Risk Factors

An investment in our common stock involves risks. You should carefully consider the risks described under "Risk Factors" beginning on page S-5 of this prospectus supplement and in the "Risk Factors" section included in our Annual Report on Form 10-K for the year ended December 31, 2008 and in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2009, as well as other information included or incorporated by reference into this prospectus supplement and the accompanying prospectus, including our financial statements and the notes thereto, before making an investment decision.

Recent Developments

Supervisory Capital Assessment Program Results.

As part of the U.S. federal government's Financial Stability Plan, on February 25, 2009, the U.S. Treasury announced preliminary details regarding the Capital Assistance Program (the "CAP"), which, according to the U.S. Treasury, is designed to restore confidence throughout the financial system that the largest U.S. banking institutions will have a sufficient capital cushion for larger than expected potential future losses, should they occur due to a more severe economic environment, and to support lending to creditworthy borrowers. Pursuant to the CAP, the capital needs of major U.S. banking institutions were evaluated to determine whether an additional capital buffer is warranted and, if warranted, the U.S. Treasury committed to make capital available to eligible institutions if they are unable to raise the necessary capital through private sources.

To implement the CAP, the Board of Governors of the Federal Reserve System, the Federal Reserve Banks, the Federal Deposit Insurance Corporation, and the Office of the Comptroller of the Currency commenced a review of the capital needs of the largest U.S. banking institutions. This review is called the Supervisory Capital Assessment Program (the "SCAP"). The SCAP review process involved a forward-looking capital assessment, or "stress test", of all domestic bank holding companies with assets of more than \$100 billion at December 31, 2008, which includes us. The stress test was intended to estimate credit losses, revenues and reserve needs for each of these bank holding companies in 2009 and 2010 under a macroeconomic scenario that reflected a consensus expectation for the depth and duration of the recession and a more adverse scenario that was designed to reflect a recession that was longer and more severe than consensus expectations.

On May 7, 2009, the Board of Governors of the Federal Reserve System announced the results of the final SCAP assessments for the 19 largest U.S. bank holding companies, including us. Our SCAP assessment indicated that we did not need to raise additional capital.

Information related to the SCAP is available on the website of the Federal Reserve Board at www.federalreserve.gov. Information related to the CAP and the terms of the mandatory convertible preferred stock that can be issued to the U.S. Treasury to raise additional capital is available on the U.S. Treasury's website related to the Financial Stability Plan at www.financialstability.gov.

Dividend Reduction.

On May 10, 2009, our board of directors reduced the quarterly dividend on our common shares to \$0.15 per share from \$0.47, commencing in the third quarter of 2009, to maintain a strong capital base and to partially fund the repurchase, subject to regulatory approval, of our Series C Preferred Stock and the related Warrant issued and sold, in each case, to the U.S. Treasury as part of the U.S. Treasury's Capital Purchase Program. This action will permit us to preserve approximately \$725 million of capital on an annualized basis, without giving effect to the common stock issued in this offering.

While we have provided notice to the U.S. Treasury and our applicable federal regulators regarding our intent to repurchase the Series C Preferred Stock and Warrant, there can be no assurance that such approval will be granted, and if so granted, when the Series C Preferred Stock and Warrant will be repurchased. If we do not use the net proceeds of this offering for the repurchase of the Series C Preferred Stock and the Warrant, we will use the net proceeds of this offering for general corporate purposes. The precise amounts and timing of our use of the net proceeds of this offering will depend upon our funding requirements and those of our subsidiaries and the availability of other funds. RISK FACTORS

An investment in our common stock involves a number of risks. You should carefully consider the risks described below and the risk factors concerning our business included in our Annual Report on Form 10-K for the year ended December 31, 2008 and in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2009, in addition to the other information in this prospectus supplement and the accompanying prospectus, including our other filings, which are incorporated by reference, before deciding whether an investment in our common stock is suitable for you.

The impact of Federal bank regulatory agencies assessment of our capital under the Supervisory Capital Assessment Program is uncertain.

Under the SCAP, the Board of Governors of the Federal Reserve System, the Federal Reserve Banks, the Federal Deposit Insurance Corporation and the Office of the Comptroller of the Currency commenced a review of the capital needs of the 19 largest U.S. bank holding companies, which includes us. Based on this review, an assessment was made as to the extent to which each such bank holding company may need to augment its capital, whether through additional capital or a change in the composition of its capital, in order to establish a buffer against a recession that is longer and more severe than consensus expectations and higher than expected losses, thereby allowing each such bank holding company to be able to lend to creditworthy borrowers should such losses materialize. We, like all bank holding companies participating in the SCAP review process, were subject to broad confidentiality requirements that prohibited us from disclosing information regarding the SCAP review and any information we may have received relating to any initial assessments of our capital. On May 7, 2009, the Board of Governors of the Federal Reserve System announced the results of the final SCAP assessments for the 19 largest U.S. bank holding companies, including us. Our SCAP assessment indicated that we did not need to raise additional capital. It is uncertain what impact, if any, this assessment will have on our operations, results or stock price.

Our stock price can be volatile.

