SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2006

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 001-13585

THE FIRST AMERICAN CORPORATION

(Exact name of registrant as specified in its charter)

Incorporated in California
(State or other jurisdiction of

incorporation or organization)

95-1068610
(I.R.S. Employer

Identification No.)

1 First American Way, Santa Ana, California
(Address of principal executive offices)

(714) 250-3000

92707-5913
(Zip Code)

Edgar Filing: FIRST AMERICAN CORP - Form 10-Q

(Registrant's telephone number, including area code)

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark if the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated Filer Non-accelerated filer

Indicate by check mark if the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

APPLICABLE ONLY TO ISSUERS INVOLVED IN BANKRUPTCY

PROCEEDINGS DURING THE PRECEDING FIVE YEARS:

Indicate by check mark whether the registrant has filed all documents and reports to be filed by Section 12,13 or 15(d) of the Securities Exchange Act of 1934 subsequent to the distribution of securities under a plan confirmed by a court. Yes No

APPLICABLE ONLY TO CORPORATE ISSUERS:

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

On December 29, 2006, there were 96,483,510 Common shares outstanding.

THE FIRST AMERICAN CORPORATION

AND SUBSIDIARY COMPANIES

Notes to Condensed Consolidated Financial Statements

(Unaudited)

Note 1 - Basis of Condensed Consolidated Financial Statements

The condensed consolidated financial information included in this report has been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Securities and Exchange Commission (SEC) Form 10-Q and Article 10 of SEC Regulation S-X. The principles for condensed interim financial information do not require the inclusion of all the information and footnotes required by generally accepted accounting principles for complete financial statements. Therefore, these financial statements should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2005. The condensed consolidated financial statements included herein are unaudited; however, in the opinion of management, they contain all normal recurring adjustments necessary for a fair statement of the consolidated results for the interim periods. Prior year results have been restated as explained below in Note 2.

Note 2 - Restatement of Consolidated Financial Statements

On August 9, 2006, the Company announced that its Audit Committee formed a special subcommittee comprised solely of independent directors to conduct a thorough review of the Company's stock option grant program. The independent committee retained independent outside counsel who retained forensic accountants to assist it in conducting its review.

On August 10, 2006, the Company filed a Notification of Inability to Timely File its Quarterly Report on Form 10-Q for the quarter ended June 30, 2006 and indicated that the Company would not be able to file such Quarterly Report in the extended time period for filing provided by Rule 12b-25 under the Securities Exchange Act of 1934, as amended, due to the ongoing review of the Company's stock option grant program.

On August 11, 2006, the Company received a waiver, dated as of August 9, 2006, from a majority of lenders under the Company's \$500 million credit facility of the breach created by the Company's inability to timely file its quarterly report on Form 10-Q for June 30, 2006, due to the ongoing review of the Company's stock option grant program.

On November 3, 2006, the Company entered into an Amendment No. 1 and Waiver with the lenders under the Company's \$500 million credit facility, amending the Restated Credit Agreement dated as of November 7, 2005 and waiving the breach created by the Company's inability to timely file its quarterly reports on Form 10-Q for the fiscal quarters ended June 30 and September 30, 2006 due to the ongoing review of the Company's stock option grant program.

On November 13, 2006, the Company filed a Notification of Inability to Timely File its Quarterly Report on Form 10-Q for the quarter ended September 30, 2006 and indicated that the Company would not be able to file such Quarterly Report in the extended time period for filing provided by Rule 12b-25 under the Securities Exchange Act of 1934, as amended, due to the ongoing review of the Company's stock option grant program.

On January 4, 2007, the Company announced that the special subcommittee of its Audit Committee completed its review of the Company's historical stock option granting practices and related tax and accounting matters. In the course of its four month review, the special subcommittee conducted an extensive investigation and evaluated all option grants made under the Company's 1996 Stock Option Plan, 1997 Director's Stock Plan and 2006 Incentive Compensation Plan. The special subcommittee determined that the Company used incorrect measurement dates for financial reporting purposes with respect to a number of stock option grants made between 1996 and 2006 and improperly accounted for the mispriced options under Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees and FAS 123R, Share-Based Payment. As a result, the cumulative impact to the Company's financial results over this period totaled approximately \$35.7 million, the majority of which is non-cash in nature. The special subcommittee determined that these errors were the result of date selection methods, internal control deficiencies and the misapplication of technical accounting provisions. The special subcommittee did not find that these errors were the result of fraud, self-interest on the part of management or members of the Board of Directors or intent to misstate the Company's financial statements.

Edgar Filing: FIRST AMERICAN CORP - Form 10-Q

The Company believes that the impact of the above referenced error is immaterial to all prior periods. However, the cumulative amount would be material to 2006 if corrected in the current year and, therefore, the Company will restate its financial statements for the years 2001 through 2005, each quarter in 2005 and the first quarter of 2006. All restatements will

Table of Contents

be reflected in this filing and future filings. The effect of this restatement on the years 2001 through 2005 is a reduction in net income of approximately \$5.3 million, \$4.5 million, \$4.1 million, \$3.3 million and \$4.9 million, respectively, representing an estimated percentage to net income previously reported of 3.2%, 1.9%, 0.9%, 0.9% and 1.0%, respectively. The effect of this restatement on the first, second, third and fourth quarters of 2005 and the first quarter of 2006 is a reduction in net income of approximately \$1.7 million, \$1.3 million, \$1.1 million, \$0.9 million and \$1.9 million, respectively, resulting in a change to net income previously reported of approximately 2.1%, 0.9%, 0.7%, 0.8% and 2.7%, respectively.

The following tables set forth the effects of the restatement on certain line items within the Company's consolidated statements of income and comprehensive income for the three and nine months ended September 30, 2005 (in thousands except per share amounts):

	Three Months Ended		Nine Months Ended	
	September 30, 2005 (as reported)	September 30, 2005 (as restated)	September 30, 2005 (as reported)	September 30, 2005 (as restated)
Salaries and other personnel costs	\$ 628,559	\$ 629,012	\$ 1,778,531	\$ 1,780,071
Other operating expenses	\$ 460,366	\$ 461,064	\$ 1,237,713	\$ 1,240,415
Interest	\$ 15,468	\$ 15,647	\$ 39,196	\$ 39,603

Retained earnings	\$ 2,165,718	\$ 2,130,159	\$ 2,113,266	\$ 2,078,969
Accounts payable and accrued liabilities	\$ 833,674	\$ 840,817	\$ 1,021,554	\$ 1,027,893
Deferred income taxes	\$ 30,085	\$ 23,576	\$ 18,534	\$ 13,009

Note 3 Escrow Deposits

The Company administers escrow deposits as a service to its customers. Escrow deposits totaled \$7.4 billion and \$6.2 billion at September 30, 2006 and December 31, 2005, respectively, of which \$671.8 million and \$639.9 million were held at the Company's trust and thrift division. The escrow deposits held at the Company's trust and thrift division are included in the accompanying consolidated balance sheets, with \$142.1 million and \$75.6 million included in cash and cash equivalents and \$529.6 million and \$564.3 million included in debt securities at September 30, 2006 and December 31, 2005, respectively. The remaining escrow deposits were held at third party financial institutions. Trust deposits totaled \$3.2 billion and \$3.0 billion at September 30, 2006 and December 31, 2005, respectively and were held at the Company's trust division. Escrow deposits held at third party financial institutions and trust deposits are not considered assets of the Company and, therefore, are not included in the accompanying consolidated balance sheets. However, the Company remains contingently liable for the disposition of these assets.

Table of Contents**Note 4 Goodwill**

A reconciliation of the changes in the carrying amount of goodwill, by operating segment, for the nine months ended September 30, 2006, is as follows:

Property Information	277,694		(144)	277,550
Risk Mitigation and Business Solutions	622,087	40,621	2,520	665,228
	\$ 2,092,612	\$ 194,587	\$ 7,278	\$ 2,294,477

The Company's reporting units, for purposes of applying the provisions of SFAS No. 142, Goodwill and Other Intangible Assets (SFAS 142), are title insurance, home warranty, property and casualty insurance, trust and other services, mortgage origination products and services, mortgage servicing products and services, property information services, lender services, data services, dealer services, employer services, multifamily services and investigative and litigation services.

