UMH PROPERTIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2014 (UNAUDITED)

NOTE 1 – ORGANIZATION AND ACCOUNTING POLICIES

UMH Properties, Inc. (“we”, “our”, “us” or “the Company”) owns and operates eighty-two manufactured home communities containing approximately 14,500 developed home sites. The communities are located in New Jersey, New York, Ohio, Pennsylvania, Tennessee, Indiana and Michigan. The Company, through its wholly-owned taxable subsidiary, UMH Sales and Finance, Inc. (S&F), conducts manufactured home sales in its communities. S&F was established to enhance the occupancy of the communities. The consolidated financial statements of the Company include S&F and all of its other wholly-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation. The Company also invests in securities of other Real Estate Investment Trusts (REITs).

The Company has elected to be taxed as a REIT under Sections 856-860 of the Internal Revenue Code (the Code), and intends to maintain its qualification as a REIT in the future. As a qualified REIT, with limited exceptions, the Company will not be taxed under federal and certain state income tax laws at the corporate level on taxable income that it distributes to its shareholders. For special tax provisions applicable to REITs, refer to Sections 856-860 of the Code. The Company is subject to franchise taxes in some of the states in which the Company owns property.

The interim Consolidated Financial Statements furnished herein have been prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP) applicable to interim financial information, the instructions to Form 10-Q, and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by US GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months ended March 31, 2014 are not necessarily indicative of the results that may be expected for the year ending December 31, 2014. For further information, refer to the Consolidated Financial Statements and footnotes thereto included in the Company’s annual report on Form 10-K for the year ended December 31, 2013.

Use of Estimates

In preparing the Consolidated Financial Statements in accordance with US GAAP, management is required to make estimates and assumptions that affect the reported amounts of Assets and Liabilities, as well as contingent Assets and Liabilities as of the dates of the Consolidated Balance Sheets and Revenue and Expenses for the years then ended. Actual results could differ significantly from these estimates and assumptions.

Stock Based Compensation

The Company accounts for awards of stock options and restricted stock in accordance with ASC 718-10, Compensation-Stock Compensation. ASC 718-10 requires that compensation cost for all stock awards be calculated and amortized over the service period (generally equal to the vesting period). The compensation cost for stock option grants is determined using option pricing models, intended to estimate the fair value of the awards at the grant date less estimated forfeitures. The compensation expense for restricted stock is recognized based on the fair value of the restricted stock awards less estimated forfeitures. The fair value of restricted stock awards is equal to the fair value of the Company's stock on the grant date. Compensation costs of \$223,797 and \$132,580 have been recognized for the three months ended March 31, 2014 and 2013, respectively.

On January 15, 2014, the Company awarded to Samuel A. Landy a restricted stock award of 25,000 shares in accordance with his employment agreement. The grant date fair value of this restricted stock grant was \$232,750. This grant vests over 5 years.

As of March 31, 2014, there were options outstanding to purchase 1,043,000 shares. There were 2,593,000 shares available for grant under the 2013 Stock Option and Stock Award Plan, as amended. During the three months ended March 31, 2014, options to one employee to purchase a total of 50,000 shares expired. The aggregate intrinsic value of options outstanding as of March 31, 2014 was \$493,203. As of March 31, 2013, there were options outstanding to purchase 745,000 shares and 558,188 shares were available for grant under the Company's 2003 Stock Option and Stock Award Plan, as amended.

Derivative Instruments and Hedging Activities

In the normal course of business, the Company is exposed to financial market risks, including interest rate risk on our variable rate debt. We attempt to limit these risks by following established risk management policies, procedures and strategies, including the use of derivative financial instruments. The Company's primary strategy in entering into derivative contracts is to minimize the variability that changes in interest rates could have on its future cash flows. The Company generally employs derivative instruments that effectively convert a portion of its variable rate debt to fixed rate debt. The Company does not enter into derivative instruments for speculative purposes. The Company had entered into various interest rate swap agreements that had the effect of fixing interest rates relative to specific mortgage loans.