Our stock price can fluctuate widely in response to a variety of factors including:

actual or anticipated variations in quarterly operating results;

recommendations by securities analysts;

new technology used, or services offered, by competitors;

significant acquisitions or business combinations, strategic partnerships, joint ventures or capital commitments by or involving us or our competitors;

failure to integrate acquisitions or realize anticipated benefits from acquisitions;

operating and stock price performance of other companies that investors deem comparable to us;

news reports relating to trends, concerns and other issues in the financial services industry;

changes in government regulations; and

geopolitical conditions such as acts or threats of terrorism or military conflicts.

Edgar Filing: BB&T CORP - Form 424B3

General market fluctuations, industry factors and general economic and political conditions and events, such as economic slowdowns or recessions, interest rate changes, credit loss trends, or currency fluctuations could also cause our stock price to decrease regardless of our operating results.

S-4

There may be future sales or other dilution of our equity, which may adversely affect the market price of our common stock.

Except as described under "Underwriting," we are not restricted from issuing additional common stock, including securities that are convertible into or exchangeable for, or that represent the right to receive, common stock. Pursuant to the Letter Agreement, dated November 14, 2008 and the Securities Purchase Agreement - Standard Terms attached thereto (collectively, the "Securities Purchase Agreement"), the U.S. Treasury received a Warrant to purchase 13,902,573 shares of our common stock at an initial per share exercise price of \$33.81, subject to adjustment, which expires ten years from the issuance date, and we have agreed to provide the U.S. Treasury with registration rights covering the Warrant and the underlying shares of common stock. While we intend to repurchase the Warrant with the proceeds from this offering, as described in "Use of Proceeds" and subject to receiving the required approvals, the issuance of additional shares of common stock as a result of exercise of the Warrant or otherwise or the issuance of convertible securities would dilute the ownership interest of our existing common shareholders. The market price of our common stock could decline as a result of this offering as well as other sales of a large block of shares of our common stock or similar securities in the market after this offering, or the perception that such sales could occur.

We may further reduce the dividends on our common stock.

Although we have historically paid a quarterly cash dividend to the holders of our common stock, holders of our common stock are not entitled to receive dividends. Downturns in the domestic and global economies, including during the past year or more, could cause our board of directors to consider, among other things, the reduction of dividends paid on our common stock. This could adversely affect the market price of our common stock. Additionally, our board of directors has decided to reduce the dividend on our common stock, commencing in the third quarter of 2009, and our board of directors could decide to further reduce the dividends on our common stock. Additionally, the terms of the Series C Preferred Stock issued to the U.S. Treasury prohibit us from paying dividends in excess of \$0.47 per share. See "Dividend Policy."

The common stock is equity and is subordinate to our existing and future indebtedness and preferred stock and effectively subordinated to all the indebtedness and other non-common equity claims against our subsidiaries.

Shares of the common stock are equity interests in us and do not constitute indebtedness. As such, shares of the common stock will rank junior to all of our indebtedness and to other non-equity claims against us and our assets available to satisfy claims against us, including in our liquidation. Additionally, holders of our common stock are subject to the prior dividend and liquidation rights of holders of our outstanding preferred stock, if any. The Series C Preferred Stock held by the U.S. Treasury has an aggregate liquidation preference of \$3.134 billion. Our board of directors is authorized to issue additional classes or series of preferred stock without any action on the part of the holders of our common stock and we are permitted to incur additional debt. Upon liquidation, lenders and holders of our debt securities and preferred stock would receive distributions of our available assets prior to holders of our common stock. Furthermore, our right to participate in a distribution of assets upon any of our subsidiaries' liquidation or reorganization is subject to the prior claims of that subsidiary's creditors, including holders of any preferred stock.

We are a holding company, and as a result we are dependent on dividends from our subsidiaries, including Branch Bank, to provide funds for payment of dividends to our shareholders.

We are a non-operating holding company, whose principal asset and source of income is our ownership in our operating subsidiaries. We are a legal entity separate and distinct from our subsidiaries and, therefore, rely primarily on dividends from these subsidiaries to provide funds for payment of dividends to our shareholders, to the extent declared by our board of directors. There are various legal limitations on the extent to which Branch Bank and our other subsidiaries can finance or otherwise supply funds to us (by dividend or otherwise) and certain of our affiliates. Although we maintain cash positions for liquidity at the holding company level, if Branch Bank or other of our subsidiaries were unable to supply us with cash over time, we could be unable to pay dividends to our shareholders.

In addition, our right to participate in any distribution of assets of any of our subsidiaries upon the subsidiary's liquidation or otherwise, and thus your ability as a holder of the common stock to benefit indirectly from such distribution, will be subject to the prior claims of creditors of that subsidiary, except to the extent that any of our claims as a creditor of such subsidiary may be recognized. As a result, the common stock effectively will be subordinated to all existing and future liabilities and obligations of our subsidiaries.

There can be no assurance when the Series C Preferred Stock can be redeemed and the Warrant can be repurchased.