The Company tests goodwill for impairment at the reporting unit level at least annually in accordance with the provisions of SFAS 142. There have been no impairments of goodwill during the nine months ending September 30, 2006. If an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying value, goodwill will be evaluated between annual tests.

Note 5 Other Intangible Assets

Other intangible assets consist of the following:

<i>(in thousands)</i>	September 30, 2006	December 31, 2005
Covenants not to compete	\$ 50,844	\$ 47,696
Customer lists	254,151	212,375
Trademarks and licenses	48,123	44,213
	353,118	304,284
Accumulated amortization	(86,478)	(57,167)
	\$ 266,640	\$ 247,117

Amortization expense for other finite-lived intangible assets, with definite lives ranging from three to ten years, was \$29.5 million and \$17.6 million for the nine months ended September 30, 2006 and 2005, respectively.

Estimated amortization expense for other finite-lived intangible assets anticipated for the next five years is as follows:

Edgar Filing: FIRST AMERICAN CORP - Form 10-Q

(in thousands)

Year	
Remainder of 2006	\$ 11,217
2007	\$ 40,893
2008	\$ 37,158
2009	\$ 35,472
2010	\$ 33,147

Table of Contents**Note 6 Earnings Per Share**

<i>(in thousands, except per share amounts)</i>	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2006	2005 (as restated)	2006	2005 (as restated)
Numerator:				
Net Income - numerator for basic net income per share	\$ 90,429	\$ 147,992	\$ 183,705	\$ 363,828
Effect of dilutive securities convertible debt - interest expense (net of tax)	190	209	586	644
Effect of subsidiary potential dilutive shares	(13)		(489)	
Net Income - numerator for dilutive net income per share	\$ 90,606	\$ 148,201	\$ 183,802	\$ 364,472
Denominator:				
Weighted average shares-denominator for basic net income per share	96,054	95,341	96,159	93,852
Effect of dilutive securities:				
Employee stock options and restricted common shares	1,853	2,784	2,125	2,795

Diluted net income per share	\$ 0.92	\$ 1.50	\$ 1.86	\$ 3.75

For the three and nine months ended September 30, 2006, 1.0 million and 0.9 million stock options, respectively, were excluded from the computation of diluted earnings per share due to their antidilutive effect. For the three months ended September 30, 2005, there were no antidilutive stock options that were excluded from the computation of diluted earnings per share. For the nine months ended September 30, 2005, six thousand stock options were excluded from the computation of diluted earnings per share due to their antidilutive effect.

Note 7 Employee Benefit Plans

Net periodic pension cost for the Company's defined benefit pension and supplemental benefit plans includes the following components:

<i>(in thousands)</i>	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2006	2005	2006	2005
Expense:				
Service Cost	\$ 2,454	\$ 4,201	\$ 7,364	\$ 12,614
Interest Cost	7,380	6,258	22,146	18,702
Expected return on plan assets	(4,571)	(4,262)	(13,712)	(12,787)
Amortization of prior service cost (benefit)	6	(398)	19	(1,189)
Amortization of net loss	4,019	2,940	12,060	8,877
	\$ 9,288	\$ 8,739	\$ 27,877	\$ 26,217

The Company has contributed \$34.5 million to its pension plans for the nine months ended September 30, 2006 and expects to contribute an additional \$9.0 million during the remainder of 2006. These contributions are both those required by funding regulations as well as benefit payments to participants of certain of the Company's non-qualified supplemental benefit plans.

Table of Contents**Note 8 Share-Based Compensation**

On May 18, 2006, the Company's shareholders voted to approve the Company's 2006 Incentive Compensation Plan, which was previously approved by the Board of Directors. Eligible participants in the plan include the Company's directors and executive officers, as well as other employees of the Company and certain of its affiliates. The plan permits the grant of Stock Options, Stock Appreciation Rights, Restricted Stock, Restricted Stock Units, Performance Units, Performance Shares and Other Stock-Based Awards. Under the terms of the Plan, 4,700,000 Company Common shares can be awarded, subject to certain annual limits on the amounts that can be awarded based on the type of award granted. The plan terminates 10 years from the effective date unless cancelled prior to that date by the Company's Board of Directors.

Effective January 1, 2006, the Company adopted Statement of Financial Accounting Standards No. 123R, Share-Based Payment (SFAS 123R), which establishes standards for share-based awards for employee services and requires companies to expense the grant-date fair value of these awards (with limited exceptions) over the requisite employee service period. SFAS 123R has two transition method applications to choose from and the Company selected the modified-prospective method, under which prior periods are not revised for comparative purposes. Share-based compensation expense included in salaries and other personnel costs recognized during the three and nine months ended September 30, 2006 was \$5.7 million or \$0.04 per diluted share and \$21.0 million or \$0.14 per diluted share, respectively. This amount includes expense for all share-based payments granted prior to, but not yet vested as of December 31, 2005 as well as share-based awards granted during the nine months ended September 30, 2006.

Pro forma net income and earnings per share for the three and nine months ended September 30, 2005, had the Company determined compensation expense based on the fair value of the stock options at grant date, are as follows:

<i>(in thousands, except per share amounts)</i>	For the Three Months Ended September 30, 2005 (as restated)	For the Nine Months Ended September 30, 2005 (as restated)
Net income:		
Net income, as restated	\$ 147,992	\$ 363,828
Add: APB No. 25 compensation recognized, net of tax	294	1,001
Less: stock based compensation expense, net of tax	(2,724)	(8,404)
Pro forma net income	\$ 145,562	\$ 356,425
Earnings per share:		
As restated		
Basic	\$ 1.55	\$ 3.88
Diluted	\$ 1.50	\$ 3.75
Pro forma		
Basic	\$ 1.53	\$ 3.80
Diluted	\$ 1.48	\$ 3.67

Commencing with the effective date, the Company transitioned from the Black-Scholes option model to a binomial lattice model to estimate the fair value of new employee stock options on the date of the grant. The Company believes that the binomial lattice option pricing model provides a more refined estimate of the fair value of the stock options. Options granted prior to January 1, 2006 were valued using the Black Scholes option-pricing model. The following assumptions were used in valuing the options granted during the nine months ended September 30, 2006 and 2005:

For the Nine Months

**Ended September 30,
2006
2005
(as restated)**

Edgar Filing: FIRST AMERICAN CORP - Form 10-Q

Risk free average interest rate	4.53%	4.62%
Dividend yield	1.67%	1.96%
Volatility	25%	40%
Expected life (years)	4.45	5.64
Weighted average grant-date fair value for options granted	\$ 9.60	\$ 13.86
Weighted average grant-date fair value for options vested	\$ 8.65	\$ 8.23

These assumptions are based on multiple factors, including historical patterns, post-vesting termination rates, expected future exercise patterns and the expected volatility of the Company's stock price. Expected volatility is based on historical and implied volatilities. The risk-free interest rate is the imputed forward rate based on the US Treasury yield at the date of grant.

Table of Contents

The expected term of options granted is derived from the output of the lattice model and represents the period of time that options granted are expected to be outstanding. Forfeitures are estimated at the date of grant based on historical experience. Prior to the adoption of SFAS 123R, the Company recorded forfeitures as they occurred for purposes of estimating pro forma compensation expense under SFAS 123. The impact of forfeitures is not material.

As of September 30, 2006, there was \$18.9 million of total unrecognized compensation cost related to non-vested stock options that is expected to be recognized over a weighted-average period of 1.24 years. In addition, the Company's publicly-traded subsidiary, First Advantage Corporation, has \$12.5 million of total unrecognized compensation cost related to non-vested stock options that is expected to be recognized over a weighted-average period of 1.6 years. Cash received from the exercise of stock options for the nine months ended September 30, 2006 and 2005 totaled \$5.8 million and \$39.4 million, respectively.

The following table summarizes stock option activity related to the Company's plans for the nine months ended September 30, 2006:

	Number outstanding (as restated)	Weighted-average exercise price (in thousands, except (as restated))	Average remaining life in years weighted-average exercise price)	Aggregate intrinsic value
Balance at December 31, 2005	5,935	\$ 25.41		
Granted during 2006	695	\$ 43.32		
Exercised during 2006	(323)	\$ 18.40		
Forfeited during 2006	(86)	\$ 22.89		
Balance at September 30, 2006	6,221	\$ 27.81	5.9	\$ 94,535
Vested and expected to vest at September 30, 2006	6,212	\$ 27.54	5.9	\$ 94,455
Exercisable at September 30, 2006	3,352	\$ 21.78	4.0	\$ 69,220

Total intrinsic value of options exercised for the nine months ended September 30, 2006 and 2005 was \$7.6 million and \$45.4 million, respectively. This intrinsic value represents the difference between the fair market value of the Company's common stock on the date of exercise and the exercise price of each option.

