Cash flows from operating activities	(Mil yen)	(403,286)		(647,906)
Cash flows from investing activities	(Mil yen)	(59,187)		(102,019)
Cash flows from financing activities	(Mil yen)	379,886		942,879
Cash and cash equivalents at end of the period	(Mil yen)		430,925	507,236
Number of staffs			18,971	18,026

(Notes)

- The selected consolidated financial data are stated in accordance with the generally accepted accounting principles in the United States of America.
- The consumption tax and local consumption tax on taxable transactions are accounted for based on the tax exclusion method.
- The selected stand alone financial data are not prepared because the consolidated financial statements have been prepared.
- In accordance with FASB Staff Position No.39-1, *Amendment of FASB Interpretation No.39* (FSP FIN 39-1), the consolidated balance sheets as of March 31, 2008 have been reclassified. Such reclassification has been made in Total assets and Shareholders' equity as a percentage of total assets. The amounts previously reported are as follows:

	Year ended March 31, 2008
Total assets (Mil yen)	26,298,798
Shareholders' equity as a percentage of total assets (%)	7.6

Edgar Filing: NOMURA HOLDINGS INC - Form 6-K

2. Business Overview

There was no significant change for the business of Nomura Holdings, Inc. (Company) and its 314 consolidated subsidiaries and variable interest entities (collectively referred to as Nomura , we , our , or us) for the three months ended September 30, 2008. There are 14 affiliated companies which were accounted for by the equity method at September 30, 2008.

Table of Contents**Item 2. Operating and Financial Review**

1. Significant Contracts

In September 2008, Nomura reached agreements to acquire Lehman Brothers (Lehman) franchise in the Asia Pacific region including Japan and Australia as well as the European and Middle Eastern equities and investment banking operations of Lehman and it was closed in October 2008. The deals did not include any trading assets or trading liabilities. Nomura also announced in October 2008 to hire former Lehman staff in European fixed income division and to acquire Lehman's three companies which provide IT and other service related platform in India. For a further discussion, please see Item 5. Financial Information, 1. Consolidated Financial Statements, Note 5. Business combinations and Item 5. Financial Information, 2. Other.

2. Operating and Financial Analysis

(1) Operating Results

For the three months ended September 30 2008, the financial uncertainty spread from the U.S. to other markets around the world and a global plunge in share prices caused further turmoil in the financial markets. Domestic stock markets became stagnant, following a decline in the corporate sector's performance and an emergence of troubled U.S. mortgage finance companies in July, and the stock prices fell sharply after Lehman's bankruptcy made financial crisis more apparent in September.

Under these environments, Nomura reported net revenue of ¥128.1 billion, non-interest expenses of ¥197.4 billion, loss before income taxes of ¥69.3 billion, and net loss of ¥72.9 billion for the three months ended September 30, 2008.

The breakdown of Net revenue and Non-interest expenses on the consolidated statements of operations are as follows.

	Three months ended September 30, 2008 (Mil Yen)
Commissions	¥ 84,886
Brokerage commissions	53,840
Commissions for distribution of investment trust	24,173
Other	6,873
Fees from investment banking	10,026
Underwriting and distribution	3,385
M&A / financial advisory fees	6,218
Other	423
Asset management and portfolio service fees	42,411
Asset management fees	38,358
Other	4,053
Net loss on trading	(21,015)
Merchant banking	(457)
Equity trading	1,717
Fixed income and other trading	(22,275)
Gain on private equity investments	23,167
Net interest	(2,674)
Loss on investments in equity securities	(9,804)
Other	1,068
Net revenue	¥ 128,065

**Three months ended
September 30, 2008**

Edgar Filing: NOMURA HOLDINGS INC - Form 6-K

		(Mil Yen)
Compensation and benefits	¥	80,098
Commissions and floor brokerage		20,343
Information processing and communications		34,632
Occupancy and related depreciation		17,180
Business development expenses		7,919
Other		37,234
Non-interest expenses	¥	197,406

Table of Contents

Business Segment Information

Results by business segment are as follows.

Reconciliations of Net revenue and Income before income taxes on segment results of operations and the consolidated statements of operations are set forth in Item 5. Financial Information, 1. Consolidated Financial Statements, Note 11. Segment and geographic information.

Net revenue

	Three months ended September 30, 2008 (Mil Yen)
Domestic Retail	¥ 74,455
Global Markets	(6,538)
Global Investment Banking	5,247
Global Merchant Banking	20,500
Asset Management	14,711
Other (Inc. elimination)	27,992
Total	¥ 136,367

Non-interest expenses

	Three months ended September 30, 2008 (Mil Yen)
Domestic Retail	¥ 69,137
Global Markets	80,150
Global Investment Banking	13,970
Global Merchant Banking	5,853
Asset Management	13,916
Other (Inc. elimination)	14,380
Total	¥ 197,406

Income (loss) before income taxes

	Three months ended September 30, 2008 (Mil Yen)
Domestic Retail	¥ 5,318
Global Markets	(86,688)
Global Investment Banking	(8,723)
Global Merchant Banking	14,647
Asset Management	795
Other (Inc. elimination)	13,612
Total	¥ (61,039)

Domestic Retail

Domestic Retail reported net revenue of ¥74.5 billion and income before income taxes was ¥5.3 billion for the three months ended September 30, 2008 and we were able to maintain a profit in Domestic Retail despite the tough operating environment. Our customer base continues to grow with an ongoing inflow of net assets and an increase in the number of customer accounts. Net inflow of domestic client assets was at ¥1.4 trillion, mainly due to an increase in physical stock certificates being brought into branch offices ahead of dematerialization of stocks in Japan. A total of six new publicly offered investment trusts were launched during the quarter, attracting some ¥590 billion. The trend among Japanese retail investors of shifting funds into investment products remains firm.

Table of Contents

Global Markets

Net revenue in Global Markets was minus ¥6.5 billion and loss before income taxes was ¥86.7 billion for the three months ended September 30, 2008, as losses were booked on credit, derivatives, and equities trading due to the financial market turmoil.

Included in the loss are the direct impact from Lehman's collapse of around ¥17 billion in our trading activities and a loss of ¥12 billion in Asset Finance primarily due to provisions and revaluations at fair value for real-estate related assets and loans.

Global Investment Banking

Global Investment Banking reported net revenue of ¥5.2 billion and loss before income taxes of ¥8.7 billion for the three months ended September 30, 2008, mostly as the pace of equity underwriting deals was weak and losses were booked related to Asset Finance. However, Japanese corporates continue to actively pursue large M&A deals and cross-border transactions are on the rise. We acted as financial advisor on TDK's tender offer for German firm EPCOS.

Global Merchant Banking

Net revenue in Global Merchant Banking was ¥20.5 billion and income before income taxes was ¥14.6 billion for the three months ended September 30, 2008, generated mainly from the sale of our stake in Tungaloy. We completed new investments in two Indian companies.

Asset Management

Net revenue in Asset Management was ¥14.7 billion and income before income taxes was ¥0.8 billion for the three months ended September 30, 2008 due to unrealized losses on pilot funds and a decline in asset management fees resulting from a reduction in assets under management due to the plunge in the stock market. We continued increasing the lineup of our Next Funds series, adding seven new funds. Internationally, we received new mandates to manage Asian equities for leading funds.

Other Operating Results

Other operating results include net gain on trading related to economic hedging transactions, realized gain on investments in equity securities, equity in earnings of affiliates, corporate items, and other financial adjustments. Net revenue in Other was ¥28 billion. Income before income taxes was ¥13.6 billion for the three months ended September 30, 2008.

Geographic Information

Please refer to Item 5. Financial Information, 1. Consolidated Financial Statements, Note 11. Segment and geographic information for net revenue and income (loss) before income taxes by geographic region.

Cash Flow Information

Please refer to (5) Liquidity and Capital Resource.

Table of Contents

(2) Assets and Liabilities Associated with Investment and Financial Services Business

1) Exposure to Certain Financial Instruments and Counterparties

Challenging market conditions continue to impact numerous products including securitization products and leveraged finance which Nomura has certain exposure to. Nomura also has exposures to Special Purpose Entities (SPEs) and monoline insurers in the normal course of business.

Securitization Products

Nomura's exposure to securitization products mainly consists of Commercial mortgage-backed securities (CMBS), Residential mortgage-backed securities (RMBS), and commercial real estate-backed securities. Nomura holds these securitization products in connection with securitization, financing, trading and other activities. The following table provides a summary of Nomura's exposure to securitization products by geographic location of the underlying collateral as of September 30, 2008.

	Millions of yen September 30, 2008				
	Japan	Asia	Europe	America	Total
Commercial mortgage-backed securities	¥ 10,950	¥	¥	¥ 12,727	¥ 23,677
Residential mortgage-backed securities	38,906				38,906
Commercial real estate-backed securities	48,796				48,796
Other securitization products	49,377	1,952	2,412	3,725	57,466
Total	¥ 148,029	¥ 1,952	¥ 2,412	¥ 16,452	¥ 168,845

(1) The balances shown exclude those for which Nomura transferred financial assets to securitization vehicles where such transfers were accounted for as secured financing rather than sales under Statement of Financial Accounting Standards No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities* (SFAS140), and in which Nomura has no continuing economic exposure.

(2) Nomura has ¥118,150 million exposure, as whole loans and commitment, to U.S. CMBS-related business as at September 30, 2008. The following table sets forth Nomura's exposure to CMBS by geographical region and external credit rating of the underlying collateral as of September 30, 2008.

	Millions of yen September 30, 2008				
	AAA	A	Not rated	Gennie Mae/GSE ⁽¹⁾	Total
Japan	¥ 5,293	¥ 299	¥ 5,358	¥	¥ 10,950
America	10,486			2,241	12,727
Total	¥ 15,779	¥ 299	¥ 5,358	¥ 2,241	¥ 23,677

(1) Gennie Mae refers to Government National Mortgage Association. GSE refers to Government Sponsored Enterprises.

(2) Rating based on Standard & Poor's, Moody's Investors Service, Fitch Ratings Ltd, Japan Credit Rating Agency, Ltd. or Rating and Investment Information, Inc. as of September 30, 2008, depending on which rating is the lowest.

Leveraged Finance

Nomura provides loans to clients in connection with leveraged buy-outs and leveraged buy-ins. As this type of finance is usually initially provided through a commitment, Nomura has both funded and unfunded exposures on these transactions.

Edgar Filing: NOMURA HOLDINGS INC - Form 6-K

The following table sets forth Nomura's exposure to leveraged finance by geographic location of the target company as of September 30, 2008.

