5. Corporate Governance and Affiliated Companies

5.1. Board of Directors & Committees under the Board

The board of directors holds regular meetings every quarter. The board of directors consists of directors and resolves each following matter:

- n Matters relating to business objectives and performance evaluation;
- n Matters relating to amendments of the Articles of Incorporation;
- n Matters relating to budget and accounting including salaries of directors and employees;
- n Matters relating to major organizational changes such as dissolution, business transfer and merger;
- n Matters relating to internal control standards; or
- n Other matters determined by law and the board of directors regulations.

We currently have six management committees that serve under the board:

- n The Board Steering Committee;
- n The Management Strategy Committee;
- n The Risk Management Committee;
- n The Audit Committee;
- n The Compensation Committee; and
- n The Non Executive Director Nominating Committee.

Edgar Filing: KOOKMIN BANK - Form 6-K

Each committee member is appointed by the board of directors, except for members of the Audit Committee, who are elected at the general shareholders meeting. For list of our directors, see 6. Directors, Senior Management and Employees / 6.1. Executive Directors and 6.2. Non-Executive Directors.

5.2. Audit Committee

Audit Committee oversees our financial reporting and approves the appointment of and interaction with our independent auditors, compliance officers, management personnel and other committee advisors. The committee also reviews our financial information, auditor's examinations, key financial statement issues and the administration of our financial affairs by the board of directors. In connection with the general shareholders meeting, the committee examines the agenda for, and financial statements and other reports to be submitted by, the board of directors to each general shareholders meeting. The committee holds regular meetings every quarter and as-needed basis.

Table of Contents**5.3. Compensation to Directors**

As part of remuneration, Kookmin Bank also granted stock options to directors.

See 1.3.3. Stock Option.

5.4. Voting Rights of Shareholders

Each outstanding share of our common stock is entitled to one vote per share. If the method of written resolution at the general shareholders meeting is adopted by resolution of the board of directors, at which the convening of the general shareholders meeting is determined, the shareholders may exercise their voting rights in writing without participating the meeting in person. In this case, the Bank is required to send the documents and references necessary for exercise of voting rights, together with the convening notice. If a shareholder intends to exercise his/her voting rights in writing, the shareholder is required to fill in a certain form and submit it to the Bank one day before the date set for the general shareholders meeting.

Report of Independent Auditors

To the Board of Directors and Shareholders of

Kookmin Bank and subsidiaries

We have audited the accompanying consolidated balance sheets of Kookmin Bank and its subsidiaries (the Consolidated Company) as of December 31, 2004 and 2003, and the related consolidated statements of operations, changes in shareholders' equity and cash flows for the years then ended, expressed in Korean won. These consolidated financial statements are the responsibility of Kookmin Bank's (the Bank) management. Our responsibility is to express an opinion on these financial statements based on our audits. We did not audit the financial statements of KB Data Systems Co., Ltd., KB Futures Co., Ltd., KB Asset Management Co., Ltd., KB Real Estate Trust Co., Ltd., KB Credit Information Co., Ltd. and Kookmin Bank HK Ltd., whose statements represent 0.35% of total assets as of December 31, 2004, and 0.87% of total revenues for the year then ended. Also, we did not audit the financial statements of KB Futures Co., Ltd., and Kookmin Bank HK Ltd., whose statements represent 0.13% of total assets as of December 31, 2003 and 0.15% of total revenues for the year then ended. These statements were audited by other auditors whose reports have been furnished us and our opinion, insofar as it relates to the amounts included for KB Data Systems Co., Ltd., KB Futures Co., Ltd., KB Asset Management Co., Ltd., KB Real Estate Trust Co., Ltd., KB Credit Information Co., Ltd. and Kookmin Bank HK Ltd., is based solely on the reports of the other auditors.

We conducted our audits in accordance with auditing standards generally accepted in the Republic of Korea. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits and the reports of the other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the reports of other auditors, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Kookmin Bank and its subsidiaries as of December 31, 2004 and 2003, and the results of its operations, changes in shareholders' equity, and its cash flows for the years then ended in conformity with accounting principles generally accepted in the Republic of Korea.

Samil PricewaterhouseCoopers is the Korean member firm of PricewaterhouseCoopers. PricewaterhouseCoopers refers to the network of member firms of PricewaterhouseCoopers International Limited, each of which is a separate and independent legal entity.

Table of Contents

Without qualifying our opinion, we draw your attention to the following matters.

As discussed in Note 37 to the consolidated financial statements, the Bank restated its consolidated financial statements as of and for the year ended December 31, 2003 to correct, as instructed by the Securities and Futures Commission, the overstatement of unrealized gain on investment in associates amounting to (Won)27,159 million, presented as loss on derivatives transactions in the consolidated statement of operations, the understatement of provision for other allowances amounting to (Won)213,157 million and the overstatement of income tax expenses amounting to (Won)63,308 million. Accordingly, the financial statements as of and for the year ended December 31, 2003 included in the audit report dated March 3, 2004, are no longer effective, as they do not reflect the above restatements.