While we intend to redeem the Series C Preferred Stock and repurchase the Warrant with the proceeds from this offering, as described in "Use of Proceeds," there can be no assurance when the Series C Preferred Stock can be redeemed and the Warrant can be repurchased. Until such time as the Series C Preferred stock is redeemed and the Warrant is repurchased, we will remain subject to the terms and conditions set forth in the Securities Purchase Agreement, the Series C Preferred Stock and the Warrant, which, among other things, require us to obtain regulatory approval to pay dividends on our common stock in excess of \$0.47 per share and, with some exceptions, to repurchase shares of our common stock. Further, our continued participation in the Capital Purchase Program subjects us to increased regulatory and legislative oversight. The recently enacted American Recovery and Reinvestment Act of 2009 ("ARRA") includes amendments to the executive compensation provisions of the Emergency Economic Stabilization Act of 2008 ("EESA"), under which the Capital Purchase Program was established, all of which apply to us. The ARRA amendments also impose restrictions on excessive or luxury expenditures. The full scope and impact of these amendments is uncertain and difficult to predict. ARRA directs the Secretary of the Treasury to adopt standards that will implement the amended provisions of EESA and directs the SEC to issue rules in connection with certain of the amended provisions, but the particular scope of those standards and rules, and the timing of their issuance, is not known. These new and any future legal requirements and implementing standards under the Capital Purchase Program may have unforeseen or unintended adverse effects on the financial services industry as a whole, and particularly on Capital Purchase Program participants such as ourselves. They may require significant time, effort, and resources on our part to ensure compliance, and the evolving regulations concerning executive compensation may impose limitations on us that affect our ability to compete successfully for executive and management talent. For additional information concerning our participation in the Capital Purchase Program, see "Regulatory Considerations" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2008.

Anti-takeover provisions could negatively impact our shareholders.

Provisions of North Carolina law and our articles of incorporation and bylaws could make it more difficult for a third party to acquire control of us or have the effect of discouraging a third party from attempting to acquire control of us. Additionally, our articles of incorporation authorize our board of directors to issue additional series of preferred stock, and such preferred stock could be issued as a defensive measure in response to a takeover proposal. These provisions could make it more difficult for a third party to acquire us even if an acquisition might be in the best interest of our shareholders. See "Description of Our Capital Stock - Anti-Takeover Provisions."

USE OF PROCEEDS

We estimate that the net proceeds of this offering, after deducting underwriting discounts and commissions and the estimated expenses of this offering payable by us, will be approximately \$ (or approximately \$ if the underwriters exercise their over-allotment option in full).

Subject to obtaining regulatory approval, we intend to use the net proceeds of this offering to repurchase a portion of our Series C Preferred Stock and the Warrant issued to the U.S. Treasury under the Capital Purchase Program. The 3,133.64 shares of Series C Preferred Stock would be repurchased at their \$1,000,000 per share liquidation preference. The Warrant, which allows the U.S. Treasury to purchase 13,902,573 shares of our common stock at an exercise price of \$33.81 per share, would be repurchased at fair market value.

We have made application and submitted materials to our two primary regulators, the FDIC and the Federal Reserve, along with the required notice to the U.S. Treasury, to repay the Capital Purchase Program investment. Our application is now awaiting approval. There can be no assurance that such approval will be granted, and if so granted, when the Series C Preferred Stock and Warrant will be repurchased. As a result, the precise amounts and timing of our use of the net proceeds of this offering will depend upon our funding requirements and those of our subsidiaries and the availability of other funds. If we do not use the net proceeds of this offering for the repurchase of the Series C Preferred Stock, we intend to use the net proceeds of this offering for general corporate purposes.

Currently, our ability to declare or pay dividends on, or purchase, repurchase or otherwise acquire, shares of our common stock is subject to certain restrictions in the event that we fail to pay or set aside full dividends on the Series C Preferred Stock for all past dividend periods. In addition, while we intend to repurchase the Series C Preferred Stock with the proceeds of this offering, as described in Use of Proceeds, currently, pursuant to the Securities Purchase Agreement, prior to the earliest of November 14, 2011, the redemption of all of the Series C Preferred Stock or the transfer by the U.S. Treasury of all of its shares of Series C Preferred Stock to third parties, we must obtain regulatory approval to pay dividends on our common stock in excess of \$0.47 per share.

In an effort to maintain a strong capital base and to fund a portion of the proposed repurchase of the Series C Preferred Stock and the Warrant issued to the U.S. Treasury, our board of directors reduced the quarterly dividend on our common stock to \$0.15 per share from \$0.47, commencing in the third quarter of 2009.

The amount of future dividends will depend upon earnings, financial condition, capital requirements and other factors, and will be determined by our board of directors on a quarterly basis.

DESCRIPTION OF OUR CAPITAL STOCK

The following description summarizes the terms of our common stock but does not purport to be complete, and it is qualified in its entirety by reference to the applicable provisions of federal law governing bank holding companies, North Carolina law and our articles of incorporation and bylaws. Our articles of incorporation and bylaws are incorporated by reference as exhibits to our Annual Report on Form 10-K for the year ended December 31, 2008 filed with the SEC. See *Incorporation of Certain Information by Reference*.

General

Our authorized capital stock consists of 1,000,000,000 shares of common stock, par value \$5.00 per share, and 5,000,000 shares of preferred stock, par value \$5.00 per share. As of April 30, 2009, there were 560,640,875 shares of our common stock issued and outstanding. All outstanding shares of our common stock are, and the shares to be sold under this prospectus supplement will be, when issued and paid for, fully paid and non-assessable.

Common Stock

Each share of our common stock is entitled to one vote on all matters submitted to a vote at any meeting of shareholders. Holders of our common stock are entitled to receive dividends when, as, and if, declared by our board of directors out of funds legally available for the payment of dividends and, upon liquidation, to receive pro rata all assets, if any, of BB&T available for distribution after the payment of necessary expenses and all prior claims. Holders of our common stock do not have cumulative voting, preemptive, redemption or conversion rights. The rights and privileges of holders of our common stock are subject to any preferences that our board of directors may set for any series of our preferred stock that we may issue in the future.

