PART I

ITEM 1. DESCRIPTION OF BUSINESS

Advant-e Corporation was incorporated in the State of Delaware on March 9, 1994. On April 10, 2000, Advant-e acquired all of the issued and outstanding shares of its wholly-owned and sole operating subsidiary, Edict Systems, Inc., which was incorporated in the State of Ohio in September of 1994. Advant-e Corporation and Edict Systems, Inc. are collectively referred to herein as the Company .

The Company, via its wholly-owned subsidiary Edict Systems, Inc. is a provider of business-to-business (B2B) electronic commerce (e-commerce) products and services, offering comprehensive, standards-based and proprietary solutions for businesses of all sizes. The Company develops, markets, and supports B2B e-commerce software products and provides Internet-based communication and e-commerce data processing services that help businesses process reoccurring transactions required in the electronic procurement of goods and services and other B2B relationships.

The Company s software products enable businesses to engage in e-commerce with one another by allowing companies to fully integrate e-commerce data into their business infrastructure and operations as well as allowing smaller companies the ability to manually process electronic transactions.

The Company also provides consultative services for its customers, generally small and medium sized suppliers to large buying organizations wherein it acts as a liaison between the buyers and their suppliers to interface with the buyer on behalf of the Company s customers. Customers consist of businesses across a number of industries throughout the United States and Canada.

Advant-e specializes in B2B e-commerce transaction services via EnterpriseEC(R), an Internet-based Electronic Business Transaction Network and Trading Community Management Platform, and web-based EDI and Electronic Commerce solutions for small and medium size companies. The Company markets its web-EDI solutions within specific vertical industries with branded web sites including www.GroceryEC.com, www.RetailEC.com, www.CPGSupplier.com, www.LogisticsEC.com, and www.MfgEC.com as well as the non-vertical site www.WebEDI.com. In addition to Internet and web-based e-commerce solutions, Edict also provides e-commerce integration and bar coding applications via its FORMULA_ONE(R) translation software and Bar Code Label Modules as well as software solutions provided by the Company s business partners. Revenue from these e-commerce integration and bar coding software applications continues to decline as anticipated and accounted for 3% of total revenue in 2004.

The following is a description of the Company's four principal business products/services:

1. Web-based Electronic Commerce/Electronic Data Interchange (web-EDI) document processing systems (WebEDI.com) and branded vertical industry sites such as GroceryEC.com, RetailEC.com, CPGSupplier.com, MfgEC.com, and LogisticsEC.com, etc. GroceryEC.com is the Company's first vertical industry business-to-business web-based e-commerce site and accounts for most of the Company's revenues. GroceryEC.com is a web-based system for allowing manufacturers and brokers in the grocery industry to conduct electronic commerce with grocery retailers. GroceryEC.com allows its subscribers to send and receive electronic purchase orders, invoices, price changes, item information, promotional contracts, advance ship notices, and other documents via a web-based service. The grocery retailing industry has changed dramatically due to technological advances with EDI making many of these changes feasible. The strength of the Company's business model is that the party that has a large influence on the buying decision, the major grocery retailers (hubs), is not the party that pays for the service; the suppliers (spokes) who use GroceryEC.com pay for it. The large retailers increase the return on their existing EDI investment, and smaller and medium-sized suppliers gain efficiencies at a very reasonable cost. At March 1, 2005, web-EDI supported more than 120 retailers and had approximately 3,000 production customers (primarily GroceryEC) generating transaction revenues. Several other vertical industry sites are in use (RetailEC.com, MfgEC.com, and CPGSupplier.com) and others are planned for future release. In addition to the Internet domain names mentioned, the Company owns FoodServiceEC.com, AutomotiveEC.com, HealthcareEC.com, PetroleumEC.com, HighTechEC.com, EZEC.com, EasyEC.com, DrugStoreEC.com, and others.

2. Internet-based Business-to-Business Electronic-Commerce Network Services EnterpriseEC.com. The Company's Electronic Trading Network (ETN) and trading community management platform began generating revenue in the third quarter of 2002. An ETN is an Internet-based service that is an alternative to higher-cost traditional Value Added Networks. The Company markets this service to its GroceryEC.com and other web-EDI customers as well as customers of other existing Value Added Networks.

3. Electronic Commerce and Bar Coding Software-Formula_One EDI software and Bar Code Label Modules. In addition to Internet and web-based e-commerce solutions, the Company also provides electronic commerce integration and bar coding applications via its Formula_One translation software and Bar Code Label Modules. Revenues from these products are steadily declining as the Company continues to emphasize its Internet-based electronic commerce products that have more growth and profit potential. In 2005 the Company is sunsetting its software business, so that little if any revenue can be expected from these products after 2005. The Company intends on leveraging business partners to provide integration software and services to existing and future software customers as well as providing hosted solution options.

4. Value-Added Applications. Using data stored for other services, the Company intends on providing value-added web-based applications to current and future customers that includes data mining, processing and reporting. These products are currently in the pre-development stage.

For items 1 and 2 above, the Company's EDI administration, technical support and systems maintenance personnel provide consultative services that enable the Company's customers (suppliers) and their trading partners (usually buying organizations of large companies or hubs) to conduct EDI transactions, as requested by the hub, by interfacing with the hub on behalf of the Company's customers to facilitate the establishment of their electronic (EDI) trading partner relationship.

Because each hub has established processes in place to migrate a non-EDI supplier to an EDI-enabled supplier, and because these procedures vary among the hubs, the Company acts as a liaison between its customers and the hub to establish this EDI connection. Since most of the Company's customers are small to medium-sized companies, they recognize that the Company has the resources and expertise to establish this connection for them. This trading partner connection and relationship, once established, is portable to other EDI service providers if the customer chooses to do so.

Time periods of these web-EDI agreements can be cancelled at any time by customers with 30-days prior written notice. EnterpriseEC agreements can be cancelled at any time during the first year with 90-days prior written notice and in subsequent years with 30-days prior written notice.

The Company is currently focusing on increasing subscription fees relating to its web-EDI services and EnterpriseEC.

The Market

Business-to-business e-commerce involves the automation of business processes and transactions through the use of computers and telecommunications to exchange and electronically process commercial information and transactions between businesses. In the 1980's, the predominant technology for B2B e-commerce was Electronic Data Interchange (EDI), which involves the use of industry standards to conduct the exchange of business documents electronically. The transactions were communicated between businesses over private communication networks, known as VANs, which provided security, administration of trading partnerships, auditing, and delivery of electronic transactions. In the 1990's, the Internet, because of its wider acceptance among businesses, became a viable option for conducting e-commerce instead of using private networks. This development greatly increased the opportunity for more businesses to participate in e-commerce due primarily to a perception of lower cost associated with using the Internet.

The advantages of B2B e-commerce typically include elimination of redundant data entry, a reduction in administration associated with processing paper documents, a reduction in lead-time necessary to process documents, the ability to reduce inventory based on just in time philosophies, and increased data accuracy. The use of data standards for e-commerce is important for companies with disparate computer systems to communicate business documents electronically in an effective manner.

