1 Korazin Street
Givatayim 53583, Israel
(Address of principal executive offices)

Securities registered or to be registered pursuant to Section 12(b) of the Act:

Title of each class	Name of each exchange on which registered
None	None

Securities registered or to be registered pursuant to Section 12(g) of the Act:
Ordinary Shares, NIS 3.00 nominal value per share
(Title of Class)

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act:
None
(Title of Class)

Indicate the number of outstanding shares of each of the issuer's classes of capital or common stock as of the close of the period covered by the annual report.

3,222,785

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes No

If this report is an annual or transition report, indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934.

Yes No

Note Checking the box above will not relieve any registrant required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 from their obligations under those Sections.

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Indicate by check mark which financial statement item the registrant has elected to follow.

Item 17 Item 18

Edgar Filing: Pointer Telocation Ltd - Form 20-F/A

If this is an annual report, indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

2

This Annual Report on Form 20-F contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The use of the words projects, expects, may, plans or intends, words of similar import, identifies a statement as forward-looking. The forward-looking statements included herein are based on current expectations that involve a number of risks and uncertainties. These forward-looking statements are based on the assumption that Pointer Telocation Limited (we or the Company or Pointer) will not lose a significant customer or customers or experience increased fluctuations of demand or rescheduling of purchase orders, that our markets will grow, that our products will remain accepted within their respective markets and will not be replaced by new technology, that competitive conditions within our markets will not change materially or adversely, that we will retain key technical and management personnel, that our forecasts will accurately anticipate market demand, and that there will be no material adverse change in our operations or business. Assumptions relating to the foregoing involve judgments with respect to, among other things, future economic, competitive and market conditions, and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond our control. In addition, our business and operations are subject to substantial risks which increase the uncertainty inherent in the forward-looking statements. In light of the significant uncertainties inherent in the forward-looking information included herein, the inclusion of such information should not be regarded as a representation by us or any other person that our objectives or plans will be achieved. Factors that could cause actual results to differ from our expectations or projections include the risks and uncertainties relating to our business described in this annual report at Item 3.Risk Factors.

On August 10, 2005 a 100 to 1 reverse stock split of our ordinary shares was effected. As a result of the reverse stock split, each one hundred shares of our ordinary shares with par value NIS 0.03 were converted into one ordinary share NIS 3.00. All share numbers in this annual report reflect this reverse split.

ITEM 1. IDENTITY OF DIRECTORS, SENIOR MANAGEMENT AND ADVISERS

Not applicable.

ITEM 2. OFFER STATISTICS AND EXPECTED TIMETABLE

Not applicable.

ITEM 3. KEY INFORMATION

A. SELECTED FINANCIAL DATA

The selected financial data is incorporated by reference to Item 5 of this annual report and should be read in conjunction with our consolidated financial statements and the notes thereto, which are set forth in Item 18 Financial Statements and are incorporated by reference, and the other financial information appearing in Item 5 of this annual report.

B. CAPITALIZATION AND INDEBTEDNESS

Not applicable.

C. REASONS FOR THE OFFER AND USE OF PROCEEDS

Not applicable.

D. RISK FACTORS

Our business, operating results and financial condition could be seriously harmed due to any of the following risks, among others. If we do not successfully address the risks to which we are subject, we could experience a material adverse effect on our business, results of operations and financial condition and our share price may decline. We cannot assure you that we will successfully address any of these risks

General Risks Factors Relating to Our Company

This annual report and statements that we may make from time to time may contain forward-looking information. There can be no assurance that actual results will not differ materially from our expectations, statements or projections. Factors that could cause actual results to differ from our expectations, statements or projections include the risks and uncertainties relating to our business described below.

We have a history of net losses

With the exception of the years 2006 and 2003, we have incurred a net loss in each year of our existence. Our net profits in 2006 were \$1.2 million and were principally from continuing operations of \$0.3 million and other income of \$1.3 million off-set by impairment of long lived assets of \$0.4 million. Our net profits in 2003 of \$5.3 million resulted from a one-time non-cash capital gain of \$8.5 million from the disposal of discontinued operations and were offset by a \$3.3 million loss from continuing operations. Prior to 2004, our majority owned subsidiary, Shagrir Systems Ltd. (formerly Shagrir Motor Vehicle Systems Ltd.), or Shagrir, had never recorded net profits but has recorded shareholders' equity surplus for the first time in 2006. Although our company as well as Shagrir are currently profitable we may continue to sustain net losses for the foreseeable future, for several reasons, including resulting from increases in working capital deficiency (see Item 4 Recent Developments) and costs associated with other business initiatives in Israel and abroad. As a part of our strategy, we are focusing on the development of new businesses and services, both in the territories in which we currently operate as well as in new territories. Investing in such new businesses may result in an increase in short term losses. If we continue to sustain prolonged net losses or losses from continuing operations, we may have to cease our operations.

The majority of our business operations are based in Israel

Due to our purchase of Shagrir in 2004 and the acquisition of the business activities of Shagrir Towing Services acquired by Shagrir in February 2005, the majority of our operations are located in Israel, and Shagrir accounts for the majority of our revenues. Consequently, certain events in Israel which may or may not be directly connected with our business may have a disproportionate effect on our operations. For instance, major public transportation projects, changes in vehicle related taxes, a proposed increase in the imputed value of vehicles provided as a part of employee compensation and other macroeconomic changes in Israel may reduce the number of vehicle owners. Although to date we have not seen a drop in private vehicle users as a result of such factors, current projects including high-speed rail systems could lead to such a drop in the future, thereby reducing the volume of our operations in Israel. We also rely on the renewal and retention of several operating licenses issued by certain Israeli regulatory authorities. Should such authorities fail to renew any of these licenses, suspend existing licenses, or require additional licenses, we may be forced to suspend or cease certain services that we provide. Additionally, a sustained downturn in the Israeli economy could have a significant impact on our business.

Our future operations depend on our ability to obtain additional financing

We have historically financed our operations through public and private placements of equity and debt securities, cash generated from the sales of our systems, grants for research and development projects and bank credit lines. We believe that our current assets, together with anticipated cash generated from operations and outstanding bank credit lines, will sufficiently allow us to continue our operations as a going concern for the foreseeable future. However, we cannot assure that if we are required to raise additional financing in the future that we will be able to obtain such financing on satisfactory terms, if at all, and if we are able to raise financing through the issuance of shares, this may result in the dilution of the interests of our current shareholders. In a series of investments, since March 2003 to date, we raised \$35 million, and in February 2005 our subsidiary Shagrir received approximately NIS 200 million in loans and convertible debt as part of Shagrir's acquisition of the road-side assistance and towing services of Shagrir Towing Services. In June 2004, as part of the purchase of all of the securities of Shagrir not already held by our Company at such time, we issued further shares and warrants to purchase our shares (for further information regarding agreements relating to the acquisition of the road-side assistance and towing services of Shagrir Towing Services, see Item 4 **Recent Developments** and Item 10 **Material Contracts**). We have registered for resale securities issued and issuable in connection with these transactions and as a result we currently have outstanding effective registration statements covering 1,824,754 of our securities (for further information regarding the private placement transactions see Item 10 **Material Contracts**). We are currently filing a registration statement on form F-3, pursuant to an investment with a group of U.S. institutional investors consummated in April 2007, covering 1,207,500 of our ordinary shares (including 402,500 ordinary shares issuable upon the exercise of warrants issued in connection with that transaction). As a result of the registration statements that we currently have outstanding and are currently filing, many or all of our investors who recently purchased our securities may elect to sell some or all of our securities. Should such sales be significant in volume or take place over a short period of time, our share price may decline significantly, and we may find it difficult to raise additional funding through the issuance of equity or convertible debt securities. If our future capital requirements are greater than the cash we obtain from our business and available financing, if any, we may, among other things, be required to significantly reduce our research, development, product commercialization, marketing or other activities or even cease operations.

Over recent years, the securities markets in general have experienced increased volatility, which has particularly affected the securities and operations of many companies, including companies that have a significant presence in Israel. Although the volatility of these companies securities has often been unrelated to the operating performance of these companies, they may experience difficulties in raising additional financing required to effectively operate and grow their businesses. Such failure and the volatility of the securities markets in general may affect our ability to obtain additional financing at favorable terms.

7

Shagrir has significant loans which it is required to repay in accordance with a strict schedule

In order to finance Shagrir's acquisition of the road-side assistance and towing services of Shagrir Towing Services, it received a NIS 100 million credit facility from Bank Hapoalim, a NIS 40 million loan from Shagrir Towing Services and approximately NIS 50 million was loaned to it from a group of investors led by Gandyr Investments Ltd. and Egged Holdings Ltd., of which NIS 87 million as of March 31, 2007 remained payable. Nevertheless, Shagrir still has substantial outstanding loans and, despite the fact that we are cash positive, should Shagrir fail to repay the loans in accordance with the repayment schedule pertaining to each loan or should a lender refuse to amend the relevant repayment schedule, such lender may realize certain liens that were created in its favor by Shagrir. This could result in Shagrir having to divest itself of parts of its business and may result in the cessation of its operations. This may have a material adverse affect on our financial condition. For further information on these loans, see Item 4 **Recent Developments** and Item 10 **Material Contracts**.

We may not be able to successfully compete in the extremely competitive markets for our products and services

Not applicable.

7

Edgar Filing: Pointer Telocation Ltd - Form 20-F/A

We face intense competition in the markets in which we operate.

In Israel, our primary competitors are Drachim Road Side & Towing Services Ltd., Femi Premium Ltd. and Shlomo-SIXT Road Side Services & Garages Ltd., all of which mainly compete with us in providing road-side assistance and towing services although we currently are the leading road-side assistance and towing service provider in Israel. Ituran Location & Control Ltd. is our main direct competitor in the stolen vehicle retrieval services market in Israel and Argentina. LoJack - Car Security S.A. and LoJack de Mexico, S. de RL de CV are our main competitors in Argentina and Mexico, respectively.

In other countries in which we intend to provide road-side assistance, towing and other services, our main competition is from local companies as well as large international corporations with local operations. Our primary competitors in the other geographical markets in which we currently provide our location based services are mainly LoJack globally, Ituran in Argentina and other local service providers in each country. Such competitors use different technologies such as radio technologies, cellular and other technologies.

Should any of our competitors in Israel or globally successfully provide a broader, more efficient or attractive combination of services to insurance companies and automobile owners, our business results could be materially adversely affected.

Many of our competitors have substantially greater capital resources and significant research and development staffs, facilities, marketing and distribution networks, name recognition and extensive customer bases. While we plan to continue to improve our services and maintain our marketing efforts, we cannot guarantee that we will grow or even maintain our customer base or we may need to invest more in our efforts to do so.

We depend on a small number of customers

We depend on a small number of customers located mainly in Israel and South America, for a significant part of our revenues, and our future depends on our ability to maintain our existing customers and attract new customers. As a result of our acquisition of the activities of Shagrir Towing Services, the customers which account for a major part of our revenues in future years are Israeli insurance companies, which offer our road-side assistance and towing services as part of their vehicle insurance policy packages which they sell to their customers. While in 2006 only one customer comprised over 10% of our revenues, since our business model relies on a relatively low number of customers the loss of even a small number of customers could materially affect our financial condition.

8

If the creditworthiness or the financial strength of the customers were to decline, there could be an adverse effect on our operating results and cash flows. Should geopolitical situations change in the countries where our customers operate, there could be additional credit risks.

In cases where our customer is the operator (not owned by us), we use several methods in order to assure collectibility. In most cases, we demand financial guarantees such as a Letter of Credit or payments before delivery. To a lesser extent we assess collectibility, by assessing the credit history for each customer on a case-by-case basis and investigating the financial capabilities of our customers by receiving on-going information on their business status. However, we cannot be certain that our estimations will prove correct as to any one of our customers.

We rely on operators to provide services for our Location Based Solution systems

In certain countries we rely on third party operators and police forces to provide our stolen vehicle retrieval services. This requires us to maintain good relationships with these third party operators to ensure that they continue to work with us and provide a good service to our customers. Since we do not own these operators, we have little or no control over their effectiveness or methods of operation. The implementation of the operators' business plans depends mainly on factors unrelated to our interests such as their marketing strategies, their financial stability and the specific requirements and circumstances in their territories. Our consecutive end unit sales, future system upgrades, future infrastructure extensions and revenues from other sources, where applicable, from such territories is dependent on their penetration rate and successful sale growth as well as on the operators' continuous success and their continuous decision to offer these services and products in their respective territories. Should we fail to maintain relationships with these third party operators, or these operators fail to successfully market and service our products, our business would be adversely affected.

We use fixed price contracts with our customers

Our road-side services in Israel are sold through annual fixed price contracts, according to which we are paid a fixed price by insurance companies for each of their customers who subscribe to receive our services. Should operational expenses rise due to factors such as a rise in the price of gasoline or any other materials necessary for our operations, our profit margins could suffer as a result. Since it is often difficult to predict future price rises in the cost of raw materials, our fixed price contracts may not adequately cover our future outlays. Additionally, the

Not applicable.

frequency by which vehicle users may take advantage of our road-side services can vary unpredictably. Sustained adverse weather conditions, increased regional hostilities or acts of terrorism, and poor road maintenance may increase customer usage of our services in any given year, thus reducing profit margins.

The majority of our SVR services in Israel are linked to the US Dollar while operational expenses, like salary, are linked to NIS. Our profit margins could suffer as a result of revaluation of the NIS against the US Dollar. Since it is often difficult to predict future exchange rates our fixed price contracts may not adequately cover our future outlays and reduce profit margins (for further information on exchange rate risk see item 5 **Impact of Exchange Rate Fluctuations on Results of Operations, Liabilities and Assets**).

We rely on a single-source supplier to manufacture end units for our Locations Based Solution systems

While we have commenced diversifying our product base through our combination of cellular units together with GPS devices in our location based services, we are still principally reliant on our traditional Pointerware suite of products, formerly known as the Nexusphere, which we do not manufacture ourselves. Most of the components of our LBS end unit devices are manufactured for us by independent manufacturers abroad and are assembled by a turn-key subcontractor located in Israel, and there is no certainty that this subcontractor will be able to continue to provide us with manufacturing and assembly services in the future. Furthermore, while cellular, GPS and car alarm devices are manufactured by several sub-contractors located in Israel, we currently only use the services of one such company. Our reliance on independent contractors, especially those located in foreign countries, involves a number of risks, including:

9

- reduced control over delivery schedules, quality assurance, manufacturing yields and cost;
- reduced manufacturing flexibility due to last moment quantity changes;
- transportation delays;
- political and economic disruptions;
- the imposition of tariffs and export controls on such products;
- work stoppages;
- changes in government policies; and
- the loss of molds and tooling in the event of a dispute with a manufacturer.

Our agreements and understandings with our suppliers are generally short-term in nature and may be terminated with little or no notice. If a supplier of ours were to terminate its relationship with us, we may be compelled to seek additional sources to manufacture certain of the components of our systems or even to change the design of our products. Although we believe that most of the components of our systems may be readily acquired from numerous suppliers, we cannot assure you that we would be successful in entering into arrangements with other suitable independent manufacturers without significantly impairing our sales in the interim period.

We are subject to several risks as a result of our international sales

Systems based on our products and systems are currently installed in Israel, Argentina, Venezuela, Mexico, Russia, Chile and China. We are subject to the risks inherent in international business activities, including changes in the political and economic environment, unexpected changes in regulatory requirements, foreign exchange controls, tariffs and other trade barriers and burdens of complying with a wide variety of foreign laws and regulations. In addition, if for any reason exchange, price controls or other restrictions on conversion of foreign currencies were to be imposed, the above business could be negatively impacted. Moreover, certain of these international operations have experienced the following difficulties:

A severe and rapid currency devaluation in Argentina adversely affected Pointer Localizacion Y Asistencia S.A., or Pointer Argentina, US dollar results during 2002. This was mainly due to Pointer Argentina's inability to increase its Argentinian Peso-denominated prices to its customers, while its major costs of inventory and infrastructure are denominated in US dollars. Venezuela has in recent years imposed foreign exchange controls which have effectively led to the cessation of purchase orders of our SVR products and services from our main customer in Venezuela during 2003. Additionally there is currently discussion by the Venezuelan government regarding the institution of a nationalization program, which could further adversely affect our operations there.

The technology and standards in the stolen vehicle retrieval industry in which we operate change rapidly and the introduction of products using new technology and the emergence of new industry standards and practices could negatively impact our business

The wireless communications industry is characterized by rapid technological changes. The introduction of products using new technology and the emergence of new industry standards and practices could make our products less competitive and cause us to reduce the prices of our products. There are several wireless communications technologies, including cellular telephone, personal communications services, specialized mobile radio and mobile satellite services which have been or may be implemented in the future for applications competitive with the applications we provide. Future implementation and technological improvements could lead to the production of systems which are competitive with, or superior to ours.

Although during 2006 we introduced the Cellular / GPS Monitoring Unit as one of our products we cannot give any assurance that we will timely or successfully introduce or develop new or enhanced products, which will effectively compete with new products. Our business will be negatively impacted if we do not introduce or develop technologically competitive products that respond to customer needs and are priced competitively.

Our Location Based Solution products employ proprietary technology, which is difficult to protect and which may infringe on the intellectual property rights of third parties.

Our success and our ability to compete in the LBS sector depend on our proprietary technology. We rely on a combination of patent and trade secret laws, together with non-disclosure agreements and licensing arrangements to establish and protect proprietary rights in our products. We were granted certain patents in the United States and elsewhere; however, we have not invested significant resources to constantly update and maintain our proprietary technology. We cannot assure you that these efforts will successfully protect our technology because:

- the laws of some foreign countries may not protect our proprietary rights as fully as do the laws of the United States;
- if a competitor were to infringe on our proprietary rights, enforcing our rights may be time consuming and costly, diverting management's attention and our resources;
- measures like entering into non-disclosure agreements afford only limited protection;
- unauthorized parties may attempt to copy aspects of our products and develop similar products or to obtain and use information that we regard as proprietary; and
- our competitors may independently develop or patent technologies that are substantially equivalent or superior to our technology, duplicate our technologies or design around our intellectual property rights.

In addition, others may assert infringement claims against us. The cost of responding to infringement claims could be significant, regardless of whether the claims are valid.

The use of our proprietary Location Based Solution systems is subject to international regulations.

While the use of our Cellular Monitoring Units, or CMUs, and services does not require regulatory approvals, the use of our traditional LBS systems is subject to regulatory approvals of government agencies in each of the countries in which our systems are operated, including the State of Israel. We thus obtained in 2001a regulatory acceptance from the FCC for our vehicular end-unit device (RMU) and for our SVR receiving base station, to the extent required for sale in the U.S. Our operators typically must obtain authorization from each country in which these systems are installed. While, in general, applicants have not experienced problems in obtaining regulatory approvals to date, the regulatory schemes in each country are different and may change from time to time. We cannot guarantee that approvals, which our operators have obtained, are or will remain sufficient in the view of regulatory authorities. In addition, we cannot assure you that operators of our systems will obtain licenses and approvals on a timely basis in all jurisdictions in which we wish to sell our systems or that restrictions on the use of our systems will not be unduly burdensome.

We may not be able to retain or attract key managerial, technical and research and development personnel that we need to succeed.

Our success has largely depended and will depend in the future on our skilled professional and technical employees, substantially all of whom have written employment agreements. The competition for these employees is intense. We may not be able to retain our present employees, or recruit additional qualified employees, as we require them.

Our major shareholder has a controlling stake in our company.

Pursuant to a series of investments in our company since March 2003, and the exercise of certain warrants, DBSI Investments Ltd., or DBSI, currently owns approximately 22% of our issued and outstanding shares, or 17% on a fully diluted basis. As a result, DBSI has the ability to control material decisions requiring the approval of our shareholders.

Risk Factors Relating to our Ordinary Shares***We do not expect to distribute cash dividends.***

We do not anticipate paying cash dividends in the foreseeable future. Our Board of Directors will decide whether to declare any cash dividends in the future based on the conditions then existing, including our earnings and financial condition. According to the Israeli Companies Law, a company may distribute dividends out of its profits, so long as the company reasonably believes that such dividend distribution will not prevent the company from paying all its current and future debts. Profits, for purposes of the Companies Law, means the greater of retained earnings or earnings accumulated during the preceding two years.

The market price of our ordinary shares has been, and may continue to be, very volatile.

The market prices of our ordinary shares have fluctuated widely. The following factors, among others, may significantly impact the market price of our ordinary shares:

- macro changes and changes in market share in the markets in which we provide services and products;
- announcements of technological innovations or new products by us or our competitors;
- developments or disputes concerning patents or proprietary rights;
- publicity regarding actual or potential results relating to services rendered by us or our competitors;
- regulatory development in the United States, Israel and other countries;
- events or announcements relating to our collaborative relationship with others;
- economic, political and other external factors;
- period-to-period fluctuations in our operating results; and
- substantial sales by significant shareholders of our ordinary shares which are currently or are in the process of being registered.

In addition, the securities markets in general have experienced volatility, which has particularly affected the market prices of equity securities of many companies and companies that have a significant presence in Israel. This volatility has often been unrelated to the operating performance of such companies.

Our ordinary shares may be affected by limited trading volume and may fluctuate significantly in price.

Our ordinary shares are traded on the Nasdaq Capital Market and the Tel Aviv Stock Exchange, or TASE. Trading in our ordinary shares has been limited and there can be no assurance that an active trading market for our ordinary shares will develop. As a result, this could adversely affect our shareholders' ability to sell our ordinary shares in short time periods, or possibly at all. Thinly traded ordinary shares can be more volatile than ordinary shares traded in an active public market. The average daily trading volume of our ordinary shares from January 1, 2007 to July 1, 2007, on the Nasdaq Capital Market was 87,516 shares and on the TASE was 4,063 shares. The high and low bid price of our ordinary shares for since January 1, 2007 to July 1, 2007, has been \$14.53 and \$7.80, respectively on the Nasdaq Capital Market and between NIS 58 and NIS 33 during the same period on the TASE. Our ordinary shares have experienced, and are likely to experience in the future, significant price and volume fluctuations, which could adversely affect the market price of our ordinary shares without regard to our operating performance.

Corporate governance scandals and new legislation could increase the cost of our operations.

As a result of recent corporate governance scandals and the legislative and litigation environment resulting from those scandals, the costs of being a public company in general have increased and may continue to increase in the near future. Legislation, such as the Sarbanes-Oxley Act of 2002, has had and may continue to have the effect of increasing the burdens and potential liabilities of being a public reporting company. This and other proposed legislation may increase the fees of our professional advisors and our insurance premiums.

Risk Factors Relating to Our Operations in Israel***Political and Military Conditions in Israel affect our operations.***

Not applicable.

Edgar Filing: Pointer Telocation Ltd - Form 20-F/A

We are incorporated under the laws of the State of Israel. Our headquarters, the headquarters of Shagrir, our operations and the operations of Shagrir, are located in Israel. We are directly affected by the political, economic and military conditions affecting Israel. Any major hostilities involving Israel or the interruption or curtailment of trade between Israel and its present trading partners could materially adversely affect our business, financial condition and results of operations. Israel's economy has been subject to numerous destabilizing factors, including a period of rampant inflation in the early to mid-1980s, low foreign exchange reserves, fluctuations in world commodity prices, military conflicts and civil unrest. Since the establishment of the State of Israel in 1948, hostility has existed, varying in degree and intensity, between Israel and the Arab countries. In addition, Israel and companies doing business with Israel have been subject to an economic boycott by the Arab countries. Although Israel has entered into agreements with some Arab countries and the Palestinian Authority, and various declarations have been signed in connection with efforts to resolve some of the economic and political problems in the Middle East, there has been a significant increase in violence since September 2000 which continued with varying levels of severity through 2004. Since the death of Yasser Arafat in 2004, low-level negotiations between Israel and Palestinian representatives have been renewed. Nevertheless, the political and security situation in Israel may result in certain parties with whom we have contracts claiming that they are not obligated to perform their commitments under those agreements pursuant to force majeure provisions. In addition, the election of representatives of the Hamas militant group in January 2006 to a majority of seats in the Palestinian Legislative Council as well as the war with the Islamic militant group Hezbollah in Lebanon in July and August 2006 may create additional unrest and uncertainty in the region. Any hostilities involving Israel or the interruption or curtailment of trade between Israel and its present trading partners could adversely affect our operations and could make it more difficult for us to raise capital. Furthermore, many of our employees and subcontractors are located in Israel, which could still face a renewal of civil unrest, terrorist activity and military action. Since we do not have a detailed disaster recovery plan that would allow us to quickly resume business activity, we could experience serious disruptions if acts associated with this conflict result in any serious damage to our facilities. Our business interruption insurance may not adequately compensate us for losses that may occur and any losses or damages incurred by us could have a material adverse effect on our business. We cannot give any assurance that security and political conditions will not have such an effect in the future. Any future armed conflicts or political instability in the region would likely negatively affect business conditions and harm our results of operations.

Furthermore, all non-exempt male adult permanent residents of Israel especially under the age of 40, including some of our office holders and employees, are obligated to perform military reserve duty and may be called to active duty under emergency circumstances. In the past there have been significant call ups of military reservists, and it is possible that there will be additional call-ups in the future. While we have operated effectively despite these conditions in the past, we cannot assess the impact these conditions may have on us in the future, particularly if emergency circumstances occur. Our operations could be disrupted by the absence for a significant period of one or more of our executive officers or key employees or a significant number of our other employees due to military service. Any disruption in our operations would harm our business.

The Israeli rate of inflation may negatively impact our costs if it exceeds the rate of devaluation of the New Israeli Shekel against the U.S. dollar.

A large part of our costs in Israel is not denominated in dollars and may be influenced by the rate of devaluation of the New Israeli Shekel. Should inflation in Israel impact our costs at a rate that exceeds the rate of devaluation of the New Israeli Shekel against the U.S. dollar our dollar costs in Israel will increase, thus reducing our profitability. In the twelve months ended December 31, 2006, the Israeli economy recorded deflation of approximately 0.1% and the U.S. dollar devalued against the NIS by approximately 0.8%. However, in the last 15 years the Israeli economy recorded inflation of approximately 115% and the NIS devalued against the U.S. dollar by approximately 85%. For further discussion of such devaluation, see Item 5 **Impact of Exchange Rate Fluctuations on Results of Operations, Liabilities and Assets**, and Item 11 **Quantitative and Qualitative Disclosures About Market Risk**. There can be no assurance that we will not incur losses from such fluctuations in the future.

13

We may not be eligible to receive grants or programs provided to us from our participation in research and development, investments and other programs or we may be restricted from manufacturing products or transferring our intellectual property outside of Israel.

