HAMILTON, Bermuda, May 26, 2011 - Signet Jewelers Limited ("Signet") (NYSE and LSE: SIG), the world's largest specialty retail jeweler, today announced its results for the 13 weeks ended April 30, 2011 ("Q1 Fiscal 2012").

We believe we continued profitable market share gains due to favorable reception to our product offerings as a result of superior quality and craftsmanship, attentive customer service and memorable marketing campaigns. I would like to thank all at Signet that contributed to this great performance.

1. Fiscal 2011 is the year ended January 29, 2011 and Fiscal 2012 is the year ending January 28, 2012.

The strong results for Q1 Fiscal 2012 were led by a same store sales increase of 10.2% (Q1 Fiscal 2011: 5.8%), total sales were up by 10.2% to \$887.3 million (Q1 Fiscal 2011: \$805.4 million) and operating margin improved by 310 basis points to 13.4% (Q1 Fiscal 2011: 10.3%). As a result, income before income taxes and diluted earnings per share rose to \$117.8 million (Q1 Fiscal 2011: \$74.1 million) and \$0.87 (Q1 Fiscal 2011: \$0.58), up by 59.0% and 50.0% respectively.

Free cash flow was \$92.4 million (Q1 Fiscal 2011: \$177.9 million); non-GAAP measure, see Note 3. At April 30, 2011, Signet had no long term debt (May 1, 2010: \$229.1 million) and cash and cash equivalents of \$394.1 million (May 1, 2010: \$447.1 million).

NEW REVOLVING CREDIT FACILITY

On May 24, 2011, Signet entered into a \$400 million senior unsecured multi-currency five year revolving credit facility agreement that will be used for working capital requirements and general corporate purposes. The new credit agreement provides improved credit terms, lower fees and applicable interest rate margins and provides an enhanced financial structure until 2016.

The new facility replaces an existing \$300 million facility entered into in June 2008, which was due to expire in June 2013. Unamortized facility fees of \$1.3 million associated with the prior credit agreement will be written off in the quarter ending July 30, 2011.

RESULTS OF OPERATIONS

Sales and operating income

In Q1 Fiscal 2012, Signet's same store sales were up 10.2%, compared to a rise of 5.8% in Q1 Fiscal 2011. Total sales rose by 10.2% to \$887.3 million (Q1 Fiscal 2011: \$805.4 million). The breakdown of the sales performance is set out in Table 1 below.

Table 1	Q1 Fiscal 2012		
	US	UK	Signet
Sales, million	\$738.0	\$149.3	\$887.3

Total change in sales at constant exchange rates ^{1,2}	11.4	(1.3)	9.0
Exchange translation impact ¹	-	5.8	1.2
Change in sales as reported	11.4	4.5	10.2

1. The average US dollar to pound sterling exchange rate in Q1 Fiscal 2012 was \$1.62 (Q1 Fiscal 2011: \$1.53).

2. Non-GAAP measure, see Note 3.

In Q1 Fiscal 2012, Signet's gross margin was \$349.7 million (Q1 Fiscal 2011: \$293.6 million), up by \$56.1 million or 19.1%. The gross margin rate increased by 290 basis points to 39.4% (Q1 Fiscal 2011: 36.5%), with the gross merchandise margin up by 50 basis points. The US division's gross merchandise margin was up by 70 basis points compared to Q1 Fiscal 2011, benefiting from selective price increases and reduced discounting, which more than

offset higher commodity costs. The UK division's gross merchandise margin declined by 30 basis points, with the impact of an increase in the cost of commodities, a higher value added tax rate, and currency hedging benefits in Q1 Fiscal 2011 that were not repeated, being largely offset by a number of price increases.

Gross margin also benefited from an improved net bad debt to total US sales ratio compared to Q1 Fiscal 2011 and leverage on store occupancy costs in the US division. The net bad debt to total US sales ratio was 1.6% (Q1 Fiscal 2011: 2.6%). In-house customer finance participation in the US division was 53.8% (Q1 Fiscal 2011: 51.9%).

Selling, general and administrative expenses for Q1 Fiscal 2012 were \$263.8 million (Q1 Fiscal 2011: \$238.5 million), up by 10.6%. The US division's expenses were well controlled and increases primarily reflected additional advertising expenses, performance based bonus accruals and targeted increases in other employee-related costs. In the UK division, selling, general and administrative expenses were also tightly controlled at constant exchange rates, but increased in US dollars due to movements in exchange rates. Unallocated costs, principally central costs, which include corporate and general administrative functions, were \$7.3 million (Q1 fiscal 2011: \$4.2 million), primarily reflecting changes in executive management structure.

In Q1 Fiscal 2012, other operating income increased by \$5.1 million to \$32.8 million (Q1 Fiscal 2011: \$27.7 million), up by 18.4%. This reflected a higher level of outstanding receivable balances.

