The Benefits Committee

Costco 401(k) Retirement Plan:

We have audited the accompanying statements of net assets available for plan benefits of the Costco 401(k) Retirement Plan (the Plan) as of December 31, 2004 and 2003, and the related statements of changes in net assets available for plan benefits for the years then ended. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Plan as of December 31, 2004 and 2003, and the changes in net assets available for plan benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan s management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

COSTCO 401(k) RETIREMENT PLAN

Notes to Financial Statements

December 31, 2004 and 2003

(1) Plan Description

The following description of the Costco 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan s provisions.

Participants in the Plan are employees of Costco Wholesale Corporation (the Company).

The Plan is a defined contribution plan established by the Company under the provisions of Section 401(a) of the Internal Revenue Code (the IRC), which includes a qualified cash or deferred arrangement as described in Section 401(k) of the IRC, for the benefit of eligible employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

(a) Eligibility

The Plan allows certain employees over 18 years of age to make salary deferral contributions and receive matching contributions commencing the first day of the month following the completion of 90 days of employment. Participants are eligible for the Company s discretionary contribution after completion of one year of service, 1,000 hours worked in the previous 12 months, and attaining the age of 18.

(b) Employee Contributions

Each year, participants may contribute from 1% to 50% of their compensation before income taxes, subject to certain limitations set by the Internal Revenue Service (IRS). Participants may also contribute amounts representing distributions from other qualified benefit or contribution plans (known as rollover contributions).

(c) Employer Contributions

All Company contributions are made in cash, and invested in accordance with investment selections already made by participants. If no selection has been made, the contribution is defaulted to the T. Rowe Price Stable Value Fund. Employer contributions are allocated based on an employee s classification as either a California Union Employee or an Other than California Union Employee.

(1) Other than California Union Employees

The Company matches 50% of the employee's contribution, up to a maximum employer matching contribution of \$500 per year.

The Company may also contribute a discretionary amount to the account of each participant who is employed by the Company on the last day of the plan year. The discretionary contribution ranged from 3% to 9% of compensation based on years of service and was approved for the years ended December 31, 2004 and 2003 totaling \$109.2 million and \$95.6 million, respectively.

(2) California Union Employees

The Company matches 50% of the employee's contribution, up to a maximum employer matching contribution of \$250 per year.

Table of Contents**COSTCO 401(k) RETIREMENT PLAN**

Notes to Financial Statements

December 31, 2004 and 2003

The Company also makes a contribution to all eligible plan participants employed on the last day of the plan year based upon hours worked during the plan year, up to a maximum of 80 hours per pay period (bi-weekly). Participants who reach their fifth anniversary up to their ninth anniversary receive \$0.20 per hour. Participants who reach or exceed their tenth anniversary receive \$0.30 per hour. Effective January 1, 2004, participants with less than five years of service receive \$0.05 per hour.

(d) Participants Accounts

Participants' accounts are valued on a daily basis based on quoted market prices. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(e) Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the employer-matching and discretionary contributions is based on years of service, according to the following schedule:

<u>Years of service</u>	<u>Percentage vested</u>
Less than 2	0%
2-3	20
3-4	40
4-5	60
5 or more	100

(f) Forfeitures

During 2004 and 2003, forfeitures of \$2,000,000 and \$2,000,000, respectively, were used to reduce the employer contributions to the Plan. Forfeitures without benefit of investment gains or losses can be restored to a participant's account if the participant is re-employed by the Company prior to the expiration of five years of consecutive breaks in service and repays the full dollar amount distributed because of the termination within five years of the re-employment date. As of December 31, 2004 and 2003, forfeitures of approximately \$2.8 million and \$2.3 million, respectively, had not been used to reduce employer contributions. These forfeitures will be used to offset future employer contributions.

(g) Investment Options

Upon enrollment in the Plan, a participant may direct his/her account balance into any of the investment options listed on the statements of net assets available for plan benefits. T. Rowe Price is the trustee for all investments, serves as investment manager for certain registered investment company and common commingled trust funds, and provides recordkeeping of all participant accounts. Amounts may be temporarily invested in a cash account prior to investment in Costco Wholesale Corporation common stock.

Participants may change their investment options and transfer amounts between funds daily.

Table of Contents

COSTCO 401(k) RETIREMENT PLAN

Notes to Financial Statements

December 31, 2004 and 2003

As amended on August 1, 2004 to the Plan restated as of January 1, 2004, the portion of the Plan invested in employer stock is designated as an ESOP and stock bonus plan. Dividends on the employer stock may either be reinvested in the employer stock or distributed to participants. During 2004, dividends totaling approximately \$6,000 were distributed to participants.