As discussed in Note 1 and Note 38 to the consolidated financial statements, on April 29, 2004, as a means to venture into the insurance business for diversification of revenues, the Bank invested (Won)30,246 million (including acquisition costs) to acquire a 100% ownership of KB Life Insurance Co., Ltd., which was founded to acquire the assets and the liabilities of Hanil Life Insurance Co., Ltd. On January 25, 2005, the Bank sold 49% of its ownership of KB Life Insurance Co., Ltd. to ING Insurance International B.V. at (Won)14,821 million.

As discussed in Note 1 to the consolidated financial statements, Pacific IT Investment Partnership and NPC02-4 Kookmin Venture Fund, which were equity method investees in the prior year, were included in the scope of consolidation.

As discussed in Note 20 to the consolidated financial statements, in accordance with the resolution made by the Board of Directors on December 17, 2003, the Bank's tender for 27,423,761 shares of treasury stock was accepted through public bidding on December 12, 2003 by the Korean government which previously owned 30,623,761 shares. The Bank acquired the said shares at (Won)43,700 per share on December 17, 2003 and intends to sell these shares of treasury stock depending on certain market conditions.

As discussed in Note 2 to the consolidated financial statements, the Consolidated Company changed its accounting on its sale of loans. Previously, the sale proceed of written-off loans was recorded as an adjustment to related allowances and the gain or loss on sale of loans was recognized for non written-off loans for the difference of the book value at the date of sale and the proceeds of the sale. Currently, the sale proceed of written-off loans is not recorded as an adjustment to related allowances but is recorded as the gain or loss on sale of loans and the all gain or loss on sale of loans is calculated by comparing the sale proceeds against its book value on the year end immediately preceding the date of sale. Due to this change, loss on sale of loans increased by (Won)1,183,119 million and gain on sale of loans and allowance for loan losses decreased by (Won)142,531 million and (Won)1,325,650 million, respectively, for the year ended December 31, 2004. The financial statements as of and for the year ended December 31, 2003, presented herein for comparative purposes, were restated to reflect the above changes resulting in an increase in loss on sale of loans by (Won)2,586,725 million, a decrease in gain on sale of loans by (Won)55,216 million and a decrease in provision for loans losses by (Won)2,641,941 million. Such restatement has no effect on the net assets and the net loss as of and for the year ended December 31, 2003.

Kookmin Bank and Subsidiaries

Notes to Consolidated Financial Statements

December 31, 2004 and 2003

1. The Consolidated Company

The accompanying consolidated financial statements have been prepared in accordance with financial accounting standards financial standards for consolidation of the Republic of Korea. The accompanying consolidated financial statements include the banking and trust accounts, subject to guaranteed fixed rates of return or principal repayment, of Kookmin Bank and its consolidated subsidiaries. General information on Kookmin Bank and its controlled subsidiaries is described below.

The Bank

Kookmin Bank was established in 1963 under the Citizens National Bank Act to provide and administer funds for financing the general public and small businesses. Pursuant to the repeal of the Citizens National Bank Act effective January 5, 1995, the Bank has conducted its operations in accordance with the provisions of the General Banking Act.

The Bank merged with Korea Long Term Credit Bank (KLB) on December 31, 1998 and with Daegu, Busan, Jeonnam Kookmin Mutual Savings & Finance Co., Ltd. on August 22, 1999. Also, under the decision of the Financial Supervisory Commission in accordance with the Act concerning the Structural Improvement of the Financial Industry, the Bank purchased certain assets, including the loans classified as normal or precautionary, and assumed most of the liabilities of Daedong Bank as of June 29, 1998. The Bank completed the legal consolidation with H&CB as of October 31, 2001 (Note 32) and Kookmin Credit Card as of September 30, 2003 (Note 33).

The Bank had its shares listed on the Korea Stock Exchange since September 1994. As a result of the business combination with H&CB, the former shareholders of the Bank and H&CB received new common shares of the Bank on the basis of a pre-determined ratio. The new common shares of the Bank were relisted on the Korea Stock Exchange on November 9, 2001. As of December 31, 2004, the Bank has 336,379,116 (amounting to (Won)1,681,896) shares issued. Also, as of December 31, 2004, 47,503,730 shares of the Bank are listed on the New York Stock Exchange as American Depositary Shares (ADS) (Note 17).

Scope of Consolidation

On April 29, 2004, as a means to venture into the insurance business for diversification of revenues, the Bank invested (Won)30,246 million (including acquisition costs) to acquire a 100% ownership of KB Life Insurance Co., Ltd. Therefore, KB Life Insurance Co., Ltd. was included in the scope of consolidation.

On September 30, 2003, the Bank merged with Kookmin Credit Card Co., Ltd, a subsidiary of the Bank of which the Bank formerly owned 74.27% in accordance with the resolution of Board of Directors on May 30, 2003. Thus, Kookmin Credit Card Co., Ltd was excluded from the scope of consolidation.

As of December 31, 2004, KLB Securities Co., Ltd. , KIKO No.2 Venture Investment Partnership, KIKO No.3 Venture Investment Partnership, Kookmin Finance Asia Ltd. (HK) and Kookmin Singapore Ltd. and Joeeun Industrial Co., Ltd. are in the process of liquidation and were included in the scope of equity method investees.