The transfer agent and registrar for our common stock is Branch Bank. We intend to apply for the listing on the NYSE, subject to official notice of issuance, of the shares of our common stock to be issued in this offering.

Anti-Takeover Provisions

Provisions of the North Carolina Business Corporation Act, which we refer to as the *NCBCA*, and our articles of incorporation and bylaws described below may be deemed to have an anti-takeover effect and, together with the ability of our board of directors to issue shares of our preferred stock and to set the voting rights, preferences and other terms of our preferred stock, may delay or prevent takeover attempts not first approved by our board of directors. These provisions also could delay or deter the removal of incumbent directors or the assumption of control by shareholders. We believe that these provisions are appropriate to protect our interests and our shareholders.

Control Share Acquisition Act

The NCBA's Control Share Acquisition Act, which we refer to as the *Act*, may make an unsolicited attempt to gain control of BB&T more difficult by restricting the right of specified shareholders to vote newly acquired large blocks of stock. The Act is triggered upon the acquisition by a person of shares of voting stock of a covered corporation that, when added to all other shares beneficially owned by the person, would result in that person holding one-fifth, one-third or a majority of the voting power in the election of directors. Under the Act, the shares acquired that result in the crossing of any of these thresholds have no voting rights until they are conferred by the affirmative vote of the holders of a majority of all outstanding voting shares, excluding those shares held by any person involved or proposing to be involved in the acquisition of shares in excess of the thresholds, any officer of the corporation and any employee of the corporation who is also a director of the corporation. If voting rights are conferred on the acquired shares, all shareholders of the corporation have the right to require that their shares be redeemed at the highest price paid per share by the acquiror for any of the acquired shares.

Preferred Stock

Under our articles of incorporation, we may issue shares of our preferred stock in one or more series as may be determined by our board of directors. Our board of directors may also establish, from time to time, the number of shares to be included in each series and may fix the designation, powers, preferences and rights of the shares of each such series and any qualifications, limitations or restrictions on such shares, and may increase or decrease the number of shares of any series without any further vote or action by the shareholders. Any of our preferred stock issued may rank senior to our common stock with respect to the payment of dividends and/or amounts paid upon our liquidation, dissolution or winding up. In addition, any shares of our preferred stock may have class or series voting rights. Under some circumstances, the issuance of shares of our preferred stock, or merely the existing authorization of our board of directors to issue shares of our preferred stock, may tend to discourage or impede a merger or other change in control of BB&T.

Provisions Regarding Our Board of Directors

Our bylaws provide for a board of directors having not less than three nor more than 25 members as determined from time to time by vote of a majority of the members of our board of directors or by resolution by our shareholders. Each director is elected to serve for a term of one year, with each director's term to expire at the annual meeting next following the director's election as a director when a successor may be elected and qualified, unless the director dies, resigns, retires or is disqualified or removed before that meeting. Under our bylaws, our directors may be removed only for cause and only by the vote of a majority of the outstanding shares entitled to vote in the election of directors.

Meeting of Shareholders; Shareholders' Nominations and Proposals

Under our bylaws, meetings of the shareholders may be called only by our chairman of the board of directors, chief executive officer, president, chief operating officer, secretary or our board of directors. Our shareholders may not request that a special meeting of shareholders be called. This provision could delay shareholder actions that are favored by the holders of a majority of our outstanding voting securities until the next annual shareholders' meeting.

The procedures governing the submission of nominations for directors and other proposals by shareholders may also have a deterrent effect on shareholder actions designed to result in our change of control. Our bylaws establish advance notice procedures for shareholder proposals and the nomination, other than by or at the direction of the board of directors or one of its committees, of candidates for election as directors. Our bylaws provide that a shareholder wishing to nominate a person as a candidate for election to the board of directors must submit the nomination in writing to our Secretary at least 60 days but no more than 90 days before the one-year anniversary of the notice date of the most recent annual meeting of shareholders, together with certain biographical information about the candidate and the shareholder's name and shareholdings. Nominations that are not made in accordance with the foregoing provisions may be ruled out of order by the presiding officer or the chairman of the meeting. In addition, a shareholder intending to make a proposal for consideration at a regularly scheduled annual meeting of shareholders that is not intended to be included in the proxy statement for such meeting must notify our Secretary in writing at least 60 days but no more than 90 days before the one year anniversary of the notice date of the most recent annual meeting of shareholders of the shareholder's intention. The notice must contain, among other information: (1) a brief description of the proposal, (2) the name and shareholdings of the shareholder submitting the proposal and (3) any material interest of the shareholder in the proposal.

Restrictions on Ownership

The Bank Holding Company Act of 1956 requires any bank holding company (as defined in that Act) to obtain the approval of the Federal Reserve Board prior to acquiring more than 5% of our outstanding common stock. Any person other than a bank holding company is required to obtain prior approval of the Board of

Governors of the Federal Reserve System to acquire 10% or more of our outstanding common stock under the Change in Bank Control Act. Any holder of 25% or more of our outstanding common stock, other than an individual is subject to regulation as a bank holding company, under the Bank Holding Company Act.

