Notice concerning Partial Amendment to the Articles of Incorporation

Tokyo, May 22, 2006 Mitsubishi UFJ Financial Group, Inc. (MUFG; President & CEO: Nobuo Kuroyanagi) resolved at a meeting of the Board of Directors held today to submit a proposal for partial amendment to the Articles of Incorporation of MUFG as stated below at the 1st Annual General Meeting of Shareholders (which also serves as a general meeting of holders of class of shares with respect to ordinary shares) to be held on June 29, 2006.

1. Reasons for Amendments

- (1) The total numbers of shares authorized to be issued with respect to the Class 8 Preferred Shares through Class 12 Preferred Shares will be reduced according to the total number of issued shares as of May 22, 2006 (Article 6 of the Proposed Amendments).
- (2) New provisions will be added to the current Articles of Incorporation in order to clarify the handling of remuneration, etc. for Directors and Corporate Auditors, and method of election and term of office of, and remuneration, etc. for, the Accounting Auditor (Articles 33 and 40 and Chapter 7 of the Proposed Amendments).
- (3) Provisions of Articles 34 and 41 will be newly established in order to ensure Directors and Corporate Auditors fully perform their expected roles, by introducing a system which allows exemption of Directors and Corporate Auditors from their liabilities, within the limits stipulated by laws and regulations, by a resolution of the Board of Directors. The establishment of Article 34 of the Proposed Amendments has been approved by the Board of Corporate Auditors with unanimous consents of all Auditors (Articles 34 and 41 of the Proposed Amendments).
- (4) The following necessary amendments will be made in accordance with the enforcement of the Corporation Act (Law No. 86, 2005) and the Act for Maintenance, Etc. of Relevant Acts Relating to the Enforcement of the Corporation Act (Law No. 87, 2005) (the Maintenance Act) and the Corporation Act Enforcement Regulations (Ministry of Justice Ordinance No. 12, 2006), the Corporate Calculation Regulations (Ministry of Justice Ordinance No. 13, 2006) and the Electronic Public Notice Regulations (Ministry of Justice Ordinance No. 14, 2006) as of May 1, 2006.

- (i) With respect to the matters deemed to be included in the Articles of Incorporation of MUFG pursuant to the Maintenance Act, new provisions will be established or necessary amendments will be made to the current provisions (Articles 4, 7 and 10 of the Proposed Amendments).
- (ii) As shares are deemed to be of different classes if the amounts of preferred dividends or other descriptions are different, amendments will be made to establish multiple series, each of which shall be considered as a separate class of shares, for Class 5 Preferred Shares through Class 7 Preferred Shares which may be issued in several series (Articles 6, 12 through 14, and 17 through 19 of the Proposed Amendments); provided, however, that a proviso will be added to Article 6 of the Proposed Amendments so that the number of each class of Preferred Shares to be issued under the current Articles of Incorporation will not be substantially changed (Article 6 of the Proposed Amendments). The proviso to Article 5 of the current Articles of Incorporation will be deleted due to the change in handling of the total number of shares authorized to be issued as a result of the enforcement of the Corporation Act.
- (iii) Pursuant to the Corporation Act and the Maintenance Act, necessary amendments will be made to the descriptions of each class of Preferred Shares (Proviso to Article 12, Paragraph 3, Articles 17 through 19 and Attachments 1 through 5 of the Proposed Amendments; deletion of Article 39 of the current Articles of Incorporation).
- (iv) In order to disclose reference documents, etc. for general meetings of shareholders via the Internet, a provision will be newly established (Articles 24 and Articles 28, Paragraph 1 of the Proposed Amendments).
- (v) With respect to voting by proxy at a general meeting of shareholders, amendments will be made so that the proxy shall be limited to one (1) shareholder of MUFG entitled to exercise its own voting rights at such meeting (Article 26, Paragraph 1 of the Proposed Amendments).
- (vi) With respect to the general meetings of holders of classes of shares, new provisions will be added to make the quorum of such meetings be the same as the normal general meetings of shareholders (Article 28, Paragraphs 2 and 3 of the Proposed Amendments).

- (vii) For flexible management of the Board of Directors, a provision will be newly established to enable MUFG to deem that a resolution of the Board of Directors has been made without convening a meeting when all the Directors express their agreement in writing or by an electromagnetic device (Article 32, Paragraph 5 of the Proposed Amendments).
- (viii) In order to invite capable persons and ensure them to fully perform their expected role, a provision will be newly established to enable MUFG to execute agreements with Outside Corporate Auditors, limiting the liability of such Outside Corporate Auditors (Article 42 of the Proposed Amendments).
- (ix) In order to secure flexibility of the capital policy, a provision will be newly established to enable MUFG to acquire its own shares by a resolution of the Board of Directors, and as a result, Article 6 of the current Articles of Incorporation will be deleted (Article 47 of the Proposed Amendments).
- (x) In addition to the above, necessary amendments, including changes of wording, expressions and references in accordance with the Corporation Act and the related laws and regulations described above and renumbering of the articles, will be made to the entire Articles of Incorporation.

Request for Acquisition of Class 8 Preferred Shares

Any Class 8 Preferred Shareholder may request acquisition of Class 8 Preferred Shares during the period in which such Preferred Shareholder is entitled to request acquisition as provided for in Paragraph 1 of this Attachment, in exchange for Ordinary Shares of the Company in the number as is calculated by the formula provided for in Paragraph 2 and 3 of this Attachment.

1. Period during which Preferred Shareholders are Entitled to Request Acquisition

On and after the issuance date of the Class 8 Preferred Shares to and including July 31, 2008

2. Number of Ordinary Shares to be Delivered in Exchange for Acquisition

The number of the Ordinary Shares to be delivered in exchange for acquisition of Class 8 Preferred Shares shall be as follows:

$$\text{Number of the Ordinary Shares to be delivered in exchange for acquisition} = \frac{\text{Number of the Class 8 Preferred Shares requested for acquisition by their holders}}{\text{Acquisition price}} \times 3,000,000 \text{ yen}$$

In the calculation of the number of the Ordinary Shares to be delivered in exchange for acquisition, it shall be calculated to the third decimal place and such third decimal place shall be rounded up to the nearest second decimal place. In the calculation of the number of Ordinary Shares provided for above, if any number less than one (1) share is yielded, such fractions shall be handled by the method provided for in Article 167, Paragraph 3 of the Corporation Act.

