The members of the Audit Committee are Leonard P. Danna, its Chairman, Robert S. Throop and John W. Casey. The Board of Directors has determined that all of the members of the Audit Committee are independent within the meaning of the AMEX listed company rules and the enhanced independence requirements for audit committee members contained in Rule 10A-3 under the Securities Exchange Act of 1934, as amended. Our Board of Directors also has determined that each of Messrs. The Audit Committee has a written charter that specifies its responsibilities, which include oversight of the financial reporting process and system of internal accounting controls of the Company, and appointment and oversight of the independent registered public accounting firm engaged to audit the Company's financial statements. Interested stockholders can obtain a copy of that Charter at our Internet website at www.coastdistribution.com. To ensure independence, the Audit Committee meets separately with our outside auditors and members of management, respectively.

ITEM 11. EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Compensation Philosophy and Objectives

We believe that the success of our business and the creation of long term stockholder value depend to a large extent on our ability to retain and to attract superior management employees. Therefore, the Compensation Committee's primary objective, when setting management compensation, is to enable the Company to retain its existing and, when the need arises to attract new or additional, executive officers and other key management employees. Our Compensation Committee attempts to accomplish this objective by:

Offering competitive salaries and benefits to our Chief Executive Officers and our four other executive officers who are named in the Summary Compensation Table below (our Named Executive Officers or NEOs) and our other key management personnel;

Providing our NEOs and other key management employees the opportunity to earn additional compensation, in the form of bonuses, based on the achievement of defined annual corporate goals established by the Compensation Committee or on exceptional individual performance which the Compensation Committee believes has meaningfully contributed either to the current financial success of the Company or to positioning the Company for future growth and future financial success; and

Aligning the financial interests of our NEOs and other key management employees with those of our stockholders, primarily through the grant of stock options and other forms of equity-based compensation that reward the NEOs and other management employees for improvements in the market performance of our Common Stock.

It is the Compensation Committee's policy, as well, (i) to submit all stock incentive plans and programs under which those option and other equity based compensation awards are granted for approval by our stockholders, (ii) to place limits on the number of shares for which options or stock purchase rights may be granted under those programs and (iii) generally to provide for stock based compensation awards to become exercisable (i.e., vest) in annual installments over multi-year periods as a means of creating incentives for our officers and other key management employees to focus on achieving longer term corporate objectives and to remain in our employ.

The market for talented and experienced individuals is competitive nationally, and particularly in the San Francisco Bay Area where the Company is headquartered. While we consider peer groups, no single factor is determinative in setting compensation structure or allocating among elements of compensation. To ensure that we are appropriately compensating our NEOs and other key management employees and that we have appropriate human resources to execute on our business plans, our Compensation Committee and our Board incorporate all available information and use their judgment in making compensation decisions. The Compensation Committee performs annual reviews of our executive compensation programs to evaluate their competitiveness and consistency with our overall management compensation philosophy and objectives.

Elements of Compensation Package

We generally provide three major categories of compensation: (i) base salary; (ii) annual bonus compensation; and (iii) equity compensation, which has historically been in the form of stock option grants. We believe that the combination of these three elements enables us to retain existing and attract new management employees in the competitive local and national markets and to balance the motivation of all of our management employees to execute on immediate goals while remaining conscious of our strategic objectives and longer term goals.

The allocation of the individual components of compensation is based on a number of factors, including competitive market conditions and the positions of the management employees within our organization in terms of their ability to influence our financial performance. Generally, the percentage of compensation at risk, either in the form of bonus or equity compensation, is higher for our NEOs than for other management employees, because the performance of our NEOs has a greater impact on whether or not we achieve our strategic objectives and longer term goals.

Table of Contents

Salaries and Employee Benefits Programs

In order to retain executives and other key employees, and to be able to attract additional well-qualified executives when the need arises, Coast Distribution strives to offer salaries and health care and other employee benefit programs to its executives and other key management employees which are competitive with those offered by comparable businesses. In establishing salaries for executive officers, the Compensation Committee reviews (i) the historical performance of the executives; and (ii) available information regarding prevailing salaries and compensation programs offered by comparable businesses. Another factor which is considered in establishing salaries of our executive offers are the costs of living in the San Francisco Bay Area where the Company is headquartered, as such costs generally are higher than in other parts of the country.