During 2012, the Company entered into two interest rate swap agreements that have the effect of fixing interest rates relative to specific mortgage loans as follows:

Edgar Filing: UMH PROPERTIES, INC. - Form 10-Q

Mortgage	Due Date	Mortgage	Effective	Balance 3/31/14
		Interest Rate	Fixed Rate	
Allentown/Clinton	2/1/2017	LIBOR + 3.25%	4.39%	\$10,721,062
Various – 11 properties	8/1/2017	LIBOR + 3.00%	3.89%	\$12,726,571

The Company's interest rate swap agreements are based upon 30-day LIBOR. The re-pricing and scheduled maturity dates, payment dates, index and the notional amounts of the interest rate swap agreements coincide with those of the underlying mortgage. The interest rate swap agreements are net settled monthly. The Company has designated these derivatives as cash flow hedges and has recorded the fair value on the balance sheet in accordance with ASC 815, Derivatives and Hedging (See Note 7 for information on the determination of fair value). The effective portion of the gain or loss on these hedges will be reported as a component of Accumulated Other Comprehensive Income in our Consolidated Balance Sheets. To the extent that the hedging relationships are not effective or do not qualify as cash flow hedges, the ineffective portion is recorded in Interest Expense. Hedges that received designated hedge accounting treatment are evaluated for effectiveness at the time that they are designated as well as through the hedging period. As of March 31, 2014 and December 31, 2013, the Company has determined that these interest rate swap agreements are highly effective as cash flow hedges. As a result, the fair value of these derivatives of \$(35,352) and \$(39,840), respectively, was recorded as a component of Accumulated Other Comprehensive Income, with the corresponding liability included in Accrued Liabilities and Deposits.

Recent Accounting Pronouncements

In April 2014, the Financial Accounting Standards Board ("FASB") issued ASU No. 2014-08, "Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity". ASU No. 2014-08 changes the definition of a discontinued operation to include only those disposals of components of an entity that represent a strategic shift that has (or will have) a major effect on an entity's operations and financial results. ASU No. 2014-08 is effective prospectively for fiscal years beginning after December 15, 2014, with earlier adoption permitted. The Company has decided to early adopt this standard effective with the interim period beginning January 1, 2014. Management believes that the adoption of ASU No. 2014-08 will not have a material impact on our financial position, results of operations or cash flows.

Management does not believe that any other recently issued, but not yet effective accounting pronouncements, if adopted, would have a material effect on the accompanying Consolidated Financial Statements.

Reclassifications

Certain amounts in the financial statements for the prior periods have been reclassified to conform to the statement presentation for the current periods.

NOTE 2 – NET INCOME (LOSS) PER SHARE

Basic Net Income (Loss) per Share is calculated by dividing Net Income (Loss) by the weighted average shares outstanding for the period. Diluted Net Income (Loss) per Share is calculated by dividing Net Income (Loss) by the weighted average number of common shares outstanding plus the weighted average number of net shares that would be issued upon exercise of stock options pursuant to the treasury stock method. Common stock equivalents resulting

from stock options in the amount of 45,728 and 60,509 shares for the three months ended March 31, 2014 and 2013, respectively, are included in the diluted weighted shares outstanding. As of March 31, 2014 and 2013, options to purchase 844,000 and 536,000 shares, respectively, were antidilutive.

NOTE 3 – INVESTMENT PROPERTY AND EQUIPMENT

On March 13, 2014, the Company acquired 8 manufactured home communities for \$24,950,000. These 8 all-age communities total 1,018 sites and are situated on approximately 270 acres. These communities are all located in Ohio. The average occupancy for these communities at closing was approximately 70%. The Company assumed mortgages totaling approximately \$18,100,000 and used its Unsecured Revolving Credit Facility with Bank of Montreal (“Credit Facility”) to finance this acquisition (see Note 5).

This acquisition has been accounted for utilizing the acquisition method of accounting in accordance with ASC 805, Business Combinations, and accordingly, the result of the acquired assets are included in the statements of operations from the dates of acquisition. The following table summarizes the estimated fair value of the assets acquired for the quarter ended March 31, 2014:

	At Acquisition Date
Assets Acquired:	
Land	\$2,019,000
Depreciable Property	22,813,147
Other	117,853
Total Assets Acquired	\$24,950,000

The purchase price allocations are preliminary and may be adjusted as final costs and valuations are determined.