3. Acquisition Price and Other Conditions

a. Initial Acquisition Price

The initial acquisition price shall be one million six hundred ninety-three thousand five hundred (1,693,500) yen.

b. Reset of Acquisition Price

The acquisition price shall be reset on August 1, 2006 and August 1, 2007 (each, hereinafter referred to as the Reset Date) to the amount obtained by multiplying the average daily closing price (including closing bids or offered prices) of the Ordinary Shares of the Company (in regular trading) as reported by the Tokyo Stock Exchange for the thirty (30) consecutive trading days (excluding a trading day or days on which no closing price or closing bid or offered price is reported) commencing on the forty-fifth (45th) trading day prior to the relevant Reset Date by 1.025 (calculated by rounding up to the nearest hundred (100) yen when the fraction is equal to or more than fifty (50) yen, discarding amounts less than fifty (50) yen); provided, however, that if the acquisition price so calculated is less than one million six hundred ninety-three thousand and five hundred (1,693,500) yen (subject to any adjustment in accordance with c. below) (hereinafter referred to as the Acquisition Floor Price), the acquisition price shall be equal to the Acquisition Floor Price. If, during the above-described forty-five (45) trading day period, any event has occurred which would require an adjustment in accordance with c. below, the average price above shall be adjusted in a manner consistent with c. below.

c. Adjustment of Acquisition Price

- (a) After the issuance of the Class 8 Preferred Shares, the acquisition price (including the Acquisition Floor Price) will be adjusted in accordance with the following formula (hereinafter referred to as the Acquisition Price Adjustment Formula) in the event any of the items set forth below occurs; provided, however, that if the acquisition price when adjusted in accordance with the Acquisition Price Adjustment Formula is less than one hundred thousand (100,000) yen, the acquisition price after adjustment shall be one hundred thousand (100,000) yen.

$$\begin{array}{rcl}
 \text{Acquisition price after adjustment} & = & \text{Acquisition price before adjustment} \\
 & & \times \left[\frac{\text{Number of Ordinary Shares already issued} + \text{Number of Ordinary Shares to be newly issued or transferred}}{\text{Number of Ordinary Shares already issued} + \text{Number of Ordinary Shares to be newly issued or transferred}} \right] \\
 & & \times \left[\frac{\text{Subscription price per share}}{\text{Current market price per share}} \right]
 \end{array}$$

- (i) In the event that the Company issues Ordinary Shares or transfers Ordinary Shares held by the Company at a subscription price less than the current market price to be used in the Acquisition Price Adjustment Formula (except for any acquisition of securities (interests) which will be acquired by the Company in exchange for the Ordinary Shares or securities (interests) which will be caused by the holder of such securities (interests) to be acquired by the Company in exchange for the Ordinary Shares, or the exercise of stock acquisition rights):

The acquisition price after adjustment shall become effective as of the date immediately following the payment date or the last date of the payment period, or as of the date immediately following the record date (if set) for the issuance or the transfer of such Ordinary Shares to shareholders.

- (ii) In the event that the Company splits Ordinary Shares or conducts free allotment of Ordinary Shares (including those in which the Company transfers its own shares):

The acquisition price after adjustment shall become effective as of the date immediately following the record date set for the stock split or free allotment of such Ordinary Shares.

However, if the Board of Directors of the Company determines that the stock split or free allotment of Ordinary Shares (including the cases in which the Company transfers its own shares) thereby shall be effected by an increase of stated capital by virtue of the reduction of the amount of surplus and the record date set for the stock split or free allotment of such Ordinary Shares to shareholders falls on or prior to the date of the closing of the relevant ordinary general meeting of shareholders held to approve the increase of the stated capital, the acquisition price after adjustment shall become effective as of the date immediately following the date on which the ordinary general meeting of shareholders approving such increase is concluded.

- (iii) In the event that the Company issues (including free allotment) securities (interests) which will be acquired by the Company in exchange for the Ordinary Shares or the stock acquisition rights to acquire Ordinary Shares, or securities (interests) which will be caused by the holder of such securities (interests) to be acquired by the Company in exchange for the Ordinary Shares, or the stock acquisition rights to acquire Ordinary Shares (including the bonds with stock acquisition rights), in either case, at a price less than the current market price to be applied to the Acquisition Price Adjustment Formula:

The acquisition price after adjustment shall become effective as of the date immediately following the payment date or the last date of the payment period of such securities (interests) or as of the date immediately following the record date (if set) for the issuance or the issuance of such securities (interests) to shareholders, on the assumption that all such securities (interests) are acquired or all the stock acquisition rights are exercised on the payment date or the last date of the payment period of such securities (interests) or at the close of the record date set for the issuance of such securities (interests), as the case may be.

- (b) In addition to the events set forth above, if an adjustment of the acquisition price (including the Acquisition Floor Price) is required by virtue of any amalgamation or merger, capital reduction, or consolidation of Ordinary Shares, etc., the acquisition price shall be adjusted to such price as the Board of Directors of the Company determines appropriate.
- (c) The Current market price per share in the Acquisition Price Adjustment Formula means the average daily closing price (including closing bids or offered prices) of Ordinary Shares of the Company (in regular trading) as reported by the Tokyo Stock Exchange for the thirty (30) consecutive trading days (excluding a trading day or days on which no closing price or closing bid or offered price is reported) commencing on the forty-fifth (45th) trading day prior to the date on which the acquisition price after adjustment becomes effective (or, in the case as provided for in the proviso of c. (a) (ii) above, the record date set for the stock split or free allotment of Ordinary Shares to shareholders), calculated by rounding up to the nearest hundred (100) yen when the fraction is equal to or more than fifty (50) yen, discarding amounts less than fifty (50) yen.

If any of the events of adjustment of acquisition price as set forth in c. (a) or (b) above occurs during the above forty-five (45) trading day period, the average price above shall be adjusted in a manner consistent with c. (a) or (b) above.

