Rosh Ha'ayin, Israel, November 21, 2018 – Partner Communications Company Ltd. (“Partner” or the “Company”) (NASDAQ and TASE: PTNR), a leading Israeli communications provider, announced today its results for the quarter ended September 30, 2018.

Commenting on the third quarter 2018 results, Mr. Isaac Benbenisti, CEO of Partner noted:

"The third quarter of 2018 results reflect encouraging figures in the cellular segment as well as the momentum in the Company's new growth engines, TV and fiber optic infrastructure.

In the cellular segment, in the third quarter we added 11 thousand Post-Paid subscribers to our subscriber base, on a net basis, along with growth in ARPU and a decline in churn rate. We are reporting the 13th consecutive quarter of growth in the number of Post-Paid subscribers, who enjoy Partner's advanced network with unique capabilities such as VoLTE and WiFi Calling - which are not offered by our competitors.

The growth in households connected to Partner TV has accelerated during the third quarter, and as of today, Partner TV has 118 thousand households connected to the service. Most of Partner TV's customers choose the service as part of a package, bundling TV and internet services, and some of them are connected to Partner TV using Partner fiber optic infrastructure. In addition, we launched this month a dedicated service enabling multi-channel TV to be viewed on a PC.

Our fiber optics infrastructure, 'Partner Fiber', which was launched last year, has shattered in record time the technological stagnation imposed on the Israeli consumer by the fixed line monopoly, and as of today it reaches over 250 thousand households across Israel. Our deployment proceeds at a rapid pace, and Partner's optic fibers are available to more and more households who can connect to internet service at a speed of up to 1,000 mbps.

The business customer division is expanding as well, and in the third quarter new customers have joined and existing customers services were expanded. This is attributable to Partner's integration capabilities and strategic collaborations with world leading manufacturers.

In addition, as part of the Company's strategy, we continue to examine new potential growth engines, among others, in the fintech and finance industries.”

Mr. Tamir Amar, Partner's Chief Financial Officer, commented on 2018 third quarter results:

“The third quarter results reflected the existing trends in the communications market and the progress in the Company's strategy and ongoing projects.

In the cellular segment, Partner recorded a decrease in the churn rate to 8.0% and, for the 13th consecutive quarter, a net increase in Post-Paid subscribers, as well as a net increase of 8 thousand cellular subscribers overall. These results followed the entrance of a new competitor during the second quarter, which resulted in an increase in the churn rate and an intensification of the level of competition in the second quarter 2018. However this effect was significantly moderated during the third quarter.

In the fixed line segment, Adjusted EBITDA increased by 12% in the third quarter compared to the third quarter of 2017, and by 22% compared to the second quarter of 2018. This growth resulted from continued growth in the number of households connected to Partner TV which led to an increase in revenues from internet and TV services.

In addition, we continue to deploy fiber optic infrastructure to residential areas, reaching over 200 thousand households by the end of the third quarter, and over 250 thousand households as of today. The deployment serves as a platform for the daily transfer of customers to our independent infrastructure which is expected to significantly improve the profitability of our internet and TV operations, enables a higher quality TV viewing experience for Partner's customers and provides an enhanced internet service.

The Company's Free Cash Flow totaled NIS 70 million in the third quarter, after taking into account all the Company's investments, including in fiber optics and TV – investments which remain relatively stable despite the increase in fiber optic deployment and the significant increase in the number of Partner's TV households.

We succeeded in maintaining Net Debt at a level below NIS 0.9 billion, while continuing to develop new growth engines and execute our buy-back plan which totaled NIS 67 million during the quarter. Overall, since the Company announced its buy-back plan in May 2018, we have acquired 6.5 million shares at a total cost of NIS 100 million (including commissions) at an average price of NIS 15.38 per share.”

Financial Review

In Q3 2018, total revenues were NIS 822 million (US\$ 227 million), a decrease of NIS 4 million from NIS 826 million in Q3 2017.

Service revenues in Q3 2018 totaled NIS 654 million (US\$ 180 million), a decrease of 2% from NIS 666 million in Q3 2017.

Service revenues for the cellular segment in Q3 2018 totaled NIS 476 million (US\$ 131 million), a decrease of 7% from NIS 514 million in Q3 2017. The decrease was mainly the result of the continued price erosion of cellular services (both Post-Paid and Pre-Paid) due to the continued competitive market conditions.

Service revenues for the fixed-line segment in Q3 2018 totaled NIS 220 million (US\$ 61 million), an increase of 13% from NIS 194 million in Q3 2017. The increase reflected revenues from TV services (which started in Q3 2017) and internet services, which were partially offset principally by the decline in revenues from international calling services.

Equipment revenues in Q3 2018 totaled NIS 168 million (US\$ 46 million), an increase of 5% from NIS 160 million in Q3 2017, largely reflecting higher volumes of equipment sales as well as a change in the product mix.