	Millions of yen September 30, 2008		
	Funded	Unfunded	Total
Japan	¥ 36,068	¥ 1,895	¥ 37,963
Europe	82,539	6,189	88,728
Total	¥ 118,607	¥ 8,084	¥ 126,691

Table of Contents*Special Purpose Entities*

In the normal course of business, Nomura is involved with numerous types of SPEs which are corporations, partnerships, funds, trusts or other legal vehicles which are designed to fulfill a limited, specific purpose. Nomura both creates and sponsors these entities, and also enters into arrangements with entities created or sponsored by others.

SPEs, which may have an impact on Nomura's future financial position and financial performance, generally meet the definition of a Variable Interest Entity (VIE) under FASB Interpretation No. 46 (revised December 2003), *Consolidation of Variable Interest Entities* (FIN 46-R) or meet the definition of a Qualifying Special Purpose Entity (QSPE) under SFAS 140.

For further discussion on Nomura's involvement with VIEs, see Item 5. Financial Information, 1. Consolidated Financial Statements, Note 4. Variable interest entities (VIEs)

The following table sets forth Nomura's exposure from consolidated VIEs, exposure to significant unconsolidated VIEs and exposure to unconsolidated SPEs as of September 30, 2008, arising from its significant involvement with these entities. Nomura considers maximum exposures to loss to be limited to the amounts presented below, which are reflected in the consolidated balance sheet or the footnote discussing commitments and guarantees. Maximum exposure to loss does not reflect Nomura's estimate of the actual losses that could result from adverse changes, nor does it reflect the economic hedges Nomura enters into to reduce its exposure.

	Millions of yen September 30, 2008			Total
	Exposure from consolidated VIEs	Exposure to significant unconsolidated VIEs	Exposure to unconsolidated SPEs	
Trading Assets:				
Equities and convertible bonds	¥ 171,627	¥	¥	¥ 171,627
Government and government agency bonds	783	1,497		2,280
Bank and corporate debt securities	4,206		41,589	45,795
Mortgage and mortgage-backed securities	59,714	205,598		265,312
Investment trust fund and other			8,877	8,877
Derivatives ⁽¹⁾	55		(2,449)	(2,394)
Office buildings, land, equipment and facilities	50,004			50,004
Others	1,284	31,113		32,397
Commitments to extend credit, standby letters of credit and other guarantees		22,750		22,750

(1) The amounts represent current balance sheet carrying value of derivatives. Notional amounts are ¥2,803 million for exposure from consolidated VIEs and ¥49,020 million for exposure to unconsolidated SPEs.

Monoline Insurers (Financial Guarantors)

Nomura's Global Markets business in Europe has exposure to various monoline insurers primarily arising from derivatives entered into as hedges against certain investments.

The following table sets forth Nomura's exposure to monoline insurers arising from derivatives in Global Markets in Europe as of September 30, 2008, analyzed by external credit rating.

Millions of U.S. dollars

Edgar Filing: NOMURA HOLDINGS INC - Form 6-K

	September 30, 2008				
	Counterparty				
	Risk Reserves				
	and				
Monoline insurers by Credit Rating ⁽¹⁾	Notional ⁽²⁾	Gross Exposure ⁽³⁾	Other Adjustments	Net Exposure	CDS Protection ⁽⁴⁾
AAA	\$ 1,587	\$ 202	\$ 30	\$ 172	\$ 0
BBB	1,478	188	126	62	58
Total	\$ 3,065	\$ 390	\$ 156	\$ 234	\$ 58

(1) Rating based on Standard & Poor's or Moody's Investors Service as of September 30, 2008 depending on which rating is lower.

(2) The gross notional value of the credit derivative contract. There is no exposure related to U.S. RMBS as reference assets.

(3) Gross exposure represents the estimated fair value prior to adjustments.

(4) Notional less estimated fair value of CDS protection acquired against the monoline insurers.

In addition to the above derivatives exposure, Nomura also has U.S.\$530 million of debt securities, guaranteed by monoline insurers, the majority of which are utility bonds. The estimated fair value of the wrap included in carrying value of these debt securities is not significant.

Table of Contents

2) Fair Value of Financial Instruments

The majority of Nomura's financial assets and financial liabilities are carried at fair value on a recurring basis. Financial assets which are carried at fair value on a recurring basis are reported in the consolidated balance sheets within *Trading assets and private equity investments, Loans and receivables* and *Other assets*. Financial liabilities which are carried at fair value on a recurring basis are reported within *Trading liabilities, Short-term borrowings* and *Long-term borrowings*. These financial instruments include the investments to which investment company accounting are applied under AICPA Statement of Position 07-1, *Clarification of the Scope of the Audit and Accounting Guide Investment Companies and Accounting by Parent Companies and Equity Method Investors for Investment in Investment Company*, and the financial assets and financial liabilities for which the fair value option is elected under SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities including an amendment of FASB Statement No. 115* (SFAS 159) or SFAS No. 155, *Accounting for Certain hybrid Financial Instruments, an amendment of FASB statements No. 133 and 140* (SFAS 155).

In accordance with SFAS No. 157, *Fair Value Measurements* (SFAS 157), all financial instruments measured at fair value have been categorized into a three-level hierarchy based on the transparency of inputs used to establish fair value.

Fair value hierarchy

Level 1:

Quoted prices (unadjusted) in active markets for identical assets or liabilities that Nomura has ability to access at the measurement date are classified as Level 1. Examples are listed stocks at Tokyo Stock Exchange 1st section and Japanese government bonds.

Level 2:

Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly are classified as Level 2. If the asset or liability has a specified (contractual or redemption) term, a Level 2 input must be observable for substantially the full term (contractual life) of the asset or liability. An example of financial instruments is an interest rate swap contract between short-term floating interest rate and fixed interest rate.

Level 3:

Financial assets and financial liabilities whose values are based on unobservable inputs in markets are classified as Level 3. Unobservable inputs are based on the reporting entity's own assumptions that other market participants would consider (including assumptions about risk) under the best information available in the circumstances. It is classified as Level 3, if such unobservable inputs in markets have more than insignificant impact on fair value measurement of an instrument. These assumptions include a method to estimate unobservable long-term volatilities of foreign exchange rate from volatilities within observable term in the markets and a method to estimate credit premium using for fair value measurements of individual loans.

Financial instruments are classified in their entirety based on the lowest level of input that is significant to the fair value measurement of the instruments. In case that a derivative is valued with using a combination of Level 1, 2 and 3 inputs, it would be classified as Level 3, where the Level 3 inputs are significant in its measurement.

Table of Contents

The following table presents information about Nomura's financial assets and financial liabilities measured at fair value on a recurring basis as of September 30, 2008 within the fair value hierarchy.

	Billions of yen September 30, 2008				Balance as of September 30 2008
	Level 1	Level 2	Level 3	Counterparty and Cash Collateral Netting ⁽¹⁾	
Assets:					
Trading assets and private equity investments					
Equities (Including private equity investments) ⁽²⁾	¥ 1,039	¥ 652	¥ 786	¥	¥ 2,477
Debt securities and loans receivables	4,834	1,889	794		7,517
Investment trust fund and other	43	45	19		107
Derivative contracts	33	7,293	941	(7,362)	905
Loans and receivables ⁽³⁾		32	8		40
Other assets ⁽⁴⁾	302	76	60		438
Total	¥ 6,251	¥ 9,987	¥ 2,608	¥ (7,362)	¥ 11,484
Liabilities:					
Trading liabilities					
Equities	¥ 809	¥ 106	¥ 0	¥	¥ 915
Debt securities	3,101	125			3,226
Investment trust fund and other	1	0			1
Derivatives contracts	37	7,257	804	(7,474)	624
Short-term borrowings ⁽⁵⁾		18	19		37
Long-term borrowings ⁽⁵⁾⁽⁶⁾⁽⁷⁾	18	614	(139)		493
Total	¥ 3,966	¥ 8,120	¥ 684	¥ (7,474)	¥ 5,296

- (1) Counterparty netting of derivative assets and liabilities in accordance with No. FIN 39, *Offsetting of Amounts Related to Certain Contracts* and cash collateral netting against net derivatives in accordance with FSP FIN 39-1.
- (2) Include private equity investments that would have been accounted for under the equity method if Nomura had not chosen to apply the fair value option under SFAS 159.
- (3) Include loans and receivables for which Nomura elected the fair value option under SFAS 159.
- (4) Include investments in affiliated companies that would have been accounted for under the equity method if Nomura had not chosen to apply the fair value option under SFAS 159.
- (5) Include structured notes which are elected for the fair value option under either SFAS 155 or SFAS 159.
- (6) Include liabilities by collateralized financing transactions that are accounted for as financing rather than sales in accordance with SFAS 140. Nomura elected the fair value option under SFAS 159 for those liabilities.
- (7) Include embedded derivatives bifurcated in accordance with SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities* from the structured notes issued. If unrealized gain is more than unrealized loss, long-term borrowings is reduced by the exceeded amount.

Level 3 Assets and Liabilities

The Level 3 financial instruments include following instruments.

Edgar Filing: NOMURA HOLDINGS INC - Form 6-K

Equities comprised private equity investments in the amount of ¥395 billion. Investments to unlisted companies were classified in level 3. Equities also comprised the inventory through Hedge Fund in the amount of ¥239 billion. Nomura has developed the business such as issuing structured notes linked to the inventory.

Debt securities and loans receivables comprised corporate loan in the amount of ¥128 billion, mortgage backed securities and mortgage loans in the amount of ¥327 billion. It also comprised certain notes which were illiquid and valued by pricing models. Derivative contracts are aggregated without netting of derivative assets and derivative liabilities by counterparty.

Table of Contents

The following table presents the proportion of the net Level 3 financial assets, which is Level 3 assets netted out with Level 3 derivative liabilities, in the net total financial assets carried at fair value, which is total assets netted out with total derivative liabilities.

	Billions of yen September 30, 2008
Level 3 Financial Assets	¥ 2,608
Deduction: Level 3 Derivatives, Liabilities	(804)
Net Level 3 Financial Assets (After netting derivative assets and liabilities)	¥ 1,804
Total Financial Assets measured at Fair Value	¥ 18,846
Deduction: Derivatives, Liabilities	(8,098)
Net Total Financial Assets measured at Fair Value (After netting derivative assets and liabilities)	¥ 10,748

The proportion of the net Level 3 financial assets in the net total financial assets carried at fair value after netting of derivative assets and liabilities	17%
(3) Trading Activities	

Assets and liabilities for trading purposes

Please refer to Item 5. Financial Information, 1. Consolidated Financial Statements, Note 3. Fair value of financial instruments about the balances of assets and liabilities for trading purposes.