Nonvested stock option activity for the nine months ended September 30, 2006 is as follows:

	Shares (in thousands, except weighted- average grant-date fair value) (as restated)	Weighted-average grant-date fair value (as restated)
Nonvested options outstanding at December 31, 2005	3,081	\$ 12.04
Granted during 2006	695	\$ 9.60
Vested during 2006	(878)	\$ 11.28
Forfeited during 2006	(30)	\$ 11.23
Nonvested options outstanding at September 30, 2006	2,868	\$ 11.70

Edgar Filing: FIRST AMERICAN CORP - Form 10-Q

In addition to requiring companies to recognize the estimated fair value of share-based payments in earnings, SFAS 123R modified the presentation of tax benefits received in excess of amounts determined based on the compensation expense recognized. For periods after adopting SFAS 123R under the modified prospective method, such benefits are presented in the statement of cash flows as a financing activity rather than an operating activity.

The Company has an employee stock purchase plan that allows eligible employees to purchase common stock of the Company at 85% of the closing price on the last day of each month. Under the provisions of SFAS 123R, the Company recognized an expense of \$1.2 million for the nine months ended September 30, 2006.

The impact of the adoption of SFAS 123R of the Company's consolidated publicly-traded subsidiary, First Advantage, have been included in the Company's consolidated financial statements. Disclosures related to the assumptions used by First Advantage to value its stock options have not been included and can be found in its Form 10-Q for the corresponding period.

Table of Contents

Note 9 Business Combinations

During the nine months ended September 30, 2006, the Company completed 44 acquisitions. These acquisitions were not material, individually or in the aggregate. Of these acquisitions 34 have been included in the Company's title insurance segment, 1 in the Company's mortgage information segment and 9 in the Company's risk mitigation and business solutions segment. The aggregate purchase price for the 35 acquisitions included in the Company's title insurance and mortgage information segments was \$110.4 million in cash, \$78.1 million in notes payable and 806,400 shares of the Company's common stock valued at \$31.9 million. The 9 acquisitions included in the Company's risk mitigation and business solutions segment were completed by the Company's publicly-traded subsidiary, First Advantage Corporation. The aggregate purchase price for these acquisitions was \$31.0 million in cash, \$5.6 million in notes payable \$3.2 million in deferred payments and 411,300 shares, valued at \$9.7 million, of First Advantage's class A common stock. In accounting for the First Advantage shares issued in these acquisitions, the Company recorded a pretax gain of \$8.9 million. The purchase price of each acquisition was allocated to the assets acquired and liabilities assumed using a variety of valuation techniques including discounted cash flow analysis. As a result of the 44 acquisitions, the Company recorded approximately \$195.5 million of goodwill and \$45.9 million of intangible assets with definite lives.

The Company is awaiting information necessary to finalize the purchase accounting adjustments for these acquisitions and the final purchase price allocations could change the recorded assets and liabilities. However, any changes are not expected to have a material effect on the Company's financial statements as of, or for the period ended September 30, 2006.

In addition to the acquisitions discussed above, the Company also purchased the remaining minority interests in 4 companies already included in the Company's consolidated financial statements and an equity interest in 6 companies. The total purchase price of these transactions was \$29.8 million in cash and \$2.0 million in notes.

Note 10 Segment Information

The Company has five reporting segments that fall within two primary business groups, financial services and information technology. Commencing in the second quarter of 2006, the Company began allocating certain expenses which had previously been reported as corporate expenses to the title insurance, specialty insurance, mortgage information and property information segments. These expenses include costs associated primarily with a supplemental employee retirement plan, stock option expense and certain general expenses. The expenses associated with the supplemental retirement plan and the stock option plan were allocated to each segment based on actual costs. The allocation of certain general expenses was made to the title insurance and specialty insurance segments based on their proportionate contribution to net operating revenues (operating revenues less agent retention, if applicable). Specifically, those segments were allocated corporate expenses in an amount equal to one percent of their respective net operating revenues. The mortgage and property segments had been receiving corporate expense allocations in an amount equal to one percent of their respective net operating revenues; therefore, no additional allocation was made to these segments. Certain 2005 amounts have been reclassified to conform to the 2006 presentation. The financial services group includes the Company's title insurance and services segment and its specialty insurance segment. The information technology group includes the mortgage information, property information and risk mitigation and business solutions segments. Selected financial information by reporting segment is as follows:

Note 11 Litigation and Regulatory Contingencies

The Company and its subsidiaries have been named in various class action lawsuits related to their title operations. The Company has assessed the potential loss associated with each case based on the existing facts and estimated range of exposure. In cases where the Company has determined that a loss is probable, the Company has recorded a reserve in the amount of the estimated loss in accordance with Statement of Financial Accounting Standards No. 5, Accounting for Contingencies. This reserve totaled \$11.0 million at September 30, 2006. Actual losses may materially differ from the amounts recorded. The Company does not believe that the ultimate resolution of these cases, either individually or in the aggregate, will have a material adverse effect on the Company's financial condition, results of operations or cash flows.

On January 25, 2005, a jury in the case of Chicago Title Insurance Corporation v. James A. Magnuson, et al. awarded damages in the amount of \$43.2 million against a subsidiary of the Company. This matter involved claims of violation of a

Table of Contents

non-competition agreement and intentional interference with contract. The judgment comprised a compensatory award of \$10.8 million and a punitive damage award of \$32.4 million. In October 2005 the trial court denied the Company's motions to set aside the damage awards, among other matters. An appeal with the United States Circuit Court of Appeals is pending. The Company continues to believe it has strong grounds to overturn this judgment. Pending the outcome of the appeal, the Company reserved in a prior quarter \$10.0 million in connection with this matter. This amount represents the Company's best estimate of the loss based on its assessment of the likely outcome of the appeal.

On June 15, 2006, a jury in the case of Security Title v. Linda Lorene Pope, et al. awarded damages in the amount of \$41.3 million against a subsidiary of the Company. This matter involved a breach of fiduciary duty claim against Ms. Pope and an aiding and abetting claim against the Company's subsidiary. The judgment comprised a compensatory award of \$6.3 million and a punitive damage award of \$35.0 million. The Company believes it has strong grounds to overturn this judgment and is conducting a vigorous appeal. Pending the outcome of the appeal, the Company has taken a charge to earnings in prior quarters totaling \$25.0 million. This amount represents the Company's best estimate of the loss based on its assessment of the likely outcome of the appeal.

The Company's title insurance, property and casualty insurance, home warranty, thrift, trust and investment businesses are regulated by various federal, state and local governmental agencies. Many of the Company's other businesses operate within statutory guidelines. Consequently, the Company may from time to time be subject to audit or investigation by such governmental agencies. Currently, governmental agencies are auditing or investigating certain of the Company's operations. These audits or investigations include inquiries into, among other matters, pricing and rate setting practices in the title insurance industry, competition in the title insurance industry and title insurance customer acquisition and retention practices. In connection with certain of these current matters, the Company established a reserve totaling \$3.8 million in the third quarter of 2006. In connection with other of these current matters, the Company established additional reserves of approximately \$12.0 million in the fourth quarter of 2006. See Note 15 - Subsequent Event. While the ultimate disposition of each such audit or investigation is not yet determinable, the Company does not believe that individually they will have a material adverse effect on the Company's financial condition, results of operations or cash flows. In the aggregate, however, these audits or investigations could result in changes to the Company's business practices which could have a material adverse impact on the Company's financial condition, results of operations or cash flows.

On December 19, 2006 a purported shareholder of the Company named the Company's entire Board of Directors, certain of its officers and, nominally, the Company in a putative shareholder derivative action. The plaintiff in this case (Young v. Kennedy, et al., Case No. SACV06-1230 JVS (RNBx)), filed in the United States District Court for the Central District of California, asserts causes of action relating to alleged violations of the federal securities laws, breach of fiduciary duty, abuse of control, constructive fraud, corporate waste, unjust enrichment, gross mismanagement and related violations of the California Corporations Code, in each case in connection with the Company's prior stock option granting practices and the related accounting and public disclosures surrounding such prior stock option granting practices. The plaintiff seeks, among other things, unspecified damages and disgorgement of profits from the alleged misconduct to be paid to the Company. The plaintiff also seeks the payment of his attorneys' fees. The Company does not believe that the suit will have a material adverse impact on the Company's financial condition, results of operations or cash flows. The Company will vigorously defend against this action.