As larger companies seek to garner the maximum return on their ability to do e-commerce, many of their smaller trading partners will require applications to manually process and generate electronic documents externally from their business systems until such a time that the volume of e-commerce transactions warrant the necessary investment to integrate the e-commerce data into their legacy systems. These smaller companies utilize PC-based software or web-based portals for processing and creating e-commerce documents to support their business partners.

Strategy

The Company plans to become a leading provider of B2B e-commerce software and solutions by providing software products and services to the B2B marketplace for the broadest possible distribution. By focusing on vertical markets within the B2B marketplace along with providing horizontal market solutions, the Company intends to provide solutions to a broad potential customer base.

There are two major components to conducting B2B e-commerce - communications and data processing.

In support of the first major component, communications, the Company has developed its EnterpriseEC service, which is an Internet-based e-commerce network providing similar functionality as traditional VANs, but at reduced prices due to using the Internet as a communications infrastructure instead of creating and maintaining a private network. EnterpriseEC can be used by companies that currently have e-commerce software in place, but are using traditional VANs by using secure file transfer protocol (FTP), EDI-INT, or any other direct method of transferring data that is acceptable to the customer.

In addition, EnterpriseEC communicates with traditional VANs via Internet connections with several VANs that interconnect with the other established VANs in the marketplace. EnterpriseEC also allows customers to transmit and receive data directly to the Company's data center using other communications protocols such as asynchronous or bisynchronous, bypassing the Internet altogether. This is provided for those customers that have concerns about the Internet being used for B2B e-commerce due to security or availability concerns.

In support of the second major component of B2B e-commerce, data processing, the Company has developed both PC-based software and web-based solutions. The processing of e-commerce data falls into two general categories - those that are integrating the e-commerce data into their in-house legacy business systems and those that process and generate electronic documents manually (not integrated).

For companies that want to integrate e-commerce data into their in-house legacy business systems, EnterpriseEC has the ability to reformat data prior to transmission to the customer for integration purposes using custom developed applications, which are hosted on the EnterpriseEC computer systems.

For companies that want a stand-alone solution which produces readable documents of incoming e-commerce data and generates outgoing e-commerce documents by using data entry screens, the Company has developed a web-based solution for processing e-commerce data in a stand-alone environment (Web EDI). By generating readable reports of incoming electronic documents, and utilizing Java applets and/or HTML based entry screens for creating outgoing electronic documents, the Company has created an alternative to traditional e-commerce software and network services. The Company provides these web-based solutions via web-based portals that target specific industry segments.

The Company intends to utilize its many years of experience in the e-commerce industry to market EnterpriseEC horizontally to companies currently doing e-commerce as well as companies that will be conducting e-commerce in the future. Because EnterpriseEC is not industry specific and utilizes both standards-based data formats, as well as proprietary formats, any company doing e-commerce is a potential customer of EnterpriseEC.

The Company's GroceryEC Web EDI solution is currently a leading provider of web-based B2B e-commerce in the grocery industry. The Company intends to duplicate the success of GroceryEC in other vertical industries where there is a high concentration of EDI usage among large buyers, but relatively low support from small and medium size suppliers.

The Company has also initiated a Hub and Spoke marketing program whereby large companies that have a need to conduct e-commerce with a broad business partner base can leverage the capabilities of EnterpriseEC and Web EDI at little or no cost to the large company, provided they meet certain criteria. These criteria consist of:

A minimum of 100 potential business partners not currently doing e-commerce with them;

A mandate to these business partners to conduct e-commerce combined with a penalty for non-compliance (such as an assessment or handling fee for processing paper-based documents) or an incentive for compliance (such as better payment terms);

The Hub must provide a list of targeted business partners to the Company;

The Hub must make their business partners aware that EnterpriseEC or its web EDI solutions are available to satisfy the mandate;

Establish a direct connection with EnterpriseEC via the Internet or other communications protocols.

No exclusive endorsement of the Company's products are necessary by the Hub company to gain the benefits of the Hub and Spoke marketing program.

Management believes that the products and services offered by the Company, combined with the Hub & Spoke marketing program, offer a unique service in the B2B electronic commerce industry by combining the provision of network services to large companies at significantly reduced cost with web-based document processing capabilities for their trading partners which allows the large company to get 100% participation from their potential trading partners. This approach offers an excellent opportunity for Company growth.

Competition

The B2B e-commerce market is highly competitive. Numerous companies supply B2B e-commerce software products, private network services, Internet VAN services, and Web EDI capabilities. Many of the Company's competitors have significantly greater financial and personnel resources than the Company, due in part either to their revenue and profitability, or their market capitalization. The Company's competitors range from small companies with limited resources to large companies with substantially greater financial and marketing resources than the Company. The Company believes that existing competitors who compete with the Company in one segment of the market are likely to expand the range of their e-commerce services to include other market segments that the Company has targeted or will target. In addition, the barrier to entry into the Company's markets is not large so it is likely that new competitors will enter the Company's markets on an ongoing basis. Also, large telecommunication, media, and software companies may offer services in direct competition to the Company. The Company believes the principal competitive factors in the commercial B2B e-commerce industry include responsiveness to customer needs, efficiency in the delivery of solutions, ease of product use, quality of service, price and value. The Company believes it competes favorably with regard to these factors.

Intellectual and Proprietary Rights

The Company regards portions of its software products and other designs, including its web site designs, as proprietary and will attempt to protect them by all available means including trade secret laws, employee and third-party nondisclosure agreements, and built-in software

protections.

Although the Company believes that its current technology and designs have been independently developed, there can be no assurance that the technology does not or will not infringe on the rights of others. The Company has no patents or registered copyrights pertaining to its products, and it may be possible for unauthorized third parties to copy certain portions of the Company's products or to reverse engineer or otherwise obtain and use, to the Company's detriment, information that the Company regards as proprietary. Moreover, the laws of some countries do not offer the same protection to the Company's proprietary rights as do those of the United States and Canada. There can be no assurance that legal protections relied upon by the Company to protect its proprietary position will be adequate or that the Company's competitors will not independently develop technologies that are substantially equivalent or superior to those utilized by the Company. It is the intention of the Company to apply for patent protection of any processes or business methods determined to be patentable and in the best interest of the Company to do so.

The Company owns United States trademark rights to EnterpriseEC and FORMULA_ONE. Other trademarks may be acquired by the Company if and when management determines that it is in the best interest of the Company to do so.

Third Party Technology

The Company incorporates in its products certain software licensed to it by other software developers. These include software components and objects licensed from various vendors. The Company also relies on licensed software development tools, database software, and server software from third party providers for the development and operation of its products.

If the Company was deprived of the right to use software incorporated in its products for any reason, or if the tools utilized in the development of its products were discontinued or the capabilities contained in future releases were not up to the standards set by the Company, there could be serious disruption to its business.

