Notes to Consolidated Financial Statements

As of November 30, 2007 and for the

Three and Nine Months Ended November 30, 2007 and 2006

(unaudited)

1. Background Information

American Commerce Solutions, Inc. was incorporated in Rhode Island in 1991 under the name Jaque Dubois, Inc., and was re-incorporated in Delaware in 1994. In July 1995, Jaque Dubois, Inc. changed its name to JD American Workwear, Inc. In December 2000, the stockholders voted at the annual stockholders meeting to change the name of JD American Workwear, Inc. to American Commerce Solutions, Inc. (the Company).

The Company is primarily a holding company with two wholly owned subsidiaries; International Machine and Welding, Inc. is engaged in the machining and fabrication of parts used in industry, and parts sales and service for heavy construction equipment; Chariot Manufacturing Company, which was acquired on October 11, 2003 from a related party, manufactures motorcycle trailers with fiberglass bodies.

2. Stock Based Compensation

At November 30, 2007, the Company has two stock-based employee compensation plans, all of which have been approved by the shareholders.

The Company previously applied the intrinsic value method provisions of Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees*, and related interpretations for stock-based compensation. Accordingly, the Company recognized compensation expense on our restricted stock awards, but no compensation expense was recognized for fixed option plans as all option grants under the plan had an exercise price equal or greater to the fair market value of the underlying common stock on the date of grant. As permitted, the Company had previously elected to adopt the disclosure-only provisions of Statement of Financial Accounting Standard No. 123, *Accounting for Stock-Based Compensation*.

In December 2004, the FASB issued SFAS No. 123 (revised 2004), *Share-Based Payment* (SFAS 123R), which replaces SFAS No. 123; *Accounting for Stock-Based Compensation*, (SFAS 123) and supersedes APB Opinion No. 25, *Accounting for Stock Issued to Employees*, (APB 25). SFAS 123R requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values. Under SFAS 123R, the Company is required to measure the cost of employee services received in exchange for stock options and similar awards based on the grant-date fair value of the award and recognize this cost in the income statement over the period during which an employee is required to provide service in exchange for the award. The pro forma disclosures previously permitted under SFAS 123 are no longer an alternative to financial statement recognition. The Company adopted SFAS 123R on March 1, 2006 using the modified prospective method, which did not require the recognition of any non-cash charges, as there were no unvested stock options on that date.

The fair value concepts were not changed significantly in FAS 123R; however, in adopting FAS 123R, companies must choose among alternative valuation models and amortization assumptions. After assessing alternative valuation models and amortization assumptions, the Company will continue using the Black-Scholes valuation model and has elected to use the ratable method to amortize compensation expense over the vesting period of the grant.

The value of each grant under FAS 123R is estimated at the grant date using the Black-Scholes option model. There were no options granted during the nine months ended November 30, 2007 and 2006.

3. Going Concern

The Company has incurred substantial operating losses since inception and has used approximately \$293,300 of cash in operations for the nine months ended November 30, 2007. The Company recorded losses from continuing operations of approximately \$207,600 and \$763,200 for the three and nine months ended

Table of Contents

November 30, 2007. Current liabilities exceed current assets by approximately \$1,742,800 at November 30, 2007. Additionally, the Company is in default on several notes payable. The ability of the Company to continue as a going concern is dependent upon its ability to reverse negative operating trends, raise additional capital, and obtain debt financing.

Management has revised its business strategy to include expansion into other lines of business through the acquisition of other products to manufacture. Management will continue to seek new sources of financing at more favorable terms. However, there can be no assurance that the Company will be able to raise capital, obtain debt financing, or improve operating results sufficiently to continue as a going concern.

The accompanying consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classification of liabilities that might be necessary if the Company is unable to continue as a going concern.

4. Basis of Presentation

In the opinion of management, all adjustments consisting only of normal recurring adjustments necessary for a fair statement of (a) the results of operations for the three and nine month periods ended November 30, 2007 and 2006, (b) the financial position at November 30, 2007, and (c) cash flows for the nine month periods ended November 30, 2007 and 2006, have been made.

