Item 2.02 Results of Operations and Financial Condition.

The news release dated July 25, 2005 filed under Item 8.01 Other Events herein is also furnished pursuant to Item 2.02, Results of Operations and Financial Condition.

Items 8.01 Other Events.

On July 25, 2005, HEI issued the following news release:

HAWAIIAN ELECTRIC INDUSTRIES, INC. REPORTS SECOND QUARTER 2005 EARNINGS

HONOLULU Hawaiian Electric Industries, Inc. (NYSE - HE) today reported net income from continuing operations for the three months ended June 30, 2005, of \$28.3 million, or 35 cents per share, compared with \$11.2 million, or 14 cents per share, in the same quarter of 2004. For the six months ended June 30, 2005, income from continuing operations was \$52.4 million or 65 cents per share, compared with \$42.2 million or 54 cents per share in the same period last year. The comparative results were impacted by the Company's recognition in June 2004, of a cumulative \$24 million charge to net income (30 cents per share) for an unfavorable tax ruling involving its bank's real estate investment trust (REIT) subsidiary, which was settled in December 2004.

Consistent with the continued expansion of the Hawaii economy in the second quarter, the utilities experienced increased demand and the bank experienced strong core deposit and loan growth, as well as good asset quality, said Robert F. Clarke, HEI's chairman, president and chief executive officer. However, both companies face challenges the utilities' operations and maintenance costs have been higher compared with 2004 and the current interest rate environment continues to pressure the bank's net interest margin.

Hawaiian Electric Company's net income for the second quarter of 2005 was \$19.6 million compared with \$21.7 million for the same quarter last year. Electric utility net income for the six months ended June 30, 2005, was \$32.0 million compared with \$41.8 million for the same period of 2004.

Kilowatt-hour sales were higher by 1.8% quarter-over-quarter. Warmer weather and increases in visitor days drove demand for electricity from both residential and commercial customers, said Clarke.

Increased demand has been a double-edged sword. We have been running our peaking units longer, which requires more operations and maintenance costs. It is also bringing the need for new generation to the forefront, added Clarke. To address this need and as part of our broader plans to meet future energy needs, we are asking our customers to conserve energy and are also implementing load control programs.

More than offsetting increased sales, however, were \$8.8 million of higher other operations and maintenance expenses and \$2.1 million of increased depreciation costs in the second quarter of 2005 compared with the second quarter of 2004. Other operations and maintenance expenses were higher primarily due to 1) an increased number of overhauls and inspections and higher generation station maintenance of \$2.4

Edgar Filing: HAWAIIAN ELECTRIC INDUSTRIES INC - Form 8-K

million; 2) \$2.0 million higher retirement benefits expenses due primarily to a decrease in the discount rate assumption used to calculate the benefit obligation; and 3) \$0.9 million higher substation maintenance and vegetation management expenses. The remaining increase in operations and maintenance expense of \$3.5 million includes increased staffing and other costs to support increased demand, reliability, customer service and energy efficiency programs. Increased operations and maintenance is one reason why HECO filed a request with the Hawaii Public Utilities Commission in November 2004 to increase base rates on Oahu. Hearings are scheduled for September 2005 and an interim decision and order is expected in the fourth quarter of 2005.

Bank net income in the second quarter of 2005 was \$13.6 million compared to a net loss of \$6.9 million in the second quarter of 2004. Bank net income for the six months ended June 30, 2005 was \$31.3 million, compared with \$9.0 million in the same period last year. The bank's 2004 results included the impact of the cumulative \$24 million charge in June 2004, related to the unfavorable tax court ruling involving the bank's REIT subsidiary described above.

Bank net interest income increased to \$48.8 million in the second quarter of 2005 compared with \$48.0 million in the second quarter of 2004.

