1. Notes to consolidated financial information

(1) Adoption of simplified accounting method:

The allowance for credit losses and the others partially adopt the simplified accounting methods.

The allowance for credit losses is stated based on the following:

For a part of claims to debtors whose internal credit ratings are not changed from that as of the previous fiscal year, it is calculated using the loss ratios on the claims as of the previous fiscal year, etc.

For a part of claims to debtors whose internal credit ratings are changed from that as of the previous fiscal year, it is calculated using the loss ratios on the claims as of the previous fiscal year based on the internal credit ratio as of June 30, 2006, etc.

A part of assets is stated based on actual amounts as of the previous fiscal year, etc.

(2) Change in accounting policies:

Please refer to the footnote of 2. Consolidated Statements of Income on page 5.

(3) Change in scope of consolidation and application of the equity method:

Consolidated subsidiaries:

Affiliated companies accounted for by the equity method:

Notes:

- Percentages represent rate of change from the previous first quarter or the previous fiscal year.
- The first quarter ended June 30, 2005 refers to the consolidated results of former Mitsubishi Tokyo Financial Group.

Qualitative information related to the consolidated operating results:

With respect to the economic environment between April and June 2006, overseas economies showed steady signs of economic growth. Meanwhile, stock prices worldwide sharply fell due to fears of inflation in the United States, which was partially due to the rise in oil prices. Similarly, the Japanese economy showed steady signs of economic growth, led by the steady increase in exports, domestic capital expenditures and private consumption, and the consumer price index followed a positive trend. During the period, stock prices in Japan also decreased.

Regarding the financial environment between April and June 2006, in the United States, the target for the federal funds rate was raised in May and June to 5.25%. Similarly, in the EU, the European Central Bank's policy rate was raised to 2.75% in June. Meanwhile, in Japan, the Bank of Japan ended its quantitative easing policy, and short-term interest rates showed some signs of an increase. Regarding long-term interest rates, the yield on ten-year Japanese government bonds fluctuated in a wide range due to overseas interest rate movements and speculation regarding the monetary policy of the Bank of Japan. In the foreign exchange markets, the yen fluctuated in a wide range between 108 yen to 118 yen per US Dollar, as the US Dollar weakened at times due to the US trade deficit, while at other times the US Dollar strengthened due to fears of continuing interest rate hikes in the United States.

Amidst this environment, for the three months ended June 30, 2006, MUFG's ordinary income was ¥1,312.3 billion, an increase of 106.5% compared to the first quarter ended June 30, 2005, ordinary profit was ¥321.7 billion, an increase of 113.9% compared to the first quarter ended June 30, 2005, and net income was ¥219.5 billion, an increase of 126.6% compared to the first quarter ended June 30, 2005.

Notes:

- Item name and calculation method of above reference marks as Total net assets, Total net assets as a percentage of total assets and Total net assets per common share are revised from this first quarter in accordance with enforcement of the new company law in Japan and others (Those figures as of June 30, 2005 and March 31, 2006 are stated with old measures). Total net assets is a modification of Shareholders equity and existing Shareholders equity of this first quarter is 7,167,144 million yen. While Total net assets as a percentage of total assets and Total net assets per common share are modifications of Shareholders equity as a percentage of total liabilities, minority interest and shareholders equity and Shareholders equity per common share respectively, effect of this modifications to the numbers of the reference marks is minor. Please refer to next page for the formulas for calculating the reference marks.
- Please refer to page 15 for Consolidated risk-adjusted capital ratio based on the standards of the BIS.

Qualitative information related to the consolidated financial condition:

Total assets decreased by ¥7,554.5 billion from ¥187,046.7 billion at March 31, 2006 to ¥179,492.1 billion at June 30, 2006, and total net assets decreased by ¥828.7 billion to ¥8,997.5 billion compared to the aggregate amount of minority interest and shareholders equity at March 31, 2006.

Regarding the change in balance of total net assets, though retained earnings increased, total net assets decreased mainly because net deferred losses on hedge transactions of ¥149.0 billion was reported for the three months ended June 30, 2006 (For the previous fiscal years, the amounts were recorded both in the Assets and Liabilities sections), treasury stock increased by ¥288.4 billion due to the repayment of public funds etc, and net unrealized gains (losses) on securities available for sale decreased by ¥443.6 billion due to a decrease of valuation differences of stock.

Investment securities decreased by ¥1,653.3 billion from ¥48,508.9 billion at March 31, 2006 to ¥46,855.5 billion at June 30, 2006. Loans and bills discounted decreased by ¥659.0 billion from ¥85,763.1 billion at March 31, 2006 to ¥85,104.0 billion at June 30, 2006. Deposits decreased by ¥2,539.5 billion from ¥118,988.0 billion at March 31, 2006 to ¥116,448.5 billion at June 30, 2006.

This financial summary report and the accompanying financial highlights contain forward-looking statements regarding estimation, forecast, target and plan in relation to the results of operations, financial conditions and other general management of the company and/or the group as a whole (the forward-looking statements). The forward-looking statements are made based upon, among other things, the company's current estimations, perceptions and evaluations. In addition, in order for the company to adopt such estimation, forecast, target and plan regarding future events, certain assumptions have been made. Accordingly, the statements and assumptions are inherently not guarantees of future performance and may result in inaccuracy from an objective point of view and in material differences from the actual result. For instance, the estimation and forecast regarding the company is based on the assumption that the business integration plan with the former UFJ Holdings Group will be implemented smoothly. Also, the statements regarding collectibility of the deferred tax assets are based on estimation and other assumptions such as our business plan and the premises thereof, and exemplify such situation as above. There exist a number of factors that might lead to uncertainties and risks. For the main matters that may be currently forecasted, please see the financial highlight, the Annual Securities Report, Disclosure Book, and Annual Report, and other current disclosures that the company announced.

Note:

As for trust fees of our domestic trust banking subsidiaries, timing of revenue recognition is changed from this first quarter. In previous fiscal terms, in principle, the fees had been recognized as revenue at the end of calculation period of the trust contracts. From this first quarter, in order to make more appropriate periodic accounting of profit and loss in accordance with recent improvement of information disclosure system, the fees became recognized as revenue on accrual basis along with elapse of calculation period of the trust contracts other than trust fees whose calculation methods were not based on calculation period of trust contracts or balance of entrusted assets. This change became able to be made by development of the calculation system of the subsidiaries in this first quarter which made it possible that the accrual accounting of the fees based on calculation period of trust contracts or balance of entrusted assets.

Edgar Filing: MITSUBISHI UFJ FINANCIAL GROUP INC - Form 6-K

This change causes an increase of 19,354 million yen in Ordinary income , Ordinary profit and Income before income taxes and others respectively, compared to the previous revenue recognition method.
