**NOTE 1: ARGENTINE ECONOMIC SITUATION**

Argentina is immersed in a critical economic situation. The main features of the current economic context are a major external debt burden, a financial system in crisis, and an economic recession that has led to a significant decrease in the demand for goods and services and a large rise in the level of unemployment, mainly through the end of 2002.

To overcome the mentioned crisis, as from December 2001 the government issued measures, laws, decrees and regulations that involved profound changes to the prevailing economic model. Among the measures adopted was the floating of the exchange rate that led to a significant devaluation during the first months of 2002, and the pesification of certain assets and liabilities in foreign currency held in Argentina.

This situation generated a significant and uneven increase in economic indicators, such as the rate of exchange, the domestic wholesale price index used for restatement of the financial statements for the previous year and specific indicators for the Company's goods and services, mainly during 2002. These circumstances affect comparability of the financial statements submitted, which must be interpreted in the light of those circumstances.

**Impact on the Company's financial position**

As mentioned in Note 5 to the basic unaudited financial statements, during November 2002, the Company successfully completed the restructuring of its financial debt.

Along these lines, the current cash position will enable the Company to take advantage of the opportunities available on the real estate market, as it did over the previous decade.

**IRSA Inversiones y Representaciones Sociedad Anónima****and subsidiaries****Notes to the unaudited consolidated financial statements (Contd.)****NOTE 2: BASIS OF CONSOLIDATION CORPORATE CONTROL**a. Basis of consolidation

The Company has consolidated its Balance Sheets at September 30, 2003 and June 30, 2003 and the statements of results and cash flow for the period ended September 30, 2003 and 2002 line by line with the financial statements of its controlled companies, following the procedure established in Technical Pronouncement No. 21 of the Argentine Federation of Professional Councils in Economic Sciences and approved by the Professional Council in Economic Sciences of the Autonomous City of Buenos Aires, although not yet approved by the National Securities Commission. The application of this pronouncement to the financial statements of the Company does not differ significantly from the Technical Pronouncements Nos. 4 and 5 and the amendments of Technical Pronouncements 17 and 18.

All significant intercompany balances and transactions have been eliminated in consolidation.

The following table shows the data concerning the corporate control:

b. Consideration of the effects of inflation

The financial statements have been prepared in constant monetary units, reflecting the overall effects of inflation through August 31, 1995. As from that date, in accordance with professional accounting standards and the requirements of the control authorities, restatement of the financial statements has been discontinued until December 31, 2001. As from January 1, 2002, in accordance with professional accounting standards, recognition of the effects of inflation in these unaudited financial statements has been reestablished, considering that the accounting measurements restated due to changes in the purchasing power of the currency until August 31, 1995 as well as those arising between that date and December 31, 2001 are stated in currency of the latter date.

On March 25, 2003, the National Executive Branch issued Decree No. 664 establishing that the financial statements for years ending as from that date must be stated in nominal currency. Consequently, in accordance with Resolution No. 441 issued by the National Securities Commission, the Company discontinued the restatement of its financial statements as from March 1, 2003. This criterion is not in line with current professional accounting standards. At September 30, 2003, there is a divergence of Ps. 3,260 thousand that would reduce the loss for the period. From July to September 2003, an inflation of 1 % was recorded.

The rate used for restatement of items in these unaudited financial statements is the domestic wholesale price index published by the National Institute of Statistics and Census.

The following concepts are included together in the Statement of Operations as Financial results generated by assets and Financial results generated by liabilities :

a. The result due to exposure to changes in the purchasing power of the currency

b. Other holding gains and losses arising during the period.

c. Financial results.

c. Comparative information

Balances at September 30, 2002 shown in these unaudited financial statements for comparative purposes result from restating the amounts in the financial statements at those dates following the guidelines indicated in Note 2.b.

Certain reclassifications of prior information have been made to conform with the current period presentation.

d. Acquisition of related companies

During the year ended at June 30, 2003, the Company acquired 30.955% of the capital stock and registered, non-endorsable, convertible negotiable obligations issued by Valle de Las Leñas S.A., falling due on October 31, 2005, with a face value of US\$ 3.7 million, for approximately US\$ 2.4 million. On March 4, 2003, the Company sold all its shareholding and negotiable obligations in Valle de las Leñas S.A. for US\$ 6.5 million.

**NOTE 3: SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the subsidiaries mentioned in Note 2, have been prepared on a consistent basis with those applied by IRSA Inversiones y Representaciones Sociedad Anónima.

a. Shares and options of Banco Hipotecario S.A.

The shares in Banco Hipotecario S.A. held by Ritelco S.A. (a wholly-owned subsidiary) have been valued at their quotation at the end of the period, less estimated selling expenses, while options were valued at restated cost as mentioned in Note 1.4 to the individual financial statements or estimated net realizable value, whichever is lower.

b. Revenue Recognition

The Company's revenues mainly stem from office rental, shopping center operations, development and sale of real estate, hotel operations and, to a lesser extent, from e-commerce activities.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

See Note 4 for details on the Company's business segments. As discussed in Note 2.a., the consolidated statements of results were prepared following the guidelines of Technical Resolution No. 21 of the F.A.C.P.C.E.

**and subsidiaries**

**Notes to the unaudited consolidated financial statements (Contd.)**

**NOTE 3:** (Continued)

b. Revenue Recognition (Continued)

Leases and services from shopping center operations

Leases with tenants are accounted for as operating leases. Tenants are generally charged a rent, which consists of the higher of (i) a monthly base rent (the Base Rent ) and (ii) a specified percentage of the tenant's monthly gross retail sales (the Percentage Rent ) (which generally ranges between 4% and 8% of tenant's gross sales).

Furthermore, pursuant to the rent escalation clause in most leases, a tenant's Base Rent generally increases between 4% and 7% each year during the term of the lease. Minimum rental income is recognized on a straight-line basis over the term of the lease. Certain lease agreements contain provisions, which provide for rents based on a percentage of sales or based on a percentage of sales volume above a specified threshold. The Company determines the compliance with specific targets and calculates the additional rent on a monthly basis as provided for in the contracts. Thus, these contingent rents are not recognized until the required thresholds are exceeded.

Generally, the Company's lease agreements vary from 36 to 120 months. Law No. 24,808 provides that tenants may rescind commercial lease agreements after the initial six months, upon not less than 60 days' written notice, subject to penalties which vary from one to one and a half months rent if the tenant rescinds during the first year of its lease, and one month of rent if the tenant rescinds after the first year of its lease. The Company also charges its tenants a monthly administration fee, prorated among the tenants according to their leases, which varies from shopping center to shopping center, relating to the administration and maintenance of the common area and the administration of contributions made by tenants to finance promotional efforts for the overall shopping centers operations.

Administration fees are recognized monthly when earned. In addition to rent, tenants are generally charged admission rights , a non-refundable admission fee that tenants may be required to pay upon entering into a lease and upon lease renewal. Admission right is normally paid in one lump sum or in a small number of monthly installments. Admission rights are recognized using the straight-line method over the life of the respective lease agreements. Furthermore, the lease agreements generally provide for the reimbursement of real estate taxes, insurance, advertising and certain common area maintenance costs. These additional rents and tenant reimbursements are accounted for on the accrual basis.

**Notes to the unaudited consolidated financial statements (Contd.)**

**NOTE 3:** (Continued)

b. Revenue Recognition (Continued)

Credit card operations

Revenues derived from credit card transactions consist of commissions and financing income. Commissions are recognized at the time the merchants' transactions are processed, while financing income is recognized when earned.

Hotel operations

The Company recognizes revenues from its rooms, catering, and restaurant facilities as earned on the close of business each day.

International operations

Subsequent to the sale of Brazil Realty in February 2002, the Company did not make any new investment in this industry.

c. Intangible assets, net

Intangible assets are carried at cost adjusted for inflation, less accumulated depreciation.

Trademarks

Trademarks include the expenses and fees related to their registration.

Pre-operating expenses

This item reflects expenses generated by the opening of new shopping malls and the new e-business projects restated into year-end currency. Those expenses are amortized by the straight-line method in periods ranging from 2 to 3 years for each shopping mall or project, beginning as from the date of inauguration or commencement of operations.

**Notes to the unaudited consolidated financial statements (Contd.)**

**NOTE 3:** (Continued)

c. Intangible assets, net (Continued)

Advertising expenses

Advertising expenses relate to the Torres de Abasto project, the opening of Abasto Shopping adjusted for inflation at the end of the year. The expenses incurred in relation to Torres de Abasto project are recognized in the statement of operations as determined under the percentage-of-completion method. Other advertising expenses are amortized under the straight-line method over a term of 3 years.

Investment projects

Investment projects represent expenses primarily related to marketing efforts incurred by the Alto Palermo S.A for the selling of merchandise through certain means of communication. These costs are amortized to income under the straight-line method as from the start up date of the project. These expenses are written off upon abandonment or disposal of project.

Tenants list-Patio Bullrich

This item represents the acquired tenant list of the Patio Bullrich shopping mall restated following the guidelines mentioned in Note 1.4. and is amortized using the straight-line method over a five-year period.

Intangible assets include advertising costs incurred by the subsidiary APSA, that cannot be capitalized in accordance with current accounting standards, but which will be amortized in the coming year by the Company through application of transition rules.

The value of these assets, net of the provision recorded, does not exceed the estimated recoverable value at the end of the year.

d. Goodwill

Negative goodwill represents the market value of net assets of the subsidiaries at the percentage participation acquired in excess of acquisition cost. Goodwill has been restated following the guidelines mentioned in Note 1.4. to the basic financial statements and amortization has been

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

calculated by the straight-line method based on an estimated life of 18 years, considering the weighted average of the remaining useful life of identifiable assets of the issuer subject to depreciation.