Gross profit from equipment sales in Q3 2018 was NIS 44 million (US\$ 12 million), compared with NIS 43 million in Q3 2017, an increase of 2%, mainly reflecting higher sales volumes.

Total operating expenses ('OPEX') totaled NIS 504 million (US\$ 139 million) in Q3 2018, an increase of 6% or NIS 27 million from Q3 2017. The increase mainly reflected additional expenses relating to the Company's TV service and the growth in internet services and a nonrecurring reduction in site-rental expenses in Q3 2017, partially offset by a decrease in international calling services expenses. Including depreciation and amortization expenses and other expenses (mainly amortization of employee share based compensation), OPEX in Q3 2018 increased by 5% compared with Q3 2017.

Operating profit for Q3 2018 was NIS 48 million (US\$ 13 million), a decrease of 48% compared with NIS 92 million in Q3 2017. See Adjusted EBITDA analysis for each segment below.

Adjusted EBITDA in Q3 2018 totaled NIS 201 million (US\$ 55 million), a decrease of 16% from NIS 239 million in Q3 2017. As a percentage of total revenues, Adjusted EBITDA in Q3 2018 was 24% compared with 29% in Q3 2017.

Adjusted EBITDA for the cellular segment was NIS 145 million (US\$ 40 million) in Q3 2018, a decrease of 23% from NIS 189 million in Q3 2017, mainly reflecting the decrease in cellular service revenues and a nonrecurring reduction in site-rental expenses in Q3 2017, partially offset by a decline in other cellular OPEX. As a percentage of total cellular segment revenues, Adjusted EBITDA for the cellular segment in Q3 2018 was 23% compared with 29% in Q3 2017.

Adjusted EBITDA for the fixed-line segment was NIS 56 million (US\$ 15 million) in Q3 2018, an increase of 12% from NIS 50 million in Q3 2017, mainly reflecting the increase in fixed line service revenues, partially offset by an increase in OPEX. As a percentage of total fixed-line segment revenues, Adjusted EBITDA for the fixed-line segment in Q3 2018 was 23%, unchanged from Q3 2017.

Finance costs, net in Q3 2018 were NIS 10 million (US\$ 3 million), a decrease of 33% compared with NIS 15 million in Q3 2017. The decrease largely reflected lower interest expenses in view of the lower debt level and lower average debt interest rate, partially offset by an increase in foreign exchange rate expenses and higher linkage expenses due to a higher CPI level.

Income tax expenses for Q3 2018 were NIS 12 million (US\$ 3 million), compared with NIS 23 million in Q3 2017.

Profit in Q3 2018 was NIS 26 million (US\$ 7 million), compared with NIS 54 million in Q3 2017, a decrease of NIS 28 million.

Based on the weighted average number of shares outstanding during Q3 2018, basic earnings per share or ADS, was NIS 0.16 (US\$ 0.04), compared with basic earnings per share of NIS 0.32 in Q3 2017.

Cellular Segment Operational Review

At the end of Q3 2018, the Company's cellular subscriber base (including mobile data and 012 Mobile subscribers) was approximately 2.65 million, including approximately 2.35 million Post-Paid subscribers or 89% of the base, and approximately 297 thousand Pre-Paid subscribers, or 11% of the subscriber base.

During the third quarter of 2018, the cellular subscriber base increased by approximately 8 thousand subscribers. The Post-Paid subscriber base increased by approximately 11 thousand subscribers, while the Pre-Paid subscriber base decreased by approximately 3 thousand subscribers.

The quarterly churn rate for cellular subscribers in Q3 2018 was 8.0%, compared with 9.3% in Q3 2017.

The cellular market share (based on the number of subscribers) at the end of Q3 2018 was estimated to be approximately 25%, compared to 26% in Q3 2017.

The monthly Average Revenue per User ("ARPU") for cellular subscribers in Q3 2018 was NIS 60 (US\$ 17), a decrease of 6% from NIS 64 in Q3 2017. The decrease mainly reflected the continued price erosion in key cellular services due to the competition in the cellular market.

Funding and Investing Review

In Q3 2018, Adjusted Free Cash Flow totaled NIS 70 million (US\$ 19 million), a decrease of 65% from NIS 202 million in Q3 2017.

Cash generated from operating activities decreased by 39% to NIS 188 million (US\$ 52 million) in Q3 2018 from NIS 306 million in Q3 2017. The decrease mainly reflected the increase in operating assets and liabilities and the decrease in Adjusted EBITDA.

Cash capital expenditures ('CAPEX payments'), as represented by cash flows used for the acquisition of property and equipment and intangible assets, were NIS 117 million (US\$ 32 million) in Q3 2018, an increase of 11% from NIS 105 million in Q3 2017.

The level of Net Debt at the end of Q3 2018 amounted to NIS 898 million (US\$ 248 million), compared with NIS 887 million at the end of Q3 2017.

IFRS 16

IFRS 16, Leases ("the Standard"), was issued in January 2016 and will supersede IAS 17 Leases. The Standard is mandatory for financial years commencing on or after January 1, 2019, and early application is permitted. The Company will adopt the standard from its mandatory adoption date of January 1, 2019 (transition date).