Risk management of trading activity

Nomura adopts Value at Risk (VaR) for measurement of market risk to the trading activity.

1) Assumption on VaR

2.33 standard deviations 99% confidence level

Holding period: One day

Consider correlation of price movement among the products

2) Records of VaR

	September 30, 2008 (Bil Yen)
Equity	¥ 2.7

Edgar Filing: NOMURA HOLDINGS INC - Form 6-K

Interest rate	3.4
Foreign exchange	6.3
Sub-total	12.4
Diversification benefit	(5.1)

(4) Qualitative Disclosures about Market Risk

1) Risk Management

Our group business activities are inherently subject to various risks. Managing those risks is an integral part of management's responsibilities to secure fiscal health as well as to contribute to the maintenance and expansion of corporate value. Our risk management framework and governance structure is intended to provide comprehensive controls, monitoring and reporting.

We establish Structure for Ensuring Appropriate Business which is a principle, at the Board of Directors. Within this is established the Structure for Regulations and others regarding Management of Risk Loss. In accordance with these structures, we are constantly seeking to upgrade the risk management expertise and we are trying to strengthen and promote the risk management.

2) Global Risk Management Structure

Governance

We have independent financial management resources and risk management units (Controller's Department, Group Finance Department, Group Treasury Department and Group Risk Management Department) headquartered in Tokyo which are responsible for appropriate financial resource allocation and risk management. These units assist with the supervisory function of GMC (Group Management Committee) and the Executive Officer who is in charge of risk management, currently the Chief Financial Officer. Together they are responsible for implementation of the risk management framework and supervising risks. Supervision by the units includes establishing an enterprise-wide risk management framework, ensuring its adoption by the entire group, monitoring the appropriateness of risk management, and measuring and analyzing the risks of the entire group. In particular, the units establish and enhance all of our risk management policies and rules. The units gather necessary information for risk management and implement risk management policies for our global operations. The units report ongoing risk status and the results of their analysis to senior management. These processes are audited regularly by Internal Audit.

We have established a Risk Management Committee (RMC) under the GMC. The RMC considers significant risk matters including Basel II regulated risk items, matters related to Nomura Group's debt structure & capital policy, and implementation and updating of important policies and procedures related to risk management. Further, we have established the Risk Management Sub Committee under the RMC for the management of important positions, market risk, credit risk, risk concentration and strategic risk within the Nomura Group.

Definition and Types of Risk Managed

Risk is defined as the possibility of capital impairment due to losses in the business, and the possibility that business operations do not generate an assumed output or cannot reach an expected level or cannot meet a planned goal due to the deterioration of efficiency and/or effectiveness. We classify risks as Portfolio risk (Risk of losses arising from fluctuations and declines in the value of portfolios.) and Non portfolio risk. Portfolio risk consists of Market Risk, Credit Risk and Private Equity Risk and Non portfolio risk consists of Operational Risk and Business Risk. Further, Portfolio risk is classified into trading risk and non-trading risk.

In addition to managing each risk, we calculate economic capital for each risk.

Risk Control

Dynamic management of risk is performed within each regional front office business. These units are best placed to respond rapidly and flexibly to changing market conditions and the needs of business in each region. Risk taken and managed in this way is consistent with limits and guidelines which provide a framework for economic capital allocation. This framework consists of higher level economic capital guidelines, links to lower level limits on value-at risk (VaR) and other measures appropriate to individual business lines. We set economic capital guidelines for core business units within a business division. We also set limits designed to restrict trading activities to prescribed mandates.

The financial management resources and risk management units set and monitor the limits such as risk control limit (various types), credit line, country limit, regulatory capital limit and unsecured funding limit. The Risk Management unit reports ongoing risk status to senior management.

Table of Contents

(5) Liquidity and Capital Resource

Liquidity Management

Overviews

Liquidity is of critical importance to Nomura Holdings, Inc. and group companies in the financial services sector. We define liquidity risk as the potential inability to meet financial obligations as they become due. Our primary liquidity objective is to ensure continuous liquidity across market cycles and periods of stress, and to ensure that all funding requirements and unsecured debt obligations that fall due within one year can be met without additional unsecured funding or forced liquidation of trading assets.

We have in place a number of liquidity policies to achieve our primary liquidity objective. These include (1) Ensure appropriate funding mix.; (2) Diversify unsecured funding sources; (3) Unsecured Funding Management; (4) Maintain Liquidity Portfolio; (5) Maintain Committed Bank Facilities and (6) Maintaining and testing Contingency Funding Plan (CFP)

1) Ensure appropriate funding mix. We seek to maintain a surplus of long term debt and equity above the cash capital requirements of our assets enables us to fund the firm for periods at least one year in a stress event, without needing to raise additional unsecured funding or forcing the liquidation of trading assets. The amount of liquidity required is based on an internal model which incorporates the following requirements.

- i. Our ability to finance assets using secured funding, including repurchase agreements and securities lending transactions. The cash capital requirements are calculated using conservative estimates of the assets secured borrowing power in stressed scenarios.
- ii. Goodwill and indefinable intangible assets, property, equipment and other illiquid assets.
- iii. Collateral requirements on derivative contracts arising as a result of a two-notch downgrade in our credit rating. In addition, other unencumbered assets held at exchanges for chaining requirements are also funded with long-term liquidity.
- iv. Commitments to lend to external counterparties based on the probability of drawdown.
- v. Capital or other forms of financing in our regulated subsidiaries that is in excess of their long-term cash capital requirements.

Our internal model is calculated at the group company level in order to take into account legal, regulatory and tax restrictions that may impact the transfer of liquidity among group companies.

2) Diversify unsecured funding sources. We seek to reduce refinancing risk through diversification of our funding sources. We diversify funding by product, investor and market in order to reduce our reliance on any one funding source. We also seek to diversify funding by currency.

3) Unsecured Funding Management. We manage the overall level of unsecured funding and set the internal limits on the additional amount of unsecured funding available across the entity. The availability of unsecured funding is set by the Group Management Committee, and monitored closely by Global Treasury.

4) Maintain Liquidity Portfolios. To ensure a readily available source of liquidity, we have structured our liquidity portfolio. We maintain a liquidity portfolio at Nomura Holdings, Inc. and group companies in the form of cash and highly liquid, unencumbered securities that may be sold or pledged to provide liquidity. In addition to the liquidity portfolio, we have other unencumbered assets comprising mainly unpledged trading inventory that can be used as an additional source of secured funding. The size and structure of our liquidity portfolio takes into account immediate cash requirements arising from followings.

Edgar Filing: NOMURA HOLDINGS INC - Form 6-K

- i. Upcoming maturities of unsecured debt (maturities less than 1 year)
- ii. Potential buybacks of our outstanding debt
- iii. Loss of secured funding lines particularly for less liquid assets, over and above our cash capital estimates
- iv. Normal business volatility
- v. Cash and collateral outflows in the event of a stress event

5) Maintain Committed Bank Facilities. In addition to our Liquidity Portfolio, we maintain un-drawn committed facilities with a group of globally recognized banks in order to provide contingent financing sources.

6) Maintaining and testing Contingency Funding Plan (CFP). We have developed a detailed contingency funding plan. As a part of the CFP, we have developed an approach for analyzing and specifying the extent of any liquidity crisis. This allows us to estimate the likely impact of both a Nomura-specific and market-wide crises; and specifies the immediate action to be taken to mitigate any risk. The CFP lists details of key internal and external parties to be contacted and the processes by which information is to be disseminated. This has been developed at the legal entity level in order to capture specific cash requirements at the local level – it assumes that the parent company does not have access to cash that may be trapped at the subsidiary level due to regulatory, legal or tax constraints. We periodically test the effectiveness of our funding plans for different Nomura specific events and market-wide.

Cash Flow

Cash and cash equivalents as of September 30, 2008, decreased by ¥172.9 billion as compared to June 30, 2008. For the three months ended September 30, 2008, net cash provided by operating activities amounted to ¥62.3 billion due to a decrease of trading related assets (net of trading related assets and liabilities). Net cash used in investing activities amounted to ¥20.0 billion due to an increase of office buildings, land, equipment and facilities and non-trading debt securities. Net cash used in financing activities amounted to ¥199.1 billion due to a decrease in borrowings.

Consolidated Balance Sheets and Financial Leverage

Total assets as of September 30, 2008, were ¥24,758.1 billion, a decrease of ¥477.9 billion compared to March 31, 2008, reflecting a decrease in collateralized agreements. Total liabilities as of September 30, 2008, were ¥22,948.0 billion, a decrease of ¥300.0 billion compared to March 31, 2008, mainly due to a decrease in collateralized financing. Total shareholders' equity was ¥1,810.1 billion, a decrease of ¥178.0 billion compared to March 31, 2008, due to a decrease in retained earnings from net loss for the six months ended September 30, 2008.

Our shareholders' equity was ¥ 1,810.1 billion as of September 30, 2008. Our leverage ratio as of September 30, 2008 was 13.7 times. The following table sets forth our shareholders' equity, total assets, adjusted assets and leverage ratios:

	(billions of yen, except ratios) September 30, 2008
Shareholders' equity	¥ 1,810.1
Total assets	24,758.1
Adjusted assets ⁽¹⁾	17,024.2
Leverage ratio ⁽²⁾	13.7x
Adjusted leverage ratio ⁽³⁾	9.4x

(1) Adjusted assets represent total assets less securities purchased under agreements to resell and securities borrowed transactions.

(2) Leverage ratio equals total assets divided by shareholders' equity.

(3) Adjusted leverage ratio equals adjusted assets divided by shareholders' equity.

(6) Current Challenges

The outlook for the global economy continues to indicate a strong slowdown due to the turbulence in the financial markets and the increasing effect this is having on the real economy. The economic environment surrounding Japan is also considered to be entering a difficult position as weakening economies abroad lead to a slowdown in exports. The turbulence in the global financial and capital markets, coupled with the downturn in global economic growth, is expected to result in a continued unfavorable business environment for Nomura Group.

In such an environment, we aim to realize our management vision and continue growing by thoroughly understanding client trends and their requirements, anticipating risks, and developing new business. To do so, we will implement the following initiatives to address the current challenges we face.

In Domestic Retail, we will continue to enhance our product and service offering provided through direct contact, online, and via call centers to accommodate the increasingly sophisticated and diverse needs of our customer. We aim to continue being a trusted partner for our clients by promptly providing world-class quality products and services that meet their individual requirements.