Amortization has been classified under Depreciation of goodwill in the Statements of Results.

**NOTE 4: SEGMENT INFORMATION**

The Company has determined that its reportable segments are those that are based on the Company's method of internal reporting. Accordingly, the Company has six reportable segments. These segments are Development and sales of properties, Office and other non-shopping center rental properties, Shopping centers, Hotel operations, International and Others. As discussed in Note 2.a., the consolidated financial statements of results were prepared following the guidelines of Technical Resolution No. 21.

A general description of each segment follows:

Development and sale of properties

This segment includes the operating results of the Company's construction and ultimate sale of residential buildings business, undeveloped parcels of lands and others properties sold by the Company.

Office and other non-shopping center rental properties

This segment includes the operating results of the Company's lease and service revenues of office space and other non-retail building properties from tenants.

Shopping centers

This segment includes the operating results of the Company's shopping centers principally comprised of lease and service revenues from tenants. This segment also includes revenues derived from credit card transactions that consist of commissions and financing income.

Hotel operations

This segment includes the operating results of the Company's hotels principally comprised of room, catering and restaurant revenues.

International

Subsequent to the sale of Brazil Realty in February 2002, the Company did not make any new investment in this industry.

Financial operations and others

This segment primarily includes revenues and associated costs generated from the sale of equity securities, other securities-related transactions and other non-core activities of the Company. This segment also includes the results in equity investees of the Company relating to Internet, telecommunications and other technology-related activities of the Company.

The Company measures its reportable segments based on net income. Inter-segment transactions, if any, are accounted for at current market prices. The Company evaluates performance of its segments and allocates resources to them based on net income. The Company is not dependent on any single customer.

The accounting policies of the segments are the same as those described in Note 1 to the financial statements and in Note 3 to the unaudited consolidated financial statements.

Puerto Retiro S.A.: extension of the bankruptcy

On April 18, 2000, Puerto Retiro S.A. was notified of a filing made by the National Government, through the Ministry of Defense, to extend the petition in bankruptcy of Inversora Dársena Norte S.A. (Indarsa) to Puerto Retiro S.A. Concurrently with the complaint, at the request of plaintiff, the bankruptcy court granted an order restraining the ability of Puerto Retiro to sell or dispose in any manner the real estate property purchased from *Tandanor S.A.* ( *Tandanor* ).

Indarsa had purchased 90% of the capital stock of Tandanor, a formerly state owned company privatized in 1991, engaged in the shipyard industry.

In June 1993, Tandanor sold the plot of land near Puerto Madero denominated *Planta 1* to Puerto Retiro S.A.

Indarsa did not comply with the payment of the outstanding price for the purchase of the stock of Tandanor, and therefore the Ministry of Defense requested the bankruptcy of Indarsa. Since the only asset of Indarsa were the shareholdings in Tandanor, the Ministry of Defense is pursuing to extend the bankruptcy to other companies or individuals which, according to its view, acted as an economic group, and therefore, requested the extension of the bankruptcy to Puerto Retiro which acquired *Planta 1* from Tandanor. The lawsuit is at its first stages. Puerto Retiro S.A. answered the claim and appealed the preventive measures ordered. This appeal was overruled on December 14, 2000.

Puerto Retiro S.A. believes, pursuant to the advice of its legal advisors, that the plaintiff's claim shall be rejected by the courts.

Hoteles Argentinos S.A.: mortgage loan

The Extraordinary Shareholders Meeting of Hoteles Argentinos S.A. held on January 5, 2001, approved taking a long-term mortgage loan from Bank Boston N.A. for a total of US\$ 12,000,000 to be used to refinance existing debts. The term of the loan was agreed at 60 months payable in 19 equal and quarterly installments of US\$ 300,000 and one final payment of US\$ 6,300,000. The agreement was signed on January 26, 2001.

**NOTE 17: TARSHOP CREDIT CARD RECEIVABLE SECURITIZACION**

Alto Palermo S.A. has ongoing revolving period securitization programs through which Tarshop, a majority-owned subsidiary of APSA, transfers a portion of its customer credit card receivable balances to a master trust (the Trust ) that issues certificates to public and private investors.

To the extent the certificates are sold to third parties, the receivables transferred qualify as sales for financial statement purposes and are removed from the APSA balance sheet. The remaining receivables in the Trust which have not been sold to third parties are reflected on the APSA balance sheet as a retained interest in transferred credit card receivables. Under these programs, APSA acts as the servicer on the accounts and receives a fee for its services.

Under the securitization programs, the Trust may issue two types of certificates representing undivided interests in the Trust - Títulos de Deuda Fiduciaria ( TDF ) and Certificados de Participación ( CP ), which represent debt, and equity certificates, respectively. Interest and principal services are paid periodically to the TDF holders throughout the life of the security. CPs are subordinated securities which entitle the CP holders to share pro rata in the cash flows of the securitized credit card receivables, after principal and interest on the TDFs and other fees and expenses have been paid. During the revolving period no payments are made to TDF and CP holders. Principal collections of the underlying financial assets are used by the Trust to acquire additional credit card receivables throughout the revolving period. Once the revolving period ends, a period of liquidation occurs during which: (i) no further assets are purchased and (ii) all cash collections are used to fulfill the TDF service requirements and (iii) the remaining proceeds are used to fulfill the CPs service requirements.

Alto Palermo S.A. entered into two-years revolving-period securitization programs, through which Tarshop sold an aggregate amount of Ps. 83.1 million of its customer credit card receivable. Under the securitization programs, the Trusts issued Ps. 12.4 million nominal value subordinated CPs, Ps. 23.8 million 12% fixed-rate interest TDFs and Ps. 20.0 million 18% fixed-rate interest TDFs, and Ps. 6.9 million variable rate interest TDFs. Tarshop acquired all the CPs at an amount equal to their nominal value while the TDFs were sold to other investors through a public offering in Argentina. As a credit protection for investors, Tarshop has established cash reserves for losses amounting to Ps. 0.2 million.

That reduction has not yet been submitted to the approval of the corresponding control authorities.

**NOTE 19: IRSA INTERNATIONAL LIMITED INVESTMENT'S IN IRSA TELECOMUNICACIONES N.V.**

In the fourth quarter of the year ended June 30, 2000, the Company had invested US\$ 3.0 million, in the form of irrevocable capital contributions, into two unrelated companies, namely, Red Alternativa S.A., a provider of satellite capacity to Internet service providers, and Alternativa Gratis S.A., an Internet service provider (referred to herein as the Companies ). At that date, the Companies were development stage companies with no significant operations.

Between July 2000 and August 2000, the Company, together with Dolphin Fund Plc, increased their respective investments in the above mentioned Companies, in exchange for shares of common stock. In a series of transactions, which occurred between August 2000 and December 2000, (i) the Company formed IRSA Telecomunicaciones N.V. ( ITNV ), a holding company organized under the laws of the Netherlands Antilles, for the purposes of completing a reorganization of the Companies (the Reorganization ) and (ii) the Company, Dolphin Fund Plc and the previous majority shareholder of the Companies contributed their respective ownership interests in the Companies into ITNV in exchange for shares of common stock of ITNV.

**NOTE 19:** (Continued)

In September and December 2000, the Company had made additional contributions to ITNV for US\$ 3 million, generating an increase in its participation in the capital stock at that date of 62%.

As a result of the Reorganization, the Companies are now wholly owned subsidiaries of ITNV. Following the Reorganization, the Company held a 49.36% interest in ITNV.

On December 27, 2000, the shareholders of ITNV entered into an agreement with Quantum Industrial Partners LDC ( QIP ) and SFM Domestic Investment LLC ( SFM and together with QIP referred to herein as the Investors ) (the Shareholders Agreement ), under which the Investors contributed US\$ 4.0 million in cash in exchange for 1,751,453 shares of Series A mandatorily redeemable convertible preferred stock and an option to purchase 2,627,179 additional shares of mandatorily redeemable convertible preferred stock. Pursuant to the terms of the Shareholders Agreement, options were granted for a period up to five years and at an exercise price equal to the quotient of US\$ 6.0 million by 2,627,179 preferred shares. On or after December 27, 2005, ITNV might be required, at the written request of holders of the then outstanding Series A preferred stock to redeem such holders outstanding shares of series A preferred stock for cash at the greater of (i) 200% of the original issue price multiplied by the number of preferred stock to be redeemed, and (ii) the fair market value of the common shares each holder of Series A preferred stock would have been entitled to receive if such holder had converted the number of Series A preferred stock to be redeemed into common stock at the redemption date; plus in the case of (i) and (ii), any accrued or declared but unpaid dividends.

**NOTE 20: MORTGAGE RECEIVABLE SECURITIZATION**

The Board of Directors of IRSA, in the meeting held on November 2, 2001, authorized the setting up of a financial trust for the securitization of Company receivables. The trust program for issuing participation certificates, under the terms of Law No. 24.441, was approved by the National Securities Commission by means of Resolution No. 13.040, dated October 14, 1999, as regards the program and in particular as regards the Trust called IRSA I following a decision of the Board of Directors dated December 14, 2001.

On December 17, 2001, IRSA, Inversora Bolívar S.A. and Baldovinos S.A., parties of the first part (hereinafter the Trustors ) and Banco Sudameris Argentina S.A., party of the second part (hereinafter the Trustee ), have agreed to set up the IRSA I Financial Trust under the Global Program for the Issuance of FIDENS Trust Values, pursuant to the contract entered into on November 2, 2001.

