### Eaton Vance Corp.

#### Notes to Consolidated Financial Statements (unaudited)

##### (1) Basis of Presentation

In the opinion of management, the accompanying unaudited interim consolidated financial statements of Eaton Vance Corp. ( the Company ) include all adjustments necessary to present fairly the results for the interim periods in accordance with accounting principles generally accepted in the United States of America. Such financial statements have been prepared in accordance with the instructions to Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission ( SEC ). Certain information and footnote disclosures have been omitted pursuant to such rules and regulations. As a result, these financial statements should be read in conjunction with the audited consolidated financial statements and related notes included in the Company s latest annual report on Form 10-K.

##### (2) Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly and majority-owned subsidiaries. The equity method of accounting is used for investments in affiliates in which the Company s ownership ranges from 20 to 50 percent, or in instances in which the Company is able to exercise significant influence, but not control, over the investee (such as representation on the investee s board of directors). The Company consolidates all investments in affiliates in which the Company s ownership exceeds 50 percent or where the Company has control. The Company provides for minority interests in consolidated companies for which the Company s ownership is less than 100 percent. All material intercompany accounts and transactions have been eliminated.

**(3) Reclassifications and Presentation**

Certain prior year amounts have been reclassified to conform to the current year presentation. Certain fees have been reclassified from distribution and underwriter fees to service fees. Certain fees earned on Class A shares have been reclassified from distribution expenses to distribution and underwriter fees. Taxes payable have been reclassified from other current liabilities to taxes payable.

**(4) Earnings Per Share**

The following table provides a reconciliation of common shares used in the earnings per basic share and earnings per diluted share computations for the three and six months ended April 30, 2008 and 2007:

	For the Three		For the Six	
	Months Ended		Months Ended	
	April 30, 2008	2007	April 30, 2008	2007
<i>(in thousands, except per share data)</i>				
Weighted-average shares outstanding basic	115,421	125,937	115,849	126,094
Incremental common shares from stock options and				
restricted stock awards	7,850	9,226	9,688	9,125
Weighted-average shares outstanding diluted	123,271	135,163	125,537	135,219
Earnings per share:				
Basic	\$ 0.46	\$ 0.18	\$ 0.96	\$ 0.20
Diluted	\$ 0.43	\$ 0.17	\$ 0.89	\$ 0.19

8

---

The Company uses the treasury stock method to account for the dilutive effect of unexercised stock options and unvested restricted stock on earnings per diluted share. Antidilutive incremental common shares related to stock options excluded from the computation of earnings per diluted share were approximately 3,354,000 and 27,000 for the six months ended April 30, 2008 and 2007, respectively.

**(5) Other Intangible Assets**

The following is a summary of other intangible assets at April 30, 2008:

<i>(dollars in thousands)</i>	<b>Weighted-average amortization period (in years)</b>	<b>Gross carrying amount</b>	<b>Accumulated amortization</b>	<b>Net carrying amount</b>
<b>Amortizing intangible assets:</b>				
Client relationships acquired	12.2	\$58,404	\$26,579	\$31,825
<b>Non-amortizing intangible assets:</b>				
Mutual fund management contract acquired		2,808	-	2,808
<b>Total</b>		<b>\$61,212</b>	<b>\$26,579</b>	<b>\$34,633</b>

**(6) Investments**

The following is a summary of investments at April 30, 2008:

<i>(in thousands)</i>	<b>April 30, 2008</b>
<b>Short-term investments:</b>	
Sponsored fund	\$ 50,574
<b>Total</b>	<b>\$ 50,574</b>

<i>(in thousands)</i>	<b>April 30, 2008</b>
<b>Long-term investments:</b>	
Debt securities	\$ 1,256
Equity securities	20,437
Sponsored funds	34,293
Collateralized debt obligation entities	18,034
Investments in affiliates	18,711
Other investments	965
<b>Total</b>	<b>\$ 93,696</b>

**(7) Long-Term Debt**

The Company's long-term debt balance at April 30, 2008 is comprised entirely of its 6.5% ten-year senior notes due October 2, 2017. Interest is payable semi-annually in arrears on April 2 and October 2 of each year.

As of April 30, 2008, the Company had no borrowings against its \$200.0 million credit facility.

**(8) Stock-Based Compensation Plans**

The Company has four stock-based compensation plans, which are described below. The Company recognized total compensation cost related to those plans of \$20.7 million and \$22.5 million for the six months ended April 30, 2008 and 2007, respectively. The total income tax benefit recognized for stock-based compensation arrangements was \$5.4 million and \$6.4 million for the six months ended April 30, 2008 and 2007, respectively.

***Stock Option Plan***

The Company has a Stock Option Plan (the 2007 Plan) administered by the Compensation Committee of the Board of Directors under which options to purchase shares of the Company's Non-Voting Common Stock may be granted to all eligible employees and are automatically granted to independent directors of the Company. No stock options may be granted under the 2007 Plan with an exercise price that is less than the closing fair market value of the stock on the day the stock option is granted. The options granted under the 2007 Plan expire ten years from the date of grant; options to employees vest over a five-year period as stipulated in each grant. The 2007 Plan contains provisions that, in the event of a change of control of the Company as defined in the 2007 Plan, may accelerate the vesting of awards. A total of 4.0 million shares have been reserved for issuance under the 2007 Plan. Through April 30, 2008, options to purchase 3.4 million shares have been issued pursuant to the 2007 Plan.

The fair value of each stock option award is estimated on the date of grant using the Black-Scholes option valuation model. The Black-Scholes option valuation model incorporates assumptions as to dividend yield, volatility, an appropriate risk-free interest rate and the expected life of the option. Many of these assumptions require management's judgment. The Company's stock volatility assumption is based upon its historical stock price fluctuations. The Company has no reason to believe that its future stock price volatility will differ from the past. The Company uses historical data to estimate option forfeiture rates and the expected term of options granted. The risk-free rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of grant.

The weighted average fair values per share of options granted during the six months ended April 30, 2008 and 2007 using the Black-Scholes option pricing model were as follows:

Edgar Filing: EATON VANCE CORP - Form 10-Q

	April 30, 2008	2007
Weighted average grant date fair value		
of options granted	\$14.83	\$9.53
<b>Assumptions:</b>		
Dividend yield	1.2% to 1.9%	1.3% to 1.5%
Volatility	25% to 28%	26% to 27%
Risk-free interest rate	3.6% to 4.4%	4.6% to 4.8%
Expected life of options	6.8 to 7.8 years	6.8 years

10

Stock option transactions under the 2007 Plan and predecessor plans are summarized as follows:

**For the Six Months Ended April 30, 2008**

	Shares	Price	Weighted	
			Average	Average
			Remaining	Aggregate
			Contractual	Intrinsic
<i>(share and intrinsic value figures in thousands)</i>			Term	Value
Options outstanding, beginning of period	27,579	\$19.99		
Granted	3,377	48.09		
Exercised	(1,100)	14.80		
Forfeited/expired	(171)	31.31		
Options outstanding, end of period	29,685	\$23.31	6.2	\$433,726
Options exercisable, end of period	17,696	\$17.39	4.9	\$340,381
Vested or expected to vest	29,205	\$23.17	6.2	\$429,992

The Company received \$13.2 million and \$19.6 million related to the exercise of options for the six months ended April 30, 2008 and 2007, respectively. Options exercised represent newly issued shares. The total intrinsic value of options exercised during the six months ended April 30, 2008 and 2007 was \$27.7 million and \$25.3 million, respectively. The total fair value of options that vested during the six months ended April 30, 2008 was \$23.6 million.

The Company recorded compensation expense of \$18.9 million and \$21.3 million for the six months ended April 30, 2008 and 2007, respectively, relating to the 2007 Plan and successor plans. As of April 30, 2008, there was \$90.2 million of deferred compensation expense related to stock options, which is expected to be recognized over a weighted-average period of 3.4 years.

**Restricted Stock Plan**

The Company has a Restricted Stock Plan administered by the Compensation Committee of the Board of Directors under which restricted stock may be granted to key employees. Shares of the Company's Non-Voting Common Stock granted under the plan are subject to restrictions on transferability and carry the risk of forfeiture, based in each case on such considerations as the Compensation Committee shall determine. Unless the Compensation Committee determines otherwise, restricted stock that is still subject to restrictions upon termination of employment shall be forfeited. Restrictions on shares granted lapse five years from date of grant. A total of 2.0 million shares have been reserved under the plan. Through April 30, 2008, 0.9 million shares have been issued pursuant to this plan.

