Form 10-K for the year ended December 31, 2004

PART III - NARRATIVE

World Fuel Services Corporation (WFS) is unable to file its Annual Report on Form 10-K for the year ended December 31, 2004 (the Annual Report on Form 10-K) within the prescribed time period because it is unable to complete the preparation of its consolidated financial statements and because WFS and its auditors require additional time to complete the assessment of WFS' internal controls over financial reporting required for compliance with Section 404 of the Sarbanes-Oxley Act of 2002 and the rules of the Public Company Accounting Oversight Board. The reasons causing WFS' inability to file timely are beyond its control and could not be eliminated by WFS without unreasonable effort or expense.

WFS and its auditor have concluded that WFS should have accrued certain sales. WFS contracts with third parties to deliver fuel to customers and perform most services. Its policy had been to record sales only when supporting documentation relating to fuel deliveries and related services had been received from these third parties. The change will necessitate a restatement of prior financial statements for all reported periods. Because the change affects the time when revenue and income are recorded, it is expected to have a material effect on reported results within specific quarters, though management does not believe that the change, which affects only the timing of the recording of revenue from quarter to quarter, will have any significant effect on its overall results for the restated periods.