12

NOTE 7 - FAIR VALUE MEASUREMENTS

In accordance with ASC 820-10, Fair Value Measurements and Disclosures, the Company measures certain financial Assets and Liabilities at fair value on a recurring basis, including Securities Available for Sale. The fair value of these financial Assets and Liabilities was determined using the following inputs at March 31, 2014 and December 31, 2013:

(1) Included in Accrued Liability and Deposits

In addition to the Company's investments in securities available for sale and interest rate swaps, the Company is required to disclose certain information about the fair values of other financial instruments, as defined in ASC 825-10, Financial Instruments. Estimates of fair value are

14

made at a specific point in time, based upon, where available, relevant market prices and information about the financial instrument. Such estimates do not include any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. All of the Company's Securities Available for Sale have quoted market prices and are therefore classified in Level 1 of the fair value hierarchy. A quoted market price is indirectly available for our interest rate swap. This price is determined using widely accepted valuation techniques, including discounted cash flow analysis on the expected cash flows, and reflects the contractual terms of the derivative, including the period to maturity, and uses observable market-based inputs. As such, we have determined that the valuation of this interest rate swap is classified in Level 2 of the fair value hierarchy.

The fair value of Cash and Cash Equivalents and Notes Receivable approximates their current carrying amounts since all such items are short-term in nature. The fair value of Variable Rate Mortgages Payable and Loans Payable approximate their current carrying amounts since such amounts payable are at approximately a weighted-average current market rate of interest. As of March 31, 2014, the fair and carrying value of Fixed Rate Mortgages Payable amounted to \$145,763,677 and \$145,960,746, respectively. The fair value of Mortgages Payable is estimated based upon discounted cash flows at current market rates for instruments with similar remaining terms.

NOTE 8 – CONTINGENCIES, COMMITMENTS AND OTHER MATTERS

From time to time, the Company may be subject to claims and litigation in the ordinary course of business. Management does not believe that any such claims or litigation have a material adverse effect on the financial position or results of operations.

In 2010, a rainstorm bringing 13 inches of rain in a two-hour period caused flooding at Memphis Mobile City. All homes owned by us were fully restored as were the homes of all residents who elected to make repairs. On May 9, 2011, we were notified that a lawsuit had been filed in the United States District Court for the Western District of Tennessee on behalf of a purported class of all individuals of Mexican national origin who are current or former residents of Memphis Mobile City. The complaint alleges various claims based on federal and state discrimination and consumer protection laws, seeking monetary damages and injunctive relief. On September 30, 2012, the magistrate judge ruled that plaintiffs who had signed a security agreement with an arbitration clause would be obligated to arbitrate while the other plaintiffs would not. The plaintiffs have filed a statement of alleged damages for each member of the purported class. Plaintiffs have been ordered to submit releases to FEMA so that we might begin to evaluate their damage claims with respect to compensation they may have already received from that federal agency. Plaintiffs' counsel notified us in July that they have filed such releases as to many of the plaintiffs. FEMA is in the process of producing their documents. On June 25, 2013, in connection with a hearing on our Motion to Dismiss, the court ordered the plaintiffs to amend their Complaint to plead their claims with specificity. Plaintiffs filed an amended Complaint containing allegations substantially similar to the initial Complaint. We filed a Motion to Dismiss the amended Complaint which plaintiffs opposed. Oral arguments on this motion took place on May 1, 2014. We are awaiting the Court's decision. We continue to believe the action to be without merit. Our insurance company is supporting our defense of this

action. We are working on redeveloping this property as a manufactured home community, using fill from adjacent land that we have purchased in order to comply with current codes. The adjacent parcel is also slated for manufactured home development upon receipt of appropriate permits. Redevelopment of these properties will be determined in accordance with market conditions.

In November 2013, the Company entered into an agreement with 21st Mortgage Corporation (21st Mortgage) under which the Company may refer purchasers of homes sold by us to 21st Mortgage to provide financing for their home purchases. We do not receive referral fees or other cash compensation under the agreement. If 21st Mortgage makes loans to purchasers referred by us under the agreement, and those purchasers default on their loans and 21st Mortgage repossesses the homes securing such loans, we have agreed to purchase from 21st Mortgage each such repossessed home for a price equal to 80% to 95% of the amount under each such loan, subject to certain adjustments. In addition, we have agreed to waive all site rent that would otherwise be due from 21st Mortgage so long as it owns any homes on which loans were made pursuant to the agreement. This agreement may be terminated by either party with 30 days written notice. As of March 31, 2014, there were seven transactions under this agreement in an aggregate loan amount of approximately \$300,000.

The Company has entered into definitive agreements to purchase six manufactured home communities with a total of approximately 589 developed home sites. These communities are located in Ohio and Pennsylvania. The aggregate purchase price of these communities totals approximately \$17.6 million. In conjunction with the purchase of these communities, the Company will assume mortgages totaling approximately \$8.6 million. Subject to satisfactory due diligence, we anticipate closing this transaction during the third quarter of 2014.