Employees

The Company believes its success depends to a significant extent on its ability to attract, motivate and retain highly skilled vision-oriented management and employees. To this end, the Company intends to focus on incentive programs for its employees and will endeavor to create a corporate culture that is challenging, rewarding and enhances the employees' career development. As of March 4, 2005 the Company had a total of 37 full-time employees. Twenty-one employees are technical personnel engaged in developing, maintaining or providing technical support for the Company's products and services, eleven employees are marketing and sales personnel, and five are involved in administration and finance.

Research and Development

The Company conducts research and development on two levels on a continuing basis. First, the Company continually studies the business processes in the B2B industry, as well as the vertical industries it targets. A pivotal part of the success of the Company's products is in understanding the exact needs of its customers, and applying that knowledge to its products and services.

Second, core technology research, development, and engineering are conducted on a continual basis. New technologies associated with the Internet and standards for conducting e-commerce (such as extensible markup language or XML) and the commercial product development software that support it are continually being researched and incorporated into the Company's products when deemed necessary.

The Company expended less than \$25,000 in 2004 and 2003 for research and development. The Company includes such costs in its prices charged to its customers.

Government Regulation

Based upon its experience and knowledge of the industry, the Company believes that its products comply substantially with applicable regulations in the markets which the Company has targeted, however, there can be no assurances that future regulations or laws will not be adopted that would have an adverse effect on the Company. The Company cannot predict the extent or impact of future legislation or regulation by federal, state or local authorities.

The Company believes that it is in full compliance with the applicable rules and regulations of the Securities Exchange Commission and is in full compliance with applicable provisions of the Sarbanes-Oxley Act of 2002 and its regulations.

Reports to Security Holders

We are currently subject to the reporting requirements of the Securities Exchange Act, and we file periodic reports including annual Form 10-KSB and quarterly Form 10-QSB, and other information with the Securities and Exchange Commission (Commission). In addition, we will upon request, furnish shareholders with annual reports containing audited financial statements certified by our independent registered public accounting firm and interim reports containing unaudited financial information as it may be necessary or desirable. We will provide without charge to each person who receives a copy of this Form 10-KSB, upon written or oral request, a copy of any information that is incorporated by reference in this Form 10-KSB (not including exhibits to the information that is incorporated by reference unless the exhibits are themselves specifically incorporated by reference). Such request should be directed to Advant-e Corporation, Attention: Investor Relations, 2680 Indian Ripple Rd., Dayton, OH 45440, telephone 937-429-4288. Our web site is www.advant-e.com and www.edictsystems.com.

For further information with respect to us, reference is made to all other reports and information that we have filed with the Commission, which may be inspected and copied at the public reference facilities of the Securities and Exchange Commission in Washington D.C. Copies of such material can be obtained from the Public Reference Section of the Commission, 450 Fifth Street, NW, Washington, D.C. 20549, telephone 1-800-SEC-0330, at prescribed rates and are available on the World Wide Web at <http://www.sec.gov>. The Commission maintains information on this web site regarding reports, proxy and information statements and other information pertaining to issuers that file electronically with the Commission. Visitors to the site may access such information by searching the EDGAR database on the SEC's web site.

ITEM 2. DESCRIPTION OF PROPERTY

The Company presently leases 12,000 square feet of office space as its principal place of business at 2680 Indian Ripple Rd. Dayton, OH 45440. The lease agreement has an initial three-year term that expires on September 30, 2005 and two consecutive three-year renewal periods available at the Company's option.

Monthly rent payments under the agreement are \$8,072 through September 30, 2005. The lease rate in the renewal periods, if exercised, will increase by a maximum amount of 5% per year. Lease payments include substantially all maintenance and repairs, and real estate taxes and utilities. The Company has a right of first refusal on 7,000 square feet of adjacent office space.

ITEM 3. LEGAL PROCEEDINGS

The Company is not currently subject to any legal proceedings. The Company may from time to time become a party to various legal proceedings arising in the ordinary course of business.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters were submitted to a vote of the stockholders of the Company during the fourth quarter of the 2004 fiscal year.

PART II

ITEM 5. MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

The following table sets forth, during the periods indicated, the range of high and low bid prices for the Company's Common Stock (symbol AVEE) on the OTC Bulletin Board. Such high and low bid information reflects inter-dealer quotes, without retail mark-up, mark down or commissions and may not represent actual transactions.

	<u>High</u>	<u>Low</u>
FISCAL 2003		
Quarter ended:		
March 31, 2003	1.450	1.130
June 30, 2003	1.500	1.020
September 30, 2003	2.250	1.300
December 31, 2003	1.750	1.300
FISCAL 2004		
Quarter ended:		
March 31, 2004	2.700	1.300
June 30, 2004	2.750	2.000
September 30, 2004	2.250	1.400
December 31, 2004	2.250	1.250

As of March 4, 2005 the Company had approximately 312 registered holders of record of common stock. Some of those registered holders are brokers who are holding shares for multiple clients in street names. Accordingly, the Company believes the number of actual shareholders of common stock exceeds the number of registered holders of record.

The Company has never paid any cash or stock dividends. The Company presently intends to reinvest earnings, if any, to fund the development and expansion of the Company and therefore does not anticipate paying dividends on Common Stock in the foreseeable future. The declaration of dividends will be at the discretion of the Board of Directors and will depend upon the Company's earnings, financial position, general economic conditions and other pertinent factors.

No securities are authorized for issuance under equity compensation plans. The Company plans to implement an employee stock option plan at an undetermined future date, subject to the approval of shareholders.

RECENT SALES OF UNREGISTERED SECURITIES

The following is a description of the unregistered securities that the Company issued within the last three years that are convertible or exchangeable into equity securities, or are warrants representing equity securities, including the terms of conversion or exercise of the securities. Although these shares were not originally registered under the Securities Act, they became registered on July 23, 2004 by order declaring the Registration Statement effective pursuant to Section 8(a) under The Securities Act of 1933, as amended.

On March 24, 2001, the Company received \$50,000 in cash from James D. Rike in exchange for a 15% Convertible Subordinated Note. The Note originally was to mature on March 19, 2002; the maturity date was subsequently extended to December 5, 2004. On December 5, 2003 James D. Rike was issued a warrant granting him the right to acquire 75,000 shares of the common stock at a price of \$1.205 per share until December 5, 2006. Also on December 5, 2003 Mr. Rike converted the accrued interest at that date in the amount of \$23,040 into 21,735 common shares of the Company's stock at \$1.06 pursuant to the Convertible Subordinated Note Agreement. On January 31, 2004 the Company paid the principal and interest totaling \$51,167 to Mr. Rike in full payment of the Note.