Strong growth in loans and core deposits offset margin compression from a flattening yield curve, said Clarke. The bank's interest rate spread declined to 3.01% in the second quarter of 2005, compared with 3.08% in the second quarter of 2004. Although yields on the loan portfolio were higher, they were more than offset by increased funding costs, a decline in the yield on mortgage-related securities and the suspension of dividends on FHLB stock in the second quarter.

Continued strong asset quality offset the need to provision for the additional loan growth in the second quarter of 2005, said Clarke. Second quarter 2004 results, however, benefited from a \$3.0 million release of loan loss reserves.

Other income in the second quarter was \$1.2 million lower than in the second quarter of 2004, primarily as a result of lower fee income on loans serviced for others.

General and administrative expenses for the quarter ended June 30, 2005, decreased by \$2.5 million from the same period in 2004. Expenses for compensation, consulting and other services increased \$2.5 million quarter-over-quarter, but were more than offset by \$4.9 million less in interest on income taxes. Substantially all of the second quarter 2004 interest on income taxes is included in the charge involving the bank's REIT subsidiary described above.

In December 2004, the bank's preferred stock was converted to common equity. Accordingly, preferred stock dividends were lower by \$1.4 million in the second quarter of 2005 compared with the same quarter of 2004.

The holding and other companies' results were \$(4.9) million in the second quarter of 2005 versus \$(3.5) million in same quarter of 2004. The holding and other companies' results for the six months ended June 30, 2005, were \$(10.9) million compared with \$(8.6) million for the same period of 2004. Second quarter of 2005 results were lower than the same quarter of 2004 due in part to the reduction of preferred dividends from the bank described above.

HEI supplies power to over 400,000 customers or 93% of the Hawaii market through its electric utilities, Hawaiian Electric Company, Hawaii Electric Light Company and Maui Electric Company and provides a wide array of banking and other financial services to consumers and businesses through American Savings Bank, the state's third largest financial institution based on asset size.

Forward-Looking Statements

This release may contain forward-looking statements, which include statements that are predictive in nature, depend upon or refer to future events or conditions, and usually include words such as expects, anticipates, intends, plans, believes, predicts, estimates or similar expressions. In addition, any statements concerning future financial performance (including future revenues, expenses, earnings or losses or growth rates), ongoing business strategies or prospects and possible future actions, which may be provided by management, are also forward-looking statements. Forward-looking statements are based on current expectations and projections about future events and are subject to risks, uncertainties and assumptions about HEI and its subsidiaries, the performance of the industries in which they do business and economic and market factors, among other things. These forward-looking statements are not guarantees of future performance.

Edgar Filing: HAWAIIAN ELECTRIC INDUSTRIES INC - Form 8-K

Forward-looking statements in this release should be read in conjunction with the Cautionary Statements and Risk Factors that May Affect Future Results discussion (which is incorporated by reference herein) set forth on page iv of HEI's Quarterly Report on Form 10-Q for the quarter ended March 31, 2005, and in HEI's future periodic reports that discuss important factors that could cause HEI's results to differ materially from those anticipated in such statements. Forward-looking statements speak only as of the date of this release.

This information should be read in conjunction with the consolidated financial statements and the notes thereto incorporated by reference in HEI's Annual Report on SEC Form 10-K for the year ended December 31, 2004 and the consolidated financial statements and the notes thereto in HEI's Quarterly Reports on SEC Form 10-Q for the quarters ended March 31, 2005 and June 30, 2005 (when filed). Results of operations for interim periods are not necessarily indicative of results to be expected for future interim periods or the full year. In April 2004, the HEI Board of Directors approved a 2-for-1 stock split in the form of a 100% stock dividend with a distribution date of June 10, 2004. All share and per share information above reflects the stock split.

In June 2004, ASB recorded a cumulative after-tax charge to net income of \$24 million for an unfavorable tax ruling involving its real estate investment trust subsidiary, which was settled in December 2004. As a result of the settlement, ASB recognized \$3 million in additional net income in the fourth quarter of 2004.