The Company also is involved in numerous ongoing routine legal and regulatory proceedings related to its operations. While the ultimate disposition of each proceeding is not determinable, the Company does not believe that any of such proceedings, individually or in the aggregate, will have a material adverse effect on its financial condition, results of operations or cash flows.

Note 12 Stockholders Equity

On May 18, 2004, the Company announced that its Board of Directors adopted a plan authorizing the repurchase of \$100 million of its Common shares. On May 19, 2005, the Company announced an amendment to this plan increasing the amount of shares that the Company may repurchase to \$200 million. On June 26, 2006 the Company announced a further amendment to this plan, increasing the amount of shares that may be repurchased to \$500 million. Between inception of the plan and September 30, 2006, the Company had repurchased and retired 3.9 million of its Common shares for a total purchase price of \$133.7 million.

Note 13 Recent Accounting Pronouncements

In May 2005, the FASB issued SFAS No. 154, Accounting Changes and Error Corrections, a Replacement of Accounting Principles Board Opinion No. 20, and FASB Statement No. 3 (SFAS 154). SFAS 154 requires retrospective application to prior periods' financial statements for changes in accounting principles, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. SFAS 154 also requires that retrospective application of a change in accounting principle be limited to the direct effects of the change. Indirect effects of a change in accounting

Table of Contents

principle, such as a change in non-discretionary profit-sharing payments resulting from an accounting change, should be recognized in the period of the accounting change. SFAS 154 also requires that a change in depreciation, amortization, or depletion method for long-lived, non-financial assets be accounted for as a change in accounting estimate effected by a change in accounting principle. SFAS 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. The Company adopted the provisions of SFAS 154 as of January 1, 2006. The adoption of SFAS No. 154 had no impact on the Company's consolidated financial statements.

In June 2006, the SEC issued Staff Accounting Bulletin (SAB) No. 108, "Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements," which provides interpretive guidance regarding the consideration given to prior year misstatements when determining materiality in current year financial statements. SAB No. 108 is effective for fiscal years ending after November 15, 2006. We do not expect SAB No. 108 to have any impact on our consolidated financial statements.

In July 2006, the FASB issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes" an interpretation of FASB Statement 109 (FIN 48). FIN 48 prescribes a comprehensive model for recognizing, measuring, presenting and disclosing in the financial statements tax positions taken or expected to be taken on a tax return, including a decision whether to file or not to file in a particular jurisdiction. If there are changes as a result of application of FIN 48, these will be accounted for as an adjustment to retained earnings. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company is currently assessing the impact, if any, of adopting FIN 48 on its consolidated financial statements.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157 "Fair Value Measurements" (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value within generally accepted accounting principles (GAAP), and expands disclosure requirements regarding fair value measurements. Although SFAS 157 does not require any new fair value measurements, its application may, in certain instances, change current practice. Where applicable, SFAS 157 simplifies and codifies fair value related guidance previously issued within GAAP. The Company is currently assessing the impact of adopting SFAS 157 on its consolidated financial statements.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 158 "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans, an amendment of FASB Statements No. 87, 88, 106, and 132(R)" (SFAS 158). This standard requires employers to recognize the overfunded or underfunded status of defined benefit postretirement plans as an asset or liability on their balance sheets and recognize changes in the funded status in the year in which changes occur, through other comprehensive income, (a component of shareholders equity). Actuarial gains and losses and prior service costs and credits that have not been recognized as a component of net periodic benefit cost as of the statement adoption date are recorded as a component of accumulated other comprehensive income. The requirement to recognize the funded status of a defined benefit postretirement plan and the disclosure requirements for SFAS 158 will be effective for fiscal years ending after December 15, 2006. The Company is currently assessing the impact of SFAS 158 on its consolidated financial statements.

Note 14 Increase in Title Insurance IBNR Reserve

The Company provides for title insurance losses by a charge to expense when the related premium revenue is recognized. The amount charged to expense is generally determined by applying a rate (the loss provision rate) to total title insurance operating revenues. The Company's management estimates the loss provision rate at the beginning of each year and reassesses the rate quarterly to ensure that the resulting incurred but not reported (IBNR) loss reserve included in the Company's consolidated balance sheets reflects management's best estimate of the total costs required to settle all IBNR claims.

To estimate and reassess the loss provision rate and the resulting IBNR reserve, the Company's management uses a two-step process. First, it conducts its own assessment of projected losses by reviewing its historical claims experience and consulting with its in-house claims and operations personnel. This analysis tends to be historical in nature as influenced by recent claims experience. It then studies current economic and business trends, including, among others, changes in technology (primarily impacting the effectiveness of title searching), changes in the average revenue generated per title policy issued, changes in the types of policies issued, changes in the types of real estate transactions, changes in the average life of a mortgage due to refinance activity and changes in the frequency of turnover of properties.

The second step of the process is to use a third party actuary. Generally, twice a year, the actuary identifies a range of reserve estimates for IBNR, a single point estimate for IBNR, as well as loss rates that reflect the total projected ultimate loss by policy year as a percentage of that year's title insurance operating revenues. The actuarial report is primarily based on the company's historical claim payment and incurred loss patterns. It does not fully reflect current trends (such as those described above) that may impact future claims development.

Table of Contents

The Company's management combines the single point estimate of the projected IBNR from the actuarial report with the results obtained from its assessment of projected losses (step one above) to determine what it considers to be the best estimate of the total amount required to settle all IBNR claims.

Title insurance policies are long-duration contracts with the majority of the claims reported to the Company within the first few years following the issuance of the policy. Generally, 70 to 75 percent of claims become known in the five first years of the policy life. Therefore, the majority of IBNR reserves relate to the five most recent policy years. A material change in expected ultimate losses and corresponding loss rates for policy years older than five years is not considered reasonably likely by the Company. However, changes in expected ultimate losses and corresponding loss rates for recent policy years is considered likely and could result in a material adjustment to the IBNR reserves. Based on historical experience, the Company believes that a 50 basis point change to the loss rates for the most recent policy years, positive or negative, is reasonably likely given the long duration nature of a title insurance policy. For example, if the expected ultimate losses for each of the last five policy years increased or decreased by 50 basis points, the resulting impact on the IBNR reserve would be an increase or decrease, as the case may be, of \$120.3 million. The estimates made by management in determining the appropriate level of IBNR reserves could ultimately prove to be inaccurate and actual claims experience may vary from the expected claims experience.

A summary of the Company's loss reserves, broken down into its components of known title claims, incurred but not reported claims and non-title claims, follows:

(in thousands except percentages)	as of September 30, 2006		as of December 31, 2005	
Known claims	\$ 134,457	14.6%	\$ 117,075	17.5%
IBNR	707,691	76.8%	477,871	71.2%
Total title claims	842,148	91.4%	594,946	88.7%
Non-title claims	79,270	8.6%	76,108	11.3%
Total loss reserves	\$ 921,418	100.0%	\$ 671,054	100.0%

During the second quarter of 2006, the Company recorded a \$155.0 million title insurance reserve strengthening adjustment. This adjustment reflects a change in estimate for ultimate losses expected primarily from policy years 2002 through 2005. The change in estimate resulted primarily from higher than expected claims frequency experienced for those policy years during the first half of 2006, which became evident during the current period and was included in the mid-year actuarial analysis performed by the Company's independent actuaries. In addition, given the increase in short and long term interest rates during the first half of 2006, as well as the resulting increase in fixed and adjustable mortgage rates, the Company's management believes that claims development patterns for policy years 2003 through 2005 may extend. Given the increase in claims frequency that became apparent during the period and the potential extension of claims development patterns, management has placed greater weight on the historical claim payment patterns (which do not fully reflect the potential impact of refinance activity) in determining the appropriate IBNR reserve. Management continues to believe that some adjustment to historical claim development patterns is appropriate to make to policy years 2002 through 2005, however, management has lowered the degree of the adjustment during the period given the factors described above.

