Form 10-Q
May 09, 2008

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended **March 31, 2008**

Commission file number **000-24272**

FLUSHING FINANCIAL CORPORATION

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation or organization)

11-3209278

(I.R.S. Employer Identification No.)

1979 Marcus Avenue, Suite E140, Lake Success, New York 11042

(Address of principal executive offices)

(718) 961-5400

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. x Yes o No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer o

Accelerated filer x

Non-accelerated filer o

Smaller reporting company o

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act).

o Yes x No

The number of shares of the registrant's Common Stock outstanding as of April 30, 2008 was 21,413,349.

PART I – FINANCIAL INFORMATION

FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Notes to Consolidated Financial Statements
(Unaudited)

1. Basis of Presentation

The primary business of Flushing Financial Corporation (the “Holding Company”) is the operation of its wholly-owned subsidiary, Flushing Savings Bank, FSB (the “Bank”). The unaudited consolidated financial statements presented in this Form 10-Q include the collective results of the Holding Company and the Bank, but reflect principally the Bank’s activities.

The accompanying unaudited consolidated financial statements are prepared on the accrual basis of accounting. The information furnished in these interim statements reflects all adjustments which are, in the opinion of management, necessary for a fair statement of the results for such presented periods of Flushing Financial Corporation and Subsidiaries (the “Company”). Such adjustments are of a normal recurring nature, unless otherwise disclosed in this Form 10-Q. All inter-company balances and transactions have been eliminated in consolidation. The results of operations in the interim statements are not necessarily indicative of the results that may be expected for the full year.

The accompanying unaudited consolidated financial statements have been prepared in conformity with the instructions to Quarterly Report on Form 10-Q and Article 10, Rule 10-01 of Regulation S-X for interim financial statements. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States of America (“GAAP”) have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”). The unaudited consolidated interim financial information should be read in conjunction with the Company’s 2007 Annual Report on Form 10-K.

2. Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates.

3. Earnings Per Share

Earnings per share is computed in accordance with SFAS No. 128, “Earnings Per Share.” Basic earnings per share is computed by dividing net income by the total weighted average number of common shares outstanding, including only the vested portion of restricted stock and restricted stock unit awards during each period presented. The computation of diluted earnings per share includes the additional dilutive effect of stock options outstanding and the unvested portion of restricted stock and restricted stock unit awards during the period. Common stock equivalents that are antidilutive are not included in the computation of diluted earnings per share. The numerator for calculating basic and diluted earnings per share is net income. Earnings per share have been computed based on the following:

<i>(In thousands, except per share data)</i>	Three months ended March 31,	
	2008	2007
Net income	\$ 7,151	\$ 5,386
Divided by:		
Weighted average common shares outstanding	19,802	19,549
Weighted average common stock equivalents	185	258
Total weighted average common shares and common stock equivalents	19,987	19,807
Basic earnings per share	\$ 0.36	\$ 0.28
Diluted earnings per share (1) (2)	\$ 0.36	\$ 0.27
Dividends per share	\$ 0.13	\$ 0.12
Dividend payout ratio	36.11%	42.86%

Edgar Filing: FLUSHING FINANCIAL CORP - Form 10-Q

- (1) For the three months ended March 31, 2008, options to purchase 544,900 shares at an average exercise price of \$17.34 and unvested restricted stock and restricted stock unit awards totaling 178,892 shares at an average market price on date of grant of \$16.99, were not included in the computation of diluted earnings per share because their inclusion would be antidilutive.

- 5 -

PART I – FINANCIAL INFORMATION

FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES

Notes to Consolidated Financial Statements

(Unaudited)

- (2) For the three months ended March 31, 2007, options to purchase 275,525 shares, at an average exercise price of \$18.05, and unvested restricted stock and restricted stock unit awards for 71,329 shares, at an average market price on the date of grant of \$18.10, were not included in the computation of diluted earnings per share because their inclusion would be antidilutive.

4. Stock-Based Compensation

The 2005 Omnibus Incentive Plan (“Omnibus Plan”) became effective on May 17, 2005 after adoption by the Board of Directors and approval by the stockholders. The Omnibus Plan authorizes the Compensation Committee to grant a variety of equity compensation awards as well as long-term and annual cash incentive awards, all of which can be structured so as to comply with Section 162(m) of the Internal Revenue Code. The Company has applied the shares previously authorized by stockholders under the 1996 Restricted Stock Incentive Plan and the 1996 Stock Option Incentive Plan for use as full value awards and non-full value awards, respectively, for future awards under the Omnibus Plan. All grants and awards under the 1996 Restricted Stock Incentive Plan and the 1996 Stock Option Incentive Plan prior to the effective date of the Omnibus Plan are still outstanding as issued.

Under the Omnibus Plan and as of March 31, 2008, there are 196,077 shares available for full value awards and 148,188 shares available for non-full value awards. To satisfy stock option exercises or fund restricted stock and restricted stock unit awards, shares are issued from treasury stock, if available, otherwise new shares are issued. The Company will maintain separate pools of available shares for full value as opposed to non-full value awards, except that shares can be moved from the non-full value pool to the full value pool on a 3-for-1 basis.

The exercise price per share of a stock option grant may not be less than the fair market value of the common stock of the Company on the date of grant, and may not be repriced without the approval of the Company’s stockholders. Options, stock appreciation rights, restricted stock, restricted stock units and other stock based awards granted under the Omnibus Plan are generally subject to a minimum vesting period of three years with stock options having a 10-year contractual term. Other awards do not have a contractual term of expiration. Restricted stock, restricted stock units and stock option awards all include participants who have reached or are close to reaching retirement eligibility, at which time such awards fully vest. These amounts are included in stock-based compensation expense. The Omnibus Plan increased the annual grants to each outside director to 3,600 restricted stock units, while eliminating grants of stock options for outside directors. Prior to the approval of the Omnibus Plan, outside directors were annually granted 1,687 restricted stock unit awards and 14,850 stock options.

Full Value Awards: The first pool is available for full value awards, such as restricted stock unit awards. The pool will be decreased by the number of shares granted as full value awards. The pool will be increased from time to time by the number of shares that are returned to or retained by the Company as a result of the cancellation, expiration, forfeiture or other termination of a full value award (under the Omnibus Plan or the 1996 Restricted Stock Incentive Plan); the settlement of such an award in cash; the delivery to the award holder of fewer shares than the number underlying the award, including shares which are withheld from full value awards; or the surrender of shares by an award holder in payment of the exercise price or taxes with respect to a full value award.