Under the above program, the trustors have sold their personal and real estate credits, secured with mortgages or arising from bills of sale with the possession of the related properties, for the total amount US\$ 26,585,774 to the Trustee, in

exchange for cash and the issuance by the Trustee of Participation Certificates for the same nominal value and in accordance with the following classes:

Class A Participation Certificates ( CPA ): Nominal value of US\$ 13,300,000, with a 15% fixed annual nominal yield, with monthly Service payments due on the 15th of each month or on the immediately following working day. These certificates grant the right to collect the following Services: (a) a fixed yield calculated on the Class principal balance, with monthly capitalization, payable monthly as from the total settlement of the CPAs, and (b) an amortization.

Class B Participation Certificates ( CPB ): Nominal value of US\$ 1,000,000, with a 15.50% fixed annual, nominal yield, with monthly Service payments due on the 15th of each month or on the immediately following working day. These certificates grant the right to collect the following Services: (a) a fixed yield calculated on the Class principal balance, with monthly capitalization, payable monthly as from the total settlement of the CPAs, and (b) an amortization equivalent to the sums paid as from the Last Service Payment Date on which the total settlement of the CPA Certificates may have taken place, net of their fixed yield.

Class C Participation Certificates ( CPC ): Nominal value of US\$ 1,600,000, with a 16% fixed annual nominal yield, with monthly Service payments due on the 15th of each month or on the immediately following working day. These certificates grant the right to collect the following Services: (a) a fixed yield calculated on the Class principal balance, with monthly capitalization, payable monthly as from the total settlement of the CPBs, and (b) an amortization equivalent to the sums paid as from the Last Service Payment Date on which the total settlement of the CPBs may have taken place, net of their fixed yield. The fixed yield will accrue as from the Cut-Off Date and will be capitalized on a monthly basis.

Class D Participation Certificates ( CPD ): Nominal Value of US\$ 10,685,774. These grant the right to collect monthly the sums arising from the Cash Flow, net of the contributions made to the Expense Fund, once the remaining classes have been fully settled.

The period for placing the Participation Certificates was from December 27, 2001 to January 15, 2002.

Pursuant to Decree No. 214/02, assets and debts in U.S. dollars or other foreign currencies in the Argentine financial system as of January 6, 2002, were converted to pesos at the rate of exchange of Ps. 1 per US\$ 1 or its equivalent in another currency and was adjusted by a reference stabilization index (CER) / coefficient of salary fluctuation (CVS).

On July 21, 2003 an amendment was signed to the trust contract by which a system of proportional adjustment to the Participation Certificates was established to recognize the CER and CVS (coefficient of salary fluctuation), and also to modify the face of the Participation Certificates Class D, with the new face value being Ps. 13,321,280.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

At September 30, 2003, the Exchangeable Class C and D Participation Certificates amounted to thousand Ps. 7,253 in IRSA, thousand Ps. 1,157 in Inversora Bolívar S.A., and thousand Ps. 297 in Baldovinos S.A. Class A and B Certificates are totally amortized at the closing of the period.

**NOTE 21: CAPITAL REDUCTION IN PALERMO INVEST S.A. AND INVERSORA BOLIVAR S.A.**

On November 9, 2001, IRSA Inversiones y Representaciones S.A. ( the Company ) and GSEM/AP Holdings L.P. ( GSEM ) entered into a first amendment to the Shareholders Agreement entered into on February 25, 1998, which was followed by a second amendment dated November 27, which established, among other issues, the following:

- a) The capital reduction of Palermo Invest S.A. by thousand Ps. 37,169.
- b) The unanimous approval of Palermo Invest S.A.'s shareholders of a cash dividend for a total amount in pesos equivalent to thousand US\$ 19,702, provided this amount does not exceed, on the payment dates, the amount legally distributable. As stated in Decree No. 214/02, the dollar rate of exchange mentioned above has been left without effect.
- c) The assignment by the Company in favor of GSEM of rights proportional to the dividends mentioned in b) (called IRSA Dividend Right ), in such a way that GSEM will have the right to collect all the dividends that may be approved (called GSEM Dividend Right ), with the scope defined in point g).
- d) The Company's obligation to pay a total amount of thousand US\$ 13,135 to GSEM (called GSEM Credit ), to be settled in two equal installments for a total amount of US\$ 6,567 each, plus interest accrued at the time of payment, the first installment falling due on January 31, 2002 and the second on April 30, 2002.
- e) The entering into a Share Trust Agreement pursuant to which the Company has assigned in trust, under the terms of Law No. 24,441, in favor of the Trustee (ABN AMRO BANK N.V.), all the shares it owns in Palermo Invest S.A.. Under no circumstances, may the Trustee transfer, pledge or otherwise assign IRSA's shares either wholly or partially to any Person, and it must at all times exercise the voting rights granted by the shares as indicated by IRSA. Under the trust provisions, GSEM is not empowered, at any time, to request the trustee to extinguish the right to redeem IRSA's shares. Upon the Company's total fulfillment of its obligations to GSEM, the trustee must return the shares to IRSA under the terms and conditions of the trust agreed with the Trustee.
- f) GSEM is empowered to collect all the distributions that Palermo Invest S.A. may resolve, provided the Company has not settled all the obligations generated in favor of GSEM, as provided in point d) above.

**NOTE 21:** (Continued)

- g) Finally, the Company and GSEM/AP Holdings L.P. acknowledge that: i) all the amounts received in cash by GSEM from Palermo Invest S.A. on account of IRSA Dividend Right, must be considered as a reduction in the amount owed by IRSA under the GSEM Credit, and ii) all the amounts received in cash by GSEM on account of the GSEM Credit will oblige GSEM to return to IRSA the equivalent portion of IRSA Dividend Right, but if IRSA pays the total amount plus all accrued interest and reasonable costs to GSEM, IRSA may then recover its rights regarding the IRSA Dividend Right.

At 30 June 2003, the Company has settled all the installments referred to in item d) amounting to a total of Ps. 39,208 thousand, recording a profit of Ps. 25,962 thousand as a result of a remission by GSEM. Along these lines, at the date of issue of these unaudited financial statements, the aspects referred to in items c), e), f) and g) are null and void.

**NOTE 22: DERIVATIVE INSTRUMENTS**

The Company uses certain financial instruments to reduce its global financing costs. The Company does not engage in negotiation or speculative transactions involving these financial instruments. Furthermore, the Company has not used the financial instruments to hedge future operations or commitments

**- Interest rate swaps**

Interest rate swaps are used to hedge interest rate exposure. Liabilities generated by the interest rate swap have been valued at estimated settlement cost.

Differences generated by application of the mentioned criteria to assets and liabilities under swaps for derivatives were recognized in the results for the year.

In order to minimize its financing costs and manage interest rate exposure, APSA entered into an interest rate swap agreement to effectively convert a portion of its peso-denominated fixed- rate debt to peso-denominated floating rate debt.

**IRSA Inversiones y Representaciones Sociedad Anónima****and subsidiaries****Notes to the unaudited consolidated financial statements (Contd.)****NOTE 22:** (Continued)

At March 31, 2001 the Company had an interest rate swap agreement outstanding with an aggregate notional amount of Ps. 85.0 million with maturities through March 2005. This swap agreement initially allowed the Company to reduce the net cost of its debt. However, subsequent to June 30, 2001, the Company modified the swap agreement due to an increase in interest rates as a result of the economic situation. Under the terms of the revised agreement, the Company converted its peso-denominated fixed rate debt to U.S. dollar-denominated floating rate debt for a notional amount of US\$ 69.1 million with maturities through March 2005, which as of September 30, 2003 has a fair value of US\$ 45.74 million. Any difference payable or receivable it accrued is recorded as an adjustment to disbursements for interest in the Statement of Results. During the periods ended September 30, 2003 and 2002, APSA recognized a gain of Ps. 4.2 million and of Ps. 1.59 million, respectively.

The inherent risk to Alto Palermo S.A. from the swap agreement is limited to the cost of replacing that contract at current market rates. Alto Palermo S.A. considers that such cost would increase in the event of a continuing devaluation of the peso.

**NOTE 1: SIGNIFICANT ACCOUNTING POLICIES**

Below are the most relevant accounting standards used by the Company to prepare these unaudited financial statements, which have been applied consistently with respect to the previous year, except as indicated in point 1.1. below, which provides a detail of the change of criteria and adjustments to prior years' results.

**1.1. Issuance of new technical pronouncements**

The Professional Council in Economic Sciences of the Autonomous City of Buenos Aires approved Technical Pronouncements No. 16: Conceptual framework for professional accounting standards, No. 17: Professional accounting standards: development of some general application issues, No. 18: Professional accounting standards: development of some particular application issues, No. 19: Amendments to Technical Pronouncements Nos. 4, 5, 6, 8, 9, 11 and 14 and 20: Derivatives and hedging transactions, through Resolutions C 238/01, C 243/01, C 261/01, C 262/01 and C 187/02, respectively; establishing that those Technical Pronouncements and amendments to them will come into force for fiscal years commencing as from July 1, 2002, (except for TR 20, whose effective date tallies with the financial years commencing January 1, 2003).

The National Securities Commission has adopted the mentioned Technical Pronouncements, incorporating certain amendments, to be in effect as from years commenced on January 1, 2003.

The principal changes incorporated by the new Technical Pronouncements, which have had a material effect on the financial statements of the Company, are as follows:

Incorporation of strict guidelines for purposes of comparison against recoverable values.

Obligatory requirement regarding application of the deferred tax method for recognition of income tax.

Incorporation of new disclosure requirements, including information by segment, earnings per share and comparative information to be filed.

## Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

Adoption of an accounting model in which the intention of the Company prevails in defining the valuation criteria to be adopted. Furthermore, receivables and payables were recognized in general at their discounted values.