Since 2000, Allison Nagelberg has served as the General Counsel of both the Company and MREIC. Prior to January 1, 2014, Ms. Nagelberg was an employee of the Company pursuant to an employment agreement, dated January 1, 2012, and a portion of Ms. Nagelberg's compensation expense was reimbursed by MREIC pursuant to a cost sharing arrangement between MREIC and the Company. On January 6, 2014, Ms. Nagelberg entered into an Employment Agreement, effective January 1, 2014, with MREIC and her employment agreement with the Company was cancelled. Effective January 1, 2014, Ms. Nagelberg is employed exclusively by MREIC and none of the expense of her compensation is allocated to the Company. Mr. Craig Koster, who has been the In-House Counsel of the Company since 2012, will handle all in-house legal responsibilities for the Company.

NOTE 9 - SUPPLEMENTAL CASH FLOW INFORMATION

Cash paid for interest during the three months ended March 31, 2014 and 2013 was \$2,352,830 and \$1,754,064, respectively. Interest cost capitalized to Land Development was \$63,971 and \$69,976 for the three months ended March 31, 2014 and 2013, respectively.

During the three months ended March 31, 2014, the Company assumed mortgages totaling approximately \$18.1 million for the acquisition of 8 communities.

During the three months ended March 31, 2014 and 2013, the Company had Dividend Reinvestments of \$452,312 and \$341,016, respectively, which required no cash transfers.

NOTE 10 – SUBSEQUENT EVENTS

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through the date that the financial statements were issued, for which there were none.

ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with the Consolidated Financial Statements and footnotes thereto included elsewhere herein and in our annual report on Form 10-K for the year ended December 31, 2013.

The Company is a self-administered, self-managed, REIT with headquarters in Freehold, New Jersey. The Company's primary business is the ownership and operation of manufactured home communities – leasing sites on an annual or month-to-month basis to private manufactured home owners. The Company also leases homes to residents and, through its taxable REIT subsidiary, UMH Sales and Finance, Inc. (S&F), sells and finances homes to qualified residents and prospective residents of our communities. During the quarter ended March 31, 2014, the Company acquired 8 Ohio manufactured home communities with a total of 1,018 developed homesites for a total purchase price of \$24,950,000. As of March 31, 2014, the Company owned eighty-two manufactured home communities containing approximately 14,500 developed home sites. These communities are located in New Jersey, New York, Ohio, Pennsylvania, Tennessee, Indiana and Michigan. The Company also invests in securities of other REITs.

The Company's income primarily consists of Rental and Related Income from the operation of its manufactured home communities. Income also includes sales of manufactured homes as well as sales finance operations.

Current economic indicators show the US economy to be improving and activity in our communities has recently increased. Overall occupancy has remained relatively stable at 81%. Same store occupancy has increased from 80.8% in the first quarter of 2013 to 81.8% currently. We continue to see increased demand for rental units. Recently activity includes adding approximately 300 rental units to selected communities in 2013, as well as acquiring 300 rental units during 2013 community acquisitions and we have added an additional 110 rentals in the first quarter of 2014. We intend to add more rental units throughout 2014, as demand dictates. Occupied rental units represent approximately 15% of total occupied sites at quarter end. Occupancy in rental units continues to be strong and is currently at 91% occupancy. It is our intention to continue to convert renters to new homeowners in the future.

The Company also holds a portfolio of securities of other REITs with a fair value of \$60,700,743 at March 31, 2014, which earns Dividend and Interest Income. The dividends received from our securities investments were at a weighted-average yield of approximately 6.7% during the three months ended March 31, 2014. During the three months ended March 31, 2014, the Company recognized Gains on Sales of Securities of \$508,403. At March 31, 2014, the Company had Net Unrealized Gains of \$4,438,679 in its REIT securities portfolio. The Company invests in REIT securities on margin from time to time when the Company can achieve an adequate yield spread. The REIT securities portfolio provides the Company with liquidity and additional income and serves as a proxy for real property

investments.