- (d) The Acquisition price before adjustment in the Acquisition Price Adjustment Formula means the acquisition price in effect on the date immediately preceding the date on which the acquisition price after adjustment becomes effective, and the Number of Ordinary Shares already issued in the Acquisition Price Adjustment Formula means the number of Ordinary Shares of the Company issued and outstanding (excluding the number of Ordinary Shares held by the Company) on the record date (if set for the issuance, transfer, stock split or free allotment to shareholders, or if such date is not set, on the date one (1) calendar month prior to the date on which the acquisition price after adjustment is to become effective.
- (e) The Subscription price per share in the Acquisition Price Adjustment Formula means (1) in the event that the Company issues or transfers Ordinary Shares with a subscription price less than the current market price as set forth in c. (a) (i) above, such subscription price (in the event that payment thereof is made by any consideration other than cash, the fair value of such consideration), (2) in the event that the Company splits Ordinary Shares or conducts free allotment of Ordinary Shares as set forth in c. (a) (ii) above (including those in which the Company transfers its own shares), zero, and (3) in the event that the Company issues (including free allotment) securities (interests) which will be acquired by the Company in exchange for the Ordinary Shares or the stock acquisition rights to acquire Ordinary Shares, securities (interests) which will be caused by the holder of such securities (interests) to be acquired by the Company in exchange for the Ordinary Shares, or the stock acquisition rights to acquire Ordinary Shares (including the bonds with stock acquisition rights) at a price less than the current market price as set forth in c. (a) (iii) above, the relevant acquisition or exercise price.
- (f) The result of the calculation by the Acquisition Price Adjustment Formula shall be rounded up to the nearest hundred (100) yen when the fraction is equal to or more than fifty (50) yen, discarding amounts less than fifty (50) yen.
- (g) In the event that the difference between the acquisition price after adjustment calculated by the Acquisition Price Adjustment Formula and the acquisition price before adjustment is less than one thousand (1,000) yen, no adjustment shall be made; provided, however, that if any event occurs thereafter that would require adjustment of the acquisition price, when calculating the acquisition price, such difference shall be deducted from the acquisition price before adjustment in the Acquisition Price Adjustment Formula.

Request for Acquisition of Class 9 Preferred Shares

Any Class 9 Preferred Shareholder may request acquisition of Class 9 Preferred Shares during the period in which such Preferred Shareholder is entitled to request acquisition as provided for in Paragraph 1 of this Attachment, in exchange for Ordinary Shares of the Company in the number as is calculated by the formula provided for in Paragraph 2 and 3 of this Attachment.

1. Period during which Preferred Shareholders are Entitled to Request Acquisition
 On and after the issuance date of the Class 9 Preferred Shares to and including March 30, 2009

2. Number of Ordinary Shares to be Delivered in Exchange for Acquisition
 The number of the Ordinary Shares to be delivered in exchange for acquisition of Class 9 Preferred Shares shall be as follows:

$$\text{Number of the Ordinary Shares to be delivered in exchange for acquisition} = \text{Number of the Class 9 Preferred Shares requested for acquisition by their holders} \times \text{Delivery Ratio}$$

In the calculation of the number of the Ordinary Shares to be delivered in exchange for acquisition, it shall be calculated to the third decimal place and such third decimal place shall be rounded up to the nearest second decimal place. In the calculation of the number of Ordinary Shares provided for above, if any number less than one (1) share is yielded, such fractions shall be handled by the method provided for in Article 167, Paragraph 3 of the Corporation Act.

3. Delivery Ratio and Other Conditions

a. Initial Delivery Ratio

Any Class 9 Preferred Shareholder may request acquisition of Class 9 Preferred Shares in exchange for Ordinary Shares of the Company at the following delivery ratio per Class 9 Preferred Share (hereinafter referred to as the Initial Delivery Ratio):

Initial Delivery Ratio = 2.197

b. Reset of Delivery Ratio

The Initial Delivery Ratio shall be reset on October 5 of each year from 2005 through and including 2008 (each, hereinafter referred to as the Reset Date) to such delivery ratio as calculated by the following formula (hereinafter referred to as the Delivery Ratio After Reset). The Delivery Ratio After Reset shall be calculated to the fourth decimal place and rounded up to the nearest third decimal place when the fraction beyond it is equal to or more than 0.0005, discarding fractions less than 0.0005.

$$= 2,000,000 \text{ yen}$$

Delivery Ratio After Reset \times Current market price \times 1.035

However, if any amount less than one thousand (1,000) yen is produced by the calculation of the current market price multiplied by 1.035, such amount shall be rounded up to the nearest one thousand (1,000) yen. If as a result of the above calculation the Delivery Ratio After Reset exceeds 2.197 (subject to any adjustment in accordance with c. below) (hereinafter referred to as the Delivery Ceiling Ratio), the Delivery Ratio After Reset shall be the Delivery Ceiling Ratio. The Current market price in the above formula shall be the average daily closing price (including closing bids or offered prices) of the Ordinary Shares of the Company (in regular trading) as reported by the Tokyo Stock Exchange for the thirty (30) consecutive trading days (excluding a trading day or days on which no closing price or closing bid or offered price is reported) commencing on the forty-fifth (45th) trading day prior to the relevant Reset Date, calculated by rounding up to the nearest hundred (100) yen when the fraction is equal to or more than fifty (50) yen, discarding amounts less than fifty (50) yen.

c. Adjustment of Delivery Ratio

- (a) After the issuance of the Class 9 Preferred Shares, the delivery ratio as set forth in a. and b. above will be adjusted in accordance with the following formula (hereinafter referred to as the Delivery Ratio Adjustment Formula) in the event any of the items set forth below occurs; provided, however, that if the delivery ratio calculated by the Delivery Ratio Adjustment Formula exceeds forty (40), the delivery ratio after adjustment shall be forty (40). The delivery ratio after adjustment shall be calculated to the fourth decimal place and rounded up to the nearest third decimal place when the fraction beyond it is equal to or more than 0.0005, discarding fractions less than 0.0005.

$$\begin{array}{l} \text{Delivery} \\ \text{ratio after} \\ \text{adjustment} \end{array} = \begin{array}{l} \text{Delivery} \\ \text{ratio before} \\ \text{adjustment} \end{array} \times \begin{array}{l} \text{Number of Ordinary} \\ \text{Shares already issued} \end{array} + \begin{array}{l} \text{Number of Ordinary} \\ \text{Shares to} \\ \text{be newly issued or} \\ \text{transferred} \\ \text{Number} \\ \text{of} \\ \text{Ordinary} \\ \text{Shares} \\ \text{to be} \\ \text{newly} \\ \text{issued} \\ \text{or} \\ \text{transferred} \end{array} \times \begin{array}{l} \text{Subscription} \\ \text{price per share} \\ \text{Current market price} \end{array}$$

- (i) In the event that the Company issues Ordinary Shares or transfers Ordinary Shares held by the Company at a subscription price less than the current market price to be used in the Delivery Ratio Adjustment Formula (except for any acquisition of securities (interests) which will be acquired by the Company in exchange for the Ordinary Shares or securities (interests) which will be caused by the holder of such securities (interests) to be acquired by the Company in exchange for the Ordinary Shares, or the exercise of stock acquisition rights):

The delivery ratio after adjustment shall become effective as of the date immediately following the payment date or the last date of the payment period, or as of the date immediately following the record date (if set) for the issuance or the transfer of such Ordinary Shares to shareholders.