Pacific IT Investment Partnership and NPC02-4 Kookmin Venture Fund, which were equity method investees in the prior year, were included in the scope of consolidation.

KIKO No.2 Venture Investment Partnership and KB03-1 Corporate Restructuring Fund, which were classified as available for sales securities in the prior year, were included in the scope of equity method investees.

As of February 18, 2004, KB Luxemburg S.A resolved to liquidate and completed liquidation process on November 30, 2004. Accordingly, it was no longer included in the scope of equity method investees.

As of November 18, 2004, KB 13 Investment Fund completed liquidation process and accordingly, it was no longer included in the scope of equity method investees.

Investments in Korea Asset Investment Co., Ltd. were fully sold on June 4, 2004. Accordingly it was no longer included in the scope of equity method investees.

2. Summary of Significant Accounting Policies

The significant accounting policies followed by the Bank in the preparation of its consolidated financial statements are summarized below.

Basis of Financial Statement Presentation

The Bank maintains its accounting records in Korean won and prepares statutory financial statements in the Korean language in conformity with accounting principles generally accepted in the Republic of Korea. Certain accounting principles applied by the Bank that conform with financial accounting standards and accounting principles in the Republic of Korea may not conform with generally accepted accounting principles in other countries. Accordingly, these financial statements are intended for use by those who are informed about Korean accounting principles and practices. The accompanying financial statements have been condensed, restructured and translated into English from the Korean language consolidated financial statements. Certain information attached to the Korean language financial statements, but not required for a fair presentation of the Company's financial position, results of operations, or cash flows, is not presented in the accompanying consolidated financial statements.

Application of the Statements of Korean Financial Accounting Standards

The Bank has adopted Statements of Korean Financial Accounting Standards (SKFAS) No. 1~13 (excluding SKFAS No.11) in the preparation of its financial statements. Except for SKFAS No. 10, 12 and 13 which have been effective as of January 1, 2004, the same accounting policies are applied for the financial statements as of and for the year ended December 31, 2004 and as of and for the year ended December 31, 2003.

Accounting Policies of Consolidated Entities

The relevant laws and regulations applied to the consolidated entities are as follows:

Relevant Laws and Regulations

The Bank and Trust Accounts	Accounting Standards of the Banking Industry, General Banking Act, and Trust Business Act
KB Futures Co., Ltd.	Supervisory Guidelines on Futures Trading
KB Investment Co., Ltd.	Act on support for foundation of small and medium-sized companies, and Loan Specialization Financial Business Act

Edgar Filing: KOOKMIN BANK - Form 6-K

KB Asset Management Co., Ltd.	Securities Investment Trust Business Act, and Accounting Standards for Securities Investment Trust Business
KB Real Estate Trust Co., Ltd.	Trust Business Act
KB Credit Information Co., Ltd.	Act on the use and protection of credit information
KB Life Insurance Co., Ltd.	Accounting Standards of the Insurance Business, General Insurance Business Act,

Principles of Consolidation

The Consolidated Company eliminates the investment account of the controlling company and corresponding capital accounts of subsidiaries collectively. The Consolidated Company records the differences between the initial investment accounts and proportionate ownership of the fair value of the subsidiary's asset and liabilities as goodwill or negative goodwill, when the Consolidated Company has control over the subsidiary. In case that the Bank purchase additional shares after it obtained control over the subsidiary, the difference between the additional shares purchased and corresponding shareholder's equity is accounted as capital surplus. In case that the acquisition date of the subsidiaries differ from the fiscal year-end of subsidiaries, the acquisition date is regarded to be the nearest closing date.

All inter-company transactions and account balances between the consolidated entities are eliminated in consolidation. Unrealized gains and losses resulting from the sale from the Controlling Company to the subsidiaries are fully eliminated and charged to the equity of the Controlling Company while unrealized gains and losses resulting from the sale from the subsidiaries to the Controlling Company or from subsidiaries to subsidiaries are fully eliminated and charged to the equity of the Controlling Company and minority interest proportionately.

Table of Contents

Kookmin Bank and Subsidiaries

Notes to Consolidated Financial Statements

December 31, 2004 and 2003

When net losses attributable to minority interests exceed the minority interest in the equity of the subsidiary, the excess is charged to the equity of the Controlling Company. When the subsidiaries report income, the minority interest portion of such income is allocated to the equity of the Controlling Company until the minority interest's share of net losses previously charged to the Controlling Company has been fully recovered.

If the fiscal year-end of subsidiaries is different from that of the Bank, the financial statements of such subsidiaries are prepared as of December 31 and for the year then ended for consolidation purposes.

Recognition of Interest Income

The Consolidated Company recognizes interest income on due from banks, loans and debt securities on an accrual basis. However, interest income on delinquent and dishonored due from banks, loans and debt securities, other than those collateralized with security deposits or guaranteed by financial institutions, is recognized on a cash basis. As of December 31, 2004, the Consolidated Company has non-accrual loans and securities of (Won)8,137,825 million and (Won)532,904 million, respectively, with related foregone interest of (Won)489,698 million and (Won)82,594 million, respectively. However, foregone interest related to securities of trust accounts was not included.