In determining the best estimate of the appropriate IBNR reserve, management considered the single point estimate of the projected December 31, 2006, IBNR in the mid-year actuarial report, management's expectations of claims paid and provision for title losses for the balance of 2006, and sensitivity analysis looking at the impact of the shorter tail of fraud claims as well as the shorter overall tail of certain title policies due to the levels of refinance activity and homeowner turnover. It is management's expectation that the difference between the actuary's average estimate of likely loss exposure as of December 31, 2006 and the Company's IBNR balance at December 31, 2006 will be between 2 and 5 percent. The difference is due to the impact of the shorter tail of fraud claims as well as the shorter overall tail of claims from certain title policies due to the levels of refinance activity and homeowner turnover.

Table of Contents

Note 15 Subsequent Event

In the fourth quarter of 2006, the Company established a reserve of approximately \$12.0 million in connection with certain regulatory matters involving the Company's title insurance business. This reserve, which will be charged to the Company's title insurance and services segment, covers loss contingencies resulting from investigations being conducted by governmental entities and which the Company has determined to be probable.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

RESULTS OF OPERATIONS

CRITICAL ACCOUNTING POLICIES

Critical accounting policies are those policies used in the preparation of the Company's financial statements that require management to make estimates and judgments that affect the reported amounts of certain assets, liabilities, revenues, expenses and related disclosure of contingencies. A summary of these policies can be found in Management's Discussion and Analysis in the Company's Annual Report on Form 10-K for the year ended December 31, 2005. During the second quarter of 2006, the Company enhanced the disclosures surrounding its critical accounting policy related to the provision for title losses, as follows:

Provision for title losses. The Company provides for title insurance losses by a charge to expense when the related premium revenue is recognized. The amount charged to expense is generally determined by applying a rate (the loss provision rate) to total title insurance operating revenues. The Company's management estimates the loss provision rate at the beginning of each year and reassesses the rate quarterly to ensure that the resulting incurred but not reported (IBNR) loss reserve included in the Company's consolidated balance sheets reflects management's best estimate of the total costs required to settle all IBNR claims.

To estimate and reassess the loss provision rate and the resulting IBNR reserve, the Company's management uses a two-step process. First, it conducts its own assessment of projected losses by reviewing its historical claims experience and consulting with its in-house claims and operations personnel. This analysis tends to be historical in nature as influenced by recent claims experience. It then studies current economic and business trends, including, among others, changes in technology (primarily impacting the effectiveness of title searching), changes in the average revenue generated per title policy issued, changes in the types of policies issued, changes in the types of real estate transactions, changes in the average life of a mortgage due to refinance activity and changes in the frequency of turnover of properties.

The second step of the process is to use a third party actuary. Generally, twice a year, the actuary identifies a range of reserve estimates for IBNR, a single point estimate for IBNR, as well as loss rates that reflect the total projected ultimate loss by policy year as a percentage of that year's title insurance operating revenues. The actuarial report is primarily based on the company's historical claim payment and incurred loss patterns. It does not fully reflect current trends (such those described above) that may impact future claims development.

The Company's management combines the single point estimate of the projected IBNR from the actuarial report with the results obtained from its assessment of projected losses (step one above) to determine what it considers to be the best estimate of the total amount required to settle all IBNR claims.

Title insurance policies are long-duration contracts with the majority of the claims reported to the Company within the first few years following the issuance of the policy. Generally, 70 to 75 percent of claims become known in the five first years of the policy life. Therefore, the majority of IBNR reserves relate to the five most recent policy years. A material change in expected ultimate losses and corresponding loss rates for policy years older than five years is not considered reasonably likely by the Company. However, changes in expected ultimate losses and corresponding loss rates for recent policy years is considered likely and could result in a material adjustment to the IBNR reserves. Based on historical experience, the Company believes that a 50 basis point change to the loss rates for the most recent policy years, positive or negative, is reasonably likely given the long duration nature of a title insurance policy. For example, if the expected ultimate losses for each of the last five policy years increased or decreased by 50 basis points, the resulting impact on the IBNR reserve would be an increase or decrease, as the case may be, of \$120.3 million. The estimates made by management in determining the appropriate level of IBNR reserves could ultimately prove to be inaccurate and actual claims experience may vary from the expected claims experience.

Table of Contents

A summary of the Company's loss reserves, broken down into its components of known title claims, incurred but not reported claims and non-title claims, follows:

(in thousands except percentages)	as of September 30, 2006		as of December 31, 2005	
Known claims	\$ 134,457	14.6%	\$ 117,075	17.5%
IBNR	707,691	76.8%	477,871	71.2%

Non-title claims	79,270	8.6%	76,108	11.3%
Total loss reserves	\$ 921,418	100.0%	\$ 671,054	100.0%

OVERVIEW**Restatement of Prior Year Numbers**

On January 4, 2007, the Company announced that the special subcommittee of its Audit Committee completed its review of the Company's historical stock option granting practices and related tax and accounting matters. In the course of its four month review, the special subcommittee evaluated all option grants made under the Company's 1996 Stock Option Plan, 1997 Directors' Stock Plan and 2006 Incentive Compensation Plan. To assist it, the special subcommittee retained independent counsel, which in turn retained forensic accountants. The special subcommittee reported that it received full cooperation from the Company's management.

The special subcommittee determined that the Company used incorrect measurement dates for financial reporting purposes with respect to a number of stock option grants made between 1996 and 2006 and improperly accounted for the mispriced options under Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees and Statement of Accounting Standards No. 123R, Share-Based Payment. As a result, the cumulative impact to the Company's financial results over this period totaled \$35.7 million, the majority of which is non-cash in nature. The special subcommittee determined that these errors were the result of date selection methods, internal control deficiencies and the misapplication of technical accounting provisions. The special subcommittee did not find that these errors were the result of fraud, self-interest on the part of management or members of the Board of Directors or intent to misstate the Company's financial statements.

The Company believes that the impact of the above referenced error is immaterial to all prior periods. However, the cumulative amount would be material to the current year if corrected in the current year and, therefore, the Company will restate its financial statements for the years 2001 through 2005, each quarter in 2005 and the first quarter of 2006. All restatements will be reflected in this filing as well as future filings. The effect of this restatement on the years 2001 through 2005 is approximately \$5.3 million, \$4.5 million, \$4.1 million, \$3.3 million and \$4.9 million, respectively, representing an estimated percentage to after-tax net income of 3.2%, 1.9%, 0.9%, 0.9% and 1.0%, respectively. The effect of this restatement on the first, second, third and fourth quarters of 2005 and the first quarter of 2006 is approximately \$1.7 million, \$1.3 million, \$1.1 million, \$0.9 million and \$1.9 million, respectively, resulting in a change to reported net income of approximately 2.1%, 0.9%, 0.7%, 0.8% and 2.7%, respectively.

See Note 2 to the Condensed Consolidated Financial Statements - Restatement of Consolidated Financial Statements for details of the impact of this restatement on the three and nine months ended September 30, 2005. All amounts impacted by the aforementioned restatement are properly restated below.

Operations

Mortgage originations decreased in the third quarter of 2006 when compared with the same period of the prior year, resulting in a decline in operating revenues at the Company's title insurance and mortgage information segments. Operating revenues for these two segments are primarily dependent on the level of real estate activity. However, as a result of the Company's acquisition activity and organic growth at the Company's specialty insurance, property information and risk mitigation and business solutions segments, total operating revenues increased modestly when compared with the third quarter of 2005. Profits for the third quarter of 2006 did not keep pace with the revenue growth due primarily to an increase quarter over quarter in the loss provision rate for the title insurance operations, continued investments in new business initiatives and increased legal/regulatory related costs. Operating revenues for the three and nine months ended September 30, 2006 were \$2.11 billion and \$6.16 billion, respectively. Operating revenues for the three and nine months ended September 30, 2005 were \$2.10 billion and \$5.69 billion, respectively. Net income for the three and nine months ended September 30, 2006 was \$90.4 million, or \$.92 per diluted share, and

Edgar Filing: FIRST AMERICAN CORP - Form 10-Q

\$183.7 million, or \$1.86 per diluted share, respectively. The current nine-month period includes a \$155.0 million title insurance reserve strengthening adjustment resulting from a change in estimate. Net income for the three and nine months ended September 30, 2005 (as restated), was \$148.0 million, or \$1.50 per diluted share, and \$363.8 million, or \$3.75 per diluted share, respectively.