- (ii) In the event that the Company splits Ordinary Shares or conducts free allotment of Ordinary Shares (including those in which the Company transfers its own shares):

The delivery ratio after adjustment shall become effective as of the date immediately following the record date set for the stock split or free allotment of such Ordinary Shares.

However, if the Board of Directors of the Company determines that the stock split or free allotment of Ordinary Shares (including the cases in which the Company transfers its own shares) thereby shall be effected by an increase of stated capital by virtue of the reduction of the amount of surplus and the record date set for the stock split or free allotment of such Ordinary Shares to shareholders falls on or prior to the date of the closing of the relevant ordinary general meeting of shareholders held to approve the increase of the stated capital, the delivery ratio after adjustment shall become effective as of the date immediately following the date on which the ordinary general meeting of shareholders approving such increase is concluded.

- (iii) In the event that the Company issues (including free allotment) securities (interests) which will be acquired by the Company in exchange for the Ordinary Shares or the stock acquisition rights to acquire Ordinary Shares, or securities (interests) which will be caused by the holder of such securities (interests) to be acquired by the Company in exchange for the Ordinary Shares, or the stock acquisition rights to acquire Ordinary Shares (including the bonds with stock acquisition rights), in either case, at a price less than the current market price to be applied to the Delivery Ratio Adjustment Formula:

The delivery ratio after adjustment shall become effective as of the date immediately following the payment date or the last date of the payment period of such securities (interests) or as of the date immediately following the record date (if set) for the issuance or the issuance of such securities (interests) to shareholders, on the assumption that all such securities (interests) are acquired or all the stock acquisition rights are exercised on the payment date or the last date of the payment period of such securities (interests) or at the close of the record date set for the issuance of such securities (interests), as the case may be.

- (b) In addition to the events set forth above, if an adjustment of the delivery ratio is required by virtue of any amalgamation or merger, capital reduction, or consolidation of shares, etc., the delivery ratio shall be adjusted to such ratio as the Board of Directors of the Company determines appropriate.
- (c) The Current market price in the Delivery Ratio Adjustment Formula means the average daily closing price (including closing bids or offered prices) of Ordinary Shares of the Company (in regular trading) as reported by the Tokyo Stock Exchange for the thirty (30) consecutive trading days (excluding a trading day or days on which no closing price or closing bid or offered price is reported) commencing on the forty-fifth (45th) trading day prior to the date on which the delivery ratio after adjustment becomes effective (or, in the case as provided for in the proviso of c. (a) (ii) above, the record date set for the stock split or free allotment of Ordinary Shares to shareholders), calculated by rounding up to the nearest hundred (100) yen when the fraction is equal to or more than fifty (50) yen, discarding amounts less than fifty (50) yen.
- (d) The Delivery ratio before adjustment in the Delivery Ratio Adjustment Formula means the delivery ratio in effect on the date immediately preceding the date on which the delivery ratio after adjustment becomes effective, and the Number of Ordinary Shares already issued in the Delivery Ratio Adjustment Formula means the number of shares of the Company issued and outstanding (excluding the number of Ordinary Shares held by the Company) on the record date (if set) for the issuance, transfer, stock split or free allotment to shareholders, or if such date is not set, on the date one (1) calendar month prior to the date on which the delivery ratio after adjustment is to become effective.

Request for Acquisition of Class 10 Preferred Shares

Any Class 10 Preferred Shareholder may request acquisition of Class 10 Preferred Shares during the period in which such Preferred Shareholder is entitled to request acquisition as provided for in Paragraph 1 of this Attachment, in exchange for Ordinary Shares of the Company in the number as is calculated by the formula provided for in Paragraph 2 and 3 of this Attachment.

1. Period during which Preferred Shareholders are Entitled to Request Acquisition
 On and after the issuance date of the Class 10 Preferred Shares to and including March 30, 2009

2. Number of Ordinary Shares to be Delivered in Exchange for Acquisition
 The number of the Ordinary Shares to be delivered in exchange for acquisition of Class 10 Preferred Shares shall be as follows:

$$\begin{array}{l} \text{Number of the Ordinary} \\ \text{Shares to be delivered in} \\ \text{exchange for acquisition} \end{array} = \begin{array}{l} \text{Number of the Class 10} \\ \text{Preferred Shares requested for} \\ \text{acquisition by their holders} \end{array} \times \text{Delivery Ratio}$$

In the calculation of the number of the Ordinary Shares to be delivered in exchange for acquisition, it shall be calculated to the third decimal place and such third decimal place shall be rounded up to the nearest second decimal place. In the calculation of the number of Ordinary Shares provided for above, if any number less than one (1) share is yielded, such fractions shall be handled by the method provided for in Article 167, Paragraph 3 of the Corporation Act.

3. Delivery Ratio and Other Conditions

a. Initial Delivery Ratio

Any Class 10 Preferred Shareholder may request acquisition of Class 10 Preferred Shares in exchange for Ordinary Shares of the Company at the following delivery ratio per Class 10 Preferred Share (hereinafter referred to as the Initial Delivery Ratio):

Initial Delivery Ratio = 2.197

b. Reset of Delivery Ratio

The Initial Delivery Ratio shall be reset on October 5 of each year from 2005 through and including 2008 (each, hereinafter referred to as the Reset Date) to such delivery ratio as calculated by the following formula (hereinafter referred to as the Delivery Ratio After Reset). The Delivery Ratio After Reset shall be calculated to the fourth decimal place and rounded up to the nearest third decimal place when the fraction beyond it is equal to or more than 0.0005, discarding fractions less than 0.0005.