Global Markets will continue to be the product supply hub for Nomura. In light of the rapidly changing environment in the financial markets, we will focus on delivering high value-added products and solutions to our clients by enhancing product development expertise in areas such as derivatives, leveraging the global trading infrastructure at Instinet, and making full use of the human capital and infrastructure acquired from the former Lehman Brothers (Lehman). In Global Fixed Income, we will strengthen our marketing structure and enhance our capabilities in credit and derivative product development as well as trading by tapping into our increased pool of human capital in Asia and Europe. In Global Equity, we aim to establish ourselves as a bulge bracket firm in the Pan-Asian equity brokerage business with strengths in Japanese and Asian stocks. We will also enhance our European stocks and derivatives capabilities, while accelerating the expansion of our global services.

Table of Contents

In Global Investment Banking, we are expanding our M&A advisory and corporate financing advisory businesses in order to provide high value-added solutions tailored to the individual strategic requirements of each client. With the additional personnel joining from Lehman in Asia and Europe, we aim to enhance our presence as a global investment bank centered in Asia that provides world-class services, while continuing to build our business in Japan.

In Global Merchant Banking, we remain focused on increasing the enterprise value of the companies we invest in and achieving further growth as one of the largest private equity firms in Japan. In Asia and Europe, we intend to maximize the value of our investments by pursuing opportunities that are distinct to the characteristics of each region and utilizing the full resources of Nomura Group.

In Asset Management, we aim to further enhance our investment management capabilities on a global scale while aiming to become an asset management firm with a distinct competitive advantage in Japan and the rest of Asia. In Japan, we intend to enhance our overall brand value by increasingly providing a diverse range of investment opportunities through various sales channels covering both individual and institutional investors. Outside Japan, we aim to expand our client base and increase assets under management by responding to the needs of international investors for investment into Japan and Asia.

In addressing the challenges and implementing the strategies outlined above, we will remain focused on making optimal use of management resources and bringing together the collective strengths of our domestic and international operations to further develop the financial and capital markets and enhance profitability across the entire group to realize our management vision and maximize shareholder value.

In regard to fundamental policies for the treatment of shareholders holding a quantity of shares that enables them to govern decisions on Company management policy, the Company believes that the decision of whether to permit a party to seek ownership of such a volume of shares should ultimately be left to the judgment of the shareholders. Accordingly, there are no plans at the present time for the introduction of so-called takeover defense strategies such as a defense strategy of prior issue of new stock acquisition rights (a rights plan).

The Company has a management objective of building a solid position as a Japanese financial services group with global competitive strength and has made commitments to further growth and enhancement of shareholder value through broadening of the scope of its business and expansion into areas beyond the framework of the traditional securities industry. Broadening the profile of investment is critical in achieving the Company's management objectives, and we believe that having many parties become knowledgeable about the Company and become shareholders will contribute to the achievement of our management objectives. Thus, the Company lists its shares on the Tokyo Stock Exchange as well as other Japanese stock exchanges, became listed on the New York Stock Exchange, and has already taken measures such as lowering the number of shares in a trading unit, and introducing a quarterly dividend.

Given these circumstances, the Company's Board of Directors recognizes that it is necessary to protect the shareholders and investors from unfavorable result in the event of an attempt to take over the Company by parties not appropriate to the business value and common benefit to shareholders, and in accordance with the obligations of persons entrusted by shareholders and investors, will take appropriate measures. In such a case, the Corporate Value Enhancement Committee established within the Company would perform research and investigation in regard to the buyout proposal etc., and after an investigatory meeting composed of the Company's outside directors the Board of Directors would hold sufficient deliberations, and would reach a conclusion in regard to the best strategy from the viewpoint of shareholders with regard to the value of the business and common benefit to shareholders.

Stock Acquisition Right

Resolved by the 98th General Shareholders Meeting on June 26, 2002

Stock Acquisition Rights No. 1

	(As of September 30, 2008)
Number of Stock Acquisition Right	1,166 ^(*1)
Number of Stock Acquisition Right for Treasury (out of above number)	
Type of Share under the Stock Acquisition Right	Common stock
Number of Shares under the Stock Acquisition Rights	1,166,000
The Amount to be Paid upon Exercising the Stock Acquisition Right ^(*2)	¥1,788 per share
Exercise Period of the Stock Acquisition Right	From July 1, 2004 to June 30, 2009
Issue Price of Shares and Capital Inclusion Price if Shares are Issued upon Exercise of the Stock Acquisition Rights	Issue Price of Shares ¥1,788 Capital Inclusion Price ¥894
Conditions to Exercise of Stock Acquisition Right	<p>1. Not to be partial exercise of one stock acquisition right.</p> <p>2. For a person given Stock Acquisition Right (the Optionee), to satisfy all of the following conditions:</p> <p>(1) The Optionee maintains position as a director, statutory auditor or employee of the Company or a company, a majority of whose outstanding shares or interests (only limited to those with voting rights) are held directly or indirectly by the Company (hereinafter collectively referred to as the Company's Subsidiary), during the time between the grant of the stock acquisition rights and the exercise. The Optionee is deemed to maintain such a position as a director, statutory auditor or employee of the Company or the Company's Subsidiary in case the Optionee loses such a position by either of the following situations:</p> <p>a) Regarding the Optionee as a director or statutory auditor of the Company or the Company's Subsidiary: retirement from office on account of the expiration of the Optionee's term of office or other similar reasons; or</p>

b) Regarding the Optionee as an employee of the Company or the Company's Subsidiary: retirement due to the attainment of the retirement age, transfer by order of the Company or the Company's Subsidiary, retirement mainly due to sickness or injuries arising out of duty, discharge for a compelling business reason, or other similar reasons.

(2) The Optionee, at the time of exercising the stock acquisition rights, does not fall within either of the following cases:

a) The Company or the Company's Subsidiary determines in accordance with their Employment Regulations to dismiss the Optionee by suggestion or disciplinary procedures; or

b) There is any other reason similar to a).

3. Regarding the successors of the Optionee, the Optionee must have satisfied the both conditions of the above 2.(1) and (2) immediately prior to the occurrence of succession.

Approval of the board of directors shall be required for transfer of the stock acquisition rights.

Restriction of Transfer of Stock Acquisition Rights

Substituted Payment

Issue of the Stock Acquisition Right Attendant on Reorganization

(Notes)

1. 1,000 shares will be issued per one stock acquisition right.
2. In the event that the shares are split or consolidated, the Exercise Price shall be adjusted in accordance with the following formula, and any fractions less than one (1) yen shall be rounded up to the nearest yen.

$$\text{Adjusted Exercise Price} = \text{Exercise Price before Adjustment} \times \frac{1}{\text{Ratio of Split or Consolidation}}$$

In the event that the Company issues new shares or sells its treasury shares at a price less than market price (excluding for the exercise of the stock acquisition rights), the Exercise Price shall be adjusted in accordance with the following formula, and any fractions less than one (1) yen shall be rounded up to the nearest yen.

$$\text{Adjusted Exercise Price} = \frac{\text{Exercise Price before Adjustment} \times \left(\frac{\text{Number of Outstanding Shares} + \text{Treasury Shares Sold} \times \text{Paid-in Amount Per Share}}{\text{Market Price per Share}} \right)}{\text{Number of (Outstanding + Newly Issued Shares and/or Treasury Shares Sold)}}$$

3. Executive officers are treated in the same manner with directors.

Conditions to Exercise of Stock Acquisition Right	<p>1. Not to be partial exercise of one stock acquisition right.</p> <p>2. For a person given Stock Acquisition Right (the Optionee), to satisfy all of the following conditions:</p> <p>(1) The Optionee maintains position as a director, executive officer or employee of the Company or a company, a majority of whose outstanding shares or interests (only limited to those with voting rights) are held directly or indirectly by the Company (hereinafter collectively referred to as the Company's Subsidiary), during the time between the grant of the stock acquisition rights and the exercise. The Optionee is deemed to maintain such a position as a director, executive officer or employee of the Company or the Company's Subsidiary in case the Optionee loses such a position by either of the following situations:</p> <p>a) Regarding the Optionee as a director or executive officer of the Company or the Company's Subsidiary: retirement from office on account of the expiration of the Optionee's term of office or other similar reasons; or</p> <p>b) Regarding the Optionee as an employee of the Company or the Company's Subsidiary: retirement due to the attainment of the retirement age, transfer by order of the Company or the Company's Subsidiary, retirement mainly due to sickness or injuries arising out of duty, discharge for a compelling business reason, or other similar</p>

reasons.

(2) The Optionee, at the time of exercising the stock acquisition rights, does not fall within either of the following cases:

a) The Company or the Company's Subsidiary determines in accordance with their Employment Regulations to dismiss the Optionee by suggestion or disciplinary procedures; or

b) There is any other reason similar to a).

3. Regarding the successors of the Optionee, the Optionee must have satisfied the both conditions of the above 2.(1) and (2) immediately prior to the occurrence of succession.

Approval of the board of directors shall be required for transfer of the stock acquisition rights.

Restriction of Transfer of Stock Acquisition Rights

Substituted Payment

Issue of the Stock Acquisition Right Attendant on Reorganization

(Notes)

1. 1,000 shares will be issued per one stock acquisition right.
2. In the event that the shares are split or consolidated, the Exercise Price shall be adjusted in accordance with the following formula, and any fractions less than one (1) yen shall be rounded up to the nearest yen.

$$\text{Adjusted Exercise Price} = \text{Exercise Price before Adjustment} \times \frac{1}{\text{Ratio of Split or Consolidation}}$$

In the event that the Company issues new shares or sells its treasury shares at a price less than market price (excluding for the exercise of the stock acquisition rights), the Exercise Price shall be adjusted in accordance with the following formula, and any fractions less than one (1) yen shall be rounded up to the nearest yen.

$$\text{Adjusted Exercise Price before Adjustment} = \frac{\text{Number of Outstanding Shares} + \frac{\text{Number of Newly Issued Shares and/or Treasury Shares Sold} \times \text{Paid-in Amount Per Share}}{\text{Market Price per Share}}}{\text{Number of (Outstanding + Newly Issued Shares and/or Treasury Shares Sold)}}$$

Item 5. Financial Information

1 Preparation Method of Consolidated Financial Statements

(1) Pursuant to Section 93 of Regulations Concerning the Terminology, Forms and Preparation Methods of Quarterly Consolidated Financial Statements (Cabinet Office Ordinance No. 64, 2007), the consolidated financial statements have been prepared in accordance with accounting principles which are required in order to issue American Depositary Shares, i.e., the accounting principles generally accepted in the United States of America.

(2) The consolidated financial statements have been prepared by making necessary adjustments to the financial statements of each consolidated company which were prepared in accordance with the accounting principles generally accepted in each country. Such adjustments have been made to comply with the principles in (1).

2 Quarterly Review Certificate

Under articles No.193-2 Section 1 of the Financial Instruments and Exchange Act, Ernst & Young ShinNihon LLC performed quarterly review of the consolidated financial statements for the three-month and six-month periods ended September 30, 2008 within the fiscal period from April 1, 2008 to March 31, 2009.

Table of Contents

[Notes to the Consolidated Financial Statements (UNAUDITED)]

1. Basis of accounting:

In December 2001, Nomura Holdings, Inc. (Company) filed a registration statement, in accordance with the Securities Exchange Act of 1934, with the United States Securities and Exchange Commission (SEC) in order to list its American Depositary Shares (ADS) on the New York Stock Exchange. Since then, the Company has an obligation to file an annual report, Form 20-F, with the SEC in accordance with the Securities Exchange Act of 1934.

Pursuant to the Article 93 of Regulations Concerning the Terminology, Forms and Preparation Methods of Quarterly Consolidated Financial Statements (Cabinet Office Ordinance No. 64, 2007), the consolidated financial statements for the six months ended September 30, 2008 and the three months ended September 30, 2008 have been prepared in accordance with the accounting principles which are required in order to issue ADS, i.e., the accounting principles generally accepted in the United States of America (U.S. GAAP). The following paragraphs describe the major differences between U.S. GAAP which the Company and its consolidated entities (Nomura) adopt and accounting principles generally accepted in Japan (Japanese GAAP), and where the significant differences exist, the amount of effect to income before income taxes pursuant to Japanese GAAP.

Scope of consolidation

Under U.S. GAAP, the scope of consolidation is mainly determined by the ownership of a majority of the voting interest in an entity and under Financial Accounting Standards Board (FASB) Interpretation No. 46, *Consolidation of Variable Interest Entities* as revised (FIN 46-R) in 2003. Under Japanese GAAP, the scope of consolidation is primarily determined by both ownership level of voting interest and Financial controlling model , that is a model taking into account of factors other than ownership level of voting interest in an entity.

Unrealized gains and losses on investments in equity securities

Under U.S. GAAP for broker-dealers, investments in equity securities are measured at fair value with changes in fair value recognized in the consolidated statements of operations. Under Japanese GAAP, unrealized gains and losses on investments in equity securities, net of applicable income taxes, are reported in a separate component of shareholders' equity. Therefore, under Japanese GAAP, the difference has an impact of ¥7,629 million (loss, for the six months ended September 30, 2008) and ¥8,302 million (loss, for the three months ended September 30, 2008) on loss before income taxes.

Unrealized gains and losses on non-trading debt securities

Under U.S. GAAP for broker-dealers, unrealized gains and losses on non-trading debt securities are measured at fair value with changes in fair value recognized in the consolidated statements of operations. Under Japanese GAAP, unrealized gains and losses on non-trading debt securities, net of applicable income taxes, are reported in a separate component of shareholders' equity.

Retirement and severance benefit

Under U.S. GAAP, gain or loss resulting from experience different from that assumed or from a change in an actuarial assumption is amortized over the remaining service period of employees when such balance at the beginning of the year exceeds the Corridor which is defined as 10% of the larger of projected benefit obligation or the fair value of plan assets, while such gain or loss is amortized for a certain period regardless of the Corridor under Japanese GAAP. U.S. GAAP requires to recognize the funded status of defined benefit postretirement plans, measured as the difference between the fair value of the plan asset and the benefit obligation.

Table of Contents

Amortization of goodwill and equity method goodwill

Under U.S. GAAP, goodwill and equity method goodwill shall not be amortized and shall be tested for impairment regularly. Under Japanese GAAP, goodwill and equity method goodwill shall be amortized over certain periods within 20 years based on the straight-line method. Under U.S. GAAP, negative goodwill shall be written off at once when negative goodwill arises. Under Japanese GAAP, negative goodwill shall be amortized over certain periods within 20 years based on the straight-line method. Therefore, under Japanese GAAP, the difference has an impact of ¥1,093 million (loss, for the six months ended September 30, 2008) and ¥1,528 million (profit, for the three months ended September 30, 2008) on loss before income taxes.

Changes in the fair value of derivative contracts

Under U.S. GAAP, all derivative contracts, including derivative contracts that have been designated as hedges to specific assets or specific liabilities, are valued at fair value, and changes in the fair value of derivative contracts are recognized in the statements of operations or other comprehensive income. Under Japanese GAAP, derivative contracts that have been entered into for hedging purposes are valued at fair value and changes in the fair value of derivative contracts are recognized in shareholder's equity.

Fair value for financial assets and financial liabilities

Under U.S. GAAP, it is allowed to choose measuring at fair value eligible financial assets and liabilities which shall be ordinarily measured at cost (the fair value option). If an entity elects the fair value option, changes in the fair value in subsequent reporting periods must be recognized through earnings. Under Japanese GAAP, the fair value option is not permitted. Therefore, under Japanese GAAP, the difference has an impact of ¥15,274 million (profit, for the six months ended September 30, 2008) and ¥10,175 million (profit, for the three months ended September 30, 2008) on loss before income taxes. In addition, non-marketable stocks which are valued at fair value in the consolidated financial statements shall be valued at cost except in case of impairment loss recognition under Japanese GAAP, and the difference has an impact of ¥21,944 million (profit, for the six and three months ended September 30, 2008) on loss before income taxes.

Offsetting of amounts related to certain contracts

Under U.S. GAAP, an entity shall offset the fair value amounts recognized for derivative instruments with the same counterparty under a master netting arrangement and fair value amounts recognized for the right to reclaim cash collateral (a receivable) or the obligation to return cash collateral (a payable) arising from the derivative instruments. Under Japanese GAAP, the accounting treatment mentioned is not permitted.

Minority interest

Under Japanese GAAP, minority interest is included in net assets. Under U.S. GAAP, it is not allowed to include minority interest in shareholder's equity. Minority interest is classified within liabilities in our balance sheet and presented separately in the note to the financial statements. In addition, U.S GAAP determined to revise the disclosure of minority interest. See Note 2, Changes in accounting policies and new accounting pronouncements for more details.

Table of Contents

2. Changes in accounting policies and new accounting pronouncements:

Changes in accounting policies

Fair value measurements

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. SFAS 157 clarifies that fair value is the amount that would be exchanged to sell an asset or transfer a liability, in an orderly transaction between market participants. In addition, SFAS 157 also:

requires that a fair value measurement technique include an adjustment for risks inherent in a particular valuation technique (such as a pricing model);

establishes a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of a financial asset or financial liability;

nullifies the guidance in EITF Issue No. 02-3, *Issues Involved in Accounting for Derivative Contracts Held for Trading Purposes and Contracts Involved in Energy Trading and Risk Management Activities* (EITF 02-3), which requires deferral of profit at inception of a derivative transaction in the absence of observable data supporting the valuation technique;

eliminates large position (block) discounts for financial instruments quoted in active markets; and

requires a reporting entity to consider its own credit rating when valuing liabilities carried at fair value.

In February 2008, the FASB issued Staff Position No. 157-2, *Effective Date of FASB Statement No. 157* (FSP SFAS 157-2) which delays the effective date of SFAS 157 for all non financial assets and non financial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually) to fiscal years beginning after November 15, 2008, and interim periods within those fiscal years for items within the scope of the FSP.

The remainder of SFAS 157 relating to financial assets and financial liabilities is effective for fiscal years beginning after November 15, 2007. As permitted by FSP SFAS 157-2, Nomura adopted SFAS 157 on April 1, 2008 for financial assets and financial liabilities only and does not apply the provisions of SFAS 157 to certain non financial assets and liabilities not carried at fair value on a recurring basis, including:

Non financial assets and non financial liabilities acquired in a business combination but not measured at fair value on a recurring basis;

Goodwill and other intangible assets;

Long-lived non financial assets.

The requirements of SFAS 157 are generally applied prospectively to financial instruments apart from derivatives which have been accounted for in accordance with EITF 02-3, hybrid financial instruments that are currently measured at fair value in their entirety and whose inception profit has been deferred under SFAS No. 155, *Accounting for Certain hybrid Financial Instruments, an amendment of FASB statements No. 133 and 140* (SFAS 155) and certain investments which have block discounts applied to them. The impact of adjusting the fair value of these financial instruments in accordance with SFAS 157 was recorded as a cumulative-effect adjustment to opening retained earnings, and it was an increase of ¥10,383 million after-tax.

Edgar Filing: NOMURA HOLDINGS INC - Form 6-K

Fair value hierarchy under SFAS 157 is as follows:

Level 1:

Quoted prices (unadjusted) in active markets for identical assets or liabilities that Nomura has ability to access at the measurement date are classified as Level 1. Examples are listed stocks at Tokyo Stock Exchange 1st section and Japanese government bonds.

Level 2:

Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly are classified as Level 2. If the asset or liability has a specified (contractual or redemption) term, a Level 2 input must be observable for substantially the full term (contractual life) of the asset or liability. An example of financial instruments is an interest rate swap contract between short-term floating interest rate and fixed interest rate.

Level 3:

Financial assets and financial liabilities whose values are based on unobservable inputs in markets are classified as Level 3. Unobservable inputs are based on the reporting entity's own assumptions that other market participants would consider (including assumptions about risk) under the best information available in the circumstances. It is classified as Level 3, if such unobservable inputs in markets have more than insignificant impact on fair value measurement of an instrument. These assumptions include a method to estimate unobservable long-term volatilities of foreign exchange rate from volatilities within observable term in the markets and a method to estimate credit premium using for fair value measurements of individual loans.

Table of Contents

Fair value of a financial asset when the market for that asset is not active

In October, 2008, the FASB issued Staff Position No. FAS 157-3, *Determining the Fair Value of a Financial Asset When the Market for That Asset Is Not Active* (FSP SFAS 157-3). FSP SFAS 157-3 clarifies the application of SFAS 157 in a market that is not active and provides an example to illustrate key considerations in determining the fair value of a financial asset when the market for that asset is not active.

FSP SFAS 157-3 is effective upon issuance, including prior periods for which financial statements have not been issued. The adoption of FSP SFAS 157-3 by Nomura did not have a material impact on its consolidated financial statements.

Fair value option for financial assets and financial liabilities

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities including an amendment of FASB Statement No. 115* (SFAS 159). SFAS 159 allows an entity to choose, at specified election dates, to measure eligible financial assets and liabilities at fair value that are not otherwise required to be measured at fair value. If the entity elects the fair value option for an eligible item, changes in that item's fair value in subsequent reporting periods must be recognized in current earnings. SFAS 159 permits the fair value option election on an instrument by instrument basis at initial recognition of an assets or liability or upon an event that gives rise to a new basis of accounting for that instrument. SFAS 159 also establishes presentation and disclosure requirements designed to provide a comparison between entities that elect different measurement attributes for similar assets and liabilities.

An entity may elect the fair value option for eligible items that exist at the date of adoption and reports the difference between the carrying value and fair value as a cumulative-effect adjustment to the opening balance of retained earnings.

Nomura adopted SFAS 159 on April 1, 2008. The impact of the adoption was recorded as a cumulative-effect adjustment to opening retained earnings, and it was an increase of ¥5,258 million after-tax. This is mainly due to the adoption to liabilities of secured borrowings in long-term borrowings.

The financial assets and financial liabilities Nomura elected the fair value option are as follows:

Loans and receivables whose risks are managed on a fair value basis. Nomura elects the fair value option to reduce volatility of profit or loss caused by the difference in measurement basis for loans and receivables and the derivatives used to manage risks of those instruments;

Investments held for capital appreciation or current income purposes with exit strategies that would have been accounted for under the equity method if Nomura had not chosen to apply the fair value option. Nomura elects the fair value option to more appropriately represent the purpose of these investments in the consolidated financial statements;

Liabilities from secured financings which are not accounted for as a sale under Statement of Financial Accounting Standards No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities* (SFAS 140). Even though Nomura has no continuing economic exposure to the related financial assets, they remain on its consolidated balance sheet and continue to be carried at fair value, with changes in fair value recognized through earnings. Nomura elects the fair value option for these financial liabilities to reduce volatility of profit or loss; and

All structured notes issued on or after the date of adoption. This blanket election for structured notes are made primarily to reduce volatility of profit or loss caused by differences in the measurement basis for structured notes and the derivatives Nomura uses to manage risks of those positions. Nomura also elect the fair value option for the notes issued by consolidated variable interest entities for the same purposes.

Interest and dividends arising from financial instruments to which the fair value options have been adopted are accounted as net gain (loss) on trading if it is a part of profit or loss from change in market value, otherwise they are accounted as interest revenue or expense.

Offsetting of amounts related to certain contracts

Edgar Filing: NOMURA HOLDINGS INC - Form 6-K

In April 2007, the FASB issued Staff Position No. FIN 39-1, *Amendment of FASB Interpretation No. 39* (FSP FIN 39-1). FSP FIN 39-1 addresses whether a reporting entity that is party to a master netting arrangement can offset fair value amounts recognized for the right to reclaim cash collateral (a receivable) or the obligation to return cash collateral (a payable) against fair value amounts recognized for derivative instruments that have been offset under the same master netting arrangement in accordance with FASB Interpretation No. 39, *Offsetting of Amounts Related to Certain Contracts* (FIN 39).

Nomura adopted FSP FIN 39-1 on April 1, 2008. There were ¥453 billion of netting of cash collateral receivables against net derivative liabilities and ¥341 billion of netting of cash collateral payables against net derivative assets as of September 30, 2008. FSP FIN 39-1 was retrospectively applied. There were ¥684 billion of netting of cash collateral receivables against net derivative liabilities and ¥378 billion of netting of cash collateral payables against net derivative assets as of March 31, 2008.

Table of Contents

New accounting pronouncements

Accounting for business combinations

In December 2007, the FASB issued SFAS No. 141-R, *Business Combinations* (SFAS 141-R). SFAS 141-R expands the definition of transactions and events that qualify as business combinations; requires that the full value of acquired assets and liabilities, including contingent consideration, be recorded at the fair value determined on the acquisition date and changes thereafter in contingent consideration to be reflected in revenue, not goodwill; changes the recognition timing for restructuring costs; and requires acquisition costs to be expensed as incurred.

SFAS 141-R applies prospectively for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. Early adoption and retroactive application is not permitted and therefore Nomura will adopt SFAS 141-R for business combinations for which the acquisition date is on or after April 1, 2009. Nomura is evaluating the impact of adoption of SFAS 141-R on its consolidated financial statements.

Accounting for noncontrolling interests

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interest in Consolidated Financial Statements* (SFAS 160). SFAS 160 re-characterizes minority interests in consolidated subsidiaries as non-controlling interests and requires the classification of non-controlling interests as a component of equity (rather than as a liability or as mezzanine equity). Under SFAS 160, a change in control will be measured at fair value, with any gain or loss recognized in earnings and provides guidance on the accounting for transactions between an entity and noncontrolling interests.

SFAS 160 is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. Early adoption is not permitted and therefore Nomura will adopt SFAS 160 on April 1, 2009. The Statement is applied prospectively as of the beginning of the fiscal year in which the Statement is initially applied, except for the presentation and disclosure requirements which are applied retrospectively for all periods presented. Nomura is evaluating the impact of adoption on its consolidated financial statements.

Enhanced disclosures about derivatives and hedging

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities* (SFAS 161). SFAS 161 replaces and expands the quantitative and qualitative disclosure requirements of SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities* (SFAS 133) and other related literature and intends to provide an enhanced understanding of:

How and why a reporting entity uses derivative instruments;

How derivative instruments and related hedged items are accounted for under SFAS 133 and its related interpretations; and

How derivative instruments affect a reporting entity's financial position, financial performance and cash flows.

SFAS 161 is effective for financial statements issued and for fiscal years and interim periods beginning after November 15, 2008 with early application permitted. Because SFAS 161 is a disclosure statement and does not impact the accounting treatment for derivative instruments and related hedged items, Nomura's adoption of SFAS 161 will not impact on its consolidated financial statements.

GAAP hierarchy

In May 2008, the FASB issued SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles* (SFAS 162) which provides a consistent framework, or hierarchy, for selecting accounting principles to be used in preparing financial statements that are presented in conformity with U.S. GAAP.

SFAS 162 is effective 60 days following the SEC's approval of the Public Company Accounting Oversight Board Auditing amendments to AU Section 411, *The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles* . Nomura is currently considering

Edgar Filing: NOMURA HOLDINGS INC - Form 6-K

the potential impact of adoption of SFAS 162 but does not expect a material impact on its consolidated financial statements.

Disclosures about Credit Derivatives

In September 2008, the FASB issued Staff Position No. FAS 133-1 and FIN 45-4, *Disclosures about Credit Derivatives and Certain Guarantees: An Amendment of FASB Statement 133 and FASB Interpretation No. 45; and Clarification of the Effective Date of FASB Statement No. 161* (FSP FAS 133-1 and FIN 45-4). FSP FAS 133-1 and FIN 45-4 requires a seller of credit derivatives shall disclose information about its credit derivatives and hybrid instruments that have embedded credit derivatives to enable users of financial statements to assess their potential effect on its financial position, financial performance, and cash flows.

FSP FAS 133-1 and FIN 45-4 is effective for reporting periods (annual or interim) ending after November 15, 2008. Because the FSP is a disclosure statement and does not impact the accounting treatment for credit derivatives, Nomura's adoption of the FSP will not impact substantially on its consolidated financial statements.

Table of Contents**3. Fair value of financial instruments:**

The majority of Nomura's financial assets and financial liabilities are carried at fair value on a recurring basis. Financial assets which are carried at fair value on a recurring basis are reported in the consolidated balance sheets within *Trading assets and private equity investments*, *Loans and receivables* and *Other assets*. Financial liabilities which are carried at fair value on a recurring basis are reported within *Trading liabilities*, *Short-term borrowings* and *Long-term borrowings*.

In all cases, fair value is determined in accordance with SFAS 157 which defines fair value as the amount that would be exchanged to sell a financial asset or transfer a financial liability in an orderly transaction between market participants at the measurement date. It assumes that the transaction occurs in Nomura's principal market, or in the absence of the principal market, the most advantageous market for the relevant financial asset or financial liability.

In accordance with SFAS 157, all financial instruments measured at fair value have been categorized into a three-level hierarchy based on the transparency of inputs used to establish fair value. For a description of the hierarchy levels, please see Note 2 Changes in accounting policies and new accounting pronouncements. The following table presents information about Nomura's financial assets and financial liabilities measured at fair value on a recurring basis as of September 30, 2008 within the fair value hierarchy. Financial instruments are classified in their entirety based on the lowest level of input that is significant to the fair value measurement of the instruments. In case that a derivative is valued with using a combination of Level 1, 2 and 3 inputs, it would be classified as Level 3, where the Level 3 inputs are significant in its measurement.

	Billions of yen September 30, 2008				Balance as of September 30 2008

- (1) Counterparty netting of derivative assets and liabilities in accordance with FIN 39 and cash collateral netting against net derivatives in accordance with FSP FIN 39-1.
- (2) Include private equity investments that would have been accounted for under the equity method if Nomura had not chosen to apply the fair value option under SFAS 159.
- (3) Include loans and receivables for which Nomura elected the fair value option under SFAS 159.

Edgar Filing: NOMURA HOLDINGS INC - Form 6-K

- (4) Include investments in affiliated companies that would have been accounted for under the equity method if Nomura had not chosen to apply the fair value option under SFAS 159.
- (5) Include structured notes which are elected for the fair value option under either SFAS 155 or SFAS 159.
- (6) Include liabilities by collateralized financing transactions that are accounted for as financing rather than sales in accordance with SFAS 140. Nomura elected the fair value option under SFAS 159 for those liabilities.
- (7) Include embedded derivatives bifurcated in accordance with SFAS 133 from the structured notes issued. If unrealized gain is more than unrealized loss, long-term borrowings is reduced by the exceeded amount.

Table of Contents

The following tables explain increase and decrease including gains and losses of Level 3 financial assets and financial liabilities measured at fair value on a recurring basis for the six and three months ended September 30, 2008. Financial instruments categorized within Level 3 predominantly include derivatives, structured notes, loans and receivables and unlisted stocks valued using significant unobservable parameters. These financial instruments are often hedged with instruments within Level 1 or Level 2 of the fair value hierarchy and the gains or losses below do not reflect the offsetting gains or losses for these hedging instruments. Level 3 financial assets and financial liabilities are also measured using both observable and unobservable inputs. Fair value changes presented below, therefore, reflect realized and unrealized gains and losses resulting from movements in both observable and unobservable inputs.

Total	¥	94

(1) Represent investments in affiliated companies that would have been accounted for under the equity method if Nomura had not chosen to apply the fair value option.

(2) Include structured notes and others for which Nomura elected the fair value option under either SFAS 155 or SFAS 159.

(3) Include liabilities by collateralized financing transactions that are accounted for as financing rather than sales in accordance with SFAS 140.

Nomura elected the fair value option to investment in Ashikaga Holdings Co., Ltd, that Nomura's ownership share was 45.5%, and included it in *Private equity investments*.

Edgar Filing: NOMURA HOLDINGS INC - Form 6-K

Nomura calculated the impact of changes in its own creditworthiness on financial liabilities for which the fair value option is elected, by discounting future cash flows at a rate which incorporates observable changes in its credit spread. The gain and losses from changes in the fair value of the financial liabilities for which the fair value option was elected, attributable to the change in its creditworthiness were revenue of ¥19 billion for the six months ended September 30, 2008, and revenue of ¥11 billion for the three months ended September 30, 2008. There was no significant impact on financial assets for which the fair value option was elected, attributable to the instrument-specific credit risk.

As of September 30, 2008, there was no significant difference between the aggregate fair value and the aggregate unpaid principal balance (which are contractually principally protected) of loans and receivables for which the fair value option was elected. There was no significant difference between the aggregate fair value and the aggregate unpaid principal balance (which are contractually principally protected) of short-term borrowings and long-term borrowings. There was no loans and receivables for which the fair value option was elected that were 90 days or more past due or in non-accrual status.

Table of Contents**4. Variable interest entities (VIEs):**

In the normal course of business, Nomura acts as a transferor of financial assets to VIEs, and underwriter, distributor, and seller of asset-repackaged financial instruments issued by VIEs in connection with its securitization and equity derivative activities. Nomura retains, purchases and sells variable interests in VIEs in connection with its market-making, investing and structuring activities. Nomura consolidates VIEs for which Nomura is the primary beneficiary, including those that were created to market structured bonds to investors by repackaging corporate convertible bonds and mortgage and mortgage-backed securities. Nomura also consolidates investment funds, which are managed in line with stipulated investment criteria, in which it is the primary beneficiary.

The following table shows the classification of the consolidated VIEs assets collateralized for the VIEs obligations. Creditors do not have any recourse to Nomura beyond the assets held in the VIEs.

	Billions of yen	
	September 30, 2008	March 31, 2008
Consolidated VIEs assets collateralized for the VIEs obligations		
Trading assets	¥ 237	¥ 240
Office buildings, land, equipment and facilities	50	47
Other	1	3
Total	¥ 288	¥ 290

Nomura also holds significant variable interests in VIEs where Nomura is not the primary beneficiary. Nomura's variable interests in such VIEs include senior and subordinated debt, residual interests, and equity interests associated with commercial and residential mortgage-backed and other asset-backed securitizations and structured financings; equity interests in VIEs which were formed to acquire primarily high yield leveraged loans and other below investment grade debt obligations; guarantees and residual interests regarding leveraged and operating leases for aircraft using VIEs; and loans and investments in VIEs that acquire operating businesses.

The following table sets forth the aggregate total assets of VIEs for which Nomura holds the significant variable interests and maximum exposure to loss associated with these significant variable interests. Maximum exposure to loss means the amount recorded on Nomura's consolidated balance sheet and does not reflect Nomura's estimate of the actual losses that could result from adverse changes, nor does it reflect the economic hedges Nomura enters into to reduce its exposure.

	Billions of yen	
	September 30, 2008	March 31, 2008
VIEs assets	¥ 458	¥ 457
Maximum exposure to loss	261	261

In June 2007, the AICPA issued Statement of Position 07-1, *Clarification of the Scope of the Audit and Accounting Guide Investment Companies and Accounting by Parent Companies and Equity Method Investors for Investment in Investment Company* (SOP 07-1). Although this SOP 07-1 was expected to be effective for fiscal years beginning on or after December 15, 2007, FASB decided to postpone the effective date of SOP 07-1, indefinitely. But, SOP 07-1 permitted early adoption and continuous application of this SOP 07-1 for entities that early adopted this SOP is allowed by FASB Staff Position No. SOP 07-1-1, *Effective Date of AICPA Statement of Position 07-1*.

Nomura decided early adoption of SOP 07-1 on December 14, 2007 and designated certain entities, including Nomura Principal Finance Co., Ltd. and Terra Firma Capital Partners I, as investment companies. FASB Staff Position No. FIN 46(R)-7, *Application of FASB Interpretation No. 46(R) to Investment Companies*, will provide those entities that meet criteria for investment companies under SOP 07-1 with a permanent scope exception from the application of FIN 46-R.

Table of Contents**5. Business combinations:***Subsequent events*

In accordance with the agreements in September 2008, Nomura acquired Lehman Brothers (Lehman) franchise in the Asia Pacific region including Japan and Australia as well as European and Middle Eastern equities and investment banking operations of Lehman in October 2008.

Lehman has been a strong player in the investment banking fields, including M&A, execution services, derivatives, electronic trading and prime brokerage. With these acquisitions including those described below, Nomura has combined Lehman's strong client franchise and has strengthened its wholesale business. The deals do not include any trading assets or trading liabilities.

In October 2008, Nomura also acquired Lehman's three companies named Lehman Brothers Services India Private Ltd., Lehman Brothers Financial Services (India) Private Ltd., and Lehman Brothers Structured Finance Services Private Ltd., which provide IT and other services related platform in India. The three companies have provided various functions for investment banks such as operational support in the area of IT, other operational supports, financial controls and risk managements globally including the Asia Pacific and European regions. The companies will also provide support services for global business of Nomura.

Certain acquisitions which are subject to SFAS No. 141, Business Combinations (SFAS 141) will be accounted for as business combinations under Nomura's consolidated financial statements from the period for the nine months ending December 31, 2008. Under SFAS 141, the allocation period of the cost to assets acquired and liabilities assumed should usually not exceed one year from the consummation date of the acquisitions.

6. Other assets Other / Other liabilities:

The following table sets forth *Other assets-Other* and *Other liabilities* in the consolidated balance sheets by type.

	Millions of yen	
	September 30, 2008	March 31, 2008
<i>Other assets-Other:</i>		
Securities received as collateral	¥ 155,078	¥ 242,601
Goodwill and other intangible assets	104,564	103,022
Deferred tax assets	305,505	273,041
Investments in equity securities for other than operating purposes	7,515	20,198
Other	141,018	170,047
Total	¥ 713,680	¥ 808,909
<i>Other liabilities:</i>		
Obligation to return securities received as collateral	¥ 155,078	¥ 242,601
Accrued income taxes	21,240	35,669
Other accrued expenses and provisions	264,681	279,169
Minority interests	12,848	12,978
Other	39,950	65,767
Total	¥ 493,797	¥ 636,184

Table of Contents**7. Earnings per share:**

The reconciliation of the amounts and the numbers used in the basic and diluted earnings per share (EPS) computations is as follows:

	Millions of yen except per share data presented in yen Six months ended September 30, 2008
Basic	
Net loss applicable to common stock	¥ (149,464)
Weighted average number of shares outstanding	1,908,311,939
Net loss per share	¥ (78.32)
Diluted	
Net loss applicable to common stock	¥ (149,466)
Weighted average number of shares outstanding	1,905,908,919
Net loss per share	¥ (78.42)
	Millions of yen except per share data presented in yen Three months ended September 30, 2008
Basic	
Net loss applicable to common stock	¥ (72,872)
Weighted average number of shares outstanding	1,908,688,016
Net loss per share	¥ (38.18)
Diluted	
Net loss applicable to common stock	¥ (72,874)
Weighted average number of shares outstanding	1,906,073,409
Net loss per share	¥ (38.23)

In determining diluted EPS, the net loss applicable to common stock is adjusted to reflect the decline in Nomura's equity share of earnings of affiliates arising from options to purchase common shares issued by affiliates.

The weighted average number of shares used in the calculation of diluted EPS reflects the decline in potential common shares arising from stock-based compensation plans issued by the Company that would increase the net loss per share for the six and three months ended September 30, 2008.

Antidilutive stock options to purchase 18,403,800 common shares were not included in the computation of diluted EPS for the six and three months ended September 30, 2008.

Table of Contents**8. Employee benefit plans:**

Nomura provides various severance indemnities and pension plans which cover certain employees world-wide. In addition, Nomura provides health care benefits to certain active and retired employees through its Nomura Securities Health Insurance Society.

Severance indemnities and pension plans

The net pension and severance cost of the defined benefit plans for employees of the Japanese entities for the six and three months ended September 30, 2008 is shown below:

Japanese entities plans

	Millions of yen	
	Six months ended	
	September 30, 2008	
Service cost	¥	4,973
Interest cost		2,563
Expected return on plan assets		(1,841)
Amortization of net actuarial losses		1,430
Amortization of prior service cost		42
Net periodic pension and severance costs	¥	7,167

	Millions of yen	
	Three months ended	
	September 30, 2008	
Service cost	¥	2,466
Interest cost		1,282
Expected return on plan assets		(921)
Amortization of net actuarial losses		715
Amortization of prior service cost		21
Net periodic pension and severance costs	¥	3,563

Nomura also recognized net periodic pension and severance costs of plans other than Japanese entities plans for the six and three months ended September 30, which are not significant.

9. Income taxes:

Effective tax rates for the six and three months ended September 30, 2008 were 2.7% and minus 5.1% respectively, while the domestic statutory tax rate is approximately 41%, mainly due to an increase in valuation allowance relating to losses of foreign subsidiaries.

Table of Contents**10. Commitments, contingencies and guarantees:****Commitments***Credit and investment commitments*

In connection with its banking and financing activities, Nomura provides commitments to extend credit, which generally have fixed expiration dates. In connection with its investment banking activities, Nomura enters into agreements with customers under which Nomura commits to underwrite notes that may be issued by the customers. The outstanding commitments under these agreements are included in commitments to extend credit.

Nomura has commitments to invest in interests in various partnerships and other entities, primarily in connection with its merchant banking activities, and also has commitments to provide financing for investments related to these partnerships. The outstanding commitments under these agreements are included in commitments to invest in partnerships.

These commitments outstanding were as follows:

	Millions of yen	
	September 30, 2008	March 31, 2008
Commitments to extend credit	¥ 105,957	¥ 181,341
Commitments to invest in partnerships	52,184	124,154

As of September 30, 2008, these commitments had the following expirations:

	Millions of yen				
	Total contractual amount	Years to Maturity			
	Less than 1 year	1 to 3 years	3 to 5 years	More than 5 years	
Commitments to extend credit	¥ 105,957	¥ 63,372	¥ 22,562	¥ 15,305	¥ 4,718
Commitments to invest in partnerships	52,184	4,113	14,904	13,094	20,073

Operating leases

Presented below is a schedule of future minimum rental payments under non-cancelable operating leases with remaining terms exceeding one year as of September 30, 2008 and March 31, 2008:

	Millions of yen	
	September 30, 2008	March 31, 2008
Total minimum lease payments	¥ 56,827	¥ 57,884
Less: Sublease rental income	(19,361)	(19,789)
Net minimum lease payments	37,466	38,095

As of September 30, 2008, these minimum lease payments had the following maturity for payments:

Millions of yen
Years to Payment

Total

Edgar Filing: NOMURA HOLDINGS INC - Form 6-K

		Less than 1 year	1 to 2 years	2 to 3 years	3 to 4 years	4 to 5 years	More than 5 years
Minimum lease payments	¥ 56,827	¥ 12,159	¥ 10,010	¥ 8,805	¥ 7,334	¥ 5,629	¥ 12,890

Certain leases contain renewal options or escalation clauses providing for increased rental payments based upon maintenance, utility and tax increases.

Table of Contents

Contingencies

Legal Proceedings

In the normal course of business, Nomura is involved in lawsuits and, as a result of such activities, is subject to ongoing legal risk. The management of Nomura believes that the ultimate resolution of such litigation will not be material to the consolidated financial statements.

Guarantees

FASB Interpretation No. 45, *Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others* (FIN 45) specifies the disclosures to be made in regards to obligations under certain issued guarantees and requires a liability to be recognized for the fair value of a guarantee obligation.

In the normal course of business, Nomura enters into various guarantee arrangements with counterparties in the form of standby letters of credit and other guarantees, which generally have a fixed expiration date.

In addition, Nomura enters into certain derivative contracts that meet the FIN 45 definition of guarantees. FIN 45 defines guarantees to include derivative contracts that contingently require a guarantor to make payment to a guaranteed party based on changes in an underlying that relate to an asset, liability or equity security of a guaranteed party. These derivative contracts include certain written options and credit default swaps. Because Nomura does not track whether its clients enter into these derivative contracts for speculative or hedging purposes, Nomura has disclosed information about derivative contracts that could meet the FIN 45 definition of guarantees.

For information about the maximum potential amount of future payments that Nomura could be required to make under certain derivatives, the notional amount of contracts has been disclosed. However, the maximum potential payout for certain derivative contracts, such as written interest rate caps and written currency options, cannot be estimated, as increases in interest or foreign exchange rates in the future could be theoretically unlimited.

Nomura records all derivative contracts at fair value on its consolidated balance sheet. Nomura believes the notional amounts generally overstate its risk exposure.

The following table sets forth information about Nomura's derivative contracts that could meet the definition of a guarantee under FIN 45 and certain other guarantees:

	Millions of yen			
	September 30, 2008		March 31, 2008	
	Carrying value	Maximum Potential Payout/Notional Total	Carrying value	Maximum Potential Payout/Notional Total
Derivative contracts	¥ 3,609,297	¥ 73,641,599	¥ 3,325,218	¥ 70,659,948
Standby letters of credit and other guarantees ⁽¹⁾	499	3,795	756	6,438

(1) There was no collateral held in connection with standby letters of credit and other guarantees as of September 30, 2008 and March 31, 2008.

The following table sets forth expiration information about Nomura's derivative contracts that could meet the definition of a guarantee under FIN 45 and certain other guarantees as of September 30, 2008:

Table of Contents**11. Segment and geographic information:****Operating segments**

Nomura operates five distinct segments: Domestic Retail, Global Markets, Global Investment Banking, Global Merchant Banking and Asset Management. Nomura structures its business segments based upon the nature of specific products and services, its main customer base and its management structure.

The accounting policies for segment information materially follow U.S. GAAP, except as described below:

The impact of unrealized gains/losses on long-term investments in equity securities held for operating purposes, which under U.S. GAAP is included in loss before income taxes, is excluded from segment information.

Revenues and expenses directly associated with each business segment are included in determining their operating results. Revenues and expenses that are not directly attributable to a particular segment are allocated to each business segment or included in Other based upon Nomura's allocation methodologies as used by management to assess each segment's performance.

Business segments' results are shown in the following tables. Net interest revenue is disclosed because management views interest revenue net of interest expense for its operating decisions. Business segments' information on total assets is not disclosed because management does not utilize such information for its operating decisions and therefore, it is not reported to management. Certain prior period amounts have been reclassified to conform to the current quarter presentation.

Table of Contents**Geographic information**

In general, Nomura's identifiable assets, revenues and expenses are allocated based on the country of domicile of the legal entity providing the service. However, because of the integration of the global capital markets and the corresponding globalization of Nomura's activities and services, it is not always possible to make a precise separation by location. As a result, various assumptions, which are consistent among years, have been made in presenting the following geographic data.

The tables below present a geographic allocation of net revenue and income (loss) before income taxes from operations by geographic areas, and long-lived assets associated with Nomura's operations. Net revenue in Americas and Europe substantially represents Nomura's operations in the United States and the United Kingdom, respectively. Net revenue and Long-lived assets have been allocated on a deals-with-external-customers-basis. Income (loss) before income taxes have been allocated on an including-intersegment-revenues-and-expenses-basis.

There is no revenue derived from transactions with a single major external customer for the six and three months ended September 30, 2008.

Table of Contents

2. Other

We are involved in a number of lawsuits in Japan and overseas, which are either ordinary routine actions and proceedings incidental to our business or not material to us. Based upon the information currently available to us and our domestic and overseas legal counsel, we believe that the ultimate resolution of such lawsuits will not, in the aggregate, have a material adverse effect on our financial condition or results of our operations.

In October 2008, we acquired the most parts of Lehman Brothers (Lehman) Asia Pacific franchise and of its European and Middle Eastern investment banking and equities operations, as well as hired a number of former Lehman's fixed income employees in Europe. We also acquired Lehman's IT and other services related platform in India. With these acquisitions, we have combined Lehman's strong client franchise and strengthened our wholesale business. The deals do not include any trading assets or trading liabilities of Lehman.

Following the transactions above, we succeeded the employment of around 1,100 staff in Japan, 1,500 in the Asia Pacific region excluding Japan, 2,650 in European and the Middle Eastern region and acquired IT and other services related platform with 2,900 staff in India, totaling over 8,000 staff as a result. The significant increase in employees as a result of acquiring these franchises may lead to additional costs such as personnel expenses being incurred that could have a negative impact on our operating results and financial position. Given the facts that the acquisitions include only certain divisions in European and the Middle Eastern region therefore it does not include all staff in the region and that the substantial amount of costs including headquarters costs had been allocated to the regions, it is not simple to make a comparison between the situations before and after the acquisitions, but according to Lehman's publicly available disclosure information(*), number of staff as of November 30, 2007 and non-interest expenses for the year ended November 30, 2007 were; 5,102 and U.S. \$1,831 million in the Asia Pacific region including India, and 6,436 and U.S. \$4,221 million in European and the Middle Eastern region. The goodwill could be recognized from certain acquisitions subject to SFAS No. 141, Business Combinations in our consolidated balance sheets and we may recognize an impairment loss as a result of a periodic impairment test for the goodwill.

(*): Sources: Lehman Brothers 2007 Fact Book and Annual Report for the fiscal year ended November 30, 2007 (Form 10-K).

While we make efforts to expedite the integration process of the Lehman's client franchise, it may take longer than expected to integrate the franchise. In the integration process, it is possible that we may lose the key employees and the integration of Lehman's clients may not be carried out as effectively as expected. The insufficient enhancement of our wholesale business may have negative impact on business strategy and may damage our reputation. Integration efforts could divert management resources and might result in a disruption to ongoing businesses, which could adversely affect our business and operating results.

We also have an exposure related to Iceland which has been hedged through a credit default swap with Lehman, and we have started to see risks arising in the exposure due to Lehman's bankruptcy. After Lehman's bankruptcy, we entered into alternative hedge transactions, but the turmoil from the nationalization of banks in Iceland since October 2008 has led a significant decline in value of our position which valued U.S. \$425 million as of September 30, 2008. We may recognize significant amount of losses depending on the trend in the future.

In addition, the stock price of Class A shares of Fortress Investment Group LLC, of which we hold 55 million shares, has sharply declined since October 2008. The closing stock price of the day (U.S. time) before the filing date of this quarterly securities report was U.S. \$3.20 per share, which was 73% below the book value as at September 30, 2008. We may recognize significant amount of losses depending on the stock price trend in the future.

On July 29, 2008 the Board of Directors resolved to pay the first quarter dividend to shareholders registered on the record date of June 30, 2008.

a. Total first quarter dividend	¥ 16,233 million
b. The first quarter dividend per share	¥ 8.50

On October 28, 2008 the Board of Directors resolved to pay the second quarter dividend to shareholders registered on the record date of September 30, 2008.

a. Total second quarter dividend	¥ 16,234 million
b. The second quarter dividend per share	¥ 8.50

We have performed a quarterly review of the quarterly consolidated financial statements of Nomura Holdings, Inc. (the Company) included in Item 5. Financial Information for the three-month and six-month periods ended September 30, 2008 within the fiscal period from April 1, 2008 to March 31, 2009 which include the quarterly consolidated balance sheet, and the quarterly consolidated statements of operations, changes in shareholders' equity, comprehensive income and cash flows pursuant to the requirements of the rules specified in Article 193-2, Section 1 of the Financial Instruments and Exchange Act. These quarterly consolidated financial statements are the responsibility of the Company's management and our responsibility is to independently express a conclusion on these quarterly consolidated financial statements.

We conducted our quarterly review in accordance with quarterly review standards generally accepted in Japan. A review of quarterly consolidated financial statements consists of making inquiries, primarily of management and persons responsible for financial and accounting matters, applying analytical and other quarterly review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in Japan, and consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the quarterly consolidated financial statements referred to above do not present fairly, in all material respects, the consolidated financial position of Nomura Holdings, Inc. and subsidiaries as of September 30, 2008, and the consolidated results of their operations and their cash flows for the three-month and six-month periods then ended in conformity with accounting principles generally accepted in the United States of America (see Note 1 to the quarterly consolidated financial statements).

Additional information

As disclosed in Note 5 to the quarterly consolidated financial statements, in October 2008, the Company acquired Lehman Brothers operations in the Asia Pacific region, its European and Middle Eastern equities and investment banking operations and its three companies which provide IT and other services related platform in India.

We have no interest in the Company which should be disclosed under the provisions of the Certified Public Accountants Law.

Edgar Filing: NOMURA HOLDINGS INC - Form 6-K