Determination of guidelines for recognition, measurement and disclosure of derivatives and hedge operations.

Research, development, trademarks, advertising, reorganization and other costs cannot be capitalized. Only organization and pre-operating costs that meet certain requirements can be capitalized.

Change of method for recognition of business combinations (acquisitions, pooling of interests, spin-offs and mergers).

Incorporation of guidelines to be followed to determine whether certain transactions (financial instruments issued by the Company, irrevocable contributions, preferred shares) must be classified under liabilities or shareholders' equity.

**IRSA Inversiones y Representaciones Sociedad Anónima****Notes to the unaudited financial statements (Continued)****NOTE 1:** (Continued)

A detail of effect on results at September 30, 2002 from application of the new accounting standards is included in the following table:

<u>Item</u>	<u>Effect on results at 30.09.02 (comparative) Ps.</u>
Recording of adjustment and prior years results in subsidiaries and related companies under long-term investments (*)	9,230

### 1.2. Preparation and presentation of financial statements

These unaudited financial statements are stated in Argentine pesos and were prepared in accordance with disclosure and valuation criteria contained in the Technical Pronouncements issued by the Argentine Federation of Professional Councils in Economic Sciences, approved with certain amendments by the Professional Council in Economic Sciences of the Autonomous City of Buenos Aires, in accordance with the resolutions issued by the National Securities Commission.

The unaudited financial statements corresponding to the three-month periods ended September 30, 2003 and 2002 have not been audited. Company Management estimates that all the necessary adjustments have been made to reasonably present the results of each period.

The results for the three-month periods ended September 30, 2003 and 2002, do not necessarily reflect proportionately the Company's results for the complete financial years.

### 1.3. Use of estimations

The preparation of the unaudited financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenues and expenses for the period. Estimates are used when accounting for the depreciation, amortization, impairment of long-lived assets,

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

income taxes and contingencies. Future actual results could differ from the estimates and assumptions prepared at the date of these unaudited financial statements.

**IRSA Inversiones y Representaciones Sociedad Anónima**

**Notes to the unaudited financial statements (Continued)**

**NOTE 1:** (Continued)

1.4. Recognition of the effects of inflation

The financial statements have been prepared in constant monetary units, reflecting the overall effects of inflation through August 31, 1995. As from that date, in accordance with professional accounting standards and the requirements of the control authorities, restatement of the financial statements has been discontinued until December 31, 2001. As from January 1, 2002, in accordance with professional accounting standards, recognition of the effects of inflation in these unaudited financial statements has been reestablished, considering that the accounting measurements restated due to changes in the purchasing power of the currency until August 31, 1995 as well as those arising between that date and December 31, 2001 are stated in currency of the latter date.

On March 25, 2003, the National Executive Branch issued Decree No. 664 establishing that the financial statements for years ending as from that date must be stated in nominal currency. Consequently, in accordance with Resolution No. 441 issued by the National Securities Commission, the Company discontinued the restatement of its financial statements as from March 1, 2003. This criterion is not in line with current professional accounting standards. At September 30, 2003, there is a divergence of Ps. 3,260 thousand that would reduce the loss for the period. From July to September 2003, an inflation of 1% was recorded.

The rate used for restatement of items in these unaudited financial statements is the domestic wholesale price index published by the National Institute of Statistics and Census.

The following concepts are included together in the Statement of Results as Financial results generated by assets and Financial results generated by liabilities :

a. The result of exposure to changes in the purchasing power of the currency.

b. Other holding gains and losses arising during the year.

c. Financial results.

1.5. Comparative information

## Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

According to the new Technical Pronouncements mentioned in Point 1.1, the Balance Sheet is disclosed in comparative format with the year ended June 30, 2003.

Certain amounts in the financial statements at September 30, 2002 for the period then ended were reclassified for disclosure on a comparative basis with those for the current period.

### 1.6. Valuation criteria

#### a. Cash and banks

Cash on hand has been valued at face value.

#### b. Foreign currency assets and liabilities

Foreign currency assets and liabilities were valued at period-end exchange rates.

**IRSA Inversiones y Representaciones Sociedad Anónima**

**Notes to the unaudited financial statements (Continued)**

**NOTE 1:** (Continued)

Operations denominated in foreign currency are converted into pesos at the rates of exchange in effect at the date of settlement of the operation. Operations in foreign currency are shown in the Statement of Results under Financial results, net.

In accordance with Decree 214/02, certain assets and liabilities denominated in US dollars or other foreign currencies existing at January 6, 2002 were converted into pesos at the parity of Ps. 1 per US\$ 1 and adjusted through application of the reference stabilization index (CER).

c. Short-term investments

Time deposits were valued at placement value plus financial results accrued based on the internal rate of return determined at that moment.

Short-term investments in debt securities, shares and investment trusts were valued at their net realization value.

Participation certificates class C in the IRSA I financial trust were valued at acquisition cost plus accrued interest.

d. Trade receivables and accounts payable

Trade receivables and accounts payable were valued at the price applicable to spot operations at the time of the transaction plus interest and implicit financial components accrued at the internal rate of return determined at that moment.

e. Financial receivables and payables

Financial receivables and payables were valued at the amount deposited and collected, respectively, net of operating costs, plus financial results accrued based on the rate estimated at that time.

At June 30, 2003 certain financial loans were valued at their discounted value, calculated at the rate accepted by the creditor to receive advance payment, as the Company settled the loan before maturity.

f. Other receivables and payables

Sundry receivables and payables (Asset tax, corporations sect. 33 Law No. 19550, deposits in guarantee, accounts receivable in trust and customer advances) were valued based on the best estimate of the amount receivable and payable, respectively, discounted at the interest rate applicable to freely available savings accounts published by the Argentine Central Bank in effect at the time of incorporation to assets and liabilities, respectively. Deferred tax assets and liabilities have not been discounted.

**IRSA Inversiones y Representaciones Sociedad Anónima**

**Notes to the unaudited financial statements (Continued)**

**NOTE 1:** (Continued)

As established by the regulations of the National Securities Commission and as mentioned above, deferred tax assets and liabilities have not been discounted. This criterion is not in accordance with current accounting standards in effect in the Autonomous City of Buenos Aires, which require that those balances be discounted. The effect resulting from this difference has not had a material impact on the financial statements.

Liabilities in kind:

Obligation to deliver items held in inventories

The shares of Banco Hipotecario S.A. were recorded at the book value assigned to assets to be delivered plus additional costs necessary to place the assets at the disposal of the creditor.

Obligation to deliver assets to be manufactured

Units committed for delivery related to the property identified as San Martín de Tours were valued at the higher of the value of the sums received or the production cost of the assets to be delivered plus additional costs necessary to place the assets at the disposal of the creditor.

g. Balances corresponding to financial transactions and sundry receivables and payables with related parties

Receivables and payables with related parties generated by financial transactions and other sundry transactions were valued in accordance with the terms agreed by the parties.

h. Inventory

A property is classified as available for sale upon determination by the Board of Directors that the property is to be marketed for sale in the normal course of business over the next several years.

Residential, office and other non-retail properties completed or under construction are stated at cost, adjusted for inflation, as defined in Note 1.4., or estimated net realizable value, whichever is lower. Costs include land and land improvements, direct construction costs, construction overhead costs, interest on indebtedness and real estate taxes. Selling and advertising costs are deferred and charged to expense in the period in

## Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

which the related revenue is earned, as determined under the percentage-of-completion method. Total contract costs are charged to expense in the period in which the related revenue is earned, as determined under the percentage-of-completion method. No interest costs were capitalized during the period ended at September 30, 2003 and the year ended at June 30, 2003.

**IRSA Inversiones y Representaciones Sociedad Anónima**

**Notes to the unaudited financial statements (Continued)**

**NOTE 1:** (Continued)

Properties held for sale are classified as current or non-current based on the estimated date of sale and the time at which the related receivable is expected to be collected by the Company.

At September 30, 2003, the Company had not set up an allowance for impairment of value of Inventories.

At the end of the previous fiscal year, as mentioned in Note 1.o., the Company set up allowances for impairment of certain inventories (identified as Avda. Madero 1020, Rivadavia 2768, Minetti D, Torres Jardín, Sarmiento 517 and parking lots in Dock 13).

The accounting value of inventories, net of allowances set up, does not exceed estimated recoverable value.

i. Long-term investments

i.a. Investments in debt securities:

Investments in debt securities were valued based on the best estimate of the discounted amount receivable applying the corresponding rate of return estimated at the time of incorporation to assets, as the Company will hold them to maturity. The value thus obtained does not exceed the respective estimated recoverable value at the end of the period.

i.b. Investments in shares of subsidiaries and related companies:

The long-term investments in subsidiaries and related companies detailed in Schedule C, except for investments in Banco de Crédito y Securitización S.A. and in Banco Hipotecario S.A., which do not exceed 20% of the capital stock, were valued by the equity method of accounting based on the financial statements at September 30, 2003 issued by them.

The accounting standards used by the subsidiaries to prepare their financial statements are the same as those used by the Company.

The accounting standards used by the related companies to prepare their financial statements are those currently in effect.

This item also includes the lower or higher value paid for the purchase of shares in subsidiaries and related companies which exceeds or is below the market value of the assets acquired.

**IRSA Inversiones y Representaciones Sociedad Anónima**

**Notes to the unaudited financial statements (Continued)**

**NOTE 1:** (Continued)

The investments for less than 20% of the capital stock of corporations in which the Company does not exercise significant influence are generally recognized at market value, with the resulting income or losses being recorded in profit and loss accounts or at restated purchase cost if no market value exists.