18

The Company intends to continue to increase its real estate investments. In 2012 and 2013, we added thirty-four manufactured home communities, encompassing approximately 4,500 developed home sites, to our portfolio. On March 13, 2014, the Company acquired 8 manufactured home communities for \$24,950,000. These 8 all-age communities total 1,018 sites and are situated on approximately 270 acres. These communities are all located in Ohio. The average occupancy for these communities at closing was approximately 70%. We have also entered into a definitive agreement to purchase six manufactured home communities with a total of approximately 589 developed home sites located in Ohio and Pennsylvania for a purchase price of approximately \$17.6 million. We have been positioning ourselves for future growth and will continue to seek opportunistic investments. We currently have the potential to fill 2,800 vacancies. Housing demand in the energy-rich Marcellus and Utica shale regions where a substantial amount of our communities are located is expected to be particularly strong in the years to come and we intend to focus our acquisitions in those regions.

See PART I, Item 1 – Business in the Company’s 2013 annual report on Form 10-K for a more complete discussion of the economic and industry-wide factors relevant to the Company and the opportunities and challenges, and risks on which the Company is focused.

Significant Accounting Policies and Estimates

The discussion and analysis of the Company’s financial condition and results of operations are based upon the Company’s Consolidated Financial Statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these Consolidated Financial Statements requires management to make estimates and judgments that affect the reported amounts of Assets and Liabilities, Revenues and Expenses, and related disclosure of contingent Assets and Liabilities at the date of the Company’s Consolidated Financial Statements. Actual results may differ from these estimates under different assumptions or conditions.

On a regular basis, management evaluates our assumptions, judgments and estimates. Management believes there have been no material changes to the items that we disclosed as our significant accounting policies and estimates under Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” in our Annual Report on Form 10-K for the year ended December 31, 2013.

Changes In Results Of Operations

Rental and Related Income increased 28% from \$11,642,186 for the three months ended March 31, 2013 to \$14,846,776 for the three months ended March 31, 2014. This was primarily due to the acquisitions made during 2013 and 2014, and an increase in rental home income. Overall occupancy has remained stable at 81%. Same store occupancy has increased from 80.8% in the first quarter of 2013 to 81.8% currently.

Sales of manufactured homes amounted to \$1,002,405 and \$1,784,109 for the quarters ended March 31, 2014 and 2013, respectively. The severe winter weather experiences by the Northeast hampered home sales. Cost of Sales of manufactured homes amounted to \$766,379 and

19

\$1,522,532 for the quarters ended March 31, 2014 and 2013, respectively. Selling Expenses amounted to \$720,679 and \$508,902 for the quarters ended March 31, 2014 and 2013, respectively. Decreases are directly attributable to the decrease in sales. Loss from the Sales Operations (defined as Sales of manufactured homes less Cost of Sales of manufactured homes less Selling Expenses) amounted to \$484,653 or 48% of total sales and \$247,325 or 14% of total sales for the quarters ended March 31, 2014 and 2013, respectively. The gross profit percentage was 24% and 15% for the quarters ended March 31, 2014 and 2013, respectively. This increase was the result of an increase in sales prices. The Company believes that the sale of new homes produces new rental revenue and is an investment in the upgrading of the communities.

Community Operating Expenses increased 39% from \$5,947,365 for the quarter ended March 31, 2013 to \$8,287,609 for the quarter ended March 31, 2014. This increase was primarily due to the acquisitions during 2014 and 2013 and to the harsh winter weather experienced in the Northeast.

General and Administrative Expenses increased 25% from \$1,215,236 for the quarter ended March 31, 2013 to \$1,519,923 for the quarter ended March 31, 2014. This was primarily due to an increase in compensation and director fees.

Franchise Taxes increased 27% from \$66,000 for the quarter ended March 31, 2013 to \$84,000 for the quarter ended March 31, 2014. This increase was primarily due to the acquisitions during 2014 and 2013.

Acquisition Costs decreased 52% from \$591,068 for the quarter ended March 31, 2013 to \$285,179 for the quarter ended March 31, 2014. Acquisition Costs relate to transaction, due diligence and other related costs associated with the acquisition of the communities.

Depreciation Expense increased 44% from \$2,389,854 for the quarter ended March 31, 2013 to \$3,437,672 for the quarter ended March 31, 2014. This increase was primarily due to the acquisitions during 2014 and 2013.

Interest Income remained relatively stable for the three months ended March 31, 2013 as compared to the three months ended March 31, 2014.