In the six months ended April 30, 2008 and 2007, 29,965 shares and 40,209 shares were issued pursuant to this plan at a weighted average fair value of \$48.39 and \$24.87 per share, respectively. Because these shares are contingently forfeitable, compensation expense is recorded over the forfeiture period. The Company recorded compensation expense of \$0.7 million and \$0.5 million for the six months ended April 30, 2008 and 2007, respectively, relating to shares issued pursuant to this plan. As of April 30, 2008, there was \$2.9 million of compensation cost related to unvested awards not yet recognized. That cost is expected to be recognized over a weighted-average period of 3.4 years.

11

---

A summary of the Company's restricted stock activity for the six months ended April 30, 2008 is presented below:

**For the Six Months Ended April 30, 2008**

<i>(share figures in thousands)</i>	<b>Shares</b>	<b>Weighted Average Grant Date Fair Value</b>
Unvested, beginning of period	178	\$21.93
Granted	30	48.39
Vested	(58)	18.97
Unvested, end of period	150	\$28.36

**Employee Stock Purchase Plan**

A total of 9.0 million shares of the Company's Non-Voting Common Stock have been reserved for issuance under the Employee Stock Purchase Plan. The plan qualifies under Section 423 of the United States Internal Revenue Code and permits eligible employees to direct up to 15 percent of their salaries to a maximum of \$12,500 per six-month offering period toward the purchase of Eaton Vance Corp. Non-Voting Common Stock at the lower of 90 percent of the market price of the Non-Voting Common Stock at the beginning or at the end of each six-month offering period. Through April 30, 2008, 7.3 million shares have been issued pursuant to this plan. The Company recorded compensation expense of \$0.7 million and \$0.4 million for the six months ended April 30, 2008 and 2007, respectively, relating to the Employee Stock Purchase Plan. The Company received \$1.8 million and \$1.6 million related to shares issued under the Employee Stock Purchase Plan in the six months ended April 30, 2008 and 2007, respectively.

***Incentive Plan-Stock Alternative***

A total of 4.8 million shares of the Company's Non-Voting Common Stock have been reserved for issuance under the Incentive Plan-Stock Alternative. The plan permits employees and officers to direct up to half of their monthly and annual incentive bonuses toward the purchase of Non-Voting Common Stock at 90 percent of the average closing market price of the stock for five business days subsequent to the end of the offering period. Through April 30, 2008, 3.3 million shares have been issued pursuant to this plan. The Company recorded compensation expense of \$0.4 million and \$0.3 million for the six months ended April 30, 2008 and 2007, respectively, relating to the Incentive Plan-Stock Alternative. The Company received \$4.9 million and \$2.9 million related to shares issued under the Incentive Plan-Stock Alternative in the six months ended April 30, 2008 and 2007, respectively.

**(9) Common Stock Repurchases**

The Company's current share repurchase program was announced on October 24, 2007. The Board authorized management to repurchase up to 8.0 million shares of its Non-Voting Common Stock on the open market and in private transactions in accordance with applicable securities laws. The Company's stock repurchase program is not subject to an expiration date.

In the first six months of fiscal 2008, the Company purchased approximately 3.7 million shares of its Non-Voting Common Stock under the current share repurchase authorization. Approximately 3.5 million additional shares may be repurchased under the current authorization.

12

---

**(10) Regulatory Requirements**

Eaton Vance Distributors, Inc. (EVD), a wholly owned subsidiary of the Company and principal underwriter of the Eaton Vance Funds, is subject to the SEC Uniform Net Capital Rule (Rule 15c3-1) which requires the maintenance of minimum net capital. For purposes of this rule, EVD had net capital of \$41.9 million at April 30, 2008, which exceeded its minimum net capital requirement of \$2.2 million. EVD's ratio of aggregate indebtedness to net capital at April 30, 2008 was 0.78-to-1.

**(11) Income Taxes**

Effective November 1, 2007, the Company adopted Financial Accounting Standards Board's (FASB) Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in the financial statements for a tax position taken or expected to be taken in a tax return. FIN 48 requires that the tax effects of a position be recognized only if it is more

## Edgar Filing: EATON VANCE CORP - Form 10-Q

likely than not to be sustained based solely on its technical merits as of the reporting date. The more-likely-than-not threshold must continue to be met in each reporting period to support continued recognition of the benefit. The difference between the tax benefit recognized in the financial statements for a tax position in accordance with FIN 48 and the tax benefit claimed in the income tax return is referred to as an unrecognized tax benefit.

The adoption of FIN 48 on November 1, 2007 resulted in a reduction to beginning retained earnings in the amount of \$5.0 million, which was reflected as a cumulative effect of a change in accounting principle, and a corresponding \$5.0 million increase to the Company's liability for uncertain tax positions. This increase in the liability for unrecognized tax benefits primarily reflects accruals for state income taxes.

On November 1, 2007, the Company carried a liability for unrecognized tax benefits of \$18.5 million, including \$3.0 million for interest and related charges, for uncertain state tax positions existing prior to the adoption of FIN 48. In the event that all of these liabilities were resolved favorably, the Company would reduce its income tax provision by approximately \$18.5 million, thereby lowering its effective tax rate. In the six-month period ended April 30, 2008, there were no material changes to these liabilities.

The Company historically classified the liability for unrecognized tax benefits in current taxes payable. Upon adoption of FIN 48, unrecognized tax benefits of \$0.9 million that are not expected to be paid in the next twelve months were reclassified to long-term taxes payable.

The Company's policy is to include interest and penalties in its income tax provision. The Company and its subsidiaries file income tax returns in U.S. federal, state, local and foreign jurisdictions. The Company is generally no longer subject to income tax examinations by U.S. federal, state, local, or non-U.S. tax authorities for fiscal years prior to fiscal 2004.

During the first quarter of fiscal 2008, the Company filed a request for change in accounting method with the Internal Revenue Service under the Service's automatic consent program. This request relates to the Company's treatment of expenses associated with the launch of closed-end funds. Historically the Company expensed these costs as incurred for tax purposes; the Company has now elected to capitalize and amortize these expenses for tax purposes over a 15 year period.

In conjunction with the filing of the request for a change in accounting method, the Company recorded a deferred tax asset of \$84.9 million, the majority of which will amortize over the 15 year period. In addition, the Company recorded a corresponding deferred tax liability in the amount of \$84.9 million, which will reverse over a four-year period ending October 31, 2011.

13

---

In the ordinary course of business, various taxing authorities may not agree with certain tax positions the Company has taken, or the applicable law may not be clear. To resolve some of these uncertainties, the Company has filed Voluntary Disclosure Agreements (VDAs) with specific state taxing authorities.

## Edgar Filing: EATON VANCE CORP - Form 10-Q

The Company believes that over the next 12 months its outstanding VDA filings and current state tax audits will be completed and it is reasonably possible that the Company's uncertain state tax positions could decrease between \$14.0 million and \$19.0 million in that period.

The provision for income taxes for the six months ended April 30, 2008 and 2007 consists of the following:

<i>(in thousands)</i>	<b>For the Six Months Ended</b>	
	<b>April 30, 2008</b>	<b>2007</b>
<b>Current:</b>		
Federal	\$ 80,234	\$ 17,296
State	10,299	2,286
<b>Deferred:</b>		
Federal	(17,716)	(2,341)
State	(1,885)	(270)
<b>Total</b>	<b>\$ 70,932</b>	<b>\$ 16,971</b>

Deferred income taxes reflect the expected future tax consequences of temporary differences between the carrying amounts and tax bases of the Company's assets and liabilities. The significant components of deferred income taxes are as follows:

<i>(in thousands)</i>	<b>April 30, 2008</b>	<b>October 31, 2007</b>
<b>Deferred tax assets:</b>		
Stock-based compensation	\$ 37,267	\$ 33,899
Deferred rent	587	676
Differences between book and tax bases of		
investments	726	619
Differences between book and tax bases of		
property	1,264	1,111
Unrealized losses on derivative instruments	1,479	1,558
Closed-end fund expenses	87,766	-
Other	426	1,931
<b>Total deferred tax asset</b>	<b>\$ 129,515</b>	<b>\$ 39,794</b>

14

---

<i>(in thousands)</i>	<b>April 30, 2008</b>	<b>October 31, 2007</b>
<b>Deferred tax liabilities:</b>		
Deferred sales commissions	\$ (31,918)	\$(37,573)
Closed-end fund expenses	(74,608)	-

## Edgar Filing: EATON VANCE CORP - Form 10-Q

Differences between book and tax bases of

goodwill and intangibles	(10,103)	(8,858)
Unrealized net holding gains on investments	(2,241)	(3,600)
Total deferred tax liability	\$(118,870)	\$(50,031)
Net deferred tax asset/(liability)	\$ 10,645	\$(10,237)

Deferred tax assets and liabilities reflected on the Company's Consolidated Balance Sheets (unaudited) at April 30, 2008 and October 31, 2007 are as follows:

<i>(in thousands)</i>	<b>April 30, 2008</b>	<b>October 31, 2007</b>
Net current deferred tax asset/(liability)	\$(20,148)	\$ 1,503
Net non-current deferred tax asset/(liability)	30,793	(11,740)
Net deferred tax asset/(liability)	\$ 10,645	\$(10,237)

The net current deferred tax liability of \$20.1 million as of April 30, 2008, principally represents the current portion of the remaining \$74.6 million deferred tax liability associated with the change in accounting method.