In Q1 Fiscal 2012, net operating income increased by \$35.9 million to \$118.7 million (Q1 Fiscal 2011: \$82.8 million), up 43.4%. The US division's net operating income increased by \$37.8 million to \$126.2 million (Q1 Fiscal 2011: \$88.4 million), up 42.8%, while the net operating loss of the UK division decreased by \$1.2 million to \$0.2 million (Q1 Fiscal 2011: \$1.4 million loss).

Operating margin increased by 3.1% to 13.4% (Q1 Fiscal 2011: 10.3%). The US division's operating margin was up by 380 basis points to 17.1% (Q1 Fiscal 2011: 13.3%) and that of the UK division improved by 90 basis points to (0.1)% (Q1 Fiscal 2011: (1.0)%).

Interest expense, net

In Q1 Fiscal 2012, interest income was \$0.6 million (Q1 Fiscal 2011: \$0.1 million). Interest expense was \$1.5 million (Q1 Fiscal 2011: \$8.8 million), the decrease reflected the prepayment during Fiscal 2011 of \$280.0 million of private placement notes that incurred a blended fixed rate of interest of 8.11%.

Income before income taxes

For Q1 Fiscal 2012, income before income taxes increased by \$43.7 million to \$117.8 million (Q1 Fiscal 2011: \$74.1 million), up 59.0%.

Income taxes

Income tax expenses in Q1 Fiscal 2012 were \$42.4 million (Q1 Fiscal 2011: \$23.8 million), an effective tax rate of 36.0% (Q1 Fiscal 2011: 32.1%). The increase in the effective tax rate was due to a greater proportion of US income taxed at higher rates and the favorable resolution of non-recurring prior year tax issues in Q1 Fiscal 2011.

Net income

Net income for Q1 Fiscal 2012 increased by \$25.1 million to \$75.4 million (Q1 Fiscal 2011: \$50.3 million), up 49.9%.

Earnings per share

For Q1 Fiscal 2012, basic and diluted earnings per share were both \$0.87 (Q1 Fiscal 2011: \$0.59 and \$0.58), an increase of 47.5% and 50.0% respectively.

1. Basis of preparation

Signet Jewelers Limited (the "Company") and its subsidiaries (collectively, "Signet") is a leading retailer of jewelry, watches and associated services. Signet manages its business as two geographical segments, being the United States of America (the "US") and the United Kingdom (the "UK"). The US division operates retail stores under brands including Kay Jewelers, Jared The Galleria Of Jewelry and various regional brands, while the UK division's retail stores operate under brands including H.Samuel and Ernest Jones.

These condensed consolidated financial statements included herein have been prepared, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP") have been condensed or omitted from this report, as is permitted by such rules and regulations. In the opinion of management, the accompanying condensed consolidated financial statements reflect all adjustments, which are of a normal recurring nature, necessary for a fair presentation of the results for the interim periods. It is suggested that these condensed consolidated financial statements be read in conjunction with the consolidated financial statements and notes included in Signet's Annual Report on Form 10-K for the year ended January 29, 2011.

Correction of immaterial error

During the third quarter of Fiscal 2011, Signet changed its accounting for extended service plans. Previously, revenue from the sale of extended service plans was deferred, net of direct costs arising from the sale, and was recognized in proportion to the historical actual claims incurred. Signet has conducted a review of the claims cost patterns, including estimates of future claims costs expected to be incurred, and concluded that the deferral period required extension and that claims cost is a more appropriate basis for revenue recognition than the number of claims incurred. In addition, Signet now defers all revenues and recognizes direct costs in proportion to the revenue recognized. The policy is in accordance with ASC 605-20-25. The impact resulted in an overstatement of extended service plan revenue and an understatement of deferred revenue. These plans are only sold by the US division and therefore only affect the US segment reporting.

Signet evaluated the effects individually and in the aggregate and determined that its prior period financial statements were not materially misstated. However, Signet determined that the cumulative effect of adjusting this in the third quarter of Fiscal 2011 would be material to the Fiscal 2011 financial statements. Therefore, Signet adjusted the affected prior periods and presented the results in this quarterly report.

As a result of applying this correction, the following consolidated balance sheet, consolidated income statement and consolidated statement of cash flows were impacted as follows:

A number of non-GAAP measures are used by management to analyze and manage the performance of the business, and the required disclosures for these non-GAAP measures are given below. Management does not, nor does it suggest investors should, consider such non-GAAP measures in isolation from, or in substitution for, information prepared in accordance with US GAAP.

Income statement at constant exchange rates

Movements in the US dollar to pound sterling exchange rate have an impact on Signet's results. The UK division is managed in pounds sterling as sales and costs are incurred in that currency and its results are then translated into US dollars for external reporting purposes. Management believes it assists in understanding the performance of Signet and its UK division if constant currency figures are given. This is particularly so in periods when exchange rates are volatile. The constant currency amounts are calculated by retranslating the prior year figures using the current year's exchange rate. Management considers it useful to exclude the impact of movements in the pound sterling to US dollar exchange rate to analyze and explain changes and trends in Signet's sales and costs.

Free cash flow does not represent the residual cash flow available for discretionary expenditure.