Performance-Based Compensation

The Compensation Committee believes that, as a general rule, annual compensation in excess of base salaries should be made dependent primarily on our financial performance. Accordingly, early in each fiscal year, the Compensation Committee adopts an annual bonus compensation program for our NEOs and other key management personnel. The Committee establishes a range of net earnings or pre-tax earnings goals for the fiscal year and provides that if a minimum or threshold goal is achieved, a bonus pool will be established from which bonuses will be paid to participants in the program, including our NEOs. The amount of the bonus pool depends on the extent to which the threshold earnings goal is exceeded.

The earnings goals for each year's annual bonus program are established on the basis of the annual operating plan for that year that is initially developed by management and then is submitted to the Board of Directors for its review, possible modification and approval. The annual operating plan is designed to maximize the profitability of the Company within the constraints of prevailing economic and market conditions. In establishing the annual operating plan, the Board reviews market conditions and trends and other factors which, based on historical experience, can be expected to affect the Company's revenues and profitability, including historical operating costs, as adjusted for anticipated increases in costs resulting from pricing changes by vendors or changes in economic conditions, cost savings that management and the Board believe can be realized during the fiscal year, and competitive conditions in the Company's markets. By taking all of these factors into account, the earnings or target goal in the annual operating plan is fixed at what is believed to be a realistic level so as to make the incentives under the bonus program meaningful to executives and to avoid penalizing plan participants for conditions outside of their control.

The annual bonus pool is allocated by the Compensation Committee among the NEOs and other participants based on their seniority and the Committee's assessment of their contributions to the achievement of the annual earnings goal. As a result, generally the bonus compensation that is allocated to the NEOs is greater than for other participants in the program and bonus compensation generally represents a higher proportion of each NEO's total cash compensation than for other participants.

In certain instances, bonuses under an annual bonus program are awarded not only on the basis of the Company's profitability, but also on the achievement by an executive of specific objectives within his or her area of responsibility. For example, a bonus may be awarded for an executive's efforts in achieving greater than anticipated cost savings, or establishing new or expanding existing markets for the company's products.

As a result of these performance-based bonus programs, executive compensation generally increases in those years in which the Company's profitability increases. On the other hand, in years in which the Company experiences less than the anticipated profit growth, bonuses and total executive compensation tend to be lower.

Stock Options and Equity-Based Programs

In order to align the financial interests of our NEOs and other key management employees with those of our stockholders, the Committee grants stock options to them on a periodic basis and makes contributions to an employee stock purchase plan under which officers and employees (who own less than 5% of our outstanding shares) may elect to have a portion of their salaries withheld and used, together with Company's contributions, to purchase shares of our Common Stock. Stock option grants, in particular, reward senior executives and other key management employees for performance that results in increases in the market price of our Common Stock, which directly benefits all stockholders. Moreover, options generally are granted on terms which provide that they will become exercisable in cumulative annual installments over a three-to-five year period. The Compensation Committee believes that these features of the option

Table of Contents

grants not only provide an incentive for NEOs and other key management employees to remain in the employ of the Company, but also make the Company's earnings performance and longer term growth in the share prices important for the executives who receive stock option grants.

Timing of Option Grants. It is the Compensation Committee's policy to grant options only at regularly scheduled meetings of the Committee and all of the option grants to our NEOs and other key management employees in 2006 and 2005 were made at the first regularly scheduled meeting of the Committee held in the first quarter of those years.

Perquisites and Other Elements of Compensation

We do not provide perquisites, or perks to our NEOs.

Compensation of Chief Executive Officer

In July 2006, Mr. McGuire's base annual salary was increased to \$360,000 in order to bring his annual salary up to prevailing salaries being paid to chief executive officers at comparable companies. Mr. McGuire's base annual salary had not been increased during the previous five years, except for cost of living adjustments. His bonus compensation for fiscal 2006 consisted of \$85,000 in cash, which was paid during the first quarter of 2007, and which was lower than the bonus compensation that Mr. McGuire earned in 2005, because the Company's profitability in 2006 was lower than in 2005. At its first regularly scheduled meeting in 2006, the Compensation Committee granted Mr. McGuire options to purchase 10,000 shares of our Common Stock (i) at an exercise price of \$7.25 per share, which was equal to the closing per share price of our Common Stock on the American Stock Exchange on the date of that grant and (ii) on terms that provided for the options to vest in four equal annual cumulative installments of 25% of the shares covered by that option, commencing on the first anniversary of the date of grant, and to terminate on the fifth anniversary of the date of grant, to the extent not sooner exercised or terminated.

