Notes to Consolidated Financial Statements

Note 1 Reporting and Accounting Policies

The accompanying Consolidated Financial Statements are unaudited and should be read in conjunction with Infinity Property and Casualty Corporation s (Infinity or the Company) Annual Report on Form 10-K for the year ended December 31, 2005. This Quarterly Report on Form 10-Q, including the Notes to the Consolidated Financial Statements and Management s Discussion and Analysis of Financial Condition and Results of Operations, focuses on Infinity s financial performance since the beginning of the year.

These financial statements reflect certain adjustments necessary for a fair presentation of Infinity s results of operations and financial position. Such adjustments consist of normal, recurring accruals recorded to accurately match expenses with their related revenue streams and the elimination of all significant inter-company transactions and balances.

Certain accounts and balances within these financial statements are based upon management sestimates and assumptions. The amount of reserves for claims not yet paid, for example, is an item that can only be recorded by estimation. Unrealized capital gains and losses on investments are subject to market fluctuations, and managerial judgment is required in the determination of whether unrealized losses on certain securities are temporary or other-than-temporary. Should actual results differ significantly from these estimates, the effects on Infinity s results of operations could be material. The results of operations for the periods presented may not be indicative of the Company s results for the entire year.

Reclassifications

In addition, certain reclassification adjustments have been made to historical results to achieve consistency in presentation.

Effective January 1, 2006, as discussed in the Management s Discussion and Analysis of Financial Condition and Results of Operations in the Company s Annual Report on Form 10-K, Infinity began including in the GAAP combined ratio corporate litigation expense on losses (except for class action lawsuits) and bad debt charge-offs on agents balances and premiums receivable. The reclassification of corporate litigation expense on losses for the three-month and six-month periods ending June 30, 2005 was \$1.6 million and \$7.3 million, respectively, which is reflected in the Consolidated Statements of Earnings as a decrease in other expenses and an increase in losses and loss adjustment expenses (LAE), and \$6.6 million and \$14.2 million, respectively, reflected in the Consolidated Statements of Cash Flows for the corresponding periods ended June 30, 2005 between change in insurance claims and reserves and change in other liabilities. The reclassification also included other immaterial amounts reflected in the Consolidated Balance Sheets and Statements of Cash Flows for the same periods. The reclassification of bad debt charge-offs on agents balances and premiums receivable for the three-month and six-month periods ending June 30, 2005 was \$5.6 million and \$8.6 million, respectively, which is reflected in the Consolidated Statements of Earnings as a decrease in other expenses and an increase in commissions and other underwriting expenses. Neither reclassification impacted the current period or any previously presented period net earnings, shareholders equity or net cash provided by operating activities.

New Accounting Standards

Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes, an interpretation of Statement of Financial Accounting Standard No. 109 (SFAS 109), was issued by the FASB in June 2006 effective for fiscal years beginning after December 15, 2006. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise s financial statements in accordance with SFAS 109. SFAS 109 does not prescribe a recognition threshold or measurement attribute for the financial statement recognition and measurement of a tax position taken in a tax return. Additionally, FIN 48 provides guidance on measurement, derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. We will adopt the provisions of FIN 48 effective January 1, 2007. We have not yet determined the impact of the adoption of FIN 48 on our financial position or results of operation.

Note 2 Share-Based Compensation

On January 1, 2006, the Company adopted Statement of Financial Accounting Standards No. 123 (revised 2004), Share-Based Payment (SFAS 123(R)). SFAS 123(R) requires the measurement and recognition of compensation expense for all share-based payment awards made to employees and directors including employee stock options and employee stock purchases related to the Employee Stock Purchase Plan (ESPP) based on estimated fair values. SFAS 123(R) supersedes the Company s previous accounting under Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees (APB 25), for periods beginning in fiscal 2006. In accordance with the modified prospective

transition method as set forth in SFAS 123(R), the Company s Consolidated Financial Statements for prior periods have not been restated to reflect, and do not include, the impact of compensation expense for all share-based payment awards. As previously allowed under APB 25, no share-based compensation expense related to employee stock options and employee stock purchases was recognized during the six months of 2005.