(h) Distributions

Upon termination of employment, total disability, or death, the vested interest in a participant's account is payable in a lump sum. Participants may apply for a distribution of all or a portion of the vested interest at any time after attainment of age 59-1/2. Participants are also eligible to make hardship withdrawals from their salary deferral contributions in the event of certain financial hardships. Following a hardship withdrawal, participants are not allowed to contribute to the Plan for a six-month period.

(i) Participant Loans

A participant may borrow the lesser of \$50,000 or 45% of his or her vested account balance, calculated using the participant's pre-tax contribution, rollover, Company matching and Company discretionary contribution amounts. However, only the participant's pre-tax contribution, rollover, and Company matching amounts are eligible to borrow against, with a minimum loan of \$1,000. Loans are payable through payroll deductions over a period ranging up to 180 months, depending on the purpose of the loan. The interest rate is determined by the plan administrator based on Bank of America prime rate plus 1% for a primary residence loan and prime rate plus 2% for a standard loan on the last day of the calendar quarter in which the loan was made. The rates at December 31, 2004 and 2003 ranged from 5% to 11.5%. The loans have various maturity dates, through December 2019.

(j) Plan Administrator

The Plan is administered by the Benefits Committee, which is appointed by the Board of Directors of the Company.

(k) Administrative Expenses

All administrative and custodial fees of the Plan are paid by the Company. All investment management and transaction fees directly related to the plan investments are netted against net investment income.

(1) *Interplan Transfers*

Interplan transfers during 2003 represent the net amount of participant account balances transferred during the year to the Puerto Rico Plan from the Plan. There were no interplan transfers during 2004.

(2) *Significant Accounting Policies*

(a) *Basis of Accounting*

The financial statements of the Plan are prepared under the accrual method of accounting.

(b) *Use of Estimates*

The preparation of financial statements requires the use of estimates. Actual results could differ from those estimates.

Table of Contents

COSTCO 401(k) RETIREMENT PLAN

Notes to Financial Statements

December 31, 2004 and 2003

(c) Investment Valuation and Income Recognition

Investments are stated at fair value. Registered investment company and common commingled trust funds, and Costco Wholesale Corporation common stock are valued based on quoted market prices. Participant loans are valued at cost which approximates fair value. Cash is valued at cost.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the change in the fair value of assets from one period to the next, and realized gains and losses.

The Plan invests in Company common stock and various registered investment company funds which in turn invest in a combination of stocks, bonds and other investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for plan benefits.

The Stable Value Fund is a common commingled trust fund investing primarily in guaranteed investment contracts (GICs) and synthetic GICs. The GICs are fully benefit responsive and are recorded at contract value, which approximates fair value. The effective yield of the fund was 4.4% and 4.74% for the years ended December 31, 2004 and 2003, respectively.

(d) Payment of Benefits

Benefits are recorded when paid.

(3) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and the requirements of the collective bargaining agreement with the International Brotherhood of Teamsters in California. In the event of plan termination, participants will become 100% vested in their accounts.

(4) Tax Status

The IRS has informed the Company that the Plan is designed in accordance with applicable sections of the Internal Revenue Code. The Plan was amended subsequent to receiving a determination letter. The plan administrator believes that the Plan is designed and was being operated in compliance with the applicable requirements of the IRS.

(5) Party-in-Interest Transactions

Certain plan investments are shares of registered investment company funds managed by T. Rowe Price. T. Rowe Price is the trustee and recordkeeper as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. The Plan also invests in company common stock and therefore these transactions qualify as party in interest transactions.

Table of Contents

COSTCO 401(k) RETIREMENT PLAN

Notes to Financial Statements

December 31, 2004 and 2003

(6) Rescission Offer

In 2005, the Company initiated the process of making an offer to rescind up to 1,326,325 shares of Costco Wholesale Corporation common stock purchased by the Plan from November 16, 2003 through November 15, 2004. The Company is making the rescission offer because the common stock may not have been registered under the federal securities laws in a timely manner. The Plan Administrator does not believe that the rescission offer will have a material impact on the financial statements of the Plan.

(7) Subsequent Events

Effective January 1, 2005 the Plan was amended requiring that all eligible employees hired after January 1, 2005 be automatically enrolled in the Plan at a contribution rate of 3% unless the employee elects otherwise.

Effective February 1, 2005, the Retirement Date funds were added as an investment option and the age appropriate retirement date fund was established as the new default investment option.

Effective February 1, 2005, Costco added the Julius Baer International Stock Fund as a replacement fund for the T. Rowe Price International Stock Fund. Effective March 31, 2005 the T. Rowe Price International Stock Fund was removed from the investment options.