On July 9, 2002, the Company received \$250,000 in cash from the following note holders in exchange for 10% Convertible Subordinated Notes:

<u>Note holder</u>	<u>Amount</u>
Covenant Investments, L.P.	\$ 50,000
Blair Baker	50,000
Scott Brock	25,000
Rene Larrave	50,000
Charter Private Equity, L.P.	25,000
Barwell Partners, Ltd.	50,000
Total	\$ 250,000

The 10% Convertible Subordinated Notes were convertible at maturity in the principal amount plus any accrued interest into the Company's common stock at a price of \$1.10 per common share. All of the holders of the Notes were issued a warrant to acquire common shares of the Company, at a price of \$1.25 per common share, determined by multiplying the principal amount of each Convertible Subordinated Note by 1.0. Those warrants have an expiration date of September 27, 2005. The Notes were to originally mature on September 27, 2003; the maturity date was extended to January 5, 2004. The Company's majority shareholder personally guaranteed the Notes.

These Notes were offered to the above investors pursuant to Rule 506 and Section 4(2) of the Securities Act. No fees were paid to an underwriter.

In December 2003 all the above holders of the 10% Convertible Subordinated Notes converted the principal amounts of their Notes into a total of 227,274 shares of the Company's common stock at \$1.10 per common share. The Company in 2003 paid to the Note holders \$37,766 in cash,

representing all accrued interest on the Notes through the dates of conversion.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

FORWARD LOOKING STATEMENTS

This Form 10-KSB contains forward-looking statements, including statements regarding the expectations of future operations. For this purpose, any statements contained in this Form 10-KSB that are not statements of historical fact may be deemed to be forward-looking statements. Without limiting the foregoing, words such as may, will, expect, believe, anticipate, estimate, or continue or comparable terminology are intended to identify forward-looking statements. These statements by their nature involve substantial risks and uncertainties, and actual results may differ materially depending on a variety of factors, many of which are not within the Company's control. These factors include, but are not limited to, economic conditions generally and in the industries in which the Company may participate, competition within the chosen industry, including competition from much larger competitors, technological advances, and the failure to successfully develop business relationships. In light of these risks and uncertainties, you are cautioned not to place undue reliance on these forward-looking statements. The Company acknowledges that the safe harbor contained in the Litigation Reform Act of 1995 is not applicable to the disclosure in this Form 10-KSB.

This item should be read in conjunction with Item 1. Financial Statements and other items contained elsewhere in this Form 10-KSB.

OVERVIEW

The Company through its wholly-owned subsidiary Edict Systems, Inc., is a provider of business-to-business (B2B) electronic commerce (e-commerce) products and services, offering Electronic Data Interchange (EDI) based and proprietary solutions for businesses of all sizes. The Company develops, markets, and supports B2B e-commerce software products and provides Internet-based communication and data processing services that enable businesses to process transactions electronically.

The Company's software products enable businesses to integrate e-commerce data into their business and enable smaller companies to process electronic transactions.

The Company provides consultative services for its customers, generally small and medium sized suppliers of larger companies, where the Company interfaces between its customers and the buyers to facilitate the EDI connectivity required for document processing.

The following comprise the Company's four principal business products/services:

Web EDI Internet-based supply chain solution for the grocery and other industries

EnterpriseEC® Internet-based Electronic Business Transaction Network Services

Formula_One® EDI software and Bar Code Label Module software

Edgar Filing: ADVANT E CORP - Form 10KSB

Value-Added Applications Internet-based solutions that enhance the value of electronic commerce capabilities

EXECUTIVE SUMMARY

The Company's 22% growth in revenue in 2004 and 118% increase in net income over 2003 were primarily the result of continued expansion and market acceptance of the Company's internet-based subscription services including grocery industry web-EDI and EnterpriseEC and the Company's continuing efforts to control costs.

The Company in 2004 produced cash flow from operating activities of \$1,172,367 compared to \$454,064 in 2003.

FOURTH QUARTER RESULTS

The Company's operating results in the fourth quarter of 2004 compared to the fourth quarter of 2003, are indicated in the following table:

	Fourth Quarter 2004	Fourth Quarter 2003
Revenue	\$ 990,077	818,641
Cost of revenue	325,474	269,174
Gross margin	664,603	549,467
Marketing, general and administrative expenses	440,492	327,778
Operating income	224,111	221,689
Interest		49,037
Income before income taxes	224,111	172,652
Income taxes (benefit)	97,000	(10,184)
Net income	\$ 127,111	182,836

Fourth quarter 2004 revenues increased 21% over fourth quarter 2003 as a result of growth in sales of Internet-based subscription services. Gross margin was 67% in both the fourth quarter 2004 and 2003. Marketing general and administrative expenses increased by \$112,714 due to additional personnel, salary increases for key people and increased sales and marketing efforts. Income before taxes as a percent of sales increased from 21% to 23%. The Company incurred no interest in the fourth quarter of 2004 as it paid in full in the first quarter of 2004 all outstanding notes payable. The Company recognized income taxes in Q4 2004 of \$97,000 compared to an income tax benefit in Q4 2003 of \$10,184. The tax benefit in Q4 2003 resulted from increasing the tax rate from 21% to 40% for valuing all deferred tax assets and liabilities in accordance with Statement of Financial Accounting Standards (SFAS) No. 109, Accounting for Income Taxes. As a result, net income for Q4 2004 declined compared to net income for Q4 2003.

2004 RESULTS COMPARED TO 2003

REVENUES

Revenues increased by 22% in 2004 compared to 2003. This growth continued in the Company's Internet-based subscription services, primarily from grocery industry web-EDI, which comprises 84% of total revenues in 2004, and from EnterpriseEC, which comprises 9% of total revenues in 2004.

Edgar Filing: ADVANT E CORP - Form 10KSB

The following table is a breakdown of 2004 and 2003 revenues by product and percentage growth over 2003:

	Revenues		Growth (Decline)	
	2004	2003	Amount	Percent
Internet products and services				
Web-EDI GroceryEC	\$ 3,032,831	2,479,306	553,525	22%
Web-EDI other industries	133,743	76,458	57,285	75%
EnterpriseEC	334,809	204,436	130,373	64%
	<u>3,501,383</u>	<u>2,760,200</u>	<u>741,183</u>	<u>27%</u>
Software and software licenses	99,349	182,792	(83,443)	(46)%
	<u>\$ 3,600,732</u>	<u>2,942,992</u>	<u>657,740</u>	<u>22%</u>

Suppliers in the grocery industry continue to accept GroceryEC as an effective solution that enables them to fulfill connectivity requirements of grocery retailers, as evidenced by our 22% growth in GroceryEC revenue in 2004. We currently support over 120 grocery companies (hubs), enabling the suppliers of those Hubs to process EDI business documents through GroceryEC.

Web-EDI revenues from industries other than grocery grew 75% in 2004. This growth occurred primarily in the consumer packaged goods supplier, manufacturing, automotive, entertainment, and retail industries. We intend in 2005 to continue to concentrate sales and marketing efforts in these industries and to particularly target the automotive, and consumer packaged goods, and general merchandise retail industries. The technology of our web-EDI solution for the grocery industry is readily transferable, with some modification, to most other industries. We intend to continue to focus on identifying other vertical industries to leverage our Web-EDI technology.