The unaudited consolidated financial statements and notes are presented as permitted by Form 10-QSB. Accordingly, certain information and note disclosures normally included in consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted. The accompanying consolidated financial statements and notes should be read in conjunction with the audited consolidated financial statements and notes of the Company for the fiscal year ended February 28, 2007. The results of operations for the three and nine month periods ended November 30, 2007 are not necessarily indicative of those to be expected for the entire year.

5. Accounts Receivable, Factored

During the three and nine months ended November 30, 2007, the Company factored receivables of approximately \$567,600 and \$1,491,400, respectively. In connection with the factoring agreement, the Company incurred fees of approximately \$18,000 and \$54,200 during the three and nine months ended November 30, 2007, respectively. As of November 30, 2007, certain customers had remitted \$13,778 to the Company on factored receivables; the Company recorded this amount as due to the factor and it is included in accrued expenses on the accompanying consolidated balance sheet. Any and all of the Company's indebtedness and obligations to the Factoring Company is guaranteed by two directors and collateralized by the Company's inventory and fixed assets.

6. Segment Information

The Company has two reportable segments during 2007 and 2006; manufacturing and fiberglass. Although both of these segments are in the manufacturing industry, they provide different types of products and services and each segment is subject to different marketing, production and technology strategies. Therefore, for the three and nine months ended November 30, 2007 and 2006 the Company has included segment reporting.

For the three months ended November 30, 2007, information regarding operations by segment is as follows:

The above amounts are not necessarily indicative of the amounts that would have been incurred had comparable transactions been entered into with independent parties.

ITEM 2. MANAGEMENT'S DISCUSSION & ANALYSIS

This FILING contains forward-looking statements. The words anticipated, believe, expect, plan, intend, seek, estimate, project, and similar expressions are intended to identify forward-looking statements. These statements include, among others, information regarding future operations, future capital expenditures, and future net cash flow. Such statements reflect the Company's current views with respect to future events and financial performance and involve risks and uncertainties, including, without limitation, general economic and business conditions, changes in foreign, political, social, and economic conditions, regulatory initiatives and compliance with governmental regulations, the ability to achieve further market penetration and additional customers, and various other matters, many of which are beyond the Company's control. Should one or more of these risks or uncertainties occur, or should underlying assumptions prove to be incorrect, actual results may vary materially and adversely from those ANTICIPATED, believed, estimated, or otherwise indicated. Consequently, all of the forward-looking statements made in this FILING are qualified by these cautionary statements and there can be no assurance of the actual results or developments.

The Company cautions readers that in addition to important factors described elsewhere, the following important facts, among others, sometimes have affected, and in the future could affect, the Company's actual results, and could cause the Company's actual results during 2008 and beyond, to differ materially from those expressed in any forward-looking statements made by, or on behalf of, the Company.

This Management's Discussion and Analysis or Plan of Operation presents a review of the consolidated operating results and financial condition of the Company for the three and nine month periods ended November 30, 2007 and 2006. This discussion and analysis is intended to assist in understanding the financial condition and results of operation of the Company and its subsidiaries. This section should be read in conjunction with the consolidated financial statements and the related notes.

RESULTS OF OPERATIONS

The Company owns two subsidiaries that operated in the manufacturing segment and the fiberglass segment during the three and nine months ended November 30, 2007 and 2006. To facilitate the readers understanding of the Company's financial performance, this discussion and analysis is presented on a segment basis.

MANUFACTURING SUBSIDIARY

The manufacturing subsidiary, International Machine and Welding, Inc., generates its revenues from three divisions. Division 1 provides specialized machining and repair services to heavy industry and original equipment manufacturers. Division 2 provides repair and rebuild services on heavy equipment used in construction and mining as well as sales of used equipment. Division 3 provides parts sales for heavy equipment directly to the customer. The primary market of this segment is the majority of central and south Florida with parts sales expanding its market internationally. The current operations can be significantly expanded using the 38,000 square foot structure owned by International Machine and Welding, Inc.

FIBERGLASS SUBSIDIARY

Chariot Manufacturing Company manufactures a variety of fiberglass parts, as well as, motorcycle trailers with fiberglass bodies. These trailers are sold both on the retail and dealer levels. The company also provides non warranty repairs, modification of existing Chariot Trailers.

Table of Contents

COMPARISON OF THE RESULTS OF OPERATIONS FOR THE THREE MONTHS ENDED NOVEMBER 30, 2007 AND 2006.