Certificates of participation in IRSA I financial trust:

The certificates of participation in IRSA I financial trust have been valued at the cost resulting from apportioning the participation certificate holding to the trust assets in the case of class D.

Undeveloped parcels of lands

The Company acquires undeveloped land in order to provide an adequate and well-located supply for its residential and office building operations. The Company's strategy for land acquisition and development is dictated by specific market conditions where the Company conducts its operations.

Land held for development and sale and improvements are stated at cost adjusted for inflation at the end of the period, as defined in Note 1.4., or estimated net realizable value, whichever is lower. Land and land improvements are transferred to inventories when construction commences.

At September 30, 2003, the Company had not set up an impairment of value of undeveloped parcels of lands.

As mentioned in Note 1.o., at June 30, 2003 the Company recognized an impairment in connection with certain parcels of undeveloped land (identified as Padilla 902, Pilar, Constitución 1111). Furthermore, at June 30, 2003 the allowance set up on Santa María del Plata amounting to Ps. 8,528 has been reversed.

The values thus obtained, net of the allowances recorded, do not exceed their respective estimated recoverable values at the end of period.

j. Fixed assets

Fixed assets, net comprise primarily of rental properties and other property and equipment held for use by the Company.

Fixed assets value, net of allowances set up, does not exceed estimated recoverable value.

**IRSA Inversiones y Representaciones Sociedad Anónima**

**Notes to the unaudited financial statements (Continued)**

**NOTE 1:** (Continued)

j. Fixed assets (Continued)

Rental properties

Rental properties are carried at cost, adjusted for inflation, as defined in Note 1.4., less accumulated depreciation. Costs incurred for the acquisition of the properties are capitalized. Accumulated depreciation is computed under the straight-line method over the estimated useful lives of the assets, which generally are estimated to be 50 years for buildings. Expenditures for ordinary maintenance and repairs are charged to results in the period incurred. Significant renovations and improvements, which improve or extend the useful life of the asset are capitalized and depreciated over its estimated remaining useful life. At the time depreciable assets are retired or otherwise disposed of, the cost and the accumulated depreciation of the assets are eliminated from the accounts and the resulting gain or loss is disclosed in the statement of results.

The Company capitalizes interest on long-term construction projects. No interest costs were capitalized during the period ended September 30, 2003 and the year ended June 30, 2003.

As mentioned in Note 1.o., at June 30, 2003, the Company recognized an impairment on certain rental property (identified as Avda. Madero 1020, Reconquista 823, Avda. Madero 942 and Sarmiento 517).<sup>1</sup>

Software obtained or developed for internal use

The Company capitalizes certain costs associated with the development of computer software for internal use. Costs capitalized during the period ended September 30, 2003 and the year ended June 30, 2003. were not material. These costs are being amortized on a straight-line basis over a period of 3 years.

Other properties and equipment

Other property and equipment properties are carried at cost, adjusted for inflation, as defined in Note 1.4., less accumulated depreciation. Accumulated depreciation is computed under the straight-line method over the estimated useful lives of the assets, as specified below:

**IRSA Inversiones y Representaciones Sociedad Anónima**

**Notes to the unaudited financial statements (Continued)**

**NOTE 1:** (Continued)

Other properties and equipment (Continued)

<u>Asset</u>	<u>Estimated useful life (years)</u>
Leasehold improvements	On contract basis
Facilities	10
Machinery and equipment	10
Furniture and fixtures	5
Computer equipment	3

The cost of maintenance and repairs is charged to expense as incurred. The cost of significant renewals and improvements are added to the carrying amount of the respective assets. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts.

k. Intangible assets

Intangible assets are carried at cost, adjusted for inflation at the end of the period as defined in Note 1.4., less accumulated amortization.

Deferred Financing Cost

Expenses incurred in connection with the issuance of debt and proceeds of loans have been deferred and are being amortized using the interest method over the life of the related issuances. In the case redemption of this notes, the related expenses are amortized using the proportional method.

Amortization has been recorded under financial results in the Statement of Results.

Selling and advertising expenses

Expenses incurred relating to the marketing of developing properties, including advertising, commissions and other expenses, are charged to expense in the period in which the related revenue is earned, as determined under the percentage-of-completion method.

l. Customer advances

Customer advances represent payments received in advance in connection with the sale and rent of properties.

m. Income tax

The Company has recognized the charge for income tax by the deferred tax liability method, recognizing timing differences between measurements of accounting and tax assets and liabilities (See Note 13).

**IRSA Inversiones y Representaciones Sociedad Anónima**

**Notes to the unaudited financial statements (Continued)**

**NOTE 1:** (Continued)

m. Income tax (Continued)

To determine deferred assets and liabilities, the tax rate expected to be in effect at the time of reversal or use has been applied to timing differences identified and tax loss carryforwards, considering the legal regulations approved at the date of issue of these unaudited financial statements.

Since it is unlikely that future taxable income will fully absorb tax loss carryforwards, the Company has recorded an impairment on a portion of that credit.

n. Asset Tax

The Company calculates Asset tax by applying the current 1% rate on computable assets at the end of the period. This tax complements income tax. The Company's tax obligation in each year will coincide with the higher of the two taxes. However, if Asset tax exceeds income tax in a given year, that amount in excess will be computable as payment on account of income tax arising in any of the following ten years. At September 30, 2003, the Company estimated Asset tax recognizing under other receivables (current and non-current) the amount estimated to be offset as payment on account of income tax in future years in accordance with current regulations, and expensed the balance.

o. Allowances and Provisions

Allowance for doubtful accounts: The Company provides for losses relating to mortgage, lease and other accounts receivable. The allowance for losses is recognized when, based on current information and events, it is probable that the Company will be unable to collect all amounts due according to the terms of the agreements. The allowance is determined on a one-by-one basis considering the present value of expected future cash flow. While management uses the information available to make evaluations, future adjustments to the allowance may be necessary if future economic conditions differ substantially from the assumptions used in making the evaluations. Management has considered all events and/or transactions that are subject to reasonable and normal methods of estimations, and the unaudited financial statements reflect that consideration.

For impairment of assets: the Company regularly evaluates its non-current assets for recoverability. The Company considers that an impairment loss is recorded whenever the recoverable value is lower than book value. Impairment losses must be expensed against the result for the period. The recoverable value is mainly calculated using independent appraisals or projections of future cash flows.

o. Allowances and Provisions (Continued)

For contingencies and sundry risks: The Company has certain contingent liabilities with respect to existing or potential claims, lawsuits and other proceedings, including those involving labor and other matters. The Company accrues liabilities when it is probable that future costs will be incurred and such costs can be reasonably estimated. Such accruals are based on developments to date, the Company's estimates of the outcomes of these matters and the Company's lawyers' experience in contesting, litigating and settling other matters. As the scope of the liabilities becomes better defined, there may be changes in the estimates of future costs, which could have a material effect on the Company's future results of operations and financial condition or liquidity.

At the date of issue of these Unaudited Financial Statements, Management understands that there are no elements to foresee potential contingencies having a negative impact on these Unaudited financial statements.

p. Shareholders' equity accounts

Movements in shareholders' equity accounts have been restated following the guidelines detailed in Note 1.4.

The Capital Stock and Treasury Stock accounts were stated at historical nominal value. The difference between value stated in constant currency and historical nominal value is shown under Overall capital adjustment and Overall adjustment of treasury stock, respectively, forming part of the shareholders' equity.

q. Results for the period

The results for the period are shown as follows:

Income accounts are shown in currency of the month to which they correspond, and have been restated as mentioned in Note 1.4.

Charges for assets consumed (fixed asset depreciation, intangible asset amortization and cost of sales) were determined based on the values recorded for such assets.

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

Income - (loss) from investments in controlled and affiliated companies was calculated under the equity method, by applying the percentage of the Company's equity interest to the income - (loss) of such companies.

r. Advertising expenses

The Company generally charges the advertising and publicity expenses to results when they are incurred, except for the advertising and publicity expenses related to the sale of real estate projects. Advertising and promotion expenses were approximately Ps. 118 thousand and Ps. 47 thousand for the periods ended September 30, 2003 and 2002, respectively.

s. Pension information

The Company does not maintain any pension plans. Argentine laws provide for pension benefits to be paid to retired employees from government pension plans and/or privately managed funds plan to which employees may elect to contribute.

t. Financial derivatives

The Company uses various financial derivatives to hedge its net investment in foreign operations and as a complement to reduce its global financial costs.

The Company has not used financial instruments to hedge transactions foreseen or firm commitments. To be eligible for hedging, the Company must be exposed to currency or interest rate risk, and the financial instrument must reduce the exposure and be designated as such. In addition, for hedging purposes, the significant characteristics and expected terms of the planned transaction must be identified and the expected transaction must be probable. Financial instruments that can be recorded as hedging instruments must maintain a high correlation between the hedging instrument and the item being hedged at the beginning and during the entire hedging period.

The Company formally documents all the relationships between hedging instruments and hedged items, as well as its risk management objective and strategy before embarking on hedging transactions. This process includes detailing all the derivatives designated for hedging of specific assets and liabilities in the balance sheet or specific firm commitments or planned transactions. The Company also evaluates both at the beginning of the hedging transaction and on an ongoing basis whether the derivatives used in hedging transactions are very effective to offset fluctuations in the market values or cash flows of the items hedged. If it is determined that a derivative is not very effective for hedging or that it has stopped being an effective cover, the Company would discontinue the recording of such hedging instrument in the future.

**NOTE 1:** (Continued)

Foreign currency forward-exchange contracts

In accordance with the Company's risk management policies, it uses long-term foreign currency purchase and sale contracts as a supplement to reduce its overall financial costs as well as to administer its exposure regarding net investments in financial transactions.

