-

**Item 8.01. Other Events.**

On December 11, 2006, Agile Software Corporation, a Delaware corporation, (the "Company") issued a press release announcing it has been notified that a shareholder derivative lawsuit was filed in the United States District Court for the Northern District of California on December 5, 2006, naming the Company as a nominal defendant and also naming as defendants certain of the Company's officers and directors. The lawsuit makes claims with respect to the Company's awarding of stock option grants, alleging that backdated stock options were granted by the Company from April 2000 through May 2002. Agile previously announced that a Special Committee was reviewing the Company's historical stock option grant practices and related accounting. That review is still underway. The Company's board of directors and management intends to review the allegations of the lawsuit and will address the matter and respond in a manner it considers to be in the best interests of the shareholders.