2,000,000 yen

Delivery Ratio After Reset =

Current market price x 1.035

However, if any amount less than one thousand (1,000) yen is produced by the calculation of the current market price multiplied by 1.035, such amount shall be rounded up to the nearest one thousand (1,000) yen. If as a result of the above calculation the Delivery Ratio After Reset exceeds 2.197 (subject to any adjustment in accordance with c. below) (hereinafter referred to as the Delivery Ceiling Ratio), the Delivery Ratio After Reset shall be the Delivery Ceiling Ratio. The Current market price in the above formula shall be the average daily closing price (including closing bids or offered prices) of the Ordinary Shares of the Company (in regular trading) as reported by the Tokyo Stock Exchange for the thirty (30) consecutive trading days (excluding a trading day or days on which no closing price or closing bid or offered price is reported) commencing on the forty-fifth (45th) trading day prior to the relevant Reset Date, calculated by rounding up to the nearest hundred (100) yen when the fraction is equal to or more than fifty (50) yen, discarding amounts less than fifty (50) yen.

c. Adjustment of Delivery Ratio

- (a) After the issuance of the Class 10 Preferred Shares, the delivery ratio as set forth in a. and b. above will be adjusted in accordance with the following formula (hereinafter referred to as the Delivery Ratio Adjustment Formula) in the event any of the items set forth below occurs; provided, however, that if the delivery ratio calculated by the Delivery Ratio Adjustment Formula exceeds forty (40), the delivery ratio after adjustment shall be forty (40). The delivery ratio after adjustment shall be calculated to the fourth decimal place and rounded up to the nearest third decimal place when the fraction beyond it is equal to or more than 0.0005, discarding fractions less than 0.0005.

$$\begin{aligned}
 &\text{Delivery ratio after adjustment} = \frac{\text{Delivery ratio before adjustment} \times (\text{Number of Ordinary Shares already issued} + \frac{\text{Number of Ordinary Shares to be newly issued or transferred}}{\text{Current market price}})}{\text{Number of Ordinary Shares already issued} + \frac{\text{Shares to be newly issued or transferred} \times \text{Subscription price per share}}{\text{Current market price}}}
 \end{aligned}$$

- (i) In the event that the Company issues Ordinary Shares or transfers Ordinary Shares held by the Company at a subscription price less than the current market price to be used in the Delivery Ratio Adjustment Formula (except for any acquisition of securities (interests) which will be acquired by the Company in exchange for the Ordinary Shares or securities (interests) which will be caused by the holder of such securities (interests) to be acquired by the Company in exchange for the Ordinary Shares, or the exercise of stock acquisition rights):

The delivery ratio after adjustment shall become effective as of the date immediately following the payment date or the last date of the payment period, or as of the date immediately following the record date (if set) for the issuance or the transfer of such Ordinary Shares to shareholders.

- (ii) In the event that the Company splits Ordinary Shares or conducts free allotment of Ordinary Shares (including those in which the Company transfers its own shares):

The delivery ratio after adjustment shall become effective as of the date immediately following the record date set for the stock split or free allotment of such Ordinary Shares.

However, if the Board of Directors of the Company determines that the stock split or free allotment of Ordinary Shares (including the cases in which the Company transfers its own shares) thereby shall be effected by an increase of stated capital by virtue of the reduction of the amount of surplus and the record date set for the stock split or free allotment of such Ordinary Shares to shareholders falls on or prior to the date of the closing of the relevant ordinary general meeting of shareholders held to approve the increase of the stated capital, the delivery ratio after adjustment shall become effective as of the date immediately following the date on which the ordinary general meeting of shareholders approving such increase is concluded.

- (iii) In the event that the Company issues (including free allotment) securities (interests) which will be acquired by the Company in exchange for the Ordinary Shares or the stock acquisition rights to acquire Ordinary Shares, or securities (interests) which will be caused by the holder of such securities (interests) to be acquired by the Company in exchange for the Ordinary Shares, or the stock acquisition rights to acquire Ordinary Shares (including the bonds with stock acquisition rights), in either case, at a price less than the current market price to be applied to the Delivery Ratio Adjustment Formula:

The delivery ratio after adjustment shall become effective as of the date immediately following the payment date or the last date of the payment period of such securities (interests) or as of the date immediately following the record date (if set) for the issuance or the issuance of such securities (interests) to shareholders, on the assumption that all such securities (interests) are acquired or all the stock acquisition rights are exercised on the payment date or the last date of the payment period of such securities (interests) or at the close of the record date set for the issuance of such securities (interests), as the case may be.

- (b) In addition to the events set forth above, if an adjustment of the delivery ratio is required by virtue of any amalgamation or merger, capital reduction, or consolidation of shares, etc., the delivery ratio shall be adjusted to such ratio as the Board of Directors of the Company determines appropriate.
- (c) The Current market price in the Delivery Ratio Adjustment Formula means the average daily closing price (including closing bids or offered prices) of Ordinary Shares of the Company (in regular trading) as reported by the Tokyo Stock Exchange for the thirty (30) consecutive trading days (excluding a trading day or days on which no closing price or closing bid or offered price is reported) commencing on the forty-fifth (45th) trading day prior to the date on which the delivery ratio after adjustment becomes effective (or, in the case as provided for in the proviso of c. (a)(ii) above, the record date set for the stock split or free allotment of Ordinary Shares to shareholders), calculated by rounding up to the nearest hundred (100) yen when the fraction is equal to or more than fifty (50) yen, discarding amounts less than fifty (50) yen.
- (d) The Delivery ratio before adjustment in the Delivery Ratio Adjustment Formula means the delivery ratio in effect on the date immediately preceding the date on which the delivery ratio after adjustment becomes effective, and the Number of Ordinary Shares already issued in the Delivery Ratio Adjustment Formula means the number of shares of the Company issued and outstanding (excluding the number of Ordinary Shares held by the Company) on the record date (if set) for the issuance, transfer, stock split or free allotment to shareholders, or if such date is not set, on the date one (1) calendar month prior to the date on which the delivery ratio after adjustment is to become effective.

Request for Acquisition of Class 11 Preferred Shares

Any Class 11 Preferred Shareholder may request acquisition of Class 11 Preferred Shares during the period in which such Preferred Shareholder is entitled to request acquisition as provided for in Paragraph 1 of this Attachment, in exchange for Ordinary Shares of the Company in the number as is calculated by the formula provided for in Paragraph 2 and 3 of this Attachment.

1. Period during which Preferred Shareholders are Entitled to Request Acquisition
 On and after the issuance date of the Class 11 Preferred Shares to and including July 31, 2014

2. Number of Ordinary Shares to be Delivered in Exchange for Acquisition
 The number of the Ordinary Shares to be delivered in exchange for acquisition of Class 11 Preferred Shares shall be as follows:

$$\begin{array}{l} \text{Number of the Ordinary} \\ \text{Shares to be delivered in} \\ \text{exchange for acquisition} \end{array} = \frac{\begin{array}{l} \text{Number of the Class 11} \\ \text{Preferred Shares requested for} \\ \text{acquisition by their holders} \end{array} \times 1,000,000 \text{ yen}}{\text{Acquisition price}}$$

In the calculation of the number of the Ordinary Shares to be delivered in exchange for acquisition, it shall be calculated to the third decimal place and such third decimal place shall be rounded up to the nearest second decimal place. In the calculation of the number of Ordinary Shares provided for above, if any number less than one (1) share is yielded, such fractions shall be handled by the method provided for in Article 167, Paragraph 3 of the Corporation Act.

