	\$(3,180,419)	\$(3,002,815)

Revenues

For the six months ended June 30, 2015, we generated \$327,466 of revenues through the services provided pursuant to our research and development agreements, \$6,000 from royalty revenue and \$200 from sales of Stem Pearls® skincare products. For the six months ended June 30, 2014, we generated \$175,025 of revenues through the services provided pursuant to our research and development agreements and \$1,291 of sales of Stem Pearls® skincare products.

Cost of sales

For the six months ended June 30, 2015, cost of sales was \$151,077 as compared to \$42,426 for the comparable 2014 period. For the six months ended June 30, 2015, cost of sales consisted almost entirely of costs related to our research and development agreements. For the six months ended June 30, 2014, cost of sales consisted primarily of costs related to our research and development agreements.

For the six months ended June 30, 2015, gross profit was \$182,589 (55% of revenues) as compared to \$133,890 (76% of revenues) for the comparable 2014 period, primarily due to increased research and development costs related to our research and development agreements. The Company incurred additional costs in the current period relating to its research agreements as a result of the increased usage of a third-party lab.

Marketing and promotion

Marketing and promotion expenses include advertising and promotion, marketing and seminars, meals, and entertainment and travel expenses. For the six months ended June 30, 2015, marketing and promotion expenses increased by \$46,699, or 99%, to \$94,028 from \$47,329 in the comparable 2014 period. The increase is primarily due to increased travel expenses of approximately \$14,000 and increased hotel expenses of approximately \$12,000.

We expect that marketing and promotion expenses will increase in the future as we increase our marketing activities following full commercialization of our products and services.

Consulting

Consulting expenses consist of consulting fees and stock-based compensation to consultants. For the six months ended June 30, 2015, consulting expenses decreased \$320,703, or 39%, to \$504,060 from \$824,763 in the comparable 2014 period. The decrease is primarily due to an approximate \$445,000 decrease in non-cash stock-based compensation to directors, consultants and advisors, partially offset by an increase cash compensation to consultants of approximately \$124,000.

Research and development

Research and development expenses include cash and non-cash compensation of our Chief Executive Officer (in part) along with employee, consultant and other costs related to our brown fat and disc/spine initiatives. Research and development expenses are expensed as they are incurred. For the six months ended June 30, 2015, research and development expenses increased by \$72,273, or 9%, to \$859,344 from \$787,071 in the comparable 2014 period. The increase is primarily attributable to an increase in payroll of approximately \$165,000 due to hiring of new staff, the costs incurred related to operating our Melville laboratory of approximately \$88,000, an increase in stock-based compensation to directors, consultants and advisors in the amount of approximately \$82,000, all partially offset by a decrease in cash compensation to consultants of approximately \$118,000, the amendment of our University of Utah Research Agreement resulting in a reduction of expense related to our brown fat and disc/spine initiatives as compared to the prior period of approximately \$90,000 and the reduction of our Chief Executive Officer's salary which resulted in approximately \$53,000 less expense.

We expect that our research and development expenses will increase with the continuation of the aforementioned initiatives.

General and administrative

General and administrative expenses consist primarily of salaries, bonuses, payroll taxes, severance costs and stock-based compensation to employees (excluding any cash or non-cash compensation of our Chief Executive Officer or employees attributable to research and development) as well as corporate support expenses such as legal and professional fees, investor relations and occupancy related expenses. For the six months ended June 30, 2015, general and administrative expenses increased by \$429,295, or 36%, to \$1,613,927 from \$1,184,632 in the comparable 2014 period. The increase is primarily due to increased professional fees of approximately \$314,000 primarily due to a legal settlement, an increase in salary and payroll expenses associated with hiring additional personnel of approximately \$63,000, an increase in expenses related to furnishing and operating our Melville offices of approximately \$37,000 and an increase in stock-based compensation to employees in the amount of approximately \$28,000 due to awards granted during the second half of 2014.

We expect that our general and administrative expenses will increase as we expand our staff, develop our infrastructure and incur additional costs to support the growth of our business.

Interest expense

For the six months ended June 30, 2015, interest expense decreased \$20,785, or 14%, to \$124,736 from \$145,521 in the comparable 2014 period. The decrease was due to a lower average debt balance as compared to the comparable 2014 period.

