AVALON HOLDINGS CORPORATION AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements

(Unaudited)

September 30, 2007

Note 1. Basis of Presentation

The unaudited condensed consolidated financial statements of Avalon Holdings Corporation and subsidiaries (collectively "Avalon") and related notes included herein have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been omitted consistent with such rules and regulations. The accompanying unaudited condensed consolidated financial statements and related notes should be read in conjunction with the consolidated financial statements and related notes included in Avalon's 2006 Annual Report to Shareholders.

In the opinion of management, these unaudited condensed consolidated financial statements include all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of the financial position of Avalon as of September 30, 2007, and the results of its operations and cash flows for the interim periods presented.

The operating results for the interim periods are not necessarily indicative of the results to be expected for the full year.

Note 2. Basic Net Income (Loss) Per Share

Basic net income (loss) per share has been computed using the weighted average number of common shares outstanding each period, which was 3,803,331. There were no common equivalent shares outstanding and therefore, diluted per share amounts are equal to basic per share amounts for the three and nine months ended September 30, 2007 and 2006.

Note 3. Comprehensive Income

Comprehensive income is comprised of two components: net income and other comprehensive income. Comprehensive income is the change in equity during a period from transactions and other events and circumstances from non-owner sources. Comprehensive income, net of related tax effects, is as follows (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2007	2006	2007	2006
Net income	\$ 547	\$ 501	\$ 1,262	\$ 984
Unrealized gain on available-for-sale securities		2		10
Comprehensive income	\$ 547	\$ 503	\$ 1,262	\$ 994

Note 4. Discontinued Operations

In January 2004, Avalon sold all of the fixed assets of the remediation business and discontinued the operations of the engineering and consulting business. All income and expenses relating to these operations are included in discontinued operations.

Table of Contents

In the second quarter of 2007, Avalon's remediation business agreed to a settlement of \$115,000 from its customer for the payment of services provided on a project in 2002. The settlement is included in discontinued operations in the Condensed Consolidated Statements of Operations for the nine months ended September 30, 2007. The monies were received in May 2007 and are included in the Condensed Consolidated Statements of Cash Flows under the caption "Net cash provided by operating activities from discontinued operations" for the nine months ended September 30, 2007.

In the second quarter of 2006, Avalon determined that the remediation business was no longer obligated to pay the remaining accounts payable associated with a project from 2001 due to a settlement reached with its customer through arbitration. Therefore, Avalon wrote off approximately \$4 million of accounts payable and such amount is included in discontinued operations in the Condensed Consolidated Statements of Operations for the nine months ended September 30, 2006.

Concurrent with the decision to discontinue the technical environmental engineering and consulting business, Avalon decided to sell the building associated with the technical environmental services operations. Avalon sold the building in May, 2006 and received \$1.8 million which represented the selling price less the costs to sell the building and is included in the Condensed Consolidated Statements of Cash Flows under the caption "Net cash provided by investing activities from discontinued operations" for the nine months ended September 30, 2006. Avalon incurred a loss of approximately \$20,000 on the sale of the building which is included in discontinued operations.

Note 5. Legal Matters

In the ordinary course of conducting its business, Avalon becomes involved in lawsuits, administrative proceedings and governmental investigations, including those related to environmental matters. Some of these proceedings may result in fines, penalties or judgments being assessed against Avalon which, from time to time, may have an impact on its business and financial condition. Although the outcome of such lawsuits or other proceedings cannot be predicted with certainty, Avalon does not believe that any uninsured ultimate liabilities, fines or penalties resulting from such pending proceedings, individually or in the aggregate, will have a material adverse effect on its financial position or results of operations.

Note 6. Business Segment Information

In applying Statement of Financial Accounting Standards (SFAS) No. 131, "Disclosures About Segments of an Enterprise and Related Information", Avalon considered its operating and management structure and the types of information subject to regular review by its chief operating decision maker. On this basis, Avalon's reportable segments include waste management services and golf and related operations. Avalon accounts for intersegment net operating revenues as if the transactions were with third parties. The segment disclosures are presented on this basis for all periods presented.