Dividend Income increased 25% from \$850,793 for the quarter ended March 31, 2013 to \$1,059,465 for the quarter ended March 31, 2014. This increase was primarily due to the increase in the average balance of Securities Available for Sale from \$53.2 million at March 31, 2013 to \$60.0 million at March 31, 2014. The dividends received from our securities investments continue to meet our expectations. It is our intent to hold these securities long-term.

Gain on Sales of Securities Transactions, net amounted to \$508,403 and \$3,310,028 for the quarters ended March 31, 2014 and 2013, respectively. At March 31, 2014, the Company had net unrealized gains of \$4,438,679 in its REIT securities portfolio.

Interest Expense increased 31% from \$1,679,809 for the three months ended March 31, 2013 to \$2,208,125 for the three months ended March 31, 2014. This increase is primarily due to

20

an increase in the average balance of mortgages and loans payable due to the new community acquisitions in 2013 and 2014. The average balance for the quarters ended March 31, 2014 and 2013 was approximately \$220.5 million and \$146.6 million, respectively.

Amortization of Financing Costs increased 64% from \$71,190 for the three months ended March 31, 2013 to \$116,580 for the three months ended March 31, 2014. This increase is primarily due to the new mortgages associated with the acquisitions completed in 2013 and 2014.

Income from Community Operations (defined as Rental and Related Income less Community Operating Expenses) amounted to \$6,559,167 and \$5,694,821 for the quarters ended March 31, 2014 and 2013, respectively. This increase was primarily due to the acquisitions during 2014 and 2013.

Changes in Financial Condition

Total Investment Property and Equipment increased 8% or \$31,325,423 during the three months ended March 31, 2014. This increase was primarily due to the acquisitions of 8 communities with an aggregate purchase price of \$24,950,000, which included approximately 50 rental units. The Company also added approximately 110 rental units to its existing communities.

Securities Available for Sale increased 2% or \$1,445,801 during the three months ended March 31, 2014. The increase was due to the purchases of Securities Available for Sale of \$1,153,766 and an increase in the unrealized gain of \$3,321,941 which was offset by sales with a cost of \$3,029,906.

Mortgages Payable increased 11% or \$17,001,124 during the three months ended March 31, 2014. This increase was due to the assumption of new mortgages totaling approximately \$18.1 partially offset by principal repayments of \$1,111,615.

Loans Payable increased 9% or \$4,504,287 during the three months March 31, 2014. This increase was mainly due to the drawdown of an additional \$10.0 million on the Credit Facility for the acquisition of the 8 communities offset by the decrease of \$5.5 million on our margin loan.

The Company raised \$7,906,768 from the issuance of common stock in the DRIP during the three months ended March 31, 2014, which included Dividend Reinvestments of \$452,312. Dividends paid on the common stock for the three months ended March 31, 2014 were \$3,853,595, of which \$452,312 were reinvested. Dividends paid on the preferred stock for the three months ended March 31, 2014 were \$1,889,147.

Liquidity and Capital Resources

The Company's principal liquidity demands have historically been, and are expected to continue to be, distributions to the Company's stockholders, acquisitions, capital improvements, development and expansions of properties, debt service, purchases of manufactured home inventory, investment in securities of other REITs and payments of expenses relating to real

estate operations. We anticipate that the liquidity demands of the recent properties acquired will be met by the operations of these acquisitions. The Company's ability to generate cash adequate to meet these demands is dependent primarily on income from its real estate investments and securities portfolio, the sale of real estate investments and securities, refinancing of mortgage debt, leveraging of real estate investments, availability of bank borrowings, lines of credit, proceeds from the DRIP, and access to the capital markets.

Current economic indicators show the US economy to be improving. The affordability and geographic location of our homes should enable the Company to perform well despite the challenging economy. While the recent recession has proven difficult, manufactured home communities are considered to be more stable than other housing types because of their low site rents and lower-priced homes and rental units.

In addition to cash generated through operations, the Company uses a variety of sources to fund its cash needs, including acquisitions. The Company may sell marketable securities, borrow on its lines of credit, finance and refinance its properties, and/or raise capital through the DRIP and capital markets.

Net Cash provided by Operating Activities amounted to \$5,834,055 and \$1,678,445 for the three months ended March 31, 2014 and 2013, respectively. As of March 31, 2014, the Company had Cash and Cash Equivalents of \$7.8 million, Securities Available for Sale of \$60.7 million, \$5.0 million available on its Credit Facility, and \$7.9 million available on its revolving lines of credit for the financing of home sales and the purchase of inventory. The Company owns 82 properties, of which 26 are unencumbered. These marketable securities, non-mortgaged properties, and lines of credit provide the Company with additional liquidity. The Company has been raising capital through its DRIP and through public offerings of its preferred stock.