Series C Preferred Stock

On November 14, 2008, pursuant to the U.S. Treasury's Capital Purchase Program, we issued to the U.S. Treasury 3,133.64 shares of Series C Preferred Stock, having a liquidation amount per share equal to \$1,000,000 for a total price of \$3.134 billion. The Series C Preferred Stock pays cumulative dividends at a rate of 5% per year for the first five years and thereafter at a rate of 9% per year. We may not repurchase the Series C Preferred Stock during the first three years except with the proceeds from a qualified equity offering (as defined in our articles of incorporation). However, under the ARRA, we may repurchase the Series C Preferred Stock without a qualified equity offering, subject to the approval of our primary federal regulator. After three years, we may, at our option, repurchase the Series C Preferred Stock at par value plus accrued and unpaid dividends. The Series C Preferred Stock is generally non-voting, but does have the right to vote as a class on the issuance of any preferred stock ranking senior, any change in its terms or any merger, exchange or similar transaction that would adversely affect its rights. The holder(s) of Series C Preferred Stock also have the right to elect two directors if dividends have not been paid for six periods. Prior to November 14, 2011, unless we have redeemed all of the Series C Preferred Stock or the U.S. Treasury has transferred all of the Series C Preferred Stock to third parties, the consent of the U.S. Treasury will be required for us to, among other things, repurchase or redeem common stock or our other preferred stock except in limited circumstances. We may not redeem the Series C Preferred Stock without necessary bank regulatory approval.

Warrant

As part of its purchase of the Series C Preferred Stock, the U.S. Treasury was issued the Warrant, which allows it to purchase 13,902,573 shares of our common stock at an initial per share exercise price of \$33.81. The Warrant provides for the adjustment of the exercise price and the number of shares of our common stock issuable upon exercise pursuant to customary anti-dilution provisions, such as upon stock splits or distributions of securities or other assets to holders of our common stock, and upon certain issuances of our common stock at or below a specified price relative to the initial exercise price. The Warrant expires ten years from the issuance date. If, on or prior to December 31, 2009, we receive aggregate gross cash proceeds of not less than \$3.1 billion from qualified equity offerings announced after October 13, 2008, the number of shares of common stock issuable pursuant to the U.S. Treasury's exercise of the Warrant will be reduced by one-half of the original number of shares, taking into account all adjustments, underlying the Warrant. Pursuant to the Purchase Agreement, the U.S. Treasury has agreed not to exercise voting power with respect to any shares of common stock issued upon exercise of the Warrant. Under the ARRA, the Warrant would be liquidated upon our repurchase of the Series C Preferred Stock.

CERTAIN UNITED STATES FEDERAL INCOME AND ESTATE TAX CONSEQUENCES

TO NON-U.S. HOLDERS

The following is a summary of certain U.S. federal income and estate tax consequences of the purchase, ownership and disposition of our common stock as of the date hereof. Except where noted, this summary deals only with shares of common stock that are held as a capital asset by a non-U.S. holder who purchases common stock in this offering.

A non-U.S. holder means a person (other than an entity that is treated as a partnership for U.S. federal income tax purposes) that is not for U.S. federal income tax purposes any of the following:

an individual citizen or resident of the United States;

a corporation (or any other entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States, any state thereof or the District of Columbia;

an estate the income of which is subject to U.S. federal income taxation regardless of its source; or

a trust if it (1) is subject to the primary supervision of a court within the United States and one or more United States persons have the authority to control all substantial decisions of the trust or (2) has a valid election in effect under applicable United States Treasury regulations to be treated as a United States person.

This summary is based upon provisions of the Internal Revenue Code of 1986, as amended, which we refer to as the Code, and regulations, rulings and judicial decisions as of the date hereof. Those authorities may be changed, perhaps retroactively, so as to result in U.S. federal income and estate tax consequences different from those summarized below. This summary does not address all aspects of U.S. federal income and estate taxes and does not deal with foreign, state, local or other tax considerations that may be relevant to non-U.S. holders in light of their personal circumstances. In addition, it does not represent a detailed description of the U.S. federal income tax consequences applicable to you if you are subject to special treatment under the U.S. federal income tax laws (including if you are a U.S. expatriate, controlled foreign corporation, passive foreign investment company or a partnership or other pass-through entity for U.S. federal income tax purposes). We cannot assure you that a change in law will not alter significantly the tax considerations that we describe in this summary.

If a partnership holds shares of our common stock, the tax treatment of a partner will generally depend upon the status of the partner and the activities of the partnership. If you are a partner of a partnership holding shares of our common stock, you should consult your tax advisors.

If you are considering the purchase of our common stock, you should consult your own tax advisors concerning the particular U.S. federal income and estate tax consequences to you of the ownership of the common stock, as well as the consequences to you arising under the laws of any other taxing jurisdiction.

Dividends

Dividends paid to a non-U.S. holder of our common stock (to the extent paid out of our current or accumulated earnings and profits, as determined for U.S. federal income tax purposes) generally will be subject to withholding of U.S. federal income tax at a 30% rate or such lower rate as may be specified by an applicable income tax treaty. However, dividends that are effectively connected with the conduct of a trade or business by the non-U.S. holder within the United States (and, if required by an applicable income tax treaty, are attributable to a U.S. permanent establishment) are not subject to the withholding tax, provided certain certification and disclosure requirements are satisfied. Instead, such dividends are subject to U.S. federal income tax on a net income basis in the same manner as if the non-U.S. holder were a United States person as defined under the Code. Any such effectively connected dividends received by a foreign corporation may be subject to an additional branch profits tax at a 30% rate or such lower rate as may be specified by an applicable income tax treaty.