Avalon's primary business segment, the waste management services segment, provides hazardous and nonhazardous waste disposal brokerage and management services to industrial, commercial, municipal and governmental customers and manages a captive landfill for an industrial customer. The golf and related operations segment includes the operations of golf courses, a travel agency and clubhouses that provide recreational, dining and banquet facilities.

Table of Contents

Revenue for the golf and related operations segment consists primarily of membership dues, merchandise, and food and beverage sales. Revenue related to membership dues are recognized proportionately over twelve months. The unrecognized or deferred revenues at September 30, 2007 and December 31, 2006 were \$1.9 million and \$1.7 million, respectively, and are included in the Condensed Consolidated Balance Sheets under the caption Other liabilities and accrued expenses. Avalon does not have significant operations located outside the United States and, accordingly, geographical segment information is not presented.

For the nine months ended September 30, 2007 and 2006, no customer accounted for ten percent or more of Avalon's consolidated net operating revenues.

The accounting policies of the segments are consistent with those described for the consolidated financial statements in the summary of significant accounting policies. Avalon measures segment profit for internal reporting purposes as income from continuing operations before taxes. Business segment information including the reconciliation of segment income before taxes to income from continuing operations before taxes is as follows (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30,	2006	September 30,	2006
	2007	2006	2007	2006
Net operating revenues from:				
Waste management services:

Total waste management services	9,589	9,036	29,159	24,658
Golf and related operations:				
External customers revenues	2,550	2,094	5,836	4,626
Intersegment revenues	12	17	38	42
Total golf and related operations	2,562	2,111	5,874	4,668
Segment operating revenues	12,151	11,147	35,033	29,326
Intersegment eliminations	(12)	(17)	(50)	(42)
Total net operating revenues	\$ 12,139	\$ 11,130	\$ 34,983	\$ 29,284
Income (loss) from continuing operations before taxes:				
Waste management services	\$ 946	\$ 863	\$ 2,840	\$ 2,274
Golf and related operations	155	112	(161)	(183)
Segment income before taxes	1,101	975	2,679	2,091
Corporate interest income	71	149	303	365
Corporate other income, net	3	5	7	10
General corporate expenses	(601)	(626)	(1,810)	(1,844)
Income from continuing operations before taxes	\$ 574	\$ 503	\$ 1,179	\$ 622
Interest income:				
Waste management services	\$ 20	\$ 22	\$ 66	\$ 65
Golf and related operations	3	2	10	7
Corporate	71	149	303	365

Total	\$	94	\$	173	\$	379	\$	437
-------	----	----	----	-----	----	-----	----	-----

Table of Contents

	September 30, 2007	December 31, 2006
Identifiable assets:		
Waste management services	\$ 10,548	\$ 8,082
Golf and related operations	30,234	21,188
Corporate	37,251	37,587
Subtotal	78,033	66,857
Elimination of intersegment receivables	(29,900)	(20,906)
Total	\$ 48,133	\$ 45,951

The increase in the identifiable assets of the waste management services segment is primarily due to an increase in intersegment transactions which are eliminated in consolidation. The increase in identifiable assets of the golf and related operations segment is primarily due to capital expenditures for the construction and renovation of the Sharon Country Club facility.

Note 7. Recently Issued Financial Accounting Standards

Avalon adopted the provisions of Financial Accounting Standards Board (FASB) Interpretation 48 (FIN 48), Accounting for Uncertainty in Income Taxes on January 1, 2007. As required by FIN 48, which clarifies FASB 109, Accounting for Income Taxes, Avalon recognizes the financial statement benefit of a tax position, only after determining that the relevant tax authority would be more likely than not to sustain the position following an audit. For tax positions meeting the more-likely-than-not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement with the relevant tax authority. At the adoption date, Avalon applied FIN 48 to all tax positions for which the statute of limitations remained open. The adoption of FIN 48 had no material impact on Avalon's financial position or results of operations for the first nine months of 2007 and required no adjustment to the opening balance sheet accounts as of December 31, 2006.

Avalon is subject to income taxes in the U.S. federal and various states jurisdictions. With few exceptions, Avalon is no longer subject to U.S. federal, state and local income tax examinations by taxing authorities for the years before 2003.