Revenues from EnterpriseEC increased by 64% in 2004. While this growth in 2004 as well as the 233% growth in 2003 is significant, pricing pressures and the availability of alternate connectivity options have adversely affected the market for Internet-based Value Added Network services. EnterpriseEC is an integral part of our Web-EDI solutions and provides trading community management capabilities to our supported hubs. We are continually upgrading the functionality of EnterpriseEC as a Trading Community Management Platform and we are striving to target customers who desire value-added services beyond connectivity.

Revenues from software and license fees, which comprised only 3% of our revenue in 2004, continued to decline in 2004 as the Company focuses on Internet-based products and services.

GROSS MARGIN

The Company's gross margin was 66% in 2004 compared to 61% in 2003. The improved gross margin resulted from increased revenue in 2004 coupled with relatively fixed costs of technical, operations and customer support labor that more than offset increased depreciation, amortization, and other direct operating costs.

MARKETING, GENERAL AND ADMINISTRATIVE EXPENSES

Marketing, general and administrative expenses increased by \$179,132 (13%) in 2004; as a percent of sales, however, these expenses decreased from 47% in 2003 to 43% in 2004. The increase in absolute dollars reflects primarily the Company's continuing efforts to strengthen its sales and marketing programs and salary increases for key personnel.

INCOME TAXES

Income taxes in 2004 are provided at statutory rates approximating 40%. In 2003, however, the Company increased the tax rate from 21% to 40% for valuing the net deferred tax asset, predicated on the Company's profitable operating performance for the last half of 2003 and its expected continued profitability in 2004. As a result, the Company reported a relatively modest income tax expense of \$9,246 in 2003.

LIQUIDITY AND CAPITAL RESOURCES

The Company in 2004 produced net cash flows from operating activities of \$1,172,367, sufficient to acquire infrastructure software and equipment totaling \$183,554, to pay off all remaining notes payable outstanding at December 31, 2003 of \$94,965 and to increase Cash and cash equivalents by \$728,444.

CAPITALIZED DEVELOPMENT COSTS

The following table sets forth the cost and accumulated amortization of the products comprising the Software Development Costs asset at December 31, 2004:

Product	Cost	Accumulated Amortization	Net
Web EDI (includes GroceryEC)	\$ 428,260	428,260	
Web EDI enhancements	317,937	117,183	200,754
EnterpriseEC	470,661	372,606	98,055
Total	\$ 1,216,858	918,049	298,809

Web-EDI, principally GroceryEC, is the Company's largest and primary source of revenue. Sales of EnterpriseEC continued to grow in 2004, growing by 64% to \$334,809. We anticipate continued growth of EnterpriseEC product revenues and cash flows.

CRITICAL ACCOUNTING ESTIMATES AND POLICIES

Software Development Costs

The Company capitalizes software development costs and amortizes those costs over a three-year estimated economic life of the software applications. Internet technology can change and does change quickly. As a result, any or all of our products could have an economic life of less than (or more than) three years. In addition, our products could become economically obsolete if we cannot sell the products in the marketplace at a margin that is adequate to produce cash flow. We review quarterly the economic lives of our capitalized products, expected cash flow, and profitability of our products. Capitalized software costs are reported at the lower of unamortized cost or net realizable value.

Revenue Recognition for Web-EDI and EnterpriseEC subscription fees

The Company recognizes monthly subscription fees of \$25 per month per customer (\$45 if the Customer does not pay by credit card) and \$5 per month per trading partner the customer connects to (up to 5 partners) upon the completion of one month of services. These fees are non-refundable. The Company recognizes transaction fees (document processing fees) upon completion of the processed transactions; these transactions are billed or charged to a customer's credit card once per month at the end of a monthly period. These fees are non-refundable and are only billed after services are provided.

The Company recognizes as revenues one-time Account Activation Fees (\$100 per new customer), Trading Partner Setup Fees (\$50 per partner for web-EDI) and interconnect Setup Fees (\$50 per interconnect) after the Company performs consultative work required in order to establish the electronic trading partnership between the customer and their desired trading partner. The Company's EDI administration, technical support and systems maintenance personnel provide these consultative services that enable the Company's customers (suppliers) and their trading partners (usually buying organizations of large companies or hubs) to conduct EDI transactions as requested by the hub by interfacing with the hub on behalf of the Company's customers. Because each hub has established processes in place to migrate a non-EDI supplier to an EDI-enabled supplier, and because these procedures vary among the hubs, the Company acts as a liaison between its customers and the hub to establish this EDI connection. Since most of the Company's customers are small to medium-sized companies, they recognize that the Company has the resources and expertise to establish this connection for them. This trading partner connection and relationship, once established, is portable to other EDI service providers if the customer chooses to do so.

Time periods of these web-EDI agreements can be cancelled at any time by customers with 30-days prior written notice. EnterpriseEC agreements can be cancelled with 90-days prior written notice during the first year and with 30-days prior written notice in subsequent years.

The Company periodically receives payments from customers in advance for the Company's development of Web-EDI and EnterpriseEC applications designed to meet specific customer specifications for processing Internet transactions. The Company expects to re-sell some of these applications, with minor modifications, to other customers. The Company recognizes these advance payments as revenue over the contract period, typically twelve months. The Company recognizes revenue from the transaction fees that result from processing Internet transactions upon completion of the processed transactions at the end of each month. These transaction fees are non-refundable and are only invoiced after services are provided.

COMMITMENTS

Other than the operating lease commitments as described in Note 9 to the consolidated financial statements included elsewhere in this Form 10-KSB, the Company has no additional commitments that are reasonably likely to have a material effect on the Company's financial condition or operating performance.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In March 2004, the FASB approved the consensus reached on the Emerging Issues Task Force (EITF) Issue No. 03-1, *The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments*. The Issue's objective is to provide guidance for identifying other-than-temporarily impaired investments. EITF 03-1 also provides new disclosure requirements for investments that are deemed to be temporarily impaired. In September 2004, the FASB issued a FASB Staff Position (FSP) EITF 03-1-1 that delays the effective date of the measurement and recognition guidance in EITF 03-1 until further notice. The disclosure requirements of EITF 03-1 are effective with this annual report for fiscal 2004. Once the FASB reaches a final decision on the measurement and recognition provisions, the company will evaluate the impact of the adoption of the accounting provisions of EITF 03-1.

In November 2004, the FASB issued Statement of Financial Accounting Standards (SFAS) No. 151, *Inventory Costs* an amendment of ARB No. 43, Chapter 4 (Issued 11/04), which clarifies the accounting for abnormal amounts of idle facility expense, freight, handling costs, and wasted material. SFAS No. 151 will be effective for inventory costs incurred during fiscal years beginning after June 15, 2005. The Company has no such inventory costs and as a result SFAS No. 151 has no effect on the Company's financial statements.