Securities

Securities that are bought and held principally for the purpose of generating profits on short-term differences in price, and which are actively and frequently bought and sold, are classified as trading securities. Debt securities with fixed or determinable payments and fixed maturity, and which the Consolidated Company has the positive intent and ability to hold to maturity are classified as held-to-maturity securities. Investments neither classified as trading securities nor held-to-maturity securities are classified as available-for-sale securities.

Securities are recognized initially at their fair value plus transaction costs that are directly attributable to the acquisition. Trading and available-for-sale securities are carried at fair value while held-to-maturity debt securities are carried at amortized cost.

Trading and available-for-sale debt securities are carried at fair value using the average of quoted prices provided by bond pricing service institutions while marketable equity securities are carried at market prices and beneficiary certificates are carried at quoted prices provided by the beneficiary certificate dealers. However, non-marketable equity securities are carried at fair value only if the fair value is reasonably measurable. Otherwise, they are carried at cost.

Edgar Filing: KOOKMIN BANK - Form 6-K

Unrealized gains or losses on trading securities are charged to current operations and those resulting from available-for-sale securities are recorded as capital adjustments and are realized when the related securities are disposed of. In case of available-for-sale securities, interest income reflecting premiums and discounts amortization should be included in current operations. Therefore interest income are recognized from premiums and discounts amortization using effective interest method over the maturity period and then the difference between the fair value and acquisition cost are charged to stockholder's equity. Impairment losses are recognized in the current operations when there is evidence of impairment and recoverable amounts of available-for-sale securities or held-to-maturity securities are less than either the acquisition cost of equity securities or the amortized cost of debt securities.

The assets of the wholly owned beneficiary certificates are classified based on the Consolidated Company's intention on the balance sheet. The fund assets of these wholly owned beneficiary certificates are comprised of deposits, call loans and securities, and the fund income is comprised of interest income, realized gains and losses, and valuation gains and losses. The Consolidated Company recorded all gains and losses from these wholly owned beneficiary certificates as income from beneficiary certificates.

Investments in Associates

Investments in associates, over which the Consolidated Company exercises significant control or influence, are accounted for using the equity method. Under the equity method, the Consolidated Company records changes in its proportionate ownership of the associate in the current operations either as capital adjustments, adjustments to retained earnings or charges to net income(loss), depending on the nature of the underlying change in the book value of the investment in associate.

The Consolidated Company discontinues the equity method of accounting for investments in associates when the Consolidated Company's share of accumulated losses of the associates equals the costs of the investments and until the subsequent cumulative changes in its proportionate net income of the associate equal its cumulative proportionate net losses not recognized during the periods when the equity method was suspended.

Differences between the initial purchase price and the Consolidated Company's initial proportionate ownership of the fair value of the net asset of the associate are amortized or accreted using an appropriate method and the resulting amortization is charged to current operations.

Gains and losses recorded by the Consolidated Company from inter-company transactions with associates are fully eliminated. Gains and losses recorded by the associates from these transactions are proportionately eliminated, based on the Consolidated Company's percentage of ownership.

Deferred Loan Origination Fees and Costs

The Consolidated Company defers loan origination fees associated with originating loans and loan origination costs that have future economic benefits. Loan balances are reported net of these loan origination fees and costs. The deferred loan origination fees and costs are amortized using the effective interest method with the amortization recognized as adjustments to other interest income.

Allowances for Loan Losses

The Bank provides allowance for loan losses based on the minimum reserve level provided by Financial Supervisory Service Guidelines if the amounts are larger than allowances for loan losses based on historical loss rate of the Bank's lending portfolios.

Edgar Filing: KOOKMIN BANK - Form 6-K

As of December 31, 2004, the Bank provided allowance for loan losses based on the minimum reserve level provided by Financial Supervisory Service Guidelines.

- Allowance for loan losses based on the minimum reserve level provided by Financial Supervisory Service Guidelines

The Bank determines the credit risk classification of corporate loans using a certain scale based on the Banks internal credit rating system, the Forward Looking Criteria (FLC), and other factors such as days in arrears, insolvency and result of financial transactions. Allowances are determined by applying the rates of each credit risk classification . The FLC credit rating criteria are divided into 12 categories (AAA, AA, A, BBB, BB, BB-, B, B-, CCC, CC, C, D) and credit risk classification are as follows:

<u>Credit Risk Classification</u>	<u>Credit Ratings</u>
Normal	AAA ~ B
Precautionary	B- ~ CCC
Sub-standard	CC
Doubtful	C
Estimated loss	D

Table of Contents**Kookmin Bank and Subsidiaries****Notes to Consolidated Financial Statements****December 31, 2004 and 2003**

However, the Bank classifies corporate loans, consumer loans, and credit card loans by considering the recoverable amounts of loans including delinquencies, bankruptcies. The rates used for determining the allowances for losses from corporate loans, consumer loans and credit card loans are as follows:

Credit Risk Classification	Allowance Rates		
	Consumer	Credit Card	Corporate
Normal	0.75%	1.00%	0.50%
Precautionary	8.00%	12.00%	2.00%
Sub-standard	20.00%	20.00%	20.00%
Doubtful	55.00%	60.00%	50.00%
Estimated loss	100.00%	100.00%	100.00%

Also, the Bank provides additional allowance for relatively high-risk borrowers and their assets based on estimated recovery amount, liquidation amount, within the maximum allowance rate for each classification.

