CAPITAL INCREASE

BRASIL TELECOM S.A. (BT or Company) informs that its Board of Directors, on a meeting held on March 18, 2004, approved a capital increase, as described below.

According to the corporate restructuring approved on the Shareholders Meeting held on December 28, 2000, TBS Participações S.A. (TBS) and Companhia Riograndense de Telecomunicações (CRT) were incorporated by BT. The objective of this restructuring was the rationalization of the internal processes and the possibility of using the tax benefit of R\$321,856,253.89 (three hundred twenty-one million, eight hundred fifty-six thousand, two hundred fifty-three reais and eighty-nine centavos), generated by the goodwill of R\$946,636,040.84 (nine hundred forty-six million, six hundred thirty-six thousand, forty reais and eighty-four centavos), paid for the acquisition of the control of CRT, that will be amortized in 5 years, in compliance with the Comissão de Valores Mobiliários CVM (Brazilian Securities and Exchange Commission) Instruction 319/99.

In 2003, BT amortized 12/60 of the goodwill corresponding to R\$189,327,208.20 (one hundred eighty-nine million, three hundred twenty-seven thousand, two hundred and eight reais and twenty centavos), resulting in tax savings of R\$64,371,250.79 (sixty-four million, three hundred and seventy-one thousand, two hundred and fifty reais and seventy nine centavos), that will be used to increase the capital and the share subscription goodwill reserve, in compliance with CVM rules.

The beneficiary of this credit is Brasil Telecom Participações S.A. (BTP), in a proportion of 74.85% and the remaining shareholders of BT as of December 28, 2000, whose names are listed on the Depository Institution for shares issued by the Company Banco Bradesco S.A., in a proportion of 25.15%, which will receive shares issued under this capital increase and/or cash, in the case of the BT shareholders exercise the preemptive rights, in conformity with the protocol of merger (Protocolo de Incorporação) and reasons for merger (Justificação da Incorporação) of CRT by BT.

The following table shows the capital increase booked until this moment:

FISCAL YEAR	DATE OF CAPITAL INCREASE	TOTAL AMOUNT OF SHARE SUBSCRIPTION	NUMBER OF SHARES ISSUED	CLASS	SUBSCRIPTION PRICE	AMORTIZATION

Reasons for the Issuance Price:

BT. believes that its preferred shares have considerable liquidity in BOVESPA (São Paulo Stock Exchange) and for that reason the Company based the issuance price on average prices between March 4, 2004 and March 17, 2004.

The choice of using average prices in the stock exchange is based on article 170 of Law 6,404/76, which allows the use of that price in determining the economic value of shares. In addition, CVM Guideline (*Parecer de Orientação*) 01/78 indicates average prices as the preferred criteria for determining the economic value of shares, given that the shares have a sufficient standard of negotiability and that the market is well informed about the Company.