Table of Contents**OPERATING REVENUES**

Set forth below is a summary of operating revenues for each of the Company's segments.

	Three Months Ended September 30,			Nine Months Ended September 30,		
	2006	2005	% Change	2006	2005	% Change
Financial Services:						
Title Insurance:						
Direct operations	\$ 763,958	\$ 820,186	(6.9)	\$ 2,256,259	\$ 2,172,406	3.9
Agency operations	784,427	756,868	3.6	2,272,491	2,037,969	11.5
	1,548,385	1,577,054	(1.8)	4,528,750	4,210,375	7.6
Specialty Insurance	78,521	74,678	5.1	230,275	198,972	15.7
	1,626,906	1,651,732	(1.5)	4,759,025	4,409,347	7.9
Information Technology:						
Mortgage Information	128,274	150,117	(14.6)	400,343	443,089	(9.6)
Property Information	157,018	137,447	14.2	436,568	384,074	13.7

	496,665	455,874	8.9	1,446,475	1,294,916	11.7
Eliminations	(17,249)	(4,453)		(46,792)	(12,653)	
Total	\$ 2,106,322	\$ 2,103,153	0.2	\$ 6,158,708	\$ 5,691,610	8.2

Financial Services. Operating revenues from direct title operations decreased 6.9% and increased 3.9% for the three and nine months ended September 30, 2006, respectively, when compared with the same periods of the prior year. The decrease for the current three-month period was due to a decline in the number of title orders closed by the Company's direct operations, offset in part by an increase in the average revenues per order closed. The increase for the current nine-month period was due to an increase in the average revenues per order closed, offset in part by a decline in the number of title orders closed. The average revenues per order closed were \$1,614 and \$1,630 for the three and nine months ended September 30, 2006, respectively, increases of 9.3% and 16.0% when compared with the same periods of the prior year. These increases were primarily due to a decreased mix of lower-premium refinance transactions and an increase in higher-premium resale and commercial activity. The Company's direct operations closed 473,300 and 1,384,000 title orders during the current three and nine month periods, respectively, decreases of 14.8% and 10.5% when compared with the same periods of the prior year. These decreases were primarily due to the decline in mortgage originations, offset in part by market share gains that resulted from organic growth and acquisitions. Operating revenues from agency operations increased 3.6% and 11.5% for the three and nine months ended September 30, 2006, respectively, when compared with the same periods of the prior year. These increases primarily reflect the timing of the reporting of agency remittances.

Total operating revenues for the title insurance segment (direct and agency operations) contributed by new acquisitions were \$58.7 million and \$191.1 million for the three and nine months ended September 30, 2006, respectively.

Information Technology. Mortgage information operating revenues decreased \$21.8 million and \$42.7 million for the three and nine months ended September 30, 2006, respectively, when compared with the same periods of the prior year. These decreases were primarily due to the decline in mortgage originations and increases in estimated servicing life of the tax service loan portfolio due to a slowdown in prepayment speeds, which resulted in the deferral of a larger portion of tax service fees we receive related to the portfolio of contracts we manage. Operating revenues for the property information segment increased \$19.6 million, or 14.2% and \$52.5 million, or 13.7%, for the three and nine months ended September 30, 2006, respectively, when compared with the same periods of the prior year. These increases were primarily due to the continued strength in this segment's subscription-based information businesses, increased appraisal revenues resulting from market share growth and \$1.1 million and \$8.4 million of operating revenues contributed by new acquisitions for the respective periods, offset in part by the effects of the slowdown in mortgage originations. Risk mitigation and business solutions operating revenues increased \$43.1 million, or 25.6% and \$141.8 million, or 30.3% for the three and nine months ended September 30, 2006, respectively, when compared with the same periods of the prior

year. These increases were

Table of Contents

primarily due to \$36.7 million and \$119.0 million of operating revenues contributed by new acquisitions (which does not include the contribution to First Advantage Corporation of the Company's credit information segment) for the respective periods.

INVESTMENT AND OTHER INCOME

Investment and other income totaled \$61.2 million and \$171.3 million for the three and nine months ended September 30, 2006, respectively, representing increases of \$3.0 million, or 5.2%, and \$18.8 million, or 12.3%, when compared with the same periods of the prior year. These increases resulted primarily from increases in interest and dividend income, offset in part by reductions in earnings from unconsolidated affiliates, which are accounted for under the equity method of accounting.

GAIN ON ISSUANCE OF SUBSIDIARY STOCK

Gain on issuance of subsidiary stock totaled \$0.5 million and \$8.9 million for the three and nine months ended September 30, 2006, respectively, compared with \$5.3 million and \$8.0 million for the three and nine months ended September 30, 2005, respectively. These amounts represent realized gains associated with the issuance of shares by the Company's publicly traded subsidiary, First Advantage Corporation.

TOTAL OPERATING EXPENSES

Financial Services. Salaries and other personnel costs for the financial services group, which primarily reflects the title insurance segment, were \$464.3 million and \$1.39 billion for the three and nine months ended September 30, 2006, respectively, increases of \$1.0 million, or 0.2%, and \$83.5 million, or 6.4%, when compared with the same periods of the prior year. These increases were primarily due to \$20.2 million and \$62.2 million of personnel costs associated with new acquisitions, offset in part by cost reductions in response to the decline in mortgage originations. The nine-month period was impacted by the relatively high staffing levels present towards the latter part 2005 and the beginning of 2006, which were necessary to service the high level of title order volume processed during 2005. As order volumes decreased, the Company began adjusting staffing levels to match new order counts. As a percentage of operating revenues, salaries and other personnel costs were 28.5% and 29.2% for the three and nine months ended September 30, 2006, respectively, compared to 28.0% and 29.6% for the same periods of the prior year.

Agents retained \$622.9 million and \$1.82 billion of title premiums generated by agency operations for the three and nine months ended September 30, 2006, respectively, which compares with \$607.2 million and \$1.63 billion for the same periods of the prior year. The percentage of title premiums retained by agents decreased to 80.0% for the current nine-month period, down from 80.1% for the same period of the prior year due to regional variances (i.e., the agency share varies from region to region and thus the geographical mix of agency revenues causes this variation).

Other operating expenses for the financial services group, which primarily reflect the title insurance segment, were \$287.7 million and \$834.2 million for the three and nine months ended September 30, 2006, respectively, increases of \$12.5 million, or 4.5%, and \$105.0 million, or 14.4%, when compared with the same periods of the prior year. These increases were primarily due to \$13.5 million and \$57.8 million of other operating expenses associated with new acquisitions for the respective periods. Contributing to the increase for the current nine-month period was the \$34.3 million regulatory/litigation charge. As a percentage of operating revenues, other operating expenses were 17.5% for both the three and nine months ended September 30, 2006, and 16.7% and 16.5% for the same periods of the prior year.

The provision for policy losses and other claims primarily represents title insurance claims, home warranty claims and property and casualty insurance claims. For the title insurance segment, the claims provision as a percentage of title insurance operating revenues was 8.8% for the current nine-month period and 4.5% for the same period of the prior year. The rate for the full year of 2005 was 5.0%. The increase in this rate was primarily due to the reserve strengthening adjustment described below.

During the second quarter of 2006, the Company recorded a \$155.0 million title insurance reserve strengthening adjustment. This adjustment reflects a change in estimate for ultimate losses expected primarily from policy years 2002 through 2005. The change in estimate resulted primarily from higher than expected claims frequency experienced for those policy years during the first half of 2006, which became evident during the current period and was included in the mid-year actuarial analysis performed by the Company's independent actuaries. In addition, given the increase in short and long term interest rates during the first half of 2006, as well as the resulting increase in fixed and adjustable mortgage rates, the Company's management believes that claims development patterns for policy years 2003 through 2005 may extend. Given the increase in claims frequency that became apparent during the period and the potential extension of claims development patterns,

Table of Contents

management has placed greater weight on the historical claim payment patterns (which do not fully reflect the potential impact of refinance activity) in determining the appropriate IBNR reserve. Management continues to believe that some adjustment to historical claim development patterns is appropriate to make to policy years 2002 through 2005, however, management has lowered the degree of the adjustment during the period given the factors described above.