Amortization of debt discount

For the six months ended June 30, 2015, amortization of debt discount decreased by \$103,551, or 42%, to \$140,884 from \$244,435 in the comparable 2014 period. The decrease was primarily due to the decrease in note issuances and timing.

Loss on extinguishment of notes payable, net

For the six months ended June 30, 2015, we recorded a loss on extinguishment of notes payable of \$26,029, as compared to a net loss on extinguishment of notes payable of \$49,094 for the comparable 2014 period, which is associated with investors' exchange of debt into equity securities

Warrant modification expense

For the six months ended June 30, 2015, we recorded warrant modification expense of \$0. For the six months ended June 30, 2014, we recorded expense of \$30,128 related to the modification of outstanding investor warrants.

Gain on settlement of payables

For the six months ended June 30, 2015, we recognized a gain on settlement of payables of \$0. For the six months ended June 30, 2014, we recorded a \$176,268 gain primarily related to the settlement amendment of our University of Utah Research Agreement regarding our brown fat and disc/spine initiatives whereby a portion of the fees payable to the University of Utah were cancelled.

Liquidity and Capital Resources**Liquidity**

We measure our liquidity in a number of ways, including the following:

	June 30, 2015 (unaudited)	December 31, 2014
Cash	\$6,445	\$ 91,798
Working Capital Deficiency	\$(4,673,421)	\$ (8,410,686)
Notes Payable (Gross - Current)	\$ 1,196,685	\$ 5,851,496

Availability of Additional Funds

Based upon our working capital deficiency and stockholders' deficiency of \$4,673,421 and \$2,880,523, respectively, as of June 30, 2015, we require additional equity and/or debt financing to continue our operations. These conditions raise substantial doubt about our ability to continue as a going concern.

As of June 30, 2015, our outstanding debt of \$1,226,685, together with interest at stated rates ranging between 10% and 15% per annum, was due on various dates through February 2016. Subsequent to June 30, 2015, we have received aggregate equity and debt financing of \$180,000 and \$200,000, respectively, and \$30,000 and \$1,736 of debt and accrued interest, respectively, has been exchanged for common stock. Giving effect to the above actions, we currently have notes payable aggregating \$275,000 which are past due. As of the date of filing, our outstanding debt was as follows:

Maturity Date	Principal Amount
Past Due	\$275,000
QE 12/31/15	921,685
QE 3/31/16	210,000
	\$1,406,685

While we are actively pursuing a meaningful capital raise, there were no closings thereon prior to the submission of this filing. Based upon our working capital deficiency, outstanding debt and forecast for continued operating losses we expect that the cash we currently have available will fund our operations through September 2015. Thereafter, we will need to raise further capital, through the sale of additional equity or debt securities, to support our future operations and to repay our debt (unless, if requested, the debt holders agree to convert their notes into equity or extend the maturity dates of their notes). Our operating needs include the planned costs to operate our business, including amounts required to fund working capital and capital expenditures. Our future capital requirements and the adequacy of our available funds will depend on many factors, including our ability to successfully commercialize our products and services, competing technological and market developments, and the need to enter into collaborations with other companies or acquire other companies or technologies to enhance or complement our product and service offerings.

We may be unable to raise sufficient additional capital when we need it or raise capital on favorable terms. Debt financing may require us to pledge certain assets and enter into covenants that could restrict certain business activities or our ability to incur further indebtedness, and may contain other terms that are not favorable to our stockholders or us. If we are unable to obtain adequate funds on reasonable terms, we may be required to significantly curtail or discontinue operations or obtain funds by entering into financing agreements on unattractive terms.

Our condensed consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplate our continuation as a going concern and the realization of assets and satisfaction of liabilities in the normal course of business. The carrying amounts of assets and liabilities presented in the financial statements do not necessarily purport to represent realizable or settlement values. The financial statements do not include any adjustment that might result from the outcome of this uncertainty.