We have received certain grants and programs from the Israeli Government. Some of these programs may restrict our right to manufacture products or transfer our intellectual property outside of Israel. If we do not meet certain conditions in the future, we may have to refund payments previously received under these programs or pay fines.

Service and enforcement of legal process.

Service of process upon directors and officers of our company and the Israeli experts named herein, all of who reside outside the United States, may be difficult to effect within the United States. Furthermore, since the majority of our assets are located outside the United States, any judgment obtained against us in the United States may not be enforceable within the United States. We have been informed by our legal counsel in Israel, Yigal Arnon & Co., that there is doubt as to the enforceability of civil liabilities under the Securities Act and the Exchange Act in original actions instituted in Israel. However, subject to certain time limitations, Israeli courts may enforce United States final executory

Not applicable.

12

judgments for liquidated amounts in civil matters obtained after due trial before a court of competent jurisdiction (according to the rules of private international law currently prevailing in Israel) which enforces similar Israeli judgments, provided that: (i) due service of process has been effected; (ii) such judgments or the enforcement thereof are not contrary to the law, public policy, security or sovereignty of the State of Israel; (iii) such judgments were not obtained by fraud and do not conflict with any other valid judgment in the same matter between the same parties; and (iv) an action between the same parties in the same matter is not pending in any Israeli court at the time the lawsuit is instituted in the foreign court.

ITEM 4. INFORMATION ON THE COMPANY

A. HISTORY AND DEVELOPMENT OF THE COMPANY

Until 2003, our business focused primarily on the development, manufacture and sale of location based services and stolen vehicle retrieval services. In April 2003, our management decided to strategically focus on providing a range of services to automobile owners and insurance companies.

Our new strategy was implemented through two acquisitions in Israel and the establishment of a subsidiary in Mexico.

In June 2004 we purchased all of the outstanding and issued share capital of Shagrir not already held by us. Shagrir was our local Israeli operator and service provider, which mainly provided stolen vehicle retrieval and other security value-added services mainly for vehicle owners through a communication network based on our technology.

In June 2004, we also incorporated a Mexican company, Pointer Recuperacion de Mexico, SA de CV, or Pointer SA, to serve as our local Mexican operator and service provider, which would provide stolen vehicle retrieval and road-side assistance services for vehicle owners using a communication network based on our technology.

In February 2005, our subsidiary, Shagrir, purchased the assets and activities of Shagrir Towing Services, an Israeli company which provided road-side assistance and towing services, in Israel.

14

As a result of the implementation of our strategy, we currently provide a range of services to automobile owners and insurance companies.

As a result of the two acquisitions we made in Israel, Shagrir, is currently the most significant operation we have, and is expected to account for the majority of our business and revenues in the foreseeable future. In Israel we currently provide all the range of our services.

Pointer was founded in 1991 by BVR Technologies Ltd. At that time, we began developing specialized long-range wireless solutions for location and messaging applications, using Frequency Hopping Spread Spectrum technology. Our legal and commercial name is Pointer Telocation Ltd. Through December 1997 we operated under the name Nexus Telecommunication Systems, Ltd. and through January 2006 we operated under the name Nexus Telocation Systems Ltd. We operate under the Israel Companies Law 1999. Our shares are publicly traded on the Nasdaq Capital Market under the symbol PNTR and the Tel Aviv Stock Exchange, or TASE. Our executive offices and research and development main facilities are located in 1 Korazin Street, Givatayim, 53583, Israel, telephone number 972-3-572-3111. The headquarters of our subsidiary, Shagrir, are located in Holon, Israel. The headquarters of our subsidiary, Pointer Argentina, are located in Buenos Aires, Argentina. The headquarters of our subsidiary, Pointer SA, are located in Mexico City, Mexico. In January 2005, our subsidiary, Pointer (Eden Telecom Group) Ltd., was renamed Shagrir Motor Vehicle Systems Ltd. Our Web site is www.pointer.com. Information on our web site is not incorporated by reference in this annual report.

Recent Developments

Since January 1, 2006, the following important events have occurred to us:

Private Placements with U.S. Institutional Investors

On April 2, 2007, we entered into and consummated a share purchase agreement, or the April Investment, with a group of United States institutional investors for the purchase of 805,000 of our ordinary shares for an aggregate price of \$8.5M. Pursuant to the transaction, the investors were also issued warrants to purchase 402,500 of our ordinary shares, such that for each one share purchased the investors were

entitled to a warrant to purchase half a share. The warrants are exercisable into ordinary shares, at an exercise price per share of \$12.6 and will be exercisable for a period of five years. Following the transaction two of the investors, individually, hold more than 5% of our issued and outstanding share capital.

Potential acquisition of Cellocator Ltd.

In March 2007, we announced the execution of a non-binding Memorandum of Understanding to acquire the assets and liabilities of Cellocator Ltd., or Cellocator, a private Israeli company active in the field of cellular location-based services and technology. The closing of the transaction is subject to the completion of a full due diligence review to our full satisfaction. We will pay Cellocator and its shareholders approximately US\$18.5 million in cash, shares and a convertible debenture. Following the completion of the transaction and upon conversion of the debenture, Cellocator and/or its shareholders will hold approximately 5.37% of our issued and outstanding share capital (on a fully diluted basis). We cannot guarantee that this transaction will be consummated.

MOU with a leading provider of Road Side Assistance in Argentina

In March 2007, we also executed a Memorandum of Understanding, or MOU, with a leading provider of road side assistance in Argentina, or the Argentinian Provider, to cooperate in offering location based services and stolen vehicle retrieval services. The closing of the transaction is subject to the success of the Argentinian Provider in reaching an agreement with a leading automotive manufacturer in Argentina. Based on the MOU, upon closing, the Argentinian Provider shall transfer to Pointer Argentina all of its location based services and SVR business in consideration for 11% of the outstanding share capital of Pointer Argentina. Thereafter, contingent upon the success of the project during the two years following the closing, the Argentinian Provider will increase its holdings in Pointer Argentina, and we will provide Pointer Argentina with certain of our products, free of charge, during these two years.

15

Potential acquisition of the Argentinian Provider

In March 2007, we executed a non-binding Letter of Intent to acquire controlling ownership of the Argentinian Provider, in consideration for \$9 million.

Appointment of Chief Financial Officer

In January 2007, we announced the appointment of Mr. Zvi Fried, as our Chief Financial Officer effective February 1, 2007. Under the terms of his employment, Mr. Fried was granted 20,000 options at an exercise price of \$11.24, in accordance with our 2003 option plan.

Private Placements with Israeli Institutional Investors

On December 28, 2006 we entered into a Share Purchase Agreement with a group of Israeli institutional investors for the purchase of 425,000 of our ordinary shares for an aggregate price of \$4.7M. The transaction was consummated on January 12, 2007. Pursuant to the transaction, the investors were also issued warrants to purchase 212,500 of our ordinary shares, such that for each one share purchased the investors were entitled to a warrant to purchase half an ordinary share. The warrants are exercisable into ordinary shares, at an exercise price per share of \$13 and will be exercisable for a period of four years. None of the investors were, or following the transaction have since become, our affiliates.

Dual Listing

On December 19, 2006, we commenced the listing of our ordinary shares on the Tel Aviv Stock Exchange, or TASE, under the ticker symbol PNTR .

Agreement with Latin American customer

On May 26, 2006, we entered into a settlement agreement, which related to past claim against a Latin American customer pursuant to which we received, after payment of related expenses, a net amount of approximately \$1.3 million.

Name Change

Edgar Filing: Pointer Telocation Ltd - Form 20-F/A

At the annual meeting of our shareholders held on January 17, 2006, our shareholders voted to change our name from Nexus Telocation Systems Ltd. to Pointer Telocation Ltd. Subsequent to this change, our shares began trading under the symbol PNTR as of February 21, 2006.

On March 2007 our subsidiary Shagrir changed its name to Shagrir Systems Ltd.

The conversion of a loan by a group of investors led by Gandyr Investments Ltd.

Shagrir funded the Shagrir Towing Services transaction through a credit line of NIS 100 million, made available by Bank Hapoalim B.M., a loan of NIS 40 million provided by Shagrir Towing Services, a loan of approximately NIS 50 million provided by a group of investors led by Gandyr Investments Ltd. and Egged Holdings Ltd., or Egged, and a loan of NIS 10 million provided by the Company and the investors.

On May 1, 2006, Shagrir repaid a \$2 million convertible loan to Egged, and in October 2006, it repaid Egged an additional approximately NIS 2.7 million. As of March 31, 2007 of NIS 5.4 million of the sums loaned by Egged are to be repaid by July 2008.

16

Reverse Stock Split

In August 2005, a 100 to 1 reverse stock split of the Company's Ordinary shares was effected. As a result of the reverse stock split, each one hundred shares of the Company's Ordinary shares with par value of NIS 0.03 each were converted into one Ordinary share of NIS 3.00 par value.

Termination of Shareholders Agreement between DBSI and Egged Holdings Ltd.

Following an investment in our company in 2005 by a group of investors, including Egged Holdings Ltd., or Egged, DBSI and Egged consummated a shareholders agreement, pursuant to which they agreed to vote their shares jointly in respect of certain matters relating to our company and Shagrir. In December 2006, following the sale by Egged of all of its shareholdings in our company, Egged and DBSI terminated the Shareholders Agreement. For further information relating to the Shareholders Agreement see Item 10.

Legal Claim

In February 2002, we executed (i) an agreement with Sino Telocation Ltd., or Sino, pursuant to which we were to provide Sino with a car localization system, or the System, in consideration for \$900,000; and (ii) an agreement with Sino and the China National Electronics Import Export Beijing Company, or CEIEC, for the funding of the acquisition of the System. Pursuant to the agreements we received a down payment of \$300,000 from CEIEC against a bank guarantee in favor of CEIEC from Bank Hapoalim B.M. We requested that CEIEC issue a letter of credit to insure the shipment of the System. CEIEC did not issue the letter of credit and as a result the System was not provided. As the System was unique and adapted for the Chinese market, we were not able to sell the System to others. CEIEC and Sino's breach of the agreements caused us extensive damages, in particular due to the failure to pay the remainder of consideration, in the amount of \$600,000.

On November 26, 2002, we filed a claim with the Tel-Aviv Magistrate's Court for a permanent injunction against Bank Hapoalim B.M. and CEIEC requesting that the court prohibit Bank Hapoalim from paying CEIEC any amount, pursuant to the guarantee. The Court ruled in our favor. CEIEC commenced proceedings in China, against Bank Hapoalim, to which we are not a party, for the payment of the guarantee. In August 2004, Bank Hapoalim informed us that it may pay to CEIEC the guaranteed amount plus interest at a rate of 0.5% per week, commencing March 2002 and, in such an event, will request that we indemnify it for the amount paid.

In March 2005, we filed a claim against CEIEC and against Sino, with the China International Economic and Trade Arbitration Commission Beijing, China, or CIETAC, for approximately \$557,000 representing the damages caused to us by the breach of the contract by CEIEC and Sino in respect of the China transaction.

As a result of the filing of the claim with CIETAC, the proceedings which had been initiated by CEIEC against Bank Hapoalim, in China, for payment of the guarantee, were suspended.

In January 2006, CIETAC provided a ruling in our favor, pursuant to which CEIEC and Sino are to pay us \$557,000 representing most of the damages caused to us plus interest rate of 6% per annum from April 2003 and additional costs incurred by us.

In February and in June 2006, Sino and CEIEC, respectively, petitioned the Beijing No. 2 Intermediate People's Court to overturn the ruling of CIETAC.

In December, 2006 the Beijing No. 2 Intermediate People's Court ruled that CIETAC should issue a new ruling and grant a new arbitration award accordingly. No grounds were given. As a result of the Court's decision CIETAC issued a Notice of Re-arbitration.

In March, 2007 CEIEC petitioned the CIETAC for the replacement of the arbitration panel, on the grounds that the previous decisions was biased and against the interests of the state. An objection to the petition was filed. The petition and objection have yet to be addressed.

As of July 1, 2007, no dates have been set and no further information has been received from CIETAC.

Grant of Options to Employees

On January 28, 2007, our board of directors resolved to issue to our employees options to purchase 63,000 of our ordinary shares, pursuant to our 2003 Employee Share Option Plan, which will vest in four equal annual installments over a period of four years, commencing as of the date of the grant, at an exercise price of \$11.24 per share.

On March 5, 2007 our board of directors resolved to modify the terms of the options granted to our former CFO on November 23, 2005, by accelerating the vesting of all of the options and extending the exercise period until June 30, 2008.

Grant of Options to Bank Hapoalim, Shagrir Towing Services and ADACH Property Ltd.

On February 15, 2007, our board of directors resolved to extend the warrants granted to Bank Hapoalim, Shagrir Towing Services and ADACH Property Ltd., formerly Shagrir (1985) Ltd., until June 30, 2007.

B. BUSINESS OVERVIEW

General

We are a service provider of a range of value added services to insurance companies and automobile owners, including road-side assistance, vehicle towing, stolen vehicle retrieval, fleet management as well as certain other services to automobile owners. We provide our services, for the most part, in Israel, through our subsidiary, Shagrir and in Argentina and Mexico through our subsidiaries Pointer Argentina and Pointer SA respectively. In addition, we continue to develop and manufacture our location based information system the Pointerware for the use of our subsidiaries and for marketing it to other third party local operators through which they provide location based and security services.

As a result of the implementation of our strategy, we currently provide the following range of services to insurance companies and, to a lesser extent, other corporate and individual customers:

- (i) Road-side assistance – these services may include towing services, mobile automobile repair services, vehicle replacement services, the sale of spare-parts or connecting the driver to other service providers. Such services are currently provided mainly in Israel. In order to provide such services, we use our own fleet and employees as well as sub-contractors.
- (ii) Vehicle retrieval and other location based services – these include stolen vehicle retrieval services, fleet management and web-location, which are based on the systems we use, develop and sell. Stolen Vehicle retrieval services includes both preventing the cars from being stolen as well as retrieving them in co-operation with law enforcement and private security agencies.

We currently provide such services mainly in Israel and in addition, but to a lesser extent, in Argentina and Mexico through subsidiaries in each country: Pointer Argentina (we currently hold approximately 93% of the issued share capital of Pointer Argentina) and Pointer SA (we currently hold 74% of the issued share capital of Pointer SA), respectively.

In addition, there are currently other operators in Venezuela, Russia, China and Chile using our Pointerware communication and location and system and technology, to which we continue to market our products, systems and technical support.

Pointer's Products and Services

Our products and services are provided based on spread spectrum technology (SPSP) intended for wide area networks (WAN) and Cellular / GPS technology.

The following are some of the available applications when using our products and systems:

Stolen Vehicles Recovery (SVR) Both SPSP and Cellular / GPS communication systems enable unique features for SVR solutions, including (i) communication & location facilities (ii) concealed terminal (iii) alarm system adaptability (iv) remote command (v) accuracy (vi) back-up power supply, and (vii) 24x7 redundant command and control center (CCC).

Fleet Management Cellular / GPS Units & Web-based application enable many fleet management capabilities, ensuring better utilization of vehicles and other mobile resources. The end-unit can connect to various sensors by RS-422 or RS-232 or CANbus standards, or by discrete (on or off) wirelines. The sensors monitor various vehicle operating systems, and the end unit will report the results to the fleet owners and managers.

Wireless Remote Monitoring & Control Security and Industrial Applications Pointerware offers a total remote monitoring and control solution. Connecting the end-units to remote generators, fire systems and home alarm systems provides a link to safety and security command & control centers that is difficult to jam or interfere with.

The system is comprised of three major parts:

Command & Control Center (CCC)

The CCC includes databases, as well as other software modules required for the execution of our operations. It also includes monitors on which location and other data collected from the end units is displayed and analyzed in order to determine the location of the end unit. Commands can be down-linked to the end units from the CCC using either a commercial paging system (while using the Pointerware network) or through cellular networks.

Mobile / Vehicle Units

Each unit consists of a transceiver (RF or cellular modem with inputs and outputs) which is installed in a vehicle or any remote object to be monitored. The end-unit's inputs are connected to sensors in the vehicle or object, while the outputs send commands (which they receive from the CCC) to the object.

Communication Infrastructure

Communication is accomplished by either the cellular network in each territory of operations or RF infrastructure with base stations. These stations are dispersed throughout a specific territory and connected to an existing communications infrastructure. Each base station is equipped with antennae which receive the end-unit's signal and measure the angle from which the signal arrived for the purpose of locating the vehicle. These measurements, together with additional data received from the end-units, are then converted into digital data and sent to the Command & Control Center.

The design of our system allows for seamless integration with existing infrastructures, low-cost expansion, development of multiple applications, and access to the internet and public switched telephone network gateways.

A. Our Operations in Israel

As a result of our two acquisitions in Israel, Shagrir is currently the most significant operation we have and is expected to account for the majority of our business and revenues in the foreseeable future. In Israel we currently provide all the range of our services, including road-side assistance, towing, stolen vehicle retrieval, fleet management and other value added services.

Services and Operations

Edgar Filing: Pointer Telocation Ltd - Form 20-F/A

Road-side Assistance and Towing Services

Shagrir is the leader in Israel in providing road-side assistance and towing services. Shagrir provides services to its subscribers throughout Israel and its fleet of vehicles includes approximately 100 service cars, mobile garages and towing vehicles, which are dispatched by the control center to the vehicle requiring assistance, through a sophisticated management and monitoring software application, connected via remote terminals used in the service cars, mobile garages and towing vehicles.

Subscribers for road side assistance and towing services are mainly referred to Shagrir by Israeli insurance companies, which are our customers. To a lesser extent, additional subscribers are comprised of fleet vehicle customers and private customers. A subscription entitles a subscriber during the subscription period (which is usually one year), to certain of our road-side assistance services, which are usually available to the subscriber twenty-four hours a day, every day of the year depending on the type of insurance policy purchased and the service contract with Shagrir.

A subscription is personal and non-transferable. A subscriber may, however, change the vehicle that is the subject of the subscription at any time. The price of a subscription is based, among other things, on the type of subscription and the type of vehicle (private or commercial).

Under the service contracts, Shagrir is responsible for a vehicle from the time Shagrir begins rendering services and until such time as the vehicle is delivered to its destination. Similarly, Shagrir undertakes to compensate the subscriber for any direct damage caused to his/her car as a result of the provision of the services, subject to the rules of the Israeli Civil Wrongs Ordinance.

Stolen Vehicle Retrieval (SVR) Services and Value Added Location Based Services

Shagrir is also a leading provider of SVR and value added location based services in Israel for automobile owners, including the provision of location based services for vehicles using our Pointerware Network, Cellular Network and other sophisticated systems for the protection and location of vehicles. Using sensors located in a vehicle our system may be alerted as to the progress of a theft by the transmission of information to our twenty-four hour manned command and control center. Once received by the center, the necessary steps to recover the vehicle are taken. Our value added location based services also include the provision of a distress button, using which a person can alert our command and control center, which locates the vehicle and immediately sends the required service as well as the location of vehicles through the Internet, by inserting a personal code, at any given time.

Household Insurance Services

In 2007, Shagrir commenced providing certain services to insurance companies which provide household insurance coverage. Shagrir provides households with water-pipe repair services to those households which have subscribed to these services.

20

Equipment, Subcontractors and Supplies

As of January 2007, Shagrir owned approximately 100 service cars, mobile garages and towing vehicles and owned approximately 92 replacement vehicles.

The general policy of Shagrir is to replace its towing vehicles, towing equipment and mobile garages approximately every five years, and replacement vehicles approximately every two years, all depending on prevailing economic conditions.

The majority of the road-side assistance and towing services are carried out by employees of Shagrir. During peak demand periods, Shagrir calls on the services of certain independent contractors who render road-side assistance and towing services on behalf of Shagrir. Shagrir has entered into agreements with these independent contractors. Independent contractors are also often used in the provision of services by Shagrir as per operating requirements in peak and non-peak periods.

Most of the replacement vehicles are rented from various rental companies in Israel and about 25% performed by Shagrir's own fleet. Shagrir purchases the spare parts it uses in the provision of road-side assistance from various suppliers in Israel.

Edgar Filing: Pointer Telocation Ltd - Form 20-F/A

For SVR and location based services, Shagrir mainly uses the Pointerware system and products, and to a lesser but growing extent end units based on cellular/GPS technology, mainly for fleet management applications. In order to retrieve the stolen cars Shagrir uses its own personnel as well as law enforcement and various subcontractors.

Sales and Marketing

For the provision of its road-side assistance and towing services, Shagrir sales and marketing team directs its sales and marketing efforts to promoting its subscriptions mainly to Israeli insurance companies, and to lesser extent fleet vehicle customers. Our SVR services are marketed primarily through vehicle importers and to a lesser extent to fleet vehicle operators, leasing companies and private individuals. Other value added location based services are marketed directly to fleet vehicle operators and private individuals who have already installed our products. We employ an in house sales and marketing force and also direct the sale of our safety products and car units for installation in the vehicles of private customers, business customers and vehicle fleets either directly or through our network of approximately 90 authorized installers across Israel.

In addition, the Shagrir sales team captures and analyzes sales data from various sources including insurance companies and agents, fleet vehicle customers and private customers which it then uses to formulate future sales and marketing strategies.

Patent and Licenses

We are not dependant on any patent or licenses, which are material; to our business or profitability, with the exception of the licenses described below in Item 4 **Government Regulations**.

Government Regulations

Shagrir has the following licenses:

a business license to render towing and retrieval/extrication services under the Control of Commodities and Services (Vehicle Towing and Extrication) Order, 5734-1974, which is valid until December, 31 2007;

a license for the operation of mobile garages under the Control of Commodities and Services (Vehicle Garages and Factories) Order, 5730-1970, which is valid until December, 31 2007; and

21

a license to rent self-drive vehicles under the Control of Commodities and Services (Tour Transport, Special Transport and Vehicle Rental) Order, 5745-1995, which is valid until December, 31 2007.

The use of products incorporating our Pointerware technology in the State of Israel requires a license from the Israel Ministry of Communications. In May 1996, Shagrir was granted an operational license to operate our wireless messaging system over 2 MHz in the 966 to 968MHz radio spectrum band. Since 1999, this license has been renewed on a regular basis.

Competition

In Israel, our primary competitors are Drachim Road Side & Towing Services Ltd., Femi Premium Ltd. and Shlomo-SIXT Road Side Services & Garages Ltd., all of which mainly compete with us in providing road-side assistance and towing services. In addition, other companies which provide assistance services through insurance companies may attempt to compete with us. Ituran is our main direct competitor in the stolen vehicle retrieval services market.

Seasonality

The demand for road-side assistance, towing services and replacement vehicles is greatly impacted by weather conditions, with Shagrir usually receiving more service calls on winter and summer days and less service calls on spring and fall days.

Furthermore, the demand for replacement vehicle services is greatly impacted by the number of vehicles being stolen in Israel at a given time, with Shagrir receiving more calls for replacement vehicles where the number of vehicles being stolen in Israel is high.

The location based services market is not seasonal.

B. Our Operations in Argentina and Mexico

We currently hold approximately 93% of the issued share capital of Pointer Argentina and 74% of the issued share capital of Pointer SA. Pointer Argentina provides mainly stolen vehicle retrieval services based on our proprietary technology. We have recently introduced fleet management and stolen vehicle retrieval services based on Cellular / GPS technology. This technology enables us to extend services outside Buenos Aires. Pointer S.A in Mexico provides both stolen vehicle retrieval services and fleet management services, based on Cellular / GPS technology.

In both these territories, we operate the command and control center from which we dispatch external security personnel subcontracted by us to retrieve the stolen vehicles or provide assistance as required by the driver. Installations and de-installations of end units in the vehicles are performed either by our in-house employees, or by subcontractors mainly in designated installation centers. Fleet Management services are provided to customers as web-based applications.

Sales and Marketing

In order to execute their sales and marketing initiatives, Pointer Argentina and Pointer SA employ an in house sales and marketing force whose efforts are focused on sales and marketing to insurance companies, and vehicle owners, directly, or indirectly through insurance agents, vehicle distributors and vehicle financing corporations in their respective designated territories.

Patent and Licenses

Pointer Argentina and Pointer SA are not dependant on any patent or licenses which are material to their business or profitability, with the exception of the licenses described below in Item 4 -**Government Regulations** which are required for Pointer Argentina alone.

Government Regulations

Products that are based on our technology require the use of spread spectrum devices in the 800-1000 MHz band. The FCC first authorized the unlicensed use of spread spectrum devices in the 902 to 928 MHz band in 1985. As an incentive for the increased development of spread spectrum technology, the FCC subsequently amended its rules to allow the unlicensed use of higher power spread spectrum systems within the 902 to 928 MHz band than had originally been authorized for the ISM (industrial, scientific and medical) band. While the FCC has in the past encouraged the development of new spread spectrum devices for unlicensed services, there can be no assurance that the FCC will not require licensing at some time in the future for the ISM band.

Most Latin American countries have dedicated a part of their radio spectrums for the ISM band for unlicensed services, however, the local operator is required to obtain a specific license for its operations. Pointer Argentina has been required to obtain domestic licenses for the deployment of our Pointerware systems in Argentina.

Since 2006 our services in Mexico through Pointer S.A are based entirely upon Cellular Monitoring Units and therefore require no specific governmental licenses.

Competition

Our primary competitors in the stolen vehicle retrieval services market in Argentina and Mexico are LoJack and Ituran (in Argentina only).

Some competitors in the stolen vehicle retrieval services market offer a similar solution to ours and others, like LoJack, use a VHF based messaging unit, without a wide area network, which is sold to customers and is connected via radio to local law enforcement communication networks.

Edgar Filing: Pointer Telocation Ltd - Form 20-F/A

In addition, in these markets and also some other potential markets, some primary location based service providers who directly or indirectly compete with us employ other technologies, such as a combination of GPS (satellite-based location technology) over cellular-like systems. These systems use commonly existing infrastructure, which offer location based services, which conform with the recent FCC ruling, requiring mobile phones to be equipped with either relatively accurate 911 capabilities (using GPS or differential time of arrival technologies), or less accurate 911 capabilities (using cell-id, analog or paging technologies).

Seasonality

Our business provided in Latin America is not materially seasonal.

C. Our Operations in Russia, Venezuela, China and Chile

We also sell our Pointerware sub-systems and products to third party local operators primarily in Russia, Venezuela and to a lesser extent China and Chile, who, like our subsidiaries, Shagrir, Pointer Argentina and Pointer SA, provide mainly stolen vehicle retrieval or other services using our Pointerware system and technology. Recently we have started to sell to our customer in Russia, CMUs for SVR and fleet management applications. The Cellular monitoring Units are fully integrated to our Pointerware system.