In determining the best estimate of the appropriate IBNR reserve, management considered the single point estimate of the projected December 31, 2006, IBNR in the mid-year actuarial report, management's expectations of claims paid and provision for title losses for the balance of 2006, and sensitivity analysis looking at the impact of the shorter tail of fraud claims as well as the shorter overall tail of certain title policies due to the levels of refinance activity and homeowner turnover. It is management's expectation that the difference between the actuary's average estimate of likely loss exposure as of December 31, 2006 and the Company's IBNR balance at December 31, 2006 will be between 2 and 5 percent. The difference is due to the impact of the shorter tail of fraud claims as well as the shorter overall tail of claims from certain title policies due to the levels of refinance activity and homeowner turnover.

For the home warranty business, the claims provision as a percentage of home warranty operating revenues was 50.3% for the current nine-month period and 52.0% for the same period of the prior year. This decrease in rate was primarily due to a reduction in the average number of claims incurred per contract as well as contract price increases. For the property and casualty business, the claims provision as a percentage of property and casualty insurance operating revenues was 50.3% for the current nine-month period and 53.1% for the same period of the prior year. The rate for the prior year period included high claims activity which resulted from the heavy rains in Southern California experienced during the first quarter of 2005.

Premium taxes, which relate to the title insurance and specialty insurance segments, were \$52.6 million and \$45.9 million for the nine months ended September 30, 2006 and 2005, respectively. Premium taxes as a percentage of title insurance and specialty insurance operating revenues were 1.1% and 1.0% for the current nine-month period and for the same period of the prior year, respectively.

Information Technology. Information technology personnel and other operating expenses were \$372.5 million and \$1.09 billion for the three and nine months ended September 30, 2006, respectively, increases of \$35.2 million and \$138.5 million when compared with the same periods of the prior year. These increases were primarily due to \$27.5 million and \$95.8 million of personnel and other expenses contributed by new acquisitions, as well as expenses incurred at the property information and risk mitigation and business solutions segments to service the increase in business volume.

Table of Contents**INCOME BEFORE INCOME TAXES AND MINORITY INTERESTS**

Set forth below is a summary of income before income taxes and minority interests for each of the Company's segments (in thousands except percentages).

	Three Months Ended September 30,			Nine Months Ended September 30,		
	2006	2005 (\$000) (as restated)	% Change	2006	2005 (\$000) (as restated)	% Change
Financial Services:						
Title Insurance	\$ 117,705	\$ 180,593	(34.8)	\$ 179,659	\$ 426,660	(57.9)
Specialty Insurance	14,476	12,801	13.1	41,322	34,299	20.5
	132,181	193,394	(31.7)	220,981	460,959	(52.1)
Information Technology:						
Mortgage Information	28,494	34,745	(18.0)	91,820	106,594	(13.9)
Property Information	40,186	42,550	(5.6)	109,896	119,841	(8.3)
Risk Mitigation and Business Solutions	31,534	26,418	19.4	86,483	74,500	16.1
	100,214	103,713	(3.4)	288,199	300,935	(4.2)
Total before corporate expenses	232,395	297,107	(21.8)	509,180	761,894	(33.2)
Corporate	(45,503)	(23,076)	97.2	(113,239)	(71,920)	57.5
Total	\$ 186,892	\$ 274,031	(31.8)	\$ 395,941	\$ 689,974	(42.6)

In general, the title insurance business is a lower profit margin business when compared to the Company's other segments. The lower profit margins reflect the high cost of producing title evidence whereas the corresponding revenues are subject to regulatory and competitive pricing restraints. Due to this relatively high proportion of fixed costs, title insurance profit margins generally improve as closed order volumes increase. Title insurance profit margins are affected by the composition (residential or commercial) and type (resale, refinancing or new construction) of real estate activity. In addition, profit margins from refinance transactions are affected by whether they are centrally processed or locally processed. Profit margins from resale, new construction and centrally processed refinance transactions are generally higher than from locally processed refinancing transactions because in many states there are premium discounts on, and cancellation rates are higher for, refinance transactions. Title insurance profit margins are also affected by the percentage of operating revenues generated by agency operations. Profit margins from direct operations are generally higher than from agency operations due primarily to the large portion of the premium that is retained by the agent. Most of the businesses included in the Information Technology group are database intensive, with a relatively high proportion of fixed costs. As such, profit margins generally improve as revenues increase. Revenues for the mortgage information segment, like the title insurance segment, are primarily dependent on the level of real estate activity and the cost and availability of mortgage funds. Revenues for the property information segment are, in part, dependent on real estate activity, but are less cyclical than title insurance and mortgage information revenues as a result of a significant subscription-based revenue stream. Most of the revenues for the risk mitigation and business solutions segment are unaffected by real estate activity, with the exception of the mortgage credit business, which is dependent on real estate activity.

Commencing in the second quarter of 2006, the Company began allocating certain expenses which had previously been reported as corporate expenses to the title insurance, specialty insurance, mortgage information and property information segments. These expenses include costs associated primarily with supplemental employee retirement plans, stock option expense and certain general expenses. The expenses associated with the supplemental retirement plan and the stock option plan were allocated to each segment based on actual costs. The allocation of certain general expenses was made to the title insurance and specialty insurance segments based on their proportionate contribution to net operating revenues (operating revenues less agent retention, if applicable). Specifically, those segments were allocated expenses associated with the supplemental employee retirement plans, stock option plan and an additional amount equal to 1.0% of their respective net operating revenues. The mortgage information and property information segments had been receiving corporate expense allocations in an amount equal to 1.0% of their respective net operating revenues; therefore, no additional allocation was made to them. All periods presented above consistently reflect the new allocation policy.

Edgar Filing: FIRST AMERICAN CORP - Form 10-Q

Corporate expenses totaled \$45.5 million and \$113.2 million for the three and nine months ended September 30, 2006, respectively, increases of \$22.4 million and \$41.3 million when compared with the same periods of the prior year. These increases were primarily due to increased technology costs, professional services costs and employee benefit costs, as well as

Table of Contents

share-based compensation expense resulting from the adoption of SFAS 123R. Also contributing to the increase in corporate expenses were \$2.6 million of costs incurred in connection with the Company's ongoing review of its stock option grant practices.

INCOME TAXES

The effective income tax rate (income tax expense as a percentage of pretax income after minority interest expense) was 44.4% for the nine months ended September 30, 2006, and 41.2% for the same period of the prior year. The increase in effective rate was primarily attributable to the \$155.0 million reserve adjustment recorded in the second quarter 2006 (for which a corresponding tax benefit was recognized at 36%) as well as changes in the ratio of permanent differences to income before income taxes.

A large portion of the Company's minority interest expense is attributable to a limited liability company subsidiary which, for tax purposes, is treated as a partnership. Accordingly, no income taxes have been provided for that portion of the minority interest expense.

NET INCOME

Net income for the three and nine months ended September 30, 2006, was \$90.4 million, or \$0.92 per diluted share, and \$183.7 million, or \$1.86 per diluted share, respectively. Net income for the three and nine months ended September 30, 2005, was \$148.0 million, or \$1.50 per diluted share, and \$363.8 million, or \$3.75 per diluted share, respectively.

MINORITY INTERESTS

Minority interest expense was \$23.6 million and \$65.4 million for the three and nine months ended September 30, 2006, respectively, decreases of \$1.6 million and \$5.8 million when compared with the same periods of the prior year. These decreases were primarily attributable to the decrease in operating results of the Company's joint venture with Experian Information Solutions.

LIQUIDITY AND CAPITAL RESOURCES

Total cash and cash equivalents decreased \$188.6 million for the nine months ended September 30, 2006, and increased \$292.2 million for the nine months ended September 30, 2005. The decrease for the current year period was due primarily to cash paid for company acquisitions, purchases of debt and equity securities and capital expenditures, offset in part by cash provided by operating activities. The increase for the prior year period was primarily due to cash provided by operating activities and deposits at the Company's trust and thrift divisions, offset in part by purchases of debt and equity securities, cash paid for company acquisitions, and capital expenditures.

Notes and contracts payable as a percentage of total capitalization decreased to 21.3% at September 30, 2006 from 21.5% at December 31, 2005. This increase was primarily due to an increase in stockholders' equity for the current period.