Non-Full Value Awards: The second pool is available for non-full value awards, such as stock options. The pool will be increased from time to time by the number of shares that are returned to or retained by the Company as a result of the cancellation, expiration, forfeiture or other termination of a non-full value award (under the Omnibus Plan or the 1996 Stock Option Incentive Plan). The second pool will not be replenished by shares withheld or surrendered in payment of the exercise price or taxes, retained by the Company as a result of the delivery to the award hold of fewer shares than the number underlying the award, or the settlement of the award in cash.

In accordance with SFAS No. 123R, “Share-based Payments,” the Company estimates the fair value of stock options awarded on the date of grant using the Black Scholes valuation model. Under the Black Scholes valuation model, key assumptions are used to estimate the fair value of stock options include the exercise price of the award, the expected option term, the expected volatility of the Company’s stock price, the risk-free interest rate over the options’ expected term and the annual dividend yield. The Company uses the fair value of the common stock on the date of award to measure compensation cost for restricted stock and restricted stock unit awards. Compensation cost is recognized over the vesting period of the award, using the straight line method. For the three-months ended March 31, 2008, there were 8,000 stock options and 500 restricted stock units granted. There were no stock options,

PART I – FINANCIAL INFORMATION

FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Notes to Consolidated Financial Statements
(Unaudited)

restricted stock or restricted stock units granted during the three month period ended March 31, 2007.

For the three months ended March 31, 2008 and 2007, the Company's net income, as reported, includes \$0.4 million and \$0.3 million, respectively, of stock-based compensation costs and \$0.1 million and \$0.1 million, respectively, of income tax benefits related to the stock-based compensations plans.

The following are the significant weighted assumptions relating to the valuation of the Company's stock options granted for the periods indicated for the three months ended:

	March 31,	
	2008	2007
Dividend yield	4.23%	n.a.
Expected volatility	28.91%	n.a.
Risk-free interest rate	3.15%	n.a.
Expected option life (years)	7	n.a.

The following table summarizes the Company's full value awards at or for the quarter ended March 31, 2008:

Full Value Awards	Shares		Weighted-Average Grant-Date Fair Value
Non-vested at December 31, 2007	186,566	\$	16.88
Granted	500		15.12
Vested	(540)		17.18
Forfeited	(120)		16.85
	186,406		16.87
Vested but unissued at March 31, 2008	64,455	\$	16.70
Vested but unissued at December 31, 2007	78,815	\$	16.70

As of March 31, 2008, there was \$2.3 million of total unrecognized compensation cost related to non-vested full value awards granted under the Omnibus Plan. That cost is expected to be recognized over a weighed-average period of 3.0 years. The total fair value of awards vested during the three months ended March 31, 2008 and 2007 was \$9,000 and \$79,000, respectively. The vested but unissued full value awards were made to employees and directors who are eligible for retirement. According to the terms of the Omnibus Plan, these employees and directors have no risk of forfeiture. These shares will be issued at the original contractual vesting dates.

PART I – FINANCIAL INFORMATION

FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Notes to Consolidated Financial Statements
(Unaudited)

The following table summarizes certain information regarding the non-full value awards, all of which have been granted as stock options, at or for the quarter ended of March 31, 2008:

Non-Full Value Awards	Shares	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term	Aggregate Intrinsic Value (\$000) *
Outstanding at December 31, 2007	1,563,056	\$ 13.45		
Granted	8,000	15.12		
Exercised	(12,600)	11.91		
Forfeited	(3,000)	18.30		
Outstanding at March 31, 2008	1,555,456	\$ 13.46	5.5 years	\$ 6,538
Exercisable shares at March 31, 2008	1,344,326	\$ 12.97	5.1 years	\$ 6,296
Vested but unexercisable shares at March 31, 2008	5,755	\$ 16.12	8.3 years	\$ 8

* The intrinsic value of a stock option is the amount by which the market value of the underlying stock exceeds the exercise price of the option.

As of March 31, 2008, there was \$0.7 million of total unrecognized compensation cost related to unvested non-full value awards granted under the Omnibus Plan. That cost is expected to be recognized over a weighed-average period of 3.5 years. The vested but unexercisable non-full value awards were made to employees and directors who are eligible for retirement. According to the terms of the Omnibus Plan, these employees and directors have no risk of forfeiture. These shares will be exercisable at the original contractual vesting dates.

Cash proceeds, fair value received, tax benefits and intrinsic value related to total stock options exercised and the weighted average grant date fair value for options granted during the three months ended March 31, 2008 and 2007 are provided in the following table:

<i>(In thousands except grant date fair value)</i>	March 31,	
	2008	2007
Proceeds from stock options exercised	\$ 150	\$ 141
Tax benefit related to stock options exercised	29	14
Intrinsic value of stock options exercised	69	56
Grant date fair value at weighted average	3.40	—

Phantom Stock Plan: In addition, the Company maintains a non-qualified phantom stock plan as a supplement to its profit sharing plan for officers who have achieved the level of Vice President and above and completed one year of service. Awards are made under this plan on certain compensation not eligible for awards made under the profit sharing plan, due to the terms of the profit sharing plan and the Internal Revenue Code. Employees receive awards under this plan proportionate to the amount they would have received under the profit sharing plan, but for limits imposed by the profit sharing plan and the Internal Revenue Code. The awards are made as cash awards, and then converted to common stock equivalents (phantom shares) at the then current market value of the Company's common stock. Dividends are credited to each employee's account in the form of additional phantom shares each time the Company pays a dividend on its common stock. In the event of a change of

Edgar Filing: FLUSHING FINANCIAL CORP - Form 10-Q

control (as defined in this plan), an employee's interest is converted to a fixed dollar amount and deemed to be invested in the same manner as his interest in the Bank's non-qualified deferred compensation plan. Employees vest under this plan 20% per year for 5 years. Employees also become 100% vested upon a change of control. Employees receive their vested interest in this plan in the form of a cash lump sum payment or installments, as elected by the employee, after termination of employment. The Company adjusts its liability under this plan to the fair value of the shares at the end of each period.

(Unaudited)

The following table summarizes the Company's Phantom Stock Plan at or for the three months ended March 31, 2008:

Phantom Stock Plan	Shares	Fair Value
Outstanding at December 31, 2007	14,046	\$ 16.05
Granted	2,705	13.64
Distributions	(792)	14.44
	<u>15,959</u>	<u>\$ 17.58</u>
Outstanding at March 31, 2008	15,959	\$ 17.58
Vested at March 31, 2008	15,647	\$ 17.58

The Company recorded stock-based compensation expense (benefit) for the phantom stock plan of \$31,000 and \$(10,000) for the three months ended March 31, 2008 and 2007 respectively. The total fair value of the distributions from the phantom stock plan during the three months ended March 31, 2008 and 2007 was \$11,000 and \$19,000, respectively.