-Allowance for loan losses based historical loss rate

The rates used for determining the allowances for losses based on historical loss rate by Bank's lending portfolios is determined as follows:

Lending Portfolios	Methodology	Period of Historical	Period of Recovery
		Loss Rate	Ratio
Impaired corporate loans	Discounted Cash Flows	N/A	N/A
Non-impaired Corporate loans	Migration Analysis	1-year	5-year
Consumer loans	Migration Analysis	2-year	5-year
Credit card loans	Roll-rate Analysis	1-year	5-year

The Bank determined the appropriate data period to be used in assessing its historical loss rate and recovery ratio based on Bank's lending portfolios' nature, loan period, collection period, collection ratio, past trends and future market conditions, etc.

Edgar Filing: KOOKMIN BANK - Form 6-K

The subsidiaries determines allowances in conformity with generally accepted accounting principles in related industry and the relevant laws and regulations of the Republic of Korea. Additional allowances is provided if total allowances of subsidiaries is less than allowance determined by methodology of the Bank.

Guarantees and Acceptances

The Consolidated Company applies the credit risk classification used for loans to outstanding guarantees and acceptances, and provides allowances for losses of 20 %, 50 % and 100 % of the outstanding guarantees and acceptances classified as sub-standard, doubtful, and estimated loss, respectively.

Troubled Debt Restructuring

The equity interest in the debtors, net of real estates and/or other assets received as full or partial satisfaction of the Consolidated Company's loans, collected through reorganization proceedings, court mediation, or debt restructuring agreements of parties concerned, are recorded at their fair value at the time of the restructuring. In cases where the fair value of the assets received are less than the book value of the loan (book value before allowances), the Consolidated Company offsets the book value against allowances for loans first and then recognizes provisions for loans. Impairment losses for loans, that were restructured in a troubled debt restructuring involving a modification of terms, are computed by getting the difference between the present value of future cash flows under debt restructuring agreements discounted at effective interest rates at the time when loans are originated, and the book value before allowances for loans. If the amount of allowances already established is less than the impairment losses under the workout plans, the Consolidated Company establishes additional allowances for the difference. Otherwise, the Consolidated Company reverses the allowances for loan losses.

Table of Contents**Kookmin Bank and Subsidiaries****Notes to Consolidated Financial Statements****December 31, 2004 and 2003**

After the above adjustments to loans from troubled debt restructuring, the Consolidated Company separately establishes additional allowances for its loans on related present value, based on the credit status of the borrower.

Before the adoption of SKFAS No. 13, *Troubled Debt Structuring*, the difference between the nominal value and the present value of loan under troubled debt structuring agreements was recorded as present value discounts and was presented separately as a deduction from the loan nominal value. However, in accordance with the Consolidated Company's adoption of SKFAS No. 13, unamortized present value discounts as of the beginning of the current period are classified as allowances for loan losses.

Fixed Assets and Related Depreciation

Cost of tangible assets are determined by cash, cash equivalents or fair value (or the revaluation amount of certain assets in accordance with the Korean Asset Revaluation Law) of other asset given in exchange. Depreciation is calculated based on the estimated average useful lives of the assets and is presented as accumulated depreciation, which is a contra account of tangible assets in the financial statements.

The estimated useful lives and depreciation methods of the tangible assets are as follows:

<u>Tangible assets</u>	<u>Depreciation Method</u>	<u>Estimated Useful Life</u>
Buildings and structures	Straight-line method	40 years
Leasehold improvements	Declining balance method	4-5 years
Equipment and vehicles	Declining balance method	4-5 years

Expenditures that enhance the capacity or increase the future economic benefit of the assets involved are capitalized as additions to tangible assets. However, routine maintenance or repairs are expensed as incurred.

Foreclosed assets acquired through, or in lieu of, loan redemption are stated at cost and are not depreciated. A valuation allowance is recorded when the latest bidding price at a public auction is below the book value, and is presented as a contra account of foreclosed assets in the financial statements.

Cost of intangible assets are determined by cash, cash equivalents or fair value of other asset given in exchange. Intangible assets are amortized based on the following estimated average useful lives and are presented in the financial statements, net of accumulated amortization:

<u>Intangible assets</u>	<u>Amortization Method</u>	<u>Estimated Useful Life</u>
Goodwill	Straight-line method	9 years
Negative goodwill	Straight-line method	5 years
Development costs	Straight-line method	5 years
Trademarks	Straight-line method	1-10 years
Others	Straight-line method	5-30 years

The Consolidated Company estimated the useful life of endowment assets that are beneficial upon usage, classified under other intangible assets, to be 30 years based on the term of the contract. The Bank recorded goodwill as a result of the merger with H&CB for the cost of the merger exceeding the fair value of the net assets acquired.

The Consolidated Company recorded negative goodwill as a result of the merger of KB Credit Information Co., Ltd. and KM Credit Information Co., Ltd for the fair value of net assets and liabilities exceeding the cost of merger equal to the purchase price. Negative goodwill is amortized for 5 years which is the average useful life of amortizable non-monetary assets.