Foreign currency forward-exchange contracts entered into by the Company generally mature within one year. Premiums on foreign currency forward-exchange contracts are amortized over the life of the respective contracts.

Interest rate swaps

Interest rate swaps are used to hedge interest rate exposure. Interest rate swaps are recognized on an accrual basis, recording the net amount receivable or payable as an adjustment to the interest rate expense. The accrued amount receivable or payable is included as an adjustment to the interest expense.

Options contracts

The Company signs options contracts by which, through the payment or collection of a sum of money (premium) it acquires or grants the right to the other party to buy or sell certain underlying assets (shares, metals, etc.) at a predetermined fixed price during a period previously established. These contracts have been valued at their market price. The premiums for option contracts are amortized over the life of the corresponding contracts.

u. Revenue recognition

u.1. Sales of properties

The Company records revenue from the sale of properties classified as inventory when all of the following criteria are met:

the sale has been consummated;

there is sufficient evidence to demonstrate the buyer's ability and commitment to pay for the property;

Edgar Filing: IRSA INVESTMENTS & REPRESENTATIONS INC - Form 6-K

the Company's receivable is not subject to future subordination; and

the Company has transferred the property to the buyer.

The Company uses the percentage-of-completion method of accounting with respect to sales of development properties under construction effected under fixed-price contracts. Under this method, revenue is recognized based on the ratio of costs incurred to total estimated costs applied to the total contract price. The Company does not commence revenue and cost recognition until such time as the decision to proceed with the project is made and construction activities have begun. The percentage-of-completion method of accounting requires the

Company's management to prepare budgeted costs in connection with sales of properties/units. All changes to estimated costs of completion are incorporated into revised estimates during the contract period.

u.2. Leases

Revenues from leases are recognized on a straight line bases over the life of the related lease contracts. All revenues are presented net of taxes levied on sales.

v. Cash and cash equivalents

The Company considers all highly liquid investments with original maturities of three months or less, consisting primarily in mutual funds.

w. Result from operations and holding of real estate

The results from operations and holding of real estate assets include the results provided by the valuation and sale of shares in real estate investment companies.

x. Monetary assets and liabilities

Monetary assets and liabilities are stated at their face value plus or minus the related financial gain or loss.

**NOTE 5:** (Continued)

As mentioned in Note 1 to the unaudited consolidated financial statements, in November 2002 the Company refinanced financial loans amounting to US\$ 103.4 million. The new conditions are substantially different from the original conditions, and therefore the Company has written off the original loans and recognized a new debt discounted at a rate reflecting the market appraisals on the money time value and risks inherent to the debt. Accordingly, at June 30, 2003, the Company has recognized net income amounting to Ps. 31.7 million, resulting from considering the difference between the discounted value of the new debts at the market rate (8% p.a.) and the book value of refinanced debts at the moment of refinancing.

1. According to Note 12, these tally with the Negotiable Bonds convertible to stock (CNB) for a total amount of US\$ 100 million which as of the current date amounts to US\$ 99.9 million, net of issue expenses.

Corresponds an unsecured loan for a total of US\$ 51 million, which falls due on 20 November 2009, with the principal being amortized in 20 quarterly installments with a two-year grace period. US\$ 35 million of the principal accrue interest at the LIBO rate over three months plus 200 basis points, and US\$ 16 million accrue interest at a fixed rate that is progressively increased. On July 25, 2003 the Company redeemed the mentioned US\$ 16 million for US\$ 10.9 million.

The terms of the loan require the Company to maintain certain financial ratios and conditions, specific debt/equity ratios, moreover, they also restrict certain investments, the making of payments, the procurement of new loans and the sale of certain assets and other capital investments.

3. Corresponds with the Negotiable Bonds secured by the assets described in Note 11.c. for US\$ 37.4 million, which mature on 20 November 2009, and have quarterly interest payments at the LIBO rate over three months plus 200 basis points. Consequently, at June 30, 2003 the Company recorded a total balance of US\$ 32.9 million, which correspond to US\$ 37.4 million discounted at a market rate equivalent to 8% p.a.

The terms of the loan require the Company to maintain certain financial ratios and conditions, specific debt/equity ratios; they also restrict certain investments, the making of payments, the procurement of new loans and the sale of certain assets and other capital investments.

The Ordinary and Extraordinary Shareholders' Meeting held on 5 November 2002 and its recess held on 27 November 2002, approved the distribution of 4,587,285 treasury stock proportionately with the shareholders' holdings and, in accordance with the resolution issued by the Board of Directors on 11 December 2002, such stock was made available to the shareholders as from 19 December 2002.

b. Treasury stock

The Company repurchases periodically outstanding ordinary shares when it considers that their price is undervalued on the market.

During the periods ended September 30, 2003 and 2002 no treasury shares were bought.

c. Restriction on the distribution of profits

In accordance with the Argentine Corporations Law and the Company's By-laws, 5% of the net and realized profit for the year calculated in accordance with Argentine GAAP plus (less) prior year adjustments must be appropriated by resolution of the shareholders to a legal reserve until such reserve equals 20% of the Company's outstanding capital. This legal reserve may be used only to absorb losses.

d. Noncontributory Management Stock Ownership Plan

On October 30, 1997, the shareholders authorized the Company to enter into a Noncontributory Management Stock Ownership Plan ( NMSOP ) with eight executive officers of the Company (the Beneficiaries ), pursuant to which the Beneficiaries were granted the right to purchase up to 24 million shares of common stock (the Participation Shares ), at a purchase price equal to Ps. 1.0 per share, subject to the implementation of an Equity Participation Agreement ( EPA ). Under Argentine law, the Company established a special purpose trust in this connection (the Trust ).

The Beneficiaries were required to purchase the Participation Shares available, if any, within 24 months of any capital increase. The Trust has an original term of six years. According to the terms of the NMSOP and the Trust, Beneficiaries are not entitled to receive any distributions (either in the form of shares, cash or other) from the Trust during its term, although, Beneficiaries are allowed to cause the Trust to sell their designated shares of common stock held by the Trust in certain cases. In addition, the Company was not allowed to grant any loans or otherwise assist the Beneficiaries in financing the purchase of the Participation Shares.

On April 7, 1998, the Company s shareholders, at an extraordinary shareholders meeting, approved a capital increase of 24 million shares to permit the Beneficiaries to purchase all of the Participation Shares to which they were entitled under the EPA.

The BASE and the CNV approved the capital increase on June 4, 1999, and on August 31, 1999 the Beneficiaries acquired 21,090,024 shares at Ps. 1.0 per share.

At September 30, 2003, all the shares held by the trust were sold in accordance with the terms of the contract and, therefore, no shares in trust are recorded.

c. The Company has mortgaged the following real estate: Dock 2 M10 (11) buildings A and B, Torre Jardín IV, Dock IV, Reconquista 823, 9 activity units at Suipacha 652, 58 activity units at Madero 1020 and 14 plots of the land owned in the district of Caballito, in connection with the secured negotiable bonds referred to in Note 5.3. By means of Minutes No. 1445 dated August 14, 2003 of the Board of Directors' Meeting, it was resolved to lift and release the mortgages on these properties, substituting them for new mortgages on the following properties: 13 functional units al Libertador 498, 71 supplementary units al Laminar Plaza and 19 supplementary units al Dique IV.

d. The Company has a first mortgage on the property identified as San Martín de Tours amounting to US\$ 750,000, as performance bond for the construction of the building and transfer of title on the units to be exchanged in favor of Establecimientos Providence S.A.

**NOTE 12: CONVERTIBLE NEGOTIABLE OBLIGATION**

On March 8, 2002, the Ordinary and Extraordinary Meeting of Shareholders resolved:

- a) Approving the issuance of Negotiable Obligations Convertible into Ordinary Shares of the company ( ONC ) for up to a face value of US\$100,000,000 (one hundred million pesos), for a term of 5 (five) years, at a fixed interest rate of 6% to 12% per annum, payable half-periodly in arrears.
- b) Approving a subscription option for the ONC holders to subscribe ordinary shares of the company at 1 (one) share per Ps.1 (one peso) of ONC face value, paying in cash Ps.1(pesos one) as subscription price, during 15 (fifteen) days after the conversion term has expired, including the corresponding capital increase.
- c) Suppressing the preferential subscription and accretion rights, or reducing the term to exercise the preference, as provided by section 12 of the Negotiable Obligations Law and other applicable regulations.
- d) Amending article nine (9) of the bylaws to partially adapt its contents to the market circumstances arising from the amendment approved, by replacing 1) the 20% percentage referred to in the amendment to the bylaws, by the percentage indicated in Decree 677/01, i.e., 35%; and 2) eliminating the negotiable obligations or other convertible debt securities, as well as the warrants, from the calculation mentioned in Article Nine of the Bylaws.

The public offering and listing of the above-mentioned negotiable obligations was approved by Resolution No. 14316 of the National Securities Commission dated September 24, 2002 and the Buenos Aires Stock Exchange, authorizing the issuance for up to US\$ 100,000,000 of securities consisting of negotiable obligations convertible for ordinary shares, bearing interest at an annual rate of 8% and falling due in 2007 and which, at the time of their conversion, provide the right to options to subscribe 100,000,000 ordinary shares. Furthermore, the conversion price and the price of Warrants have been set as follows:

**IRSA Inversiones y Representaciones Sociedad Anónima**

**Notes to the financial statements (Continued)**

**NOTE 12:** (Continued)

- a) The conversion price is 0.5571 shares (5.5713 GDS), while the price of the Warrant is 0.6686 shares (6.6856 GDS).
- b) The holder is entitled to exchange each Negotiable Obligation issued by IRSA for 1.7949 shares (0.1795 GDS) and has an option to purchase the same number of shares at the exercise price set for the Warrant.