Avalon recognizes any interest and penalty assessed by taxing authorities as a component of interest expense and other expense, respectively. Avalon's accruals for the payment of interest and penalties at January 1, 2007 and for the nine months ended September 30, 2007 were not material.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements (SFAS No. 157), which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. SFAS No. 157 does not require any new measurements, but provides guidance on how to measure fair value by providing a fair value hierarchy used to classify the source of information. This statement is effective for Avalon beginning January 1, 2008. Avalon is currently assessing the potential impact that the adoption of SFAS No. 157 will have on its financial statements.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion provides information which management believes is relevant to an assessment and understanding of the operations and financial condition of Avalon Holdings Corporation and its subsidiaries. As used in this report, the term "Avalon" means Avalon Holdings Corporation and its wholly owned subsidiaries, taken as a whole, unless the context indicates otherwise.

Statements included in Management's Discussion and Analysis of Financial Condition and Results of Operations which are not historical in nature are intended to be, and are hereby identified as, "forward looking statements." Avalon cautions readers that forward looking statements, including, without limitation, those relating to Avalon's future business prospects, revenues, working capital, liquidity, capital needs, interest costs, and income, are subject to certain risks and uncertainties that could cause actual results to differ materially from those indicated in the forward looking statements, due to risks and factors identified herein and from time to time in Avalon's reports filed with the Securities and Exchange Commission.

Liquidity and Capital Resources

For the first nine months of 2007, Avalon utilized existing cash and cash provided from operations to fund capital expenditures and meet operating needs.

Avalon's aggregate capital expenditures in 2007 are expected to be in the range of \$10.5 million to \$11.5 million. Such expenditures will principally relate to the construction costs of renovating and building additional banquet and recreational facilities at the Sharon Country Club, which was purchased in October 2006. The construction and renovation is expected to be completed in the fourth quarter of 2007. During the first nine months of 2007, capital expenditures for Avalon totaled approximately \$9.1 million which was principally related to such construction costs.

Avalon entered into a long-term agreement with Squaw Creek Country Club to lease and operate its golf course and related facilities. The lease, which commenced November 1, 2003, has an initial term of ten (10) years with four (4) consecutive ten (10) year renewal term options unilaterally exercisable by Avalon. Under the lease, Avalon is obligated to pay \$15,000 in annual rent and make leasehold improvements of \$150,000 per year. Amounts expended by Avalon for leasehold improvements during a given year in excess of \$150,000 will be carried forward and applied to future leasehold improvement obligations. Avalon has made approximately \$6.6 million of leasehold improvements as of September 30, 2007. Based upon the amount of leasehold improvements already made and leasehold improvements anticipated to be made in the future, Avalon expects to exercise all of its renewal options.

Working capital was \$6.7 million at September 30, 2007 compared with \$13.7 million at December 31, 2006. The decrease is primarily due to utilizing cash for the construction and renovation of the Sharon Country Club and an increase in accounts payable relating to such construction. Such decrease was partially offset by an increase in accounts receivable of the golf and related operations segment as a result of an increase in the membership of the Avalon Golf and Country Club.

Table of Contents

The increase in other liabilities and accrued expenses at September 30, 2007 compared with December 31, 2006 is primarily due to an increase in deferred revenues relating to membership dues of the golf and related operations segment. Such deferred revenues increased from \$1.7 million at December 31, 2006 to \$1.9 million at September 30, 2007.

Management believes that anticipated cash provided from future operations, existing working capital, as well as Avalon's ability to incur indebtedness, will be, for the foreseeable future, sufficient to meet operating requirements and fund capital expenditure programs. Avalon does not currently have a credit facility.

Several private country clubs in the northeast Ohio area are experiencing economic difficulties. Avalon believes some of these clubs may represent an attractive investment opportunity and is giving consideration to the possibility of acquiring one or more additional golf courses. Avalon will continue to consider acquisitions that make economic sense. Such potential acquisitions could be financed by existing working capital, secured or unsecured debt, issuance of common stock, or issuance of a security with characteristics of both debt and equity, any of which could impact liquidity in the future.

