Form 497  
April 10, 2009

**Supplement Dated April 10, 2009**

**To The Prospectus Dated July 29, 2008, as Revised**

**For the**

**WisdomTree Low P/E Fund**

The following information supplements, and should be read in conjunction with, the Prospectus and Statement of Additional Information for the Fund.

The **WisdomTree Low P/E Fund** (Ticker Symbol: EZY) will change its investment objective and be renamed the **WisdomTree LargeCap Value Fund**. Beginning on or after June 19, 2009, the Fund will seek to track the performance of the **WisdomTree LargeCap Value Index**. The LargeCap Value Index is a fundamentally weighted index that measures the performance of large-cap value companies. The Index consists of U.S. companies that have positive cumulative earnings over the past four fiscal quarters and that meet WisdomTree's market capitalization, liquidity, and other requirements as of the Index measurement date. For these purposes, earnings are determined using a company's reported net income, excluding special items, applicable to common shareholders. WisdomTree creates a value score for each company based on the company's Price to Earnings Ratio, Price to Sales Ratio, and Price to Book Value and 1-year change in stock price. The top 30% of companies with the highest value scores within the 1000 largest companies by market capitalization are included in the Index. Companies are weighted in the Index annually based on earnings. As of March 1, 2009, approximately 77% of the Index consisted of companies with market capitalizations over \$10 billion and approximately 17% of the Index consisted of companies with market capitalizations between \$2 billion and \$10 billion.

The change is not expected to generate any significant tax consequences for Fund investors. The Fund's expense ratio will not change.

**Supplement Dated April 10, 2009**

**To The Prospectus Dated July 29, 2008, as Revised**

**For the**

**WisdomTree Japan Equity Income Fund**

The following information supplements, and should be read in conjunction with, the Prospectus and Statement of Additional Information for the Fund.

The **WisdomTree Japan Equity Income Fund** (Ticker Symbol: DNL) will change its investment objective and be renamed the **WisdomTree World ex-US Growth Fund**. Beginning on or after June 19, 2009, the Fund will change its investment objective so that it seeks to track the performance of the WisdomTree World ex-US Growth Index. This Index is a fundamentally weighted index that measures the performance of growth companies in the developed and emerging markets outside of the United States. The index consists of dividend paying companies that pass WisdomTree's market capitalization, liquidity, and other requirements. WisdomTree creates a growth score for each company based on the company's earnings per share, sales per share, book value per share and price per share. The top 30% of companies with the highest growth scores within the 1000 largest companies by market capitalization are included in the Index. Companies are weighted in the Index annually based on annual cash dividends paid. As of March 1, 2009, approximately 71% of the Index consisted of companies with market capitalizations over \$10 billion and approximately 27% of the Index consisted of companies with market capitalizations between \$2 billion and \$10 billion.

The change is not expected to generate any significant tax consequences for Fund investors. The Fund's expense ratio will not change. The Fund will invest in developed and emerging market securities. Emerging market securities are subject to additional risks not associated with investing in U.S. securities or securities from more developed markets. These risks include greater price volatility, lower trading volume and liquidity and greater social, political and economic uncertainty.

**Supplement Dated April 10, 2009****To The Prospectus Dated July 29, 2008, as Revised****For the****WisdomTree Europe Equity Income Fund**

The following information supplements, and should be read in conjunction with, the Prospectus and Statement of Additional Information for the Fund.

The **WisdomTree Europe Equity Income Fund** (Ticker Symbol: DEW) will change its investment objective and be renamed the **WisdomTree Global Equity Income Fund**. Beginning on or after June 19, 2009, the Fund will become a global fund that invests in securities listed in the U.S., developed markets and emerging markets. The Fund will no longer focus its investments on European equity securities (though European securities will continue to be heavily represented in the Fund). The Fund's investment objective will be to seek to track the price and yield performance, before fees and expenses, of the WisdomTree Global High-Yielding Equity Index. The Global High-Yielding Equity Index is a fundamentally weighted index that measures the performance of high dividend-yielding companies in the U.S., developed and emerging markets. Companies in the Index must pass WisdomTree's market capitalization, liquidity, and other requirements. At the Index measurement date, companies with market capitalizations of at least \$2 billion are ranked by dividend yield and those companies in the top 30% by dividend yield are selected for inclusion in the Index. Companies are weighted in the Index annually based on annual cash dividends paid. As of March 1, 2009, approximately 69% of the Index consisted of companies with market capitalizations over \$10 billion and approximately 25% of the Index consisted of companies with market capitalizations between \$2 billion and \$10 billion.

In addition, beginning on or after June 19, 2009, the Fund will seek to achieve its investment objective by investing primarily in other WisdomTree exchange traded funds (ETFs). Instead of investing in several hundred securities, the Fund will now invest in only a few WisdomTree ETFs that, in turn, seek to track subsets of the WisdomTree Global High-Yielding Equity Index. The Fund intends to invest primarily in the WisdomTree Equity Income Fund, DEFA Equity Income Fund and Emerging Markets Equity Income Fund. By investing in these ETFs the Fund will achieve exposure to the securities in the Index. This change in strategy is intended to reduce the Fund's portfolio transaction costs, increase the efficiency of the Fund's operations and facilitate trading in Fund shares. The change is not expected to generate any significant tax consequences for Fund investors.

The Fund's fees, as a percentage of net assets, are shown below.

<b>Shareholder Fees</b>	None
(fees paid directly from your investment)	
<b>Annual Fund Operating Expenses</b> (expenses deducted from Fund assets)