5. Pension and Other Postretirement Benefit Plans

The following table sets forth information regarding the components of net expense for the pension and other postretirement benefit plans.

<i>(In thousands)</i>	Three months ended March 31,	
	2008	2007
Employee Pension Plan:		
Service cost	\$ —	\$ —
Interest cost	228	217
Amortization of unrecognized loss	24	34
Amortization of past service liability	—	—
Expected return on plan assets	(337)	(321)
Net employee pension expense	<u>\$ (85)</u>	<u>\$ (70)</u>
Outside Director Pension Plan:		
Service cost	\$ 14	\$ 14
Interest cost	35	37
Amortization of unrecognized gain	(8)	—
Amortization of past service liability	10	35

Edgar Filing: FLUSHING FINANCIAL CORP - Form 10-Q

Net outside director pension expense	\$	51	\$	86
		<u> </u>		<u> </u>
Other Postretirement Benefit Plans:				
Service cost	\$	39	\$	31
Interest cost		53		42
Amortization of unrecognized (gain) loss		—		(6)
Amortization of past service liability		(3)		(4)
		<u> </u>		<u> </u>
Net other postretirement benefit expense	\$	89	\$	63
		<u> </u>		<u> </u>

The Company previously disclosed in its consolidated financial statements for the year ended December 31, 2007 that it expects to contribute \$0.1 million and \$0.1 million to the Outside Director Pension Plan and Other Post Retirement Benefit Plans, respectively, during the year ending December 31, 2008. The Company does not expect to make a contribution to the Employee Pension Plan during the year ending December 31, 2008. As of March 31, 2008, the Company has contributed \$13,000 to the Outside Director Pension Plan and \$10,000 to the Other Postretirement Benefit Plans, for the year ending December 31, 2008. As of March 31, 2008, the Company has not made any contribution to the Employee Pension Plan for the year ending December 31, 2008. As of March 31, 2008, the Company has not revised its expected contributions for the year ending December 31, 2008.

(Unaudited)

6. Fair Value Measurements

Effective January 1, 2007, the Company adopted SFAS No. 157, “Fair Value Measurements”, and SFAS No. 159, “The Fair Value Option for Financial Assets and Financial Liabilities-Including an amendment of FASB No. 115”. SFAS No. 157 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value.

Management selected the fair value option for certain investment securities, primarily mortgage-backed securities, and certain borrowed funds. These financial instruments were chosen as the yield on the financial assets was a below-market yield, while the rate on the financial liabilities was an above-market rate. Management also considered the average duration of these instruments, which, for investment securities, was longer than the average for the portfolio of securities, and, for borrowings, primarily represents the longer-term borrowings of the Company. Choosing these instruments for the fair value option adjusts the carrying value of these financial assets and financial liabilities to their current fair value, and more closely aligns the financial performance of the Company with the economic value of these financial instruments.

Management selected, as of January 1, 2007, financial assets and financial liabilities with fair values of \$160.7 million and \$120.1 million, respectively, for the fair value option. The selection of these financial assets and financial liabilities reduced the Company’s one year interest-rate gap position, thereby reducing the Company’s interest-rate risk position. Management believes that electing the fair value option allows them to better react to changes in interest rates. Management did not elect the fair value option for investment securities and borrowings with shorter duration, adjustable rates, and yields that approximate the current market rate, as management believes that these financial assets and financial liabilities approximate their economic value. On a going-forward basis, the Company currently plans to carry the financial assets and financial liabilities which replace the above noted items at fair value, and will evaluate other purchases of investments and acquisition of new debt to determine if they should be carried at cost or fair value. During the year ended December 31, 2007, the Company elected to measure at fair value junior subordinated debt (commonly known as trust preferred securities) with a face amount of \$61.9 million that was issued during the year, and securities that were purchased at a cost of \$21.4 million.

The following table presents the financial assets and financial liabilities reported at fair value, and the changes in fair value included in the Consolidated Statement of Income – Net (loss) gain from fair value adjustments, at or for the three months ended March 31, 2008 and 2007:

Description	Fair Value Measurements at March 31, 2008 (1)	Changes in Fair Values For Items Measured at Fair Value Pursuant to Election of the Fair Value Option (1)	
		Three Months Ended March 31, 2008	Three Months Ended March 31, 2007
<i>(Dollars in thousands)</i>			
Mortgage-backed securities	\$ 129,586	\$ 1,777	\$ 858
Other securities	30,228	(968)	18
Borrowed funds	137,652	(2,036)	(15)
Securities sold under agreements to repurchase	26,291	(375)	(56)
Net (loss) gain from fair value adjustments		\$ (1,602)	\$ 805

(1) Each of the financial instruments reported at fair value are based on significant other observable inputs (level 2).

Edgar Filing: FLUSHING FINANCIAL CORP - Form 10-Q

Financial assets and financial liabilities reported at fair value are required to be measured based on either: (1) quoted prices in active markets for identical financial instruments (level 1), (2) significant other observable inputs (level 2), or (3) significant unobservable inputs (level 3). Each of the financial instruments reported by the Company at fair value are based on significant other observable inputs (level 2) at March 31, 2008 and 2007.

- 10 -

PART I – FINANCIAL INFORMATION

FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES

Notes to Consolidated Financial Statements

(Unaudited)

Included in the fair value of the financial assets and financial liabilities selected for the fair value option is the accrued interest receivable or payable for the related instrument. The Company continues to accrue, and report as interest income or interest expense in the Consolidated Statement of Income, the interest receivable or payable on the financial instruments selected for the fair value option at their respective contractual rates.

The borrowed funds and securities sold under agreements to repurchase have contractual principal amounts, as of March 31, 2008, of \$131,857,000 and \$25,000,000, respectively. The fair value of borrowed funds and securities sold under agreements to repurchase includes accrued interest payable, as of March 31, 2008, of \$820,000 and \$268,000, respectively.

7. Recent Accounting Pronouncements

In September 2006, the FASB ratified the consensus reached by the Emerging Issues Task Force on Issue No. 06-4, "Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Arrangements." The consensus reached in Issue No. 06-4 requires the accrual of a liability for the cost of the insurance policy during postretirement periods in accordance with SFAS No. 106, "Employers' Accounting for Postretirement Benefits Other Than Pensions", or APB Opinion 12, "Omnibus Opinion", when an employer has effectively agreed to maintain a life insurance policy during the employee's retirement. At March 31, 2008 the Company had endorsement split-dollar life insurance arrangements with forty-seven present or former employees, which currently provides approximately \$7.9 million of life insurance benefits to these employees. The amount of the benefit for each employee is based on the employee's salary when their employment terminates. Issue No. 06-4 became effective for fiscal years beginning after December 15, 2007. The adoption of Issue No. 06-4 resulted in a charge to retained earnings, and a corresponding reduction of stockholders' equity, of \$0.6 million, net of tax, as of January 1, 2008.

In December 2007, the FASB issue SFAS No. 141R (revised 2007), "Business Combinations." This statement replaces SFAS No. 141, "Business Combinations", but retains the fundamental requirements in SFAS No. 141 that the acquisition method of accounting be used for all business combinations and for an acquirer to be identified for each business combination. This statement defines the acquirer as the entity that obtains control of one or more businesses in the business combination and establishes the acquisition date as the date that the acquirer achieves control. This statement requires an acquirer to recognize the assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree at the acquisition date, measured at their fair values as of that date, with limited exceptions. This statement also requires that costs incurred to complete the acquisition, including restructuring costs, are to be recognized separately from the acquisition. This statement also requires an acquirer to recognize assets or liabilities arising from all other contingencies as of the acquisition date, measured at their acquisition-date fair values, only if they meet the definition of an asset or liability in FASB Concepts Statement No. 6, "Elements of Financial Statements." This statement also provides specific guidance on the subsequent accounting for assets and liabilities arising from contingencies acquired or assumed in a business combination. SFAS No. 141R is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. Early adoption is not permitted. Since this statement is effective for business combinations for which the Company is the acquirer that occur after December 31, 2008, the Company is unable, at this time, to determine the impact of this statement.

In December 2007, the FASB issued SFAS No. 160, "Noncontrolling Interests in Consolidated Financial Statements – an amendment of ARB No. 51." This statement requires that ownership interests in subsidiaries held by parties other than the parent company be clearly identified, labeled, and presented in the consolidated statement of financial position within equity, but separate from the parent's equity. This statement also requires the amount of consolidated net income attributable to the parent company and to the noncontrolling interest be clearly identified and presented on the face of the consolidated statement of income. SFAS No. 160 is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. Early adoption is not permitted. Adoption of SFAS No. 160 is not expected to have a material impact on the Company's results of operations or financial condition.

PART I – FINANCIAL INFORMATION

FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES

Notes to Consolidated Financial Statements

(Unaudited)

In March 2008, the FASB issued SFAS No. 161, “Disclosures about Derivative Instruments and Hedging Activities” – an amendment of FASB Statement No. 133”. The statement requires enhanced disclosures about an entity’s derivative and hedging activities, including information about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under SFAS No. 133 and its related interpretations, and (c) how derivative instruments and related hedged items affect an entity’s financial position, financial performance, and cash flows. The Statement is effective for all financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with earlier adoption permitted. Adoption of SFAS No. 161 is not expected to have a material impact on the Company’s results of operations or financial condition.

ITEM 2.

This Quarterly Report on Form 10-Q (“Quarterly Report”) should be read in conjunction with the more detailed and comprehensive disclosures included in our Annual Report on Form 10-K for the year ended December 31, 2007. In addition, please read this section in conjunction with our Consolidated Financial Statements and Notes to Consolidated Financial Statements contained herein.

Statements contained in this Quarterly Report relating to plans, strategies, objectives, economic performance and trends, projections of results of specific activities or investments and other statements that are not descriptions of historical facts may be forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking information is inherently subject to risks and uncertainties, and actual results could differ materially from those currently anticipated due to a number of factors, which include, but are not limited to, the factors set forth in the preceding paragraph and elsewhere in this Quarterly Report, and in other documents filed by the Company with the Securities and Exchange Commission from time to time, including, without limitation, the Company’s Annual Report on Form 10-K for the year ended December 31, 2007. Forward-looking statements may be identified by terms such as “may”, “will”, “should”, “could”, “expects”, “plans”, “intends”, “anticipates”, “believes”, “estimates”, “predicts”, “forecasts”, “potential” or “continue” or similar terms or these terms. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. The Company has no obligation to update these forward-looking statements.

Executive Summary

Flushing Financial Corporation, a Delaware corporation (the “Holding Company”), was organized in May 1994 to serve as the holding company for Flushing Savings Bank, FSB (the “Bank”), a federally chartered, FDIC insured savings institution, originally organized in 1929. Flushing Financial Corporation’s common stock is publicly traded on the NASDAQ Global Select Market under the symbol “FFIC”. The Bank is a community oriented savings institution offering a wide variety of financial services to meet the needs of the businesses and consumers in the communities it serves. The Bank conducts its business through fourteen banking offices located in Queens, Brooklyn, Manhattan and Nassau County, and its internet banking division, “iGObanking.com®”. During 2007, the Bank formed a wholly-owned subsidiary, Flushing Commercial Bank, for the limited purpose of accepting municipal deposits and state funds in the State of New York. To date, the operations of Flushing Commercial Bank have not been material.

The Bank’s principal business is attracting retail deposits from the general public and investing those deposits together with funds generated from ongoing operations and borrowings, primarily in (1) originations and purchases of one-to-four family (focusing on mixed-use properties – properties that contain both residential dwelling units and commercial units), multi-family residential and commercial real estate mortgage loans; (2) construction loans, primarily for multi-family residential properties; (3) Small Business Administration (“SBA”) loans and other small business loans; (4) mortgage loan surrogates such as mortgage-backed securities; and (5) U.S. government securities, corporate fixed-income securities and other marketable securities. The Bank also originates certain other consumer loans.

Management’s strategy is to continue the Bank’s focus as an institution serving consumers, businesses, and governmental units in its local markets. In furtherance of this objective, the Company intends to: (1) continue its emphasis on the origination of multi-family residential, commercial real estate and one-to-four family mixed-use property mortgage loans, (2) transition from a traditional thrift to a more ‘commercial-like’ banking institution, (3) increase its commitment to the multi-cultural marketplace, with a particular focus on the Asian community in Queens, (4) maintain asset quality, (5) manage deposit growth and maintain a low cost of funds, utilizing the internet banking division to grow deposits, (6) cross sell to lending and deposit customers, (7) actively pursue deposits from local area government units, (8) manage interest rate risk, (9) explore new business opportunities, and (10) manage capital. There can be no assurance that the Company will be able to effectively implement this strategy. The Company’s strategy is subject to change by the Board of Directors.

PART I – FINANCIAL INFORMATION

FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Management’s Discussion and Analysis of
Financial Condition and Results of Operations

Net income for the first quarter of 2008 was a record \$7.2 million, an increase of \$1.8 million, or 32.8%, from the \$5.4 million earned in the first quarter of 2007. Return on average equity was 12.3% for the three months ended March 31, 2008 compared to 10.0% for the three months ended March 31, 2007. Return on average assets was 0.8% for the three months ended March 31, 2008 and 2007.

Management also continues to closely monitor the local and national real estate markets and other factors related to risks inherent in the loan portfolio. The Bank has not been affected by the recent increase in defaults of sub-prime mortgages as the Bank does not originate, or hold in portfolio, sub-prime mortgages. As the Bank continues to increase its loan portfolio, management continues to adhere to the Bank’s strict underwriting standards. As a result, the Bank has been able to minimize charge-offs of losses from impaired loans and maintain asset quality. Non-performing assets were \$7.9 million at March 31, 2008. By adherence to its strict underwriting standards the Bank continues to minimize net losses from impaired loans with net charge-offs of \$86,000 for the three months ended March 31, 2008. Total non-performing assets as a percentage of total assets was 0.23% at March 31, 2008. The ratio of allowance for loan losses to total non-performing loans was 87% at March 31, 2008.

The Company’s investment policy, which is approved by the Board of Directors, is designed primarily to manage the interest rate sensitivity of its overall assets and liabilities, to generate a favorable return without incurring undue interest rate and credit risk, to complement the Bank’s lending activities and to provide and maintain liquidity. In establishing its investment strategies, the Company considers its business and growth strategies, the economic environment, its interest rate risk exposure, its interest rate sensitivity “gap” position, the types of securities to be held, and other factors. The Company classifies its investment securities as available for sale.

At March 31, 2008, the Company had total assets of \$3,468.8 million, including total loans of \$2,813.2 million and mortgage-backed securities of \$360.9 million. Loan applications in process were \$268.8 million at March 31, 2008. Total liabilities were \$3,233.3 million at March 31, 2008, including \$2,049.7 million due to depositors, borrowed funds of \$898.7 million and securities sold under agreements to repurchase of \$223.2 million. At March 31, 2008, there were \$529.9 million of certificates of deposit, at a weighted-average rate of 4.40%, that will mature or reprice before year end.

The Company’s results of operations depend primarily on net interest income, which is the difference between the income earned on its interest-earning assets and the cost of its interest-bearing liabilities. Net interest income is the result of the Company’s interest rate margin, which is the difference between the average yield earned on interest-earning assets and the average cost of interest-bearing liabilities, adjusted for the difference in the average balance of interest-earning assets as compared to the average balance of interest-bearing liabilities. The Company also generates non-interest income from loan fees, service charges on deposit accounts, mortgage servicing fees, and other fees, income earned on Bank Owned Life Insurance (“BOLI”), dividends on Federal Home Loan Bank of New York (“FHLB-NY”) stock and net gains and losses on sales of securities and loans. The Company’s operating expenses consist principally of employee compensation and benefits, occupancy and equipment costs, other general and administrative expenses and income tax expense. The Company’s results of operations also can be significantly affected by its periodic provision for loan losses and specific provision for losses on real estate owned. Such results also are significantly affected by general economic and competitive conditions, including changes in market interest rates, the strength of the local economy, government policies and actions of regulatory authorities.

PART I – FINANCIAL INFORMATION

FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Management’s Discussion and Analysis of
Financial Condition and Results of Operations

COMPARISON OF OPERATING RESULTS FOR THE THREE MONTHS ENDED MARCH 31, 2008 AND 2007

General. Net income increased \$1.8 million, or 32.8%, to \$7.2 million for the three months ended March 31, 2008 from \$5.4 million for the three months ended March 31, 2007. Diluted earnings per share was \$0.36, an increase of \$0.09, or 33.3%, for the three months ended March 31, 2008 from \$0.27 for the three months ended March 31, 2007. The return on average assets was 0.84% for the three months ended March 31, 2008, as compared to 0.75% for the three months ended March 31, 2007, while the return on average equity was 12.27% for the three months ended March 31, 2008 and 10.03% for the three months ended March 31, 2007.

Interest Income. Total interest and dividend income increased \$8.6 million, or 19.3%, to \$53.4 million for the three months ended March 31, 2008 from \$44.8 million for the three months ended March 31, 2007. The increase in interest income is attributed to the growth in the average balance of interest-earning assets, which increased \$500.4 million to \$3,209.3 million, combined with a five basis point increase in the yield of interest-earning assets to 6.66% for the three months ended March 31, 2008 from 6.61% for the quarter ended March 31, 2007. The increase in the yield of interest-earning assets is primarily due to an increase of \$360.2 million in the average balance of the loan portfolio to \$2,732.8 million, combined with a \$108.8 million increase in the average balance of the securities portfolios. The yield on the mortgage loan portfolio increased eight basis points to 6.91% for the three months ended March 31, 2008 from 6.83% for the three months ended March 31, 2007. This increase is primarily due to an increase in prepayment penalty income collected during the three months ended March 31, 2008 as compared to the three months ended March 31, 2007 and the average rate on new loans originated since March 31, 2007 being above the average rate on both the loan portfolio and loans which were paid-in-full during this period. The average note rate on mortgage loans originated in the current quarter was 6.86%. The yield on the mortgage loan portfolio, excluding prepayment penalty income was 6.73% for the three months ended March 31, 2008 the same as was recorded in the three months ended December 31, 2007 and a one basis point improvement from the 6.72% for the three months ended March 31, 2007.

Interest Expense. Interest expense increased \$5.2 million, or 19.0%, to \$32.7 million for the three months ended March 31, 2008 from \$27.5 million for the three months ended March 31, 2007. The decrease in the cost of interest-bearing liabilities is primarily attributed to the Federal Open Market Committee (“FOMC”) lowering the overnight interest rate to 2.25% as of March 31, 2008. As result of these rate reductions by the FOMC, the Bank reduced the rate it pays on its deposit products. Certificates of deposit and money market accounts decreased two basis points and 18 basis points, respectively, for the three months ended March 31, 2008 compared to the three months ended March 31, 2007. Savings accounts and NOW accounts increased 53 basis points and 146 basis points, respectively, for the three months ended March 31, 2008 compared to the three months ended March 31, 2007. This increase in the average cost of Savings and NOW accounts is due to the introduction and promotion of new products during the past year which, although carrying a higher rate than other products in these types of accounts, had a lower rate during the quarter ended March 31, 2008 than the average cost of total deposits. As a result of the above, there was a decrease in the cost of deposits of two basis points to 3.98% for the three months ended March 31, 2008 compared to the three months ended March 31, 2007. The cost of borrowed funds also decreased 11 basis points to 4.74% for the three months ended March 31, 2008 compared to the three months ended March 31, 2007. The average balance of certificates of deposit and borrowed funds increased \$49.7 million and \$274.8 million, respectively, for the quarter ended March 31, 2008 compared to the prior year period. In addition, the combined average balances of lower-costing savings, money market and NOW accounts increased a total of \$177.3 million for the quarter ended March 31, 2008 compared to the prior year period.

Net Interest Income. For the three months ended March 31, 2008, net interest income was \$20.7 million, an increase of \$3.4 million, or 19.7%, from \$17.3 million for the three months ended March 31, 2007. An increase in the average balance of interest-earning assets of \$500.4 million, to \$3,209.3 million, combined with an increase in the net interest spread of seven basis points to 2.41% for the quarter ended March 31, 2008 from 2.34% for the comparable period in 2007. The yield on interest-earning assets increased five basis points to 6.66% for the three months ended March 31, 2008 from 6.61% in the three months ended March 31, 2007. The cost of interest-bearing liabilities decreased by two basis points to 4.25% for the three months ended March 31, 2008 from 4.27% for the comparable prior year period. The net interest margin increased two basis points to 2.58% for the three months ended March 31, 2008 from 2.56% for the three months ended March 31, 2007. Excluding prepayment penalty income, the net interest margin would have been 2.44% and 2.46% for the three month periods ended March 31, 2008 and 2007, respectively.

PART I – FINANCIAL INFORMATION

FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Management's Discussion and Analysis of
Financial Condition and Results of Operations

Provision for Loan Losses. The provision for loans losses for the three months ended March 31, 2008 was \$0.3 million. There was no provision for loan losses for the three months ended March 31, 2007. The regular quarterly review of the allowance for loan losses resulted in management's conclusion that this provision is necessary to maintain the allowance for loan losses at a level that provides for losses inherent in the loan portfolio. In assessing the adequacy of the Company's allowance for loan losses, management considers the Company's historical loss experience, recent trends in losses, collection policies and collection experience, trends in the volume of non-performing loans, changes in the composition and volume of the gross loan portfolio, and local and national economic conditions. By adherence to its strict underwriting standards the Bank has been able to minimize net losses from impaired loans with net charge-offs of \$86,000 for the three months ended March 31, 2008, compared to \$73,000 for the comparable period in 2007. See “-ALLOWANCE FOR LOAN LOSSES”.

Non-Interest Income. Non-interest income increased \$0.3 million, or 8.8%, for the three months ended March 31, 2008 to \$4.0 million, as compared to \$3.7 million for the quarter ended March 31, 2007. Increases of \$0.3 million in dividends received on FHLB-NY stock, and \$0.1 million in income on BOLI due to the purchase of additional BOLI, were partially offset by a \$0.1 million decrease in net gain on sale of loans. The three months ended March 31, 2008 includes income of \$2.4 million representing a partial and final recovery of a portion of a loss sustained in 2002 on a WorldCom, Inc. senior note. This amount was received as a result of a class action litigation settlement. The changes in fair value of financial assets and financial liabilities carried at fair value under SFAS No. 159 was a loss of \$1.6 million for the three months ended March 31, 2008, a decrease of \$2.4 million from the \$0.8 million gain recorded for the three months ended March 31, 2007.

Non-Interest Expense. Non-interest expense was \$13.2 million for the three months ended March 31, 2008, an increase of \$0.7 million, or 5.5%, from \$12.5 million for the three months ended March 31, 2007. The increase from the comparable prior year period is primarily attributed to increases of: \$0.3 million in employee salary and benefits, \$0.2 million in professional services, and \$0.2 million in data processing expense, each of which is primarily attributed to the growth of the Bank over the past twelve months. The efficiency ratio was 56.1% and 62.2% for the three month periods ended March 31, 2008 and 2007, respectively.

Income before Income Taxes. Income before the provision for income taxes increased \$2.7 million, or 32.5%, to \$11.2 million for the three months ended March 31, 2008 from \$8.4 million for the three months ended March 31, 2007, for the reasons discussed above.

Provision for Income Taxes. Income tax expense increased \$1.0 million, to \$4.0 million for the three months ended March 31, 2008 as compared to \$3.0 million for the three months ended March 31, 2007. This increase was primarily due to higher pre-tax income for the three months ended March 31, 2008 as compared to the three months ended March 31, 2007. The effective tax rate was 36.0% and 36.1% for the three-month periods ended March 31, 2008 and 2007, respectively.

PART I – FINANCIAL INFORMATION

FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Management’s Discussion and Analysis of
Financial Condition and Results of Operations

FINANCIAL CONDITION

Assets. Total assets at March 31, 2008, were \$3,468.8 million, an increase of \$114.2 million, or 3.4%, from \$3,354.5 million at December 31, 2007. Total loans, net increased \$111.0 million, or 4.1%, during the first quarter ended March 31, 2008 to \$2,813.2 million from \$2,702.1 million at December 31, 2007. At March 31, 2008, loan applications in process totaled \$268.8 million, compared to \$300.8 million at March 31, 2007 and \$201.0 million at December 31, 2007. At March 31, 2008 there were lines of credit available to be drawn upon of \$28.5 million in construction lines, \$41.3 million in home equity lines, and \$18.9 million in business lines of credit.

The following table shows loan originations and purchases for the periods indicated.

<i>(In thousands)</i>	For the three months ended March 31,	
	2008	2007
Multi-family residential ⁽¹⁾	\$ 47,482	\$ 57,658
Commercial real estate ⁽²⁾	42,933	38,674
One-to-four family – mixed-use property	34,618	43,554
One-to-four family - residential ⁽³⁾	68,021	7,245
Construction	9,502	11,100
Commercial business and other ⁽⁴⁾	19,544	25,482
	\$ 222,100	\$ 183,713

(1) Includes purchases of \$8.7 million in the three months ended March 31, 2007.

(2) Includes purchases of \$2.5 million and \$0.4 million in the three months ended March 31, 2008 and 2007, respectively.

(3) Includes purchases of \$50.0 million in the three months ended March 31, 2008.

(4) Includes purchases of \$0.4 million in the three months ended March 31, 2008.

As the Bank continues to increase its loan portfolio, management continues to adhere to the Bank’s strict underwriting standards. As a result, the Bank has been able to minimize charge-offs of losses from impaired loans and maintain asset quality. Non-performing assets were \$7.9 million at March 31, 2008 compared to \$5.9 million at December 31, 2007 and \$3.1 million at March 31, 2007. The increase from December 31, 2007 is primarily attributed to three loans that are 90 days or more past due but still accruing interest. One of these loans, with a principal balance of \$1.6 million, was sold in April with the Bank receiving all amounts, principal and interest, due under the terms of the loan. The other two loans are scheduled to either be paid-in-full or sold during the second quarter of 2008, with the Bank receiving all amounts, principal and interest, due under the terms of the loan. Non-accruing loans were \$5.1 million at March 31, 2008, the same as at December 31, 2007. Total non-performing assets as a percentage of total assets was 0.23% at March 31, 2008 compared to 0.18% at December 31, 2007 and 0.11% as of March 31, 2007. The ratio of allowance for loan losses to total non-performing loans was 87% at March 31, 2008, compared to 113% at December 31, 2007 and 224% at March 31, 2007.

During the quarter ended March 31, 2008, mortgage-backed securities decreased \$1.8 million to \$360.9 million, while other securities decreased \$3.8 million to \$73.5 million. During the quarter ended March 31, 2008, there were purchases of \$13.0 million of mortgage-backed securities. Other securities primarily consists of securities issued by government agencies and mutual or bond funds that invest in government and government agency securities.

Edgar Filing: FLUSHING FINANCIAL CORP - Form 10-Q

Liabilities. Total liabilities were \$3,233.3 million at March 31, 2008, an increase of \$112.5 million, or 3.6%, from December 31, 2007. During the quarter ended March 31, 2008, due to depositors increased \$46.7 million to \$2,049.7 million, primarily as a result of increases of \$38.2 million in certificates of deposit and core deposits of \$8.5 million. The increase in certificates of deposit is attributed to an increase in brokered deposits of \$96.6 million, partially offset by a decrease in retail certificates of deposit of \$58.3 million. Borrowed funds increased \$49.3 million to partially fund loan growth. In addition, mortgagors' escrow deposits increased \$12.8 million during the quarter ended March 31, 2008. At March 31, 2008, there were \$529.9 million of certificates of deposit, at a weighted-average rate of 4.40%, that will mature or reprice before year end.

PART I – FINANCIAL INFORMATION

FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Management's Discussion and Analysis of
Financial Condition and Results of Operations

Equity. Total stockholders' equity increased \$1.8 million, or 0.8%, to \$235.4 million at March 31, 2008 from \$233.7 million at December 31, 2007. Net income of \$7.2 million for the three months ended March 31, 2008 was partially offset by a net after tax decrease of \$3.7 million on the market value of securities available for sale, \$2.6 million of cash dividends declared and paid during the three months ended March 31, 2008, and a \$0.6 million charge as a result of the adoption of EITF Issue No. 06-4, which requires the accrual of the post-retirement cost of endorsement split-dollar life insurance arrangements with employees. The exercise of stock options increased stockholders' equity by \$0.2 million, including the income tax benefit realized by the Company upon the exercise of the options. Book value per share was \$11.03 at March 31, 2008, compared to \$10.96 per share at December 31, 2007 and \$10.41 per share at March 31, 2007.

The Company did not repurchase any shares during the quarter ended March 31, 2008 under its current stock repurchase program. At March 31, 2008, 362,050 shares remain to be repurchased under the current stock repurchase program.

Cash flow. During the three months ended March 31, 2008, funds provided by the Company's operating activities amounted to \$12.1 million. These funds, together with \$103.7 million provided by financing activities, were utilized to fund net investing activities of \$113.9 million. The Company's primary business objective is the origination and purchase of one-to-four family (primarily mixed-use properties), multi-family residential and commercial real estate mortgage loans, and commercial, business and SBA loans. During the three months ended March 31, 2008, the net total of loan originations and purchases less loan repayments and sales was \$111.4 million. Funds were provided by an increase of \$46.5 million in due to depositors, an increase of \$12.8 million in escrow deposits, and an increase of \$46.9 million in borrowed funds. Additional funds of \$0.2 million were provided through the exercise of stock options. The Company also used funds of \$2.6 million for dividend payments during the three months ended March 31, 2008.

FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES
Management’s Discussion and Analysis of
Financial Condition and Results of Operations

INTEREST RATE RISK

The consolidated statements of financial position have been prepared in accordance with generally accepted accounting principles in the United States of America, which require the measurement of financial position and operating results in terms of historical dollars without considering the changes in fair value of certain investments due to changes in interest rates. Generally, the fair value of financial investments such as loans and securities fluctuates inversely with changes in interest rates. As a result, increases in interest rates could result in decreases in the fair value of the Company’s interest-earning assets which could adversely affect the Company’s results of operation if such assets were sold, or, in the case of securities classified as available-for-sale, decreases in the Company’s stockholders’ equity, if such securities were retained.

The Company manages the mix of interest-earning assets and interest-bearing liabilities on a continuous basis to maximize return and adjust its exposure to interest rate risk. On a quarterly basis, management prepares the “Earnings and Economic Exposure to Changes in Interest Rate” report for review by the Board of Directors, as summarized below. This report quantifies the potential changes in net interest income and net portfolio value should interest rates go up or down (shocked) 200 basis points, assuming the yield curves of the rate shocks will be parallel to each other. The OTS currently places its focus on the net portfolio value, focusing on a rate shock up or down of 200 basis points. Net portfolio value is defined as the market value of assets net of the market value of liabilities. The market value of assets and liabilities is determined using a discounted cash flow calculation. The net portfolio value ratio is the ratio of the net portfolio value to the market value of assets. All changes in income and value are measured as percentage changes from the projected net interest income and net portfolio value at the base interest rate scenario. The base interest rate scenario assumes interest rates at March 31, 2008. Various estimates regarding prepayment assumptions are made at each level of rate shock. However, prepayment penalty income is excluded from this analysis. Actual results could differ significantly from these estimates. At March 31, 2008, the Company is within the guidelines set forth by the Board of Directors for each interest rate level. The following table presents the Company’s interest rate shock as of March 31, 2008.