General

The Company's consolidated net sales increased to \$771,342 for the three months ended November 30, 2007, an increase of \$215,137 or 39%, from \$556,205 for the three months ended November 30, 2006. The overall increase in net sales is due to a normal fluctuation in our customer requirements.

Gross profit for the consolidated operations increased to \$341,687 for the three months ended November 30, 2007 from \$196,469 for the three months ended November 30, 2006. Gross profit as a percentage of sales was 44% and 35% for the three month periods ended November 30, 2007 and 2006, respectively. The increase in gross profit was due to a higher gross profit margin related to International Machine and Welding, Inc.'s product mix.

Consolidated interest expense, net for the three months ended November 30, 2007 was \$44,932 as compared to \$33,876 for same period in 2006 for an increase of \$11,056 or 33%. This increase in interest expense is due to additional debt.

Selling, general and administrative expenses decreased to \$504,510 for the three months ended November 30, 2007 as compared to \$543,969 for the three months ended November 30, 2006, a decrease of \$39,459 or 7%. The decrease in selling, general and administrative expenses is due to better control over costs.

The Company incurred a net consolidated loss of \$207,577 for the three months ended November 30, 2007 compared to a loss of \$379,771 for the three months ended November 30, 2006. The decrease in the consolidated net loss is primarily due to the overall increase in revenues. As a result of the continued losses, the Independent Auditors have questioned the Company's continuation as a going concern.

Manufacturing Subsidiary

The manufacturing operation, International Machine and Welding, Inc. provided net sales of \$716,219 for the three months ended November 30, 2007 compared to \$516,683 for the three months ended November 30, 2006. The machining operations provided \$217,060 or 30% of net sales with parts and service providing \$499,159 or 70% of net sales for the three months ended November 30, 2007 as compared to machining operations contributing \$174,532 or 34% of net sales with parts and service providing \$342,151 or 66% of net sales for the three months ended November 30, 2006. The overall increase in net sales is due to an increase in sales through improved marketing for the three months ended November 30, 2007 as compared to the three months ended November 30, 2006.

Gross profit from the International Machine and Welding, Inc. was \$336,086 for the three months ended November 30, 2007 compared to \$204,138 for the same period in 2006 providing gross profit margins of 47% and 40%, respectively.

Selling, general and administrative expenses for International Machine and Welding, Inc. were \$250,882 for the three months ended November 30, 2007 compared to \$244,081 for the three months ended November 30, 2006.

Interest expense was \$31,943 for the three months ended November 30, 2007 compared to \$25,723 for the same period ended 2006. The increase in interest expense is due to an increase in notes payable for the three months ended November 30, 2007.

The Company does not have discrete financial information on each of the three manufacturing divisions, nor does the Company make decisions on the divisions separately; therefore they are not reported as segments.

Fiberglass Subsidiary

The fiberglass manufacturing operation, Chariot Manufacturing Company, Inc. provided net sales of \$55,123 for the three months ended November 30, 2007 as compared to \$39,522 for the same period in 2006. The increase in net sales is due to completion of tooling and a renewed focus on production.

Gross profit from Chariot was \$5,601 for the three months ended November 30, 2007 providing a gross profit margin of 10% as compared to \$(7,669) providing a gross profit margin of (19%) for the same period in 2006. The increase in gross profit and the related gross profit margin was due to a concentration of time and material to the completion of tooling assets as opposed to retail finished goods. Substantially all expenditures were charged to the completion of these assets.

Table of Contents

Selling, general and administrative expenses were \$82,052 for the three months ended November 30, 2007 as compared to \$78,012 for the same period in 2006. The increase in selling, general and administrative expenses was due to the overall increase in labor and related costs.

COMPARISON OF THE RESULTS OF OPERATIONS FOR THE NINE MONTHS ENDED NOVEMBER 30, 2007 AND 2006.

General

The Company's consolidated net sales increased to \$2,196,226 for the nine months ended November 30, 2007, an increase of \$446,310 or 26%, from \$1,749,916 for the nine months ended November 30, 2006. This increase was mainly due to an increase in sales of the manufacturing division.

Gross profit for the consolidated operations increased to \$919,375 for the nine months ended November 30, 2007 from \$620,769 for the nine months ended November 30, 2006. Gross profit as a percentage of sales was 42% and 35% for the nine month periods ended November 30, 2007 and 2006, respectively. The increase in gross profit margin was due to a higher gross profit margin related to International Machine and Welding, Inc.'s product mix.

