INFORMATION CONCERNING SOLICITATION AND VOTING

Record Date and Share Ownership

Stockholders of record at the close of business on March 1, 2006 (the **Record Date**) are entitled to notice of and to vote at the Annual Meeting. As of the Record Date, 45,158,446 shares of AsiaInfo's common stock (**Common Stock**) were issued and outstanding and held of record by approximately 170 registered stockholders.

Voting, Solicitation and Revocability of Proxy

Edgar Filing: ASIAINFO HOLDINGS INC - Form DEF 14A

Registered stockholders can vote by mail, telephone or the Internet. Please note that voting via Internet is a valid proxy voting method under the laws of the state of Delaware (our state of incorporation). Telephone voting can be accessed by calling the toll-free number (in the United States only) 1-866-593-3363. Internet voting can be accessed by logging on to the following Internet address: (<https://www.proxyvotenow.com/asi>). Telephone and Internet voting information is provided on the proxy card. A control number located on the proxy card is designed to verify each stockholder's identity and allow stockholders to vote their shares and confirm that their voting instructions have been properly recorded. If your shares are held in the name of a bank or broker, follow the voting instructions on the form you receive from your bank or broker. The availability of telephone or Internet voting will depend on your bank or broker's voting process.

If you do not choose to vote by telephone or the Internet, you may still return your proxy card, properly signed, and the shares represented will be voted in accordance with your directions. You can specify your choices by marking the appropriate boxes on the proxy card. If your proxy card is signed and returned without specifying choices, the shares will be voted in favor of proposals 1 and 2. If you vote by telephone or the Internet, it is not necessary to return your proxy card.

You may revoke your proxy at any time before it is voted at the Annual Meeting by casting a different vote by telephone or the Internet, by executing a later-voted proxy by mail, by voting by ballot at the Annual Meeting, or by providing written notice of the revocation to Ivy Dong, Legal Counsel of AsiaInfo, at the Company's principal executive offices.

Your vote is important. Accordingly, regardless of whether you plan to attend the Annual Meeting, you are urged to vote by telephone, by the Internet, or by signing and returning the accompanying proxy card. If you do attend,

Table of Contents

you may vote by ballot at the Annual Meeting, thereby canceling any proxy previously given. However, attendance at the Annual Meeting will not revoke a proxy unless you actually vote in person at the meeting.

In the event that any matter not described in this Proxy Statement properly comes before the Annual Meeting, the proxy holders named in the accompanying proxy will vote the shares represented by the proxy in accordance with their best judgment. As of the date of this Proxy Statement, AsiaInfo is not aware of any other matter that might be presented at the Annual Meeting.

Each share of Common Stock outstanding on the Record Date is entitled to one vote. The required quorum for the transaction of business at the Annual Meeting is a majority of the votes eligible to be cast by holders of shares of Common Stock issued and outstanding on the Record Date, present in person or represented by proxy. Stockholders may withhold authority to vote for one or more of the nominees for director and may abstain on one or more of the other matters that may come before the Annual Meeting. The inspector of election appointed for the Annual Meeting will determine the existence of a quorum and will tabulate the votes cast at the Annual Meeting. Broker non-votes (shares held by a broker or nominee that does not have the authority, either express or discretionary, to vote on a particular matter) will not be counted in determining the number of votes cast with respect to a proposal. For purposes of determining the presence of a quorum, abstentions and broker non-votes will be counted by AsiaInfo as present at the Annual Meeting. Abstentions will also be counted by AsiaInfo in determining the total number of votes cast with respect to a proposal (other than the election of directors). If, however, a quorum shall not be present or represented, the stockholders present in person or represented by proxy shall have the power to adjourn the Annual Meeting from time to time, without notice other than announcement at the Annual Meeting until a quorum shall be present or represented. If a broker indicates on a proxy that such broker does not have discretionary authority to vote on a particular matter, under applicable Delaware law those shares will be counted as present for purposes of determining the presence of a quorum, but will not be counted as votes cast on the matter and will have no effect on the outcome of the vote on such matter.

