About The New Ireland Fund

The Fund's investment objective is long-term capital appreciation through investment primarily in equity securities of Irish companies. Since 2011, Ireland has been among the strongest growing economies in Europe, and its economic performance has outpaced the broader Eurozone.

The Offer was intended to increase the assets of the Fund available for investment, enabling the Fund to take advantage of attractive investment opportunities consistent with its investment objective and strategies without having to reduce existing Fund holdings. In addition, increasing the assets of the Fund is expected to result in certain economies of scale which may lower the Fund's expense ratio.

Information about the Fund's performance, holdings and distributions is available on the Fund's website at www.newirelandfund.com.

The Fund is managed by KBI Global Investors (North America) Ltd. ("KBIGI"), a wholly owned subsidiary of KBI Global Investors Ltd. (based in Dublin, Ireland). KBI Global Investors Ltd. is majority owned by Amundi Asset Management, Europe's largest asset manager by assets under management. The Information Agent for the Offer was AST Fund Solutions, LLC and the Subscription Agent for the Offer was Computershare Inc.

Shares of closed-end investment companies frequently trade at a discount from their net asset value. The market price of the Fund's shares is determined by a number of factors, several of which are beyond the control of the Fund. Therefore, the Fund cannot predict whether its shares will trade at, below, or above their net asset value.

Before investing in the Fund, investors should carefully consider the investment objective, risks and expenses of the Fund.
