## 2. Results of the Tender offer

(1) Status of tender

Class of shares	be purchased	be over purchased	tendered	purchased

Notes:

Total number of voting rights of all shareholders of the Target Company has been provided by the Target Company as the most recent information, sourced from its register of shareholders as of March 31, 2007. (3) Calculation method for shares purchased according to the Pro Rata method

As the total number of shares tendered (345,596 shares) exceeded the number of shares scheduled to be purchased (94,000 shares), as described in the public notice of commencement of the Tender Offer and the Tender Offer application, all or part of the excess portion will not be purchased and the Offeror will deliver and make other settlements with respect to the purchase of shares by persons other than the issuer pursuant to the Pro Rata Method stipulated in Article 27-13, Item 5 of the Law and Article 32 of the Ordinance.

As the rounding of fractions of a share due to use of the Pro Rata method resulted in the total number of shares purchased from tendering shareholders being greater than the scheduled number of shares to be purchased in the Tender Offer, the Offeror reduced by one share the number of shares purchased (or, if calculations according to use of the Pro Rata method results in a fractional number of shares, that fractional number of shares) from each tendering shareholder in descending order, beginning with shareholders that owned the most rounded-up shares, to the extent that the total number of shares purchased is not less than the number of shares scheduled to be purchased by Tender Offer. However, as reduction in the number of shares purchased by tender from more than one tendering shareholder subject to an equivalent amount of rounding by the use of this method resulted in a number of shares purchased that is less than the scheduled number to be purchased, purchase by tender from the equivalent group has been decided by the drawing of lots, to the extent that number shares purchased is not less than the total number of shares scheduled to be purchased.