The Company believes that funds generated will be adequate to meet its obligations over the next several years.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements.

Funds From Operations

We assess and measure our overall operating results based upon an industry performance measure referred to as Funds From Operations (FFO), which management believes is a useful indicator of our operating performance. FFO is used by industry analysts and investors as a supplemental operating performance measure of a REIT. FFO, as defined by

The National Association of Real Estate Investment Trusts (NAREIT), represents Net Income (Loss) Attributable to Common Shareholders, as defined by accounting principles generally accepted in the United States of America (US GAAP), excluding Extraordinary Items, as defined under US GAAP, Gains or Losses from sales of previously depreciated real estate assets, Impairment Charges related to depreciable real estate assets, plus certain non-cash items such as Real Estate Asset Depreciation and Amortization. NAREIT created FFO as a non-US GAAP supplemental

measure of REIT operating performance. We define Core Funds From Operations (Core FFO), as FFO plus Acquisition Costs. FFO and Core FFO should be considered as supplemental measures of operating performance used by REITs. FFO and Core FFO exclude historical Cost Depreciation as an expense and may facilitate the comparison of REITs which have different cost bases. The items excluded from FFO and Core FFO are significant components in understanding the Company's financial performance.

FFO and Core FFO (i) do not represent Cash Flow from Operations as defined by US GAAP; (ii) should not be considered as an alternative to Net Income (Loss) as a measure of operating performance or to Cash Flows from Operating, Investing and Financing activities; and (iii) are not alternatives to Cash Flow as a measure of liquidity. FFO and Core FFO, as calculated by the Company, may not be comparable to similarly titled measures reported by other REITs.

The Company's FFO and Core FFO for the three months ended March 31, 2014 and 2013 are calculated as follows:

	Three Months Ended	
	3/31/14	3/31/13

Forward-looking statements are not predictions of future events. These beliefs, assumptions and expectations can change as a result of many possible events or factors, not all of which are known to us. Some of these factors are described below and under the headings “Business”, “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations”. These and other risks, uncertainties and factors could cause our actual results to differ materially from those included in any forward-looking statements we make. Any forward-looking statement speaks only as of the date on which it is made. New risks and uncertainties arise over time, and it is not possible for us to predict those events or how they may affect us. Except as required by law, we are not obligated to, and do not intend to, update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Important factors that could cause actual results to differ materially from our expectations include, among others:

- changes in the real estate market conditions and general economic conditions;
- the inherent risks associated with owning real estate, including local real estate market conditions, governing laws and regulations affecting manufactured housing communities and illiquidity of real estate investments;
- increased competition in the geographic areas in which we own and operate manufactured housing communities;
- our ability to continue to identify, negotiate and acquire manufactured housing communities and/or vacant land which may be developed into manufactured housing communities on terms favorable to us;

- our ability to maintain rental rates and occupancy levels;
- changes in market rates of interest;
- our ability to repay debt financing obligations;
- our ability to refinance amounts outstanding under our credit facilities at maturity on terms favorable to us;
- our ability to comply with certain debt covenants;
- our ability to integrate acquired properties and operations into existing operations;
- the availability of other debt and equity financing alternatives;
- continued ability to access the debt or equity markets;
- the loss of any member of our management team;
- our ability to maintain internal controls and processes to ensure all transactions are accounted for properly, all relevant disclosures and filings are timely made in accordance with all rules and regulations, and any potential fraud or embezzlement is thwarted or detected;
- the ability of manufactured home buyers to obtain financing;
- the level of repossessions by manufactured home lenders;
- market conditions affecting our investment securities;
- changes in federal or state tax rules or regulations that could have adverse tax consequences;
- our ability to qualify as a real estate investment trust for federal income tax purposes; and

those risks and uncertainties referenced under the heading "Risk Factors" contained in this Form 10-Q and the Company's filings with the Securities and Exchange Commission.

You should not place undue reliance on these forward-looking statements, as events described or implied in such statements may not occur. The forward-looking statements contained in this Form 10-Q speak only as of the date hereof and the Company expressly disclaims any obligation to publicly update or revise any forward-looking statements whether as a result of new information, future events, or otherwise.