Development costs directly related to a new technology or new products (including costs related to software development) are capitalized as intangible assets to the extent that the estimated future benefits are probable.

Kookmin Bank and Subsidiaries

Notes to Consolidated Financial Statements

December 31, 2004 and 2003

The Consolidated Company adjusts the book value of a fixed asset to its recoverable amount (expected sale price or appraisal value) and recognizes the difference as an impairment loss when the recoverable amount is significantly below the book value due to obsolescence or decline in market value. The subsequent increase in recoverable amount in excess of the impaired book value is recognized, to the extent of the book value (after accumulated depreciation) before impairment, as a reversal of fixed asset impairment losses.

Stock Issuance Costs and Debenture Issuance Costs

Stock issuance costs are deducted from additional paid-in capital. Debenture issuance costs are recorded as discounts on debentures and amortized over the life of the debentures using the effective interest method.

Accrued Retirement Benefits

Employees and directors with at least one year of service and temporary employees with at least a one-year contract are entitled to receive a lump-sum payment upon termination of their employment with the Consolidated Company, based on their length of service and rate of pay at the time of termination.

Additionally, the Consolidated Company records the contributions to pension funds, which grant the payment rights to its employees, as contra accounts of accrued retirement benefits.

Insurance Reserve

The Company provides various Insurance reserves for payments, refunds, participating policyholders' dividends and related cost in the future as follows.

- Premium reserve is a net level premium reserve using interest and mortality assumptions used in computing cash surrender values.
- Reserve for outstanding claims represents refunds, dividends and claims reported and unpaid as of the balance sheet date.

- Unearned premium reserve represents the unearned portion of quarterly, semi-annual and annual premiums as of the balance sheet date.
- Dividends held on deposit for policyholders represent amounts payable to policyholders due to interest rate difference guarantee, mortality gains, excess interest, expense gains and long-term contracts in accordance with the regulations or agreements.

Deferred Income Taxes

The Consolidated Company records the future tax effects of temporary differences between the financial and tax bases of assets and liabilities as deferred tax income assets or liabilities. The tax effects of temporary differences arising from the cumulative effects of accounting changes and prior period adjustments are adjusted in retained earnings. However, deferred tax income assets are recognized only when the possibility of income tax effect is high.

Bonds under Repurchase/Resale Agreements

Securities bought under resale agreements are recorded in loans as bonds purchased under resale agreements. Securities sold under repurchase agreements are recorded in borrowings as bonds sold under repurchase agreements. Interest from bonds purchased under resale agreements and bonds sold under repurchase agreements are recognized as interest income on loans and interest expense on borrowings, respectively.

Derivative Instruments

Derivative financial instruments for trading or hedging purposes are valued at estimated market price and resulting unrealized gains or losses are recognized in current operations, except for the effective portion of derivative transactions entered into for the purpose of cash-flow hedges, which is recorded as an adjustment to shareholders' equity.

Notes to Consolidated Financial Statements

December 31, 2004 and 2003

Fair value hedge accounting is applied to a hedging transaction relationship entered into for hedging the exposure to changes in the fair value of an asset or a liability or a firm commitment (hedged item) that is attributable to a particular risk. The gain or loss, both on the hedging derivative instrument and on the hedged item attributable to the hedged risk, are recognized in the same period.

The effective portion of the gain or loss for hedging the exposure to variability in expected future cash flows of an asset or a liability or a forecasted transaction that is attributable to a particular risk is recorded as a capital adjustment and the ineffective portion as income or loss in current operations. The effective portion of the gain or loss recorded as a capital adjustment is reclassified into current operations in the same period during which the hedged forecasted transaction affects earnings. If the hedged transaction results in the acquisition of an asset or the incurrence of a liability, the gain or loss recorded in capital adjustment is added to or deducted from the asset or the liability.

Stock Options

Compensation costs for stock options granted to employees and executives are recognized using the fair value method. Under the fair value method, compensation costs for stock option plans are determined using an option-pricing model and are recognized over the vesting period.

National Housing Fund

The Consolidated Company, as designated by the Korean Government under the Housing Law (former Housing Construction Promotion Law), manages the sources and uses of funds of the National Housing Fund (the NHF) and records the related NHF account in other liabilities. In addition, the Consolidated Company pays NHF the interest, which is computed by multiplying the average balance of the NHF account by the passbook deposit interest rate.

Transactions with the Trust Accounts

The Bank's banking accounts receive trust fees from the trust accounts for its management of trust assets and operations. Under the Trust Business Act, the Bank recognizes trust accounts separately from its won accounts. The borrowings from trust accounts represent transfer of funds in trust accounts into banking accounts. Such borrowings from trust accounts are recorded as receivables from the banking accounts in the trust accounts and as borrowings from trust accounts in the banking accounts.