Results of Operations

Overall performance

Net operating revenues in the third quarter of 2007 increased to \$12.1 million compared with \$11.1 million in the prior year's third quarter. The increase is primarily the result of higher net operating revenues of the waste management services segment and, to a lesser extent, an increase in the net operating revenues of the golf and related operations segment. Costs of operations increased to \$10.2 million in the third quarter of 2007 compared with \$9.2 million in the prior year's third quarter. The increase is primarily the result of an increase in transportation and disposal costs, which vary directly with the higher net operating revenues of the waste brokerage and management services business. Consolidated selling, general and administrative expenses decreased to \$1.5 million in the third quarter of 2007 compared with \$1.6 million in the third quarter of 2006. Avalon recorded income from continuing operations of \$547,000 or \$.14 per share, in the third quarter of 2007 compared with \$503,000 or \$.13 per share, in the third quarter of 2006.

For the first nine months of 2007, net operating revenues increased to \$35 million compared with \$29.3 million for the first nine months of 2006. The increase is primarily the result of higher net operating revenues of the waste management services segment and, to a lesser extent, an increase in the net operating revenues of the golf and related operations segment. Costs of operations were \$29.3 million for the first nine months of 2007 compared with \$24.5 million for the first nine months of 2006. The increase is primarily the result of an increase in transportation and disposal costs of the waste brokerage and management services business, which vary directly with net operating revenues. Consolidated selling, general and administrative expenses increased to \$4.9 million for the first nine months of 2007 compared with \$4.7 million for the first nine months of 2006. Avalon recorded income from continuing operations of \$1.1 million or \$.30 per share, for the first nine months of 2007 compared with \$.6 million or \$.16 per share, for the prior year period.

Table of Contents

Performance in the Third Quarter of 2007 compared with the Third Quarter of 2006

Segment performance

Segment performance should be read in conjunction with Note 6 to the Condensed Consolidated Financial Statements.

Net operating revenues of the waste management services segment increased to \$9.6 million in the third quarter of 2007 compared with \$9.0 million in the third quarter of the prior year. The increase is primarily due to an increase in the level of waste brokerage and management services provided and an increase in the volume of waste disposed of at the captive landfill operations. Although net operating revenues increased, average gross margins decreased due to lower gross margins on certain large projects of the waste brokerage and management services business. Income from continuing operations before taxes for the waste management services segment increased to \$946,000 in the third quarter of 2007 compared with \$863,000 in the third quarter of the prior year primarily as a result of a decrease in the provision for losses on accounts receivable of the waste brokerage and management services business. Income from continuing operations before taxes of the captive landfill operations increase slightly in the third quarter of 2007 compared with the third quarter of the prior year as a result of the increase in the volume of waste disposed.

Net operating revenues of the golf and related operations were \$2.6 million in the third quarter of 2007 compared with \$2.1 million in the third quarter of the prior year. The increase in net operating revenues is primarily due to an increase in membership dues as a result of a higher average number of members in the third quarter of 2007 compared with the third quarter of 2006 and increased cart rentals, green fees, food and beverage sales. The golf and related operations segment recorded income from continuing operations before taxes of \$.2 million in the third quarter of 2007 compared with \$.1 million in the third quarter of 2006. The increase is primarily due to the increase in net operating revenues, partially offset by the additional costs associated with the Sharon Country Club, while the facility is closed for construction and renovation.

Interest income

Interest income was \$.1 million in the third quarter of 2007 compared with \$.2 million in the third quarter of 2006. The decrease is primarily the result of lower average cash and cash equivalents invested during the third quarter of 2007 compared with the third quarter of the prior year.

General corporate expenses

General corporate expenses were \$.6 million in both the third quarter of 2007 and 2006.

Net income

Avalon recorded net income of \$.5 million in both the third quarter of 2007 and 2006. Avalon's overall effective tax rate, excluding the effect of state income tax provisions, was 0% in the third quarter of 2007 and 2006. The income tax provision in both the third quarter of 2007 and 2006 was offset by a change in the valuation allowance. A valuation allowance is provided when it is more likely than not that deferred tax assets relating to certain federal and state loss carryforwards will not be realized. The overall effective tax rate is different than statutory rates primarily due to a change in the valuation allowance.