A non-U.S. holder of our common stock who wishes to claim the benefit of an applicable treaty rate for dividends will be required (a) to complete Internal Revenue Service Form W-8BEN (or other applicable form) and certify under penalty of perjury that such holder is not a United States person as defined under the Code and is eligible for treaty benefits or (b) if our common stock is held through certain foreign intermediaries, to satisfy the relevant certification requirements of applicable United States Treasury regulations. Special certification and other requirements apply to certain non-U.S. holders that are pass-through entities rather than corporations or individuals.

A non-U.S. holder of our common stock eligible for a reduced rate of U.S. withholding tax pursuant to an income tax treaty may obtain a refund of any excess amounts withheld by filing an appropriate claim for refund with the Internal Revenue Service.

Gain on Disposition of Common Stock

Any gain realized on the sale, exchange or other taxable disposition of our common stock generally will not be subject to U.S. federal income tax unless:

the gain is effectively connected with a trade or business of the non-U.S. holder in the United States (and, if required by an applicable income tax treaty, is attributable to a U.S. permanent establishment of the non-U.S. holder);

the non-U.S. holder is an individual who is present in the United States for 183 days or more in the taxable year of that disposition, and certain other conditions are met; or

we are or have been a United States real property holding corporation for U.S. federal income tax purposes at any time during the shorter of the five-year period preceding such disposition and your holding period in the common stock, and (i) the non-U.S. holder beneficially owns, or has owned, more than 5% of the total fair value of our common stock at any time during the five-year period preceding such disposition, or (ii) our common stock ceases to be traded on an established securities market prior to the beginning of the calendar year in which the sale or disposition occurs.

An individual non-U.S. holder described in the first bullet point immediately above will be subject to tax on the net gain derived from the sale under regular graduated U.S. federal income tax rates. An individual non-U.S. holder described in the second bullet point immediately above will be subject to a flat 30% tax on the gain derived from the sale, which may be offset by U.S. source capital losses, even though the individual is not considered a resident of the United States. If a non-U.S. holder that is a foreign corporation falls under the first bullet point immediately above, it will be subject to tax on its net gain in the same manner as if it were a United States person as defined under the Code and, in addition, may be subject to the branch profits tax equal to 30% of its effectively connected earnings and profits or at such lower rate as may be specified by an applicable income tax treaty.

We believe we are not and do not anticipate becoming a United States real property holding corporation for U.S. federal income tax purposes.

Federal Estate Tax

Shares of our common stock held by an individual non-U.S. holder at the time of death will be included in such holder's gross estate for U.S. federal estate tax purposes, unless an applicable estate tax treaty provides otherwise.

Information Reporting and Backup Withholding

We must report annually to the Internal Revenue Service and to each non-U.S. holder the amount of dividends paid to such holder and the tax withheld with respect to such dividends, regardless of whether withholding was required. Copies of the information returns reporting such dividends and withholding may also

be made available to the tax authorities in the country in which the non-U.S. holder resides under the provisions of an applicable income tax treaty.

A non-U.S. holder will be subject to backup withholding for dividends paid to such holder unless such holder certifies under penalty of perjury that it is a non-U.S. holder (and the payor does not have actual knowledge or reason to know that such holder is a United States person as defined under the Code), or such holder otherwise establishes an exemption.

Information reporting and, depending on the circumstances, backup withholding will apply to the proceeds of a sale of our common stock within the United States or conducted through certain U.S.-related financial intermediaries, unless the beneficial owner certifies under penalty of perjury that it is a non-U.S. holder (and the payor does not have actual knowledge or reason to know that the beneficial owner is a United States person as defined under the Code), or such owner otherwise establishes an exemption.

Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against a non-U.S. holder's U.S. federal income tax liability provided the required information is timely furnished to the Internal Revenue Service.

UNDERWRITING

We and the underwriters named below have entered into an underwriting agreement with respect to the shares being offered. Goldman, Sachs & Co., J.P. Morgan Securities Inc., and Morgan Stanley & Co. Incorporated are the representatives of the underwriters listed below. Subject to certain conditions, each underwriter has severally agreed to purchase the number of shares indicated in the following table.

Underwriters	Number of Shares
Goldman, Sachs & Co.	
J.P. Morgan Securities Inc.	
Morgan Stanley & Co. Incorporated	
BB&T Capital Markets, a division of Scott & Stringfellow, LLC	
Total	

The underwriting agreement provides that the obligations of the several underwriters to pay for and accept delivery of the shares of common stock offered by this prospectus supplement are subject to the approval of certain legal matters by their counsel and to certain other conditions. The underwriters are obligated to take and pay for all of the shares of common stock offered by this prospectus supplement if any such shares are taken. However, the underwriters are not required to take or pay for the shares covered by the over-allotment option described below.

Shares sold by the underwriters to the public will initially be offered at the initial public offering price listed on the cover of this prospectus supplement. Any shares sold by the underwriters to securities dealers may be sold at a discount of up to \$ _____ per share from the initial public offering price. If all the shares are not sold at the initial public offering price, the representatives may change the offering price and the other selling terms. The offering of the shares by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

We have granted an option to the underwriters to purchase, within 30 days of the date of this prospectus supplement, up to _____ additional shares of common stock at the public offering price listed on the cover page of this prospectus supplement, less underwriting discounts and commissions. The underwriters may exercise this option solely to cover any over-allotments. If the underwriters exercise this option, each will be obligated, subject to the conditions contained in the underwriting agreement, to purchase a number of additional shares proportionate to that underwriter's initial number of shares of common stock reflected in the table above.