3. Acquisition Price and Other Conditions

a. Initial Acquisition Price

The initial acquisition price shall be nine hundred eighteen thousand seven hundred (918,700) yen.

b. Reset of Acquisition Price

If the average daily closing price (including closing bids or offered prices) of Ordinary Shares of the Company (in regular trading) as reported by the Tokyo Stock Exchange (any fraction less than one thousand (1,000) yen being rounded up to the nearest one thousand (1,000) yen) for thirty (30) consecutive Trading Days (Trading Day means a day on which a closing price (including closing bids or offered prices) (in regular trading) for the Ordinary Shares of the Company is reported on the Tokyo Stock Exchange) (such thirty (30) Trading Day period shall hereinafter be referred to as the Reset Calculation Period) ending on July 15 of each year from 2006 through and including 2013 (or, if any such day is not a Trading Day, the Trading Day

immediately preceding such day) (each, hereinafter referred to as the Setting Date) is at least one thousand (1,000) yen less than the acquisition price effective as of the relevant Setting Date, the acquisition price shall, effective as of the August 1 immediately following the relevant Setting Date (each, hereinafter referred to as the Effective Date), be reset to the average daily closing price as calculated in the manner set forth above.

However, if such amount so calculated is less than nine hundred eighteen thousand seven hundred (918,700) yen (subject to any adjustment in accordance with c. below) (hereinafter referred to as the Acquisition Floor Price), the acquisition price shall be equal to the Acquisition Floor Price. If, during the Reset Calculation Period, any event has occurred which would require adjustment in accordance with c. below, the average price above shall be adjusted in a manner consistent with c. below.

c. Adjustment of Acquisition Price

- (a) After the issuance of the Class 11 Preferred Shares, the acquisition price (including the Acquisition Floor Price) will be adjusted in accordance with the following formula (hereinafter referred to as the Acquisition Price Adjustment Formula) in the event any of the items set forth below occurs; provided, however, that if the acquisition price when adjusted in accordance with the Acquisition Price Adjustment Formula is less than one hundred thousand (100,000) yen, the acquisition price after adjustment shall be one hundred thousand (100,000) yen.

$$\begin{array}{rcl}
 \text{Acquisition} & & \text{Number of} \\
 \text{price after} & = & \text{Ordinary Shares} \\
 \text{adjustment} & & \text{already issued} \\

 & & \text{Current market price per share} \\
 & & + \\
 & & \text{Number of Ordinary Shares} \\
 & & \text{to be newly issued or transferred}
 \end{array}$$

- (i) In the event that the Company issues Ordinary Shares or transfers Ordinary Shares held by the Company at a subscription price less than the current market price to be used in the Acquisition Price Adjustment Formula (except for any acquisition of securities (interests) which will be acquired by the Company in exchange for the Ordinary Shares or securities (interests) which will be caused by the holder of such securities (interests) to be acquired by the Company in exchange for the Ordinary Shares, or the exercise of stock acquisition rights):

The acquisition price after adjustment shall become effective as of the date immediately following the payment date or the last date of the payment period, or as of the date immediately following the record date (if set) for the issuance or the transfer of such Ordinary Shares to shareholders.

- (ii) In the event that the Company splits Ordinary Shares or conducts free allotment of Ordinary Shares (including those in which the Company transfers its own shares):

The acquisition price after adjustment shall become effective as of the date immediately following the record date set for the stock split or free allotment of such Ordinary Shares.

However, if the Board of Directors of the Company determines that the stock split or free allotment of Ordinary Shares (including the cases in which the Company transfers its own shares) thereby shall be effected by an increase of stated capital by virtue of the reduction of the amount of surplus and the record date set for the stock split or free allotment of such Ordinary Shares to shareholders falls on or prior to the date of the closing of the relevant ordinary general meeting of shareholders held to approve the increase of the stated capital, the acquisition price after adjustment shall become effective as of the date immediately following the date on which the ordinary general meeting of shareholders approving such increase is concluded.

- (iii) In the event that the Company issues (including free allotment) securities (interests) which will be acquired by the Company in exchange for the Ordinary Shares or the stock acquisition rights to acquire Ordinary Shares, or securities (interests) which will be caused by the holder of such securities (interests) to be acquired by the Company in exchange for the Ordinary Shares, or the stock acquisition rights to acquire Ordinary Shares (including the bonds with stock acquisition rights), in either case, at a price less than the current market price to be applied to the Acquisition Price Adjustment Formula:

The acquisition price after adjustment shall become effective as of the date immediately following the payment date or the last date of the payment period of such securities (interests) or as of the date immediately following the record date (if set) for the issuance or the issuance of such securities (interests) to shareholders, on the assumption that all such securities (interests) are acquired or all the stock acquisition rights are exercised on the payment date or the last date of the payment period of such securities (interests) or at the close of the record date set for the issuance of such securities (interests), as the case may be.

- (b) In addition to the events set forth above, if an adjustment of the acquisition price (including the Acquisition Floor Price) is required by virtue of any amalgamation or merger, capital reduction, or consolidation of Ordinary Shares, etc., the acquisition price shall be adjusted to such price as the Board of Directors of the Company determines appropriate.
- (c) The Current market price per share in the Acquisition Price Adjustment Formula means the average daily closing price (including closing bids or offered prices) of Ordinary Shares of the Company (in regular trading) as reported by the Tokyo Stock Exchange for the thirty (30) consecutive trading days (excluding a trading day or days on which no closing price or closing bid or offered price is reported) commencing on the forty-fifth (45th) trading day prior to the date on which the acquisition price after adjustment becomes effective (or, in the case as provided for in the proviso of c.(a)(ii) above, the record date set for the stock split or free allotment of Ordinary Shares to shareholders), calculated by rounding up to the nearest hundred (100) yen when the fraction is equal to or more than fifty (50) yen, discarding amounts less than fifty (50) yen.

If any of the events of adjustment of acquisition price as set forth in c.(a) or (b) above occurs during the above forty-five (45) trading day period, the average price above shall be adjusted in a manner consistent with c.(a) or (b) above.

