Yes No

This Form 6-K contains forward-looking statements within the meaning of the Securities Exchange Act of 1934 as amended, and information that is based on management's beliefs as well as assumptions made by and information currently available to management. When used in this Form 6-K, the words anticipate, approach, begin, believe, continue, expect, forecast, going forward, improved, likely, look forward, outlook, plans, potential, proposal, should and would and similar expressions are intended to identify forward-looking statements. These forward-looking statements necessarily make assumptions, some of which are inherently subject to uncertainties and contingencies that are beyond the Company's control. Should one or more of these uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, expected, estimated or projected. Specifically, the ability of the Company to realize its ongoing commitment to increasing shareholder value through its ongoing restructuring, asset dispositions, strategic review and implementation, and cost cutting initiatives, may be affected by many factors including: uncertainties and contingencies such as economic conditions both in the world and in those areas where the Company has or will have substantial operations; foreign currency exchange rates; pricing pressures on

Ansell's Financial Overview

Ansell's Financial Overview

Ansell had mixed results in F 06 after several strong years, but continues to have solid fundamentals:

Operationally:

Sales growth was the highest in 8 years while EBIT was pulled down by latex

Margins of Non-latex

products, which account for 52% of sales, remained strong

The Balance Sheet is healthy with low gearing and high interest coverage

Free Cash Flow generation capability remains good

EPS commitments were met, albeit with tax reduction benefits

Structurally:

The balanced capital management strategy continued to be executed. Surplus cash was distributed via higher dividends (\$22.5M) and another share buy-back (\$76.1M)

A total of \$307.8 M has now been distributed to our owners between F 04

F 06 (80% via

share buybacks)

Ansell also made its first acquisition in 6 years spending \$18.5M for 75% of Jissbon

SPT, the last of the non-healthcare legacy businesses, was sold and \$92M received
