As a consequence, the productivity ratio reached 1,861 LIS/Employee, 1.5% higher than the 1,834 figure registered in the 2Q03.

### Third Parties Contracts Adjustments

Brasil Telecom strategy is to concentrate the readjustments of subcontracted services contracts in the 3Q03, following the tariff readjustment for the telecommunication sector usually authorized in the period.

In the 3Q03, operating costs and expenses were affected by adjustments of bills and phone lists printing contracts, and additionally by the increase in advertisement expenses given the implementation of CSC 14 in the long distance calls originated in a cell phone.