Change in Interest Rate	Projected Percentage Change In		
	Net Interest Income	Net Portfolio Value	Net Portfolio Value Ratio
-200 Basis points	-4.24%	7.09%	7.59%
-100 Basis points	-1.85	5.24	7.56
Base interest rate	—	—	7.30
+100 Basis points	-0.99	-9.50	6.73
+200 Basis points	-3.86	-20.58	6.07

REGULATORY CAPITAL POSITION

Under Office of Thrift Supervision (“OTS”) capital regulations, the Bank is required to comply with each of three separate capital adequacy standards. At March 31, 2008, the Bank exceeded each of the three OTS capital requirements and is categorized as “well-capitalized” by the OTS under the prompt corrective action regulations. Set forth below is a summary of the Bank’s compliance with OTS capital standards as of March 31, 2008.

<i>(Dollars in thousands)</i>	Amount	Percent of Assets

Management's Discussion and Analysis of
Financial Condition and Results of Operations

AVERAGE BALANCES

Net interest income represents the difference between income on interest-earning assets and expense on interest-bearing liabilities. Net interest income depends upon the relative amount of interest-earning assets and interest-bearing liabilities and the interest rate earned or paid on them. The following table sets forth certain information relating to the Company's consolidated statements of financial condition and consolidated statements of operations for the three-month periods ended March 31, 2008 and 2007, and reflects the average yield on assets and average cost of liabilities for the periods indicated. Such yields and costs are derived by dividing income or expense by the average balance of assets or liabilities, respectively, for the periods shown. Average balances are derived from average daily balances. The yields include amortization of fees which are considered adjustments to yields.

For the three months ended March 31,

	2008			2007

ALLOWANCE FOR LOAN LOSSES

The Bank has established and maintains on its books an allowance for loan losses that is designed to provide a reserve against estimated losses inherent in the Bank's overall loan portfolio. The allowance is established through a provision for loan losses based on management's evaluation of the risk inherent in the various components of its loan portfolio and other factors, including historical loan loss experience, changes in the composition and volume of the portfolio, collection policies and experience, trends in the volume of non-accrual loans and regional and national economic conditions. The determination of the amount of the allowance for loan losses includes estimates that are susceptible to significant changes due to changes in appraisal values of collateral, national and regional economic conditions and other factors. Management reviews the Bank's loan portfolio by separate categories with similar risk and collateral characteristics. Impaired loans are segregated and reviewed separately. All non-performing loans are classified impaired. Impaired loans secured by collateral are reviewed based on their collateral and the estimated time to recover the Bank's investment in the loan, and the estimate of the recovery anticipated. For non-collateralized impaired loans, management estimates any recoveries that are anticipated for each loan. Specific reserves are allocated to impaired loans based on this review. In connection with the determination of the allowance, the market value of collateral ordinarily is evaluated by the Bank's staff appraiser; however, the Bank may from time to time obtain independent appraisals for significant properties. Current year charge-offs, charge-off trends, new loan production and current balance by particular loan categories are also taken into account in determining the appropriate amount of allowance. The Board of Directors reviews and approves the adequacy of the allowance for loan losses on a quarterly basis.

In assessing the adequacy of the allowance, management also reviews the Bank's loan portfolio by separate categories which have similar risk and collateral characteristics; e.g. multi-family residential, commercial real estate, one-to-four family mixed-use property, one-to-four family residential, co-operative apartment, SBA, taxi medallion, commercial business and consumer loans. General provisions are established against performing loans in the Bank's portfolio in amounts deemed prudent from time to time based on the Bank's qualitative analysis of the factors, including the historical loss experience and regional economic conditions. Since January 1, 2003, the Bank has incurred total net charge-offs of \$787,000. This reflects a significant improvement over the loss experience of the 1990s. In addition, while the regional economy had slowed by the fourth quarter of 2007, the regional economy has improved since 2001, including significant increases in real estate values. The Bank's underwriting standards generally require a loan-to-value ratio of 75% at a time the loan is originated. Since real estate values have increased significantly since 2001, the loan-to-value ratios for loans originated in prior years have declined below the original 75% level. The rate at which mortgagors have been defaulting on their loans has declined, as the mortgagor's equity in the property has increased. The Bank has not been affected by the recent increase in defaults on sub-prime mortgages as the Bank does not originate, or hold in portfolio, sub-prime mortgages. As a result, the Bank has not incurred losses on mortgage loans in recent years, nor has the Bank provided a provision for loan losses since 1999. However, based on the regular quarterly review of losses inherent in the loan portfolio as of March 31, 2008, a provision of \$300,000 was provided for the quarter ended March 31, 2008. Management has concluded, after providing the provision in the current quarter, that the allowance is sufficient to absorb losses inherent in the loan portfolio.

PART I – FINANCIAL INFORMATION
FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For a discussion of the qualitative and quantitative disclosures about market risk, see the information under the caption “Management’s Discussion and Analysis of Financial Condition and Results of Operations - Interest Rate Risk.”

ITEM 4. CONTROLS AND PROCEDURES

The Company carried out, under the supervision and with the participation of the Company’s management, including its Chief Executive Officer and Chief Financial Officer, an evaluation of the effectiveness of the design and operation of the Company’s disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this Quarterly Report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of March 31, 2008, the design and operation of these disclosure controls and procedures were effective. During the period covered by this Quarterly Report, there have been no changes in the Company’s internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

The Company is a defendant in various lawsuits. Management of the Company, after consultation with outside legal counsel, believes that the resolution of these various matters will not result in any material adverse effect on the Company’s consolidated financial condition, results of operations and cash flows.

ITEM 1A. RISK FACTORS

There have been no material changes from the risk factors disclosed in the Company’s Form 10-K for the year ended December 31, 2007.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

The following table sets forth information regarding the shares of common stock repurchased by the Company during the quarter ended March 31, 2008.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares That May Yet Be Purchased Under the Plans or Programs
January 1 to January 31, 2008	—	\$ —	—	362,050
February 1 to February 29, 2008	—	—	—	362,050
March 1 to March 31, 2008	—	—	—	362,050
Total	—	\$ —	—	—

The current common stock repurchase program was approved by the Company’s Board of Directors on August 17, 2004 and authorized the repurchase of 1,000,000 common shares. The repurchase program does not have an expiration date or a maximum dollar amount that may be paid to repurchase the common shares. Stock repurchases under this program will be made from time to time, on the open market or in privately negotiated transactions, at the discretion of the management of the Company.