As a result of the distribution of 4,587,285 treasury stock, the Company has adjusted the conversion price of its Convertible Negotiable Bonds in accordance with the terms of the issue. Thus, the conversion price of the Negotiable Bonds fell from US\$ 0.5571 to US\$ 0.54505 and the price of execution of the warrants dropped from US\$ 0.6686 to US\$ 0.6541. Said adjustment came into force on 20 December 2002.

The Convertible Negotiable Obligations and options will fall due on November 14, 2007.

The convertible negotiable bonds were underwritten in full and were paid in cash and assigned to restructure or partially settle the Company's financial debt at the time of such subscription.

The Company has applied the funds from the offer of securities to (i) settlement of issuance costs and fees, (ii) facilitating debt refinancing and partial settlement, and (iii) incorporating funds to working capital.

At closing of the previous financial year, two holders of Negotiable Obligations Convertible into ordinary shares of the Company, exercised their right to convert them for a total of US\$ 4,830 and US\$ 2,000 giving rise to the issuing of 13,531 ordinary shares of Ps. 1 face value each as disclosed in Note 10.

On September 30, 2003, two holders of Convertible Negotiable Obligations had exercised their right to convert them for a total of US\$ 94,000 and US\$ 14,492, giving rise to the issuing of 199,067 ordinary shares of Ps. 1 face value each as disclosed in Note 10.

The total amount of Convertible Negotiable Obligations at September 30, 2003 is US\$ 99,884,678.

General

In the case of insurance covering fire and explosion with additional coverage, the amounts insured are stated at replacement and/or reconstruction to an as new condition value, not including land and foundations.

Insured amounts correspond to units belonging to the company that are being sold, and/or units sold under mortgages not having individual policies with assigned rights.

Notes:

- (1) Insured amounts correspond to the total for the building. The amount insured for each co-owner is obtained by applying the percentage of co-ownership to the total insurance.
- (2) Insured amounts correspond solely to jointly held areas.
- (3) Insurance purchased by tenants with provisions for the assignment of rights.
- (4) Insured amounts correspond to units not yet having a bill of sale.
- (5) Insured amounts correspond to common areas and partially to individual areas.

In our opinion, the above-described policies adequately cover current risks.

14. Not applicable.

15. See comments in Note 1 to the consolidated unaudited financial statements.

16. Not applicable.

17. None.

18. In accordance which was stipulated in loans agreements, the Company shall not distribute dividends until this obligations would be cancelled.

6. Brief comment on the outlook for the coming year.

See attached.

**BUSINESS HIGHLIGHTS AS OF SEPTEMBER 30, 2003**

**Comment on the three month period ended September 30, 2003.**

The quarter ended on September 30, 2003 was marked by certain stability in the country, both at macroeconomic and political level. Exchange rates and inflation seem to have stabilized while the rate of economic recovery would have accelerated to 2.8% - quarterly rate, indicating a projected 7.1% growth for calendar year 2003.

The prudent short-term economic policy was decisive for this recovery. The proper liquidation of international reserves and the extraordinarily positive trade balance prevented the rampant inflation previously anticipated. In addition, the considerable increase in tax revenues from export withholdings and the tax on financial transfers resulted in a highest historic primary tax surplus of 2.5% of the GDP.

Results for the first quarter of fiscal year 2004 showed a Ps. 15.2 million loss as compared to a Ps. 58.0 million profit during the same quarter of fiscal year 2003. As in the first quarter of the previous fiscal year, these results are mainly due to fluctuations in the peso, which depreciated 4% during the period under review, generating a Ps. 14.1 million net loss in exchange differences. In addition, operating results showed a Ps. 8.8 million profit, as compared to a Ps. 4.7 million loss during the previous period.

Consolidated net sales for the three-month period totaled Ps. 49.1 million, as compared to Ps. 51.1 million during the same period of the previous year.

The share of the various sectors in net sales was as follows: Sales and Developments Ps. 6.0 million, Offices and Other Rental Properties Ps. 3.7 million, Shopping Centers Ps. 31.2 million y Hotels Ps. 8.3 million.

As announced at the end of the previous quarter on July 23, 2003, and after making a proposal for the repurchase of our debt to all the banks which are holders of such debt, we proceeded to the early repayment of US\$ 16 million corresponding to the Syndicated Loan (Loan Agreement US\$ 51,000,000) due end of November 2009 to HSBC Bank Argentina S.A. The transaction was settled for a total amount of US\$ 10.9 million, 68% of the nominal value of the debt, with a US\$ 5.1 million discount.

The strong growth of the Argentine economy has led us to accelerate the launching of new development projects directed to the high-quality residential segment. In addition, we anticipate that the occupancy rate in our office buildings will continue to improve, accompanying the considerable recovery of those sectors of the economy that are based on exports and imports substitution; additionally, we have positive expectations in relation to sustained growth in the tourism industry which will benefit our hotels portfolio and will attract high-income consumers to our shopping centers.

**First quarter of fiscal year 2004 highlights, including significant operations occurred after the end of the period.**

**I. Offices and Other Rental Properties**

During the period ended on September 30, 2003, the rent from lease properties totaled Ps. 3.7 million, as compared to Ps. 5.7 million recorded during the same period of fiscal year 2003.

Average occupancy reached 70%, which represents a slight change with respect to the same period of the previous fiscal year. It should be mentioned that the occupancy rate for our properties is above the market average.

Although occupancy rates show slight variations, we consider that they show a favorable trend and are in line with the strong growth indicators of the economy, which suggest a significant increase in the activity over the next months.

The chart below presents information on the Company's offices and other rental properties as of September 30, 2003.

## II. Shopping Centers - Alto Palermo S.A ( APSA ).

As of September 30, 2003, we had a 54,95% interest in Alto Palermo S.A. (APSA), the company that operates our shopping centers. Total income at September 30, 2003 amounted to Ps. 31.2 million, that is, 27.2% higher than those in the same period of the previous year. This is mainly attributable to the increase in basic rent charged to our lessees and increased occupancy.

Net Loss for the three-month period was Ps. 3.9 million, as compared to the Ps. 15.9 million profit for the same period of the previous year. The results for the three months ended on September 30, 2002 had been positively affected by the Ps. 28.5 million income from Financial Results and by the Ps. 10.6 million income from the repurchase of Company's Bonds. In addition, the result for the first quarter of Fiscal Year 2004 was adversely affected by the depreciation of local currency against the U.S. Dollar, from Ps. 2.80 per US\$ 1.00 to Ps. 2.915 per US\$ 1.00, which gave rise to negative Exchange Differences for Ps. 5.2 million principally on the US\$ 49.8 million outstanding debt. After the end of the quarter, the exchange rate has returned to the levels prevailing at the end of Fiscal Year 2003, which would result in a profit for the second quarter of Fiscal Year 2004 if the exchange rate remains at around Ps. 2.80 per U.S. Dollar.

Gross profit for the period showed a significant increase to Ps. 14.3 million, 68.5% higher than gross profit for the same period of the previous year. This result is basically due to the fact that costs did not rise as much as income.

In this way, the consolidated Operating Result for the period was a Ps. 8.1 million profit as compared to a Ps. 2.0 million loss for the same period of the previous year. Additionally, this was the result of a steep drop in bad debt charges, which fell from Ps. 4.5 million in the first quarter of Fiscal Year 2003 to Ps. 0 in the period ended on September 30 of the current year.

APSA Tenenats continued to increase their sales, reaching Ps. 255.1 million in the three-month period ended on September 30, 2003. These sales are 33% higher in nominal terms than those for the same period of the previous year, and 27% higher in real terms.

The business success of APSA tenants continues to increase demand for space at APSA Shopping Centers. In this way, we have increased occupancy to 96.7%, surpassing the levels prevailing before the crisis. The evolution of this variable not only shows an improvement in our business, but also the excellent quality of our Shopping Centers portfolio, as these record better demand by potential tenants. Competitors occupancy in the Metropolitan Area of Buenos Aires only reaches 91.1%<sup>1</sup>.

Due to the improved situation of our tenants, we continue to apply the Reference Stabilization Coefficient ( CER ) to most pesified agreements. Thus, Shopping Centers such as Abasto de Buenos Aires has extended the application of the CER from 10% of their tenants as of November 2002 to 100% of tenants as of September 2003.

Additionally, the current bonanza in the retail sector allows us to enter into new lease agreements under better conditions, e.g. increasing the goodwill charge required for the renewal or execution of new agreements at our Shopping Centers.

On the other hand, the improvement in our tenants economic and financial situation caused no allowance to be created for bad debts, which as of September 30, 2002 amounted to Ps. 4.5 million. In addition, in accordance to our management reports, the Company s operating cash flow reached highest historic levels at a monthly average of Ps. 7.5 million. These high levels are partially attributable to the excellent collection of bad debts, as a result of which the Company s revenues are higher than its invoicing.

### **Tarjeta Shopping**

Tarshop S.A. is the credit card company in which we have an 80% interest Through APSA.

During the quarter ended on September 30, 2003, our credit card business unit reverted the negative results shown on its financial statements during several quarters. In this way, for the first quarter of Fiscal Year 2004, Tarshop S.A. recorded a Ps. 0.5 million profit, as compared to the Ps. 2.8 million loss for the same period of the previous year, a considerable improvement.