Table of Contents

Performance in the first nine months of 2007 compared with the first nine months of 2006

Segment performance

Segment performance should be read in conjunction with Note 6 to the Condensed Consolidated Financial Statements.

Net operating revenues of the waste management services segment increased to \$29.2 million in the first nine months of 2007 compared with \$24.7 million in the first nine months of the prior year. The increase in net operating revenues is primarily the result of an increase in the level of waste brokerage and management services provided. Net operating revenues of the captive landfill management operations also increased in the first nine months of 2007 compared with the first nine months of 2006 primarily due to an increase in the volume of waste disposed of at the landfill. Income from continuing operations before taxes for the waste management services segment increased to \$2.8 million in the first nine months of 2007 compared with \$2.3 million in the first nine months of the prior year, primarily as a result of the increase in the level of the waste brokerage and management services provided. Income from continuing operations before taxes of the captive landfill management operations increased slightly in the first nine months of 2007 compared with the first nine months of 2006 as a result of an increase in the volume of waste disposed.

Net operating revenues of the golf and related operations segment were \$5.9 million in the first nine months of 2007 compared with \$4.7 million in the first nine months of the prior year. The golf courses, which are located in northeast Ohio and western Pennsylvania, were unavailable for play during the first three months of 2007 and 2006 due to adverse weather conditions. The increase in net operating revenues is primarily due to an increase in membership dues as a result of a higher average number of members during the first nine months of 2007 compared with the first nine months of 2006 and increased cart rentals, green fees, merchandise, food and beverage sales. The golf and related operations segment incurred a loss from continuing operations before taxes of \$.2 million in both the first nine months of 2007 and 2006. Although the loss from continuing operations before taxes for the first nine months of 2007 was relatively the same as the first nine months of 2006, the results of 2007 were negatively impacted by the settlement of an employment contract dispute and the additional costs associated with the Sharon Country Club, while the facility is closed for construction and renovation.

Interest income

Interest income was \$379,000 in the first nine months of 2007 compared with \$437,000 in the first nine months of 2006. The decrease is primarily the result of a lower amount of average cash and cash equivalents invested during the first nine months of 2007 compared with the first nine months of the prior year.

General corporate expenses

General corporate expenses were \$1.8 million in both the first nine months of 2007 and 2006.

Table of Contents

Net income

Avalon recorded net income of \$1.3 million in the first nine months of 2007 compared with net income of \$1 million in the first nine months of the prior year. Avalon's overall effective tax rate, excluding the effect of state income tax provisions, was 0% in both the first nine months of 2007 and 2006. The income tax provision for the first nine months of 2007 and 2006 were offset by a change in the valuation allowance. A valuation allowance is provided when it is more likely than not that deferred tax assets relating to certain federal and state loss carryforwards will not be realized. The overall effective tax rate differs from statutory rates primarily due to the change in the valuation allowance.

Trends and Uncertainties

In the ordinary course of conducting its business, Avalon becomes involved in lawsuits, administrative proceedings and governmental investigations, including those relating to environmental matters. Some of these proceedings may result in fines, penalties or judgments being assessed against Avalon which, from time to time, may have an impact on its business and financial condition. Although the outcome of such lawsuits or other proceedings cannot be predicted with certainty, management assesses the probability of loss and accrues a liability as appropriate. Avalon does not believe that any uninsured ultimate liabilities, fines or penalties resulting from such pending proceedings, individually or in the aggregate, will have a material adverse effect on its financial position or results of operations.

The Board of Directors of Avalon has explored the possibility of delisting Avalon's common stock by reducing the number of shareholders of record below 300, thereby eliminating the requirements for compliance with the Sarbanes-Oxley Act (the Act). Avalon believes compliance with the requirements of the Act could be very costly. The Board of Directors has decided not to pursue delisting at this time, but intends to review the situation again as future developments warrant.

The federal government and numerous state and local governmental bodies are continuing to consider legislation or regulations to either restrict or impede the disposal and/or transportation of waste. A portion of Avalon's waste brokerage and management services revenues is derived from the disposal and/or transportation of out-of-state waste. Any law or regulation restricting or impeding the transportation of waste or the acceptance of out-of-state waste for disposal could have a negative effect on Avalon.