- (d) The Acquisition price before adjustment in the Acquisition Price Adjustment Formula means the acquisition price in effect on the date immediately preceding the date on which the acquisition price after adjustment becomes effective, and the Number of Ordinary Shares already issued in the Acquisition Price Adjustment Formula means the number of Ordinary Shares of the Company issued and outstanding (excluding the number of Ordinary Shares held by the Company) on the record date (if set for the issuance, transfer, stock split or free allotment to shareholders, or if such date is not set, on the date one (1) calendar month prior to the date on which the acquisition price after adjustment is to become effective.
- (e) The Subscription price per share in the Acquisition Price Adjustment Formula means (1) in the event that the Company issues or transfers Ordinary Shares with a subscription price less than the current market price as set forth in c.(a)(i) above, such subscription price (in the event that payment thereof is made by any consideration other than cash, the fair value of such consideration), (2) in the event that the Company splits Ordinary Shares or conducts free allotment of Ordinary Shares as set forth in c.(a)(ii) above (including those in which the Company transfers its own shares), zero, and (3) in the event that the Company issues (including free allotment) securities (interests) which will be acquired by the Company in exchange for the Ordinary Shares or the stock acquisition rights to acquire Ordinary Shares, securities (interests) which will be caused by the holder of such securities (interests) to be acquired by the Company in exchange for the Ordinary Shares, or the stock acquisition rights to acquire Ordinary Shares (including the bonds with stock acquisition rights) at a price less than the current market price as set forth in c.(a)(iii) above, the relevant acquisition or exercise price.
- (f) The result of the calculation by the Acquisition Price Adjustment Formula shall be rounded up to the nearest hundred (100) yen when the fraction is equal to or more than fifty (50) yen, discarding amounts less than fifty (50) yen.
- (g) In the event that the difference between the acquisition price after adjustment calculated by the Acquisition Price Adjustment Formula and the acquisition price before adjustment is less than one thousand (1,000) yen, no adjustment shall be made; provided, however, that if any event occurs thereafter that would require adjustment of the acquisition price, when calculating the acquisition price, such difference shall be deducted from the acquisition price before adjustment in the Acquisition Price Adjustment Formula.

(Attachment 5)

Request for Acquisition of Class 12 Preferred Shares

Any Class 12 Preferred Shareholder may request acquisition of Class 12 Preferred Shares during the period in which such Preferred Shareholder is entitled to request acquisition as provided for in Paragraph 1 of this Attachment, in exchange for Ordinary Shares of the Company in the number as is calculated by the formula provided for in Paragraph 2 and 3 of this Attachment.:

1. Period during which Preferred Shareholders are Entitled to Request Acquisition
 On and after the issuance date of the Class 12 Preferred Shares to and including July 31, 2009

2. Number of Ordinary Shares to be Delivered in Exchange for Acquisition
 The number of the Ordinary Shares to be delivered in exchange for acquisition of Class 12 Preferred Shares shall be as follows:

$$\begin{array}{l} \text{Number of the Ordinary} \\ \text{Shares to be delivered in} \\ \text{exchange for acquisition} \end{array} = \begin{array}{l} \text{Number of the Class 12} \\ \text{Preferred Shares requested for} \\ \text{acquisition by their holders} \end{array} \times \begin{array}{l} \\ \\ \text{Acquisition price} \end{array} \quad 1,000,000 \text{ yen}$$

In the calculation of the number of the Ordinary Shares to be delivered in exchange for acquisition, it shall be calculated to the third decimal place and such third decimal place shall be rounded up to the nearest second decimal place. In the calculation of the number of Ordinary Shares provided for above, if any number less than one (1) share is yielded, such fractions shall be handled by the method provided for in Article 167, Paragraph 3 of the Corporation Act.

3. Acquisition Price and Other Conditions

a. Initial Acquisition Price

The initial acquisition price shall be seven hundred ninety-six thousand (796,000) yen.

b. Reset of Acquisition Price

If the Average AQR Price (defined below) of Ordinary Shares of the Company as reported by the Tokyo Stock Exchange for thirty (30) consecutive Trading Days (Trading Day means a day on which the last sale price (in regular trading) for the Ordinary Shares of the Company is reported on the Tokyo Stock Exchange) (such thirty Trading Day period shall hereinafter be referred to as the Reset Calculation Period) ending on June 15 of each year from 2006 through and including 2008 (or, if any such day is not a Trading Day, the Trading Day immediately preceding such day) (each, hereinafter referred to as the Setting Date) is at least one thousand (1,000) yen less than the acquisition price effective as of the relevant Setting Date, the acquisition price shall, effective as of June 30 immediately following the relevant Setting Date (each, hereinafter referred to as the Effective Date), be reset to the Average AQR Price as calculated in the manner set forth above.

However, if such amount so calculated is less than seven hundred ninety-six thousand (796,000) yen (subject to any adjustment in accordance with c. below) (hereinafter referred to as the Acquisition Floor Price), the acquisition price shall be equal to the Acquisition Floor Price.

The Average AQR Price of Ordinary Shares of the Company means the arithmetic mean (calculated by the Company and any fraction less than one thousand (1,000) yen being rounded up to the nearest one thousand (1,000) yen) of (x) the daily weighted average price of Ordinary Shares of the Company as reported by the Tokyo Stock Exchange on each Trading Day during the Reset Calculation Period, which weighted average price is announced on such page as designated by Bloomberg L.P. on its screen entitled JT Equity AQR to show the weighted average price of Ordinary Shares of the Company as reported by the Tokyo Stock Exchange, or such other page or service as may replace such page (hereinafter collectively referred to as the Reference Screen), provided by Bloomberg L.P. between 10:00 a.m. and 11:00 a.m. (London time), or (y) if the relevant Reference Screen is not available in respect of any aforementioned Trading Day, the last sale price (in regular trading) of Ordinary Shares of the Company as reported by the Tokyo Stock Exchange for that Trading Day, in each case subject to any adjustment which becomes effective during the Reset Calculation Period in accordance with c. below.

c. Adjustment of Acquisition Price

- (a) After the issuance of the Class 12 Preferred Shares, the acquisition price (including the Acquisition Floor Price) will be adjusted in accordance with the following formula (hereinafter referred to as the Acquisition Price Adjustment Formula) in the event any of the items set forth below occurs; provided, however, that if the acquisition price when adjusted in accordance with the Acquisition Price Adjustment Formula is less than one hundred thousand (100,000) yen, the acquisition price after adjustment shall be one hundred thousand (100,000) yen.