This was the result of business restructuring. Our customers consumption increased by 66% during the quarter with respect to the same period of the previous year, totaling Ps. 41.8 million. This represents a 58% increase in real terms. The recovery of Tarjeta Shopping as a financial instrument for purchasing is reflected in the fact that the increase in sales made through this payment method is significantly higher than the increase in sales of our Shopping Centers.

Additionally, in relation to collections, short-term bad debts as of September 30, 2003 were even lower than the levels prevailing before the crisis. Bad debts three months past due, which exceeded 11% during 2002, decreased to only 3.1% by the end of the quarter.

At September 30, 2003, the number of members and the credit portfolio, including securitized coupons, totaled 151,350 members and Ps. 48.1 million, respectively. The level of card activation reached 52%.

### III. Sales and Developments

During the first quarter of fiscal year 2004, net sales for the sales and developments segment decreased to Ps. 6.0 million, as compared to Ps. 14.3 million during the same period of fiscal year 2003.

The improved prospects that can be perceived as a result of the recovery of the Argentine economy encourage us to plan future developments, which, along with our important stock of ideally located land, will permit us to evaluate and launch new projects over the next months.

**Sales**

**Madero 1020** On August 20, 2003, the deed of conveyance for three stories of the Madero 1020 office building was executed. A total of 2,018 square meters were sold for US\$ 1,650,000 at an average of US\$ 818 per square meter.

**Abril, Hudson, Province of Buenos Aires** During the quarter ended on September 30, 2003, 4 lots of Abril country club were sold. All projected neighborhoods are being marketed and 93% of the lots have been sold. There are 566 completed houses, and 73 houses are under construction.

**Sarmiento 517** During the quarter ended on September 30, 2003, one office unit with a surface of 151 square meters was sold for Ps. 151,000.

## Developments

**Cruceros, Dique 2** This is a unique project in Puerto Madero. The residential building of 6,400 square meters will be constructed next to the Edificios Costeros office building. It is intended for the high-income segment and all common areas have spectacular river views. There will be approximately 50 units with two swimming pools, gymnasium and other amenities. The project is at an advanced stage of completion and we estimate it will be launched by the end of 2003.

**Purchase of plot of land at San Martín de Tours** During March 2003, we executed an agreement for the purchase of a plot of land at San Martín de Tours street, Barrio Parque sector, the most exclusive residential area of the city of Buenos Aires. Upon the execution of the bill of sale US\$ 80,000 were advanced, and upon execution of the deed of conveyance in June 2003, US\$ 230,000 were paid. In addition, on that occasion a mortgage was created in favor of Providence for US\$ 750,000 in guarantee of 25% of the functional units that IRSA shall deliver when the building is completed. IRSA plans to build a complex of high-quality house-type residential units, a different product among the existing offer. The works will begin in December and we plan that the inauguration and launching for sale will take place in October 2004. The project will be financed with working capital and is intended for the high-income segment.

Below is a detail of property being developed by IRSA as of September 30, 2003.

#### IV. Hotels

Our first-class hotel segment continues to show positive signals; during the first quarter of fiscal year 2004 occupancy rates improved, with price levels being maintained.

Accumulated average occupancy rates for our hotels during this period increased to 58%, as compared to 53% during the previous year. Average prices showed a slight decrease, with an average price per room of Ps. 266, as compared to Ps. 269 during the previous fiscal year. The Llao Llao hotel, which has positioned itself as a first-class resort, the only one in Argentina based both on its services and location, has one of the highest prices per room in the country.

Income from the hotel activity for the year ended on September 30, 2003 totaled Ps. 8.3 million, as compared to Ps. 7.3 million during the same period of fiscal year 2003.

This increase in income reflects the general improvement in the activity as a result of the growing inflow of tourists due to attractive local prices. Consequently, all our hotels are showing good cash inflows.

The chart below shows information regarding our Company's hotels estimated for the three-month period ended September 30, 2003.

## V. Financial and other transactions

**Impact of exchange difference on the Company's financial position** Our dollar-denominated liabilities were adversely affected by the 4% depreciation of the Peso during the period ended on September 30, 2003, which resulted in a Ps. 18.9 million loss. Exposure of our assets to this economic variable during the same period resulted in a Ps. 4.8 million profit. The net loss generated by the depreciation of the Peso amounted to Ps. 14.1 million and was shown on the Effects of financing line, considerably contributing to the loss shown on that line and for the period.

**Replacement of Mortgage Security.** In August 2003, the mortgage backing the security for the US\$ 37.4 million floating rate Secured Bonds due 2009 was replaced. These Bonds are secured with a first mortgage for a value equal to 50% of the debt originally created on some of our properties, and during August 2003 that mortgage was replaced with first mortgages on the following buildings: Dique IV (Cossentini 340), Prouurban (Avda. Del Libertador 498) and Laminar Plaza.

**Early repayment of US\$ 16 million of debt** - On July 23, 2003, we proceeded to the early repayment of US\$ 16 million corresponding to the Syndicated Loan (Loan Agreement US\$ 51,000,000) due end November 2009 to HSBC Bank Argentina S.A. The transaction was settled for the amount of US\$ 10.9 million, 68% of the nominal value of the debt, with a US\$ 5.1 million discount. The repurchase was made based on the procedure established in the Syndicated Loan Agreement.

**Improvement of the risk rating of our Global Bond Program for up to US\$ 250 billion.** In October 2003, Fitch Argentina Calificadora de Riesgo S.A. raised the rating of our Global Bond Program for up to US\$ 250 billion from B- (arg) to B (arg). This rating improvement is due to the restructuring of our debt, which is in its entirety concentrated in the long term. Our secured debt for US\$ 37.4 million has been issued under this program.

### Improvement of risk rating of our structured debt

In October 2003, Standard & Poor's International Ratings LLC. (Argentine Branch), significantly raised the rating of the Ps. 85 million Bonds from raB+ to raBBB-, the first step towards investment grade.

This rating improvement is due to the improvement in the APSA's operating performance which, along with the debt rescheduling carried out during 2002, resulted in an increase in its cash flow generation capacity and in better debt and interest coverage indicators, as, among other things, explained by rating agency in its report.

**Conversion of Bonds.** To date, conversion rights have been exercised for 115,322 units. In this regard, 211,598 common shares were issued with par value of Ps. 1.0 each. In this way, the amount of outstanding Convertible Bonds is now US\$ 99,884,678 while the number of shares of the Company to date totals 212,210,871.

**Distribution of dividends in APSA.** On October 31, 2003, the General Ordinary and Extraordinary Shareholders Meeting of Alto Palermo S.A. (APSA) approved the cash distribution of Ps. 10.0 million as dividends (Ps. 0.141 per share of US\$ 1 par value each, or Ps. 0.5642 per ADR) as one of the uses of the Ps. 77.4 million profit for fiscal year 2003. The above distribution generated at IRSA a Ps. 5.5 million income equivalent to its shareholding in APSA.

**Appointment of Directors.** The Shareholders Meeting resolved to fix the number of full directors at 8, and the number of alternate directors at 5. The following were reelected for the term of three years as Directors: Elsztain, Eduardo Sergio; Zang, Saúl and Bergotto, Pedro Oscar, all of whom are non-independent directors under the terms of Resolution 400 of the Argentine Securities Commission; Messrs. Fishman, Marcos and Bridges, Cedric were appointed directors, and Mr. Cárdenas, Emilio was appointed alternate director for the statutory term, all of whom are independent except for Mr. Fishman.

## **VI. Prospects for next quarter**

During the second quarter of fiscal year 2004 we will continue to plan the launching of new developments, based on the Company's strong financial structure, and with a clearly positive view of the future development of the Argentine economy. The projected growth of the GDP for 2003, which would increase by 7.1%, would have a significant effect in 2004. In addition, it is estimated that investments will increase mainly as a result of the recovery of consumption.

The above positive signals present a decidedly favorable scenario for our business, and, accordingly, the slight increase in occupancy rates in our office buildings will continue to grow during next quarters, the sales in our shopping centers, which have already shown considerable growth, are expected to increase even further, and tourism will consolidate its extraordinary performance through the maintenance of very attractive prices for foreign visitors.

We consider that our significant positioning in the Argentine market will allow us to continue to grow in our business areas, accompanying growth in Argentina as one of the leading economic groups in the country.

**Report of Independent Auditors**

To the Shareholders, President and Board of Directors of

**IRSA Inversiones y Representaciones Sociedad Anónima**

1. We have reviewed the balance sheets of IRSA Inversiones y Representaciones Sociedad Anónima at September 30, 2003, and the related statements of results, changes in shareholders' equity and cash flows for the three month periods ended September 30, 2003 and 2002 and the complementary notes 1 to 13 and schedules A to I. Furthermore, we have reviewed the consolidated financial statements of IRSA Inversiones y Representaciones Sociedad Anónima with its subsidiaries which are presented as complementary information. The preparation and issuance of the financial statements are the responsibility of the Company's management.
2. We conducted our review in accordance with standards established by Technical Resolution No. 7 of the Argentine Federation of Professional Councils of Economic Sciences for limited reviews of financial statements. A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.
3. Based on our work and our examinations of the financial statements of this Company and the consolidated financial statements for the financial years ended June 30, 2003 and 2002, on which we issued our unqualified report on September 8, 2003, we report that:
  - a) The financial statements of IRSA Inversiones y Representaciones S.A. at September 30, 2003 and 2002 and its consolidated financial statements at those dates, set out in point 1, prepared in accordance with accounting standards prevailing in the Autonomous City of Buenos Aires include all the significant facts and circumstances of which we are aware, and we have no observations to make on them.
  - b) The comparative information included in the basic and consolidated balance sheets and the supplementary notes and schedules to the attached financial statements arise from Company financial statements at June 30, 2003.