The net current deferred tax asset of \$1.5 million as of October 31, 2007 is classified as a component of other current assets on the Company's Consolidated Balance Sheet.

The exercise of stock options resulted in a reduction of taxes payable of approximately \$6.0 million and \$4.8 million for the six months ended April 30, 2008 and 2007, respectively. Such benefit has been reflected in shareholders' equity.

The Company's quarterly effective tax rate is based upon an estimate of the anticipated annual effective tax rate. The Company's effective tax rate (income taxes as a percentage of income before minority interest, equity in net income of affiliates and income taxes) was 38.3 percent and 38.5 percent for the six months ended April 30, 2008 and 2007, respectively. The primary reconciling item between the Company's overall effective tax rate and the statutory federal rate of 35 percent relates to state income taxes.

15

### (12) Comprehensive Income

Total comprehensive income includes net income and other comprehensive income, net of tax. The components of comprehensive income for the six months ended April 30, 2008 and 2007 are as follows:

**For the Six Months Ended**

**April 30,**

**2008**

**2007**

*(in thousands)*

Net income	\$ 111,090	\$ 25,652
Net unrealized gains (losses) on available-for-sale securities, net of income tax (expense)/benefit of \$1,306 and \$(1,410), respectively	(2,248)	2,526
Foreign currency translation adjustments, net of income taxes of \$53 and \$26, respectively	(94)	37
Change in unamortized losses on derivative instruments, net of income tax of \$79	145	-
Comprehensive income	\$ 108,893	\$ 28,215

**(13) Derivative Financial Instruments**

In October 2007, the Company issued \$500.0 million in aggregate principal amount of 6.5 percent ten-year senior notes due October 2017. In anticipation of the offering, the Company entered into an interest rate lock transaction with an aggregate notional amount of \$200.0 million intended to hedge against movements in ten-year Treasury rates between the time at which the decision was made to issue the debt and the pricing of the securities. The prevailing Treasury rate had declined as of the time of the pricing of the securities. At the time the debt was issued, the Company terminated the lock agreement and settled the transaction in cash. At termination, the interest rate lock was determined to be an effective cash flow hedge and the \$4.5 million settlement cost was recorded as a loss in other comprehensive income, net of tax.

The loss recorded in other comprehensive income will be reclassified to earnings as a component of interest expense over the term of the debt. During the six months ended April 30, 2008, the Company reclassified \$0.3 million of the loss on the Treasury lock transaction into interest expense. At April 30, 2008, the remaining unamortized loss on this transaction was \$4.2 million. During the remaining six months of fiscal 2008, the Company expects to reclassify approximately \$0.2 million of the loss on the Treasury lock transaction into interest expense.

**(14) Commitments and Contingencies**

In the normal course of business, the Company enters into agreements that include indemnities in favor of third parties, such as engagement letters with advisors and consultants, information technology agreements, distribution agreements and service agreements. The Company has also agreed to indemnify its directors, officers and employees in accordance with the Company's Articles of Incorporation, as amended. Certain agreements do not contain any limits on the Company's liability and, therefore, it is not possible to estimate the Company's potential liability under these indemnities. In certain cases, the Company has recourse against third parties with respect to these indemnities. Further, the Company maintains insurance policies that may provide coverage against certain claims under these indemnities.

The Company and its subsidiaries are subject to various legal proceedings. In the opinion of management, after discussions with legal counsel, the ultimate resolution of these matters will not have a material adverse effect on the consolidated financial condition or results of operations of the Company.

In July 2006, the Company committed to invest \$15.0 million in a private equity partnership that invests in companies in the financial services industry. The Company had invested \$10.6 million of the total \$15.0 million of committed capital at April 30, 2008. The Company anticipates investing the remaining \$4.4 million by September 2010.

#### **(15) Recent Accounting Developments**

In May 2008, the FASB issued SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles*. SFAS No. 162 is intended to improve financial reporting by identifying a consistent framework, or hierarchy, for selecting accounting principles to be used in preparing financial statements that are presented in conformity with U.S. generally accepted accounting principles ( GAAP ) for nongovernmental entities. SFAS No. 162 is effective 60 days following the SEC's approval of the Public Company Accounting Oversight Board Auditing amendments to AU Section 411, *The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles*. Management does not anticipate that the provisions of SFAS No. 162 will have an impact on the Company's consolidated results of operations or consolidated financial position.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities*—an amendment of FASB Statement No. 133. SFAS No. 161 requires enhanced disclosures about an entity's derivative and hedging activities to improve the transparency of financial reporting. SFAS No. 161 is effective for financial statements issued for periods beginning after November 15, 2008. SFAS No. 161 is effective for the Company's fiscal quarter that begins on February 1, 2009. Management is currently evaluating the potential impact, if any, on the Company's disclosures in its consolidated financial statements.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements, an Amendment of ARB No. 51*. SFAS No. 160 amends ARB No. 51 to establish accounting and reporting standards for noncontrolling interests in subsidiaries and for the deconsolidation of subsidiaries. It clarifies that a noncontrolling interest in a subsidiary is an ownership interest that should be reported as equity in the consolidated financial statements. The provisions of SFAS No. 160 are effective for fiscal years beginning on or after December 15, 2008, and interim periods within those fiscal years on a prospective basis except for the presentation and disclosure requirements which apply retrospectively. Earlier application of SFAS No. 160 is prohibited. SFAS No. 160 is effective for the Company's fiscal year that begins on November 1, 2009. Management is currently evaluating the potential impact, if any, on the Company's consolidated financial statements.

In December 2007, the FASB amended SFAS No. 141 (revised 2007), *Business Combinations*. SFAS No. 141R, establishes principles and requirements for how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree. SFAS No. 141R applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first reporting period for fiscal years beginning on or after December 15, 2008. Earlier application of SFAS 141R is prohibited. SFAS No. 141R is effective for the Company's fiscal year that begins on November 1, 2009 and will be applied to future acquisitions.

In June 2007, the FASB ratified the consensus reached by the Emerging Issues Task Force ( EITF ) in EITF Issue No. 06-11, *Accounting for Income Tax Benefits of Dividends on Share-Based Payment Awards*. Under the provisions of EITF 06-11, a realized income tax benefit from dividends or dividend equivalents that are charged to retained earnings and are paid to employees for equity classified nonvested equity shares, nonvested equity share units, and outstanding equity share options should be recognized as

---

an increase to additional paid-in capital. The amount recognized in additional paid-in capital for the realized income tax benefit from dividends on those awards should be included in the pool of excess tax benefits available to absorb tax deficiencies on share-based payment awards. EITF 06-11 should be applied prospectively to the income tax benefits that result from dividends on equity-classified employee share-based payment awards that are declared in fiscal years beginning after December 15, 2007, and interim periods within those fiscal years. EITF 06-11 is effective for the Company's fiscal year that begins on November 1, 2008. Management is currently evaluating the potential impact of EITF 06-11, if any, on the Company's consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*. SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value. The objective of the statement is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. The provisions of SFAS No. 159 are effective for fiscal years beginning after November 15, 2007. SFAS No. 159 is effective for the Company's fiscal year that begins on November 1, 2008. Management is currently evaluating this standard and its impact, if any, on the Company's consolidated financial statements.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*. SFAS No. 157 defines fair value, establishes a framework for measuring fair value, and expands disclosure requirements about fair value measurements. SFAS No. 157 applies to other accounting pronouncements that require or permit fair value measurements but does not in itself require any new fair value measurements. The provisions of SFAS No. 157 are effective for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. On February 6, 2008 the FASB agreed to partially defer the effective date of SFAS No. 157 for one year for all nonfinancial assets and nonfinancial liabilities except those items recognized or disclosed at fair value on an annual or more frequently occurring basis, until November 15, 2008 and remove certain leasing transactions from the scope of SFAS No. 157. SFAS No. 157 is effective for the Company's fiscal year that begins on November 1, 2008. Management is currently evaluating this standard and its impact, if any, on the Company's consolidated financial statements.