The cost of soliciting proxies will be borne by AsiaInfo. Proxies may be solicited by certain of AsiaInfo's directors, officers and employees, without additional compensation, in person or by telephone, email or facsimile. In addition, AsiaInfo has retained Morrow & Co., Inc. to assist in such solicitation. The fee to be paid to such firm is not expected to exceed \$10,000 plus reasonable out-of-pocket costs and expenses. In addition, AsiaInfo may reimburse brokerage firms and other persons representing beneficial owners of shares for their expenses in forwarding solicitation materials to such beneficial owners.

THE ANNUAL MEETING**

**PROPOSAL NO. 1:
ELECTION OF DIRECTORS**

General

The By-Laws of AsiaInfo provide that the authorized number of directors shall consist of no less than three nor more than ten directors. There are presently seven directors of AsiaInfo, divided into three classes: Class I, Class II and Class III. Each class has a three-year term. The Class I Directors are Messrs. James Ding and Yungang Lu, the Class II Directors are Messrs. Steve Zhang, Tom Manning and Tao Long, and the Class III Directors are Messrs. Edward Tian and Davin A. Mackenzie. At the Annual Meeting, the stockholders will vote on the election of two Class I Directors to serve for three year terms until the 2009 annual meeting of stockholders. The Class II Directors will hold office until the Company's 2007 annual meeting of stockholders and the Class III Directors will hold office until the Company's 2008 annual meeting of stockholders. All directors will hold office until the annual meeting of stockholders at which their terms expire and the election and qualification of their successors. Unless otherwise instructed, the proxy holders will vote the proxies received by them for the nominees named below, both of whom are presently AsiaInfo directors. If any nominee is unable or declines to serve as a director at the time of the Annual Meeting, although we know of no reason to anticipate that this will occur, the proxies will be voted for any nominee designated by the present Board to fill the vacancy. If stockholders properly nominate persons other than AsiaInfo's nominees for election as directors, the proxy holders will vote all proxies received by them to assure the election of as many of AsiaInfo's nominees as possible, with the proxy holder making any required selection of specific nominees to be voted for. There are no family relationships among any of the Company's directors or executive officers.

Audit Committee. The Audit Committee of the Board (the *Audit Committee*) currently consists of Messrs. Lu (Chair), Long and Mackenzie. The Board has determined that each member of the Audit Committee is independent as defined by the Nasdaq Marketplace Rules. The Board has also determined that each member of the Audit Committee is an Audit Committee Financial Expert as defined by the Securities and Exchange Commission (the *SEC*) in Item 401(h) of Regulation S-K. The Audit Committee held four meetings during the last fiscal year. The Audit Committee is directly responsible for the appointment, compensation, retention and oversight of the work of our independent auditors. The Audit Committee represents and assists the Board with the oversight and integrity of the Company's financial statements and internal controls, the Company's compliance with legal and regulatory requirements, the independent auditors' independence and qualifications, the performance of the Company's internal audit function and the independent auditors. In addition, the Audit Committee pre-approves the audit and non-audit services to be provided by the independent auditors. The Board has adopted a written charter for the Audit Committee, which was included in the appendix to our proxy statement dated March 21, 2003. For more information on our Audit Committee, please see the discussion below under the heading *Audit Committee Report*.

Compensation Committee. The Compensation Committee of the Board (the *Compensation Committee*) currently consists of Messrs. Mackenzie (Chair) and Manning. Both of the members of the Compensation Committee are independent for purposes of the Nasdaq Marketplace Rules. The Compensation Committee held one meeting and acted five times by unanimous written consent during the last fiscal year. The Compensation Committee administers AsiaInfo's stock option plans and stock incentive plan and makes recommendations concerning officers' salaries and incentive compensation for AsiaInfo's employees (including officers). The Board has adopted a written charter for the Committee, which is attached as Appendix I to this Proxy Statement. For more information on our Compensation Committee, please see the discussion below under the heading, *Compensation Committee Report*.

Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee of the Board (the *Governance Committee*) currently consists of Messrs. Yungang Lu (Chair) and Tom Manning. All of the members of the Governance Committee are independent for purposes of the Nasdaq Marketplace Rules. The Governance Committee makes recommendations to the Board regarding the nomination of candidates to stand for election or re-election as members of the Board, evaluates the Board's performance, provides oversight of corporate governance and ethical standards and establishes and administers Board committee member compensation policy. The Governance Committee will consider candidates for Board membership proposed by stockholders. Any such proposals should be made in writing to AsiaInfo Holdings, Inc., 4th Floor, Zhongdian Information Tower, 6 Zhongguancun South Street, Haidian District, Beijing 100086, PRC, Attention: Legal Department. The Board has adopted a written charter for the Governance Committee. A copy of our Governance Committee Charter is available on our website at www.asiainfo.com. For more information on our Governance Committee, please see the discussion below under the heading *Nominating and Corporate Governance Committee*.

In 2005, each director attended 75% or more of the meetings of the Board and of the committees of the Board on which the director served during the period for which he was a director or committee member.

Table of Contents

Executive sessions, or meetings of outside directors without the Chief Executive Officer or other members of management present, are generally held on a periodic basis in conjunction with regular meetings of the Board. Additional executive sessions or meetings of outside directors may be held from time to time as required.

Director Compensation

In 2005, each non-executive director was paid an annual retainer of \$15,000 and an additional fee of \$1,000 for each Board meeting attended in person or by teleconference. The chairman of the Audit Committee was paid an additional annual fee of \$5,000 and each member of the Audit Committee was paid a fee of \$1,000 for each Audit Committee meeting attended in person or by teleconference. In addition to these fees, the Company reimburses directors and committee members for reasonable and actual out-of-pocket travel expenses incurred when attending Board or committee meetings. Members of the Board who are also executives of the Company did not receive any compensation for their services at Board meetings.

AsiaInfo also has granted stock options to all of its non-executive directors (except for Tom Manning who received restricted stock units as described below), beginning with an initial grant of 20,000 options to each non-executive director, vesting over four years on an annual schedule of 25% per year. During the last two years of the vesting schedule, the options vest on a quarterly basis. In the past, the Company has typically granted new options to its non-executive directors as their options vest, so that each non-executive director always maintains 20,000 unvested options. On October 24, 2005, the Compensation Committee approved the acceleration of vesting of approximately 2.1 million unvested stock options previously awarded to employees, officers and members of the Board under AsiaInfo's 2000 Stock Option Plan and 2002 Stock Option Plan. Options held by members of the Compensation Committee were excluded from the acceleration. For more information, please see the discussion below under the heading "Option Grants in Last Fiscal Year". The primary purpose of the accelerated vesting is to enable the Company to avoid recognizing future compensation expense associated with the accelerated stock options upon the planned adoption of FASB Statement No. 123R, "Share-Based Payment," (SFAS 123R) in 2006.

Beginning in 2005, AsiaInfo began to implement a policy of granting restricted stock units, instead of stock options, to its non-executive directors pursuant to the AsiaInfo 2005 Stock Incentive Plan. These awards began with an initial grant of 5,000 stock units to each non-executive director, vesting over four years on an annual schedule of 25% per year. AsiaInfo will grant new restricted stock units to the non-executive directors as their restricted stock vests in each year, so that each non-executive director always maintains 5,000 unvested stock units.

Vote Required

Directors are elected by a plurality of the votes present in person or represented by proxy and entitled to vote, assuming a quorum is present. Shareholders do not have cumulative voting rights in the election of Directors.

Recommendation of the Board

The Board recommends that the stockholders vote **FOR** the election of each of the nominees listed above.

**PROPOSAL NO. 2:
RATIFICATION OF APPOINTMENT OF
INDEPENDENT AUDITORS**

General

The Board has selected the firm of Deloitte Touche Tohmatsu as AsiaInfo's independent auditors to audit the financial statements of AsiaInfo for the fiscal year ending December 31, 2006, and recommends that stockholders vote for ratification of this appointment. Deloitte Touche Tohmatsu has audited AsiaInfo's financial statements since the Company's inception in 1993.

Stockholder ratification of the selection of Deloitte Touche Tohmatsu as AsiaInfo's independent auditors is not required by AsiaInfo's By-Laws or otherwise. However, the Board is submitting the selection of Deloitte Touche Tohmatsu to the stockholders for ratification as a matter of good corporate practice. If the stockholders fail to ratify the selection, the Audit Committee and the Board will reconsider whether or not to retain that firm. Even if the selection is ratified, the Board in its discretion may direct the appointment of different independent auditors at any time during the year if it determines that such change would be in the best interests of AsiaInfo and its stockholders. Representatives of Deloitte Touche Tohmatsu are expected to be present at the Annual Meeting, will have the opportunity to make a statement if they desire to do so, and will be available to respond to appropriate questions.

The following discussion describes the fees billed by Deloitte Touch Tohmatsu for services rendered on behalf of the Company during 2004 and 2005. In addition, the fees billed by Deloitte Touche Tohmatsu for professional services rendered for the audit of internal control for the fiscal year ended December 31, 2005 were approximately \$400,000.

Deloitte Touche Tohmatsu did not bill any fees for audit-related services for either of the last two fiscal years.

- (1) This value is based on the closing market price of AsiaInfo's Common Stock on the date of exercise of shares covered by the options exercised, less the option exercise price, multiplied by the number of shares underlying the options exercised.
- (2) Options are in-the-money if the market value of the shares covered thereby is greater than the option exercise price. Based on a market value of \$3.98 per share, the closing price of our Common Stock on September 30, 2005 (as reported by the Nasdaq National Market), less the exercise price, multiplied by the number of shares underlying the option.

On October 24, 2005, the Compensation Committee of the Board approved the acceleration of vesting of approximately 2.1 million unvested stock options previously awarded to employees, officers and members of the Board under AsiaInfo's 2000 Stock Option Plan and 2002 Stock Option Plan. Options held by members of the Compensation Committee were excluded from the acceleration. The effective date of the acceleration was October 25, 2005.

As a condition of the acceleration, and to avoid any unintended personal benefits, AsiaInfo also imposed a holding period on shares underlying the accelerated options that requires all optionees to refrain from selling any shares acquired upon the exercise of the options until the date on which such shares would have vested under the options' original vesting terms.

Employment Agreements and Change of Control Agreements

We entered into Master Executive Employment Agreements with Steve Zhang, our President and Chief Executive Officer, and Ying Han, our Executive Vice President and Chief Financial Officer on April 1, 2004 and May 30, 2003 respectively. Steve Zhang and Ying Han also entered into supplementary employment agreements with our subsidiary AsiaInfo Technologies (China), Inc., on December 8, 2005 and January 1, 2006, respectively. These supplementary agreements, which are governed by the PRC Labor Law, set forth material terms and conditions of employment, including confidentiality and non-competition obligations. Both of the employment agreements have two year terms, ending on December 8, 2007 and January 1, 2008, respectively.

We previously entered into a two year employment agreement with Xingsheng Zhang, our former President and Chief Executive Officer. This agreement was terminated as a result of Mr. Zhang's resignation from his position as our President and Chief Executive Officer, effective April 26, 2005.

Each of Steve Zhang, Ying Han and Xingsheng Zhang have entered into non-compete agreements with AsiaInfo, pursuant to which he or she may not engage in any commercial activity in competition with AsiaInfo for six months after the termination of his or her employment. In addition, each of them is required to disclose all of his or her patent and copyright applications to AsiaInfo during and for a period of one year after the termination of his or her employment. Finally, each of them is forbidden to solicit any employees or clients of AsiaInfo for a period of six months after the termination of his or her employment.

On May 30, 2003, we entered into a change-of-control agreement with Xingsheng Zhang and Ying Han. On April 1, 2004, we entered into a change-of-control agreement with Steve Zhang. These agreements provide, among other things, that these executive officers shall be entitled to various benefits upon the occurrence of a covered termination (as defined therein) within one year of a change of control (as defined therein), including payment of one year of base salary and bonus, immediate vesting of 50% of any outstanding unvested stock options held by the executive officers, the right to exercise all vested options for a period of 18 months following termination, and provision of medical benefits and housing allowance. In the event of a change of control which does not result in termination of employment, these executive officers are entitled to immediate vesting of 50% of any outstanding unvested options.

On October 17, 2000, the Compensation Committee adopted a resolution on severance policy for departing members of AsiaInfo's senior management. In the event that AsiaInfo terminates an employee at the level of 62 grade (vice president) or above without cause, the employee will receive severance pay equal to one month's base salary for each year he or she has been employed by AsiaInfo, or six month's base salary, whichever is greater.

Pension Plans

For the benefit of employees who are citizens or lawful permanent residents of the United States, AsiaInfo has adopted a Simplified Employee Pension Plan (the "Pension Plan"). The Company makes monthly contributions under the Pension Plan in an amount equal to 5% of each covered employee's monthly salary. The contributions are tax

deductible by the Company and are not taxable to the employees. Withdrawals are taxable as ordinary income, and withdrawals before age 59 1/2 may be subject to tax penalties.

COMPENSATION COMMITTEE REPORT

The Compensation Committee currently consists of Messrs. Mackenzie (Chair) and Manning, each of whom are independent directors of AsiaInfo, under the rules of the Nasdaq Marketplace and SEC. The Compensation Committee reviews and recommends to the Board the compensation and benefits of all executive officers of AsiaInfo and makes recommendations relating to incentive compensation for employees of AsiaInfo (including officers). The following is the report of the Compensation Committee describing the compensation policies and rationale applicable to AsiaInfo's executive officers with respect to the compensation paid to such executive officers for the fiscal year ended December 31, 2005. The information contained in this report shall not be deemed to be soliciting material or to be filed with the SEC, nor shall such information be incorporated by reference into any future filing under the Securities Act of 1933, as amended, (the Securities Act) or the Exchange Act of 1934, as amended (the Exchange Act), except to the extent that AsiaInfo specifically incorporates such information by reference in such filing.

Compensation Philosophy and Review

Our executive compensation program is generally designed to align the interests of our executives with the interests of our stockholders and to reward our executives for achieving corporate and individual objectives. The executive compensation program is also designed to attract and retain the services of qualified executives in the highly competitive information technology software and services marketplaces. Executive compensation currently consists of a base salary, long-term equity incentives, and other compensation and benefit programs generally available to other employees.

Policy Regarding Section 162(m) of the Internal Revenue Code

Section 162(m) of the Internal Revenue Code (the Code) generally disallows a tax deduction to public companies for compensation in excess of \$1 million paid to a company's Chief Executive Officer or any of the four most highly compensated executive officers. Certain performance-based compensation, however, is exempt from the deduction limit. It is the Compensation Committee's intention that, so long as it is consistent with its overall compensation objectives and philosophy, executive compensation will be deductible for federal income tax purposes. AsiaInfo's stock option plans have been structured so that any taxable compensation derived pursuant to the exercise of options granted under such plans should not be subject to these deductibility limitations. The Compensation Committee has considered the potential impact of Section 162(m) of the Code on the compensation paid to AsiaInfo's executive officers.

Base Salaries

Base salary levels for the President and Chief Executive Officer and other executive officers are intended to compensate executives competitively within the information technology marketplace. Base salaries are determined on an individual basis by evaluating each executive's scope of responsibility, past performance, prior experience and data on prevailing compensation levels in relevant markets for executive talent. The Compensation Committee also takes into account AsiaInfo's financial performance during the previous fiscal year, including revenue growth, net income growth, operational cash flow and Common Stock performance. Base salaries for executives are reviewed annually by the Compensation Committee.

Long-Term Equity Incentives

AsiaInfo has provided long-term equity incentives to its executive officers and to other employees through the grant of stock options under its stock option plans. The purpose of granting stock options is to create a direct link between compensation and the long-term performance of AsiaInfo. Stock options are generally granted at an exercise price equal to 100% of the fair market value of AsiaInfo's Common Stock on the date of grant, have a ten-year term and generally vest over a four year period. The primary stock options granted to executive officers

Table of Contents

are generally granted in conjunction with the executive officer's acceptance of employment with AsiaInfo. When determining the number of stock options to be awarded to an executive officer, the Compensation Committee considers the executive's current contribution to AsiaInfo's performance, the executive officer's anticipated contribution in meeting AsiaInfo's long-term strategic performance goals, and comparisons to formal and informal surveys of executive stock option grants made by other information technology companies. The Compensation Committee also reviews stock option levels for executive officers at the beginning of each fiscal year in light of long term strategic and performance objectives and each executive's current and anticipated contributions to AsiaInfo's future performance. On October 24, 2005, the Compensation Committee of the Board approved the acceleration of vesting of approximately 2.1 million unvested stock options previously awarded to employees, officers and members of the Board under AsiaInfo's 2000 Stock Option Plan and 2002 Stock Option Plan. Options held by members of the Compensation Committee were excluded from the acceleration. Please see "Option Grants in Last Fiscal Year". The primary purpose of the accelerated vesting is to enable the Company to avoid recognizing future compensation expense associated with the accelerated stock options upon the planned adoption of FASB Statement No. 123R, "Share-Based Payment," (SFAS 123R) in 2006.

In AsiaInfo's Annual Meeting of stockholders on April 21, 2005, the AsiaInfo Holdings, Inc. 2005 Stock Incentive Plan (the "Plan") was approved and ratified. The purpose of the AsiaInfo Holdings, Inc. 2005 Stock Incentive Plan (the "Plan") is to enhance the long-term stockholder value of the Company, by offering opportunities to employees, directors, officers, consultants, agents, advisors and independent contractors of the Company and its Subsidiaries (as defined in Section 2 of the Plan) to participate in the Company's growth and success, and to encourage them to remain in the service of the Company and its Subsidiaries and to acquire and maintain stock ownership in the Company. Pursuant to the Plan, the Company's Compensation Committee, as the plan administrator, has discretion over whether and to whom to grant awards. In 2005, AsiaInfo began to implement a policy of granting restricted stock units, instead of stock options, to its non-executive directors pursuant to the AsiaInfo 2005 Stock Incentive Plan. These awards began with initial grants of 5,000 units to each non-executive director, vesting over four years on an annual schedule of 25% per year. AsiaInfo intends to grant new restricted stock units to its non-executive directors as their restricted stock vests in each year, so that the unvested portion of each non-executive director's restricted stock units is always maintained at 5,000 units. Please see Appendix I of AsiaInfo's 2005 Proxy Statement, "AsiaInfo Holdings, Inc. 2005 Stock Incentive Plan as Amended Through April 8, 2005".

Other Compensation

AsiaInfo's executive officers are also eligible to participate in benefits programs generally available to other employees. In addition, from time to time, executive officers have received signing bonuses or other performance bonuses based on extraordinary effort.

Chief Executive Officer Compensation

Steve Zhang is AsiaInfo's President and Chief Executive Officer. The Compensation Committee reviews Mr. Zhang's compensation annually using the same criteria and policies applied to other executive officers. In 2006, Mr. Zhang's compensation is primarily based on the salary, restricted stock unit awards and other benefits he was entitled to receive under the employment agreement he entered into with the Company in December 2005. Following Mr. Zhang's appointment as President and Chief Executive Officer, the Compensation Committee granted him 40,000 stock options under the AsiaInfo Holdings, Inc. Stock Option Plan. On September 19, 2006, the Compensation Committee granted Mr. Zhang 80,000 restricted stock units under the 2005 Stock Incentive Plan. The size and terms of Mr. Zhang's restricted stock unit grant were based on the responsibilities and expected future contributions of Mr. Zhang.

AUDIT COMMITTEE REPORT

The Audit Committee reviews the Company's financial reporting process on behalf of the Board and is responsible for the retention of the Company's independent auditors. Management has the primary responsibility for the financial statements and the reporting process. The Company's independent auditors are responsible for expressing an opinion on the conformity of our audited financial statements to generally accepted accounting principles. The Audit Committee currently consists of Messrs. Yungang Lu (Chair), Tao Long and Davin A. Mackenzie, all independent directors, as defined in the listing standards for the Nasdaq Stock Market.

The Audit Committee has reviewed and discussed the audited financial statements for the fiscal year ended December 31, 2005 with our management, has discussed with our independent auditors the matters required to be discussed by SAS 61 (Codification of Statements on Auditing Standards), has received the written disclosures required by Independence Standards Board No. 1 (Independence Discussions with Audit Committees), and has discussed with our independent auditors their independence. The Audit Committee has also considered whether the provision of non-audit services by our auditors is compatible with maintaining our auditors' independence. The Board adopted a written charter of the Audit Committee in November 1999. The Board adopted amendments to the charter in March 2003 and in January 2004.

Consistent with SEC policies regarding auditor independence, the Audit Committee has responsibility for appointing, setting compensation and overseeing the work of the independent auditors. In recognition of this responsibility, the Audit Committee has established a policy to pre-approve all audit and permissible non-audit services provided by the independent auditors.

Prior to the engagement of independent auditors for the next year's audit, management submits an aggregate of services expected to be rendered by the independent auditors during that year to the Audit Committee for approval, along with the anticipated fees for those services. Management's report to the Audit Committee categorizes all anticipated fees into one of the following four classifications:

Audit services include fees for audit work performed in the preparation of financial statements, as well as work that generally only the independent auditors can reasonably be expected to provide, including comfort letters, statutory audits, and attestation services and consultation regarding financial accounting and/or reporting standards.

Audit-related services include fees for assurance and related services that are traditionally performed by the independent auditors, including due diligence related to mergers and acquisitions, employee benefit plan audits, and special procedures required to meet

Edgar Filing: ASIAINFO HOLDINGS INC - Form DEF 14A

certain regulatory requirements.

Tax services include fees for all services performed by the independent auditors' tax personnel except those services specifically related to the audit of the financial statements, and include fees in the areas of tax compliance, tax planning, and tax advice.

Other Fees include fees associated with services not captured in the other categories. The Company generally does not request such services from the independent auditors.

Table of Contents

Prior to engagement, the Audit Committee must pre-approve these services. The fees are budgeted and the Audit Committee requires the independent auditors and management to report actual fees versus the budget periodically throughout the year. During the year, circumstances may arise when it may become necessary to engage the independent auditors for additional services not contemplated in the original pre-approval. In those instances, the Audit Committee requires specific pre-approval before engaging the independent auditor.

The Audit Committee may delegate pre-approval authority to one or more of its members. The member to whom such authority is delegated must report, for informational purposes only, any pre-approval decisions to the Audit Committee at its next scheduled meeting.

In 2005, the Audit Committee pre-approved all services provided by our independent auditors.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board that the audited financial statements for the fiscal year ended December 31, 2005 be included in the Company's Annual Report on Form 10-K.

In December 2005, we entered into a contract to provide China Netcom Group with our software products, AIOMS Suite, to reconstruct the operation of the supporting system CRM project in Jiangsu Province. Our expected revenues from this contract are approximately \$275,113.

Each of the foregoing transactions with China Netcom Group was an arm's-length, negotiated transaction on terms that we believe are no less favorable than terms we would have received from an unrelated party. In 2005, revenues derived from China Netcom Group represented approximately 12% of our total revenues. We will continue to recognize revenues from the foregoing contracts in the current fiscal year, and anticipate that we will enter into additional contracts with China Netcom Group in the current fiscal year and future fiscal years.

Transactions with Lenovo Group Limited and its Affiliates

As previously reported in our Form 8-K filed on October 25, 2004, we closed our acquisition of the non-telecommunications related information technology services business of Lenovo Group Limited (Lenovo) on October 19, 2004. As part of the consideration for the assets we acquired from Lenovo, our subsidiary, Bonson Information Technology Limited (Bonson) entered into a forward contract with a subsidiary of Lenovo under which Bonson was obligated to deliver shares of our Common Stock having a market value of approximately \$27.1 million on the settlement date. The settlement date was required to occur, at our discretion, at any time during the twelve-month period following the closing. The forward contract limited Bonson's obligation to deliver no more than 4,498,130 shares of our Common Stock, and provided that if the

Edgar Filing: ASIAINFO HOLDINGS INC - Form DEF 14A

market value of 4,498,130 shares was less than \$27.1 million on the settlement date, Bonson would have the option of paying cash or delivering additional shares of our Common Stock in order to cover the difference. On July 1, 2005, we settled the forward contract by delivering from treasury stock 4,498,130 shares of our Common Stock, with a fair value of \$25,189 and a cost of \$23,255, and paying cash in the amount of \$2,024 to Lenovo. After settling the forward contract, Lenovo owned approximately 12% of our outstanding Common Stock, as of December 31, 2005.

Agreements regarding ownership structure of the systems integration business involving state secrets

In connection with the closing of our acquisition of Lenovo's IT services business, we and Lenovo entered into a supplement to the acquisition agreement as of October 1, 2004, which sets forth certain supplemental understandings and agreements regarding the structure of the acquisition and other terms and conditions. Among other things, the supplement sets forth the structure of the acquisition of the part of Lenovo's IT services business that constitutes systems integration involving state secrets under relevant PRC law. Under the supplement, the parties agreed that Legend Holdings Limited (Legend Holdings), the parent of Lenovo Group, would establish a subsidiary in China, Lenovo Security Technologies (Beijing) Inc. (Lenovo Security). At the time Lenovo Security was established, Legend Holdings owned 51% of the equity interest in Lenovo Security, and two PRC citizens, Mr. Bing Yu, a former member of our Board, and Ms. Zheng Wang, one of our employees, held the remaining equity interest. The purpose of Lenovo Security is to obtain the necessary licenses and qualifications for the systems integration businesses involving state secrets, after which Lenovo Security will be transferred to us (unless it has been transferred earlier, under certain circumstances). Through our wholly-owned subsidiary, Lenovo-AsiaInfo Technologies, Inc. (Lenovo-AsiaInfo) we have entered into a series of contractual arrangements with Lenovo Security and its shareholders under which we enjoy effective control of Lenovo Security and economic benefits substantially similar to equity ownership of Lenovo Security.

The supplement to the acquisition agreement also provides that during the transition period from the date of closing the acquisition to the earlier of (1) the date when Lenovo Security has received the Information System Integration Qualification from the MII (which is a prerequisite for the operation of the systems integration businesses involving state secrets) and (2) the date when Lenovo-AsiaInfo acquires all of Legend Holdings equity interest in Lenovo Security pursuant to the terms of the equity transfer arrangement agreements described below, we will operate the system integration businesses involving state secrets through Lenovo Computer System and Technology Services Co., Limited. (Lenovo Computer). Lenovo Computer is owned by two subsidiaries of Lenovo: Lenovo Manufacturing Limited, or Lenovo Manufacturing, and Lenovo Beijing Limited, or Lenovo Beijing. We have entered into similar contractual arrangements with Lenovo Computer, Lenovo Manufacturing and Lenovo Beijing to operate and control Lenovo Computer during this transitional period, and to receive economic benefits substantially similar to equity ownership in Lenovo Computer.

As previously reported in our Form 8-K filed on January 4, 2006, Mr. Bing Yu resigned as an officer and director of AsiaInfo and its subsidiaries as of January 3, 2006. Prior to his resignation, Mr. Yu was the registered holder of 25% of the equity interest in Lenovo Security. In connection with his resignation, Mr. Yu entered into a Frame Contract dated January 3, 2006 with Mr. James Ding, our Board Chairman and former Chief Executive Officer. The Frame Contract sets forth a legal structure whereby Mr. Yu transferred his equity interest in Lenovo Security to Mr. Ding pursuant to an Equity Interest Transfer Agreement. Mr. Yu had originally borrowed RMB6,000,000 from Lenovo-AsiaInfo for the purpose of establishing Lenovo Security. This loan obligation was also transferred to Mr. Ding in accordance with the Frame Contract. Mr. Ding entered into a series of agreements with Lenovo-AsiaInfo on January 3, 2006, including the Loan Agreement, Power of Attorney, Exclusive Option Agreement and Share Pledge Agreements, all of which were required to effect the replacement of Mr. Yu as an equity owner of Lenovo Security. For detailed information regarding these agreements, please see descriptions of each agreement under the heading *Agreements regarding Lenovo Security* below.

The structure of our contractual arrangements with Lenovo Security and Lenovo Computer was developed in order to comply with the current prohibition under PRC laws and regulations on foreign persons or foreign-invested enterprises from engaging in systems integration businesses involving state secrets, and to comply with certain licensing requirements with respect to such businesses.

For a further description of those laws and regulations, please see the discussion in our annual report on Form 10-K for fiscal year ended December 31, 2005 (the 2005 Form 10-K) in Item 1. Business, under the heading Governmental Regulation.

Edgar Filing: ASIAINFO HOLDINGS INC - Form DEF 14A

For a discussion of certain risks related to those regulations and our contractual arrangements with Lenovo, please see the discussion in our 2005 Form 10-K in Item 1A, Risk Factors .