The following table shows the per share and total underwriting discounts and commissions to be paid to the underwriters by us. Such amounts are shown assuming both no exercise and full exercise of the underwriters' over-allotment option.

Paid by BB&T	No Exercise	Full Exercise
Per Share	\$ _____	\$ _____
Total	\$ _____	\$ _____

We estimate that our share of the total expenses of the offering, excluding underwriting discounts and commissions, will be approximately \$ _____.

Our common stock is traded on the New York Stock Exchange under the symbol **BBT**.

We and certain of our directors and executive officers have agreed with the underwriters not to offer, sell, announce an intention to sell, contract to sell, pledge, grant any option to purchase, make any short sale or

otherwise dispose of or hedge any of our common stock, or any options or warrants to purchase any shares of our common stock, or securities convertible into or exchangeable for or that represent the right to receive shares of common stock during the period from the date of this prospectus supplement continuing through the date 90 days after the date of this prospectus supplement, except pursuant to limited exceptions or with the prior written consent of Goldman, Sachs & Co., J.P. Morgan Securities Inc., and Morgan Stanley & Co. Incorporated on behalf of the underwriters.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933, or to contribute to payments the underwriters may be required to make because of those liabilities.

In compliance with Financial Industry Regulatory Authority, Inc. (FINRA,) guidelines, the maximum commission or discount to be received by any FINRA member or independent broker-dealer, together with the reimbursement of any counsel fees and due diligence expenses by us, may not exceed 10% of the aggregate principal amount of the securities offered pursuant to this prospectus supplement. It is anticipated that the maximum commission or discount to be received in any particular offering of securities, including any reimbursement for due diligence expenses, will be significantly less than this amount.

In order to facilitate the offering of the common stock, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the common stock. Specifically, the underwriters may sell more shares than they are obligated to purchase under the underwriting agreement, creating a short position. A short sale is covered if the short position is no greater than the number of shares available for purchase by the underwriters under the option to purchase additional shares. The underwriters can close out a covered short sale by exercising the option to purchase additional shares or purchasing shares in the open market. In determining the source of shares to close out a covered short sale, the underwriters will consider, among other things, the open market price of shares compared to the price available under the option to purchase additional shares. The underwriters may also sell shares in excess of the option to purchase additional shares, creating a naked short position. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common stock in the open market after pricing that could adversely affect investors who purchase in the offering. As an additional means of facilitating the offering, the underwriters may bid for, and purchase, shares of common stock in the open market to stabilize the price of the common stock. The underwriting syndicate may also reclaim selling concessions allowed to an underwriter or a dealer for distributing the common stock in the offering, if the syndicate repurchases previously distributed common stock to cover syndicate short positions or to stabilize the price of the common stock. These activities may raise or maintain the market price of the common stock above independent market levels or prevent or impede a decline in the market price of the common stock. The underwriters are not required to engage in these activities, and may end any of these activities at any time.

Certain of the underwriters and their respective affiliates have, from time to time, performed, and may in the future perform, various financial, advisory and investment banking services for us, for which they received or will receive customary fees and expenses.

Because BB&T Capital Markets, our affiliate, is a participating co-manager, this offering is being conducted in compliance with NASD Conduct Rule 2720, as administered by FINRA. Pursuant to that rule, the appointment of a qualified independent underwriter is not necessary in connection with this offering, as the offering is of a class of equity securities for which a bona fide independent market, as defined by FINRA rules, exists as of the date of the filing of the registration statement and as of the effective date thereof.

European Economic Area

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a Relevant Member State), each underwriter has represented and agreed that with effect from

and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the Relevant Implementation Date) it has not made and will not make an offer of shares to the public in that Relevant Member State prior to the publication of a prospectus in relation to the shares which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, all in accordance with the Prospectus Directive, except that it may, with effect from and including the Relevant Implementation Date, make an offer of shares to the public in that Relevant Member State at any time:

(c) to fewer than 100 natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the representatives for any such offer; or

(d) in any other circumstances which do not require the publication by BB&T of a prospectus pursuant to Article 3 of the Prospectus Directive.

For the purposes of this provision, the expression an offer of shares to the public in relation to any shares in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the shares to be offered so as to enable an investor to decide to purchase or subscribe the shares, as the same may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in that Relevant Member State and the expression Prospectus Directive means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State.

Japan

The shares have not been and will not be registered under the Financial Instruments and Exchange Law of Japan (the Financial Instruments and Exchange Law) and each underwriter has agreed that it will not offer or sell any shares, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organized under the laws of Japan), or to others for re-offering or resale, directly or indirectly, in Japan or to a resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Financial Instruments and Exchange Law and any other applicable laws, regulations and ministerial guidelines of Japan.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we filed with the Securities and Exchange Commission utilizing a shelf registration process. Under this shelf registration process, we may offer and sell any combination of the securities identified in this prospectus. Each time we offer and sell securities, we will provide a prospectus supplement that will contain information about the terms of the offering and the securities being offered and, if necessary, a pricing supplement that will contain the specific terms of your securities. The prospectus supplement and, if necessary, the pricing supplement, may also add, update or change information contained in this prospectus. Any information contained in this prospectus will be deemed to be modified or superseded by any inconsistent information contained in a prospectus supplement or a pricing supplement. You should read carefully this prospectus and any prospectus supplement and pricing supplement, together with the additional information described below under "Where You Can Find More Information" and "Incorporation of Certain Information by Reference."