The third party domestic operators are responsible for the commercialization of their services, which are based on our systems and products in their designated territories and in their licensed coverage area. They control the sales and marketing of the end user devices as well as services to their final customers according to their business focus and business plans. In order to provide these services our domestic operators purchased from us, and deployed, the CCC and sufficient base stations to cover their respective territories.

23

Our sales and marketing efforts in this respect are executed by our internal marketing and customer support employees, focusing on being attentive to needs of these customers, in order to provide them with the solutions they require.

Geographical breakdown of our revenues:

The following is a breakdown of our revenues by geographic region, including the percentage of our total consolidated sales for each period:

	2006		2005		2004	
	In thousands	% of our total sales	In thousands	% of our total sales	In thousands	% of our total sales
Israel	37,346	89.1	33,181	89.8	7,939	72.4
Latin America	3,311	8.1	2,771	7.7	2,641	24.1
Other	1,255	2.8	1,012	2.5	389	3.5
Total	41,912	100	36,964	100	10,969	100

C. ORGANIZATIONAL STRUCTURE

The legal and commercial name of our company is Pointer Telocation Ltd. We were incorporated under the laws of the State of Israel in 1991 under the name Nexus Telecommunications Systems Ltd. In 1997 we changed our name to Nexus Telocation Systems Ltd. In 2006 we changed our name again to Pointer Telocation Ltd.

The following is a list of our currently active subsidiaries and their countries of incorporation:

Geographical breakdown of our revenues:

21

NAME OF SUBSIDIARY	JURISDICTION OF INCORPORATION
Pointer Argentina (1)	Argentina
Shagrir (2)	Israel
Pointer SA (3)	Mexico

- (1) We hold 93% of the issued and outstanding shares of Pointer Argentina.
(2) We hold 56.56% of the issued and outstanding shares of Shagrir.
(3) We hold 74% of the issued and outstanding shares of Pointer SA.

24

D. PROPERTY, PLANTS AND EQUIPMENT

Our executive offices, research and development and laboratory facilities are located in Givatayim, Israel (a suburb of Tel Aviv). We currently lease approximately 609 square meters and our annual lease payments are approximately \$70,000. Pointer Argentina's offices and operations facility are located in Buenos Aires. Pointer Argentina currently leases 2,246 square meters (including 1,526 square meters used by its installation centers) with an annual lease payment of \$107,000. Shagrir's offices and main operations facility are located in Holon, Israel. Shagrir currently leases 5,320 square meters in Holon with annual rental fees of approximately \$125,000. In addition, Shagrir purchased from Shagrir (1985) its Haifa property (2,100 square meters) for approximately \$389,000; and leases an additional property in Jerusalem, Israel (approximately 606 square meters) with annual rental fees of approximately \$34,000. Pointer SA's offices and operations facility are located in Mexico City, Mexico. Pointer SA currently leases 480 square meters with an annual lease payment of \$79,000. For further information, see Note 11d of our consolidated financial statements.

25

ITEM 5. OPERATING AND FINANCIAL REVIEW AND PROSPECTS

A. OPERATING RESULTS

The following discussion and analysis should be read in conjunction with our consolidated audited financial statements and the notes thereto, included hereinafter in this annual report.

Overview

Until 2003, our business focused primarily on the development, manufacture and sale of location based services and stolen vehicle retrieval services. In April 2003, our management decided to strategically focus on providing a range of services to insurance companies and automobile owners.

Our new strategy was implemented through two acquisitions in Israel and the establishment of a subsidiary in Mexico.

In June 2004 we purchased all of the outstanding and issued share capital of Shagrir not already held by us. Shagrir was our local Israeli operator and service provider, which mainly provided stolen vehicle retrieval and other security value-added services mainly for vehicle owners through a communication network based on our technology.

In June 2004, we also incorporated a Mexican company, Pointer SA, to serve as our local Mexican operator and service provider, which would provide stolen vehicle retrieval and road-side assistance services for vehicle owners using a communication network based on our technology. Pointer SA commenced operations in February 2005 and is currently in its development phase.

In February 2005, our subsidiary, Shagrir, purchased the assets and activities of Shagrir Towing Services, an Israeli company which provided road-side assistance and towing services, in Israel.

Edgar Filing: Pointer Telocation Ltd - Form 20-F/A

As a result of the implementation of our strategy, we currently provide a range of services to insurance companies and automobile owners.

As a result of the two acquisitions we made in Israel, Shagrir is currently the most significant operation we have, and is expected to account for the majority of our business and revenues in the foreseeable future. In Israel we currently provide all the range of our services.

Critical Accounting Policies

The consolidated financial statements include Pointer and the accounts of our subsidiaries. Intercompany transactions and balances are eliminated in consolidation. Management is required, in certain instances, to use estimates and assumptions that affect the amounts reported in the consolidated financial statements and the notes thereto. The actual results could differ from those estimates. Our accounting policies are described in note 2 to the consolidated financial statements included herein at Item 18. A critical accounting policy is one that is both important to the portrayal of our financial condition and results of operations and requires management's most difficult, subjective and complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain. The significant accounting policies and estimates, which we believe to be the most critical in understanding and evaluating our reported financial position and results of operations, include:

Revenue recognition

We and our subsidiaries generate revenues primarily from the provision of services, subscriber fees and sales of systems and products, mainly in the areas of road-side assistance services, automobile repair and towing services, stolen vehicle recovery and other value added services. To a lesser extent, revenues are also derived from technical support services that we provide. We and our subsidiaries sell our systems primarily through a direct sales force as well as through resellers. Sales consummated by our sales forces and sales to resellers are considered sales to end-users.

26

Revenues from the sale of systems and products are recognized in accordance with Staff Accounting Bulletin (SAB) No. 104, Revenue Recognition (SAB No. 104), when delivery has occurred, persuasive evidence of an agreement exists, the vendor's fee is fixed or determinable, no further obligation exists and collectability is probable.

Service revenues including subscriber fees are recognized as services are performed, over the term of the agreement.

In accordance with Issue No. 00-21, Revenue Arrangements with Multiple Deliverables (EITF 00-21), revenue from certain arrangements may include multiple elements within a single contract. Our accounting policy complies with the requirements set forth in EITF 00-21, relating to the separation of multiple deliverables into individual accounting units with determinable fair values. We consider the sale of products and subscriber fees to be separate units of accounting.

Revenues from Stolen Vehicle Recovery services are recognized upon success, when the related stolen vehicle is recovered, and such recovery is approved by the customer or ratably over the term of the agreement.

Revenues generated from technical support services, installation and de-installation are recognized when such services are rendered.

Generally, we do not grant rights of return. We follow SFAS No. 48, Revenue Recognition when Right of Return Exists . Based on our experience, no provision for returns has been recorded.

Inventory

Inventories are stated at the lower of cost or market value. Cost is determined using the moving average method. Inventory write-offs are provided to cover risks arising from slow-moving items, technological obsolescence, excess inventories, and for market prices lower than cost.

Valuation of Long-Lived Assets, Intangibles and Goodwill

Goodwill reflects the excess of the purchase price of the acquired subsidiary or activities over the fair value of net assets acquired. Pursuant to SFAS 142, Goodwill and Other Intangible Assets , goodwill is not amortized but rather tested for impairment at least annually. As of December 31, 2006, we have determined that no impairment with respect to goodwill exists. During 2006, we reduced our goodwill in the amount of \$1.489 million due to the realization of tax loss carryforward, that at the date of acquisition was not more-likely-than-not to be realized.

Edgar Filing: Pointer Telocation Ltd - Form 20-F/A

Intangible assets consist of the brand name, customer list and acquired patents. Intangible assets are amortized over their useful life using a method of amortization that reflects the pattern in which the economic benefits of the intangible assets are consumed or otherwise used up. Intangible assets are stated at amortized cost.

The brand names are amortized over a two-year period and an eight year period.

The customer lists are amortized over a five-year and an eight year periods.

Patents are amortized over an eight-year period.

Our long lived assets are reviewed for impairment in accordance with SFAS No.144, Accounting for the Impairment or Disposal of Long-Lived Assets (SFAS No.144) whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of the assets to the future undiscounted cash flows expected to be generated by the assets. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell. Due to requirement of increased territory coverage in Mexico and to the increased costs of communication services to the proprietary system, we decided to change communication technology and infrastructure from the traditional RF system to Cellular / GPS. This necessitated dismantling of 9 base-stations and replacing about 500 RMU vehicle units with CMU vehicle units. This process required us to impair equipment valued at about USD 372,000 recorded in 2006.

27

Share based compensation

Stock-Based Compensation Expense.

On January 1, 2006, we adopted FASB Statement No. 123 (Revised 2004), Share-Based Payment, or SFAS 123(R), which requires the measurement and recognition of compensation expense for all share-based payment awards made to our employees and directors including employee stock options which are based on estimated fair values. Stock-based compensation expense recognized under SFAS 123(R) for 2006 was \$251,000. For fiscal 2005 and fiscal 2004, stock-based compensation expense of \$126,000 and \$657,000, respectively had been recognized under previous accounting standards. See Note 2p to our Consolidated Financial Statements for additional information.

Upon adoption of SFAS 123(R), we began estimating the value of employee stock options on the date of grant using a Black-Scholes model. Prior to the adoption of SFAS 123(R), the value of each employee stock option was estimated on the date of grant using the intrinsic value method in accordance with APB No. 25 and the Black-Scholes model for the purpose of the pro forma financial information provided in the notes to the financial statement in accordance with SFAS 123.

The determination of fair value of stock options awards on the date of grant is affected by several factors including our stock price, our stock price volatility, risk-free interest rate, expected dividends and employee stock option exercise behaviors. If such factors change and we employ different assumptions in the application of SFAS 123(R) in future periods, the compensation expense that we record under SFAS 123(R) may differ significantly from what we have recorded in the current period.

Significant Expenses

Cost of Revenues.

Cost of revenues consists primarily of the operational costs of our subsidiaries, which mainly include salaries and employee benefits, costs related to towing and mobile automobile repair vehicles and replacement vehicles, subcontractors, system maintenance, end-unit installation, system communications, security and recovery, and the depreciation of fixed assets. In addition, cost of revenues includes expenses related to the cost of purchasing or manufacturing systems and products, including salaries and employee benefits, subcontractors and consulting, raw materials and components.

Research and Development Expenses.

Research and development expenses consist primarily of salaries and employee benefits, subcontractors and consulting, less grants and participation.

Selling & Marketing Expenses.

Selling & Marketing expenses consist primarily of expenses for salaries and employee benefits, sales commissions and other selling and marketing activities.

General and Administrative Expenses.

General and Administrative expenses consist primarily of salaries and employee benefits for executive, accounting, administrative personnel, professional fees, provisions for doubtful accounts, and other general corporate expenses.

Amortization of intangible assets.

Intangible assets consist of the acquired patents, customer list and brand name. Intangible assets are amortized over their useful life using a method of amortization that reflects the pattern in which the economic benefits of the intangible assets are consumed or otherwise used up.

Financial Income (Expenses), Net.

Financial expenses consist mainly of bank charges and interest expenses, foreign currency translation adjustments, amortizations of compensation related to warrants issued to a bank and others. Financial income consists of interest on short-term bank deposits.

Other Expenses, Net.

Other expenses, net relate primarily to items of income or expenses outside our ordinary course of business.

Selected Financial Data

We derived the following selected consolidated financial data presented below for each of the years ended December 31, 2004, 2005 and 2006 from our consolidated financial statements and related notes included in this annual report. The selected consolidated financial data (including balance sheet data) for the years ended December 31, 2002 and 2003 have been derived from audited financial statements not included in this annual report.

Pursuant to the sale of all our holdings in NexusData, the assets, liabilities, operating results and cash flows attributed to NexusData have been deemed to be discontinued operations (see Note 1d to our consolidated financial statements); accordingly, our comparative financial data has been reclassified for all periods presented in this annual report.

The financial data set forth below should be read in conjunction with our consolidated financial statements and the notes thereto and the other financial information appearing elsewhere in this annual report.

	2006	2005	2004	2003	2002

Operating Results

Twelve Months Ended December 31, 2006 Compared with Twelve Months Ended December 31, 2005

Revenues. Revenues sharply increased by \$4.9 million, or 13.3% from \$37 million in 2005 to \$41.9 million in 2006. The increase in total revenues in 2006 as compared to 2005 is also attributable to the fact that revenues in 2005 included only ten months of revenues deriving from the acquisition of the road-side assistance and towing business of Shagrir Towing Services completed on February 28, 2005.

Cost of Revenues. Our cost of revenues increased to \$26.4 million for the twelve months ended December 31, 2006 as compared to \$23.3 million for the same period in 2005. This increase was associated mainly to the fact that cost of revenues in 2005 included only ten months of cost of revenues deriving from the acquisition of the road-side assistance and towing business of Shagrir Towing Services completed on February 28, 2005.

Edgar Filing: Pointer Telocation Ltd - Form 20-F/A

Gross Profit. Our gross profit increased by \$1.9 million from \$13.7 million in 2005 to \$15.5 million in 2006, mainly as a result of the foregoing.

Research and Development Costs. Net research and development expenses in 2006 increased by \$278,000 from \$892,000 in 2005 to \$1.17 million in 2006, this is mainly a result of an increase in salaries cost and an increase in subcontractors cost.

Selling and Marketing Expenses. Selling and marketing costs increased by 6.3% to \$3.9 million in 2006 from \$3.7 million in 2005. The major increase in 2006 resulted from the increase in salaries costs.

General and Administrative Expenses. General and administrative expenses decreased by approximately 16% from \$ 5.6 million in 2005 to \$4.7 million in 2006. The main impact in 2006 resulted from a decrease in salaries cost and in rent expenses, due to the merger of the Road-Side assistance and towing business of Shagrir Towing Services.

Amortization of intangible assets. Amortization of intangible assets decreased by \$722,000 from \$2.5 million in 2005 to \$1.7 million in 2006.

Other income. On May 26, 2006, we entered into a settlement agreement, with respect to a past claim against a Latin American customer, pursuant to which we received a net amount of approximately \$1.3 million.

Impairment of long lived assets. During 2006, we have dealt with the service coverage demanded by potential customers in the market. During 2006, the service which we provided to customers in Mexico offered regional coverage while major potential Mexican customers, such as insurance companies, car manufacturers/dealers and fleet companies, demand nationwide coverage. Thus, our management is assessing the transitioning from our current technology (radio platform) to a new technology (cellular phone platform) that would allow nationwide coverage. Therefore, our management has recognized an impairment loss, with respect to Mexico, related to our base stations (network installation), which constitute the base of our current technology to provide our services. Network installation has been reduced to its fair value as determined by our management based on present value of future net cash flows. Impairment loss has been recognized in a separate caption in our Statement of Operations contained elsewhere in this annual report, in the amount of \$372,000.

Operating Profit. As a result of the foregoing, we recorded in 2006 a \$4.9 million operating profit, compared to an operating profit of \$959,000 in 2005.

Financial Expenses (Net). Financial expenses decreased from \$4.0 Million in 2005 to \$2.6 million in 2006 mainly due to the effect of foreign currency translation adjustment.

Taxes on income. Taxes on income were \$82,000 in 2006. In 2006, taxes on income in the amount of \$1.7 million were partially offset by an increase in the deferred tax asset of \$1.6 million related to operating losses carried forward and other timing differences.

Minority interest. During the fourth quarter we recorded a minority interest in the Statement of Operations of our Israeli subsidiary Shagrir as results based on actual holdings which is 56.6%. The minority interest recorded in 2006 was \$1.04 million.

Net Income (Loss). In 2006, we had net income of \$1.2 million compared to a net loss of \$2.7 million in 2005.

Twelve Months Ended December 31, 2005 Compared with Twelve Months Ended December 31, 2004

Revenues. Revenues sharply increased by \$26 million, or 237% from \$11.0 million in 2004 to \$37 million in 2005. The major increase in revenues in 2005 resulted from the increase in our operations in Israel derived from the consolidation of Shagrir's annual results as compared to the consolidation in 2004 of Shagrir's results only from the second half of that year, and due the impact of Shagrir's acquisition of the road side assistance and towing activities of Shagrir Towing Services on February 28, 2006. To a lesser extent, revenues increased also due to a 25% increase in revenues from our international business.

Cost of Revenues. Our cost of revenues increased to \$23.3 million for the twelve months ended December 31, 2005 as compared to \$7.6 million for the same period in 2004. This increase was associated mainly with the consolidation of Shagrir's annual results as compared to the consolidation in 2004 of Shagrir's results only from the second half of that year, and due the impact of Shagrir's acquisition of the road side assistance and towing activities of Shagrir Towing Services on February 28, 2006. To a lesser extent, cost of revenues increased also due to our operations in Mexico, which became operational in March 2005.

Gross Profit. Our gross profit increased by \$10.3 million from \$3.4 million in 2004 to \$13.7 million in 2005, mainly as a result of the foregoing.

Research and Development Costs. Net research and development expenses in 2005 increased by \$410,000 from \$482,000 in 2004 to \$892,000 in 2005 mainly as a result of grants in the amount of \$516,000 which were deducted in 2004 from research and development expenses. Such grants were from the European Union for the Assets Surveillance and Protection project which has since been concluded.

Selling and Marketing Expenses. Selling and marketing costs increased by 125% to \$3.7 million in 2005 from \$1.6 million in 2004. The major increase in 2005 resulted from the consolidation of Shagrir's annual results as compared to the consolidation in 2004 of Shagrir's results only from the second half of that year, and due the impact of Shagrir's acquisition of the road side assistance and towing activities of Shagrir Towing Services on February 28, 2006. To a lesser extent, selling and marketing costs increased also due to increased marketing efforts in our subsidiaries abroad, including our operations in Mexico.

General and Administrative Expenses. General and administrative expenses increased by approximately 99% from \$ 2.8 million in 2004 to \$5.5 million in 2005. The major increase in 2005 resulted from the consolidation of Shagrir's annual results as compared to the consolidation in 2004 of Shagrir's results only from the second half of that year, the impact of Shagrir's acquisition of the road side assistance and towing activities of Shagrir Towing Services on February 28, 2006 and one-time charges associated with the same acquisition.

Amortization of deferred share option compensation. Amortization of deferred stock based compensation decreased from \$465,000 in 2004 to \$126,000 in 2005 as a result of reduced amortization of deferred share option compensation from 2003.

Amortization of intangible assets. Amortization of intangible assets increased by \$1.6 million from \$0.9 million in 2004 to \$2.5 million in 2005 mainly due to an increase in additional intangible assets recorded in 2005 pursuant to the acquisition by Shagrir of the activities and assets of Shagrir Towing Services on February 28, 2005, and an increase in amortizations related to intangible assets recorded in the acquisition of Shagrir in 2004 due to the 12 month consolidation in 2005 as compared to 6 month consolidation in 2004.

Operating Profit (Loss). As a result of the foregoing, we recorded in 2005 a \$959,000 operating profit, compared to an operating loss of \$2.9 million in 2004.

Financial Expenses (Net). Financial expenses increased from \$0.8 Million in 2004 to \$4.0 million in 2005 mainly due to the effect of the leveraged acquisition by Shagrir of the activities and assets of Shagrir Towing Services and the effect of consolidation of Shagrir's annual results as compared to the consolidation in 2004 of Shagrir's results only from the second half of that year.

Net Income (Loss). In 2005, we had net loss of \$2.7 million compared to a net loss of \$3.8 million in 2004.

Impact of Exchange Rate Fluctuations on Results of Operations, Liabilities and Assets

Our results of operations, liabilities and assets were mainly influenced by the fluctuations of exchange rates between the US dollar and the New Israeli Shekel (NIS), and to a lesser extent between the US dollar and the Argentine and Mexican Peso. For a discussion regarding the functional and reporting currency of each of our subsidiaries see Note 2b to our financial reports.

Due to the two acquisitions we made in Israel, our business in Israel currently accounts for the majority of our business and revenues. The business in Israel, especially the activities acquired from Shagrir Towing Services are mainly denominated in NIS.

For many years prior to 1986, the Israeli economy was characterized by high rates of inflation and devaluation of the Israeli currency against the U.S. dollar and other currencies. However, since the institution by the Israeli government of an economic recovery program in 1985, inflation, while generally continuing, has been significantly reduced and the rate of devaluation has been substantially diminished and in some years reversed.

We believe that inflation in Israel and fluctuations in the U.S. dollar NIS exchange rate may have substantial effects on our business, and our net income. Increased inflation may increase our NIS costs in Israel including among others salaries of our employees in Israel, costs of communications, subcontractors, financial expenses associated with loans related to the CPI, and other expenses, which are paid in New Israeli Shekels. On the other hand, a devaluation of the NIS against the US dollar will reduce our NIS denominated revenues and expenses in US dollar terms and therefore may increase our consolidated net losses.

The exchange rate fluctuated during 2006 from a low of NIS 4.176 to the U.S. dollar to a high of NIS 4.725 to the dollar. The average high and low exchange rates between the NIS and U.S. dollar during the most recent six months, as published by the Bank of Israel, were as follows:

Edgar Filing: Pointer Telocation Ltd - Form 20-F/A

<u>MONTH</u>	<u>HIGH</u> 1 U.S. dollar =	<u>LOW</u> 1 U.S. dollar =
November 2006	4.331	4.247
December 2006	4.234	4.176
January 2007	4.260	4.187
February 2007	4.254	4.183
March 2007	4.222	4.155
April 2007	4.135	4.014

The average exchange rate, using the average of the exchange rates on the last day of each month during the period, for each of the five most recent fiscal years, was as follows:

<u>Period</u>	<u>Exchange Rate</u>
January 1, 2002 - December 31, 2002	4.7363 NIS/\$1
January 1, 2003 - December 31, 2003	4.5124 NIS/\$1
January 1, 2004 - December 31, 2004	4.4833 NIS/\$1
January 1, 2005 - December 31, 2005	4.5026 NIS/\$1
January 1, 2006 - December 31, 2006	4.4565 NIS/\$1

In 2002, the rate of inflation was about 6.5% and the NIS was devalued against the dollar by 7.3%. In 2003, the Israeli economy recorded negative inflation of approximately 1.9% where the U.S. dollar devalued against the NIS by approximately 7.6%. In 2004, the Israeli economy recorded inflation of approximately 1.4% where the U.S. dollar devalued against the NIS by approximately 1.6%. As a result of the differential between the rate of inflation and the rate of valuation of the NIS, we experienced increases and decreases in the costs of our Israel operations, as expressed in U.S. dollars in 2004, but they did not materially affect our results of operations in such periods. In 2005, the Israeli economy recorded inflation of approximately 2.4% where the NIS devalued against the U.S. dollar by approximately 6.8%. As a result of the differential between the rate of deflation and the rate of valuation of the NIS, we experienced increases and decreases in the costs of our Israel operations, as expressed in U.S. dollars, in 2005. In 2006, the Israeli economy recorded negative inflation of approximately 0.1% where the NIS revalued against the U.S. dollar by approximately 8.21%. As a result of the differential between the rate of deflation and the rate of valuation of the NIS, we experienced increases and decreases in the costs of our Israel operations, as expressed in U.S. dollars, in 2006.

33

Regarding our operation in Argentina, the fact that most of Pointer Argentina's revenues are not denominated in US dollars, we believe that inflation in Argentina and fluctuations in the exchange rate between U.S. dollar and Argentinian Peso may have a significant effect on the business and overall profitability of Pointer Argentina and as a consequence, on the results of our operations. In 2002, a severe and rapid currency devaluation in Argentina adversely affected Pointer Argentina's US dollar results. This was mainly due to Pointer Argentina's inability to increase its Argentinian Peso-denominated prices to its customers, while its major costs of inventory and infrastructure were denominated in US dollars. In 2004, the U.S. dollar - Argentinian Peso exchange rate fluctuated between 2.92 and 2.98 Pesos to the dollar. From January 1, 2004 to December 31, 2004, the value of the Argentinian Peso increased by approximately 2.02% against the US dollar. This increase had no material effect on our business during 2004. In 2005 the U.S. dollar - Argentinian Peso exchange rate fluctuated between 2,979 and 3,032 Pesos to the dollar. From January 1, 2005 to December 31, 2005, the value of the Argentinian Peso increased by approximately 1.78% against the US dollar. In 2006 the U.S. dollar - Argentinian Peso exchange rate fluctuated between 2,979 and 3,062 Pesos to the dollar. From January 1, 2006 to December 31, 2006, the value of the Argentinian Peso increased by approximately 2.79% against the US dollar. This increase had no material effect on our business during 2006.

The fluctuations of the Mexican Peso are not material to our business as a whole.

We are not presently engaged in any hedging or other transactions intended to manage the risks relating to foreign currency exchange rate or interest rate fluctuations. However, we may in the future undertake such transactions if management determines that such is necessary to offset such risks.

Governmental and Fiscal Policies which May Affect Our Business

In recent years the market for vehicle leasing in Israel has grown. Employers often provide vehicles to their employees as benefits mainly through leasing companies. Such benefits are tax deductible for the employer, while the employee pays taxes on the vehicle based on a predefined valuation by the income tax authorities. There are indications that the tax authorities are contemplating a significant increase in the valuation of employee vehicles. Should such a proposal take effect, it may reduce the affordability of such vehicles, thereby causing an overall decrease in private vehicle ownership.

Argentina's ongoing debt crisis since 2001 has caused the government to implement fiscal and monetary policies, making it extremely difficult to receive credit from the banks. This policy may also contribute to the volatility of the exchange rate of the US dollar against the Argentinian Peso. Additionally, the growing success of law enforcement programs in Argentina has reduced the rate of car theft and may continue to adversely affect our business.

In Venezuela, the prevailing foreign currency restrictions imposed by the Venezuelan government and the recent economic political situation in Venezuela which caused our Venezuelan customer to suspend its orders from us in the past, continue to prevail. Additionally there is currently discussion of the Venezuelan government instituting a nationalization program, which could further adversely affect our operations there.

B. LIQUIDITY AND CAPITAL RESOURCES

As of December 31, 2006, we had a negative working capital of \$10.9 million, our current assets to current liabilities ratio was 0.61 we had cash and cash equivalents of \$5.9 million and an unused credit facility of \$2.5 million.

Since our inception, our operations have been funded through capital contributions, bank loans, private and public placements, research and development grants from the Chief Scientist, the BIRD Foundation, the European Community and cash flow from operations. We no longer receive grants from the Office of the Chief Scientist, the BIRD Foundation or the European Community.

As of December 31, 2006, we had a long-term credit facility for approximately \$32.1 million, of which \$29.9 was provided to our subsidiary Shagrir. \$2.2 million are long-term loans in or linked to the US dollar from banks, \$10.2 million are NIS long-term loans from a bank and others. \$19 million are long-term loans in NIS adjusted to the CPI from banks and others. A \$0.7 million loan is in Mexican pesos. For further information regarding our consolidated long term loans see notes 9 and 10 to our financial statements.