#### **(16) Subsequent Event**

In April 2008, the minority investors in Parametric Portfolio Associates LLC exercised a put option, requiring the Company to purchase an additional interest in Parametric Portfolio Associates LLC for \$21.5 million. The transaction settled on May 1, 2008 and increased the Company's capital ownership interest from 84.3 percent to 89.3 percent and its profits interest from 81.2 percent to 82.3 percent. The additional purchase price will be allocated between intangible assets and goodwill in the third quarter.

In May 2008, the minority investors in Atlanta Capital Management Company, LLC, exercised a put option, requiring the Company to purchase an additional interest in Atlanta Capital Management Company, LLC, for \$5.0 million. The transaction will settle on June 30, 2008 and will increase the Company's ownership interest from 80.4 percent to 85.5 percent. The additional purchase price will be allocated between intangible assets and goodwill in the third quarter.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

*This Item includes statements that are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, including statements regarding our expectations, intentions or strategies regarding the future. All statements, other than statements of historical facts, included in this Form 10-Q regarding our financial position, business strategy and other plans and objectives for future operations are forward-looking statements. Although we believe that the assumptions and expectations reflected in such forward-looking statements are reasonable, we can give no assurance that such expectations reflected in such forward-looking statements will prove to have been correct or that we will take any actions that may presently be planned. Certain important factors that could cause actual results to differ materially from our expectations are disclosed in the Risk Factors section of this Form 10-Q. All subsequent written or oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by such factors.*

### General

Our principal business is managing investment funds and providing investment management and counseling services to high-net-worth individuals and institutions. Our long-term strategy is to develop and sustain value-added core competencies in a range of investment disciplines and to offer industry-leading investment products and services across multiple distribution channels. In executing this strategy, we have developed a broadly diversified product line and a powerful marketing, distribution and customer service capability.

We are a market leader in a number of investment areas, including tax-managed equity, value equity, equity income, emerging market equity, floating-rate bank loan, municipal bond, investment grade and high-yield bond investing. Our diversified product line offers fund shareholders, retail managed account investors, institutional investors and high-net-worth clients a wide range of products and services designed and managed to generate attractive risk-adjusted returns over the long term.

Our principal retail marketing strategy is to distribute funds and separately managed accounts through financial intermediaries in the advice channel. We have a broad reach in this marketplace, with distribution partners including national and regional broker/dealers, independent broker/dealers, independent financial advisory firms, banks and insurance companies. We support these distribution partners with a team of more than 140 Boston-based and regional sales professionals across the U.S. and internationally. Specialized sales and marketing professionals in our Wealth Management Solutions Group serve as a resource to financial advisors seeking to help high-net-worth clients address wealth management issues and support the marketing of our products and services tailored to this marketplace.

We also commit significant resources to serving institutional and high-net-worth clients who access investment advice outside of traditional retail broker/dealer channels. Through our wholly owned affiliates and consolidated subsidiaries Atlanta Capital Management Company, LLC ( Atlanta Capital ), Fox Asset Management LLC ( Fox Asset Management ), Parametric Portfolio Associates LLC ( Parametric Portfolio Associates ) and Parametric Risk Advisors LLC ( Parametric Risk Advisors ), we manage investments for a broad range of institutional and high-net-worth clients, including corporations, endowments, foundations, family offices and public and private employee retirement plans. Specialized sales teams at our affiliates develop relationships in this market and deal directly with these clients.

Our revenue is derived primarily from investment advisory, administration, distribution and service fees received from Eaton Vance funds and investment advisory fees received from separate accounts. Our fees are based primarily on the value of the investment portfolios we manage and fluctuate with changes in the total value and mix of assets under management. Such fees are recognized over the period that we manage these assets. Our major expenses are employee compensation, distribution-related expenses and amortization of deferred sales commissions.

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses and related disclosures of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates, including those related to deferred sales commissions, goodwill and intangible assets, income taxes, investments and stock-based compensation. We base our estimates on historical experience and on various assumptions that we believe to be reasonable under current circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily available from other sources. Actual results may differ from these estimates under different assumptions or conditions.

#### Assets Under Management

Assets under management of \$159.1 billion on April 30, 2008 were 6 percent higher than the \$150.0 billion reported a year earlier. Long-term fund net inflows contributed \$8.2 billion to growth in assets under management over the last twelve months, including \$1.5 billion of closed-end fund net inflows and \$6.7 billion of open-end and private fund net inflows. Retail managed account net inflows contributed \$4.8 billion to growth in assets under management, while institutional and high-net-worth net inflows contributed an additional \$1.9 billion. Net price declines of managed assets, reflecting equity and income market weakness, reduced assets under management by \$6.0 billion, while an increase in cash management assets contributed \$0.2 billion.

#### Ending Assets Under Management by Investment Category <sup>(1)</sup>

(in billions)	April 30,		2007	% of Total	% Change
	2008	% of Total			
Equity assets	\$ 107.7	68%	\$ 96.0	64%	12%
Fixed income assets	32.4	20%	31.6	21%	3%
Floating-rate bank loan assets	19.0	12%	22.4	15%	-15%
Total	\$ 159.1	100%	\$ 150.0	100%	6%

<sup>(1)</sup> Includes funds and separate accounts.

Equity assets represented 68 percent of total assets under management on April 30, 2008, compared to 64 percent on April 30, 2007. Assets in equity funds managed for after-tax returns totaled \$50.3 billion and \$51.7 billion on April 30, 2008 and 2007, respectively. Fixed income assets, including cash management funds, represented 20 percent of total assets under management on April 30, 2008, compared to 21 percent on April 30, 2007. Fixed income assets included \$17.1 billion and \$17.2 billion of tax-exempt municipal bond assets and \$2.0 billion and \$1.7 billion of cash management fund assets on April 30, 2008 and 2007, respectively. Floating-rate bank loan assets represented 12 percent of total assets under management on April 30, 2008, compared to 15 percent on April 30, 2007.

**Long-Term Fund and Separate Account Net Flows**

<i>(in billions)</i>	<b>For the Three</b>			<b>For the Six</b>		
	<b>Months Ended</b>			<b>Months Ended</b>		
	<b>April 30, 2008</b>	<b>2007</b>	<b>% Change</b>	<b>April 30, 2008</b>	<b>2007</b>	<b>% Change</b>
Long-term funds:						
Closed-end funds	\$ -	\$ 5.8	NM	\$ 0.1	\$ 8.6	-99%
Open-end funds <sup>(1)</sup>	2.2	2.8	-21%	4.2	5.1	-18%
Private funds	-	0.5	NM	(0.1)	1.4	NM
Total long-term fund net inflows	2.2	9.1	-76%	4.2	15.1	-72%
Institutional/HNW <sup>(2)</sup> accounts	1.0	0.3	233%	1.5	(0.3)	NM

Total separate account net inflows	2.7	1.4	93%	4.3	1.4	207%
Total net inflows	\$ 4.9	\$ 10.5	-53%	\$ 8.5	\$ 16.5	-48%

<sup>(1)</sup> Includes net flows of bank loan interval funds.

<sup>(2)</sup> High-net-worth ( HNW )

<sup>(3)</sup> Not meaningful ( NM )

Net inflows totaled \$4.9 billion in the second quarter of fiscal 2008 compared to \$10.5 billion, or \$4.7 billion excluding closed-end fund flows, in the second quarter of fiscal 2007. Closed-end fund offerings contributed \$5.8 billion in net inflows in the second quarter of fiscal 2007 versus none in the second quarter of fiscal 2008. Open-end fund net inflows of \$2.2 billion and \$2.8 billion in the second quarter of fiscal 2008 and 2007, respectively, reflect gross inflows of \$6.4 billion and \$5.7 billion and redemptions of \$4.2 billion and \$2.9 billion, respectively. Flows into private funds, which include privately offered equity and bank loan funds as well as collateralized debt obligation entities, netted to zero in the second quarter of fiscal 2008, compared to \$0.5 billion of net inflows in the second quarter of fiscal 2007.