During the six months ended June 30, 2015 and 2014, our sources and uses of cash were as follows:

Net Cash Used in Operating Activities

We experienced negative cash flow from operating activities for the six months ended June 30, 2015 and 2014 in the amounts of \$1,484,389 and \$1,759,925, respectively. The net cash used in operating activities for the six months ended June 30, 2015 was primarily due to cash used to fund a net loss of \$3,180,419, adjusted for net non-cash expenses in the aggregate amount of \$856,050 partially offset by \$839,980 of net cash provided by changes in the levels of operating assets and liabilities, primarily as a result of increases in accrued interest, expenses and other current liabilities and deferred revenues. The net cash used in operating activities for the six months ended June 30, 2014 was primarily due to cash used to fund a net loss of \$3,002,815, adjusted for non-cash expenses in the aggregate amount of \$1,116,329 partially offset by \$126,561 of net cash provided primarily as a result of increases in accounts payable plus accrued expenses and other current liabilities, due to cash constraints during the period.

Net Cash (Used in) Provided by Investing Activities

During the six months ended June 30, 2015, \$151,914 of cash was used to purchase fixed assets and \$75,000 was used to retain exclusivity of our disc/spine license. During the six months ended June 30, 2014, \$980 was provided by investing activities from the sale of fixed assets.

Net Cash Provided by Financing Activities

Net cash provided by financing activities during the six months ended June 30, 2015 and 2014 was \$1,625,950 and \$1,617,010, respectively. During the six months ended June 30, 2015, \$583,000 of net proceeds were from debt financings and \$1,051,000 of proceeds were from equity financings. During the six months ended June 30, 2014, \$592,010 of proceeds were from debt financings and \$1,025,000 of proceeds were from equity financings (including proceeds received in connection with the exercise of common stock purchase warrants).

Critical Accounting Policies and Estimates

There are no material changes from the critical accounting policies set forth in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” of our Form 10-K for the year ended December 31, 2014 filed with the Securities and Exchange Commission on March 31, 2015. Please refer to that document for disclosures regarding the critical accounting policies related to our business.

Off-Balance Sheet Arrangements

None.

Item 3: Quantitative and Qualitative Disclosures About Market Risk

Not applicable.

Item 4: Controls and Procedures

Disclosure Controls and Procedures

Disclosure controls are procedures that are designed with the objective of ensuring that information required to be disclosed in our reports filed under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), such as this Quarterly Report, is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms. Disclosure controls are also designed with the objective of ensuring that such information is accumulated and communicated to our management, including the Principal Executive and Financial Officer, as appropriate to allow timely decisions regarding required disclosure. Internal controls are procedures which are designed with the objective of providing reasonable assurance that (1) our transactions are properly authorized, recorded and reported; and (2) our assets are safeguarded against unauthorized or improper use, to permit the preparation of our condensed consolidated financial statements in conformity with United States generally accepted accounting principles.

In connection with the preparation of this Quarterly Report on Form 10-Q for the quarter ended June 30, 2015, management, with the participation of our Principal Executive and Financial Officer, has evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e) and 15d-15(e)). Based upon that evaluation, our Principal Executive and Financial Officer concluded that, as of the end of the period covered by this Quarterly Report on Form 10-Q, our disclosure controls and procedures were effective.

Changes in Internal Controls

There were no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f)) during the quarter ended June 30, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Limitations of the Effectiveness of Control

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Because of the inherent limitations of any control system, no evaluation of controls can provide absolute assurance that all control issues, if any, within a company have been detected.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings.

Not applicable.

Item 1A. Risk Factors.

Not applicable. See, however, Item 7 (“Management’s Discussion and Analysis of Financial Condition and Results of Operations - Factors That May Affect Future Results and Financial Condition”) of our Annual Report on Form 10-K for the year ended December 31, 2014, filed with the Securities and Exchange Commission on March 31, 2015.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

During the three months ended June 30, 2015, we issued the following securities in transactions not involving any public offering. For each of the following transactions, we relied upon Section 4(a)(2) of the Securities Act of 1933, as amended, as transactions by an issuer not involving any public offering. For each such transaction, we did not use general solicitation or advertising to market the securities, the securities were offered to a limited number of persons, the investors had access to information regarding us (including information contained in our Annual Report on Form 10-K for the year ended December 31, 2014, in some cases our Quarterly Report on Form 10-Q for the period ended March 31, 2015, and Current Reports on Form 8-K filed with the Securities and Exchange Commission and press releases made by us), and we were available to answer questions from prospective investors. We reasonably believe that each of the investors is an accredited investor. The proceeds were used to reduce our working capital deficit.