The reserves for future losses are set up in the trust accounts for losses related to those trust funds with a guarantee of the principal or of a certain minimum rate of return in accordance with the relevant laws and regulations applicable to trust operations. The reserves are used to provide for

Edgar Filing: KOOKMIN BANK - Form 6-K

the losses on such trust funds and, if the losses incurred are in excess of the reserves for future losses, the excess losses are compensated by the Bank. Accordingly, the banking accounts recognize the compensation paid as a loss on trust management in other operating expenses and the trust accounts recognize the corresponding compensation as compensation from banking accounts. No compensation was recorded for the years ended December 31, 2004 and 2003.

Foreign Currency Translation

All assets and liabilities denominated in foreign currencies are translated into Korean Won at the rates in effect at the balance sheet date (2004: (Won)1,043.8:US\$1, 2003: (Won)1,197.8:US\$1), and resulting translation gains and losses are recognized in the current period.

Accounting records of the overseas branches are maintained in the foreign currency prevailing in their respective countries. For the purpose of presentation in the accompanying financial statements, the financial statements of the branches have been translated into Korean Won, using exchange rates published by Seoul Money Brokerage Services, Ltd. as of the balance sheet dates.

Statement of Cash Flows

In the preparation of the statement of cash flows, the Consolidated Company has presented the net amounts of cash inflows and cash outflows for loans and deposits.

Notes to Consolidated Financial Statements

December 31, 2004 and 2003

Restatement of Prior Period Financial Statements

(1) Change of accounting policy on sale of loans

During the year ended December 31, 2004, the Consolidated Company changed its accounting on its sale of loans. Previously, the sale proceed of written-off loans was recorded as an adjustment to related allowances and the gain or loss on sale of loans was recognized for non written-off loans for the difference of the book value at the date of sale and the proceeds of the sale. Currently, the sale proceed of written-off loans is not recorded as an adjustment to related allowances but is recorded as the gain or loss on sale of loans and the all gain or loss on sale of loans is calculated by comparing the sale proceeds against its book value on the year end immediately preceding the date of sale. Due to this change, loss on sale of loans increased by (Won)1,183,119 million and gain on sale of loans and allowance for loan losses decreased by (Won)142,531 million and (Won)1,325,650 million, respectively, for the year ended December 31, 2004. The financial statements as of and for the year ended December 31, 2003, presented herein for comparative purposes, were restated to reflect the above changes resulting in an increase in loss on sale of loans by (Won)2,586,725 million, a decrease in gain on sale of loans by (Won)55,216 million and a decrease in allowance for loans losses by (Won)2,641,941 million. Such restatement has no effect on the net assets and the net loss as of and for the year ended December 31, 2003.

(2) Change of accounting policy on subordinated retained interests received from securitization transactions

The Consolidated Company reclassified the subordinated retained interests received from securitization transactions from available-for-sale securities to loans. Such reclassification has no effect on prior year's net loss and net assets. The prior year financial statements presented herein for comparative purposes were also reclassified to conform to the current year financial statement presentation.

(3) Results of Securities and Futures Commission (SFC)'s investigation and Restatement of prior periods' financial statements

As explained in Note 37, the Consolidated Company restated its financial statements as of and for the year ended December 31, 2003 to comply with Securities and Futures Commission's instructions.

15. Derivatives

The Consolidated Company's derivative instruments are divided into hedge derivatives and trading derivatives, based on the nature of the transaction. The Consolidated Company enters into hedge transactions mainly for purposes of hedging fair value risks related to its assets and liabilities.

Trading derivatives include future contracts, forward contracts, swaps, and options entered into by the Consolidated Company to meet the financing needs of its customers and to gain profit from arbitrage transactions between customers and other Consolidated Companies.

Hedge derivatives mainly consist of interest rate swaps to hedge the fair value changes of debentures arising from the interest rate fluctuations. However, some hedging transactions do not qualify for hedge accounting and are thus accounted for as trading derivatives. These transactions include the hedge relationships where the hedged item is an asset or liability that is re-measured with the changes in fair value attributable to the hedged risk reported in the current operations, or where the hedged item cannot be specifically identified

The new shares were distributed based on an exchange ratio of one new Bank share each for 1.688346 old Bank shares, and one new Bank share for an H&CB share. The new shares were listed on the Korea Stock Exchange as of November 9, 2001. Further, as a result of the merger with Kookmin Credit Co., Ltd., the Bank issued 8,120,431 shares.

The Bank is authorized to issue to non-shareholders convertible bonds and bonds with stock purchase warrants up to total par value amounts of (Won)2,500 billion and (Won)500 billion, respectively by an appropriate resolution of the Bank's Board of Directors.

Table of Contents**Kookmin Bank and Subsidiaries****Notes to Consolidated Financial Statements****December 31, 2004 and 2003****18. Consolidated Capital Surplus**

The movements in capital surplus for the year ended December 31, 2004 are as follows:

<i>(in millions of Won)</i>	Beginning Balance	Changes	Ending Balance
Paid-in capital in excess of par value	(Won) 5,655,840	(Won)	(Won) 5,655,840
Gain on business combination	397,669		397,669

Others	6,790	756	7,546
	(Won) 6,237,528	(Won) 756	(Won) 6,238,284

The gain on business combination is due to the difference between the business combination consideration and the net asset value acquired from the merger with KLB on December 31, 1998.

