-

Item 2.02. Results of Operations and Financial Condition

This information shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the Exchange Act), or incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing.

On July 30, 2007, Sun Microsystems, Inc. (Sun) issued a press release regarding Sun's financial results for the fiscal quarter ended June 30, 2007. The full text of Sun's press release, together with the related Condensed Consolidated Statements of Operations, Condensed Consolidated Balance Sheets, Condensed Consolidated Statements of Cash Flows, Non-GAAP Calculation of Net Income (Loss) Excluding Special Items and Operations Analysis Consolidated, are attached hereto as Exhibit 99.1.

The Non-GAAP Calculation of Net Income (Loss) Excluding Special Items and the Operations Analysis contain non-GAAP presentations of net income (loss) and EPS (basic and diluted), which exclude certain items below the presentation of the GAAP presentations of net income (loss) and EPS (basic and diluted). The excluded items include purchased in-process research and development; restructuring and related impairments of long-lived assets; loss (gain) on equity investments, net; impairment expense; settlement income; valuation allowance on deferred tax assets; and related tax effects. Purchased in-process research and development, and impairment expense are primarily related to the effect of Sun's acquisition activity. Restructuring charges are related to Sun's restructuring plans, including reductions to Sun's workforce, elimination of excess facility capacity and other actions. Loss (gain) on equity investments, net, shows the effect of our investment portfolio management. Settlement income is a result of our settlement with Microsoft.

To supplement Sun's consolidated financial statements presented in accordance with GAAP, Sun provides non-GAAP net income (loss) and non-GAAP net income (loss) per share data. The presentation of these non-GAAP financial measures should be considered in addition to Sun's GAAP results and is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with GAAP.

Sun's management believes that these non-GAAP financial measures provide meaningful supplemental information regarding Sun's performance by excluding certain charges, gains and tax effects that may not be indicative of Sun's core business operating results. Sun believes that both management and investors benefit from referring to these non-GAAP financial measures in assessing Sun's performance. These non-GAAP financial measures also facilitate comparisons to Sun's historical performance and Sun's competitors' operating results. Sun includes these non-GAAP financial measures because Sun believes they are useful to investors in allowing for greater transparency with respect to supplemental information used by management in its financial and operational decision making. Non-GAAP measures are reconciled to comparable GAAP measures in the table entitled Non-GAAP Calculation of Net Income (Loss) Excluding Special Items following the text of the press release attached hereto as Exhibit 99.1.

Item 9.01. Financial Statements and Exhibits

(d) Exhibits