Separate accounts contributed net inflows of \$2.7 billion in the second quarter of fiscal 2008, compared to \$1.4 billion in the second quarter of fiscal 2007. Retail managed account net inflows increased to \$1.7 billion in the second quarter of fiscal 2008 from \$1.1 billion in the second quarter of fiscal 2007, reflecting strong net sales of Parametric Portfolio Associates' overlay and tax-efficient core equity products and Eaton Vance Management's ( EVM's ) large cap value and municipal bond products. Institutional and high-net-worth net inflows increased to \$1.0 billion in the second quarter of fiscal 2008 from \$0.3 billion in the second quarter of fiscal 2007, primarily reflecting strong high-net-worth net inflows at Parametric Portfolio Associates and a positive contribution from EVM's institutional initiative.

Cash management fund assets, which are not included in long-term net flows because of their short-term characteristics, increased to \$2.0 billion on April 30, 2008 from \$1.7 billion on April 30, 2007.

Edgar Filing: EATON VANCE CORP - Form 10-Q

The following table summarizes the asset flows by investment category for the three and six-month periods ended April 30, 2008 and 2007:

21

<sup>(1)</sup> Includes other classes of Eaton Vance open-end funds and non-Eaton Vance funds subadvised by Atlanta

Capital, Fox Asset Management and Parametric Portfolio Associates.

<sup>(2)</sup> Includes privately offered equity and bank loan funds and CDO entities.

We currently sell our sponsored open-end mutual funds under four primary pricing structures: front-end load commission ( Class A ); spread-load commission ( Class B ); level-load commission ( Class C ); and institutional no-load ( Class I ). We waive the sales load on Class A shares under certain circumstances. In such cases, the shares are sold at net asset value.

Fund assets represented 74 percent of total assets under management at April 30, 2008, compared to 77 percent at April 30, 2007. Class A share assets increased to 23 percent of total assets under management at April 30, 2008 from 22 percent at April 30, 2007, while Class B shares dropped to 3 percent at April 30, 2008 from 4 percent at April 30, 2007. The shift from Class B share assets to Class A share assets reflects the overall increasing popularity of Class A shares and the declining popularity of Class B shares in broker/dealer distribution systems. Class C share assets represented 6 percent of total assets under management on April 30, 2008 and 2007, while Class I share assets represented 2 percent of total assets under management on April 30, 2008 and 2007. Private funds represented 17 percent of total assets under management at April 30, 2008, compared to 19 percent on April 30, 2007. Closed-end funds represented 20 percent of the Company's total assets under management on April 30, 2008, compared to 22 percent on April 30, 2007.

Separate account assets, which include high-net-worth, institutional and retail managed account assets, totaled \$41.9 billion, or 26 percent of total assets under management, at April 30, 2008, up from \$34.2 billion, or 23 percent of total assets under management, at April 30, 2007. High-net-worth and institutional separate account assets increased by \$3.2 billion, or 14 percent, in the last twelve months, while retail managed account assets increased by \$4.5 billion, or 37 percent, in the same period. The increase in high-net-worth and institutional assets in the last twelve months reflects strong high-net-worth net inflows at Parametric Portfolio Associates and the acquisition of Parametric Risk Advisors in the third quarter of fiscal 2007. Retail managed account assets were positively impacted in the last twelve months by strong net sales of Parametric Portfolio Associates' overlay and tax-efficient core equity products and EVM's large-cap value and municipal bond products.

23

The average assets under management presented in the following table represent a monthly average by asset class. This table is intended to provide useful information in the analysis of our asset-based revenue and distribution expenses. With the exception of our separate account investment advisory fees, which are generally calculated as a percentage of either beginning, average or ending quarterly assets, our investment advisory, administration, distribution and service fees are generally calculated as a percentage of average daily assets.

**Results of Operations**

We reported net income of \$53.2 million, or \$0.43 per diluted share, in the second quarter of fiscal 2008 compared to \$23.1 million, or \$0.17 per diluted share, in the second quarter of fiscal 2007. Operating results for the second quarter of fiscal 2007 reflect the payment of \$46.3 million in one-time structuring fees and \$8.1 million in marketing incentives related to a closed-end fund offered during the quarter. These one-time structuring fees and marketing incentives, which are included in distribution expense and compensation expense, respectively, reduced earnings for the second quarter of fiscal 2007 by \$0.25 per diluted share.

We reported net income of \$111.1 million, or \$0.89 per diluted share, in the first six months of fiscal 2008 compared to \$25.7 million, or \$0.19 per diluted share, in the first six months of fiscal 2007. Operating results for the first six months of fiscal 2007 reflect payments of \$63.4 million in one-time structuring fees and \$12.6 million in marketing incentives related to closed-end funds offered during the period. Operating results for the first six months of fiscal 2007 also include payments totaling \$52.2 million to Merrill Lynch, Pierce, Fenner & Smith and A.G. Edwards & Sons, Inc. to terminate compensation agreements in respect of certain of our previously offered closed-end funds under which we were obligated to make payments over time based on the assets of the respective closed-end funds. These

24

one-time structuring fees, marketing incentives and termination payments reduced diluted earnings for the first six months of fiscal 2007 by approximately \$0.58 per share.

In evaluating operating performance we consider operating income and net income, which are calculated on a basis consistent with accounting principles generally accepted in the United States of America ( GAAP ), as well as adjusted operating income, an internally derived non-GAAP performance measure. We define adjusted operating income as operating income plus closed-end fund structuring fees and one-time payments, stock-based compensation and any write-off of intangible assets or goodwill. We believe that adjusted operating income is a key indicator of our ongoing profitability and therefore use this measure as the basis for calculating performance-based management incentives. Adjusted operating income is not, and should not be construed to be, a substitute for operating income computed in accordance with GAAP. However, in assessing the performance of the business, our management and the Board of Directors look at adjusted operating income as a measure of underlying performance, since amounts resulting from one-time events (e.g., the offering of a closed-end fund) can have a material short-term impact on GAAP earnings. In addition, when assessing performance, management and the Board look at performance both with and without stock-based

Edgar Filing: EATON VANCE CORP - Form 10-Q

compensation.

The following table provides a reconciliation of operating income to adjusted operating income:

<sup>(1)</sup> Certain amounts from prior years have been reclassified to conform to the current year presentation. See footnote 3 in Item 1 for further discussion of this change.

*Investment advisory and administration fees*

Investment advisory and administration fees are determined by contractual agreements with our sponsored funds and separate accounts and are generally based upon a percentage of the market value of assets under management. Net asset flows and changes in the market value of managed assets affect the amount of managed assets on which investment advisory and administration fees are earned, while changes in asset mix among different investment disciplines and products affect our average effective fee rate. Investment advisory and administration fees represented 73 percent and 70 percent of total revenue for the six months ended April 30, 2008 and 2007, respectively.

The increase in investment advisory and administration fees of 9 percent and 16 percent in the second quarter and first six months of fiscal 2008, respectively, over the same periods a year earlier can be attributed primarily to an increase in average assets under management and a modest increase in our average effective investment advisory and administration fee rate. Average assets under management increased by 7 percent and 13 percent in the second quarter and first six months of fiscal 2008, respectively, over the same periods a year ago. Fund average effective fee rates increased to 60 basis points in the first six months of fiscal 2008 from 57 basis points in the first six months of fiscal 2007. Separately managed account average effective fee rates were 31 basis points in the first six months of fiscal 2008 and 2007.

*Distribution and underwriter fees*

Distribution plan payments received by the Company are made under contractual agreements with our sponsored funds and are calculated as a percentage of average assets under management in specific share classes of our mutual funds, as well as certain private funds. These fees fluctuate with both the level of average assets under management and the relative mix of assets. Underwriter commissions are earned on the sale of shares of our sponsored mutual funds on which investors pay a sales charge at the time of purchase (Class A share sales). Sales charges and underwriter commissions are waived or reduced on sales that exceed specified minimum amounts and on certain categories of sales. Underwriter commissions fluctuate with the level of Class A share sales and the mix of Class A shares sold with and without sales charges. Distribution and underwriter fees represented 12 percent and 14 percent of total revenue for the six months ended April 30, 2008 and 2007, respectively.