Consolidated interest expense, net for the nine months ended November 30, 2007 was \$136,959 as compared to \$107,523 for same period in 2006 for an increase of \$29,436 or 27%. The increase in interest expense, net is due to the Company's additional debt taken on during first and second quarter of 2007.

Selling, general and administrative expenses decreased to \$1,546,329 for the nine months ended November 30, 2007 as compared to \$1,608,722 for the nine months ended November 30, 2006, a decrease of \$61,493 or 4%.

The Company incurred a net consolidated loss of \$763,242 for the nine months ended November 30, 2007 compared to a loss of \$1,079,356 for the nine months ended November 30, 2006. The decrease in the consolidated net loss is primarily due to the increase in revenue of the manufacturing segment during the nine months ended November 30, 2007. As a result of the continued losses, the Independent Auditors have questioned the Company's continuation as a going concern.

Manufacturing Subsidiary

The manufacturing operation, International Machine and Welding, Inc. provided net sales of \$2,052,243 for the nine months ended November 30, 2007 compared to \$1,602,197 for the nine months ended November 30, 2006. The machining operations provided \$681,837 or 33% of net sales with parts and service providing \$1,370,405 or 67% of net sales for the nine months ended November 30, 2007 as compared to machining operations contributing \$547,736 or 34% of net sales with parts and service providing \$1,054,461 or 66% of net sales for the nine months ended November 30, 2006. The overall increase in net sales is due to successful sales effort in the heavy equipment service area with existing customers and new programs.

Gross profit from the International Machine and Welding, Inc. was \$891,104 for the nine months ended November 30, 2007 compared to \$631,830 for the same period in 2006 providing gross profit margins of 43% and 39%, respectively. The overall increase in gross profit and gross profit margin is due to a change in the product mix to increase sales with a greater contribution to the profit margin than in the prior period.

Selling, general and administrative expenses for International Machine and Welding, Inc. were \$756,612 for the nine months ended November 30, 2007 compared to \$728,087 for the nine months ended November 30, 2006. The increase in selling, general and administrative expenses is due to an overall increase in payroll and payroll related expenses.

Table of Contents

Interest expense, net was \$97,969 for the nine months ended November 30, 2007 compared to \$81,942 for the same period ended 2006. The increase in interest expense, net is due to an overall increase in the outstanding debt for the nine months ended November 30, 2007.

The Company does not have discrete financial information on each of the three manufacturing divisions, nor does the Company make decisions on the divisions separately; therefore they are not reported as segments.

Fiberglass Subsidiary

The fiberglass manufacturing operation, Chariot Manufacturing Company, Inc. provided net sales of \$143,983 for the nine months ended November 30, 2007 as compared to \$147,719 for the same period in 2006. The decrease in net sales is due to reduced production of finished goods while retooling was being accomplished during the first and second quarters.

Gross profit from Chariot was \$28,271 for the nine months ended November 30, 2007 providing a gross profit margin of 20% as compared to (\$11,061) providing a gross profit margin of (7%) for the same period in 2006. The increase in gross profit and the related gross profit margin was due to the prior year classification of some labor and material expenses to cost of goods sold as opposed to capitalizing those costs as part of tooling assets. Proper classification of those items in the current quarter helped to increase the gross profit margin.

Selling, general and administrative expenses were \$225,579 for the nine months ended November 30, 2007 as compared to \$241,099 for the same period in 2006. The decrease in selling, general and administrative expenses was due to the reduction in the cost of goods sold during the period of substantial completion of the tooling assets which are not goods to be sold.

LIQUIDITY AND CAPITAL RESOURCES

During the nine months ended November 30, 2007 and 2006, the Company used net cash from operating activities of (\$293,299) and (\$489,026), respectively. The decrease in use of cash is mainly due to the decrease in the net loss.

During the nine months ended November 30, 2007 and 2006, the Company (used) provided cash for investing activities of (\$118,415) and \$248,201, respectively. The decrease in net cash provided by investing activities is primarily due to the decrease in payments received on the note receivable and the acquisition of property and equipment during 2007.

During the nine months ended November 30, 2007 and 2006, the Company provided cash from financing activities of \$399,274 and \$239,589, respectively. The increase in net cash provided from financing activities is due to the proceeds from issuance of notes payable and long term debt net of payments.

Cash flows from loans or the sale of equity provided for working capital needs and principal payments on long-term debt through November 30, 2007. As of November 30, 2007, the working capital deficit was \$1,677,202. To the extent that the cash flows from operations are insufficient to finance the Company's anticipated growth, or its other liquidity and capital requirements during the next twelve months, the Company will seek additional financing from alternative sources including bank loans or other bank financing arrangements, other debt financing, the sale of equity securities (including those issuable pursuant to the exercise of outstanding warrants and options), or other financing arrangements. However, there can be no assurance that any such financing will be available and, if available, that it will be available on terms favorable or acceptable to the Company.

Management has revised its business strategy to include the manufacture of additional products. Although management has reduced debt, new financing to finance operations and to facilitate additional production is still being sought. However, there can be no assurance that the Company will be able to raise capital, obtain debt financing, or improve operating results sufficiently to continue as a going concern.

Seasonality

The diversity of operations in the Manufacturing Segment protects it from seasonal trends except in the sales of agricultural processing equipment whereby the majority of the revenue is generated while the processors await the next harvest.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The Company has prepared the accompanying unaudited consolidated financial statements in conformity with accounting principles generally accepted in the United States for interim financial information. All intercompany transactions have been eliminated in consolidation. The preparation of consolidated unaudited financial statements requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated unaudited financial statements and the reported amounts of revenues and expenses during the reporting period. The Company reviews its estimates, including but not limited to, recoverability of long-lived assets, recoverability of prepaid expenses and allowance for doubtful accounts, on a regular basis and makes adjustments based on historical experiences and existing and expected future conditions. These evaluations are performed and adjustments are made as information is available. Management believes that these estimates are reasonable; however, actual results could differ from these estimates.

We believe that the following critical policies affect our more significant judgments and estimates used in preparation of our consolidated unaudited financial statements.

We maintain allowances for doubtful accounts for estimated losses resulting from the inability of our customers to make required payments. We base our estimate on an analysis of the Company's prior collection experience, customer credit worthiness, and current economic trends. If the financial condition of our customers were to deteriorate, additional allowances may be required.

We value our inventories at the lower of cost or market. Cost is determined on a standard cost basis that approximates the first-in, first-out method; market is determined based on net realizable value. We write down inventory balances for estimated obsolescence or unmarketable inventory equal to the difference between the cost of the inventory and the estimated market value based upon assumptions about future demand and market conditions. If actual market conditions are less favorable than those projected by management, additional inventory write-downs may be required.

We value our property and equipment at cost. Amortization and depreciation are calculated using the straight-line and accelerated methods of accounting over the estimated useful lives of the assets. Maintenance and repairs are charged to operations when incurred. Betterments and renewals are capitalized. When property and equipment are sold or otherwise disposed of, the asset account and related accumulated depreciation account are relieved, and any gain or loss is included in operations.

Fair value estimates used in preparation of the consolidated unaudited financial statements are based upon certain market assumptions and pertinent information available to management. The respective carrying value of certain on-balance-sheet financial instruments approximated their fair values. These financial instruments include cash, accounts receivable, accounts payable, and accrued expenses. Fair values were assumed to approximate carrying values for these financial instruments since they are short-term in nature and their carrying amounts approximate fair values or they are receivable or payable on demand. The fair value of the Company's notes payable is estimated based upon the quoted market prices for the same or similar issues or on the current rates offered to the Company for debt of the same remaining maturities.

Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the consolidated unaudited financial statements carrying amounts of existing assets and liabilities and their respective income tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized as income in the period that included the enactment date.

ITEM 3. CONTROLS AND PROCEDURES

Under the supervision and with the participation of our Management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of the design and operations of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as of November 30, 2007. Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective such that the material information required to be included in our Securities and Exchange Commission (SEC) reports is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms relating to American Commerce Solutions, Inc., and was made known to them by others within those entities, particularly during the period when this report was being prepared.

There were no significant changes in the Company s Internal Controls or in other factors that have materially affected, or are reasonably likely to affect, Internal Controls over financial reporting during the most recent fiscal year.