34

As of December 31, 2006, we had a short term credit facility for approximately \$6.5 million. \$2.5 million of the short term credit facility remains as of December 31, 2006 available for our use.

In 2006, net cash provided by our continuing operating activities amounted to \$5.4 million as compared to net cash provided from continuing operating activities of \$5.8 million in 2005. In 2006, net cash used in our continuing investing activities was \$1.2 million as compared to \$39.1 million net cash used in our continuing investment activities in 2005. In 2006, net cash used by financing activities was \$10,000 as compared to \$34.7 million provided by continuing financing activities in 2005.

Current liabilities increased from \$24.2 million in 2005 to \$27.9 million as of December 31, 2006, mainly due to the liabilities acquired in connection with the acquisition of the road side assistance and towing services business and loans provided to finance these transactions. Long-term liabilities decreased from \$32.2 million in December 31, 2005 to \$28 million as of December 31, 2006 mainly due loans provided to Shagrir to fund the acquisition of the road side assistance and towing services.

The two acquisitions we made in Israel have a positive impact on our cashflow from our operating activities, which is offset by a negative impact on our cashflow used in financing activities. However we cannot assure, that any such net positive cashflows, if any, will sufficiently cover negative cashflows expected to be used for our newly operative Mexican subsidiary, Pointer SA and for the significant operating expenses, which we expect to incur in connection with the development and marketing of our systems and products, as well as increased investments in the deployment of our existing and new networks in different geographical regions around the world.

For further information relating to the purchase of the activities and assets of Shagrir Towing Services, see Item 10 **Material Contracts**.

We believe that our current assets, together with anticipated cash generated from operations and the bank credit lines, will be sufficient to allow us to continue our operations as a going concern. However, we cannot assure you that we will be able to generate sufficient revenues from the sale of our services and products or succeed to obtain such additional sources of equity or debt financing. In raising additional funds, we may depend on receiving financial support from our principal shareholders or other external sources. We cannot assure you that they will continue to provide us with funds when requested, and that such funds, if any, will be sufficient to finance our additional cash requirements.

Aside for the aforementioned long-terms and credit facilities from banks, we have no firm commitments or arrangements for additional financing, and there can be no assurance that any such financing will be available on terms satisfactory to us, if at all. To the extent that our capital requirements exceed cash provided from operations and available financing (if any), we may, among other things, be required to reduce significantly research & development, product commercialization, marketing and/or other activities. Under certain circumstances, our inability to secure additional financing could cause us to cease our operations. Our business has also been harmed as a result of the current general duress and difficult economic and political conditions in certain countries in which we operate, particularly Venezuela and Argentina.

For a discussion of certain commitments and contingent liabilities of ours, see Note 10 to our financial statements included herein. For further information regarding information regarding investments in our Company see Item 4 **Recent Developments** and Item 10 **Material Contracts**.

C. RESEARCH AND DEVELOPMENT

We invest a significant amount of our resources on our internal research and development operations. We believe that continued and timely development of new products and new applications as well as enhancements to our existing systems and products are necessary to compete effectively in the rapidly evolving market. We dedicate a significant portion of our resources to (i) introducing the best advanced products and systems; (ii) designing improvements to existing products and applications by working closely with our customer support department in order to implement suggestions received from our customers investing in improvements to our production methods and services provision in, and by working in tandem with our operation department; and (iii) improving the customer friendliness of our products.

35

In order to facilitate future growth we are focusing on expanding our ability to enhance our existing systems and products and to introducing new versions and new products on a timely basis. Since we commenced operations we have conducted extensive research and development activities and we continue to improve our Pointerware network. Our net expenditures for research and development programs during the years ended December 31, 2006 and December 31, 2005, totaled approximately \$1.2 million and \$892,000 respectively. We expect that we will continue to commit substantial resources to research and development in the future. As of December 2006, the Company employed 12 persons in research and development. Our research and development expenses constituted approximately 2.8% and 2.4% of such sales, in the respective years ended December 31, 2006 and 2005. For additional information concerning commitments for research development programs See Note 10 to our financial statements included elsewhere in this annual report.

The Government of Israel encourages research and development projects oriented towards products for export through the Office of the Chief Scientist of the Ministry of Industry and Commerce of the State of Israel. Under the terms of Israel Government participation, a royalty of 2% to 5% of the net sales of products developed from a project funded by the Chief Scientist must be paid, beginning with the commencement of sales of products developed with grant funds and ending when 100% to 150% of the grant is repaid. The terms of the Israeli government participation also require that the manufacture of products developed with government grants be performed in Israel, unless a special approval has been granted. Separate Israeli government consent is required to transfer to third parties technologies developed through projects in which the government participates. Such restrictions do not apply to exports from Israel of products developed with such technologies. Royalty bearing grants received from the State of Israel for research and development were offset against our research and development costs.

We also received funding for certain research and development expenses relating to our joint venture with API from the Israel-United States Bi-national Industrial Research and Development Foundation, or BIRD Foundation. As of December 31, 2006, our contingent obligation to the BIRD Foundation was \$2.1 million.

We hold various United States patents relating to the use of Pointerware communications technology for various aspects of reverse paging and mobile location. We have not invested the requisite payment to maintain our patents, and we may lose or have already lost our rights to this proprietary technology in the near future.

The pending patent applications filed by us involve complex legal and factual questions, and the scope and breadth of claims to be allowed is uncertain. Accordingly, there can be no assurance that patent applications filed by us will afford protection against competitors with similar technology. In addition, we cannot assure you that the patents issued to us will not be infringed, designed around by others or invalidated. Some

foreign countries provide significantly less patent protection than the United States. Patent applications in the United States are maintained in secrecy until patents issue, and because publication of discoveries in the scientific or patent literature tends to lag behind actual discoveries by several months, we cannot be certain that we were the first creator of inventions covered by pending patent applications or the first to file patent applications on such inventions. There can also be no assurance that any application of our technologies will not infringe patents or proprietary rights of others or that licenses that might be required for our processes or products would be available on reasonable terms. Furthermore, there can be no assurance that challenges will not be instituted against the validity or enforceability of any patent owned by us or, if instituted, that such challenges will not be successful. The cost of litigation to uphold the validity and prevent infringement of a patent can be substantial.

In addition to potential patent protection, we rely on the laws of unfair competition and trade secrets to protect our proprietary rights. We attempt to protect our trade secrets and other proprietary information by non-disclosure agreements with our employees, consultants, customers, strategic partners and potential strategic partners. Although we intend to protect our rights vigorously, there can be no assurance that secrecy obligations will be honored or that others will not independently develop similar or superior technologies or trade secrets. We believe that such measures provide only limited protection of our proprietary information, and there is no assurance that our proprietary technology will remain a secret or that others will not develop similar technology and use this technology to compete with us. Despite our efforts to protect our proprietary rights, unauthorized parties may attempt to copy aspects of our products or to obtain and use information that we regard as proprietary. To the extent that consultants, key employees or other third parties, such as prospective joint venture partners or subcontractors, apply technological information independently developed by them or by others to our projects, disputes may arise as to the proprietary rights to such information, which disputes may not be resolved in our favor.

Our proprietary technology also includes software. Much of the software algorithms are also included and claimed in the patent and issued patent applications for Pointerware communications technology. Although software protection is currently available in the United States, there can be no assurance that the software patents will continue to be the subject of patent protection in the United States. Also, foreign patent protection for software is generally afforded lesser protection than in the United States.

D. TREND INFORMATION

The following discussion should be read in conjunction with the selected financial data included above and our consolidated financial statements and the related notes thereto included in this annual report.

We now operate predominantly in Israel and Latin America, mainly as a provider of services to insurance companies and automobile owners.

In Israel, in June 2004 we acquired Shagrir, our primary customer and operator in Israel. In February 2005 Shagrir acquired certain of the activities and assets of Shagrir Towing Services. These two acquisitions expanded our operations and increased our revenues in Israel such that approximately 89% of our revenues are now derived from the Israeli market. Such transactions reflect our strategy not only to serve as a technology company but also as an operator, providing operating services to insurance companies and automobile owners. Due to very intense competition in our field we expect prices for our services to drop during 2007.

Our Argentinian subsidiary, Pointer Argentina, has been negatively affected by economic and political instability in Argentina and from the reduction in car theft rates mainly associated with success of law enforcement programs.

Due to continuous political and economic conditions and foreign exchange restrictions in Venezuela, we cannot be sure whether we will receive any further purchase orders from our customer in Venezuela or when such orders may arrive.

In February 2005, our subsidiary, Pointer SA, commenced operations in Greater Mexico City. Since Pointer SA's operations are in the development phase, we (we currently hold 74% of the issued and outstanding shares of Pointer SA) will still need to provide it with financing until it has sufficient cash flows to run its operations. In 2007, we expect to materially dilute the holdings of our Mexican partners in Pointer SA pursuant to agreement with our partners there.

In 2005 we consolidated our financial reports in order to reflect 100% of Shagrir's financial results. On November 30, 2005, a group of investors, led by Gandyr Investments Ltd., exercised their options to convert their loan of approximately NIS 29.1 million into 43.44% of the

Edgar Filing: Pointer Telocation Ltd - Form 20-F/A

shares of Shagrir Systems. As a result, our holdings in Shagrir Systems were reduced to 56.56%. Since 2006 Shagrir's shareholders equity become positive and we have consolidated its financial results only for the then existing holding (by recording a minority interest), which materially negatively affects our net income (loss) at such periods.

In 2006 we introduced the Cellular Monitoring Units which provide high functionality for location based services, utilizing advanced cellular modems with GPS. These units enable us to provide versatile information as well as nationwide coverage, utilizing the cellular network in each territory. These units are specially designed to operate in harsh conditions inside the vehicle; the design takes into consideration the metallic envelope that surrounds the unit, the temperature and vibration stress that are imposed on it, the limited and unstable power supply that characterizes the car power supplies generally, and specific installation requirements of the variety of cars available in the market. The design takes special concern of these requirements, with high degree of reliability and flexibility.

In 2007 and thereafter we believe the increasing demand for high-quality services from automotive manufacturers, importers and dealers as well as insurance companies, will present new challenges and create unique business opportunities for our company. We are currently in the process of evaluating major acquisitions and partnerships that should enable us to capitalize on economies of scale to sustain our growth strategy.

38

E. OFF-BALANCE SHEET ARRANGEMENTS

The company has no off balance arrangement as described in this section.

F. CONTRACTUAL OBLIGATIONS

Contractual Obligations December 31, 2006 (in thousands USD)		Total	Less than 1 Year	1-3 Years	3-5 Years	More than 5 Years
Short term debt and other current liabilities	1	27,854	27,854	-	-	-
Long-term loans	2	23,323	-	16,008	3,086	4,231
Accrued severance pay, net	3	856	-	-	-	856
Management fees to DBSI	4	52	52	-	-	-
Operating lease obligations	5	1,424	834	590	-	-
Purchase Obligations		116	116	-	-	-
Royalties to BIRD	6	2,142	-	-	-	2,142
Total contractual obligations		55,758	28,847	16,595	3,086	7,229

¹ Short term debt and other current liabilities include short term bank credits, trade accounts payable for equipment and services that have already been supplied and other accrued expenses.

² Long term loans include principal and interest payments in accordance with the terms of the agreements with Banks and other third parties. For further information please see Item 11 **Liquidity and Capital Resources**.

³ Accrued severance pay maturity depends on the date our employees will actually cease being employed. The amount is net of outstanding severance pay funds.

⁴ We pay annual fees \$180,000 in consideration for DBSI management services pursuant to an agreement with DBSI, which is automatically renewable every 12 months unless either party provides prior notice of termination three months prior to the beginning of a renewal term.

⁵ Operating lease obligations include rental payments of offices, cars, and other premises and equipment.

⁶ Royalties to BIRD include the amount received by BIRD foundation indexed as per the agreement, which the Company has undertaken to pay based on sales of a specific product. The Company does not anticipate selling this product and therefore, does not anticipate paying these contingent royalties (See Note 11c to our Financial Statements).

ITEM 6. DIRECTORS, SENIOR MANAGEMENT AND EMPLOYEES

A. DIRECTORS AND SENIOR MANAGEMENT

The executive officers, directors and key employees of the Company are as follows:

Name	Age	Position with Company
Yossi Ben Shalom	51	Chairman of Board of Directors
Danny Stern	55	President and CEO
Alicia Rotbard	61	External Director
Gov Ben Ami	80	External Director
Barak Dotan	39	Director
Ken Lalo	50	Director
Yoel Rosenthal	52	Director
Ofer Kelman	50	Vice President, Research and Development
Zvi Fried	42	Vice President and Chief Financial Officer
Gideon Rossman	47	Vice President, Business Development and Marketing

Yossi Ben Shalom has served as our Chairman of the Board of Directors since April 2003. Mr. Ben Shalom was Executive Vice President and Chief Financial Officer of Koor Industries Ltd. (KOR) from 1998 through 2000. Before that, Mr. Ben-Shalom served as Chief Financial Officer of Tadiran Ltd. Mr. Ben-Shalom was an active director in numerous boards, such as at NICE Systems (NICE), (computer telephony), Machtshim Agan (chemistry), and Investec Bank, amongst others. Mr. Ben-Shalom was an active chairman in successful turnaround programs, such as Eurocar Israel, and American Express Israel. He participated in the creation of TDA VC fund (a joint venture between Tempelton and Tadiran). He was an active Chairman of Scopus – a technology company with sales of over \$30 million. Yossi is a co-founder of DBSI Investments Company.

Danny Stern was appointed as our President and Chief Executive Officer in May 2005. Mr. Stern was General Manager of Technoplast Industries Ltd. from 2002 through 2004. Before that, Mr. Stern served as Co-Founder and Chief Executive Officer of Appilog Inc. Israel and USA from 1999 through 2002 and as Co-Founder and Chief Executive Officer of PIDC (Israel) Ltd. and LIMS Technologies Ltd. from 1990 through 1999. Mr. Stern holds a Bachelor of Arts degree in Economics from Tel Aviv University.

Alicia Rotbard has served as a director on our Board since 2002. In 1989 she founded DOORS Informations Systems, Inc. and served as its CEO until 2002. From 1989 she served as President and CEO of Quality Computers Ltd. From 1980 to 1985 she served as Deputy General Manager of the Tel-Aviv Stock Exchange, managing its Computer Department and Operations. Ms. Rotbard holds a B.Sc. in Mathematics and Physics from the Hebrew University, Jerusalem.

Gov Ben Ami has served as a director on our Board since 2002. He also serves on the Board of the Kanfei Zahav Fund, the National Kibbutz Fund and the Technion's Research and Development Organization. From 1990 to 1993 he served in the Presidency of the Industrial Union. From 1990 to 1992 he served as a special consultant to the Minister of Industry and Trade on the subject of the European Common Market. From 1987 to 1988 he served as General Manager of the Ministry of Communication and he also served on the Board of Directors of Bezeq at this time. Mr. Gov. has served on various boards of directors of publicly traded companies as well as industrial companies. Mr Gov holds a B.Sc in Mechanical and Industrial Engineering from the Technion in Haifa as well as an MBA degree.

Barak Dotan was appointed a director on our board in April 2003. Mr. Dotan is a co-founder of DBSI Investments Ltd., a private investment company that has made various investments in private and public companies. Before establishing DBSI Investments, Mr. Dotan worked as Product Manager for Jacada (Nasdaq: JCDA), formerly CST, a software company that provides a complete software infrastructure to transform legacy systems into e-business and wireless solutions, and thereafter managed private investments in high-tech and other areas. Mr. Dotan graduated from the Hebrew University of Jerusalem summa cum laude with a B.Sc. in Computer Science and Business Management.

Ken Lalo was appointed a director on our Board in April 2003 and serves as the chairman of our audit committee. Mr. Lalo is the Executive Vice President of Polar Communications Ltd. Beginning in 2001, he served in various other managerial positions within the Polar Investments group, including as a member of the Boards of Directors of various affiliates of the group. Mr. Lalo also serves as the President of Nipson SAS and as a Director of Digital Printing Systems PLC, Cimatron Ltd. and BVR Systems (1998) Ltd. From 1993 until 2001, he served as Vice President and General Counsel, Clal Industries and Investments Ltd. and as a member of the Boards of Directors of various affiliates of Clal, including publicly traded and private companies. Mr Lalo holds an LL.B. from Tel-Aviv University, an M.C.L (Master of Comparative Law) degree from Georgetown University and an M.B.A from Northwestern University/Tel-Aviv University.

Yoel Rosenthal was appointed a director on our Board in April 2003. He is a veteran accountant with over 20 years of experience. Prior to joining D.B.S.I. Mr. Rosenthal was a founder and partner of a private accounting firm in Israel, Bruckner, Rosenthal, Ingber, He also held the position of Loan Officer for multinational corporations at the Bank of Montreal in the USA. Mr. Rosenthal received an MBA with honors from the University of California at Los Angeles and a BA in Economics and Accounting from Tel Aviv University.

Zvi Fried was appointed our Chief Financial Officer in February 2007. Prior to his appointment Mr. Fried was Chief Financial Officer of the publicly traded Chim Nir (TASE: CMNR) and Finance Director for Amdocs (Nasdaq: DOX). Mr. Fried holds a B.A. in Economics and Accounting degree from Bar Ilan University.

Gideon Rossman was appointed our Vice President of Business Development in 2005. Prior to his appointment, Mr. Rossman was Vice President of Distributed Power for Ormat Systems Ltd. Prior to that, Mr. Rossman was a Business Manager for the Process Diagnostics and Control division of Applied Materials. From 1992 through 1997 he was employed by Orbot Instruments as an Electrical Engineer and as a Business Manager. Mr. Rossman holds a BSc in Electrical and Computer Engineering from the Technion in Haifa. In 1999 he completed his MBA at Tel-Aviv University.

Ofar Kelman was appointed our Vice President of Research and Development in September 2006. Prior to his appointment, Mr. Kelman served as Development Manager of the WipLL department at Airspan Networks Israel Ltd. Mr. Kelman is an active member of the IEEE 802.16 committee developing the Standard for Wireless Metropolitan Area Networks and represented Airspan in the Technical Working Group of the WiMAX forum. Mr. Kelman holds a B.Sc. in Computer Sciences from the Hebrew University in Jerusalem since 1986.

B. COMPENSATION

The aggregate direct remuneration paid to all persons as a group who served in the capacity of director or executive officer during the year ended December 31, 2006, was approximately \$605,000, including amounts expended by us for automobiles made available to our officers, expenses reimbursed to officers (including professional and business association dues and expenses) and other fringe benefits commonly reimbursed or paid by companies in Israel, but excluding amounts set aside or accrued to provide pension, retirement or similar benefits, which amounted to \$483,000.

In addition, during 2006 a total of 12,000 options were granted to all persons as a group who served in the capacity of director or executive officer, at an exercise price of \$7.60.

C. BOARD PRACTICES

Our Articles of Association provide for a Board of Directors of not less than two nor more than seven members. Pursuant to the DBSI investment, our board consists of seven directors, four of which will be appointed by DBSI. Each director is elected to serve until the next annual general meeting of shareholders and until his or her successor has been elected. Officers serve at the discretion of the board of directors. The Israeli Companies Law which entered into effect on February 1, 2000 and was amended most recently in March 2005, requires the board of directors of a public company to determine the number of directors who shall possess accounting and financial expertise.

Under the Israeli Companies Law, a person who is already serving as a director will not be permitted to act as a substitute director. Additionally, the Israeli Companies Law also prohibits a person from serving as a substitute director for more than one director. Appointment of a substitute director for a member of a board committee is only permitted if the substitute is a member of the board of directors and does not

Edgar Filing: Pointer Telocation Ltd - Form 20-F/A

regularly serve as a member of such committee. If the committee member being substituted is an external director, the substitute may only be another external director who possesses the same expertise as the external director being substituted and may not be a regular member of such committee. The term of appointment of a substitute director may be for one meeting of the board of directors or for a specified period or until notice is given of the cancellation of the appointment. To our knowledge, no director currently intends to appoint any other person as a substitute director, except if the director is unable to attend a meeting of the board of directors.

Under the Israeli Companies Law, companies registered under the laws of Israel the shares of which have been offered to the public in or outside of Israel are required to appoint no less than two outside directors. No person may be appointed as an outside director if such person or the person's relative, partner, employer or any entity under the person's control, has or had, on or within the two years preceding the date of the person's appointment to serve as outside director, any affiliation with the company or any entity controlling, controlled by or under common control with the company. The term "affiliation" includes:

- an employment relationship;
- a business or professional relationship maintained on a regular basis;
- control; and
- service as an office holder.

A person shall be qualified to serve as an outside director only if he or she possesses accounting and financial expertise or professional qualifications. At least one outside director must possess accounting and financial expertise. The conditions and criteria for possessing accounting and financial expertise or professional qualifications were recently determined in regulations promulgated by the Israeli Minister of Justice in consultation with the Israeli Securities Authority.

Regulations have been recently promulgated under the Israeli Companies Law which now mandate that in the future when appointing an external director to the board of directors of a public company, in addition to the already existing requirements for such external director, such external director must either have expertise in finance and accounting or be professionally qualified. Additionally, at least one of the external directors must have expertise in finance and accounting. These regulations do not appear to relate to external directors currently serving.

A person is deemed to have expertise in finance and accounting if his or her education, experience and qualifications provide him or her with expertise and understanding in business matters accounting and financial statements, in a way that allows him or her to understand, in depth, the company's financial statements and to encourage discussion about the manner in which the financial data is presented.

The company's board of directors must evaluate the proposed external director's expertise in finance and accounting, by considering, among other things, his or her education, experience and knowledge in the following: (i) accounting and auditing issues typical to the field in which the company operates and to companies of a size and complexity similar to such company; (ii) a company's independent public accountant's duties and obligations; (iii) preparing company financial statements and their approval in accordance with the Companies Law and the Israeli Securities Law.

A director is deemed to be professionally qualified if he or she meets any of the following criteria: (i) has an academic degree in any of the following professions: economics, business administration, accounting, law or public administration; (ii) has a different academic degree or has completed higher education in a field that is the company's main field of operations, or a field relevant to his or her position; or (iii) has at least five years experience in any of the following, or has a total of five years experience in at least two of the following: (A) a senior position in the business management of a corporation with significant operations, (B) a senior public position or a senior position in public service, or (C) a senior position in the company's main field of operations. The board of directors here too must evaluate the proposed external director's professional qualification in accordance with the criteria set forth above.

42

The affidavit required by law to be signed by a candidate to serve as an external director must include a statement by such candidate concerning his or her education and experience, if relevant, in order that the board of directors may properly evaluate whether such candidate meets the requirements set forth in the regulations. Additionally, the candidate should submit documents and certificates that support the statements set forth in the affidavit.

Additionally, under the Israel Companies Law, a public company's board of directors must determine the minimum number of directors who have expertise in finance and accounting taking into account the type of company, its size, the extent of its activities and the complexity of the company's operations.

Edgar Filing: Pointer Telocation Ltd - Form 20-F/A

No person may serve as an outside director if the person's position or other business activities create, or may create, a conflict of interest with the person's responsibilities as an outside director or may otherwise interfere with the person's ability to serve as an outside director. If, at the time outside directors are to be appointed, all current members of the board of directors are of the same gender, then at least one outside director must be of the other gender.

Outside directors are to be elected by a majority vote at a shareholders' meeting, provided that either:

the majority of shares voted at the meeting, including at least one-third of the shares held by non-controlling shareholders voted at the meeting, vote in favor of election of the director; or
the total number of shares held by non-controlling shareholders voted against the election of the director does not exceed one percent of the aggregate voting rights in the company.

The initial term of an outside director is three years and may be extended for one additional term of three years. Outside directors may be removed only by the same percentage of shareholders as is required for their election, or by a court, and then only if the outside directors cease to meet the statutory qualifications for their appointment, violate their duty of loyalty to the company or are found by a court to be unable to perform their duties on a full time basis. Outside directors may also be removed by an Israeli court if they are found guilty of bribery, fraud, administrative offenses in a company or use of inside information. Each committee of a company's board of directors must include at least one outside director.

Ms. Alicia Rotbard and Mr. Gov Ben Ami have been serving as our outside directors since July 9, 2002.

The Israeli Companies Law requires public companies to appoint an audit committee. The responsibilities of the audit committee include identifying irregularities in the management of the company's business and approving related party transactions as required by law. An audit committee must consist of at least three directors, including the outside directors of the company. The chairman of the board of directors, any director employed by or otherwise providing services to the company, and a controlling shareholder or any relative of a controlling shareholder, may not be a member of the audit committee.

Currently, Mr. Ken Lalo and our two outside directors, Ms. Alicia Rotbard and Mr. Gov Ben Ami, serve as members of our audit committee.

43

Under the Israeli Companies Law, the board of directors must appoint an internal auditor, recommended by the audit committee. The role of the internal auditor is to examine, among other matters, whether the company's actions comply with the law and orderly business procedure. Under the Israeli Companies Law, the internal auditor may be an employee of the company but not an office holder (as defined below), or an affiliate, or a relative of an office holder or affiliate, and he may not be the company's independent accountant or its representative. Our board of directors appointed Daniel Schapira Certified Public Accountant (ISR) to be our internal auditor.

We have not entered into service contracts with any of the members of our board of directors.

D. EMPLOYEES

The following table sets forth the number of our employees at the end of each of the last three years:

	Israel	Other	Total
2006			
Sales and Marketing	85	20	105
Administration	30	12	42
Research and Development	12	-	12

Administration	19	8	27
Research and Development	11	-	11
Other	(**) 49	24	73
Total	137	43	180

(*) Represents 42 positions

(**) Represents 44 positions

We have entered into employment contracts with substantially all of our employees, all of which include non-competition, nondisclosure and confidentiality provisions relating to our proprietary information. We believe that our relations with our employees are satisfactory. We are not party to any collective bargaining agreements. However, in Israel, certain provisions of the collective bargaining agreements between the Histadrut (General Federation of Labor in Israel) and the Coordination Bureau of Economic Organizations (including the Industrialists Association) are applicable to our employees by order of the Israeli Ministry of Labor. These provisions concern principally the length of the workday, minimum daily wages for professional workers, insurance for work-related accidents, procedures for dismissing employees, determination of severance pay, and other conditions of employment. We generally provide our employees in Israel, with benefits and working conditions beyond the required minimums.

