Item 12. Results of Operations and Financial Condition

On July 21, 2003, Lee Enterprises, Incorporated (the Registrant) reported its third fiscal quarter results and is furnishing the earnings release required under Item 12. The Company also reported its revenues for the month of June 2003, and is furnishing the related release under Item 12. The following exhibits are included herein:

EXHIBIT 99.1 Earnings Release - Third Quarter Ended June 30, 2003

EXHIBIT 99.2 Monthly Revenue Release - June 2003

The earnings release contains several non-GAAP financial measures. A "non-GAAP financial measure" is defined as a numerical measure of a company's financial performance that excludes or includes amounts so as to be different than the most directly comparable measure calculated and presented in accordance with GAAP in the statement of income, balance sheet or statement of cash flows of the Company. Pursuant to the requirements of Regulation G, the Company has provided a reconciliation within the earnings release of all non-GAAP financial measures to the most directly comparable GAAP financial measure.

NEWS RELEASE

Lee Enterprises reports Q3 earnings

DAVENPORT, Iowa (July 21, 2003) - Lee Enterprises, Incorporated (NYSE: LEE), reported today that diluted earnings per common share from continuing operations were 48 cents for its third quarter ended June 30, 2003.

Last year's earnings of 68 cents per diluted common share from continuing operations included the favorable resolution of tax issues amounting to \$10.0 million, or 22 cents. On an adjusted basis, this year's earnings represent an increase of 4.4 percent over 46 cents a year ago. Earnings in 2002 have been

Edgar Filing: LEE ENTERPRISES INC - Form 8-K

restated to include employee stock option expense.

Operating cash flow(2) increased 3.9 percent to \$47.6 million, at a margin of 28.3 percent, compared with 28.7 percent a year ago. Revenue increased 5.5 percent to \$168.2 million. Operating income, which includes equity in net income of associated companies, depreciation and amortization, increased 4.4 percent. Income from continuing operations declined 28.9 percent in comparison with a year ago, which included gains of \$10.0 million resulting from favorable resolution of tax issues, as noted above.

Operating expenses, excluding depreciation and amortization, increased 6.1 percent to \$120.7 million. Current year expenses were increased by the inclusion of \$3.4 million of operating costs of Sioux City Newspapers (SCN). Adjusting for this factor, operating expenses, excluding depreciation and amortization, increased 3.1 percent. Expenses in the current year were further influenced by a 14.1% increase in newsprint costs (including SCN). Lee's purchase of Howard Publications in April 2002 included 15 daily newspapers and a 50 percent interest in SCN. Lee acquired the remaining 50 percent interest in SCN in July 2002.

On a same property basis, which excludes the impact of acquisitions and divestitures made in the current or prior year, total revenue for the quarter ended June 30, 2003, increased 1.0 percent from a year ago. Total advertising revenue decreased 0.5 percent. Retail increased 1.1 percent. Classified revenue decreased 2.9 percent, with employment advertising in the daily newspapers down 10.7 percent. National advertising, a small category for Lee, decreased 1.3 percent. Circulation revenue decreased 0.8 percent. Online revenue increased 28.8 percent.

At the 15 newspapers Lee acquired in their entirety in April 2002, revenue for the quarter increased 4.4 percent(3). Publishing revenue of the former Howard newspapers increased 14.9 percent on a reported basis, due to the inclusion of SCN in revenue in the current year.

Mary Junck, chairman and chief executive officer, said: "We continue to benefit from our acquisitions in 2002, and we remain fully focused on our five top priorities of driving revenue, improving readership and circulation, emphasizing strong local news, expanding our online services and carefully controlling our costs. As our performance shows, especially in comparison with a very strong quarter a year ago, we're doing the right things and doing them well in a tough economic environment."

YEAR TO DATE

For the nine months ended June 30, 2003, total revenue on a same property basis increased 2.1 percent. On a reported basis, revenue increased 36.0 percent. Operating expenses, excluding depreciation and amortization, increased 37.2 percent, and operating cash flow increased 32.8 percent. Operating cash flow margin(2) was 27.2 percent, compared with 27.8 percent a year ago. Operating income increased 24.7 percent.

Diluted earnings per common share from continuing operations totaled \$1.32, compared with \$1.36 a year ago, which included the 22 cents of tax benefits noted above.

EMPLOYEE STOCK OPTIONS

In 2003, Lee has begun expensing employee stock option grants and has chosen to restate prior years. This will reduce 2003 results 5 to 6 cents per diluted common share for the full year and had an impact of one cent per share in the June quarter. Year to date results in the prior year were reduced four cents per

Edgar Filing: LEE ENTERPRISES INC - Form 8-K

diluted common share from the previously reported amount of \$1.43 cents.

Tables follow.

Lee Enterprises is based in Davenport, Iowa, and is the premier publisher of daily newspapers in midsize markets. Lee owns 38 daily newspapers and a joint interest in six others, along with associated online services. Lee also publishes more than 175 weekly newspapers, shoppers and classified and specialty publications. Lee stock is traded on the New York Stock Exchange under the symbol LEE. - (1) Beginning in March 2003, same property revenue excludes revenue of Madison Newspapers, Inc., (MNI) in order to comply with newly issued SEC regulations related to disclosure of non-GAAP financial measures. Lee owns 50% of the capital stock of MNI, which for financial reporting purposes is reported using the equity method of accounting.
- (2) Operating cash flow, which is defined as operating income before depreciation, amortization and equity in net income of associated companies, and operating cash flow margin (operating cash flow divided by operating revenue) represent non-GAAP financial measures. A reconciliation of operating cash flow to operating income, the most directly comparable measure under accounting principles generally accepted in the United States (GAAP), is included in the tables accompanying this release. The Company believes that operating cash flow and the related margin ratio are useful measures of evaluating its financial performance because of their focus on the Company's results from operations before depreciation and amortization. The Company also believes that these measures are several of the alternative financial measures of performance used by investors, rating agencies and financial analysts to estimate the value of a company and evaluate its ability to meet debt service requirements.
- (3) Same property revenue related to newspapers acquired from Howard Publications excludes revenue of Sioux City Newspapers (SCN). Lee owned 50% of the capital stock of SCN during the period from April through June 2002, which was accounted for using the equity method of accounting. Year to date same property revenue information is not meaningful due to the consummation of the acquisition at a date during the fiscal year. The following table

- (4) Certain amounts as previously reported have been reclassified to conform with the current period presentation. The presentation of equity in net income of associated companies has been revised to exclude those amounts from revenue. Fiscal 2002 amounts have been restated to include expense relating to employee stock options.
