Comments of Management

Commenting on the results, Shaike Orbach, President and CEO, said, “We are extremely excited to announce our fourth quarter results - our best ever from every perspective. Q4 revenues rose 45% year-over-year and 34% on a sequential basis, capping off a fantastic 48% increase for the year as a whole, a much faster growth than our markets. Our performance demonstrates the power of a winning combination: our strong base of 70+ OEM customers (many of them industry leaders that offer virtually unlimited potential for additional growth), industry-leading products, and our reputation for out-of-the-box innovation.

“As they have throughout the year, all of our growth engines delivered spectacularly. We continued to secure new customers and succeeded in penetrating new divisions of existing customers. We introduced and sold new products to both current and new customers, and achieved major wins with our SETAC product line. In addition, we enjoyed increased demand from all of our target market segments, which are growing faster than ever due to increased demand for bandwidth-hungry cloud computing and virtualization environments.”

Mr. Orbach concluded, “All indications point toward a continued strengthening of these positive trends in 2011. With strong markets, growing demand for our products, and the exciting momentum of our new SETAC product line, we are confident that we will continue growing Silicom in 2011 and beyond.”