19. Consolidated Retained Earnings

The General Banking Act requires the Bank to appropriate as a legal reserve a minimum of 10% of annual net income until the legal reserve equals paid in capital. This reserve is only available for being transferred to capital stock or used to reduce accumulated deficit.

Under the guidance provided by Financial Supervisory Services, the Bank is required to appropriate, as a reserve for improvement of financial structure, a minimum of 10% of its annual income less carried over accumulated deficit, until its capital adequacy ratio equals 5.5%. This reserve is only available for being transferred to capital stock or used to reduce accumulated deficit.

Pursuant to the Tax Exemption and Reduction Control Law, the Bank was previously required to appropriate, as a reserve for business rationalization, amounts equal to tax reductions arising from tax exemptions and tax credits up to December 31, 2001. However, as of January 1, 2002, the requirement was no longer effective.

Edgar Filing: KOOKMIN BANK - Form 6-K

The Bank, at its own option, also appropriated a portion of retained earnings as other reserves for the operations of overseas branches.

There were no dividends declared for the year ended December 31, 2003. For the year ended December 31, 2004, cash dividends were declared as follows:

- 1 The stock options excluded the 200,000 shares, which were to be additionally granted if the three-month weighted average stock price of the Bank prior to the exercise period is higher than that of any other listed banks and the Bank achieves total market value and ROE target, due to failure of target achievement.
- 2 The exercise prices are based on the increase rate of the stock price index in the banking industry. The exercise price of series 7, which was granted on November 16, 2001, is fixed at (Won)51,200 based on the beginning exercise date.
- 3 The number of shares to be granted will be determined by the results of the evaluation of the grantees during service period. The number of shares is calculated under the assumption that the performance-based stock options have been fully granted.
- 4 The Bank took over the stock options granted by Kookmin Credit Card Co., Ltd. of which the exercise prices and number of shares have been adjusted in proportion to the merger ratio.

On August 25, 2004, the Securities and Futures Commission (SFC) announced the results of the investigation on Kookmin Bank's accounting treatments related to acquisition of Kookmin Credit Card and other transactions.

(1) Results of Securities and Futures Commission's investigation

Accounting treatment in relation to the acquisition of Kookmin Credit Card (KCC)

As discussed earlier, the Bank merged with KCC in September 2003. Relative to the merger, for the year ended September 30, 2003, KCC failed to recognize an allowance on loan loss of (Won)1,266,405 million, which included other allowances of (Won)15,442 million, resulting in the overstatement of the its net income. Consequently, the Bank recognized unrealized gain on investment in associates of (Won)211,202 million in proportion to its 74.2692% interest in KCC which recorded a net income of (Won)284,373 million for the same period. Regarding KCC's under-recording of the allowance of loan loss of (Won)1,266,405 million and the additional allowance on loan losses due to the difference in accounting treatments on the Bank's consolidated financial statements of (Won)389,980 million, both of which total (Won)1,656,385 million, these were subsequently recorded by the Bank as allowance on loan loss due to merger of (Won)1,652,264 million and impairment loss on investments available-for-sale of (Won)4,121 million. To comply with the SFC's instructions, the Bank recorded unrealized loss on investment in associates of (Won)1,018,982 million, proportionate to its 74.2692% interest in the sum of (Won)1,372,012, which is the total of KCC's net loss of (Won)982,032 million and the additional allowance on loan loss due to merger of (Won)389,980 million; and deducted the minority interest of (Won)309,559 million from additional paid in capital.

Accounting treatment in relation to asset securitization

The Bank is currently offering credit lines to the KCC 16th Special Purpose Co., Ltd (SPC) and FN Star 3rd SPC amounting to (Won)757,000 million (transferred value of (Won)1,243,000 million, transfer gain of (Won)488,000 million). However, the recovery rate of the assets transferred to the SPCs decreased dramatically between September 2003 and January 2004, before actual issuance of year-end financial status.

As the present value of the underlying assets dropped below the SPC's liability amount, there is a high probability that the Bank would be liable to cover the difference up to the credit line limit. Even though the Bank could have reflected the probable contingency loss amount by estimating future cash flows based on the recovery rates available to the latest month and the fair valuation models used at the point of asset securitization, the Bank appropriated only (Won)133,376 million for the estimable contingency loss of (Won)346,533 million, understating other allowances (allowance for acceptances and guarantees outstanding) by (Won)213,157 million and overstating net assets (understating net income) by the same amount.

Accounting treatment in relation to Special Purpose Co., Ltd. currency swap

In relation to the early redemption of asset-backed securities (ABS) by KCC 10th Special Purpose Co., Ltd on September 18, 2003, a settlement loss of (Won)27,159 million was paid to ING Bank due to a decline in currency swap interest rate. Therefore, since KCC, the holder of the ABS, guaranteed the payment of the loss, KCC should have recognized the settlement payment as loss and the Bank should have recognized its equity share portion of (Won)20,171 million and the excess amount over minority interest of (Won)6,988 million as unrealized loss on investment in associates. However, KCC recognized the swap settlement payment as asset, ABS advance payment, and the Bank accounted for the amount as contra account amount of liabilities, agency fee. As a result, the Bank understated the liability by (Won)27,159 million and overstated net assets by the same amount.