$$\begin{array}{rcl}
 \text{Acquisition price after adjustment} & = & \text{Acquisition price before adjustment} \times \left(\frac{\text{Number of Ordinary Shares already issued} + \text{Number of Ordinary Shares to be newly issued or transferred}}{\text{Number of Ordinary Shares already issued} + \text{Number of Ordinary Shares to be newly issued or transferred}} \right) \\
 & & \times \left(\frac{\text{Number of Ordinary Shares to be newly issued or transferred} \times \text{Subscription price per share} + \text{Current market price per share}}{\text{Number of Ordinary Shares to be newly issued or transferred} + \text{Current market price per share}} \right)
 \end{array}$$

- (i) In the event that the Company issues Ordinary Shares or transfers Ordinary Shares held by the Company at a subscription price less than the current market price to be used in the Acquisition Price Adjustment Formula (except for any acquisition of securities (interests) which will be acquired by the Company in exchange for the Ordinary Shares or securities (interests) which will be caused by the holder of such securities (interests) to be acquired by the Company in exchange for the Ordinary Shares, or the exercise of stock acquisition rights):

The acquisition price after adjustment shall become effective as of the date immediately following the payment date or the last date of the payment period, or as of the date immediately following the record date (if set) for the issuance or the transfer of such Ordinary Shares to shareholders.

- (ii) In the event that the Company splits Ordinary Shares or conducts free allotment of Ordinary Shares (including those in which the Company transfers its own shares):

The acquisition price after adjustment shall become effective as of the date immediately following the record date set for the stock split or free allotment of such Ordinary Shares.

However, if the Board of Directors of the Company determines that the stock split or free allotment of Ordinary Shares (including the cases in which the Company transfers its own shares) thereby shall be effected by an increase of stated capital by virtue of the reduction of the amount of surplus and the record date set for the stock split or free allotment of such Ordinary Shares to shareholders falls on or prior to the date of the closing of the relevant ordinary general meeting of shareholders held to approve the increase of the stated capital, the acquisition price after adjustment shall become effective as of the date immediately following the date on which the ordinary general meeting of shareholders approving such increase is concluded.

- (iii) In the event that the Company issues (including free allotment) securities (interests) which will be acquired by the Company in exchange for the Ordinary Shares or the stock acquisition rights to acquire Ordinary Shares, or securities (interests) which will be caused by the holder of such securities (interests) to be acquired by the Company in exchange for the Ordinary Shares, or the stock acquisition rights to acquire Ordinary Shares (including the bonds with stock acquisition rights), in either case, at a price less than the current market price to be applied to the Acquisition Price Adjustment Formula:

The acquisition price after adjustment shall become effective as of the date immediately following the payment date or the last date of the payment period of such securities (interests) or as of the date immediately following the record date (if set) for the issuance or the issuance of such securities (interests) to shareholders, on the assumption that all such securities (interests) are acquired or all the stock acquisition rights are exercised on the payment date or the last date of the payment period of such securities (interests) or at the close of the record date set for the issuance of such securities (interests), as the case may be.

- (b) In addition to the events set forth above, if an adjustment of the acquisition price (including the Acquisition Floor Price) is required by virtue of any amalgamation or merger, capital reduction, or consolidation of Ordinary Shares, etc., the acquisition price shall be adjusted to such price as the Board of Directors of the Company determines appropriate.

- (c) The Current market price per share in the Acquisition Price Adjustment Formula means the average daily closing price (including closing bids or offered prices) of Ordinary Shares of the Company (in regular trading) as reported by the Tokyo Stock Exchange for the thirty (30) consecutive trading days (excluding a trading day or days on which no closing price or closing bid or offered price is reported) commencing on the forty-fifth (45th) trading day prior to the date on which the acquisition price after adjustment becomes effective (or, in the case as provided for in the proviso of c.(a)(ii) above, the record date set for the stock split or free allotment of Ordinary Shares to shareholders), calculated by rounding up to the nearest hundred (100) yen when the fraction is equal to or more than fifty (50) yen, discarding amounts less than fifty (50) yen.

If any of the events of adjustment of acquisition price as set forth in c.(a) or (b) above occurs during the above forty-five (45) trading day period, the average price above shall be adjusted in a manner consistent with c.(a) or (b) above.

- (d) The Acquisition price before adjustment in the Acquisition Price Adjustment Formula means the acquisition price in effect on the date immediately preceding the date on which the acquisition price after adjustment becomes effective, and the Number of Ordinary Shares already issued in the Acquisition Price Adjustment Formula means the number of Ordinary Shares of the Company issued and outstanding (excluding the number of Ordinary Shares held by the Company) on the record date (if set for the issuance, transfer, stock split or free allotment to shareholders, or if such date is not set, on the date one (1) calendar month prior to the date on which the acquisition price after adjustment is to become effective.
- (e) The Subscription price per share in the Acquisition Price Adjustment Formula means (1) in the event that the Company issues or transfers Ordinary Shares with a subscription price less than the current market price as set forth in c.(a)(i) above, such subscription price (in the event that payment thereof is made by any consideration other than cash, the fair value of such consideration), (2) in the event that the Company splits Ordinary Shares or conducts free allotment of Ordinary Shares as set forth in c.(a)(ii) above (including those in which the Company transfers its own shares), zero, and (3) in the event that the Company issues (including free allotment) securities (interests) which will be acquired by the Company in exchange for the Ordinary Shares or the stock acquisition rights to acquire Ordinary Shares, securities (interests) which will be caused by the holder of such securities (interests) to be acquired by the Company in exchange for the Ordinary Shares, or the stock acquisition rights to acquire Ordinary Shares (including the bonds with stock acquisition rights) at a price less than the current market price as set forth in c.(a)(iii) above, the relevant acquisition or exercise price.
- (f) The result of the calculation by the Acquisition Price Adjustment Formula shall be rounded up to the nearest hundred (100) yen when the fraction is equal to or more than fifty (50) yen, discarding amounts less than fifty (50) yen.

- (g) In the event that the difference between the acquisition price after adjustment calculated by the Acquisition Price Adjustment Formula and the acquisition price before adjustment is less than one thousand (1,000) yen, no adjustment shall be made; provided, however, that if any event occurs thereafter that would require adjustment of the acquisition price, when calculating the acquisition price, such difference shall be deducted from the acquisition price before adjustment in the Acquisition Price Adjustment Formula.