Israeli law generally requires severance upon the retirement or death of an employee or termination of employment without due cause. We currently fund our ongoing severance obligations by contributing funds on behalf of our senior employees to a fund known as the Managers Insurance. This fund provides a combination of savings plan, life insurance and severance pay benefits to the employee, giving the employee a lump sum of payment upon retirement and securing the severance pay, if legally entitled, upon termination of employment. We decide whether each employee is entitled to participate in the plan, and each employee who agrees to participate contributes an amount equal to 5% of his or her salary and the employer contributes between 13.3% and 15.8% of the employee's salary. In addition, Israeli employees and employers are required to pay predetermined sums to the National Insurance Institute, an agency, which is similar to the United States Social Security Administration. Since January 1, 1995, such amounts also include payments for national health insurance. The payments to the National Insurance Institute are approximately 14.5% of wages up to a specified amount, of which the employee contributes approximately 66% and the employer contributes approximately 34%.

E. SHARE OWNERSHIP

Some of our directors and officers own ordinary shares in our company and/or options to purchase ordinary shares. As of July 1, 2007, none of our directors and officers, beneficially owned shares and/or options amounting to 1% or more of the outstanding Ordinary Shares, excluding Messrs. Barak Dotan and Yossi Ben Shalom, who, as office holders of DBSI, may be considered to be the beneficial holders of the 22% of our issued share capital held by DBSI.

For information concerning option grants to our directors and officers, see as incorporated by reference in this Item 6 above and Item 7 **Major Shareholders and Related Party Transactions** below.

Employee Share Option Plans

For information concerning our employee share option plans, see as incorporated by reference, Note 12d of our consolidated financial statements.

ITEM 7. MAJOR SHAREHOLDERS AND RELATED PARTY TRANSACTIONS**A. MAJOR SHAREHOLDERS**

The following table and notes thereto set forth certain information as of, July 1, 2007, concerning the beneficial ownership (as defined in Rule 13d-3 under the Securities Exchange Act of 1934) of ordinary shares by each person or entity who, to the best of our knowledge, beneficially owned more than 5% of our outstanding ordinary shares. The voting rights of our major shareholders do not differ from the voting rights of holders of all of our ordinary shares.

Name of Beneficial Owner	Number of Shares Beneficially Owned* ^[Issued]	Percent of Shares Beneficially Owned
DBSI Investment Ltd. ⁽¹⁾	973,534	21.86%
LB I Group Inc. ⁽²⁾	570,000 ⁽³⁾	12.28%
Portside Growth and Opportunity Fund ⁽⁴⁾	135,000 ⁽⁵⁾	2.84%
Fort Mason Master, LP ⁽⁶⁾	471,897 ⁽⁷⁾	10.24%
Fort Mason Partners, LP ⁽⁶⁾	30,603 ⁽⁸⁾	0.69%

45

* Percent of shares beneficially owned prior to and after this offering has been determined based on 4,452,875 shares outstanding as of July 1, 2007. Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission. The number of shares beneficially owned by a person includes ordinary shares subject to options or warrants held by that person that are currently exercisable or exercisable within 60 days, notwithstanding the Issuance Limitation as defined in footnote 1 below. Such shares issuable pursuant to such options or warrants are deemed outstanding for computing the percentage ownership of the person holding such options but not deemed outstanding for the purposes of computing the percentage ownership of any other person. To our knowledge, the persons named in this table have sole voting and investment power with respect to all ordinary shares shown as owned by them.

- (1) As office holders of DBSI, Messrs. Barak Dotan and Yossi Ben Shalom may be considered to be the beneficial holders of the 21.86% of our issued share capital held by DBSI.
- (2) LB I Group Inc. is an affiliate of Lehman Brothers Inc., a registered broker-dealer. This selling stockholder has represented to us that it (i) purchased the securities in the ordinary course of business and (ii) did not have an agreement or understanding, directly or indirectly, with any person to distribute the securities at the time it purchased the securities. Lehman Brothers Holdings Inc., a public reporting company, is the ultimate parent company of this selling stockholder.
- (3) Includes 190,000 ordinary shares issuable upon the exercise of a warrant. The warrants provide that in no event shall they be exercisable to the extent that the issuance of shares upon their exercise would result in the beneficial ownership by LB I, of more than 4.99% of our outstanding shares. This mechanism is termed the Issuance Limitation. LB I has the express right to waive the Issuance Limitation upon sixty-one (61) days written notice to us.
- (4) Ramius Capital Group, L.L.C. (Ramius Capital) is the investment adviser of Portside Growth and Opportunity Fund (Portside) and consequently has voting control and investment discretion over securities held by Portside. Ramius Capital disclaims beneficial ownership of the shares held by Portside. Peter A. Cohen, Morgan B. Stark, Thomas W. Strauss and Jeffrey M. Solomon are the sole managing members of C4S & Co., L.L.C., the sole managing member of Ramius Capital. As a result, Messrs. Cohen, Stark, Strauss and Solomon may be considered beneficial owners of any shares deemed to be beneficially owned by Ramius Capital. Messrs. Cohen, Stark, Strauss and Solomon disclaim beneficial ownership of these shares.

Edgar Filing: Pointer Telocation Ltd - Form 20-F/A

The investment advisor to Portside Growth and Opportunity Fund is Ramius Capital Group, L.L.C. An affiliate of Ramius Capital Group, L.L.C. is a NASD member. However, this affiliate will not sell any shares to be offered by Portside Growth and Opportunity Fund through the prospectus and will receive no compensation whatsoever in connection with sales of shares by Portside Growth and Opportunity Fund through the prospectus.

- (5) Includes 45,000 ordinary shares issuable upon the exercise of a warrant. The warrants provide that in no event shall they be exercisable to the extent that the issuance of shares upon their exercise would result in the beneficial ownership by Portside Growth and Opportunity Fund, or Portside, of more than 4.99% of our outstanding shares. This mechanism is termed the Issuance Limitation. Portside has the express right to waive the Issuance Limitation upon sixty-one (61) days written notice to us.
- (6) Fort Mason Capital, LLC serves as the general partner of each of Master and Partners (collectively the Fort Mason Funds) and, in such capacity, exercises sole voting and investment authority with respect to ordinary shares owned by the Fort Mason Funds. Mr. Daniel German serves as the sole managing member of Fort Mason Capital, LLC. Fort Mason Capital, LLC and Mr. German each disclaim beneficial ownership of shares owned by the Fort Mason Funds, except to the extent of its or his pecuniary interest therein, if any.

46

-
- (7) The number of shares listed as beneficially owned by Fort Mason Master, L.P. (Master) includes 167,500 shares of ordinary shares underlying warrants exercisable as of July 1, 2007. A provision in the warrants held by Master prevents it from exercising the warrants, if Master and its affiliates, which such affiliates include Fort Mason Partners, L.P. (Partners), would hold more than 4.99% of Pointer Telocation Ltd. s ordinary shares (the 4.99% Master Blocker). The 4.99% Master Blocker is waivable by Master with 61 days notice to Pointer Telocation Ltd.
 - (8) The number of shares listed as beneficially owned by Partners includes 10,201 shares of ordinary shares underlying warrants exercisable as of July 1, 2007. A provision in the warrants held by Partners prevents it from exercising the warrants, if Partners and its affiliates, which such affiliates include Master, would hold more than 4.99% of Pointer Telocation Ltd. s ordinary shares (the 4.99% Partners Blocker). The 4.99% Partners Blocker is waivable by Partners with 61 days notice to Pointer Telocation Ltd.

As of July 25, 2007 there were approximately 70 record holders of our ordinary shares, including approximately 14 record holders in the United States (who held approximately 68% of our outstanding ordinary shares).

Changes in the percentages of ownership held by our various shareholder during the past three years were primarily results of investments during these years, the conversion of debentures in March 2003 and our acquisition of Shagrir in 2004. For further information regarding such investments and acquisition see Item 4 **Recent Developments**.

B. RELATED PARTY TRANSACTIONS

For information on the funding for and purchase of the assets and activities of Shagrir Towing Services and the \$6 million investment in our securities, see Item 10 **Material Contracts**

Agreements with Mr. Ofer Lior and his affiliates

On March 13, 2005, we entered into a joinder agreement with an individual, Mr. Ofer Lior pursuant to which in consideration for \$69,735 we issued Mr. Lior (i) 8,302 of our ordinary shares at a price per share of \$8.40 and (ii) a warrant to purchase up to 1,826 of our ordinary shares at the same exercise price. This warrant was exercisable by Mr. Lior until the earlier of: (a) April 6, 2006; or (b) our merger or the acquisition of substantially all of our assets and subsequently has expired. Mr. Lior s shares constitute approximately 0.21% of our current issued and outstanding share capital on a fully-diluted basis. This agreement was entered into as part of an investment round in which Mr. Lior participated on the same terms as the other investors.

In February 2005 Shagrir entered into a Management Agreement pursuant to which Dekalog Focused Management Ltd., or Dekalog, shall provide Chief Executive Officer services to Shagrir. In consideration for the provision of such services, Dekalog is to receive, NIS 120,000 (plus VAT) per month and an annual bonus equal to the higher of: (a) NIS 800,000; or (b) 2.5% of the consolidated profits of Shagrir, before tax, plus VAT.

In February 2005 we entered into an Employment Agreement pursuant to which, Mr. Ofer Lior provided services to Pointer. In consideration for the provision of such services, Mr. Lior was granted an option to purchase 1,753 ordinary shares of Pointer (representing, at the date of issuance, 3.5% of our issued and outstanding share capital), at an exercise price of \$280,000 (as adjusted in accordance with the terms of the agreement). Mr. Lior's contract has since terminated and the options have, therefore, expired.

Agreements with Shagrir

In February 2005 we consummated a management services agreement with Shagrir pursuant to which we will provide Shagrir with management services with respect to its business for a period of 2 years beginning February 28, 2005, in consideration for a management fee of NIS 1 million, subject to certain conditions.

In February 2005 we consummated a loan consolidation agreement with Shagrir the terms and conditions of which govern NIS 24,525,000 in previous loans made by us to Shagrir. Interest repayments and repayments of the principal will commence on February 28, 2007, with NIS 800,000 payable annually on account of the interest and NIS 200,000 payable annually on account of the principal. Interest under the loan is payable at a rate of 4% per year.

In February 2005 we consummated a loan agreement with Shagrir pursuant to which we loaned Shagrir NIS 3,916,536 in connection with certain infrastructure and equipment expenses. Interest repayments and repayments of the principal shall be repaid on a pro rata basis with the loans of Shagrir with its other shareholders. Interest under the loan is payable at a rate of 4% per year.

In February 2005, together with Gandyr Investments Ltd., Govli Ltd., Sulam Financial Holdings and Egged Holdings Ltd., we consummated a NIS 10 million loan agreement with Shagrir, of which we loaned Shagrir NIS 5 million. Interest repayments and repayments of the principal will commence on August 28, 2005. Interest under the loan is payable at a rate of 6.5% per year.

In February 2005, we invested directly into Shagrir NIS 4,550,000 (\$1 million), in consideration for 27,918 ordinary shares of Shagrir.

Management Agreement with DBSI Investments Ltd.

Pursuant to the share purchase agreement with DBSI Investments Ltd., we entered a management services agreement with DBSI in April 2003. Pursuant to the management agreement, DBSI will provide us with management services with respect to our business for a period of three years, in consideration for a management fee of \$180,000 per annum for a period of three years commencing April 2003, to be paid in equal quarterly installments of \$45,000. In April 2006, the agreement was renewed for an additional 12 month period which may be automatically renewed for additional 12 month terms unless terminated by either of the parties.

Cooperation and Share Exchange Agreements with Shagrir

On February 25, 2004, we entered into a cooperation agreement with Shagrir, the operator of our system in Israel. As part of this agreement Shagrir renewed its commitment to purchase exclusively from us end units for its stolen vehicle retrieval system. Shagrir undertook to purchase in 2004 end-units in an amount of \$2.3 million and during the following three years, in a minimum amount of \$4.2 million. We undertook to expand Shagrir's infrastructure network. The term of the agreement is until the end of year 2007.

Subsequently, on April 25, 2004, we entered into an agreement with the shareholders of Shagrir, to purchase 100% of the issued share capital of Shagrir. Upon completion of the agreement on June 29, 2004, we purchased all the outstanding shares and options to purchase shares of Shagrir, excluding a number of options held by its employees, which were converted into options of our company, constituting, at the date of conversion, an aggregate of 2.5% of our share capital on a fully diluted basis. Pursuant to the Agreement, we transferred a number of our ordinary shares and warrants with an aggregate value equal to, at the date of transfer, approximately 26% of our issued share capital on a fully diluted basis, post transaction. For information regarding our agreements with Shagrir see Item 4 **Recent Developments**.

Employment of Mr. Gideon Rossman, Vice President of Business Development and Marketing

In December 2005, Mr. Gideon Rossman was appointed our Vice President of Business Development and Marketing. Under the terms of his employment, Mr. Rossman was granted 13,000 options at an exercise price of \$9.50, in accordance with our 2003 option plan. 25% of these options will vest each year, over the next four years beginning in November 2006 and ending in November 2009 (provided that he remains employed by us throughout that period).

In addition, in January 2007, Mr. Rossman was granted in January 2007, 10,000 options at an exercise price of \$11.24, in accordance with our 2003 option plan. 25% of these options will vest each year, over the next four years beginning in January 2008 and ending in January 2010 (provided that he remains employed by us throughout that period).

Employment of Mr. Ofer Kelman, Vice President of Research and Development

In September 2006, Mr. Kelman was appointed our Vice President of Research and Development. Under the terms of his employment, Mr. Kelman was granted 10,000 options at an exercise price of \$11.24, in accordance with our 2003 option plan. 25% of these options will vest each year, over the next four years beginning in January 2008 and ending in January 2010 (provided that he remains employed by us throughout that period).

Employment of Mr. Danny Stern President and CEO of the Company and Mr. Zvi Fried, Vice President and CFO of the Company.

ITEM 8. FINANCIAL INFORMATION

A. CONSOLIDATED STATEMENTS AND OTHER FINANCIAL INFORMATION

The Financial Statements required by this item are found at the end of this annual report, beginning on page F-1.

Legal Proceedings

For information concerning legal proceedings with CEIEC see Item 4 above: "Information on the Company" - "Legal Claim".

As of December 31, 2006, several claims were filed against Shagrir Systems, mainly by customers. The claims are in an amount aggregating to approximately NIS 680,000. The substance of the claims is the malfunction of Shagrir products, which occurred during the ordinary course of business. The Company's management is of the opinion that no material costs will arise to Shagrir Systems in respect to these claims and, therefore, no provision was recorded in the financial statements in respect of the claims.

Legal proceedings brought against Yossi Ben-Shalom and Barak Dotan in 2005 have been terminated.

B. SIGNIFICANT CHANGES

For a description of significant events, which took place since the year ending December 31, 2005, see as incorporated by reference in Item 4 **Information on the Company Recent Developments** above.

Markets and Share Price History

Between June 1994 and April 1997, and commencing again on October 31, 1997 until August 2002, our Ordinary Shares were quoted on Nasdaq under the symbol NXUS. Between April 17, 1997, and October 30, 1997, and commencing again as of August 2002 the OTC Bulletin Board reported trading in the Ordinary Shares under the symbol NXUS and later changed to NXUSF. On November 16, 2005, our shares resumed trading on the Nasdaq Capital Market under the symbol NXUS. On February 21, 2006 our shares began trading under a new symbol, PNTR. The table below sets forth the high and low bid prices of our Ordinary Shares, as reported by Nasdaq or the OTC Bulletin Board during the indicated periods.

Period	High	Low
2007 June	8.61	7.8
2007 May	11.65	8.72
2007 April	11.03	10.46
2007 March	12.35	10.46
2007 February	14.53	10.42
2007 January	11.93	10.34
2006 Fourth Quarter	19.30	5.20
2006 Third Quarter	7.97	6.06
2006 Second Quarter	7.36	6.37
2006 First Quarter	8.33	6.74
2005 Fourth Quarter	10.79	6.84
2005 Third Quarter	14.00	5.90
2005 Second Quarter	16.00	10.00
2005 First Quarter	21.00	12.00
2006	19.30	5.20
2005	21.00	5.90
2004	58.00	9.00
2003	34.00	6.00
2002	235.00	8.00

In December 19, 2006, we commenced listing our ordinary shares on the TASE in Israel under the symbol PNTR. The following table sets forth, for the periods indicated, the high and low reported sales prices, in NIS, of the ordinary shares on the Tel Aviv Stock Exchange:

Period	High	Low
2007 June	35	33
2007 May	46	36
2007 April	45	42
2007 March	51	44
2007 February	58	45
2007 January	51	43
2006 December	58	46

B. MEMORANDUM AND ARTICLES OF ASSOCIATION

Our registration number at the Israeli registrar of companies is 52-004147-6.

Articles of Association; Israeli Companies Law

Articles of Association

September 2003, we adopted a new Articles of Association in order to comply with the new Israeli Companies Law. The provisions of our new Articles are substantially the same as the material provisions of our previous Articles.

The objective of our company as stated in our Articles and in our Memorandum of Association is to engage in any lawful activity.

We have currently outstanding only one class of securities. Pursuant to a one-for-one hundred reverse stock split of our ordinary shares, effective as of August 2005, each share of our old Ordinary Shares with a par value of NIS 0.03 each were converted into one Ordinary Share with a par value of NIS 3.00 per share. Accordingly, all shares and per share data in this annual report have been retroactively adjusted to reflect the reverse stock split. No preferred shares are currently authorized.

Holders of Ordinary Shares have one vote per share, and are entitled to participate equally in the payment of dividends and share distributions and, in the event of our liquidation, in the distribution of assets after satisfaction of liabilities to creditors. Our Articles may be amended by a resolution carried at a General Meeting by 75% of those who voted is required. The shareholders rights may not be modified in any other way unless otherwise expressly provided in the terms of issuance of the shares.

Our Articles require that we hold our annual general meeting of shareholders each year no later than 15 months from the last annual meeting, at a time and place determined by the board of directors, upon at least 21 days prior notice to our shareholders. No business may be commenced until a quorum of two or more shareholders holding at least one-third of the voting rights are present in person or by proxy. Shareholders may vote in person or by proxy, and will be required to prove title to their shares as required by the Israeli Companies Law (the Companies Law) pursuant to procedures established by the board of directors. Resolutions regarding the following matters must be passed at a general meeting of shareholders:

amendments to our Articles (other than modifications of shareholders rights as mentioned above);
appointment or termination of our auditors;
appointment and dismissal of directors;
approval of acts and transactions requiring general meeting approval under the Israeli Companies Law;
increase or reduction of our authorized share capital or the rights of shareholders or a class of shareholders- Sections 286 and 287 of the Israeli Companies Law;
any merger as provided in section 320 of the Israeli Companies Law; and
the exercise of the board of directors powers by a general meeting, if the board of directors is unable to exercise its powers and the exercise of any of its powers is vital for our proper management, as provided in section 52(a) of the Israeli Companies Law.

A special meeting of our shareholders shall be convened by the board, at the request of any two directors or one quarter of the officiating directors, or by request of one or more shareholders holding at least 5% of our issued share capital and 1% of the voting rights, or by request of one or more shareholders holding at least 5% of the voting rights. Shareholders requesting a special meeting must submit their proposed resolution with their request. Within 21 days of receipt of the request, the board must convene a special meeting and send out notices setting forth the date, time and place of the meeting. Such notice must be given at least 21 days, but not more than 35 days, prior to the special meeting.

The Israeli Companies Law

The Israeli Companies Law, as amended most recently in March 2006, codifies the fiduciary duties that office holders, including directors and executive officers, owe to a company. An office holder, is defined in the Israeli Companies Law, as a (i) director, (ii) general manager, (iii) chief business manager, (iv) deputy general manager, (v) vice general manager, (vi) executive vice president, (vii) vice president, (viii) another manager directly subordinate to the managing director or (ix) any other person assuming the responsibilities of any of the forgoing positions without regard to such person's title.

The Israeli Companies Law requires that an office holder of a company promptly disclose, no later than the first board meeting in which such transaction is discussed, any personal interest that he or she may have and all related material information known to him or her, in connection with any existing or proposed transaction by the company. In addition, if the transaction is an extraordinary transaction, as defined under Israeli law, the office holder must also disclose any personal interest held by the office holder's spouse, siblings, parents, grandparents, descendants, spouse's descendants and the spouses of any of the foregoing, or by any corporation in which the office holder is a 5% or greater shareholder, holder of 5% or more of the voting power, director or general manager or in which he or she has the right to appoint at least one director or the general manager. An extraordinary transaction is defined as a transaction not in the ordinary course of business, not on market terms, or that is likely to have a material impact on the company's profitability, assets or liabilities.

In the case of a transaction that is not an extraordinary transaction, after the office holder complies with the above disclosure requirement, only board approval is required unless the Articles of Association of the company provide otherwise. The transaction must not be adverse to the company's interest. If the transaction is an extraordinary transaction, then, in addition to any approval required by the Articles of Association, it must also be approved by the audit committee and by the board of directors, and, under specified circumstances, by a meeting of the shareholders.

Subject to certain exceptions provided for in the regulations to the Israeli Companies Law, agreements regarding directors' terms of employment require the approval of the board of directors and the audit committee. In all matters in which a director has a personal interest, including matters of his/her terms of employment, he/she shall not be permitted to vote on the matter or be present in the meeting in which the matter is considered. However, should a majority of the audit committee or of the board of directors have a personal interest in the matter, then:

52

- (a) all of the directors are permitted to vote on the matter and attend the meeting in which the matter is considered; and
- (b) the matter requires approval of the shareholders at a general meeting.

According to the Israeli Companies Law, the disclosure requirements discussed above also apply to a controlling shareholder of a public company. Such requirements also apply to certain shareholders of a public company, with respect to private placements that will increase their relative holdings in the company. In general, extraordinary transactions with a controlling shareholder or in which a controlling shareholder has a personal interest, and agreements relating to employment and compensation terms of a controlling shareholder require the approval of the audit

Edgar Filing: Pointer Telocation Ltd - Form 20-F/A

committee, the board of directors and the shareholders of the company. The term "controlling shareholder" is defined as a shareholder who has the ability to direct the activities of a company, other than if this power derives solely from the shareholder's position on the board of directors or any other position with the company. The definition also includes shareholders that hold 25% or more of the voting rights if no other shareholder owns more than 50% of the voting rights in the company. In general, extraordinary transactions with a controlling shareholder or in which a controlling shareholder has a personal interest, and agreements relating to employment and compensation terms of a controlling shareholder, require the approval of the audit committee, the board of directors and the shareholders of the company.

The shareholder approval must either include at least one-third of the shares held by disinterested shareholders who actively participate in the voting process (without taking abstaining votes into account), or, alternatively, the total shareholdings of the disinterested shareholders who vote against the transaction must not represent more than one percent of the voting rights in the company.

Private placements in a public company require approval by a company's board of directors and shareholders in the following cases:

(a) A private placement that meets all of the following conditions:

(i) the private placement will increase the relative holdings of a shareholder that holds five percent or more of the company's outstanding share capital, assuming the exercise of all of the securities convertible into shares held by that person, or that will cause any person to become, as a result of the issuance, a holder of more than five percent of the company's outstanding share capital.

(ii) 20 percent or more of the voting rights in the company prior to such issuance are being offered.

(iii) all or part of the consideration for the offering is not cash or registered securities, or the private placement is not being offered at market terms.

(b) A private placement that results in anyone becoming a controlling shareholder of the public company.

In addition, under the Israeli Companies Law, certain transactions or a series of transactions are considered to be one private placement.

Any placement of securities that does not fit the above description may be issued at the discretion of the Board of Directors.

Under the Israeli Companies Law, a shareholder has a duty to act in good faith towards the company and other shareholders and refrain from abusing his power in the company, including, among other things, voting in the general meeting of shareholders on the following matters:

any amendment to the Articles of Association;
an increase of the company's authorized share capital;

53

a merger; or
approval of interested party transactions that require shareholder approval as provided in sections 255 and 268 to 275 of the Israeli Companies Law.

In addition, any controlling shareholder, any shareholder who knows that it possesses power to determine the outcome of a shareholder vote and any shareholder who has the power to appoint or prevent the appointment office holder in the company is under a duty to act with fairness towards the company. The breach of such duty is governed by Israeli contract law. The Israeli Companies Law does not describe the substance of this duty. The Israeli Companies Law requires that specified types of transactions, actions and arrangements be approved as provided for in a company's articles of association and in some circumstances by the audit committee, by the board of directors and by the shareholders. The vote required by the audit committee and the board of directors for approval of these matters, in each case, is a majority of the disinterested directors participating in a duly convened meeting.

Provisions Restricting Change in Control of Our Company

Tender Offer. A person wishing to acquire shares or any class of shares of a publicly traded Israeli company and who would as a result hold over 90% of the company's issued and outstanding share capital or of a class of shares which are listed, is required by the Companies Law to make a tender offer to all of the company's shareholders for the purchase of all of the issued and outstanding shares of the company. If the shareholders who do not respond to the offer hold less than 5% of the issued share capital of the company, all of the shares that the acquirer offered to purchase will be transferred to the acquirer by operation of law. The Companies Law provides for an exception regarding the threshold requirement for a shareholder that prior to and following February 2000 holds over 90% of a company's issued and outstanding share capital. However, the shareholders may petition the court to alter the consideration for the acquisition. If the dissenting shareholders hold more than 5% of the issued and outstanding share capital of the company, the acquirer may not acquire additional shares of the company from shareholders who accepted the tender offer if following such acquisition the acquirer would then own over 90% of the company's issued and outstanding share capital.

The Companies Law provides that an acquisition of shares of a public company must be made by means of a tender offer if as a result of the acquisition the purchaser would become a 25% or greater shareholder of the company. This rule does not apply if there is already another 25% shareholder of the company. Similarly, the Companies Law provides that an acquisition of shares in a public company must be made by means of a tender offer if as a result of the acquisition the purchaser would become a 45% or greater shareholder of the company, if there is no 45% or greater shareholder of the company.

Merger. The Companies Law permits merger transactions if approved by each party's board of directors and the majority of each party's shares voted on the proposed merger at a shareholders' meeting called on at least 21 days' prior notice. Under the Companies Law, merger transactions may be approved by holders of a simple majority of our shares present, in person or by proxy, at a general meeting and voting on the transaction. In determining whether the required majority has approved the merger, if shares of a company are held by the other party to the merger, or by any person holding at least 25% of the outstanding voting shares or 25% of the means of appointing directors of the other party to the merger, then a vote against the merger by holders of the majority of the shares present and voting, excluding shares held by the other party or by such person, or anyone acting on behalf of either of them, is sufficient to reject the merger transaction. If the transaction would have been approved but for the exclusion of the votes of certain shareholders as provided above, a court may still approve the merger upon the request of holders of at least 25% of the voting rights of a company, if the court holds that the merger is fair and reasonable, taking into account the value of the parties to the merger and the consideration offered to the shareholders. Upon the request of a creditor of either party to the proposed merger, the court may delay or prevent the merger if it concludes that there exists a reasonable concern that, as a result of the merger, the surviving company will be unable to satisfy the obligations of any of the parties to the merger. In addition, a merger may not be executed unless at least 30 days have passed from the receipt of the shareholders' approval and 50 days have passed from the time that a proposal for approval of the merger has been filed with the Israeli Registrar of Companies.

Nasdaq Marketplace Rules and Home Country Practices

In accordance with Israeli law and practice and subject to the exemption set forth in Rule 4350(a)(1) of the NASD Marketplace Rules, we follow the provisions of the Israeli Companies Law 1999, rather than the requirements of Marketplace Rule 4350 with respect to the following requirements:

Distribution of annual and quarterly reports to shareholders Under Israeli law we are not required to distribute annual and quarterly reports directly to shareholders and the generally accepted business practice in Israel is not to distribute such reports to shareholders. We do however make our audited financial statements available to our shareholders prior to our annual general meeting and file our quarterly and annual financial results with the Securities Exchange Commission on Form 6-K.

Quorum Under Israeli law a company is entitled to determine in its articles of association the number of shareholders and percentage of holdings required for a quorum at a shareholders meeting. Our Articles of Association provide that a quorum of two or more shareholders holding at least 33.3% of the voting rights in person or by proxy is required for commencement of business at a general meeting. However, the quorum set forth in our Articles of Association with respect to an adjourned meeting, consists of two or more shareholders in person or by proxy.

Approval of Related Party Transactions All related party transactions are approved in accordance with the requirements and procedures for approval of interested party acts and transactions, set forth in sections 268 to 275 of the Israeli Companies Law-1999, and the Regulations promulgated thereunder. Provided that our executive officers do not serve on our board, Israeli law does not require nor do we engage in the recommendation to, or determination by, our board of the compensation of our executive officers. See also **Item 10B Additional Information Memorandum and Articles of Association The Israeli Companies Law**, for the definition and procedures for the approval of, related party transactions.

Edgar Filing: Pointer Telocation Ltd - Form 20-F/A

Shareholder Approval We seek shareholder approval for all corporate action requiring such approval, in accordance with the requirements of the Israeli Companies Law 1999.

Independence of Directors our board contains two independent directors in accordance with the provisions contained in Sections 239-249 of the Israeli Companies Law 1999 and Rule 10A-3(b) of the general rules and regulations promulgated under the Securities Act of 1933. Israeli law does not require nor do our independent directors conduct, regularly scheduled meetings at which only they are present.

Nomination of our Directors With the exception of our independent directors, our directors are elected for terms of one year or until the following annual meeting, by a general meeting of our shareholders. The nominations for director which are presented to our shareholders are generally made by our directors but may be made by one or more of our shareholders holding together at least one percent of the voting power at the general meeting. Israeli law does not require the adoption of and our board has not adopted a formal written charter or board resolution addressing the nomination process and related matters.

Israeli law does not require and our board has not adopted a formal written audit committee charter.

Our audit committee complies with all of the requirements under Israeli law.

Israeli law does not require and we have not adopted a code of conduct applicable to all of our employees.

Mr. Gov Ben Ami and Ms Alicia Rotbard currently serve on our Board of Directors as External Directors. Ms. Alicia Rotbard, Mr. Gov Ben Ami and Mr. Ken Lalo currently serve on our Audit Committee.

C. MATERIAL CONTRACTS

Private Placements with U.S. Institutional Investors

On April 2, 2007, we entered into and consummated a share purchase agreement, or the April Investment, with a group of United States institutional investors for the purchase of 805,000 of our ordinary shares for an aggregate price of \$8.5M. Pursuant to the transaction, the investors were also issued warrants to purchase 402,500 of our ordinary shares, such that for each one share purchased the investors were entitled to a warrant to purchase half a share. The warrants are exercisable into ordinary shares, at an exercise price per share of \$12.6 and will be exercisable for a period of five years. Following the transaction two of the investors, individually, hold more than 5% of our issued and outstanding share capital.

Potential acquisition of Cellocator Ltd.

In March 2007, we announced the execution of a non-binding Memorandum of Understanding to acquire the assets and liabilities of Cellocator, a private Israeli company active in the field of cellular location-based services and technology. The closing of the transaction is subject to the completion of a full due diligence review to our full satisfaction. We will pay Cellocator and its shareholders approximately US\$18.5 million in cash, shares and a convertible debenture. Following the completion of the transaction and upon conversion of the debenture, Cellocator and/or its shareholders will hold approximately 5.37% of our issued and outstanding share capital (on a fully diluted basis). We cannot guarantee that this transaction will be consummated.

MOU with a leading provider of Road Side Assistance in Argentina

In March 2007, we also executed a MOU with a leading provider of road side assistance in Argentina, or the Argentinian Provider, to cooperate in offering location based services and stolen vehicle retrieval services. The closing of the transaction is subject to the success of the Argentinian Provider in reaching an agreement with a leading automotive manufacturer in Argentina. Based on the MOU, upon closing, the Argentinian Provider shall transfer to Pointer Argentina all of its location based services and SVR business in consideration for 11% of the outstanding share capital of Pointer Argentina. Thereafter, contingent upon the success of the project during the two years following the closing, the Argentinian Provider will increase its holdings in Pointer Argentina, and we will provide Pointer Argentina with certain of our products, free of charge, during these two years.

Potential acquisition of the Argentinian Provider

In March 2007, we executed a non-binding Letter of Intent to acquire controlling ownership of the Argentinian Provider, in consideration for \$9 million.

Private Placements with Israeli Institutional Investors

On December 28, 2006 we entered into a Share Purchase Agreement with a group of Israeli institutional investors for the purchase of 425,000 of our ordinary shares for an aggregate price of \$4.7M, out of which, an amount of \$2.586 million was received by December 31, 2006. The transaction was consummated on January 12, 2007. Pursuant to the transaction, the investors were also issued warrants to purchase 212,500 of our ordinary shares, such that for each one share purchased the investors were entitled to a warrant to purchase half an ordinary share. The warrants are exercisable into ordinary shares, at an exercise price per share of \$13 and will be exercisable for a period of four years. None of the investors were, or following the transaction have since become, our affiliates.

56

Management Services Agreement with Gandyr Group and Egged

On November 16, 2004, Shagrir entered into a management services agreement with the Gandyr group and Egged, pursuant to which the Gandyr group and Egged were to grant management services to Shagrir, commencing March 1, 2007, in consideration for approximately NIS 1 million per year. Pursuant to the management services agreement, in the event that the Gandyr group or Egged did not convert in full the convertible securities which they held at the time, then the parties would renegotiate the management fees. Egged elected not to convert its convertible loan.

For a summary of our other material contracts, see Item 4 Information on the Company **Recent Developments** and Item 6 **Related Party Transactions**.

D. EXCHANGE CONTROLS

Under current Israeli regulations, any dividends or other distributions paid in respect of our ordinary shares purchased by nonresidents of Israel with certain non-Israeli currencies (including dollars) and any amounts payable upon the dissolution, liquidation or winding up of our affairs, as well as the proceeds of any sale in Israel of our securities to an Israeli resident, will be freely repatriable in such non-Israeli currencies at the rate of exchange prevailing at the time of conversion pursuant to the general permit issued under the Israeli Currency Law, 1978, provided that Israeli income tax has been paid on (or withheld from) such payments. Because exchange rates between the NIS and the U.S. dollar fluctuate continuously, U.S. shareholders will be subject to any such currency fluctuation during the period from when such dividend is declared through the date payment is made in U.S. dollars. Investments outside Israel by the Company no longer require specific approval from the Controller of Foreign Currency at the Bank of Israel.

E. TAXATION AND GOVERNMENT PROGRAMS

The following is a summary of some of the current tax law applicable to companies in Israel, with special reference to its effect on us and our subsidiaries. The following also contains a discussion of specified Israeli tax consequences to our shareholders and government programs from which we, and some of our subsidiaries benefit. To the extent that the discussion is based on tax legislation that has not been subject to judicial or administrative interpretation, there can be no assurance that the views expressed in the discussion will be accepted by the tax authorities in question.

The discussion is not intended, and should not be construed, as legal or professional tax advice and is not exhaustive of all possible tax considerations.

General Corporate Tax Structure

Israeli companies are generally subject to company tax on their taxable income. The applicable rate is 31% in 2006, 29% in 2007, 27% in 2008, 26% in 2009 and 25% in 2010 and thereafter.

Under the Income Tax Law (Adjustment for Inflation) 1985, income for tax purposes is generally measured in terms of earnings in NIS adjusted for the increase in the Israeli CPI.

Tax Benefits and Grants for Research and Development

Israeli tax law allows, under certain conditions, a tax deduction in the year incurred for expenditures (including capital expenditures) in scientific research and development projects if the expenditures are approved by the relevant Israeli Government Ministry (determined by the field of research) and the research and development is for the promotion of the enterprise and is carried out by or on behalf of the company seeking such deduction. Expenditures not so approved are deductible over a three-year period. However, expenditures made out of proceeds made available to us through government grants are not deductible according to Israeli law.

57

Law for the Encouragement of Industry (Taxes), 1969

The following preferred corporate tax benefits, among others, are available to Industrial Corporations, which may be applicable to us:

(a) Amortization of purchases of know-how and patents over eight years for tax purposes.

(b) Amortization of expenses incurred in connection with certain public security issuances over a three-year period.

(c) Tax exemption for shareholders who held shares before a public offering on capital gains derived from the sale (as defined by law) of securities, if realized after more than five years from the public issuance of additional securities of the Company. (As of November 1994, this exemption was repealed, however, it applies to our shareholders pursuant to a grand-fathering clause.) This exemption applies only to gains that accrued before January 1, 2003.

(d) Accelerated depreciation rates on equipment and buildings.

Israeli Capital Gains Tax

Until the end of the year 2002, and provided we maintained our status as an industrial corporation, capital gains from the sale of our securities were generally exempt from Israeli Capital Gains Tax. This exemption did not apply to a shareholder whose taxable income was determined pursuant to the Israeli Income Tax Law (Inflationary Adjustments) 1985, or to a person whose gains from selling or otherwise disposing of our securities were deemed to be business income.

From January 1, 2003, capital gains from the sale of our securities were generally subject to tax. On January 1, 2006, an amendment to the Israeli tax regime became effective (the 2006 Tax Reform). The 2006 Tax Reform significantly changed the tax rates applicable to income derived from securities.

According to the 2006 Tax Reform, an individual is subject to a 20% tax rate on real capital gains derived from the sale of shares, as long as the individual is not a substantial shareholder (generally a shareholder with 10% or more of the right to profits, right to nominate a director and voting rights) in the company issuing the shares. The rate on the gains from publicly traded shares applicable to gains that were realized before January 1, 2006 was 15%.

A substantial shareholder will be subject to tax at a rate of 25% in respect of real capital gains derived from the sale of shares issued by the company in which he or she is a substantial shareholder. The determination of whether the individual is a substantial shareholder will be made on the date that the securities are sold. In addition, the individual will be deemed to be a substantial shareholder if at any time during the 12 months preceding this date he had been a substantial shareholder.

Non-Israeli residents are exempt from Israeli capital gains tax on any gains derived from the sale of shares in an Israeli corporation publicly traded on the TASE and/or on a foreign stock exchange, provided such gains do not derive from a permanent establishment of such shareholders in Israel and that such shareholders did not acquire their shares prior to the issuer's initial public offering. However, non-Israeli corporations will not be entitled to such exemption if an Israeli resident (i) has a controlling interest of 25% or more in such non-Israeli corporation, or (ii) is the beneficiary of or is entitled to 25% or more of the revenues or profits of such non-Israeli corporation, whether directly or indirectly.

In some instances where our shareholders may be liable to Israeli tax on the sale of their ordinary shares, the payment of the consideration may be subject to the withholding of Israeli tax at the source.

Pursuant to the treaty between the Governments of the United States and Israel with respect to taxes on income, or the U.S.-Israel tax treaty, the sale, exchange or disposition of our ordinary shares by a person who qualifies as a resident of the United States under the treaty and who is entitled to claim the benefits afforded to him by the treaty, will generally not be subject to Israeli capital gains tax. This exemption shall not apply to a person who held, directly or indirectly, shares representing 10% or more of the voting power in our company during any part of the 12 month period preceding the sale, exchange or disposition, subject to certain conditions. A sale, exchange or disposition of our shares by a U.S. resident qualified under the treaty, who held, directly or indirectly, shares representing 10% or more of the voting power in our company at any time during the preceding 12 month period would be subject to Israeli tax, to the extent applicable; however, under the treaty, this U.S. resident would be permitted to claim a credit for these taxes against the U.S. income tax with respect to the sale, exchange or disposition, subject to the limitations in U.S. laws applicable to foreign tax credits.

Israeli Tax on Dividend Income

Israeli tax at a rate of 20% is generally withheld at source from dividends paid to non-residents; in general, no withholding tax is imposed on dividends paid to Israeli companies (subject to the provision of the Israeli Income Tax Ordinance). The applicable rate for dividends paid out of the profits of an Approved Enterprise is 15%. These rates are subject to the provisions of any applicable tax treaty.

Under the US-Israel Tax Treaty, Israeli withholding tax on dividends paid to a US treaty resident may not in general exceed 25%, or 15% in the case of dividends paid out of the profits of an Approved Enterprise. Where the recipient is a US corporation owning 10% or more of the voting stock of the paying corporation and the dividend is not paid from the profits of an Approved Enterprise, the Israeli tax withheld may not exceed 12.5%, subject to certain conditions.

H. DOCUMENTS ON DISPLAY

We are required to file reports and other information with the securities and exchange commission under the Securities Exchange Act of 1934 and the regulations thereunder applicable to foreign private issuers. Reports and other information filed by us with the securities and exchange commission may be inspected and copied at the securities and exchange commission's public reference facilities described below. As a foreign private issuer we are not required to file periodic information as frequently or as promptly as United States companies. Therefore, we publicly announce our year-end results promptly and file information with the securities and exchange commission under the cover of Form 6-K as required. As a foreign private issuer, we are also exempt from the rules under the Exchange Act prescribing the furnishing and content of proxy statements and our officers, directors and principal shareholders are exempt from the reporting and other provisions in Section 16 of the Exchange Act.

You may review a copy of our filings with the SEC, including any exhibits and schedules, at the SEC's public reference facilities in Room 1024, Judiciary Plaza, 450 Fifth Street, N.W., Washington, D.C. 20549 and at the regional offices of the SEC located at the Northwestern Atrium Center, 500 West Madison Street, Suite 1400, Chicago, Illinois 60661. You may also obtain copies of such materials from the Public Reference Section of the SEC, Room 1024, Judiciary Plaza, 450 Fifth Street, N.W., Washington, D.C. 20549, at prescribed rates. You may call the SEC at 1-800-SEC-0330 for further information on the public reference rooms. In addition, such information concerning our company can be inspected and copied at the offices of the National Association of Securities Dealers, Inc., 9513 Key West Avenue, Rockville, Maryland 20850 and at the offices of the Israel Securities Authority at 22 Kanfei Nesharim St., Jerusalem, Israel. As a foreign private issuer, all documents which were filed after November 4, 2002 on the SEC's EDGAR system will be available for retrieval on the SEC's website at www.sec.gov. You may read and copy any reports, statements or other information that we file with the SEC at the SEC facilities listed above. These SEC filings are also available to the public from commercial document retrieval services. We also generally make available on our own web site (www.pointer.com) all our interim and year-end financial statements as well as other information.

Any statement in this annual report about any of our contracts or other documents is not necessarily complete. If the contract or document is filed as an exhibit to the registration statement, the contract or document is deemed to modify the description contained in this annual report. We urge you to review the exhibits themselves for a complete description of the contract or document.

I. SUBSIDIARY INFORMATION

Not Applicable

ITEM 11. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

In the course of our normal operations, we are exposed to market risks including fluctuations in foreign currency exchange rates, interest rates and the Israeli CPI.

Foreign exchange risk

The majority of our revenues is generated in or linked to U.S. dollars (Dollars). In addition, a substantial portion of our costs is incurred in Dollars. We believe that the Dollar is the currency of the primary economic environment in which we operate. Thus, the functional and reporting currency of the Company is the Dollar.

For Shagrir whose functional currency has been determined to be its local currency, the new Israeli shekel (NIS) is its functioning and reporting currency. For Pointer Argentina, whose functional currency has been determined to be its local currency, the Argentine peso is its functioning and reporting currency, and for Pointer Mexico, whose functional currency has been determined to be its local currency, the Mexican peso is its functioning and reporting currency. Assets and liabilities are translated at year-end exchange rates and statement of operations items are translated at average exchange rates prevailing during the year. Such translation adjustments are recorded as a separate component, other comprehensive income (loss), in shareholders' equity (deficiency).

As of December 31, 2006, accumulated other comprehensive loss decreased by \$1,236 million compared to December 31, 2005. As of December 31, 2005, accumulated other comprehensive loss increased by \$785,000 compared to December 31, 2004.

Our operating and pricing strategies take into account changes in exchange rates over time. However, there can be no assurance that future fluctuations in the value of foreign currencies will not have an adverse material effect on our business, operating results or financial condition.

Market risk was estimated as the potential change in fair value resulting from a hypothetical 10% change in the year-end Dollar exchange rate.

Our revenues and expenses generated by Shagrir are mostly denominated in NIS and are therefore exposed to exchange rate fluctuations between the NIS and the Dollar. As of December 31, 2006 we had net assets of \$1.8 million and net income of \$1.4 million, denominated in the NIS. Assuming an adverse foreign exchange rate fluctuation, we would experience a change in Dollar revenues and net income. A hypothetical 10% devaluation of the Dollar against the NIS would thus result in approximately \$50,000 net decrease in our earnings.

Our revenues and expenses generated by Pointer Argentina are mostly denominated in Argentinian Pesos and are therefore exposed to exchange rate fluctuations between the Argentinian Peso and the Dollar. As of December 31, 2006 we had net assets of \$4,000 and net expenses of \$139,000, denominated in the Argentinian Peso. Assuming an adverse foreign exchange rate fluctuation, we would experience a change in Dollar revenues and net income. A hypothetical 10% devaluation of the Dollar against the Argentinian Peso would thus result in approximately \$14,000 net decrease in our earnings.

Our revenues and expenses generated by Pointer Recuperación de México are denominated mainly in Mexican Pesos and are therefore exposed to exchange rate fluctuations between the Mexican Peso and the U.S. dollar. As of December 31, 2006 we had net assets of \$22,000 and net expenses of \$1.8 million denominated in the Mexican Peso. Assuming an adverse foreign exchange rate fluctuation, we would experience a change in U.S. dollar revenues and net income. A hypothetical 10% devaluation of the US dollar against the Mexican Peso would thus result in approximately \$178,000 net decrease in our earnings.

Not Applicable

Interest rate risk

Our exposure to market rate risk for changes in interest rates relates primarily to funds borrowed by us from banks and other. In 2006 we have not used interest derivative financial instruments. As of December 31, 2006, we had total loans borrowed bearing variable interest rates of \$ 2.7 million.

The net decrease in our earnings for the next year resulting from an increase of 10% in variable interest rates will be approximately \$14,000 assuming all other variables are constant.

Israeli CPI

Our exposure to market rate risk for changes in CPI relates primarily to loans borrowed by us from banks and other. As of December 31, 2006, we had total loans borrowed linked to CPI of \$ 19 million. The net decrease in our earnings for the next year resulting from an increase of 10% in variable interest rates will be approximately \$19,000 assuming all other variables are constant.

The table below details the balance sheet exposure by currency and interest rates:

U.S. dollars in thousands	interest	Expected Maturity Dates				
		2007	2008	2009	2010	2011 and thereafter
		(In thousands)				
Assets:						
cash - in U.S. dollars	5.0%	5,793				
Cash- In other currency:		58				
Liabilities:

PART II

ITEM 13. DEFAULTS, DIVIDEND ARREARAGES AND DELINQUENCIES

Not applicable.

ITEM 14. MATERIAL MODIFICATIONS TO THE RIGHTS OF SECURITY HOLDERS AND USE OF PROCEEDS

Not applicable.

ITEM 15. CONTROLS AND PROCEDURES

(a) *Disclosure Controls and Procedures.* Our chief executive officer and chief financial officer, after evaluating the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)) as of the end of the period covered by this annual report, have concluded that, as of such date, our disclosure controls and procedures were effective to ensure that the information required in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms, and such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure.

(b) *Management's annual report on internal control over financial reporting.* Not Applicable.

(c) *Attestation report of the registered public accounting firm.* Not Applicable.

(d) *Changes in Internal Controls over Financial Reporting.* There were no changes to our internal control over financial reporting that occurred during the period covered by this annual report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

ITEM 16. [RESERVED]

ITEM 16A. AUDIT COMMITTEE FINANCIAL EXPERT.

Our board of directors has determined that Mr. Ken Lalo is our audit committee financial expert.

ITEM 16B. CODE OF ETHICS.

On June 22, 2003, our company adopted a code of ethics, which applies to all of our employees, officers and directors, including our chief executive officer, our chief financial officer and our principal accountant.

We shall provide any person with a copy of our code upon request.

ITEM 16C. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

Not applicable.

Edgar Filing: Pointer Telocation Ltd - Form 20-F/A

The following table presents fees for professional audit services rendered by our principal auditors for the audit of the Company's consolidated annual financial statements for the years ended December 31, 2006 and 2005.

	<u>2006</u>	<u>2005</u>
	<i>In USD in thousands</i>	
Audit Fees(1)	144	138
Audit-Related Fees(2)	-	75
Tax Fees(3)	17	4
All Other Fees	-	-

- (1) Audit fees consist of fees for professional services rendered for the audit of the Company's consolidated financial statements and review of financial statements and services normally provided by the independent auditor in connection with statutory and regulatory filings or engagements.
- (2) Audit-related fees are fees principally for services not provided in Audit Fees, such as services provided in connection with the preparation of our registration statement on Forms F-3, filed with the SEC in June 2005.
- (3) Tax services fees consist of compliance fees for the preparation of original and amended tax returns, claims for refunds and tax payments.

Pre-Approval Policies and Procedures

Our Audit committee has approved all audit and non-audit services rendered by our independent public accountants, Kost Forer Gabbay&Kasierer, a member firm of Ernst & Young Global. Pre-approval of an audit or non-audit service may be given as general pre-approval, as part of the audit committee's approval of the scope of the engagement of our independent auditors, or on an individual basis. Any proposed services exceeding general pre-approved levels also require specific pre-approval by our audit committee. The Audit Committee has not approved prohibited non-audit functions defined in section 201 of the Sarbanes-Oxley Act or the rules of the Securities and Exchange Committee, and the Audit Committee considers whether proposed services are compatible with the independence of the public accountants. All the services provided by our independent accountants in 2006 were approved by our Audit Committee.

ITEM 16D. EXEMPTIONS FROM THE LISTING STANDARDS FOR AUDIT COMMITTEES.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders of

POINTER TELOCATION LTD.

We have audited the accompanying consolidated balance sheets of Pointer Telocation Ltd. (the Company) and its subsidiaries as of December 31, 2006 and 2005 and the related consolidated statements of operations, changes in shareholders' equity (deficiency) and cash flows for each of the three years in the period ended December 31, 2006. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. We did not audit the financial statements of two subsidiaries, whose financial statements reflect total assets constituting 2.6% and 3.7% as of December 31, 2006 and 2005, respectively, and total revenues constituting 5.2%, 5.7% and 16.6% of the related consolidated totals for the years ended December 31, 2006, 2005 and 2004, respectively. The financial statements of these companies were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to amounts included for those subsidiaries, is based solely on the reports of the other auditors.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits and the reports of the other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the reports of the other auditors, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Company and its subsidiaries as of December 31, 2006 and 2005 and the consolidated results of their operations and their cash flows for each of the three years in the period ended December 31, 2006, in conformity with U.S. generally accepted accounting principles.

As discussed in note 2p to the consolidated financial statements, in 2006 the Company adopted statement of Financial Accounting Standard Board No. 123 (revised 2004) share based payment .

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders of
Pointer Localización y Asistencia S.A.
(Previously named Tracsat S.A.)

We have audited the accompanying balance sheets of Pointer Localización y Asistencia S.A. (Previously named Tracsat S.A.) as of December 31, 2006 and 2005, and the related statements of operations, changes in shareholders' deficiency and cash flows for each of the three years in the period ended December 31, 2006. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, based on our audit, the financial statements referred to above present fairly, in all material respects, the financial position of Pointer Localización y Asistencia S.A. (Previously named Tracsat S.A.) as of December 31, 2006 and 2005 and the results of its operations and cash flows for each of the three years in the period ended December 31, 2006, in accordance with generally accepted accounting principles in the United States.

GRANT THORNTON ARGENTINA S.C.

January 30, 2007

Report of Independent Registered Public Accounting Firm

To the Shareholders of
Pointer Recuperación de México, S. A de C. V.

We have audited the accompanying balance sheets of Pointer Recuperación de México, S.A de C.V. as of December 31, 2006 and 2005, and the related statements of operations, changes in shareholders' equity and cash flows, for the years ended December 31, 2006 and 2005, and for the period from June 17, to December 31, 2004. These financial statements are the responsibility of the Company's management.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amount and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Pointer Recuperación de México, S. A. de C. V. as of December 31, 2006 and 2005, and the related statements of operations, changes in shareholders' equity and cash flows, for the years ended December 31, 2006 and 2005, and for the period from June 17, to December 31, 2004, in conformity with accounting principles generally accepted in the United States of America.

POINTER TELOCATION LTD. AND ITS SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except share and per share data)

NOTE 1: GENERAL

- a. Pointer Telocation Ltd., ("the Company") was incorporated in Israel and commenced operations in July 1991. The Company provides a range of services to insurance companies and automobile owners, including road-side assistance, vehicle towing, stolen vehicle retrieval, fleet management and other value added services. The Company provides services, for the most part, in Israel, Argentina and Mexico, through its local subsidiaries. Independent operators provide similar services mainly in Russia and Venezuela utilizing the Company's technology and operational know-how. The Company's shares are traded on on the NASDAQ Capital Market and the Tel-Aviv Stock Exchange.
- b. On June 29, 2004, the Company announced the closing of a definitive agreement with the shareholders ("the Sellers") of Shagrir Motor Vehicle Systems Ltd. ("Shagrir Motor Vehicle Systems") pursuant to which it purchased all of the outstanding and issued share capital of Shagrir Motor Vehicle Systems not already held by the Company (which, together with the Company's 14% prior holdings in Shagrir Motor Vehicle Systems, constitutes 100% of the issued share capital of Shagrir Motor Vehicle Systems).