Avalon's waste disposal brokerage and management operations obtain and retain customers by providing services and identifying cost-efficient disposal options unique to a customer's needs. Consolidation within the solid waste industry has resulted in reducing the number of disposal options available to waste generators and may cause disposal pricing to increase. In addition, consolidation has had the effect of reducing the number of competitors offering disposal alternatives which may adversely impact the future financial performance of Avalon's waste disposal brokerage and management operations.

A significant portion of Avalon's business is generated from waste brokerage and management services provided to customers and is not subject to long-term contracts. In light of current economic, regulatory and competitive conditions, there can be no assurance that Avalon's current customers will continue to transact business with Avalon at historical levels. Failure by Avalon to retain its current customers or to replace lost business could adversely impact the future financial performance of Avalon.

Table of Contents

Avalon's captive landfill management business is dependent upon a single customer as its sole source of revenue. If the captive landfill management business is unable to retain this customer, Avalon's future financial performance could be adversely impacted.

Economic challenges throughout the industries served by Avalon have resulted in payment defaults by customers. While Avalon continuously endeavors to limit customer credit risks, customer-specific financial downturns are not controllable by management. Significant customer payment defaults would have a material adverse impact upon Avalon's future financial performance.

The Avalon Golf and Country Club has a championship golf course and clubhouse at both the Avalon Lakes and Squaw Creek facilities. The Squaw Creek facility also has a swimming pool, tennis courts, a fitness center and dining and banquet facilities. In addition, in October 2006 Avalon purchased the primary assets of the Sharon Country Club, which includes a golf course and clubhouse. Currently, Avalon is renovating the clubhouse and constructing additional banquet and recreational facilities. The Avalon Golf and Country Club competes with many public courses and country clubs in the area. Although the golf courses continue to be available to the general public, the primary source of revenues is derived from the members of the Avalon Golf and Country Club. Avalon believes that the combination of these three facilities will result in a significant increase in the number of members of the Avalon Golf and Country Club. Although there has been a continual increase in the number of members of the Avalon Golf and Country Club, as of September 30, 2007, Avalon has not attained its membership goals. There can be no assurance as to when such increased membership will be attained and when the golf and related operations will ultimately become profitable. Failure by Avalon to attain increased membership could adversely affect the future financial performance of Avalon.

All three of Avalon's golf course operations currently hold liquor licenses for their respective facilities. If, for some reason, any one of these facilities were to lose its liquor license, the financial performance of the golf and related operations would be adversely affected.

Avalon's operations are somewhat seasonal in nature since a significant portion of those operations are primarily conducted in selected northeastern and midwestern states. Additionally, Avalon's golf courses are located in northeast Ohio and western Pennsylvania and are significantly dependent upon weather conditions during the golf season. As a result, Avalon's financial performance is adversely affected by adverse weather conditions.

Management is currently evaluating Avalon's strategic direction for the future. While there are no specific transactions under negotiation or pending at this time, Avalon does not necessarily intend to limit itself in the future to lines of business which it has historically conducted.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Avalon does not have significant exposure to changing interest rates. A 10% change in interest rates would have an immaterial effect on Avalon's income before taxes for the next fiscal year. Avalon currently has no debt outstanding and invests primarily in Certificates of Deposit, U.S. Treasury notes, short-term money market funds and other short-term obligations. Avalon does not undertake any specific actions to cover its exposure to interest rate risk and Avalon is not a party to any interest rate risk management transactions. Avalon does not purchase or hold any derivative financial instruments.

Item 4. Controls and Procedures

Avalon's management, including the Chief Executive Officer and Chief Financial Officer, has conducted an evaluation of the effectiveness of disclosure controls and procedures pursuant to Exchange Act Rule 13a-14. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the disclosure controls and procedures are effective in ensuring that all material information required to be filed in this quarterly report has been made known to them in a timely fashion. There have been no significant changes in internal controls, or in factors that could significantly affect internal controls, subsequent to the date the Chief Executive Officer and Chief Financial Officer completed their evaluation.
