Item 5.02. Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.***Officer Stock Option Amendments for Section 409A Cure***

Section 409A of the Internal Revenue Code imposes significant additional taxes on stock options granted with an exercise price lower than the fair market value on the date of grant that vest after December 31, 2004. We have determined that the exercise prices of certain options previously granted to our current and former officers were granted at less than the fair market value of our common stock at the time of such grants (the Officer Options). Unless the Officer Options are modified on or before December 31, 2006, pursuant to Section 409A, significant additional taxes could be imposed on the Officer Options. As a result, we have offered to amend the unexercised Officer Options to effect a cure permissible under Section 409A. This cure can be effected either by increasing the exercise prices to the fair market values on the dates the Officer Options were granted or by limiting the time period in which exercises can be made to a specific calendar year.

The following executive officers of Power Integrations have agreed to amend some of the outstanding unexercised Officer Options held by them by increasing the options' exercise prices as set forth below. Modified exercise prices are equal to the closing price on the Nasdaq Global Market of our common stock on the date we have determined to be the revised measurement date of the applicable option under the methodology we intend to use to restate our financial statements that we will include in our Annual Report on Form 10-K for the year ended December 31, 2005. These option amendments are as follows:

Optionee	Number of Unexercised Shares	Original Exercise Price	Modified Exercise Price
John Tomlin	19,401	\$17.75	\$18.95
Clifford J. Walker	23,438	\$17.75	\$18.95
Bruce Renouard	23,438	\$17.75	\$18.95