26

---

Distribution plan payments received decreased 10 percent, or \$3.3 million, to \$29.1 million in the second quarter of fiscal 2008 over the same period a year earlier, reflecting a decrease in average Class B and certain private fund assets subject to distribution fees. Class B share distribution fees received decreased by 23 percent, or \$2.8 million, to \$9.5 million, reflecting a decrease in average Class B share assets under management of 25 percent year-over-year. Private fund distribution fees decreased by 10 percent, or \$0.3 million, to \$3.0 million, reflecting a decrease in average private fund assets under management of 9 percent. Underwriter fees and other distribution income decreased 7 percent, or \$0.2 million, to \$3.4 million in the second quarter of fiscal 2008, primarily reflecting a decrease of \$0.7 million in underwriter fees on Class A share sales offset by an increase of \$0.6 million in contingent deferred sales charges received on certain Class A share redemptions.

Distribution plan payments received decreased 5 percent, or \$3.0 million, to \$62.0 million in the first six months of fiscal 2008 over the same period a year earlier, reflecting a decrease in average Class B and certain private fund assets subject to distribution fees, partially offset by an increase in Class A and Class C share distribution fees received. Class B share distribution fees decreased by 19 percent, or \$4.8 million, to \$20.7 million, reflecting a decrease in average Class B share assets under management of 20 percent year-over-year. Private fund distribution fees decreased by 5 percent, or \$0.3 million, to \$6.4 million, reflecting a decrease in average private fund assets subject to distribution fees of 4 percent. Class A share distribution fees increased by 42 percent, or \$0.4 million, to \$1.2 million, reflecting a 40 percent increase in average Class A share assets that are subject to distribution fees (primarily in funds advised by Lloyd George Management). Class C share distribution fees increased by 5 percent, or \$1.7 million, to \$33.5 million, reflecting an increase in average assets subject to distribution fees of 6 percent. Underwriter fees and other distribution income increased 8 percent, or \$0.6 million, to \$7.5 million in the first six months of fiscal 2008, primarily reflecting an increase of \$1.5 million in contingent deferred sales charges received on certain Class A share redemptions offset by a decrease of \$1.0 million in underwriter fees received on Class A share sales.

#### *Service fees*

Service plan payments received by the Company are made under contractual agreements with our sponsored funds and are calculated as a percent of average assets under management in specific share classes of our mutual funds (principally Classes A, B and C) as well as certain private funds. Service fees are paid to Eaton Vance Distributors, Inc. as principal underwriter for service and/or the maintenance of shareholder accounts. Service fees represented 14 percent and 15 percent of total revenue for the six months ended April 30, 2008 and 2007, respectively.

Service fee revenue increased by 2 percent in the second quarter and 8 percent in the first six months of fiscal 2008 over the same periods a year ago, primarily reflecting a 2 percent and 8 percent increase in average assets under management in Class A, B, and C shares and private funds that pay service fees for the three and six month periods ended April 30, 2008, respectively.

#### *Other revenue*

Other revenue, which consists primarily of shareholder service fees, miscellaneous dealer income, custody fees, and investment income earned by consolidated funds and certain limited partnerships, decreased by 23 percent, or \$0.3 million, in the second quarter of fiscal 2008 over the same period a year earlier. The decrease in other revenue in the second quarter of fiscal 2008 can be attributed primarily to a decrease in realized and unrealized gains on securities classified as trading. Other revenue for the second quarter of fiscal 2008 and 2007 includes \$35,000 and \$0.3 million, respectively, of investment income related to consolidated funds and certain limited partnerships for the periods during which they were consolidated.

27

---

Other revenue decreased by 28 percent, or \$0.9 million, in the first six months of fiscal 2008 over the same period a year earlier, primarily due to a decrease in realized and unrealized gains on securities classified as trading. Other revenue for the first six months of fiscal 2008 and 2007 includes \$0.2 million and \$0.8 million, respectively, of investment income related to consolidated funds and certain limited partnerships for the periods during which they were consolidated.

#### *Expenses*

Edgar Filing: EATON VANCE CORP - Form 10-Q

Operating expenses decreased by 21 percent in both the second quarter and first six months of fiscal 2008, respectively, over the same periods a year earlier, primarily reflecting a decrease in distribution expense associated with the offering of closed-end funds in the first six months of fiscal 2007.

<sup>(1)</sup> Certain amounts from prior years have been reclassified to conform to the current year presentation. See footnote 3 in Item 1 for further discussion of this change.

*Compensation of officers and employees*

Compensation expense decreased by \$3.9 million, or 5 percent, in the second quarter of fiscal 2008 compared to the same period a year earlier, primarily reflecting a decrease in sales incentives offset by increases in base compensation, payroll taxes, employee benefits, adjusted operating income-based incentives and stock-based compensation. Sales incentives decreased by \$11.0 million, or 52 percent, primarily reflecting the \$8.1 million in closed-end fund sales incentives paid out in the second quarter of fiscal 2007 and a decrease in incentives paid on sales of our open-end funds. Base compensation, payroll taxes and employee benefits increased by \$4.6 million, or 17 percent, reflecting an 11 percent increase in average headcount and year-end salary adjustments. Adjusted operating-income based incentives increased by \$2.0 million, or 9 percent, reflecting the increase in adjusted operating income year over year. Stock-based compensation expense increased by \$0.7 million, or 8 percent, reflecting the increase in average headcount.

Compensation expense totaled \$157.2 million in the first six months of fiscal 2008 compared to \$157.1 million in the first six months of fiscal 2007. Decreases in sales incentives and stock-based compensation expense of \$15.1 million and \$1.8 million, respectively, were offset by increases in base compensation, payroll taxes, employee benefits, and adjusted operating income-based incentives of \$7.2 million, \$0.4 million, \$1.1 million and \$7.6 million, respectively. As noted above, the decrease in sales incentives year over year can be attributed to closed-end fund sales incentives paid out in the first six months of fiscal 2007 and a decrease in sales incentives paid on sales of our open-end funds. The decrease in stock-based

compensation expense can be attributed to a decrease in option grants to retirement-eligible employees in the first quarter of fiscal 2008. The increases noted in base compensation, payroll taxes and employee benefits can be attributed to a 10 percent increase in average headcount and year-end salary adjustments. The increase noted in adjusted operating income-based incentives can be attributed to an increase in adjusted operating income year over year.

Our retirement policy provides that an employee is eligible for retirement at age 65, or for early retirement when the employee reaches age 55 and has a combined age plus years of service of at least 75 years or with our consent. Stock-based compensation expense for employees approaching retirement eligibility is recognized on a straight-line basis over the period from the grant date through the retirement eligibility date. Stock-based compensation expense for employees who will not become retirement eligible during the vesting period of the options (five years) is recognized on a straight-line basis.

The accelerated recognition of compensation cost for employees who are retirement-eligible or are nearing retirement eligibility under our retirement policy is applicable for all grants made on or after our adoption of Statement of Financial Accounting Standards ( SFAS ) No. 123R (November 1, 2005). The accelerated recognition of compensation expense associated with stock option grants to retirement-eligible employees in the quarter when the options are granted (the first quarter of each fiscal year) reduces the associated stock-based compensation expense that would otherwise be recognized in subsequent quarters.

#### *Distribution expense*

Distribution expense consists primarily of ongoing payments made to distribution partners pursuant to third-party distribution arrangements for Class C and certain closed-end fund assets, which are calculated as a percentage of average assets under management, commissions paid to broker/dealers on the sale of Class A shares at net asset value, structuring fees paid on new closed-end fund offerings and other marketing expenses, including marketing expenses associated with revenue sharing arrangements with our distribution partners.

Distribution expense decreased by 63 percent, or \$48.7 million, in the second quarter of fiscal 2008 over the same period a year earlier, primarily reflecting the payment of \$46.3 million in one-time structuring fees associated with the offering of a closed-end fund in the second quarter of fiscal 2007. Distribution expense decreased by 65 percent, or \$115.2 million, in the first six months of fiscal 2008 over the same period a year earlier, primarily reflecting the payment of \$63.4 million in one-time structuring fees associated with the offering of closed-end funds in the first six months of fiscal 2007 as well as \$52.2 million in payments made to Merrill Lynch, Pierce, Fenner & Smith and A.G. Edwards & Sons, Inc. to terminate certain closed-end fund compensation agreements under which we were obligated to make recurring payments over time based on the assets of the respective closed-end funds.

#### *Service fee expense*

Service fees we receive from sponsored funds are generally retained in the first year and paid to broker/dealers after the first year pursuant to third-party service arrangements. These fees are calculated as a percent of average assets under management in specific share classes of our mutual funds (principally Classes A, B, and C) as well as certain private funds. Service fee expense increased by 10 percent and 14 percent in the second quarter and first six months of fiscal 2008 over the same periods a year earlier, reflecting an increase in average fund assets retained more than one year in funds and share classes that are subject to service fees.