On May 18, 2004, the Company announced that its Board of Directors adopted a plan authorizing the repurchase of \$100 million of its Common shares. On May 19, 2005, the Company announced an amendment to this plan increasing the amount of shares that the Company may repurchase to \$200 million. On June 26, 2006 the Company announced a further amendment to this plan, increasing the amount of shares that may be repurchased to \$500 million. Between inception of the plan and September 30, 2006, the Company had repurchased and retired 3.9 million of its Common shares for a total purchase price of \$133.7 million.

Management believes that all of its anticipated operating cash requirements for the immediate future will be met from internally generated funds.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The Company's primary exposure to market risk relates to interest rate risk associated with certain financial instruments. Although the Company monitors its risk associated with fluctuations in interest rates, it does not currently use derivative financial instruments on any significant scale to hedge these risks.

The Company is also subject to equity price risk as related to its equity securities, but such risk is immaterial.

Although the Company is subject to foreign currency exchange rate risk as a result of its operations in certain foreign countries, these operations, in the aggregate, are not material to the Company's financial condition or results of operations, and therefore, such risk is immaterial.

There have been no material changes in the Company's market risks since the filing of its Form 10-K for the year ended December 31, 2005.

Item 4. Controls and Procedures.

The Company's Chief Executive Officer and Chief Financial Officer, after evaluating the effectiveness of the Company's disclosure controls and procedures, as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended, have concluded that, as of the end of the fiscal quarter covered by this report on Form 10-Q, the Company's disclosure controls and procedures were effective.

In coming to the conclusion that the Company's disclosure controls and procedures were effective as of September 30, 2006, the Company's Chief Executive Officer and Chief Financial Officer considered the restatement of the Company's financial statements discussed in the Current Report on Form 8-K filed by the Company on January 5, 2007 and concluded that a material weakness did not exist as of September 30, 2006.

There was no change in the Company's internal control over financial reporting during the quarter ended September 30, 2006 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II: OTHER INFORMATION

Item 1. Legal Proceedings.

The Company and its subsidiaries have been named in various class action lawsuits related to their title operations. The Company has assessed the potential loss associated with each case based on the existing facts and estimated range of exposure. In cases where the Company has determined that a loss is probable, the Company has recorded a reserve in the amount of the estimated loss in accordance with Statement of Financial Accounting Standards No. 5, Accounting for Contingencies. This reserve totaled \$11.0 million at September 30, 2006. Actual losses may materially differ from the amounts recorded. The Company does not believe that the ultimate resolution of these cases, either individually or in the aggregate, will have a material adverse effect on the Company's financial condition, results of operations or cash flows.

On January 25, 2005, a jury in the case of Chicago Title Insurance Corporation v. James A. Magnuson, et al. awarded damages in the amount of \$43.2 million against a subsidiary of the Company. This matter involved claims of violation of a non-competition agreement and intentional interference with contract. The judgment comprised a compensatory award of \$10.8 million and a punitive damage award of \$32.4 million. In October 2005 the trial court denied the Company's motions to set aside the damage awards, among other matters. An appeal with the United States Circuit Court of Appeals is pending. The Company continues to believe it has strong grounds to overturn this judgment. Pending the outcome of the appeal, the Company reserved in a prior quarter \$10.0 million in connection with this matter. This amount represents the Company's best estimate of the loss based on its assessment of the likely outcome of the appeal.

On June 15, 2006, a jury in the case of Security Title v. Linda Lorene Pope, et al. awarded damages in the amount of \$41.3 million against a subsidiary of the Company. This matter involved a breach of fiduciary duty claim against Ms. Pope and an aiding and abetting claim against the Company's subsidiary. The judgment comprised a compensatory award of \$6.3 million and a punitive damage award of \$35.0 million. The Company believes it has strong grounds to overturn this judgment and is conducting a vigorous appeal. Pending the outcome of the appeal, the Company has taken a charge to earnings in prior quarters totaling \$25.0 million. This amount represents the Company's best estimate of the loss based on its assessment of the likely outcome of the appeal.

Table of Contents

The Company's title insurance, property and casualty insurance, home warranty, thrift, trust and investment businesses are regulated by various federal, state and local governmental agencies. Many of the Company's other businesses operate within statutory guidelines. Consequently, the Company may from time to time be subject to audit or investigation by such governmental agencies. Currently, governmental agencies are auditing or investigating certain of the Company's operations. These audits or investigations include inquiries into, among other matters, pricing and rate setting practices in the title insurance industry, competition in the title insurance industry and title insurance customer acquisition and retention practices. In connection with certain of these current matters, the Company established a reserve totaling \$3.8 million in the third quarter of 2006. In connection with other of these current matters, the Company established additional reserves of approximately \$12.0 million in the fourth quarter of 2006. See Note 15 to the Condensed Consolidated Financial Statements – Subsequent Event. While the ultimate disposition of each such audit or investigation is not yet determinable, the Company does not believe that individually they will have a material adverse effect on the Company's financial condition, results of operations or cash flows. In the aggregate, however, these audits or investigations could result in changes to the Company's business practices which could have a material adverse impact on the Company's financial condition, results of operations or cash flows.

On December 19, 2006 a purported shareholder of the Company named the Company's entire Board of Directors, certain of its officers and, nominally, the Company in a putative shareholder derivative action. The plaintiff in this case (Young v. Kennedy, et al., Case No. SACV06-1230 JVS (RNBx)), filed in the United States District Court for the Central District of California, alleges causes of action relating to alleged violations of the federal securities laws, breach of fiduciary duty, abuse of control, constructive fraud, corporate waste, unjust enrichment, gross mismanagement and related violations of the California Corporations Code, in each case in connection with the Company's prior stock option granting practices and the related accounting and public disclosures surrounding such prior stock option granting practices. The plaintiff seeks, among other things, unspecified damages and disgorgement of profits from the alleged misconduct to be paid to the Company. The plaintiff also seeks the payment of his attorneys' fees. The Company does not believe that the suit will have a material adverse impact on the Company's financial condition, results of operations or cash flows. The Company will vigorously defend against this action.

The Company also is involved in numerous ongoing routine legal and regulatory proceedings related to its operations. While the ultimate disposition of each proceeding is not determinable, the Company does not believe that any of such proceedings, individually or in the aggregate, will have a material adverse effect on its financial condition, results of operations or cash flows.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

During the quarter two holders of convertible promissory notes of the Company elected to convert such notes into Company Common shares pursuant to the terms of the notes. On August 25, 2006 the Company issued 5,382 Common shares to one such holder and on September 6, 2006 the Company issued 3,918 Common shares to the other such holder. The Company issued the shares pursuant to the exemption from registration provided by Section 3(a)(9) of the Securities Act of 1933, based on the fact that the securities issued were exchanged by the Company with its existing security holders exclusively and no commission or other remuneration was paid or given directly or indirectly for soliciting such exchange.

Pursuant to a preexisting agreement, on August 28, 2006, the Company was obligated to award 7,780 delayed-vesting restricted stock units to its new Treasurer as an inducement for him to commence employment on that date. As a result of questions raised by counsel to the special subcommittee reviewing the Company's historical stock option granting practices concerning the legality under California law of delegation to the Company's Chief Executive Officer of authority to grant equity awards under the Company's 2006 Incentive Compensation Plan, the Company postponed the delivery of such award until the Company's Compensation Committee could ratify and approve it. The Compensation Committee ratified and approved the award on October 19, 2006. The Company, in consultation with its corporate counsel, has since concluded that the delegation of authority was appropriate under California law. In issuing the units the Company relied upon the exemption from registration provided by Section 4(2) of the Securities Act of 1933, based on the fact that the sole recipient was a sophisticated individual and had access to information relating to the Company and also was an accredited investor.

The following table describes purchases by the Company of the Company's Common shares which settled during each period set forth in the table. Prices in column (b) include commissions. Purchases described in column (c) were made pursuant to the share repurchase program announced by the Company on May 18, 2004. On May 19, 2005, the Company announced an amendment to this plan, which amendment increased the amount of shares that the Company may repurchase by \$100 million. On June 26, 2006 the Company announced a further amendment to the plan, increasing the amount of shares available for repurchase under the plan by an additional \$300 million. The amounts in column (d) reflect the effect of these amendments. Under this plan, which has no expiration date, the Company may repurchase up to \$500 million of the Company's issued and outstanding Common shares. As of September 30, 2006, the Company repurchased \$134 million (including commissions) of its shares and has the authority to repurchase an additional \$366 million (including commissions).