Compensation Review Process

At the end each fiscal year, our CEO prepares recommendations for each member of our executive team, excluding himself, with respect to annual adjustments in base salary, achievement of bonus awards and whether stock option grants should be made to them. The CEO presents his recommendations to the Compensation Committee for its consideration and approval. The recommendations take into account a variety of interrelated factors including achievement of our financial and operating performance goals, individual performance and contribution to Company successes, market competitive pressures, business conditions, the status of current equity grants with regard to vesting and retention value, and the potential financial impact on the Company of those recommendations.

Effective July 1, 2006, the base annual salaries of Ms. Knell and Messrs. Castagnola and Berger were increased by the Compensation Committee to \$200,000, 175,000, and \$150,000, respectively, to make their salaries more competitive with executive salaries being paid by comparable companies. Since those increases became effective as of July 1, 2006, their 2006 salaries, as set forth in the Summary Compensation Table below, reflect those increases only for the last six months of 2006.

Recommendations regarding changes to the CEO's compensation follow the same methodology as that of other NEOs; however, his performance is evaluated and any changes in compensation arrangements are independently determined and voted on by the Compensation Committee.

Our Compensation Committee is composed of three independent directors and operates pursuant to a written charter that further outlines its duties and responsibilities. The charter is periodically reviewed and revised by our Compensation Committee and our Board, and is accessible on our website at www.coastdistribution.com.

Employment Severance and Change of Control Agreements

We currently do not have any employment agreements, severance agreements or change of control agreements with our NEOs, nor any other arrangements or plans under which they would receive post-termination compensation other than insurance benefits.

Accounting and Tax Considerations

Tax and accounting implications are taken into consideration in the design and implementation of our management compensation programs. We recognize a charge to earnings for financial reporting purposes when stock options are granted, in accordance with SFAS 123R. We also considered the fact that our 401(k) Plan, in which all of our full-time employees are eligible to participate on a non-discriminatory basis, provides tax-advantaged retirement planning vehicles for our NEOs and other management employees.

Edgar Filing: COAST DISTRIBUTION SYSTEM INC - Form 10-K/A

In addition, Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code), provides that a company cannot deduct, for federal income tax purposes, compensation in excess of \$1,000,000 paid to certain highly compensated executive officers. This deduction limitation does not apply, however, to compensation which constitutes

Table of Contents

qualified performance-based compensation within the meaning of Section 162(m) of the Code under compensation plans or programs that have been approved by shareholders, such as such as grants of stock options or other equity incentives under the Company's existing stock incentive plans. We have considered the limitations on deductions imposed by Section 162(m) of the Code and it is our intention that substantially all executive compensation be designed to constitute qualified performance-based compensation and, therefore, tax deductible under Section 162(m), for so long as doing so is consistent with our overall compensation objectives. As a result, all of our executive compensation expenses were deductible in 2006. However, to maintain flexibility in compensating our executive officers in a manner designed to promote our compensation goals and objectives, our policy does not require that all executive compensation be deductible for income tax purposes.

Compensation Committee Interlocks and Insider Participation

In fiscal 2006, the members of the Compensation Committee were John W. Casey, the Committee Chair, and Robert S. Throop and Leonard P. Danna, each of whom is an independent director (within the meaning of the AMEX listed company rules). No executive officer of the Company served on the board of directors or compensation committee of any corporation or other entity which has one or more executive officers serving as members of the Company's Board of Directors or of its Compensation Committee.

Compensation Committee Report

The Compensation Committee of the Board of Directors has reviewed and discussed, with management, the Compensation Discussion and Analysis set forth above, and, based on that review and discussion, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in our Annual Report on Form 10-K for the year ended December 31, 2006, as amended, and in our proxy statement for the 2007 annual meeting of stockholders.

Pension Benefits in Fiscal 2006

We do not provide pension arrangements or post-retirement health coverage for our NEOs or other employees. Our NEOs, as well as all other full time employees, are eligible to participate in our 401(k) defined contribution plan.

Nonqualified Deferred Compensation in Fiscal 2006

We do not offer any nonqualified deferred compensation programs to our NEOs or any other employees.

Potential Payments on Termination or Change of Control

We currently do not have employment agreements, severance agreements, change of control agreements or any other form of agreement with our NEOs which provides for the payment of compensation or non-equity awards or the provision of benefits on a termination of employment or as a result of a change of control transaction, except for health or other insurance coverage that may continue following a termination of employment. Our stock incentive plans provide that all unvested options, whether held by the NEOs or other employees, will become vested on a change of control of the Company unless the party acquiring control of the Company agrees to assume or substitute comparable equity incentives for those outstanding options.