In December 2004, the FASB issued SFAS No. 152, *Accounting for Real Estate Time-Sharing Transactions* an amendment of FASB Statements No. 66 and 67, which references the financial accounting and reporting guidance for real estate time-sharing transactions in AICPA Statement of Position (SOP) 04-2, *Accounting for Real Estate Time-Sharing Transactions*. SFAS No. 152 will be effective for fiscal years beginning after June 15, 2005. The Company does not believe the adoption of SFAS No. 152 will have a material impact on its financial statements.

In December 2004, the FASB issued SFAS No. 153, *Exchanges of Nonmonetary Assets* an amendment of APB Opinion No. 29, which eliminates the exception for nonmonetary exchanges of similar productive assets and replaces it with a general exception for exchanges of nonmonetary assets that do not have commercial substance. SFAS No. 153 will be effective for nonmonetary asset exchanges occurring in fiscal periods beginning after June 15, 2005. The Company does not believe the adoption of SFAS No. 153 will have a material impact on its financial statements.

In December 2004, the FASB issued SFAS No. 123(R), *Share-Based Payment*, which establishes standards for transactions in which an entity exchanges its equity instruments for goods or services. This standard requires a public entity to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award. This eliminates the exception to account for such awards using the intrinsic method previously allowable under APB Opinion No. 25. SFAS No. 123(R) will be effective for interim or annual reporting periods beginning on or after June 15, 2005. Since no such award plan is in place nor anticipated in the near future, the Company does not believe the adoption of SFAS No. 123(R) will have a material impact on its financial statements.

ITEM 7. FINANCIAL STATEMENTS

LIST OF FINANCIAL STATEMENTS

Report of J.D. Cloud & Co. L.L.P. Independent Registered Public Accounting Firm

Consolidated Balance Sheets at December 31, 2004 and 2003

Consolidated Statements of Income for the Years Ended December 31, 2004 and 2003

Edgar Filing: ADVANT E CORP - Form 10KSB

Consolidated Statements of Cash Flows for the Years Ended December 31, 2004 and 2003

Notes to Consolidated Financial Statements

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders

Advant-e Corporation and Subsidiary

Dayton, Ohio

We have audited the accompanying consolidated balance sheets of Advant-e Corporation and Subsidiary as of December 31, 2004 and 2003, and the related consolidated statements of income, shareholders' equity, and cash flows for the years then ended. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Advant-e Corporation and Subsidiary as of December 31, 2004 and 2003, and the consolidated results of their operations and their cash flows for the years then ended in conformity with U.S. generally accepted accounting principles.

ADVANT-E CORPORATION AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2004

NOTE 1 - BASIS OF PRESENTATION, ORGANIZATION AND OTHER MATTERS

Nature of Operations

Advant-e Corporation through its wholly-owned subsidiary, Edict Systems, Inc. (collectively, the Company), develops and markets electronic data interchange and electronic commerce software products and services that enable its customers to send and receive business documents electronically in standard and proprietary formats. Customers consist of businesses across a number of industries throughout the United States.

Principles of Consolidation

The consolidated financial statements include the accounts of Advant-e Corporation and its wholly owned subsidiary, Edict Systems, Inc. Inter-company accounts and transactions are eliminated in consolidation.

Use of Estimates

The preparation of financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates used in preparing these financial statements include those considered in assessment of recoverability of capitalized software development costs, those used in the issuance of detachable stock warrants, and those used in recording net deferred tax assets and net deferred tax liabilities. It is at least reasonably possible that the significant estimates used will change within the next year.

Cash Equivalents

The Company classifies as cash equivalents all highly liquid investments with original maturities of three months or less.

Accounts Receivable and Credit Policies

Edgar Filing: ADVANT E CORP - Form 10KSB

Accounts receivable are uncollateralized customer obligations due under normal trade terms generally requiring payment upon receipt of invoice or within thirty days.

Accounts receivable are stated at the amount billed to the customer. Customer account balances with invoices dated over 30 days old are considered delinquent.

The carrying amount of accounts receivable is reduced by a valuation allowance that reflects management's best estimate of the amounts that will not be collected. Management considers account balances that are over 90 days old as having a high probability of uncollectibility and generally includes those amounts in the valuation allowance. In addition, management individually reviews accounts receivable balances and, based on an assessment of current creditworthiness, estimates the account balances that will not be collected and includes those amounts, if any, in the valuation allowance.

The allowance for uncollectible accounts was \$15,500 at December 31, 2004 and \$5,000 at December 31, 2003.

Software Development Costs

The Company accounts for the costs of computer software that it develops for internal use and costs associated with operation of its web sites in accordance with the American Institute of Certified Public Accountants Statement of Position (SOP) 98-1, Accounting for the Costs of Computer Software Developed or Obtained for Internal Use and Emerging Issues Task Force (EITF) No. 00-2 Accounting for Web Site Development Costs. Such capitalized costs represent solely the salaries and benefits of employees working on the graphics and content development stages, or adding functionality or features. Under SOP 98-1 and EITF No. 00-2, overhead, general and administrative and training costs are not capitalized. The Company accounts for the costs of computer software that it sells, leases and markets as a separate product in accordance with Financial Accounting Standards Board Statement No. 86, Accounting for the Costs of Computer Software to be Sold, Leased or Otherwise Marketed. Capitalized costs are amortized by the straight-line method over the remaining estimated economic lives of the software application, generally three years, and are reported at the lower of unamortized cost or net realizable value.

Property and Equipment

Property and equipment consist of office equipment and leasehold improvements carried at cost. Costs of normal maintenance and repairs are charged to expense as incurred. Impairment of asset value is considered whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Depreciation is provided using straight line and accelerated methods for financial reporting purposes at rates based on useful lives of three to seven years.

Debt Discount and Amortization

Debt discount recognized in connection with equity instruments issued with debt (beneficial conversion features and detachable warrants) is amortized to interest expense over the life of the underlying debt as an estimate of the cost of the financing event. The discount was fully amortized at December 31, 2003. Amortization of debt discount amounted to \$70,129 in 2003.

Revenue Recognition

The Company recognizes revenues in accordance with the Securities Exchange Commission Staff Accounting Bulletin 101 (SAB 101), which requires the Company to recognize revenue when, in addition to other criteria, delivery has occurred or services have been rendered.

Edgar Filing: ADVANT E CORP - Form 10KSB

Revenues from software product sales are recognized when the product is shipped. Ongoing software license fees are recognized ratably over the license period, generally twelve months.

Revenues from Internet-based products and services (Web-EDI and EnterpriseEC, etc) are comprised of four components - account activation and trading partner set-up fees, monthly subscription fees, usage based transactional fees and customer payments for the Company's development of applications designed to meet specific customer specifications.

Revenues earned from account activation and trading partner set-up fees are recognized after the Company performs consultative work required in order to establish an electronic trading partnership between the customer and their desired trading partners. Trading partnerships, once established, require no ongoing effort on the part of the Company and customers are able to utilize the electronic trading partnerships either directly with their customers or via a service provider other than the Company.

Revenues earned from monthly subscriptions are recognized after the monthly subscription has elapsed.

Usage based transactional fees are recognized upon completion of processing those transactions.

