Table of Contents

PART I

Item 1. BUSINESS

General Description

CKX Lands, Inc. is a Louisiana corporation organized in 1930 as Calcasieu Real Estate & Oil Co., Inc., to receive non-producing mineral royalties spun off by a Southwest Louisiana bank. Over the years, as some of the royalties yielded oil and gas income, the Company used the proceeds to purchase land. On May 17, 2005, the Company changed its name from Calcasieu Real Estate & Oil Co., Inc. to CKX Lands, Inc. The primary reason for the change was to help make clear that the Company is not directly involved in oil and gas exploration or operations. As used herein, the Company or CKX refers to CKX Lands, Inc.

The Company's shares are listed on the NYSE Alternext US (previously known as American Stock Exchange), under the symbol CKX. As of March 19, 2009, there were 1,942,495 shares outstanding. The Company had a common equity public float of less than \$75 million as of the last business day of the second fiscal quarter. Consequently, the Company is a small reporting company under the Securities Exchange Commission regulations.

As a reporting company, CKX is subject to the informational requirements of the Securities Exchange Act of 1934 (the Exchange Act) and accordingly files its annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, proxy statements and other information with the Securities and Exchange Commission (the SEC). The public may read and copy any materials filed with the SEC at the SEC's Public Reference Room at 100 F Street, N.E., Room 1580, Washington, DC 20549. Please call the SEC at (800) SEC-0330 for further information on the Public Reference Room. As an electronic filer, CKX's public filings are maintained on the SEC's Internet site (<http://www.sec.gov>) that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC.

The Company owns land and mineral interests, all of which are located in Southwest Louisiana. The Company collects income from this land in the form of oil and gas royalties, agriculture rentals and timber sales. The Company is not involved in the exploration or production of oil and gas nor does it actively farm its lands. These activities are performed by others for royalties or rentals. Parts of the Company's land are owned in indivision with other owners. The Company's ownership share in most of this acreage is one-sixth. For convenience the owners jointly operate an entity known as Walker Louisiana Properties (WLP) to manage this acreage. Neither the Company nor Walker Louisiana Properties consider themselves to be in oil and gas producing activities inasmuch as: (1) they do not search for crude oil or natural gas in their natural states; (2) they do not acquire property for the purpose of exploration or the removing of oil and gas; and (3) they are not involved in construction, drilling and/or production activities necessary to retrieve oil and gas.

Oil and gas royalties are paid by the operators who own the wells. Timber income is paid by the highest bidder of the timber. There are several mills in the immediate area that compete for timber. All of the agriculture income comes from tenants who pay annual cash rents. The prices paid for oil, gas and timber depend on national and international market conditions. Oil and gas revenues were 95.8% of the Company's total revenues in 2008 and 90.0% in 2007.

The source of all raw materials for the Company is the land itself. Timber income and agriculture income are renewable resources. All oil and gas income will eventually deplete, but we have no access to this data.

The Company does not spend any money on Research and Development.

The Company does not need government approval of its principal products or services except that the State of Louisiana must approve the size & location of all oil and gas producing units.

Employees

The Company has five employees, all of whom are part-time. There are four officers, and one clerical person. The Company is subject to no union contracts nor does the Company have any hospitalization, pension,

Table of Contents

profit sharing, option or deferred compensation programs. WLP has five full-time employees, and two of these employees are part-time employees of the Company. One employee of WLP is devoted full-time to agriculture, and one employee of WLP is devoted full-time to timber.

Customers

The Company's customers are those who have mineral leases on the Company's property or purchase the timber in competitive bids or execute farming leases. The largest customers are the oil and gas operators under the mineral leases. During 2008, the Company received 19% of its revenues from Swift Energy, 17% from Cox and Perkins, 15% from Riceland Petroleum, 11% from Mayne & Mertz, 6% from Gulfmark Energy, 6% from Kaiser-Francis Oil and 6% from Duncan Oil. Termination of production or cash receipts from any of these fields would have a material adverse effect on the Company.

Environmental and Other Governmental Regulations

The operators of the wells are responsible for complying with environmental and other governmental regulations. However, should an operator abandon a well located on Company land without following prescribed procedure, the land owners could possibly be held responsible. The Company does not believe this would have a material effect on its financial condition.

Item 2. PROPERTIES

The Company owns a total of 10,903 net acres in the Louisiana Parishes of Allen, Beauregard, Calcasieu, Cameron, Jefferson Davis, LaFourche, Sabine, St. Landry and Vermilion. Most of the acreage is in Southwest Louisiana. Much of this land is owned in indivision. Ownership is as follows:

	2008
100% Ownership	4,112 acres
40% Ownership of 1,620 acres with Walker Louisiana Properties	648 acres
50% Ownership of 440 acres with Prairie Land Company	220 acres
16.667% Ownership of 35,538 acres comprising Walker Louisiana Properties	5,923 acres

Of the total 10,903 net acres owned by CKX, timberland comprises 6,902 acres, 3,014 acres are agricultural land, 740 acres are marsh land and 247 acres are future subdivision land.

The table below shows, for the years ended December 31, 2008, and December 31, 2007, the Company's net gas produced in thousands of cubic feet (MCF), net oil produced in barrels (Bbl), and average sales prices relating to oil and gas attributable to the royalty interests of the Company.

	Year Ended 12/31/08	Year Ended 12/31/07
Net gas produced (MCF)	113,172	151,637
Average gas sales price (per MCF) ⁽¹⁾	\$ 9.91	\$ 7.94
Net oil produced (Bbl) ⁽²⁾	19,731	22,291
Average oil sales price (per Bbl) ^(1,2)	\$ 95.74	\$ 66.98

Notes to above schedule:

- (1) Before deduction of production and severance taxes.
- (2) Excludes plant products.

Item 3. LEGAL PROCEEDINGS

The Company was not involved in any legal proceedings as of December 31, 2008.

Item 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There were no matters submitted to a vote of security holders during the three months ended December 31, 2008.

Table of Contents**PART II****Item 5. MARKET FOR THE REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES**

The Company's Common Stock is traded on the NYSE Alternext US (previously known as American Stock Exchange) under the trading symbol CKX since its listing on December 8, 2003. Prior to the listing there was no established public trading market for the Common Stock, and there had been only limited and sporadic trading in the Common Stock, principally among its shareholders. On February 13, 2009, there were approximately 560 stockholders of record. The Company believes that there are approximately 1,000 beneficial owners of its Common Stock. There were no sales of unregistered securities of the Company and no purchases of equity securities of the Company during 2008 by the Company. The following table sets forth the high and low sales prices as reported in the Wall Street Journal for the Common Stock by quarter during 2008 and 2007.

		First Quarter	Second Quarter	Third Quarter	Fourth Quarter
Common stock price per share 2008	high	\$ 16.50	14.50	13.29	14.05
	low	12.63	12.90	10.58	10.76
Common stock price per share 2007	high	\$ 15.10	14.80	14.25	13.29
	low	12.50	12.85	12.90	11.25

The Company has paid cash dividends since 1990. The Company is currently paying a quarterly dividend of 7¢ per share and intends to maintain quarterly dividends. From time to time, the Company may elect to pay an extra dividend. In determining if an extra dividend will be declared, the Board of Directors will take into consideration the Company's current liquidity and capital resources and the availability of suitable timberland that has mineral potential. The Company paid an extra dividend of 50¢ per share to shareholders of record at December 15, 2008, and declared an extra dividend of 40¢ per share to shareholders of record at December 27, 2007. A summary of cash dividends is set forth in the table below.

	First Quarter	Second Quarter	Third Quarter	Fourth Quarter	Year Total
Cash Dividend per Share					
2008	\$ 0.07	0.07	0.07	0.57	0.78
2007	\$ 0.07	0.07	0.07	0.47	0.68

Item 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**Overview**

CKX Lands, Inc. began operations in 1930 under the name Calcasieu Real Estate & Oil Co., Inc. It was originally organized as a spin-off by a bank operating in Southwest Louisiana. The purpose of the spin-off was to form an entity to hold non-producing minerals which regulatory authorities required the bank to charge off. Over the years, as some of the mineral interests began producing, the Company used part of the proceeds to acquire land. In 1990, the Company made its largest acquisition when it was one of four purchasers who bought American Airline's fifty percent undivided interest in approximately 35,000 acres in Southwest Louisiana.

Today most of the Company's income is derived from mineral production on the land acquired over the years. CKX receives income from seismic permits, mineral leases and the landowner's portion of any oil and gas production. CKX also receives income from agriculture rents and timber sales. The Company's activities are passive in that it doesn't explore for oil and gas, operate wells or farm land. All timber activities are contracted. The Company doesn't plant and harvest trees, except through contractors.

The Company's income fluctuates as new oil and gas production is discovered on Company land and as wells deplete. Oil and gas activity has increased considerably over prior years due to higher prices and

Table of Contents

technology developments, particularly 3-D seismic. With new technology, companies are able to find much smaller pockets of oil and gas as well as drill with a much higher success rate. Most of these discoveries are small, however, and have a limited life.

CKX has small interests in 39 different oil and gas fields. The size of the interest is determined by the Company's net ownership in the acreage unit for the well. CKX's interests range from .0033% for the smallest to 3.567% for the largest. As the Company does not own or operate the wells, it does not have access to any reserve information.

Eventually, the oil and gas under the Company's current land holdings will be depleted. The Company is constantly looking for additional land to be purchased in our immediate area. We are primarily looking for timberland that has mineral potential.

Results of Operations*Fiscal Year 2008 Compared to Fiscal Year 2007*

Revenues for 2008 were \$3,335,874, an increase of 2.4% when compared with 2007 revenues of \$3,258,124.

Oil and gas revenues increased by \$263,601, or 9.0%, to \$3,194,407 in 2008. Oil and gas revenues consist of royalty, lease rental and geophysical revenue. Royalty revenue increased by \$227,631, or 8.2%, and lease rentals increased by \$30,140, or 20.7%, from 2007. Geophysical revenues increased by \$5,830, or 191.5%, from 2007.

Gas production decreased by 38,382 MCF, and the average gas sales price per MCF increased by 24.8% resulting in a decrease in gas revenue of \$81,267. Revenue from oil production increased by \$308,897, due to an increase of 43.9% in the average oil sales price and a decrease in production of approximately 3,876 barrels.

The following seven fields produced 78% and 82% of the Company's oil and gas revenues in 2008 and 2007, respectively. This following schedule shows the number of barrels of oil (Bbl Oil) and MCF of gas (MCF Gas) produced in 2008 and 2007.

Field	Bbl Oil		MCF Gas	
	2008	2007	2008	2007
Bon Air	1,692	6,626	14,471	52,670
Castor Creek	266	391	9,880	21,691
South Bear Head Creek	4,318	2,365	11,456	6,340
South Gordon	4,285	4,073	5,623	5,439
South Jennings	1,162	1,279	26,502	17,571
Southeast Lunita	298	546	14,935	14,505
Vinton	1,648	1,718		

All of the decreases were due to depletion. The increase at South Bear Head Creek was due to a new well.

In 2008 the Company was a lessor in eleven new mineral leases covering a total of 638.45 gross acres. The Company's net acres leased in 2008 were 231.48 acres. The new leased acres are located in four different Parishes.

During 2008, the Company continued to see a reduction in oil and gas leasing activity over prior years. This is an expected operating result as drilling activity began on a number of leases thus eliminating lease payments.

Agriculture income decreased by \$107,414, or 51.4%, from 2007 due to a decrease in right-of-way fees.

Table of Contents

Timber income decreased by \$78,436 to \$40,070, a decrease of 66.2% from 2007. This decrease is primarily attributable to a depressed timber market which is related to the slow-down in the housing market.

On April 30, 2007, Walker Louisiana Properties completed the sale of 100 subdivision acres in Calcasieu Parish, Louisiana with a contract sales price of \$1,912,050. The Company owns a one-sixth interest in this land and reported a gain from this sale of \$312,561. This transaction was structured as a deferred exchange using a qualified intermediary pursuant to Paragraph 1031 of the Internal Revenue Code (1031 Exchange) for income tax purposes. Due to the 1031 exchange, a gain of \$38,962 was deferred for income tax purposes.

On October 24, 2007, the Company completed the sale of approximately 3,495 agricultural acres and certain equipment assets in Cameron Parish, Louisiana for approximately \$3,146,000. This transaction was structured as a deferred exchange using a qualified intermediary pursuant to Paragraph 1031 of the Internal Revenue Code (1031 Exchange) for income tax purposes. The entire sales proceeds were deposited with a qualified intermediary and the gain was deferred during the 1031 Exchange period. In late February 2008, the Company determined that consummation of identified 1031 Exchange properties was not possible and current recognition of the approximate gain of \$1,448,900 from this sale was the result.

Outlook for Fiscal Year 2009

The Company continues to actively search for lands that meet our criteria of timberland that has mineral potential. At this time, the Company has no prospects.

Currently, there are 16 non-producing mineral leases covering 1,696.34 gross acres, or 449.43 net acres, and 3 active seismic options to lease covering 1,506.15 gross acres, or 315.58 net acres. The Company believes that there is a good chance that some of these leases will be drilled and production discovered. However, the Company is not aware of any current drilling or testing activity.

In October 2007, the Company sold approximately 3,495 acres of agriculture land that had produced income of approximately \$45,000 per year. We expect agriculture income to remain flat in 2009.

The Company expects timber revenues to remain depressed in 2009.

Liquidity and Capital Resources

The Company has no long-term liabilities, contingencies or off balance sheet liabilities and no material current liabilities at December 31, 2008. Additional sources of liquidity are the Company's securities available-for-sale and a bank line of credit for \$1,000,000.

There are no current plans for capital expenditures. However, the Company is always looking to purchase additional land provided it meets the Company's criteria.

In the opinion of management, current cash flow from operations, cash and cash equivalent investments and the available line of credit are adequate for projected operation, possible land purchases and continuation of the regular cash dividend.

Critical Accounting Policies

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates. The most significant accounting estimates inherent in the preparation of our financial statements include the following items:

Our accounts receivable consist of incomes received after year end for royalties produced prior to year end. When there are royalties that have not been received at the time of the preparation of the financial statements for

Table of Contents

months in the prior year, we estimate the amount to be received based on the last month's royalties that were received from that particular company. We do not maintain an allowance for doubtful accounts because we can confirm virtually all receivables before they are booked as income.

The Company accounts for income taxes in accordance with Statement of Financial Accounting Standards No. 109, Accounting for Income Taxes (SFAS 109) which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the financial statement carrying amounts and the tax bases of assets and liabilities.

Reforestation expenses are added to the timber asset account and depleted over seven years. As timber is sold the original cost is amortized based on the volume as compared to the original cost. When we purchase land, the portion that represents the timber value is set up as an asset labeled timber.

Forward Looking Statements

Certain matters contained in this report are forward-looking statements including, without limitation, the information contained under the heading Outlook for Fiscal Year 2009 in Item 6 of this report. These statements are not guarantees of future performance and are subject to certain risks, uncertainties and other factors, some of which are beyond our control and difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements. You should not place undue reliance on these forward-looking statements, which speak only as of the date of this report. Unless legally required, the Company undertakes no obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise. Additional information may be obtained by reviewing the information set forth below under Significant Risk Factors and information contained in the Company's reports periodically with the SEC.

Item 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Significant Risk Factors

The Company's business and operations are subject to certain risks and uncertainties, including:

Reliance upon Oil and Gas Discoveries

The Company's most significant risk is its reliance upon others to perform exploration and development for oil and gas on its land. Future income is dependent on others finding new production on the Company's land to replace present production as it is depleted. Oil and gas prices as well as new technology will affect the possibility of new discoveries.

Commodity Prices

All of the Company's operating income comes from the sale of commodities produced from its real estate: oil and gas, forest products, and agriculture products. Fluctuations in these commodity prices will directly impact net income. In 2008, average gas prices paid to the Company were 24.8% higher than the average in 2007, and average oil prices were 43.9% higher in 2008 than in 2007. If the average oil and gas prices in 2008 reverted to the 2007 averages, income before income tax would have declined by approximately 33%.

Interest Rate Risks

The Company has no direct exposure to changes in foreign currency exchange rates and minimal direct exposure to interest rates. The Company has an unsecured line of credit with Chase at their prime rate, but the Company hasn't utilized this line and has no current plans to do so.

Table of Contents

Item 8. FINANCIAL STATEMENTS

All financial statements required by this item are listed in the Table of Contents to Financial Statements appearing immediately after the signature page of this Form 10-K and are included herein by reference.

Item 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

Item 9A (T). CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's Securities Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including its principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Management's Annual Report on Internal Control Over Financial Reporting

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting (ICFR) for the Company. In assessing the Company's ICFR, management follows the Committee of Sponsoring Organizations of the Treadway Commission's (COSO) Internal Control over Financial Reporting Guidance for Smaller Public Companies Integrated Framework (2006) in assessing the effectiveness of the Company's ICFR. Management shall determine ICFR ineffective if a material weakness exists in the controls.

Due to the Company's management inability to assess Walker Louisiana Properties' ICFR and lack of compensating controls, management has assessed the Company's ICFR as ineffective. The Company owns a one-sixth interest in WLP and WLP's activities are material to the Company. WLP prepares cash basis interim financial statements and audited GAAP basis financial statements at year end. At report date, we have not identified a plan or process to remediate the ineffectiveness of the ICFR.

This annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this annual report.

During the quarter ending December 31, 2008, the Company's Management followed the COSO Internal Control over Financial Reporting Guidance for Smaller Public Companies Integrated Framework (2006) when assessing the ICFR. During the quarter ending December 31, 2008, there have been no changes in the Company's internal control over financial reporting that has materially affected or is reasonably likely to affect, the Company's internal control over financial reporting.

Item 9B. OTHER INFORMATION

None.

REPORT OF INDEPENDENT AUDITORS

To the Board of Directors

CKX Lands, Inc.

Lake Charles, Louisiana

We have audited the accompanying balance sheets of CKX Lands, Inc. as of December 31, 2008 and 2007, and the related statements of income, changes in stockholders' equity, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of CKX Lands, Inc. as of December 31, 2008 and 2007, and the results of its operations and its cash flows for the years ended, in conformity with accounting principles generally accepted in the United States of America.

/s/ McElroy, Quirk & Burch

Lake Charles, Louisiana

CKX Lands, Inc.

Notes to Financial Statements

Note 1. Nature of Business and Significant Accounting Policies

Nature of business:

The Company's business is the ownership and management of land. The primary activities consist of leasing its properties for minerals (oil and gas) and agriculture and raising timber.

Significant accounting policies:

Cash and equivalents:

For purposes of the statement of cash flows, cash equivalents include time deposits, certificates of deposit, and all highly liquid debt instruments with original maturities of three months or less.

Pervasiveness of estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment securities:

The Company complies with the provisions of Financial Accounting Standards Board Statement No. 115, *Accounting for Certain Investments in Debt and Equity Securities*. Under the provisions of this statement, management must make a determination at the time of acquisition whether certain investments in debt and equity securities are to be held as investments to maturity, held as available-for-sale, or held for trading. Management, under a policy adopted by the board of directors of the Company, made a determination that all debt and equity securities owned at that date and subject to the provisions of the statement would be classified as held available-for-sale.

Under the accounting policies provided for investments classified as held available-for-sale, all such debt securities and equity securities that have readily determinable fair value shall be measured at fair value in the balance sheet. Unrealized holding gains and losses for available-for-sale securities shall be excluded from earnings and reported as a net amount (net of income taxes) as a separate component of retained earnings until realized. Realized gains and losses on available-for-sale securities are included in income. The cost of securities sold is based on the specific identification method. Interest on debt securities is recognized in income as earned, and dividends on marketable equity securities are recognized in income when declared.

Declines in the fair value of available-for-sale securities below their cost that are deemed to be other-than-temporary are reflected in earnings as realized losses. In estimating other-than-temporary impairment losses, management considers (1) length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, and (3) the intent and ability of the Company to retain its investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value.

Property and equipment:

Property and equipment is stated at cost. Major additions are capitalized; maintenance and repairs are charged to income currently. Depreciation is computed on the straight-line and accelerated methods over the estimated useful lives of the assets.

Table of Contents**CKX Lands, Inc.****Notes to Financial Statements (continued)***Timber:*

When timber land is purchased with standing timber, the cost is divided between land and timber based on timber cruises contracted by the Company. The costs of reforestation are capitalized. The timber asset is amortized when the timber is sold based on the percentage of the timber sold from a particular tract applied to the amount capitalized for timber for that tract.

Oil and gas:

Oil and gas income is booked when the Company is notified by the well s operators as to the Company s share of the sales proceeds together with the withheld severance taxes. The Company has no capitalized costs relating to oil and gas producing activities and no costs for property acquisition, exploration and development activities.

Net Income and Dividends per common stock:

Net Income and Dividends per common stock are based on the weighted average number of common stock shares outstanding during the period.

Income taxes:

Deferred income tax assets and liabilities are determined using the liability (or balance sheet) method. Under this method, the net deferred tax asset or liability is determined based on the tax effects of the temporary differences between the book and tax bases of the various balance sheet assets and liabilities and gives current recognition to changes in tax rates and laws.

In July 2006, the FASB issued FIN 48 Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109 to create a single model to address accounting for uncertainty in tax positions. FIN 48 clarifies that a tax position must be more likely than not of being sustained before being recognized in the financial statements. As required, we adopted the provisions of FIN 48 as of January 1, 2007. The adoption of FIN 48 did not have a material impact on our financial statements.

Note 2. Securities Available-for-Sale

Debt and equity securities have been classified in the balance sheet according to management s intent in the noncurrent asset sections under the heading securities available-for-sale . The carrying amount of securities and their approximate fair values at December 31, 2008 and 2007 follow:

	Gross Amortized Cost	Unrealized Gains	Unrealized Losses	Fair Value
At December 31, 2008				
Equity securities	\$ 510,353	107,358	95,609	522,102
Corporate bonds				
US Government securities				
	\$ 510,353	107,358	95,609	522,102
At December 31, 2007				
Equity securities	\$ 698,659	239,611	97,739	840,531
Corporate bonds	200,003		3,405	196,598
US Government securities	980,618	12,562		993,180

\$ 1,879,280 252,173 101,144 2,030,309

Table of Contents**CKX Lands, Inc.****Notes to Financial Statements (continued)**

Gross realized gains and gross realized losses on sales of securities available-for-sale for the year ended December 31, 2008 and 2007 are presented below.

	Realized Gains	Realized Losses
December 31, 2008		
Equity securities	\$	(116,730)
December 31, 2007		
US Government securities	\$ 1,548	4,994

Information pertaining to available-for-sale securities with gross unrealized losses at December 31, 2008 and 2007 aggregated by investment category and length of time that individual securities have been in a continuous loss position, follows:

	Less Than 12 Months Gross Unrealized Loss		12 Months or More Gross Unrealized Loss	
	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss
December 31, 2008				
Equity securities	\$		173,120	95,609
December 31, 2007				
Equity securities	\$ 105,951	67,370	90,920	30,369
Corporate bonds			200,003	3,405
US Government securities				
	\$ 105,951	67,370	290,923	33,774

Management evaluates securities for other-than-temporary impairment at least on a quarterly basis, and more frequently when economic or market concerns warrant such evaluation. Consideration is given to (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, and (3) the intent and ability of the Company to retain its investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value.

The Company has the intent and ability to retain its investments for a period of time sufficient to allow for anticipated recovery of fair value.

Note 3. Oil and Gas Properties

Results of operations for oil and gas producing activities at December 31, 2008 and 2007 are as follows:

	2008	2007
Gross revenues		
Royalty interests	\$ 3,004,077	\$ 2,776,504
Working interests	6,927	7,190

Edgar Filing: CKX Lands Inc - Form 10-K

Seismic and Lease Fees	183,403	147,113
	3,194,407	2,930,807
Production costs	250,958	239,586
Results before income tax expense	2,943,449	2,691,221
Estimated income tax expense	923,885	880,193
Results of operations from producing activities excluding corporate overhead	\$ 2,019,564	\$ 1,811,028

Table of Contents**CKX Lands, Inc.****Notes to Financial Statements (continued)**

There were no major costs, with the exception of severance taxes, incurred in connection with the Company's oil and gas operations, which are conducted entirely within the United States, during the year ending December 31, 2008 or 2007.

Reserve quantities (unaudited):

Reserve information relating to estimated quantities of the Company's interest in proved reserves of natural gas and crude including condensate and natural gas liquids is not available. Such reserves are located entirely within the United States. A schedule indicating such reserve quantities is, therefore, not presented. All oil and gas royalties come from Company owned properties that were developed and produced by producers under lease agreements.

Company's share of oil and gas produced from royalty and working interests:

	2008	2007
Net gas produced (MCF)	113,172	151,637
Net oil produced (Bbl)	19,731	22,291

Note 4. Income Taxes

The Company files federal and state income tax returns on a calendar year basis.

The net deferred tax liability in the accompanying balance sheets includes the following components at December 31, 2008 and 2007:

	2008		2007	
	Current	Non-Current	Current	Non-Current
Deferred tax assets	\$ 385	\$	\$ 1,215	\$
Deferred tax liabilities	(37,596)	(181,818)	(37,096)	(181,818)
Deferred tax asset on unrealized net loss (gain) of securities available-for-sale	4,867		(60,411)	
	\$ (32,344)	\$ (181,818)	\$ (96,292)	\$ (181,818)

Reconciliation between federal income taxes, computed by applying statutory tax rates to income before income taxes and income taxes provided at December 31, 2008 and 2007 is as follows:

	2008	2007
Tax at statutory rates	\$ 927,208	\$ 1,482,888
Tax effect of the following:		
Statutory depletion	(153,561)	(141,952)
Dividend exclusion	(7,231)	(8,391)
State income tax	102,613	200,144
Other	(102,689)	(13,248)
	\$ 766,340	\$ 1,519,441

Table of Contents**CKX Lands, Inc.****Notes to Financial Statements (continued)**

Deferred income taxes result from timing differences in the recognition of revenue and expenses for tax and financial statement purposes. The effect of these timing differences at December 31, 2008 and 2007 is as follows:

	2008		2007	
	Current	Non-Current	Current	Non-Current
Conversion of investment from tax cash basis to accrual basis for financial reporting	\$ (37,211)		\$ (35,881)	
Unrealized net loss (gain) on marketable securities	4,867		(60,411)	
Casualty loss		(121,239)		(121,239)
Deferred gain		(60,579)		(60,579)
	\$ (32,344)	(181,818)	\$ (96,292)	(181,818)

Note 5. Line of Credit

The Company has available an unsecured line of credit in the amount of \$1,000,000. The balance on this line of credit was \$-0- at December 31, 2008 and 2007.

Note 6. Company Operations

The Company's operations are classified into three principal operating segments that are all located in the United States: oil and gas, agricultural and timber. The Company's reportable business segments are strategic business units that offer income from different products. They are managed separately due to the unique aspects of each area.

Table of Contents**CKX Lands, Inc.****Notes to Financial Statements (continued)**

Following is a summary of segmented operations information for 2008 and 2007:

	2008	2007
Revenues		
Oil and Gas	\$ 3,194,407	\$ 2,930,807
Agricultural	101,397	208,811
Timber	40,070	118,506
Total	3,335,874	3,258,124
Cost and Expenses		
Oil and Gas	250,958	239,586
Agricultural	7,192	38,406
Timber	46,108	90,066
Total	304,258	368,058
Income from Operations		
Oil and Gas	2,943,449	2,691,221
Agricultural	94,205	170,405
Timber	(6,038)	28,440
Total	3,031,616	2,890,066
Other Income (Expense) before Income Taxes	(304,535)	1,471,368
Income before Income Taxes	2,727,081	4,361,434

Timber	4,683	40,181
General Corporate Assets	459,302	41,431
Total	463,985	81,612
Depreciation, Depletion and Amortization		
Oil and Gas		
Agricultural		13,232
Timber	13,986	43,563

Edgar Filing: CKX Lands Inc - Form 10-K

General Corporate Assets	7,592	1,747
Total	\$ 21,578	\$ 58,542

There are no intersegment sales reported in the accompanying income statements. The accounting policies of the segments are the same as those described in the summary of significant accounting policies. The Company evaluates performance based on income or loss from operations before income taxes excluding nonrecurring gains and losses on securities held available-for-sale. Income before income tax represents net revenues less operating expenses and other income and expenses of a general corporate nature. Identifiable assets by segment are those assets used solely in the Company's operations within that segment.

Table of Contents**CKX Lands, Inc.****Notes to Financial Statements (continued)**

The following summarizes major customer information at December 31, 2008 and 2007 from oil and gas revenues:

	Sales to Customer as a Percentage of Total Revenues	
	2008	2007
Swift Energy	19%	7%
Cox and Perkins	17%	10%
Riceland Petroleum	15%	7%
Mayne and Mertz	11%	29%
Gulfmark Energy	6%	4%
Kaiser-Francis Oil	6%	5%
Duncan Oil	6%	
Unit Petroleum	5%	7%

Note 7. Related Party Transactions

In 1990, the Company purchased interests in properties managed by Walker Louisiana Properties, such properties being subject to a management agreement.

Note 8. Walker Louisiana Properties Land Sale

On April 30, 2007, Walker Louisiana Properties completed the sale of 100 subdivision acres in Calcasieu Parish, Louisiana with a contract sales price of \$1,912,050. The Company owns a one-sixth interest in this land and reported a gain from this sale of \$312,561. This transaction was structured as a deferred exchange using a qualified intermediary pursuant to Paragraph 1031 of the Internal Revenue Code (1031 Exchange) for income tax purposes. Due to the 1031 exchange, a gain of \$38,962 is deferred for income tax purposes.

Note 9. Land Sale

On October 24, 2007, the Company completed the sale of approximately 3,495 agricultural acres and certain equipment assets in Cameron Parish, Louisiana for approximately \$3,146,000. This transaction was structured as a deferred exchange using a qualified intermediary pursuant to Paragraph 1031 of the Internal Revenue Code (1031 Exchange) for income tax purposes. The entire sales proceeds were deposited with a qualified intermediary, (1031 trust account restricted use) and the gain was deferred during the 1031 Exchange period. In late February 2008, the Company determined that consummation of identified 1031 Exchange properties was not possible and current recognition of the approximate gain of \$1,448,900 from this sale was the result.

Note 10. Supplementary Income Statement Information

Taxes, other than income taxes, of \$306,716 and \$309,456, were charged to expense during 2008 and 2007, respectively.

Note 11. Contingencies

There are no material contingencies known to management. The Company does not participate in off balance sheet arrangements.

Note 12. Concentration of Credit Risk

The Company maintains its cash balances in one financial institution. The amount on deposit in the financial institution is insured by the Federal Deposit Insurance Corporation up to \$250,000.

Table of Contents**CKX Lands, Inc.****Notes to Financial Statements (continued)****Note 13. Disclosures About Fair Value of Financial Instruments**

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it was practical to estimate that value:

Cash and cash equivalents:

For these short-term instruments, the carrying amount is a reasonable estimate of fair value.

Securities available-for-sale:

Debt and equity securities were valued at fair value, which equals quoted market price.

The estimated fair value of the Company's financial instruments at December 31, 2008 and 2007 are as follows.

	2008		2007	
	Carrying Value	Fair Value	Carrying Value	Fair Value
	(Presented in thousands)			
Financial Assets:				
Cash and cash equivalents	\$ 5,779	\$ 5,779	\$ 1,625	\$ 1,625
1031 Trust Account			3,198	3,198
Certificate of deposit			1,052	1,052
Securities available-for-sale	522	522	2,031	2,031
	\$ 6,301	\$ 6,301	\$ 7,906	\$ 7,906

Fair value measurements disclosure for securities available for sale follows:

Description	12/31/2008	Fair Value Measurements at Reporting Date Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Securities Available for Sale	\$ 522,102	\$ 522,102		
Total	\$ 522,102	\$ 522,102