Table of Contents**Director s Compensation**

Only non-employee directors receive compensation for service on the Board of Directors and Committees of the Board. In 2006, non-employee directors were paid a retainer of \$8,000 per year and a fee of \$2,000 for (i) attendance at each Board of Directors meeting, and (ii) each Committee meeting that was held on a date other than a date on which a Board meeting was held. Non-employee directors were reimbursed for their out-of-pocket expenses incurred in attending those meetings.

Pursuant to the Company s employee stock incentive plans, each year each of the non-employee directors is automatically granted an option to purchase 2,000 shares of Common Stock at an exercise price that is equal to the fair market value of the Company s shares on the date of grant, as reported by AMEX. These options become fully exercisable six months after the date of grant. Upon joining the Board, each new non-employee director receives an option to purchase 2,000 shares, which becomes exercisable in full one year after the date of grant.

The following table sets forth, for each non-employee director, information regarding the cash compensation paid and the stock options granted for service on the Board and its Committees during 2006.

Name	Fees Earned or Paid in Cash(\$)⁽¹⁾	Option Awards (\$)⁽²⁾	All Other Compensation (\$)	Total
John W. Casey	\$ 30,000	\$ 9,429		\$ 39,429

Ben A. Frydman	\$ 26,000	\$ 9,429		\$ 35,429
Robert S. Throop	\$ 28,000	\$ 9,429		\$ 37,429

(1) This column reports the amount of cash compensation earned in 2006 for board and committee service.

(2) Amounts shown reflect the compensation cost recognized in 2006 with respect to stock option awards granted during 2006 and previous years, as determined in accordance with FAS 123R (except that estimated forfeitures have been disregarded for this purpose). The assumptions used to determine these amounts are discussed in Note A of the Notes to Consolidated Financial Statements in our Annual Report on Form 10-K for the fiscal year ended December 31, 2006. There were no forfeitures of stock options by our directors during 2006.

The number of shares subject to outstanding stock options held by each director at December 31, 2006 were: Mr. Casey 18,000; Mr. Danna 8,000; Mr. Frydman 18,000; and Mr. Throop 8,000.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Since January 1, 2006, there has not been nor is there currently proposed any transaction or series of similar transactions to which we were or are to be a party and in which any Director, NEO, or holder of more than 5% of our common stock, or any member of the immediate family of any of the foregoing persons, had or will have a direct or indirect material interest.

Director Independence

To be considered independent, the Board must affirmatively determine that a director does not have any direct or indirect material relationship with Coast that, in the opinion of the Board, would interfere with the exercise of that director's independent judgment in carrying out his responsibilities as a director. Pursuant to Coast's corporate governance guidelines, a director will not be independent if:

Within the preceding three years:

The director was employed by Coast;

An immediate family member of the director was employed as an executive officer of Coast;

Edgar Filing: COAST DISTRIBUTION SYSTEM INC - Form 10-K/A

The director was employed by or affiliated with, or an immediate family member of the director was employed in a professional capacity by or affiliated with, Coast's independent registered public accounting firm;

A present Coast executive officer was on the compensation committee of the board of directors of a company that concurrently employed the Coast director, or that concurrently employed an immediate family member of the director as an executive officer

The director received, or an immediate family member of the director received, more than \$60,000 in direct compensation from Coast during any 12 month period within the preceding three years, other than director and committee fees and any deferred compensation for prior service (provided such compensation is not contingent in any way on continued service with the Company);
or

The director, or an immediate family member of the director, is a partner, executive officer, or controlling stockholder of another company or professional entity (including any law firm or

Table of Contents

investment banking firm) to which Coast made, or from which Coast received, payments for property or services in the current or any of the past three fiscal years that exceeded 5% of consolidated gross revenues of that company or professional entity for that year, or \$200,000, whichever was more.

On the basis of the above criteria, the Board has determined that, with the exception of Mr. McGuire, who is Coast Distribution's CEO, all of the directors are independent including Ben A. Frydman. In determining that Mr. Frydman is independent, the other independent directors considered the fact that Mr. Frydman is a stockholder in the law firm of Stradling Yocca Carlson & Rauth, which provided legal services to Coast during the past three years and is providing legal services to Coast in 2006. However, on the basis of the criteria set forth above and their evaluation of Mr. Frydman's past performance as a director, the other independent directors determined that his relationship did not interfere with the exercise of his independent judgment in carrying out his responsibilities as a director of Coast Distribution.