Revenue from customer payments for the Company's development of applications designed to meet specific customer specifications is recognized over the twelve-month contract period.

Income Taxes

Deferred income taxes are determined using the liability method of accounting. Under this method, the net deferred tax asset or liability is determined based on the tax effects of temporary differences between the book and tax bases of the various balance sheet assets and liabilities and gives current recognition to changes in tax rates and laws.

Advertising

All advertising costs are expensed as incurred. Advertising was \$5,674 in 2004 and \$1,229 in 2003.

Segment Reporting

Financial Accounting Standards Board Statement No. 131, Disclosure about Segments of an Enterprise and Related Information established standards for the reporting and disclosure of information about operating segments for public businesses. The Company's business is comprised of one segment - the development and sale of electronic data interchange and electronic commerce products and services.

Reclassifications

Edgar Filing: ADVANT E CORP - Form 10KSB

Certain prior period data presented in the financial statements has been reclassified to conform with the current year presentation.

Recently Issued Accounting Pronouncements

In March 2004, the FASB approved the consensus reached on the Emerging Issues Task Force (EITF) Issue No. 03-1, The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments.

In September 2004, the FASB issued a FASB Staff Position (FSP) EITF 03-1-1 that delays the effective date of the measurement and recognition guidance in EITF 03-1 until further notice. The company will evaluate the impact of the adoption of the accounting provisions of EITF 03-1 once the FASB reaches a final decision.

In November and December 2004, the FASB issued Statement of Financial Accounting Standards (SFAS) No. 151, Inventory Costs an amendment of ARB No. 43, Chapter 4, SFAS No. 152, Accounting for Real Estate Time-Sharing Transactions an amendment of FASB Statements No. 66 and 67 and SFAS No. 153, Exchanges of Nonmonetary Assets an amendment of APB Opinion No. 29. The Company does not believe that SFAS No. 151, 152, and 153 will have a material impact on its financial statements.

In December 2004, the FASB issued SFAS No. 123(R), Share-Based Payment, which establishes standards for transactions in which an entity exchanges its equity instruments for goods or services. This standard requires a public entity to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award. This eliminates the exception to account for such awards using the intrinsic method previously allowable under APB Opinion No. 25. SFAS No. 123(R) will be effective for interim or annual reporting periods beginning on or after June 15, 2005. Since no such award plan is in place nor anticipated in the near future, the Company does not believe the adoption of SFAS No. 123(R) will have a material impact on its financial statements.

NOTE 2 - SOFTWARE DEVELOPMENT COSTS

Software development costs at December 31, 2004 and 2003 and the changes during the years then ended are summarized as follows:

	Cost	Accumulated Amortization	Net
Balance, January 1, 2003	\$ 929,723	294,767	634,956
Additions	137,574		137,574
Amortization expense		290,852	(290,852)
Balance, December 31, 2003	1,067,297	585,619	481,678
Additions	149,561		149,561
Amortization expense		332,430	(332,430)
Balance, December 31, 2004	\$ 1,216,858	918,049	298,809

The unamortized costs at December 31, 2004 relate exclusively to internal use software and costs associated with the web site development and related enhancements.

The ongoing assessment of recoverability of capitalized software development costs requires considerable judgment by management with respect to certain external factors, including, but not limited to, anticipated future revenues, estimated economic life and changes in software and hardware technologies. Impairment of asset value is considered whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

NOTE 3 - NOTES PAYABLE

During 2003, \$120,000 of Convertible Subordinated Notes were paid in full and \$605,000 (plus accrued interest of \$23,040) were converted into 583,915 shares of the Company's common stock.

At December 31, 2003 the Company had outstanding a \$50,000 15% Convertible Subordinated Note, a 5.54% per year commercial bank note payable of \$4,965, and an 8% per year unsecured demand note payable to the Company's President that totaled \$40,000. These notes and all related accrued interest were paid in full in the first quarter of 2004.

Amounts related to warrants and beneficial conversion features of Convertible Subordinated Notes previously issued by the Company were recognized as interest expense totaling \$70,129 in 2003.

NOTE 4 - LINE OF CREDIT

The Company has a bank line of credit to borrow up to \$100,000 at the bank's prime commercial interest rate. The line of credit is renewable annually at the bank's option. Any borrowings under this line of credit are collateralized by substantially all the Company's assets. The Company has no borrowings under this agreement at December 31, 2004 or 2003, respectively.

NOTE 5 - PROFIT SHARING PLAN

The Company has a 401(k) pension plan covering employees who choose to participate in the Plan. Company contributions are discretionary. The Company made no contributions to the plan in 2004 or 2003.

NOTE 6 - INCOME TAXES

Income tax expense consists of the following:

	<u>2004</u>	<u>2003</u>
Current expense	\$ 26,000	
Deferred expense	301,400	9,246
	<u> </u>	<u> </u>
Total income taxes	\$ 327,400	9,246
	<u> </u>	<u> </u>

Edgar Filing: ADVANT E CORP - Form 10KSB

In 2004, the Company utilized the remaining tax benefit of \$323,951 of net operating loss carryforwards. The current tax expense for 2004 was partially offset by this benefit. Current tax expense for 2003 of approximately \$121,300 was fully offset by the benefit from a net operating loss carryforward.

The following is a reconciliation of the income tax expense to the amount computed at the statutory rate of 34%:

	<u>2004</u>	<u>2003</u>
Income tax expense at statutory rate	\$ 270,886	76,303
State income taxes	56,514	17,673
Change in net deferred tax assets attributable to change in the rate expected to apply when the net tax benefits are utilized		(108,574)
Non-deductible interest on debt discount amortization		23,844
	<u> </u>	<u> </u>
Income tax expense	<u>\$ 327,400</u>	<u>9,246</u>

Edgar Filing: ADVANT E CORP - Form 10KSB

Deferred taxes consisted of the following at December 31:

	<u>2004</u>	<u>2003</u>
Deferred tax assets:		
Net operating loss carryforwards	\$	323,951
Accounts payable and accrued expenses	55,369	57,282
Allowance for uncollectible accounts	6,200	2,000
Deferred revenue from license fees	57,115	36,372
	<u>118,684</u>	<u>419,605</u>
Deferred tax liabilities:		
Capitalized software costs, net of accumulated amortization	119,524	192,671
Accounts receivable	122,357	88,358
Depreciation for tax purposes in excess of depreciation for financial reporting purposes	59,961	24,334
Prepaid expenses	7,842	3,842
	<u>309,684</u>	<u>309,205</u>
Total deferred tax liabilities	309,684	309,205
Net deferred tax asset (liability)	\$ (191,000)	110,400

NOTE 7 - EARNINGS PER SHARE

The reconciliation of the numerators and denominators of the basic and diluted earnings per share calculations for the years ended December 31, 2004 and 2003 follows:

	<u>Income (Numerator)</u>	<u>Shares (Denominator)</u>	<u>Per Share Amount</u>
Year Ended December 31, 2004			
Basic earnings per share:			
Income available to common shareholders	\$ 469,323	6,244,917	\$ 0.08
Effect of dilutive securities:			
Outstanding warrants		338,491	(0.01)
Convertible Subordinated Notes	200	3,877	
Diluted earnings per share:			
Income available to common shareholders plus assumed exercise and conversion	<u>\$ 469,523</u>	<u>6,587,285</u>	<u>\$ 0.07</u>

Year ended December 31, 2003			
Basic earnings per share:			
Income available to common shareholders	\$ 215,175	5,702,751	0.04
Effect of dilutive securities:			
Outstanding warrants		91,614	
Convertible Subordinated Notes			
Diluted earnings per share:			
Income available to common shareholders plus assumed exercise			
	\$ 215,175	5,794,365	\$ 0.04

At December 31, 2004, the Company has 1,020,000 outstanding warrants for the purchase of the Company's common stock, as follows: 750,000 shares at \$1.205 per common share; 250,000 shares at \$1.25 per common share; and 20,000 shares at \$1.48 per share. The warrants expire as follows: 925,000 warrants between September 27, 2005 and December 13, 2005; 75,000 warrants, which were issued on December 5, 2003, through December 5, 2006; and 20,000 during the period from June 25, 2002 to June 25, 2006.

Warrants for 50,000 shares at \$1.205 per common share were exercised in February 2005.

NOTE 8 FINANCIAL INSTRUMENTS AND CONCENTRATION OF CREDIT RISK

Financial instruments, which potentially subject the Company to concentrations of credit risk, consist principally of deposits in a large Ohio-based regional bank, which exceed federally insured limits, and trade accounts receivable. The Company manages the risk regarding deposits in banks by using high quality financial institutions. Credit risk with respect to trade accounts receivable is limited due to the large number of primarily domestic customers who are geographically dispersed.

The carrying amounts and estimated fair value of the Company's financial instruments at December 31, 2004 and 2003 approximates fair value. Financial Accounting Standards Board Statement No. 107, "Disclosures About Fair Value of Financial Instruments," defines the fair value of a financial instrument as the amount at which the instrument could be exchanged in a current transaction between willing parties.

NOTE 9 - OPERATING LEASES

The Company is obligated under operating leases for computer equipment through February 2005 and for office space through September 2005. In addition, the Company leased storage space in 2003 from its President under a monthly lease that was terminated in November 2003. Lease expense was \$141,790 in 2004 and \$213,939 in 2003, including \$16,927 in 2003 to the Company's President.

At December 31, 2004 the minimum annual lease payments under these lease agreements for 2005 are \$73,508, with no minimum annual lease payments due thereafter.

The office space lease has two consecutive three-year renewal options at rates that cannot increase by more than 5% per year. Lease payments include substantially all maintenance and repairs, real estate taxes and utilities.

ITEM 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None

ITEM 8A. CONTROLS AND PROCEDURES

Disclosure controls and procedures. The Chief Executive Officer and the Director of Accounting have carried out an evaluation of the effectiveness of Advant-e's disclosure controls and procedures that ensure that information relating to Advant-e required to be disclosed by Advant-e in the reports that it files or submits under the Securities and Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Based upon this evaluation, these officers have concluded, that as of December 31, 2004, Advant-e's disclosure controls and procedures were adequate.

Changes in internal control over financial reporting. During the period covered by this report, there were no changes in Advant-e's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, Advant-e's internal control over financial reporting.

ITEM 8B. OTHER INFORMATION

The Company is aware of no information that was required to be disclosed in a report on Form 8-K during the fourth quarter of 2004 but not reported.

PART III

ITEM 9. DIRECTORS, EXECUTIVE OFFICERS, PROMOTERS AND CONTROL PERSONS; COMPLIANCE WITH SECTION 16(a) OF THE EXCHANGE ACT

The names of the directors and executive officers of Advant-e Corporation as of December 31, 2004, their ages and the nature of all positions with Advant-e Corporation presently held by them are as follows:

Jason K. Wadzinski	40	President/CEO/Director
John F. Sheffs	79	Secretary/Treasurer/Director

Edgar Filing: ADVANT E CORP - Form 10KSB

Jason K. Wadzinski founded Edict Systems in 1990 and has held the positions of Chairman, CEO and President since its inception. Since the merger of Edict and Advant-e, Mr. Wadzinski has served as Chairman, CEO and President of Advant-e. He has over 20 years of experience in Information Technology. He currently leads the company's strategic initiatives and product offerings. Since founding the company, he has led the company from offering an EDI translation software product to the successful launch of its Internet-based offerings in 1999. Prior to founding the company, he was an EDI professional with a manufacturer of recreational products sold through the retail industry. Mr. Wadzinski is an Air Force Veteran.

John F. Sheffs has been a Director of Edict Systems, Inc. since 1995. Mr. Sheffs was President/CEO/Director and sole Shareholder of Electro Sales Associates, Inc., a manufacturers representative company that sold various electronics products to manufacturing companies located in the eastern half of the United States. Mr. Sheffs experience includes a career that spans several decades as a business executive in management and entrepreneurship, with special emphasis and skills in sales and marketing.

No family relationship exists among directors and executive officers. No legal proceedings occurred during the last five years that are material to an evaluation of the ability or integrity of any director or executive officer.

The Company in 2004 adopted a Code of Ethics for its principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions and such code of ethics is attached herein as an exhibit.

ITEM 10. EXECUTIVE COMPENSATION

Name and Title	Year	Annual Salary	Board of Directors Fees	Total Compensation
Jason K. Wadzinski, President/CEO/Director	2004	\$ 103,390	\$ 10,000	\$ 113,390
John F. Sheffs Secretary/Treasurer/ Director	2004		\$ 10,000	\$ 10,000

Jason K. Wadzinski is the sole executive officer of the Company. No payments classified as long-term compensation, other annual compensation, or all other compensation were made. The Company has no long-term incentive plans.

ITEM 11. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The following tables set forth as of March 4, 2005, the number and percentage of the outstanding shares of Common Stock which, according to the information supplied to the Company, were beneficially owned by (i) each person who is currently a director of the Company, (ii) each executive officer, (iii) all current directors and executive officers of the Company as a group, and (iv) each person who, to the knowledge of the Company, is the beneficial owner of more than 5% of the outstanding Common Stock.

Except as otherwise indicated, the persons named in the table have sole voting and dispositive power with respect to all shares beneficially owned, subject to community property laws where applicable.

(i) The following table has been completed for each Director of the Company:

Name and Address

Options

Edgar Filing: ADVANT E CORP - Form 10KSB

	Common Shares		Percent of Class
Jason Wadzinski	3,658,508	0	58.1
C/O Edict Systems, Inc.			
2680 Indian Ripple Rd.			
Dayton, OH 45440			
John F. Sheffs	311,338	0	4.9
709 Rock Hill Ave.			
Kettering, OH 45429			

(ii) The following table has been completed for each Executive Officer of the Company:
