INDEPENDENT AUDITORS REPORT

To the Dynegy Inc. Benefit Plans Committee for

Dynegy Inc. 401(k) Savings Plan

We have audited the accompanying statements of net assets available for benefits of Dynegy Inc. 401(k) Savings Plan (formerly Dynegy Inc. Profit Sharing/401(k) Savings Plan) as of December 31, 2002 and 2001, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Dynegy Inc. 401(k) Savings Plan as of December 31, 2002 and 2001, and the changes in its net assets available for benefits for years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information included in the supplemental schedules of (1) nonexempt transactions, (2) assets (held at end of year), and (3) reportable transactions, together referred to as supplemental information, are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental information is the responsibility of the Plan's management. The supplemental information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

DYNEGY INC. 401(K) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2002 AND 2001

1. DESCRIPTION OF PLAN

The following description of the Dynegy Inc. 401(k) Savings Plan (formerly Dynegy Inc. Profit Sharing/401(k) Savings Plan) (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan s provisions.

General

Effective May 1, 1989, the predecessor company to Dynegy Inc. (collectively, the Company) established this plan which qualifies under Section 401(k) of the Internal Revenue Code (the Code). The Plan is a trustee, defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan and related trust are established and maintained for the exclusive benefit of participating employees of the Company and certain of its affiliates (the Company and its affiliates that participate in the Plan are each referred to herein as the Employer). The Dynegy Inc. Benefit Plans Committee serves as the Plan Administrator for the Plan.

In April 1995, the Company acquired Trident NGL, Inc. (Trident). In connection with the acquisition, the Trident NGL, Inc. Savings Plan was merged with and into the Plan.

In June 1997, the Company acquired Destec Energy, Inc. (Destec). In connection with the acquisition, Destec employees began participating in the Plan effective October 1, 1997.

Participant Accounts

Each participant s accounts are credited with the participant s contribution and allocations of the Employer s contribution and Plan earnings. Please see Note 7 for a discussion of certain unremitted contributions. For participants with loans, a loan administrative fee is charged to their account.

Forfeitures

Edgar Filing: DYNEGY INC /IL/ - Form 11-K

Forfeitures are applied to reduce Employer matching contributions and/or to pay Plan administrative expenses. For the year ended December 31, 2002, the forfeiture balance totaled \$1,724,304 and was used to reduce the Employer matching contribution receivable. Please see Note 7 for a discussion of certain unremitted contributions.

Investment of Funds

Each participant has the right upon enrollment to select the fund(s) into which the participant's before-tax, after-tax and rollover contributions (and the earnings allocable thereto) will be invested. A participant may change the allocation of such contributions

Table of Contents

made to the selected funds or transfer amounts among investment funds anytime during the Plan year. Employer matching and discretionary contributions are initially made in shares of Dynegy common stock and held in the Dynegy Stock Fund (the Dynegy Stock Fund). A participant may transfer such contributions (and the earnings allocable thereto) among investment funds anytime after they are initially credited to his or her accounts.

Eligibility and Contributions

All employees of the Employer are eligible to participate in the Plan other than (a) employees covered by a collective bargaining agreement (unless such agreement provides for coverage under the Plan), (b) nonresident aliens, (c) leased employees, (d) employees who have waived participation in the Plan, and (e) individuals who are deemed to be employees under certain Treasury regulations. Although participation in the Plan commences immediately upon employment as an eligible employee, a participant's election to make before-tax and/or after-tax contributions to the Plan is voluntary. Notwithstanding the foregoing, participation in the Plan is voluntary for an eligible employee who is also entitled to accrue a benefit under the Dynegy Midstream Services Retirement Plan (formerly the Trident NGL, Inc. Retirement Plan) (the Dynegy Midstream Plan), and such an employee will not be eligible to receive an allocation of Employer discretionary contributions under the Plan.

Participants may make before-tax contributions by payroll deduction up to the legal dollar limit. Participants may also make after-tax contributions in cash or by payroll deduction. Total contributions are limited to the extent required by law. A participant may roll-over into the Plan amounts previously invested in another retirement plan.

The Employer contributes a monthly match to the Plan equal to 100% of the participant's monthly before-tax contributions that are not in excess of 5% of the participant's compensation for the month. In addition, for each calendar year the Employer makes a true-up matching contribution on behalf of each participant who was an eligible employee on the last day of the year. The true-up matching contribution equals the difference, if any, between (a) 100% of the before-tax contributions made during the year by the eligible participant that were not in excess of 5% of his or her compensation for the year and (b) the aggregate amount of monthly matching contributions made on behalf of such eligible participant during the year. All employer matching contributions are made in shares of Dynegy common stock and are initially held in the Dynegy Stock Fund in the Master Trust. Dividends on stock held in the Dynegy Stock Fund are also invested in the Dynegy Stock Fund.

For the Plan year 2001, the Employer was required to make a profit-sharing contribution to the Plan in cash in an amount equal to 5% of compensation on behalf of each participant (a) who terminated employment prior to December 1, 2001, (b) whose termination of employment occurred on or after attaining age 65 or by reason of death or disability, and (c) who, immediately prior to such termination, was not accruing benefits under the Dynegy Midstream Plan. For 2001, the Employer made profit-sharing contributions in the amount of \$4,358. The Employer is not required to make a profit-sharing contribution for any Plan year beginning on or after January 1, 2002.

Table of Contents

In addition, the Employer may make a discretionary contribution for a calendar year that is allocated based on compensation to (a) participants who are eligible employees on the last day of the year and who are not accruing benefits under the Dynegy Midstream Plan and (b) participants who terminated employment during the year on or after attaining age 65 or by reason of death or disability and who, immediately prior to such termination, were not accruing benefits under the Dynegy Midstream Plan. The discretionary contribution is made in shares of Dynegy common stock which is initially held in the Dynegy Stock Fund. No contributions were made under this arrangement during plan year 2002. During 2001, the Employer allocated 858,858 shares of Dynegy Inc. common stock as discretionary contributions.

Vesting

Generally, participants vest in Employer matching and Employer profit sharing and discretionary contributions as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
1	25
2	50
3	75
4	100

Participants also become 100% vested in such contributions upon (a) attaining normal retirement age (age 65) while employed by the Employer or (b) termination of employment with the Employer by reason of disability or death.

Forfeitures are used to offset future Employer matching contributions and/or to pay Plan administrative expenses.

On December 19, 2002, the Plan was amended to provide for 100% vesting in the account balances of the following participants: (a) each participant employed by Northern Natural Gas Company on the date of the sale of that entity to MidAmerican Energy Holdings Company (August 2002); (b) each participant whose employment was involuntarily terminated by the Employer for a reason other than cause during the Plan year beginning on January 1, 2002; and (c) each participant whose employment was involuntarily terminated by the Employer for a reason other than cause during the Plan year beginning on January 1, 2003 if such participant was notified of such termination and his or her transition status in connection with the Employer's reduction in force that occurred on October 21, 2002.

Employee before-tax, after-tax and rollover contributions are 100 percent vested and non-forfeitable at all times.

Table of Contents

Distributions

Prior to May 1, 2002, participants could elect to receive their distributions in a lump sum, in periodic installment payments or in various annuity forms. From and after May 1, 2002, only lump sum distributions are available under the Plan. All distributions are made in cash, except that a participant may elect to have the portion of his or her account that is invested in the Dynegy Stock Fund distributed in shares of Dynegy common stock.

Generally, a participant can defer the receipt of his or her distribution until April 1 of the calendar year following the later of the calendar year in which he or she reaches age 70 1/2 or the calendar year in which he or she terminates employment. However, an automatic lump sum distribution will be made upon termination of employment if the participant's aggregate account balance (excluding the portion thereof attributable to rollover contributions) is not in excess of \$5,000.

The Plan permits a variety of in-service withdrawals. Any participant may withdraw amounts credited to his or her after-tax account and rollover account. A participant who has attained age 59 1/2 may withdraw amounts from his or her before-tax account and the vested interest in his or her employer contribution account. A hardship withdrawal is also permitted under the Plan. In addition, certain special in-service withdrawal rights apply to amounts that have been transferred to the Plan from other retirement plans.

Loans to Participants

The Plan allows participants to borrow from their Plan accounts an amount not to exceed the lesser of \$50,000 (reduced by the excess of the highest outstanding balance of loans during the one-year period before the date the loan is made over the outstanding balance of loans on the date the loan is made) or 50% of the vested account balance (other than the portion of such account balance that is invested under the directed brokerage investment fund option). Interest is charged on these loans at a rate commensurate with interest rates charged by persons in the business of lending money for similar type loans. For 2002, the interest rate ranged from 5.25% to 10%. The rate for 2001 ranged from 7% to 10%.

All loans made will mature and be payable in full no earlier than one year and no later than five years from the date of the loan. An exception exists when the loan is used by the participant to acquire his or her principal residence. In this case, the loan will mature and be payable in full no earlier than one year and no later than ten years from the date of the loan. Loan repayments are made by payroll deductions authorized by the participant while the participant remains employed by the Employer or an affiliate. After termination of employment and before receiving a distribution from the Plan, a participant may continue to make loan payments directly to the Trustee. Interest paid on the loan is credited to the participant's account. The Trustee maintains a Loan Fund to hold the balances of participants' loans.

Table of Contents

Termination of the Plan

The Employer intends to continue the Plan indefinitely but reserves the right to terminate the Plan at any time by resolution of the Company's board of directors.

In the event the Plan is terminated and the Company does not maintain or establish another defined contribution plan, the assets of the trust fund will be liquidated and each participant will be entitled to receive the entire amount of his or her account.

Plan Changes and Amendments

Effective January 1, 2002, the Plan changed its name to the Dynegy Inc. 401(k) Savings Plan.

Effective January 1, 2002, the Employer will not make an Employer profit-sharing contribution for any Plan year beginning on or after January 1, 2002.

Effective January 1, 2002, the Plan was amended and restated. The Plan also changed recordkeepers and trustees from CIGNA to Vanguard Fiduciary Trust Company. As a result, the investment options offered to the Plan's participants changed. In order to facilitate this transition, it was necessary to impose a "Quiet Period" as adopted in an amendment dated November 30, 2001. The Quiet Period commenced on November 30, 2001 (December 20, 2001 for investment changes and contribution rate changes) and ended on January 18, 2002. During this period, requests for, and processing of, distributions, withdrawals, changes in participant contribution rates and loans were temporarily suspended. In addition, participants were unable to change investment designations with respect to future or existing allocations.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying Plan financial statements are prepared on the accrual basis of accounting.

Investments

Participant loans included in the loan fund are valued at cost, which approximates fair value. Other investments are stated at fair value based on the latest quoted market price. Shares of mutual funds are valued at the net asset value of shares held by the Plan at the year end.

Edgar Filing: DYNEGY INC /IL/ - Form 11-K

The investments held in the Master Trust are stated at fair value as determined by the Trustee based on the latest quoted market values of the underlying securities. Securities for which no quoted market value is available are valued at fair value as determined in good faith by or under the direction of the Trustee. The Trustee determines the Plan's interest in

Table of Contents

the market value of the Master Trust's net assets in accordance with a computational method agreed upon between the Plan Administrator and the Trustee. The Dynegy Stock Fund and the Stable Value Fund, however, are identified with each plan on an actual basis. At December 31, 2002 the Plan's interest in the Master Trust was approximately 46%.

Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect the amounts reported in the Statement of Net Assets Available for Benefits.

Income

Net appreciation (depreciation) of investments is comprised of realized and unrealized gains and losses. Realized gains or losses represent the difference between proceeds received upon sale and the average cost of the investment. Unrealized gain or loss is the difference between market value and cost of investments retained in the Plan (at financial statement date). For the purpose of allocation to participants, the Dynegy Stock Fund is valued by the Plan at its unit price (comprised of market price plus uninvested cash position) on the date of allocation and current unit price is used at the time of distribution to participants resulting in a realized gain or loss and is reflected in the income from the Plan's investment in the Master Trust.

Investment income from the Plan's investment in the Master Trust consists of the Plan's proportionate share of the Master Trust's interest and dividend income and investment income from net appreciation (depreciation) in fair value of investments.

The Trustee records dividend income as of the ex-dividend date and accrues interest income as earned. Realized gains and losses on security sales are computed on an average cost basis. Purchases and sales of securities are recorded on a trade-date-basis.

Expenses

Most expenses incurred in the administration of the Plan and the related Trusts are paid by the Employer. These expenses include fees and expenses of the Trustee, fund managers, consultants, auditors, and legal personnel.

Income Taxes

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated June 18, 2002 that the Plan and related trust are designed in accordance with applicable sections of the IRC. The IRS determination letter does not cover several amendments, including the amendment and restatement of the Plan effective January 1, 2002 and subsequent amendments. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Table of Contents

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ materially from these estimates.

Distribution of benefits

Distributions of benefits are recorded when paid.

Reclassification

Certain prior year balances have been reclassified to conform to current year presentation.

3. INVESTMENT CONTRACT WITH INSURANCE COMPANY

On January 1, 2001, the Plan entered into an investment contract with Connecticut General Life Insurance Company (the Insurance Company). The Insurance Company maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawal and administrative expense. The contract is included in the financial statements at contract value as reported to the Plan by the Insurance Company. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rate was approximately six percent for 2001. The crediting interest rate is based on an agreed-upon formula from the issuer, but may not be less than five percent. Such interest rates are reviewed on a quarterly basis for resetting.

Table of Contents**4. INVESTMENTS**

Plan investments are received, invested and held by the Trustee. Individual investments that represent 5% or more of the Plan's net assets available for benefits include:

Investments at fair market value as**determined by quoted market price**

	Fair value at December 31	
	2002	2001
Plan interest in Master Trust	\$ 19,790,206	\$
Dynegy Common Stock	*	62,862,547
CIGNA Guaranteed Long-term Fund		30,538,282
CIGNA Stock Market Index Fund		16,970,302
Fidelity Growth Opportunities Fund		14,299,636
CIGNA Lifetime 40 Fund		10,642,607

Vanguard Retirement Savings Trust	29,426,668	

* Includes both participant-directed and nonparticipant-directed investments. See Note 8.

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by \$87,471,465 and \$85,788,230 during 2002 and 2001 as follows:

	2002	2001
Plan interest in Master Trust	\$ 70,739,836	\$
Employer securities		74,721,964
Pooled separate accounts		11,066,266
Registered investment companies	16,731,629	
	\$ 87,471,465	\$ 85,788,230

5. PARTICIPATION IN MASTER TRUST

Effective January 1, 2002, the Plan began participating in a master trust investment agreement, with the Illinois Power Company Incentive Savings Plan, Illinois Power Company Incentive Savings Plan for Employees Covered Under A Collective Bargaining Agreement and Extant Inc. 401(k) Plan.

----------------------------	----------------

Table of Contents

6. TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain Plan investments are shares of mutual funds managed by Vanguard Fiduciary Trust Company. Vanguard Fiduciary Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid during the year for legal, accounting, and other professional services rendered by parties-in-interest were based on customary and reasonable rates for such services.

7. UNREMITTED CONTRIBUTIONS

During Plan year 2002, the Employer failed to remit an aggregate of \$467,552 in participant and Employer contributions to the Plan within the time period required by the Department of Labor. These failed remittances resulted from the Employer's inconsistent transmittal of manual check deductions and processing errors primarily relating to the electronic transmission to the Plan recordkeeper of deductions made by certain employee groups. The unremitted contributions have been accrued as a receivable in the Plan financial statements as of December 31, 2002 and were credited to the appropriate participant accounts subsequent to year end. As of the date of this report, the amounts that would have been earned on the unremitted contributions are being calculated and will be credited to the appropriate participant accounts. The Employer has failed to remit certain participant and Employer contributions during Plan year 2003. Through May 31, 2003, the amount of unremitted contributions is \$126,500. The Employer is addressing this matter and intends to credit proper amounts to the affected participants as soon as practicable.

The Employer has identified the participants affected by its failed remittances and is currently developing a formal audit procedure as well as a technical solution to ensure that all contributions are remitted timely. The Employer also is developing an appropriate methodology for calculating the amounts that would have been earned on the unremitted contributions and a plan for crediting to appropriate participant accounts the amount of such earnings, together with the participant and Employer contributions that currently remain unremitted, as soon as practicable. In the interim, the Employer has strengthened its monitoring process with respect to participant deductions in an attempt to verify that they are timely remitted to the Plan recordkeeper and appropriately posted to participant accounts.