The Standard removes the distinction between operating and finance leases for lessees. Under the new Standard, with certain exceptions, the assets (the right to use the leased item) and the financial liabilities to pay rentals will be recognized in our Statement of Financial Position, and are expected to be material. The accounting for lessors will not change significantly. In our Statement of Income, finance costs on the financial liabilities and depreciation expenses related to the rights-of-use assets will be recognized in place of rental expenses. In our Statement of Cash Flows, rental payments will be recognized as repayment of the financial liabilities and will be presented as cash used in financing activities in place of cash provided by operating activities. The implementation of the new Standard is expected to have a material positive impact on our operating profit and Adjusted EBITDA. Our profit is not expected to be materially affected.

The Company is in the process of implementing the required adjustments into the Company's information systems.

The Company plans to apply the Standard using the modified retrospective approach and will not restate comparative amounts for the years prior to the transition date. Any transitional adjustments will be recognized in retained earnings with the cumulative effect as of the transition date.

The Company estimates that the implementation of the standard will result in a decrease in lease expenses in 2019 of approximately between NIS 70 million and NIS 80 million, and an increase in amortization expenses and finance costs in 2019 in a total amount of approximately between NIS 70 and NIS 80 million; and on the statement of financial position a right-of-use asset and corresponding lease liability are expected to be recognized in amounts of approximately between NIS 300 million and NIS 350 million.

In addition, further material effect is expected to occur in the stand alone financial statements of PHI (P.H.I. Networks (2015) Limited Partnership, held 50% by the Company ("PHI")) which operates a substantial number of the Company's cell-sites. The total contractual undiscounted estimated lease payments of PHI are approximately between NIS 690 million and NIS 730 million. PHI management estimates that the total contractual lease expenses in 2019 will decrease in the amount of approximately between NIS 140 million to NIS 160 million and the amortization and finance expenses will increase in an amount which is still under evaluation by PHI management.

The aforementioned amounts are estimates and not final and therefore may change.

(1) Mainly amortization of employee share based compensation.

(2) Adjusted EBITDA as reviewed by the CODM represents Earnings Before Interest (finance costs, net), Taxes, Depreciation and Amortization (including amortization of intangible assets, deferred expenses-right of use and impairment charges) and Other expenses (mainly amortization of share based compensation). Adjusted EBITDA is not a financial measure under IFRS and may not be comparable to other similarly titled measures for other companies. Adjusted EBITDA may not be indicative of the Group's historic operating results nor is it meant to be predictive of potential future results. The usage of the term "Adjusted EBITDA" is to highlight the fact that the Amortization includes amortization of deferred expenses – right of use and amortization of employee share based compensation and impairment charges; it is fully comparable to EBITDA information which has been previously provided for prior periods.

(3) Operating expenses include selling and marketing expenses and general and administrative expenses.

(1) In July 2017, the Company issued Series F Notes in a principal amount of NIS 255 million. In December 2017, the Company issued an additional Series F Notes in a principal amount of NIS 389 million. Regarding Series F Notes, the Company is required to comply with a financial covenant that the ratio of Net Debt to Adjusted EBITDA shall not exceed 5. Compliance will be examined and reported on a quarterly basis. For the definitions of Net Debt and Adjusted EBITDA see 'Use of non-GAAP measures' section above. For the purpose of the covenant, Adjusted EBITDA is calculated as the sum total for the last 12 month period, excluding adjustable one-time items. As of September 30, 2018, the ratio of Net Debt to Adjusted EBITDA was 1.3. Additional stipulations regarding Series F Notes mainly include: shareholders' equity shall not decrease below NIS 400 million; the Company shall not create floating liens subject to certain terms; the Company has the right for early redemption under certain conditions; the

Company shall pay additional annual interest of 0.5% in the case of a two-notch downgrade in the Notes rating and an additional annual interest of 0.25% for each further single-notch downgrade, up to a maximum additional interest of 1%; the Company shall pay additional annual interest of 0.25% during a period in which there is a breach of the financial covenant.

In the reporting period, the Company was in compliance with all financial covenants and obligations and no cause for early repayment occurred.

In September 2017, December 2017 and January 2018, the Company entered into agreements with Israeli institutional investors to issue in December 2018, December 2019 and December 2019, respectively, in the framework of a private placement, additional Series F notes, in an aggregate principal amount of NIS 150 million, NIS 100 million and NIS 127 million, respectively. S&P Maalot has rated the additional deferred issuances with an 'ilA+' rating. For additional details see the Company's press releases dated September 13 and 17, 2017, December 27, 2017 and January 9, 2018.

(2) 'MAKAM' is a variable interest based on the yield of 12 month government bonds issued by the government of Israel. The interest rate is updated on a quarterly basis.

(*) On these dates additional Notes of the series were issued. The information in the table refers to the full series.

(**) Representing an amount of less than NIS 1 million.