The Sellers, who provided loans to Shagrir Motor Vehicle Systems in the past, assigned these loans to the Company. The Company also undertook to indemnify the Sellers who provided Shagrir Motor Vehicle Systems with guarantees in respect of Shagrir Motor Vehicle System's loans from banks in the event the banks will exercise such guarantees. In order to secure such indemnification undertaking, the Company issued to the Sellers options to purchase, at no consideration, 32,889 of the Company's Ordinary shares, in the event the Company does not meet its indemnification obligations. The consideration comprises the following:

Issuance of 429,154 Ordinary shares	\$ 7,425
Issuance of 247,781 warrants	3,221
Issuance of 75,896 employee stock options	607
Direct transaction costs	33
	<hr/>
	\$ 11,286
	<hr/>

The warrants were exercisable at an exercise price of \$ 4.4 per share and were exercisable during the period which ended by the earlier of (i) April 6, 2006; or (ii) a merger or consolidation of the Company into any other corporation or corporations where the Company is not the surviving entity, or the sale of substantially all of the assets of the Company, in which the shareholders of the Company hold less than 33% of the outstanding voting power of the successor or surviving corporation immediately following such consolidation, merger, sale of assets or reorganization. As of December 31, 2006, non of the options are outstanding.

The acquisition was accounted for using the purchase method of accounting as determined in Statement of Financial Accounting Standards (SAFS) No. 141, Business Combinations (SFAS No. 141) and, accordingly, the purchase price was allocated to the assets acquired and liabilities assumed based on their estimated fair values at the date of acquisition.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except share and per share data)

NOTE 1: GENERAL (Cont.)

Based upon a valuation of tangible and intangible assets acquired and liabilities assumed, the Company allocated the total cost of the acquisition, as follows:

Edgar Filing: Pointer Telocation Ltd - Form 20-F/A

Current assets	\$ 2,817
Long-term accounts receivables	224
Inventories	1,105
Property and equipment	1,117
Customer list (five years useful life)	2,646
Brand name (two years useful life)	828
Goodwill	12,638
Current liabilities	(7,923)
Long-term loan	(1,890)
Accrued severance pay, net	(276)
	<hr/>
	\$ 11,286
	<hr/>

For estimated amortization expenses related to intangible assets, see Note 6c.

In accordance with SFAS No. 142, Goodwill and Other Intangible Asset (SFAS No. 142), goodwill will not be amortized. In lieu of amortization, the Company is required to perform an annual impairment review. If the Company will determine, through the impairment review process, that goodwill has been impaired, it will record the impairment charge in its statement of operations. The Company will also assess the impairment of goodwill whenever events or changes in circumstances indicate that the carrying value may not be recoverable. As of December 31, 2006, the Company has determined that no impairment with respect to goodwill exists.

In accordance with Accounting Principles Board Opinion (APB) No. 18, The Equity Method of Accounting for Investments in Common Stock the Company retroactively adopted the equity method of accounting for its initial investment in Shagrir Motor Vehicle Systems (14%), on the acquisition of its controlling interest in Shagrir Motor Vehicle Systems. The effect of Shagrir Motor Vehicle Systems prior period losses has been accounted for as a reduction in shareholders equity in the balance sheet as of January 1, 2002.

- c. On February 28, 2005, the Company announced the closing of the transaction for the purchase of the activities, the assets and liabilities of Shagrir Towing Services Ltd. and ADACH (Shagrir transaction) by the Company s subsidiary Shagrir Motor Vehicle Systems, in consideration for approximately NIS 200 million. Shagrir Towing Services Ltd. was engaged in the field of road side assistance and towing services in Israel.

The consideration comprised of the following:

Cash	\$ 34,828
Fair value of the loan from Shagrir Towing Services Ltd.	8,006
Warrants to purchase the Company's shares (see Note 12c(3))	644
Transactions costs	331
	<hr/>
Total consideration - purchase price	\$ 43,809
	<hr/>

F - 10

POINTER TELOCATION LTD. AND ITS SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except share and per share data)

NOTE 1: GENERAL (Cont.)

Edgar Filing: Pointer Telocation Ltd - Form 20-F/A

The acquisition was accounted for using the purchase method of accounting as determined in SFAS No. 141 and accordingly, the purchase price was allocated to the assets acquired and liabilities assumed, based on their estimated fair value at the date of acquisition.

Based upon a valuation of assets acquired and liabilities assumed, Shagrir Motor Vehicle Systems allocated the total cost of the acquisition, as follows:

Net working capital	\$ (4,076)
Property and equipment and other assets	8,078
Long-term liabilities	(2,323)
Customer list	8,558
Brand name	1,920
Goodwill	31,652

Total purchase price	\$ 43,809

For estimated amortization expenses related to intangible assets, see Note 6c.

Shagrir Motor Vehicle Systems funded the Shagrir transaction through a credit line of NIS 100 million, made available by Bank Hapoalim B.M., a loan of NIS 40 million provided by Shagrir Towing Services (see Note 10d(4)), a loan of approximately NIS 45 million provided by a group of investors led by Gandyr Investments Ltd. (Gandyr group) (see Note 10d(5)) and Egged Holdings Ltd. (Egged) (see Note (10d(1) and 10d(2))), a loan of NIS 10 million provided by the Company and Gandyr group and Egged (see Note 10d(2) and 10d(3)) and NIS 5 million invested by the Company in equity, which was financed by the Company's issuance of shares and warrants (see Note 12c(3)).

On November 30, 2005, Gandyr group exercised its options to convert the loan, of approximately NIS 29.1 million, into 43.44% of the shares of Shagrir Motor Vehicle Systems. As a result, the Company recorded in 2005 a gain from the decrease in holdings of Shagrir Motor Vehicle Systems of \$ 359.

During 2006, a convertible loan was repaid (see Note 10d(1)) and other loans were modified (see Note 10d(2)).

- d. The unaudited pro forma information below assumes that the acquisition of Shagrir Motor Vehicle Systems and Shagrir transaction had been consummated on January 1, 2004 and 2005 and includes the effect of amortization of intangible assets from those dates. This data is presented for information purposes only and is not necessarily indicative of the results that would have been achieved had the acquisition taken place on those dates. The pro forma information is as follows:

F - 11

POINTER TELOCATION LTD. AND ITS SUBSIDIARIES

U.S. dollars in thousands (except share and per share data)

NOTE 1: GENERAL (Cont.)

Year ended December 31,	
2005	2004
Unaudited	

	<u>Year ended December 31,</u>	
Net revenues	\$ 40,946	\$ 41,174
Net loss	\$ (2,462)	\$ (2,309)
Basic net loss per share	\$ (1.05)	\$ (1.06)

- e. During 2001, the Company purchased 92.5% of Pointer Localization Y Asistencia SA s (formerly: Tracsat S.A.) (Pointer Argentina) share capital. Pointer Argentina is the operator of the Company s systems and products that provides stolen vehicle recovery services in Buenos Aires, Argentina.

In 2003 and 2004, Pointer Argentina issued 280 and 560 shares to two employees, respectively. As a result, the Company s holdings in Pointer Argentina were reduced to 86.45%. In 2006 the Company repurchase 840 shares from Pointer Argentina s employees. As a result, the Company holds in Pointer Argentina 93%.

- f. On June 17, 2004, the Company incorporated a local Mexican operator and service provider, Pointer Recuperacion de Mexico S.A. de C.V. (Pointer Mexico), jointly held by the Company and its Mexican local partners, 96.5% and 3.5% respectively.

On December 2004 and January 25, 2005, the Company sold to its local partners a total of 28.5% of its holdings in Pointer Mexico in consideration of its par value. In February 2007 2,895 shares were transferred to the Company from its local partners in consideration of their par value. Total held by the Company and its Mexican local partners 74% and 26% respectively. Pointer Mexico is providing location, tracking and recovery of stolen vehicles services to its customers in Mexico.

- g. The Company relies on a single-source supplier for the manufacture of its end unit transceiver ((i) RF modem with inputs and outputs (ii) CMU cellular units), that is installed within a vehicle or may be installed at any remote object. The Company does not have manufacturing facilities for its end unit devices. Most of the components of its systems are manufactured for the Company by independent manufacturers outside of Israel and are assembled by a turn-key subcontractor located in Israel
- h. On May 26, 2006, the Company entered into a settlement agreement, with respect to past claim against a Latin American customer, pursuant to which the Company received a net amount of approximately \$ 1.3 thousand.

F - 12

POINTER TELOCATION LTD. AND ITS SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except share and per share data)

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (US GAAP).

- a. Use of estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Edgar Filing: Pointer Telocation Ltd - Form 20-F/A

b. Financial statements in U.S. dollars:

The majority of the Company's revenues is generated in or linked to U.S. dollars (dollar). In addition, a substantial portion of the Company's costs is incurred in dollars. The Company's management believes that the dollar is the currency of the primary economic environment in which the Company operates. Thus, the functional and reporting currency of the Company is the dollar.

For Pointer Argentina, whose functional currency has been determined to be its local currency, the Argentine peso, for Pointer Mexico, whose functional currency has been determined to be its local currency, the Mexican peso and for Shagrir Motor Vehicle Systems whose functional currency has been determined to be its local currency, the new Israeli shekel (NIS), assets and liabilities are translated at year-end exchange rates and statement of operations items are translated at average exchange rates prevailing during the year. Such translation adjustments are recorded as a separate component, other comprehensive income (loss), in shareholders' equity (deficiency).

c. Principles of consolidation:

The consolidated financial statements include the accounts of the Company and its subsidiaries. Intercompany transactions and balances including profits from intercompany sales not yet realized outside the Company, have been eliminated upon consolidation.

d. Cash equivalents:

Cash equivalents are short-term highly liquid investments that are readily convertible to cash with maturities of three months or less at the date acquired.

f. Inventories:

Inventories are stated at the lower of cost or market value. Cost is determined using the moving average method. Inventory consists of raw materials and finished products. Inventory write-offs are provided to cover risks arising from slow-moving items, technological obsolescence, excess inventories, and for market prices lower than cost. In 2006, 2005 and 2004, the Company and its subsidiaries wrote off approximately \$ 127, \$ 199 and \$ 479, respectively. The write-offs are included in cost of revenues.

F - 13

POINTER TELOCATION LTD. AND ITS SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except share and per share data)

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES (Cont.)

g. Property and equipment:

Property and equipment are stated at cost, net of accumulated depreciation. Depreciation is calculated by the straight-line method over the estimated useful lives of the assets at the following annual rates:

	%
Installed products	20-33
Computers and electronic equipment	10 - 33 (mainly 33)
Office furniture and equipment	6 - 15
Motor vehicles	15 - 20 (mainly 20)
Network installation	10 - 33
Buildings	6.67
Leasehold improvements	Over the term of the lease

h. Goodwill and other intangible assets:

Goodwill reflects the excess of the purchase price of the acquired subsidiary or activities over the fair value of net assets acquired. Pursuant to SFAS 142, Goodwill and Other Intangible Assets, goodwill is not amortized but rather tested for impairment at least annually. As of December 31, 2006, the Company has determined that no impairment with respect to goodwill exists. The amount of goodwill included in the computation of the gain from the decrease in holdings of Shagrir Motor Vehicle Systems in 2005 (see Note 1c) is \$ 5,279. During 2006, the Company reduced the goodwill at the amount of \$ 1,489 due to the realization of tax loss carryforward, that at the date of acquisition were not more-likely-than-not to be realized.

Intangible assets consist of the brand name, customer list and acquired patents. Intangible assets are amortized over their useful life using a method of amortization that reflects the pattern in which the economic benefits of the intangible assets are consumed or otherwise used up. Intangible assets are stated at amortized cost.

The brand names are amortized over a two-year period and an eight year period. The customer lists are amortized over a five-year and an eight year periods. Patents are amortized over an eight-year period.

i. Impairment of long-lived assets:

The Company's long-lived assets other than goodwill are reviewed for impairment in accordance with SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets (SFAS No. 144) whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of the assets to the future undiscounted cash flows expected to be generated by the assets. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell.

F - 14

POINTER TELOCATION LTD. AND ITS SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except share and per share data)

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES (Cont.)

During the year ended December 31, 2006, an impairment loss of \$ 372 has been recognized (see Note 5c).

j. Provision for warranty:

The Company and its subsidiaries generally grant a one-year to three-year warranty for their products. The Company and its subsidiaries estimate the costs that may be incurred under its basic limited warranty and records a liability in the amount of such costs at the time which product revenue is recognized. Factors that affect the warranty liability include the number of installed units, historical and anticipated rates of warranty claims and cost per claim. The Company and its subsidiaries periodically assess the adequacy of its recorded warranty liabilities and adjust the amounts as necessary. Changes in the Company's and its subsidiaries' product liabilities during 2006 are as follows:

Balance, beginning of the year	\$	253
Warranties issued during the year		303
Settlements made during the year		(143)
Expirations		(87)
Foreign currency translation adjustment		12

Balance, end of year	\$ 338
----------------------	--------

k. Revenue recognition:

The Company and its subsidiaries generate revenues mainly from the provision of services, subscriber fees and sales of systems and products, mainly in respect of road-side assistance services, automobile repair and towing services, stolen vehicle recovery and other value added services. To a lesser extent, revenues are also derived from technical support services. The Company and its subsidiaries sell the systems primarily through their direct sales force and indirectly through resellers. Sales consummated by the Company's sales forces and sales to resellers are considered sales to end-users.

Revenues from the sale of systems and products are recognized in accordance with Staff Accounting Bulletin (SAB) No. 104, Revenue Recognition (SAB No. 104), when delivery has occurred, persuasive evidence of an agreement exists, the vendor's fee is fixed or determinable, no further obligation exists and collectibility is probable.

Service revenues including subscriber fees are recognized as services are performed, over the term of the agreement.

In accordance with Issue No. 00-21, Revenue Arrangements with Multiple Deliverables (EITF 00-21), revenue from certain arrangements may include multiple elements within a single contract. The Company's accounting policy complies with the requirements set forth in EITF 00-21, relating to the separation of multiple deliverables into individual accounting units with determinable fair values. The Company considers the sale of products and subscriber fees to be separate units of accounting.

F - 15

POINTER TELOCATION LTD. AND ITS SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except share and per share data)

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES (Cont.)

Revenues from Stolen Vehicle Recovery services are recognized upon success, when the related stolen vehicle is recovered, and such recovery is approved by the customer or ratably over the term of the agreement.

Revenues generated from technical support services, installation and de-installation are recognized when such services are rendered.

Generally, the Company does not grant rights of return. The Company follows SFAS No. 48, Revenue Recognition When Right of Return Exists. Based on the Company's experience, no provision for returns was recorded.

l. Research and development costs:

Research and development costs, net of grants received, are charged to expenses as incurred.

Grants from the European community are recognized at the time the Company is entitled to such grants, on the basis of the related costs incurred, and included as a deduction from research and development costs.

m. Advertising expenses:

Advertising expenses are charged to the statement of operations as incurred. Advertising expenses for the years ended December 31, 2006, 2005 and 2004 were \$ 344, \$ 408 and \$ 177, respectively.

n. Deferred income taxes:

The Company accounts for income taxes in accordance with SFAS No. 109, *Accounting for Income Taxes* (SFAS No. 109). SFAS No. 109 prescribes the use of the liability method whereby deferred tax assets and liability account balances are determined based on differences between financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. The Company and its subsidiaries provide a valuation allowance, if necessary, to reduce deferred tax assets to their estimated realizable value, if it is more likely than not that a portion or all of the deferred tax assets will not be realized.

- o. Basic and diluted net earnings (loss) per share:

Basic and diluted net earnings (loss) per share are computed based on the weighted average number of Ordinary shares outstanding during the year. Diluted net earnings (loss) per share further include the dilutive effect of stock options outstanding during the year, in accordance with SFAS No. 128, *Earnings per Share* (SFAS No. 128).

F - 16

POINTER TELOCATION LTD. AND ITS SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except share and per share data)

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES (Cont.)

- p. Accounting for stock-based compensation:

On January 1, 2006, the Company adopted Statement of Financial Accounting Standards No. 123 (revised 2004), *Share-Based Payment* (SFAS 123(R)) which requires the measurement and recognition of compensation expense based on estimated fair values for all share-based payment awards made to employees and directors. SFAS 123(R) supersedes Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees* (APB 25), under which the Company previously accounted for its share based awards granted to employees and directors, for periods beginning in fiscal 2006. In March 2005, the Securities and Exchange Commission issued Staff Accounting Bulletin No. 107 (SAB 107) relating to SFAS 123(R). The Company has applied the provisions of SAB 107 in its adoption of SFAS 123(R).

SFAS 123(R) requires companies to estimate the fair value of equity-based payment awards on the date of grant using an option-pricing model. The value of the portion of the award that is ultimately expected to vest is recognized as an expense over the requisite service periods in the Company's consolidated income statement. Prior to the adoption of SFAS 123(R), the Company accounted for equity-based awards to employees and directors using the intrinsic value method in accordance with APB 25 as allowed under Statement of Financial Accounting Standards No. 123, *Accounting for Stock-Based Compensation* (SFAS 123).

The Company adopted SFAS 123(R) using the modified prospective transition method, which requires the application of the accounting standard starting from January 1, 2006, the first day of the Company's fiscal year 2006. Under that transition method, compensation cost recognized in 2006, includes: (a) compensation cost for all share-based payments granted prior to, but not yet vested as of January 1, 2006, based on the grant date fair value estimated in accordance with the original provisions of Statement 123, and (b) compensation cost for all share-based payments granted subsequent to January 1, 2006, based on the grant-date fair value estimated in accordance with the provisions of Statement 123(R). Results for prior periods have not been restated.

The Company recognizes compensation expenses for the value of its awards, which have graded vesting, based on the accelerated attribution method over the vesting period, net of estimated forfeitures. Estimated forfeitures are based on actual historical pre-vesting forfeitures.

As a result of adopting SFAS 123(R) on January 1, 2006, the Company's income before income taxes and net income for the year ended December 31, 2006, is approximately \$ 250 lower than if it had continued to account for stock-based compensation under APB 25. Basic and diluted net earnings per share for the year ended December 31, 2006, are \$ 0.08 lower than if the Company had continued to account for share-based compensation under APB 25.

Edgar Filing: Pointer Telocation Ltd - Form 20-F/A

Prior to January 1, 2006, the Company applied the intrinsic value method of accounting for stock options as prescribed by APB 25, whereby compensation expense is equal to the excess, if any, of the quoted market price of the stock over the exercise price at the grant date of the award.

F - 17

POINTER TELOCATION LTD. AND ITS SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except share and per share data)

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES (Cont.)

During the years ended December 31, 2006, 2005 and 2004, the Company recognized stock-based compensation expenses related to employee stock options in the amounts of \$ 251, \$ 126 and \$ 465, respectively.

The Company estimates the fair value of stock options granted using the Black-Scholes-Merton option-pricing model. The option-pricing model requires a number of assumptions, of which the most significant are expected stock price volatility and the expected option term. Expected volatility was calculated based upon actual historical stock price movements.

The expected option term represents the period that the Company's stock options are expected to be outstanding and was determined based on the simplified method permitted by SAB 107 as the average of the vesting period and the contractual term. The risk-free interest rate is based on the yield from U.S. Treasury zero-coupon bonds with an equivalent term. The Company has historically not paid dividends and has no foreseeable plans to pay dividends.

1. Data related to options to purchase the Company shares:

The fair value of the Company's stock options granted to employees and directors for the years ended December 31, 2006, 2005 and 2004 was estimated using the following weighted average assumptions:

	Year ended December 31,		
	2006	2005	2004
Risk free interest	4.3%	4.3%	3.5%
Dividend yields	0%	0%	0%
Volatility	52%	49.3%	102%
Expected term (in years)	2.32	3.95	5

F - 18

POINTER TELOCATION LTD. AND ITS SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except share and per share data)

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES (Cont.)

A summary of employee option activity under the Company's Stock Option Plans as of December 31, 2006 and changes during the year ended December 31, 2006 are as follows:

	Number of options	Weighted-average exercise price	Weighted- average remaining contractual term (in years)	Aggregate intrinsic value (in thousands)
Outstanding at January 1, 2006	263,753	\$ 16.3		
Granted	12,000	\$ 7.6		
Exercised	(103,522)	\$ 7.8		
Forfeited	(6,389)	\$ 179.3		
Outstanding at December 31, 2006	165,842	\$ 14.6	2.84	\$ 159
Exercisable at December 31, 2006	81,092	\$ 19.9	1.91	\$ 25
Vested and expected to vest at December 31, 2006	132,069	\$ 15.8	2.56	\$ 118

The weighted-average grant-date fair value of options granted during the years ended December 31, 2006, 2005 and 2004 was \$ 2.6, \$ 4.1 and \$ 11, respectively. The aggregate intrinsic value in the table above represents the total intrinsic value (the difference between the Company's closing stock price on the last trading day of the fourth quarter of fiscal 2006 and the exercise price, multiplied by the number of in-the-money options) that would have been received by the option holders had all option holders exercised their options on December 31, 2006. This amount changes based on the fair market value of the Company's stock. Total intrinsic value of options exercised for the year ended December 31, 2006 was approximately \$ 348. As of December 31, 2006, there was approximately \$ 113 of total unrecognized compensation costs related to non-vested share-based compensation arrangements granted under the Company's stock option plans.

That cost is expected to be recognized over a weighted-average period of 1.85 years. Total grant-date fair value of options that vested during the year ended December 31, 2006 was approximately \$ 98.

2. Data related to options to purchase Shagrir Motor Vehicle Systems shares:

As of December 31, 2006, 3,383 options to purchase Shagrir Motor Vehicle Systems shares are outstanding (non are exercisable). Weighted average exercise price of these outstanding options is NIS 783.

The weighted average fair values of options granted during the years ended December 31, 2006 and 2005 were NIS 921 and NIS 197, respectively. No options were granted during 2004.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except share and per share data)

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES (Cont.)

Those options vest primarily over four years. The fair value for these options was estimated using the Black-Scholes option-pricing model with the following weighted average assumptions for 2006 and 2005:

	<u>2006</u>	<u>2005</u>
Risk free interest	5.6%	4.3%
Dividend yields	0%	0%
Volatility	34%	32.5%
Expected term (in years)	4.13	5.1

As of December 31, 2006, there was approximately \$ 478 of total unrecognized compensation costs related to non-vested share-base compensation arrangements granted under Shagrir Motor Vehicle Systems stock option plans.

3. The following table illustrates the effect on the net income (loss) and net earnings (loss) per share, assuming that the Company and its subsidiaries had applied the fair value recognition provision of SFAS 123 on its stock-based employee compensation:

	<u>Year ended December 31,</u>	
	<u>2005</u>	<u>2004</u>
Net loss as reported	\$ (2,727)	\$ (3,764)
Add: Amortization of deferred stock-based compensation in accordance with APB No. 25	126	465
Deduct: Amortization of deferred stock-based compensation determined under fair value method for all awards	(250)	(657)
	<u> </u>	<u> </u>
Pro forma net loss	\$ (2,851)	\$ (3,956)
	<u> </u>	<u> </u>
Basic and diluted net loss per share as reported	\$ (1.17)	\$ (2.58)
	<u> </u>	<u> </u>
Pro forma basic and diluted net loss per share	\$ (1.21)	\$ (2.71)
	<u> </u>	<u> </u>

POINTER TELOCATION LTD. AND ITS SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except share and per share data)

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES (Cont.)

- q. Severance pay:

The liability of the Company and its subsidiary in Israel for severance pay is calculated pursuant to Israel's Severance Pay Law based on the most recent salary of the employees multiplied by the number of years of employment as of balance sheet date. Employees are entitled to one month's salary for each year of employment, or a portion thereof. The liability for Company and its subsidiary in Israel is fully provided by monthly deposits with insurance policies and by an accrual. The value of these policies is recorded as an asset in the Company's balance sheet.

Edgar Filing: Pointer Telocation Ltd - Form 20-F/A

The deposited funds include profits accumulated up to the balance sheet date. The deposited funds may be withdrawn only upon the fulfillment of the obligation pursuant to Israel's Severance Pay Law or labor agreements. The value of the deposited funds is based on the cash surrendered value of these policies, and includes immaterial profits.

Severance pay expenses for the years ended December 31, 2006, 2005 and 2004 were \$ 428, \$ 635 and \$ 172, respectively.

r. Concentrations of credit risk:

Financial instruments that potentially subject the Company and its subsidiaries to concentrations of credit risk consist principally of cash and cash equivalents, and trade receivables.

Trade receivables include amounts billed to clients located mainly in Israel and South America. Management periodically evaluates the collectibility of these trade receivables to reflect the amounts estimated to be collectible. An allowance is determined in respect of specific debts whose collection, in management's opinion, is doubtful. As for major customers, see Note 16c.

The Company and its subsidiaries have no off-balance-sheet concentration of credit risk such as foreign exchange contracts, option contracts or other foreign hedging arrangements.

s. Fair value of financial instruments:

The following methods and assumptions were used by the Company and its subsidiaries in estimating fair value disclosures for financial instruments:

The carrying amounts reported in the balance sheet for cash and cash equivalents, trade receivables, other accounts receivable, short-term bank credit, trade payables and other accounts payable approximate their fair values due to the short-term maturities of such instruments.

U.S. dollars in thousands (except share and per share data)

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES (Cont.)

t. Reclassifications:

Certain financial statement data for prior years have been reclassified to conform to current year financial statement presentation. The reclassification did not impact net income, working capital or cash flows from operations as previously reported.

u. Impact of recently issued Accounting Standards:

In July 2006, the FASB issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes an Interpretation of FASB Statement No. 109 (FIN 48). FIN 48 clarifies the accounting for income taxes by prescribing the minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. FIN 48 utilizes a two-step approach for evaluating tax positions. Recognition (step one) occurs when an enterprise concludes that a tax position, based solely on its technical merits, is more-likely-than-not to be sustained upon examination. Measurement (step two) is only addressed if step one has been satisfied (i.e., the position is more-likely-than-not to be sustained). Under step two, the tax benefit is measured as the largest amount of benefit, determined on a cumulative probability basis that is more-likely-than-not to be realized upon ultimate settlement.

FIN 48 applies to all tax positions related to income taxes subject to the Financial Accounting Standard Board Statement No. 109, Accounting for Income Taxes (FAS 109). This includes tax positions considered to be routine as well as those with a high degree

of uncertainty.

FIN 48 has expanded disclosure requirements, which include a tabular roll forward of the beginning and ending aggregate unrecognized tax benefits as well as specific detail related to tax uncertainties for which it is reasonably possible the amount of unrecognized tax benefit will significantly increase or decrease within twelve months. These disclosures are required at each annual reporting period unless a significant change occurs in an interim period.

FIN 48 is effective for fiscal years beginning after December 15, 2006. The cumulative effect of applying FIN 48 will be reported as an adjustment to the opening balance of retained earnings.

The Company is currently evaluating the effect of the adoption of FIN 48 on its financial statements, and expects that the adoption of FIN 48 will not have a significant effect on its financial statements.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements (SFAS No. 157). This statement provides a single definition of fair value, a framework for measuring fair value, and expanded disclosures concerning fair value. Previously, different definitions of fair value were contained in various accounting pronouncements creating inconsistencies in measurement and disclosures. SFAS No. 157 applies under those previously issued pronouncements that prescribe fair value as the relevant measure of value, except SFAS No. 123(R) and related interpretations. The statements does not apply to accounting standard that require or permit measurement similar to fair value but are not intended to measure fair value. This pronouncement is effective for fiscal years beginning after November 15, 2007. The Company is currently evaluating the impact of adopting SFAS 157.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities" ("SFAS No. 159"), which permits companies to choose to measure certain financial instruments and other items at fair value that are not currently required to be measured at fair value. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. The Company will adopt SFAS No. 159 no later than January 1, 2008. The Company has not yet determined the effect that the adoption of SFAS No. 159 will have on its consolidated financial statements.

NOTE 9: LONG-TERM LOANS FROM BANKS (Cont.)

Under the credit facility from Bank Hapoalim B.M., Shagrir Motor Vehicle Systems is required to meet financial covenants, as described in the commitment letter, commencing December 31, 2005.

The financial covenants are:

1. The ratio of the debt to the bank to the annual EBITDA will not exceed 5.5.
2. The ratio of the annual EBITDA to the current maturities (the principal loan plus interest) of long-term loans from the bank, will not be less than 1, at any time.
3. The shareholder's equity, including loans from shareholders, will not be less than NIS 25 million, at any time.
4. The Company will not decide on any distribution of dividends from Shagrir Motor Vehicle Systems without a written pre-approval from the bank.

As of December 31, 2006, Shagrir Motor Vehicle Systems meets the financial covenants.

d. 1.

Edgar Filing: Pointer Telocation Ltd - Form 20-F/A

In May 2006, Shagrir Motor Vehicle Systems exercised its right to an early repayment of the convertible loan of \$ 2,065 from Egged and fully repaid the loan.

2. On October 1, 2006, Shagrir Motor Vehicle Systems entered into an agreement to replace two long-term loans from Egged bearing an annual interest rate between 4% to 7.5%, in an amount aggregating to approximately NIS 9.2 million, into two long-term loans to mature in two years. The new loans bear an annual interest rate between 4% to 6.5% and are linked to the Israeli CPI. The option granted to Egged to purchase Shagrir Motor Vehicle Systems' s Ordinary shares or the Company' s Ordinary shares was cancelled.

The outstanding loan balance as of December 31, 2006 is \$ 1,505.

The replacement of the loans was accounted for as an extinguishment in accordance with EITF Issue No. 96-19, "Debtor' s Accounting for Modification or Exchange of Debt Instruments". The extinguishment resulted in an immaterial gain.

NOTE 10: LONG-TERM LOANS FROM SHAREHOLDERS AND OTHERS (Cont.)

3. Loans in the amount of \$ 1,091 from Gandyr group are linked to the Israeli CPI and bear an annual interest rate of 6.5%. The loans shall be repaid in nine quarterly installments, commencing six months from February 28, 2005, in accordance with the Company's financial ability. Until December 31, 2006, no amounts were repaid in respect to these loans.
4. A loan of \$ 8,520 is to be repaid by Shagrir Motor Vehicle Systems to Shagrir Towing Services Ltd. The loan will be repaid in 20 quarterly payments commencing one year from February 28, 2005, linked to the Israeli CPI and bears an annual interest rate of 6.5%.

In addition, the Company granted Shagrir Towing Services Ltd. and ADACH jointly a warrant to purchase up to 250,000 of its Ordinary shares at a price per share of \$ 18, for a period of 24 months, exercisable until February 28, 2007. On February 15, 2007, the Company' s board extended the exercise period of the warrants until June 30, 2007, at an exercise price of \$19 per share, effective from March 1, 2007.

5. A loan of NIS 29.1 million of the Shagrir transaction was funded by Gandyr group.

On November 30, 2005, Gandyr group exercised its options to purchase 38,479 shares of Shagrir Motor Vehicle Systems (43.44%) in consideration of NIS 29.1 million. Correspondingly, the loans were repaid. The remaining balance as of December 31, 2006, in the amount of \$ 280 representing the interest accumulated as of the conversion date that has not yet been paid. The amount bears no interest and is payable upon demand.

NOTE 11: COMMITMENTS AND CONTINGENT LIABILITIES

a. Charges:

1. As collateral for its liabilities, the Company has recorded floating charges on all of its assets, including the intellectual property and equipment, in favor of banks.
2. Shagrir Motor Vehicle Systems recorded a first priority charge on all of its assets in favor of banks, and Shagrir Towing Services has a second priority fixed charge over Shagrir Motor Vehicle Systems' rights to proceeds from several of its customers.

b. Collateral:

1. To secure Shagrir Motor Vehicle Systems obligations for providing services to several of its customers, Shagrir Motor Vehicle Systems provided a bank guarantee in the amount of about \$ 123, in force until December 2006 August 2010.
2. The Company obtained bank guarantees in the amount of \$ 22 in favor of its lessor.
3. The Company obtained bank guarantees in the amount of \$ 100 in favor of a supplier.

F - 29

POINTER TELOCATION LTD. AND ITS SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except share and per share data)

NOTE 11: COMMITMENTS AND CONTINGENT LIABILITIES (Cont.)

4. The Company obtained a bank guarantee in the amount of \$ 300, pursuant to the litigation as described in e1 below.

c. Royalties:

The Company has undertaken to pay royalties to the BIRD Foundation (BIRD), at the rate of 5% on sales proceeds of products developed with the participation of BIRD up to the amount received, linked to the U.S. dollar. The contingent obligation as of December 31, 2006 is \$ 2,142. No royalties were accrued or paid during 2006 ,2005 and 2004.

d. Lease commitments:

The Company and its subsidiaries have leased offices, motor vehicles and locations for periods through 2010. Minimum annual rental payments under non-cancelable operating leases are as follows:

2007	\$ 834
2008	452
2009	116
2010	22
	<u>1,424</u>
	<u>\$ 1,424</u>

Rent expenses for the years ended December 31, 2006, 2005 and 2004, were \$ 1,328, \$ 1,438 and \$ 690, respectively.

e. Litigation:

1. In February 2002, the Company executed (i) an agreement with Sino Telocation Ltd., or Sino, pursuant to which the Company was to provide Sino with a car localization system, or the System, in consideration for \$ 900; and (ii) an agreement with Sino and the China National Electronics Import Export Beijing Company, (CEIEC), for the funding of the acquisition of the System. Pursuant to the agreements the Company received a down payment of \$ 300 from CEIEC against a bank guarantee in favor of CEIEC from Bank Hapoalim B.M. The Company requested that CEIEC issue a letter of credit to insure the shipment of the System. CEIEC did not issue the letter of credit and as a result the System was not provided. As the System was unique and adapted for the Chinese market, the Company was not able to sell the System to others. CEIEC and Sino's breach of the agreements caused the Company extensive damages, in particular due to the failure to pay the remainder of consideration, in the amount of \$ 600.

POINTER TELOCATION LTD. AND ITS SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except share and per share data)

NOTE 11: COMMITMENTS AND CONTINGENT LIABILITIES (Cont.)

On November 26, 2002, the Company filed a claim with the Tel-Aviv Magistrate's Court for a permanent injunction against Bank Hapoalim B.M. and CEIEC requesting that the court prohibit Bank Hapoalim from paying CEIEC any amount, pursuant to the guarantee. The Court ruled in the Company favor. CEIEC commenced proceedings in China, against Bank Hapoalim, to which the Company is not a party, for the payment of the guarantee. In August 2004, Bank Hapoalim informed the Company that it may pay to CEIEC the guaranteed amount plus interest at a rate of 0.5% per week, commencing March 2002 and, in such an event, will request that the Company indemnify it for the amount paid.

In March 2005, the Company filed a claim against CEIEC and against Sino, with the China International Economic and Trade Arbitration Commission Beijing, China (CIETAC), for approximately \$ 557 representing the damages caused to the Company by the breach of the contract by CEIEC and Sino in respect of the China transaction.

As a result of the filing of the claim with CIETAC, the proceedings which had been initiated by CEIEC against Bank Hapoalim, in China, for payment of the guarantee, were suspended.

In January 2006, CIETAC provided a ruling in the Company favor, pursuant to which CEIEC and Sino are to pay the Company \$ 557 representing most of the damages caused to the Company plus interest rate of 6% per annum from April 2003 and additional costs incurred by the Company.

In February and in June 2006, Sino and CEIEC, respectively, petitioned the Beijing No. 2 Intermediate People's Court to overturn the ruling of CIETAC.

In December 2006 the Beijing No. 2 Intermediate People's Court ruled that CIETAC should issue a new ruling and grant a new arbitration award accordingly. No grounds were given. As a result of the Court's decision CIETAC issued a Notice of Re-arbitration.

In March, 2007 CEIEC petitioned the CIETAC for the replacement of the arbitration panel, on the grounds that the previous decisions was biased and against the interests of the state. An objection to the petition was filed. The petition and objection have yet to be addressed.

As of May 1, 2007, no dates have been set and no further information has been received from CIETAC.

POINTER TELOCATION LTD. AND ITS SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except share and per share data)

NOTE 11: COMMITMENTS AND CONTINGENT LIABILITIES (Cont.)

Edgar Filing: Pointer Telocation Ltd - Form 20-F/A

In light of the permanent injunction ordered in the Company's favor in 2002, in the above ruling and without the Company's knowledge of the exact nature of the legal proceedings underway between the bank and CEIEC, since it is not a party to these proceedings, the Company is of the opinion that it has defense claims rejecting any possible demands by Bank Hapoalim for indemnification.

Therefore, no provision was recorded in the financial statements in respect of the potential claim from Bank Hapoalim.

2. As of December 31, 2006, several claims were filed against Shagrir Motor Vehicle Systems mainly by customers. The claims are in an amount aggregating to approximately \$ 161. The substance of the claims is the malfunction of Shagrir Motor Vehicle Systems' products, which occurred during the ordinary course of business. Shagrir Motor Vehicle Systems Management, based on the opinion of its legal counsel, is of the opinion that no material costs will arise to Shagrir Motor Vehicle Systems in respect to these claims and, therefore, no provision was recorded in the financial statements in respect of the claims.

f. Commitments:

1. The Company and DBSI Investment Ltd. (DBSI) (see Note 15) have entered into a management services agreement pursuant to which DBSI shall provide management services in consideration of annual management fees of \$ 180 for a period of three years commencing on April 6, 2003.

This agreement is automatically renewed for additional periods of twelve months each unless either party gives the other party a notice of termination three months prior to the beginning of a renewal term.

2. During 1998, the Company entered into an agreement with Shagrir Motor Vehicle Systems, for the supply of the services and equipment required to set up reception bases to be positioned throughout Israel (the agreement). The agreement is for a period of 10 years with an option to extend it by an additional 10 years.
 - a) In accordance with the agreement, Shagrir Motor Vehicle Systems committed to the Company, as determined in the aforesaid agreement, to exclusively purchase a minimum amount of products each year, until the end of 2007. In the event it does not purchase the minimal amount as it committed, Shagrir Motor Vehicle Systems shall pay the Company the difference between the minimal amount and the amount actually purchased. As of the date of these financial statements, Shagrir Motor Vehicle Systems is meeting its minimal purchase commitment as it undertook in the aforesaid agreement.

NOTE 11: COMMITMENTS AND CONTINGENT LIABILITIES (Cont.)

- b) According to the agreement, it was determined that 36.4% of the price for the site will be paid to the Company by Shagrir Motor Vehicle Systems beginning with the first year in which Shagrir Motor Vehicle Systems has pre-tax income (the income), in an amount equal to 15.2% of the aforesaid income until it completes the full payment of the consideration in respect of the sites.

Following the Shagrir transaction, the contingent liability toward the Company in respect to sites, in the original amount of NIS 3.9 thousand was converted into a loan.

- c) According to the aforesaid agreement, Shagrir Motor Vehicle Systems will pay annual royalties to the Company, which will be computed as 2% of Shagrir Motor Vehicle Systems' revenues in each year, but up to 5% of the annual income before taxes. Shagrir Motor Vehicle Systems will pay royalties up to a total aggregate amount of \$ 1,200.

Edgar Filing: Pointer Telocation Ltd - Form 20-F/A

Following the Shagrir transaction (see Note 1c), the aforesaid payments stated in b and c above, were cancelled.

3. Shagrir Motor Vehicle Systems entered into a management services agreement with the Company, pursuant to which the Company will provide Shagrir Motor Vehicle Systems with management services with respect to its business for a period of two years starting February 28, 2005, in consideration of management fees of NIS 1 million per year, subject to certain conditions.
4. Shagrir Motor Vehicle Systems entered into a management services agreement with Gandyr group and Egged, pursuant to which Gandyr group and Egged will grant management services to Shagrir Motor Vehicle Systems beginning at the end of a period of 24 months from February 28, 2005, in consideration of approximately NIS 1 million per year. Pursuant to the management services agreement, in the event that Gandyr Group or Egged will not exercise the entire options, the parties shall negotiate the management fees. As of December 31, 2006, Egged did not convert its options, and all of its options expired.
5. Under the credit facility from Bank Hapoalim B.M., Shagrir Motor Vehicle Systems is required to meet financial covenants (see Note 9c).

NOTE 12: SHAREHOLDERS EQUITY

- a. In August 2005, a 100:1 to 1 reverse stock split of the Company's Ordinary shares was affected. As a result of the reverse stock split, each 100 shares of the Company's Ordinary shares with par value of NIS 0.03 each were converted into one Ordinary share of NIS 3.00 par value. All shares and per share data have been retroactively adjusted to reflect this split.
- b. Ordinary shares:

Ordinary shares confer upon their holders voting rights, the right to receive cash dividends and the right to share in excess assets upon liquidation of the Company.
- c. Issued and outstanding share capital:
 1. During 2004, 143,195 warrants were exercised into 130,051 of the Company's Ordinary shares. Out of the 143,195 warrants, 110,518 warrants were exercised by way of cashless exercise into 97,374 Ordinary shares, and 32,677 warrants were exercised into Ordinary shares, for a consideration of \$ 143.
 2. Following the closing of the transaction for the purchase of the outstanding and issued share capital of Shagrir Motor Vehicle Systems, as described in Note 1b, the Company issued 429,154 Ordinary shares.
 3. During February and March 2005, the Company completed a round of financing of \$ 6,070 (\$ 1,000 of which was invested by DBSI Investments Ltd., a major shareholder of the Company), in consideration of 722,587 of the Company's Ordinary shares at a price per share of \$ 8.4. Under the terms of the investment agreements, the investors were issued warrants to purchase up to 158,969 shares of the Company, with an exercise price of \$ 8.4 per share. The warrants were exercisable at any time during the period, beginning on February 28, 2005 and until the earlier of (i) April 6, 2006; or (ii) an M&A transaction. All the warrants were forfeited.

Out of the total number of shares and warrants issued, Egged was issued 309,524 shares and 68,095 warrants.

Edgar Filing: Pointer Telocation Ltd - Form 20-F/A

4. During 2005, 55,437 warrants and stock options were exercised into 51,928 of the Company's Ordinary shares. Out of the 55,437 warrants and stock options, 7,000 warrants were exercised by way of cashless exercise into 3,491 Ordinary shares, and 48,437 stock options were exercised into Ordinary shares, for a consideration of \$ 214.
5. During 2006, 806,918 warrants and stock options were exercised into 743,855 of the Company's Ordinary shares. Out of the 806,918 warrants and stock options, 95,455 warrants were exercised by way of cashless exercise into 32,392 Ordinary shares, and 711,463 warrants stock options were exercised into Ordinary shares, for a consideration of \$ 3,481.

NOTE 12: SHAREHOLDERS EQUITY (Cont.)

d. Options:

1. The Company grants, under various option plans (mainly under 2003 Employee share option plan), options to its employees, directors and service providers. The options are granted for a period of five years and usually have a vesting period of up to four years. As of December 31, 2006, no options of the 2003 Employee Share Option Plan are available for future grant.
2. On June 1, 2004, the Board of Directors resolved to issue to the Company's employees options to purchase 21,900 of the Company's Ordinary shares at an exercise price of \$ 13.3 per share. 44% of the options granted to each employee were vested on December 31, 2004. An additional 7% of the options granted to each employee shall vest at the end of each of eight consecutive quarters, ending December 31, 2006. The options are subject to the terms of the 2003 Employee Share Option Plan.
3. During 2004, following the closing of the transactions for the purchase of the outstanding and issued share capital of Shagrir Motor Vehicle Systems, as described in Note 1b, the Company issued 75,896 fully vested employee stock options at an exercise price of \$ 13.3 per share to employees of Shagrir Motor Vehicle Systems who held Shagrir Motor Vehicle Systems options before the transaction. The options are exercisable over a period of five years.
4. On May 23, 2005, the Company entered into an employment agreement with a new CEO, pursuant to which the Company granted to the new CEO warrants to purchase 40,000 Ordinary shares of the Company, at an exercise price of \$ 10.6 per share. Such options can be exercised in full after 48 months of continuous service, with 25% of the options vesting after each 12 month-period of continuous service.
5. On November 23, 2005, the Company issued to its employees options to purchase 59,000 of the Company's Ordinary shares, at an exercise price of \$ 9.5 per share. The options shall vest in four equal annual installments, over a period of four years, commencing on November 23, 2006. The options shall expire on November 23, 2010.
6. On January 17, 2006, according to the Board of Directors decision, the Company granted four of its directors options to purchase 3,000 Ordinary shares of the Company of NIS 3 par value each, to vest in three equal installments over a period of three years, commencing as of the date of the grant, at an exercise price of \$ 7.6 per share.

NOTE 14: INCOME TAXES

- a. Measurement of taxable income under the Income Tax (Inflationary Adjustments) Law, 1985 (the Law):

Under the Law, the Company's results for tax purposes are measured in terms of earnings in NIS after certain adjustments for changes in the Israeli CPI. As explained in Note 2b, the financial statements are measured in dollars. The difference between the annual change in the Israeli CPI and in the NIS/dollar exchange rate causes a difference between taxable income and the income before taxes shown in the financial statements. In accordance with paragraph 9(f) of SFAS No. 109, the Company has not provided deferred income taxes on the difference between the functional currency and the tax bases of assets and liabilities.

F - 38

NOTE 14: INCOME TAXES (Cont.)

- b. Tax benefits under the Law for the Encouragement of Industry (Taxation), 1969:

The Company is an industrial company, as defined by this law and, as such, is entitled to certain tax benefits, mainly accelerated depreciation of machinery and equipment, as prescribed by regulations published under the Income Tax Law (Inflationary Adjustments), 1985, the right to claim public issuance expenses in three annual installments and an annual deduction of 12.5% of patents and other intangible property rights as deductions for tax purposes.

- c. On July 25, 2005, the Knesset (Israeli Parliament) passed the Law for the Amendment of the Income Tax Ordinance (No. 147), 2005, which prescribes, among others, a gradual decrease in the corporate tax rate in Israel to the following tax rates: in 2006 31%, in 2007 29%, in 2008 27%, in 2009 26% and in 2010 and thereafter 25%.
- d. Income (loss) before taxes on income:

Year ended December 31,		
2006	2005	2004

	Year ended December 31,		
Domestic	\$ 4,188	\$ (809)	\$ (2,427)
Foreign	(1,893)	(1,918)	(1,300)

NOTE 14: INCOME TAXES (Cont.)

e. Deferred taxes:

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes, and amounts used for income tax purposes. Significant components of the deferred tax liabilities and assets of the Company and its subsidiaries are as follows:

1. Provided in respect of the following:

	December 31,	
	2006	2005
Reserves and accruals	\$ 385	\$ 316
Carryforward tax losses	17,623	17,443
Goodwill	(1,496)	(624)
Other temporary differences, net	238	(72)
	<u>16,750</u>	<u>17,063</u>
Net deferred tax assets before valuation allowance	16,750	17,063
Valuation allowance (3)	(15,162)	(17,063)
	<u>\$ 1,588</u>	<u>\$ -</u>
Net deferred tax assets	\$ 1,588	\$ -
	<u>\$ 1,588</u>	<u>\$ -</u>
Domestic	\$ 1,588	\$ -
Foreign	-	-
	<u>\$ 1,588</u>	<u>\$ -</u>

2. Deferred taxes are included in the consolidated balance sheets, as

follows:

	December 31,	
	December 31,	
	2006	2005
Current assets	\$ 811	\$ -
Long-term assets	777	-
	<u>\$ 1,588</u>	<u>\$ -</u>

3. The Company and its subsidiaries (except Shagrir Motor Vehicle Systems) have provided full valuation allowances in respect of deferred tax assets resulting from tax loss carryforwards and other temporary differences. Since the Company and its subsidiaries (except for Shagrir Motor Vehicle Systems) have a history of losses, it is more likely than not that the deferred taxes regarding the losses carryforwards and other temporary differences will not be realized in the foreseeable future (a portion of the reduction was recorded as a reduction of goodwill, see Note 2h).

Shagrir Motor Vehicles Systems has reduced its valuation allowance by \$ 1,588 since it is more likely than not that certain deferred tax assets will be realized in the foreseeable future.

4. Reconciling items between the statutory tax rate of the Company and the effective tax rate:

	Year ended December 31,		
	2006	2005	2004
Income (loss) before taxes, as reported in the consolidated statements of operations	\$ 2,295	\$ (2,727)	\$ (3,727)
Statutory tax rate	31%	34%	35%
Theoretical tax expenses (benefit) on the above amount at the Israeli statutory tax rate	\$ 711	\$ (927)	\$ (1,304)
Tax adjustment in respect of different tax rates	(219)	-	-
Reduction in deferred taxes due to reduction in future tax rates	-	77	-
Realization of carryforward tax losses for which valuation allowance was	(525)	751	948

Edgar Filing: Pointer Telocation Ltd - Form 20-F/A

	Year ended December 31,		
provided and change in valuation allowance in respect of deferred taxes			
Nondeductible expenses and other permanent differences	115	99	393
	\$ 82	\$ -	\$ 37

f. Carryforward tax losses and deductions:

Carryforward tax losses of the Company totaled approximately \$ 67,201 (including a capital loss in the amount of approximately \$ 27,450) as of December 31, 2006. The carryforward tax losses have no expiration date.

Carryforward tax losses of Pointer Argentina are approximately \$ 1,645 as of December 31, 2006. The carryforward tax losses will expire from 2007 to 2010.

Carryforward tax losses of Shagrir Motor Vehicle Systems totaled approximately \$ 25,325 as of December 31, 2006. The carryforward tax losses have no expiration date.

Carryforward tax losses of Pointer Mexico totaled approximately \$ 2,723 as of December 31, 2006. The carryforward tax losses will expire from 2014 to 2016.

NOTE 18: SUBSEQUENT EVENTS

- a. On January 28, 2007, according to the board of directors decision, the Company granted to its employees options to purchase up to 63,000 Ordinary shares of the Company of NIS 3 par value each, to vest in four equal installments over a period of four years, commencing as of the date of the grant, at an exercise price of \$ 11.24 per share.
- b. In January 2007, the Company completed a round of financing of \$ 4,675, out of which, an amount of \$ 2,586 was received as of December 31, 2006, in consideration of 425,000 of the Company's Ordinary shares at a price per share of \$ 11.0. Under the terms of the investment agreements, the investors were issued warrants to purchase up to 212,500 shares of the Company, with an exercise price of \$ 13.0 per share. The warrants may be exercised at any time until December 31, 2010.
- c.

Edgar Filing: Pointer Telocation Ltd - Form 20-F/A

On April 2, 2007, the Company entered into and consummated a share purchase agreement with a group of United States institutional investors for the purchase of 805,000 of the Company Ordinary shares for an aggregate price of approximately \$ 8,500. Pursuant to the transaction, the investors were also issued warrants to purchase 402,500 of the Company Ordinary shares, such that for each one share purchased the investors were entitled to a warrant to purchase half a share. The warrants are exercisable into Ordinary shares, at an exercise price per share of \$ 12.6 and will be exercisable for a period of five years.

- d. During 2005, the Company issued to Shagrir Towing Services Ltd. and ADACH warrants to purchase up to 250,000 shares of the Company, and issued to Bank Hapoalim B.M. warrants to purchase up to 100,000 shares of the Company. The warrants were exercisable at a price of \$18 per share until February 28, 2007.

On February 15, 2007 the Company's board extended the exercise period of the warrants until June 30, 2007, at an exercise price of \$ 19 per share, effective from March 1, 2007.

- e. On March 5, 2007 the board of directors resolved to modify the terms of the options granted to its former CFO on November 23, 2005, by accelerating the vesting of the options and extending the exercise period after his resignation until June 30, 2008.
- f. In February 2007, the Company purchased 2,895 shares of Pointer Mexico (see Note 1f) from its local partner in consideration of their par value.
- g. In March 2007, the Company announced the execution of a non-binding Memorandum of Understanding to acquire the assets and liabilities of Cellocator Ltd. (Cellocator), a private Israeli company active in the field of cellular location-based services and technology. The closing of the transaction is subject to the completion of a full due diligence review to the Company's full satisfaction. The Company will pay Cellocator and its shareholders approximately \$ 18.5 thousand in cash, shares and a convertible debenture. Following the completion of the transaction and upon conversion of the debenture, Cellocator and/or its shareholders will hold approximately 5.37% of the Company's issued and outstanding share capital (on a fully diluted basis). The Company cannot guarantee that this transaction will be consummated.

NOTE 18: SUBSEQUENT EVENTS (Cont.)

- h. In March 2007, The Company executed a non-binding Letter of Intent to acquire controlling ownership of a leading provider of roadside assistance in Argentina in consideration of approximately \$ 9,000.
- i. In March 2007, the Company also executed a binding MOU, with the Argentinean provider to cooperate in offering location based services and stolen vehicle retrieval services. The closing of the transaction is subject to the success of the Argentinean provider in reaching an agreement with a leading automotive manufacturer in Argentina. Based on the MOU, upon closing, the Argentinean provider shall transfer to Pointer Argentina all of its location based services and stolen vehicle retrieval business in consideration of 11% of the outstanding share capital of Pointer Argentina. Thereafter, based on the success of the project during the two years following the closing, the Argentinean provider may increase its holdings in Pointer Argentina. As part of this agreement, based on the success of the project, the Company undertook to provide certain financing to Pointer Argentina during the first two years of the project.