Under applicable Department of Labor regulations, participant contributions that are not remitted timely are considered to give rise to prohibited transactions and are treated as borrowed funds during the period in which they are not timely remitted. Employers generally address prohibited transactions of this type by calculating interest on the amount of unremitted contributions, after adjusting such amount for the earnings that would have been earned thereon, and crediting the total amount of adjusted unremitted contributions and interest to the appropriate participant accounts. Additionally, a corresponding excise tax for each taxable year in an amount equal to 15% of the fair market value of the use of the late contributions (adjusted for earnings) must be paid by the employer. As described above, the Employer is currently developing an appropriate methodology for calculating the amounts that would have been earned on the unremitted contributions, together with interest on the then adjusted unremitted contributions, and intends to credit the calculated amounts to the appropriate participant accounts and pay the required excise tax as soon as practicable following completion of such calculations.

8. NONPARTICIPANT-DIRECTED INVESTMENTS

All funds in the Plan are participant directed, with the exception that Employer matching and discretionary contributions are initially invested in the Dynegy Stock Fund. Participants may diversify the investment of Employer matching and discretionary contributions after such amounts are initially credited to their accounts. Information about the net assets available for benefits and the significant components of the changes in net assets available for benefits relating to the Dynegy Stock Fund is as follows:

9. COMMITMENTS AND CONTINGENCIES

On July 24, 2002 the Plan Administrator received notification from the US Department of Labor (DOL), Employee Benefits Security Administration, of an investigation of the Plan under section 504 of the Employee Retirement Income Security Act of 1974 (ERISA). The investigation relates to the plan year ended December 31, 1998 and subsequent years, and is in progress as of the date of this report.

On August 15, 2002, a purported class action complaint was filed against the Company in the United States District Court for the Southern District of Texas (Houston Division) alleging ERISA violations. The lawsuit concerns the Plan and claims that the Company's Board of Directors and certain former and current officers involved in the administration of the Plan breached their fiduciary duties to the Plan's participants and beneficiaries in connection with the Plan's holdings of Dynegy common stock. The lawsuit seeks unspecified damages for the losses to the Plan resulting from the alleged breaches of fiduciary duties, as well as attorney's fees and certain other costs. The putative class was defined as participants holding Dynegy common stock in the Plan as of April 17, 2001 or later. On February 12, 2003, the plaintiffs filed an amended complaint, which extended the putative class period back to April 27, 1999. Additional past Company Board members were named as defendants, as were past and present members of the Company's Benefit Plans Committee. The amended complaint alleges that the Company's earnings and business conditions were misstated from 1999 forward and that, during such period, the Company and members of its Board of Directors, including members of the Board's Compensation and Human Resources Committee, breached fiduciary duties by failing to disclose to the Benefit Plans Committee information regarding risks associated with its business due to misstatements about its revenues, earnings and operations and by failing to monitor the Benefit Plans Committee. The amended complaint further alleges that the Benefit Plans Committee breached fiduciary duties by failing to disclose complete and accurate information with respect to the suitability of investing in Dynegy common stock and by failing to eliminate Dynegy common stock as a Plan investment option, and that the Benefit Plans Committee breached their duty of loyalty to discharge their duties to the Plan solely in the interest of the participants and beneficiaries. The amended complaint also alleges that the Company breached co-fiduciary duties under ERISA and, to the extent it is found not to be a fiduciary, that it benefited by knowingly participating in fiduciary breaches by others. The plaintiffs filed a second amended complaint on April 7, 2003, which names as additional defendants certain former employees who served on a predecessor committee to the Benefit Plans Committee. Plaintiffs have also named the Plan recordkeeper and trustee as a third-party defendant in the lawsuit.

10. SUBSEQUENT EVENTS

Subsequent to December 31, 2002, the per share market price of Dynegy Inc. common stock increased from \$1.18 as of December 31, 2002 to \$4.25 as of June 20, 2003. As of May 31, 2003, the fair value of the Plan's investments totaled \$143,667,678 including \$38,887,147 in the Dynegy Stock Fund.