---

*Amortization of deferred sales commissions*

Amortization expense is affected by ongoing sales and redemptions of mutual fund Class B shares, Class C shares and certain private funds. Amortization of deferred sales commissions decreased by 10 percent and 5 percent in the second quarter and first six months of fiscal 2008 compared to the same periods a year earlier. As amortization expense is a function of the Company's fund sales mix, a continuing shift away from Class B shares to other classes over time will likely result in a reduction in amortization expense over time.

*Fund expenses*

Fund expenses consist primarily of fees paid to subadvisors, compliance costs and other fund-related expenses we incur. Fund expenses increased by 33 percent and 43 percent in the second quarter and first six months of fiscal 2008, respectively, over the same periods a year earlier, primarily reflecting increases in subadvisory fees and other fund-related expenses. The increase in subadvisory fees can be attributed to the increase in average assets under management in funds for which external investment advisors act as subadvisors. The increase in other fund-related expenses can be attributed to an increase in expenses for certain institutional funds for which we are paid an all-in management fee and are obligated to pay the funds' operating expenses.

*Other expenses*

Other expenses consist primarily of travel, facilities, information technology, consulting, communications and other corporate expenses, including the amortization of intangible assets.

Other expenses increased by 15 percent, or \$3.1 million, in the second quarter of fiscal 2008 over the same period a year earlier, primarily reflecting increases in facilities-related expenses of \$1.5 million and information technology expense of \$1.8 million. The increase in facilities-related expenses can be attributed to an increase in rent and insurance associated with additional office space leased to support the growth in headcount and accelerated amortization of leasehold improvements in anticipation of our move to new corporate headquarters in Boston in fiscal 2009. The increase in information technology expense can be attributed to an increase in outside data services and consulting costs incurred in conjunction with several significant system implementations.

Other expenses increased by 19 percent, or \$7.4 million, in the first six months of fiscal 2008 over the same period a year earlier, primarily reflecting increases in facilities-related expenses of \$2.5 million, information technology expense of \$3.8 million, communications expense of \$0.4 million and other corporate expenses of \$1.3 million, offset by a decrease in travel of \$0.8 million. The increase in facilities-related expenses can be attributed to an increase in rent and insurance associated with additional office space leased to support the growth in headcount and accelerated amortization of leasehold improvements in anticipation of our move to new corporate headquarters in Boston in fiscal 2009. The increase in information technology expense can be attributed to an increase in outside data services and consulting costs incurred in conjunction with several significant system implementations. The increase in communications expense can be attributed to increases in telephone and cable costs, while the increase in other corporate expenses can be primarily attributed to increases in charitable giving and professional development costs. The decrease in travel expense can be attributed to travel costs incurred in the first six months of fiscal 2007 in support of two closed-end fund initial public offerings.

*Other Income and Expense*

<i>(in thousands)</i>	<b>For the Three</b>			<b>For the Six</b>		
	<b>Months Ended</b>			<b>Months Ended</b>		
	<b>April 30, 2008</b>	<b>2007</b>	<b>% Change</b>	<b>April 30, 2008</b>	<b>2007</b>	<b>% Change</b>
Interest income	\$ 2,745	\$ 2,058	33%	\$ 7,125	\$ 4,335	64%
Interest expense	(8,405)	(57)	NM	(16,819)	(84)	NM
Gains/(losses) on investments	(118)	965	NM	235	1,673	-86%
Unrealized gains/(losses) on						
investments	384	-	NM	(437)	-	NM
Foreign currency losses	(12)	(61)	-80%	(32)	(133)	-76%
Total other income (expense)	\$ (5,406)	\$ 2,905	NM	\$ (9,928)	\$ 5,791	NM

Interest income increased by \$0.7 million and \$2.8 million, or 33 percent and 64 percent, in the second quarter and first six months of fiscal 2008, respectively, over the same periods a year earlier, primarily reflecting additional interest income earned on proceeds from our \$500.0 million senior notes offering that funded on October 2, 2007.

Interest expense increased by \$8.3 million and \$16.7 million in the second quarter and first six months of fiscal 2008, respectively, over the same periods a year earlier, primarily due to interest accrued on our senior notes issued in October 2007.

In the second quarter and first six months of fiscal 2008 we incurred net realized gains (losses) on investments totaling \$(0.1) million and \$0.2 million, respectively, compared to net realized gains of \$1.0 million and \$1.7 million in the second quarter and first six months of fiscal 2007, respectively. Net realized gains in the second quarter and first six months of fiscal 2007 include \$0.8 million and \$1.3 million of gains realized on the liquidation of an investment in a collateralized debt obligation entity.

Unrealized gains (losses) on investments of \$0.4 million and \$(0.4) million in the second quarter and first six months of fiscal 2008, respectively, relate to investments in separately managed accounts seeded for new product development purposes.

*Income Taxes*

Our effective tax rate (income taxes as a percentage of income before income taxes, minority interest, equity in net income of affiliates, and the cumulative effect of a change in accounting principle) was 37.4 percent and 38.3 percent in the second quarter and first six months of fiscal 2008, respectively, compared to 38.5 percent in both the second quarter and first six months of fiscal 2007. The decrease in our effective tax rate in the second quarter of fiscal 2008 can be attributed to the adjustment made to minority interest as more fully described below.

Our policy for accounting for income taxes includes monitoring our business activities and tax policies to ensure that we are in compliance with federal, state and foreign tax laws. In the ordinary course of business, various taxing authorities may not agree with certain tax positions we have taken, or applicable law may not be clear. We periodically review these tax positions and provide for and adjust as necessary estimated liabilities relating to such positions as part of our overall tax provision.

31

---

***Minority Interest***

Minority interest increased by \$2.6 million and \$2.5 million in the second quarter and first six months of fiscal 2008, respectively, over the same periods a year earlier, primarily due to a \$2.8 million adjustment recorded in the second quarter of fiscal 2008 to reverse stock-based compensation previously allocated to minority shareholders of our majority-owned subsidiaries. We have determined that the allocation of stock-based compensation expense to minority shareholders reduces our liability to minority shareholders in a manner that is not consistent with the agreements governing partnership distributions to those individuals. The \$2.8 million adjustment recognized in the second quarter represents the reversal of accumulated stock-based compensation expense allocated to minority shareholders from the date of acquisition. Stock-based compensation expense allocated to minority shareholders in prior periods was neither quantitatively nor qualitatively material to our consolidated financial statements in any of our previously reported fiscal years or periods.

Minority interest is not adjusted for taxes due to the underlying tax status of our consolidated subsidiaries. Atlanta Capital, Fox Asset Management, Parametric Portfolio Associates and Parametric Risk Advisors are limited liability companies that are treated as partnerships for tax purposes. Funds we consolidate are registered investment companies or private funds that are treated as pass-through entities for tax purposes.

***Equity in Net Income of Affiliates, Net of Tax***

Equity in net income of affiliates, net of tax, at April 30, 2008 reflects our 20 percent minority equity interest in Lloyd George Management and a 7 percent minority equity interest in a private equity partnership. Equity in net income of affiliates, net of tax, was flat in the second quarter of fiscal 2008 compared to the same period a year earlier and increased by \$0.6 million, or 44 percent, in the first six months of fiscal 2008 over the same period a year earlier. The increase in the first six months of fiscal 2008 can be attributed to an increase in net income of both Lloyd George Management and the private equity partnership.