As permitted by SFAS 123(R), the Company used the Black-Scholes model to estimate the value of employee stock options on the date of grant, though no options have been granted since the Company adopted SFAS 123(R). Prior to the adoption of SFAS 123(R), the value of each employee stock option was estimated on the date of grant using the Black-Scholes model for the purpose of the pro-forma financial information in accordance with SFAS 123. The determination of fair value of share-based payment awards on the date of grant using an option-pricing model is affected by the Company s stock price as well as assumptions regarding a number of highly complex and subjective variables. These variables include, but are not limited to, the expected stock price volatility over the term of the awards and projected employee stock option exercise behavior.

Restricted Stock Plans

Infinity s Restricted Stock Plan was established in 2002. There were 500,000 shares of Infinity common stock reserved for issuance under the Restricted Stock Plan, of which 134,375 shares have been issued as of June 30, 2006. The fair value of shares issued under Infinity s Restricted Stock Plan is recorded as unearned compensation and expensed over the vesting periods of the awards. In February 2006, 44,792 shares of restricted stock vested under Infinity s Restricted Stock Plan. Consequently, as of June 30, 2006 the Company had no unvested restricted stock outstanding and therefore no related unearned compensation.

In May 2005, Infinity s shareholders approved the Non-Employee Directors Stock Ownership Plan (Directors Plan). There were 200,000 shares of Infinity common stock reserved for issuance under the Directors Plan, of which 6,895 shares have been issued as of June 30, 2006. The purpose of the Directors Plan is to include Infinity common stock as part of the compensation provided to its non-employee directors. Under the terms of the Directors Plan, shares are granted on or about June 1 of each year and are restricted from sale or transfer by any recipient for six months from the date of grant. On June 1, 2006, a total of 2,990 shares of Infinity common stock, valued pursuant to the plan at \$125,000, were issued to Infinity s non-employee directors.

Notes to Consolidated Financial Statements

Employee Stock Purchase Plan

Infinity established the Employee Stock Purchase Plan in 2004. Under this plan, all eligible full-time employees may purchase shares of Infinity common stock at a 15% discount to the current market price. Employees may allocate up to 25% of their base salary with a maximum annual participation amount of \$25,000. The source of shares issued to participants is treasury shares and/or authorized but previously unissued shares. The maximum number of shares which may be issued under the ESPP may not exceed 1,000,000, of which 15,606 have been issued as of June 30, 2006. Infinity s ESPP is qualified under Section 423 of the Internal Revenue Code of 1986, as amended. The 15% discount approximated \$10,000 and \$22,000 for the three-month and six-month periods ended June 30, 2006, respectively, and was recognized as compensation expense in the Consolidated Statements of Earnings in each period. Participants shares are issued and outstanding for earnings per share calculations.

Stock Option Plan

Infinity s Stock Option Plan was established in 2002 with 2,000,000 shares of Infinity common stock reserved for issuance under the Stock Option Plan. Through June 30, 2006, net of forfeitures, 615,280 options have been issued. The plan allows forfeited options to be reissued. Options, which have a 10-year contractual life, generally become exercisable at the rate of 20% per year commencing one year after grant.

The following chart describes activity for Infinity s Stock Option Plan for the six month period ending June 30, 2006:

Note 4 Long-Term Debt

In February 2004, Infinity issued \$200 million principal of senior notes due February 2014 (the Senior Notes). The Senior Notes accrue interest at an effective yield of 5.55% and bear a coupon of 5.5%, payable semiannually. At the time the Senior Notes were issued, Infinity capitalized \$2.1 million of debt issuance costs, which are being amortized over the term of the Senior Notes. The June 30, 2006 fair value for the Senior Notes of \$186.5 million was calculated using a 150 basis point spread to the ten-year U.S. Treasury Note of 5.14%, which was obtained from Bloomberg, a national broker quotation network.

In August 2005, Infinity entered into an agreement for a \$50 million three-year revolving credit facility that includes requirements to meet certain financial and other covenants. Infinity is currently in compliance with all covenants under the agreement. Under this agreement, there were no borrowings outstanding at June 30, 2006.