Unless otherwise indicated or unless the context requires otherwise, all references in this prospectus to "BB&T," "we," "us," "our" or similar references mean BB&T Corporation.

WHERE YOU CAN FIND MORE INFORMATION

The registration statement that we have filed with the Securities and Exchange Commission under the Securities Act of 1933, as amended, to register the securities offered by this prospectus includes exhibits, schedules and additional relevant information about us. The rules and regulations of the SEC allow us to omit from this prospectus certain information that is included in the registration statement.

We file annual, quarterly and periodic reports, proxy statements and other information with the SEC. You may read and copy any of these documents at the SEC's Public Reference Room located at 100 F Street, N.E., Washington, D.C. 20549. Information regarding the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330. The SEC maintains a website that contains reports, proxy and information statements and other information regarding registrants that file electronically with the SEC. The address of the SEC's website is <http://www.sec.gov>. Our SEC filings also are available through the New York Stock Exchange, 20 Broad Street, New York, New York 10005.

INCORPORATION OF CERTAIN INFORMATION BY REFERENCE

The SEC allows us to incorporate by reference into this prospectus information in other documents we file with the SEC, which means that we can disclose important information to you by referring you to those documents. Information incorporated by reference is considered to be part of this prospectus. The following documents filed with the SEC are incorporated by reference:

- (1) our annual report on Form 10-K for the year ended December 31, 2007;
- (2) our quarterly report on Form 10-Q for the quarter ended March 31, 2008;
- (3) our current reports on Form 8-K filed on January 4, 2008 and January 24, 2008, current report on Form 8-K/A filed on January 24, 2008 and current reports on Form 8-K filed on March 11, 2008, April 22, 2008 and May 5, 2008; and
- (4) the description of our common stock, par value \$5.00 per share, contained in our Registration Statement on Form 8-A filed with the SEC on September 4, 1991.

All future filings we make with the SEC under Sections 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934 prior to the termination of the offering of the securities are incorporated by reference in this

prospectus (other than information in such future filings deemed, under SEC rules or otherwise, not to have been filed with the SEC). Information filed with the SEC after the date of this prospectus will automatically update and supersede information contained in or previously incorporated by reference in this prospectus.

We will provide without charge to each person (including any beneficial owner) to whom a prospectus is delivered, on the written or oral request of any such person, a copy of any or all of these filings (other than the exhibits to such documents, unless that exhibit is specifically incorporated by reference in that filing). Requests should be directed to: BB&T Corporation, 150 South Stratford Road, Suite 300, Winston-Salem, North Carolina 27104, Attention: Investor Relations, Telephone: (336) 733-3058.

No separate financial statements of the trusts are included or incorporated by reference in this prospectus. BB&T and the trusts do not believe that such financial statements would be material to holders of capital securities because the trusts are special purpose entities, have no operating history or independent operations and are not engaged in, and do not propose to engage in, any activity other than issuing the capital securities and holding as trust assets any corresponding securities. In addition, we do not expect that the trusts will be filing reports with the SEC under the Securities Exchange Act of 1934.

CONSOLIDATED RATIOS OF EARNINGS TO FIXED CHARGES

The consolidated ratios of earnings to fixed charges for BB&T Corporation and its subsidiaries for the periods indicated below were as follows:

	For the Three Months Ended		For the Years Ended December 31,				
	March 31, 2008	2007	2007	2006	2005	2004	2003
Earnings to fixed charges:							
Including interest on deposits:	1.70 x	1.67 x	1.63 x	1.76 x	2.22 x	2.88 x	2.24 x
Excluding interest on deposits:	2.91 x	3.06 x	2.77 x	3.25 x	4.17 x	5.62 x	3.94 x

For purposes of computing these ratios, earnings represent income from continuing operations before extraordinary items and cumulative effects of changes in accounting principles plus income taxes and fixed charges (excluding capitalized interest). Fixed charges, excluding interest on deposits, represent interest (other than on deposits, but including capitalized interest), one-third of rents (the proportion representative of the interest factor) and all amortization of debt issuance costs. Fixed charges, including interest on deposits, represent all interest, one-third of rents (the proportion representative of the interest factor) and all amortization of debt issuance costs.

As of the date of this prospectus, we have no preferred stock outstanding.

USE OF PROCEEDS

We intend to use the net proceeds from the sale of the securities offered by this prospectus as set forth in the applicable prospectus supplement.

VALIDITY OF SECURITIES

Jones, Esq., Executive Vice President, General Counsel, Secretary and Chief Corporate Governance Officer of BB&T, or by counsel named in the applicable prospectus supplement, and for any underwriters or agents by counsel selected by such

underwriters or agents. Unless the applicable prospectus supplement or, if necessary, the applicable pricing supplement, indicates otherwise, certain matters of Delaware law relating to the validity of the capital securities, the enforceability of the trust agreements and the creation of the trusts will be passed upon for us and the trusts by Richards, Layton & Finger, P.A., special Delaware counsel to us and the trusts.