**Changes in Financial Condition and Liquidity and Capital Resources**

The following table summarizes certain key financial data relating to our liquidity and capital resources on April 30, 2008 and October 31, 2007 and for the six month periods ended April 30, 2008 and 2007:

**Balance Sheet and Cash Flow Data**

<i>(in thousands)</i>	<b>April 30, 2008</b>	<b>October 31, 2007</b>	<b>% Change</b>
<b>Balance sheet data:</b>			
<b>Assets:</b>			
Cash and cash equivalents	\$ 300,131	\$ 434,957	-31%
Short-term investments	50,574	50,183	1%
Long-term investments	93,696	86,111	9%
Deferred sales commissions	85,329	99,670	-14%
Deferred income taxes long-term	30,793	-	NM
<b>Liabilities:</b>			
Taxes payable current	2,027	21,107	-90%
Taxes payable long term	1,039	-	NM
Deferred income taxes current	20,148	-	NM
Deferred income taxes long-term	-	11,740	NM
Long-term debt	500,000	500,000	0%

**For the Six Months Ended**

<i>(in thousands)</i>	<b>April 30, 2008</b>	<b>2007</b>	<b>% Change</b>
<b>Cash flow data:</b>			
Operating cash flows	\$ 39,776	\$ 33,443	19%
Investing cash flows	(654)	(6,314)	-89%
Financing cash flows	(173,910)	(79,028)	120%

**Liquidity and Capital Resources**

Our financial condition is highly liquid, with a significant percentage of our assets, 36 percent and 45 percent at April 30, 2008 and October 31, 2007, respectively, represented by cash and cash equivalents. The decrease in cash and cash equivalents in the first six months of fiscal 2008 reflects the Company's repurchase of approximately 3.7 million shares of its Non-Voting Common Stock for a total of \$161.1 million. Short-term investments include investments in our sponsored cash management funds. Long-term investments consist principally of investments in certain of our sponsored mutual funds, seed investments in separately managed accounts, investments in affiliates and investments in collateralized debt obligation ( CDO ) entities.

Deferred sales commissions, which represent commissions paid to broker/dealers in connection with the distribution of the Company's Class B and Class C fund shares, as well as certain private funds, decreased by 14 percent in the first six months of fiscal 2008 compared to October 31, 2007, primarily reflecting the ongoing decline in Class B share sales and assets. Deferred sales commissions are recovered over time from distribution plan payments and contingent deferred sales charges received. The Company periodically reviews the recoverability of deferred sales commission assets as events or changes in circumstances indicate that the carrying amount of deferred sales commission assets may not be recoverable and adjusts the deferred sales commission assets accordingly.

Taxes payable (current and long-term) decreased by \$18.0 million in the first six months of fiscal 2008, primarily reflecting a current tax provision for the period totaling \$90.5 million and the recognition of a \$5.0 million liability related to uncertain state tax positions in connection with the adoption of Interpretation No. 48, Accounting for Uncertainty in Income Taxes an interpretation of FASB

33

Statement No. 109 ( FIN 48 ) on November 1, 2007, offset by \$108.7 million of income taxes paid during the period.

Long-term deferred income taxes, which in previous periods related principally to the deferred income tax liability associated with deferred sales commissions offset by the deferred income tax benefit associated with stock-based compensation, changed from a net long-term deferred tax liability to a net long-term deferred tax benefit as a result of a change in tax accounting method for certain closed-end fund expenses. The Company filed the change in tax accounting method with the Internal Revenue Service in the first quarter of fiscal 2008 for expenses associated with the launch of new closed-end funds, which were historically deducted for tax purposes as incurred and are now capitalized and amortized over a 15 year period. Upon filing the change in tax accounting method, the Company recorded a deferred tax benefit of \$84.9 million, the majority of which will amortize over a 15 year period, and a corresponding deferred tax liability in the amount of \$84.9 million, which will reverse over a four year period ending October 31, 2011. The net current deferred tax liability of \$20.1 million as of April 30, 2008, principally represents the current portion of the remaining \$74.6 million deferred tax liability associated with the change in accounting method.

In October 2007, we issued \$500.0 million in aggregate principal amount of 6.5% ten-year senior notes due 2017. We also maintain a revolving credit facility with several banks, which expires on August 13, 2012. The facility, which was extended in August 2007, provides that we may borrow up to \$200.0 million at LIBOR-based rates of interest that vary depending on the level of usage of the facility and our credit ratings. The agreement contains financial covenants with respect to leverage and interest coverage and requires us to pay an annual commitment fee on any unused portion. On April 30, 2008, we had no outstanding borrowings under our revolving credit facility.

### *Contractual Obligations*

The following table details our future contractual obligations:

	<b>Payments due</b>				
		<b>Less than 1</b>	<b>1-3</b>	<b>4-5</b>	<b>After 5</b>
<i>(in millions)</i>	<b>Total</b>	<b>Year</b>	<b>Years</b>	<b>Years</b>	<b>Years</b>
Operating leases facilities					
and equipment	\$ 269.4	\$ 10.3	\$ 34.0	\$ 35.7	\$ 189.4
Senior notes	500.0	-	-	-	500.0
Interest payments on senior	312.5	32.5	97.5	65.0	117.5

## Edgar Filing: EATON VANCE CORP - Form 10-Q

notes

Investment in private equity

partnership	4.4	-	4.4	-	-
Unrecognized tax benefits	20.1	18.9	1.2	-	-
Total	\$ 1,106.4	\$ 61.7	\$ 137.1	\$ 100.7	\$ 806.9

In July 2006, we committed to invest \$15.0 million in a private equity partnership that invests in companies in the financial services industry. As of April 30, 2008, we had invested \$10.6 million of the total \$15.0 million of committed capital.

In September 2006, we signed a long-term lease to move the Company's corporate headquarters to a new location in Boston. The lease will commence in May 2009.

34

Excluded from the table above are future payments to be made by us to purchase the interests retained by minority investors in Atlanta Capital, Fox Asset Management, Parametric Portfolio Associates and Parametric Risk Advisors. Interests held by minority unit holders are not subject to mandatory redemption. The purchase of minority interests is predicated, for each subsidiary, on the exercise of a complex series of puts held by minority unit holders and calls held by us. The puts provide the minority shareholders the right to require us to purchase these retained interests at specific intervals over time, while the calls provide us with the right to require the minority shareholders to sell their retained equity interests to us at specific intervals over time, as well as upon the occurrence of certain events such as death or permanent disability. As a result, there is significant uncertainty as to the timing of any minority interest purchase in the future. The value assigned to the purchase of a minority interest is based, in each case, on a multiple of earnings before interest and taxes of the subsidiary, which is a measure that is intended to represent fair market value. There is no discrete floor or ceiling on any minority interest purchase. As a result, there is significant uncertainty as to the amount of any minority interest purchase in the future. Although the timing and amounts of these purchases cannot be predicted with certainty, we anticipate that the purchase of minority interests in our consolidated subsidiaries may be a significant use of cash in future years.

In April 2008, the minority investors in Parametric Portfolio Associates exercised a put option, requiring us to purchase an additional interest in Parametric Portfolio Associates for \$21.5 million. The transaction settled on May 1, 2008 and increased the Company's capital ownership interest from 84.3 percent to 89.3 percent and its profits interest from 81.2 percent to 82.3 percent. The additional purchase price will be allocated between intangible assets and goodwill in the third quarter.

In May 2008, the minority investors in Atlanta Capital Management Company, LLC, exercised a put option, requiring the Company to purchase an additional interest in Atlanta Capital Management Company, LLC, for \$5.0 million. The transaction will settle on June 30, 2008 and will increase the Company's ownership interest from 80.4 percent to 85.5 percent. The additional purchase price will be allocated between intangible assets and goodwill in the third quarter.

### *Operating Cash Flows*

## Edgar Filing: EATON VANCE CORP - Form 10-Q

Our operating cash flows are calculated by adjusting net income to reflect changes in assets and liabilities, deferred sales commissions, stock-based compensation, deferred income taxes and investments classified as trading. Cash provided by operating activities totaled \$39.8 million in the first six months of fiscal 2008 compared to \$33.4 million in the first six months of fiscal 2007. Operating cash flows in the first six months of fiscal 2007 were reduced by \$52.2 million in payments made to terminate certain closed-end fund compensation agreements and \$46.3 million in structuring fee payments related to the offering of a closed-end fund.

### *Investing Cash Flows*

Investing activities consist primarily of the purchase of equipment and leasehold improvements, the purchase of equity interests from minority investors in our majority owned subsidiaries, and the purchase and sale of investments in our sponsored mutual funds and other sponsored investment products that we do not consolidate. Cash used for investing activities totaled \$0.7 million in the first six months of fiscal 2008 compared to \$6.3 million in the first six months of fiscal 2007.

In the first six months of fiscal 2008, additions to equipment and leasehold improvements totaled \$5.6 million, compared to \$3.8 million in the first six months of fiscal 2007. Fiscal 2008 and 2007 additions reflect leasehold improvements made in conjunction with additional office space leased to accommodate an increase in headcount. In the first six months of fiscal 2008, the purchase and sale of available-for-sale investments resulted in a net source of cash totaling \$4.9 million. In the first six months of fiscal 2007, the net purchases and sales of available-for-sale investments reduced investing cash flows by \$2.5 million.

35
