FOR THE THREE-MONTH PERIOD ENDED MARCH 31, 2009

(in thousands of Brazilian Reais, except as otherwise mentioned)

2. BASIS OF PREPARATION AND PRESENTATION OF THE QUARTERLY FINANCIAL STATEMENTS

a) Quarterly financial statements

The quarterly financial statements (ITR s) are presented in thousands of Brazilian reais (except as otherwise mentioned) and have been prepared based on the accounting practices adopted in Brazil, as well as on the rules issued by the Brazilian Securities and Exchange Commission (CVM), with due regard to the accounting standards set forth in the corporation law (Law No. 6,404/76), or Brazilian Corporate Law, which include the new provisions introduced, amended and revoked by Law No. 11,638, dated December 28, 2007 and by Executive Act No. 449, dated December 03, 2008, with further regard, also, to the rules applicable to telecommunication service concessionaires.

The requirements of Brazilian Corporate Law apply to fiscal years beginning on January 01, 2008. These requirements are not to be considered as changes of circumstances or of estimates and, therefore, the adoption of new practices introduced by Law no. 11.638/07, as a general rule, must be shown retrospectively, that is, by application of these new accounting practices as if they had been in use during all the periods presented, with due regard to the rule governing Accounting Practices, Changes to Accounting Estimates and Correction of Mistakes , as approved by the CVM, by Resolution No. 506. Accordingly, the Quarterly Information for the three-month period ended March 31, 2008 was restated with the purpose of making them comparable with the Quarterly Information related to the three-month period ended March 31, 2009 (note 2b).

The consolidated income statement of the Company for the three-month period ended March 31, 2008 does not contemplate the consolidated income of Telemig Participações for the same period.

In order to allow a better understanding and comparison we have disclosed in note 31 the combined income statement, assuming that the effects of the acquisition of Telemig Celular and Telemig Participações had already occurred since January 01, 2008.

All balances of assets and liabilities, revenues and expenses arising out of transactions between the consolidated companies have been eliminated in the consolidated statements.

These ITR s were prepared pursuant to principles, practices and criteria consistent with those adopted in preparing the financial statements for the last fiscal year and should be reviewed together with said statements.

The amount recorded in the current assets refers to reversal of temporary differences, use of tax losses and goodwill amortization expected for the next twelve months.

The deferred taxes were recorded assuming their future realization, as follows:

- a) *Tax loss and negative tax base*: represents the amount recorded by the subsidiaries, which will be offset up to the limit of 30% of the tax base computed in the coming fiscal years and subject to no statute of limitations. The Company did not record the potential deferred income tax and social contribution credit that would arise from the use of these tax bases in the amount of R\$713,775 (R\$689,572 at December 31, 2008), given the uncertainty, at this time, as to the Company's ability to generate future taxable income to ensure realization of these deferred taxes.
- b) *Tax credit incorporated*: represented by the net balance of goodwill and provision for maintenance of the shareholders' equity integrity (note 6.2). Realization will occur in a period from 5 to 10 years. Studies performed by independent consultants hired during the corporate reorganization process support the recovery of such amounts within the above time frame.
- c) *Temporary differences*: realization will occur upon payment of the provisions, effective loss on bad debts or realization of inventories, as well as reversal of other provisions. The Company did not record the potential deferred income tax and social contribution credit that would arise from the use of these provisions in the amount of R\$156,248 (R\$155,481 at December 31, 2008), given the uncertainty, at this time, as to the Company's ability to generate future taxable income to ensure realization of these deferred taxes.

Edgar Filing: Vivo Participacoes S.A. - Form 6-K

The Company prepared feasibility studies, approved by its Board of Directors, which indicated the full recovery of deferred tax amounts recognized at December 31, 2008, as defined in CVM Instruction No. 371. During the three-month period ended March 31, 2009, no relevant fact occurred that indicated limitations to full recovery of the deferred tax amounts recognized by the subsidiaries.

a) *PIS and COFINS*

Vivo was issued a delinquency notice by the tax authority (proceedings No. 19515.000.700/2003-97) for having offset the COFINS, in January and February 2000, against credits arising out of the 1/3 surplus of the COFINS itself paid in 1999, after deduction of the amount from the CSLL. The case is awaiting decision of the Special Appeal filed within the administrative sphere. On a conservative conduct, Management recorded the amount of R\$24,671, at March 31, 2009 and December 31, 2008, with corresponding escrow deposits in the same amount.

FOR THE THREE-MONTH PERIOD ENDED MARCH 31, 2009

(in thousands of Brazilian Reais, except as otherwise mentioned)

Law No. 9,718/98

At November 27, 1998, the calculation of PIS and COFINS was changed by Law No. 9,718, which: i) increased the COFINS rate from 2% to 3%; ii) authorized the deduction of up to 1/3 of the COFINS from the amount of the Social Contribution on Net Income CSLL; and also iii) indirectly increased the COFINS and PIS owed by Vivo, determining the inclusion of revenues in excess of the total sales in their tax calculation basis.

Due to the changes introduced by laws No. 10,637/02 and 10,833/03, Vivo started including the revenues in excess of the total sales in the tax calculation basis of PIS and COFINS.

At March 31, 2009, Vivo has provisions recorded for the amounts of the revenues in excess of the total sales, under discussion in court, in the amount of R\$10,557 (R\$10,399 at December 31, 2008), having deposited the amount of R\$2,496 in court (R\$2,496 at December 31, 2008).

Other

Additionally, the subsidiaries recorded amounts of R\$13,106 at March 31, 2008 (R\$12,933 at December 31, 2008) with respect to other discussions of PIS and COFINS.

b) *Contribution of Intervention on The Economics of Dominion CIDE*

This refers to an administrative and judicial matter, aiming at discharging the assessment of the CIDE on remittances of funds abroad, in connection with agreements for transfer of technology, license of trademarks and software, etc. On a conservative conduct, Vivo recorded the amount of R\$81,134, at December 31, 2009 (R\$80,693 at December 31, 2008), with corresponding escrow deposits of R\$57,634 (R\$57,004 at December 31, 2008) in court.

c) *Telecommunications Inspection Fee Fistel*

Telemig Celular filed a Writ of Mandamus challenging its liability for the payment of the inspection fees on mobile stations not owned by it, and started booking a provision and effecting a deposit in court for the amounts referring to the TFF Operation Inspection Fee and to the TFI Installation Inspection Fee. The case is awaiting decision by the TRF Court of the 1st Region.

Its legal counsels consider the chances of losses in these lawsuits to be possible. However, because this is a legal obligation under the terms of CVM Resolution No. 489/2005, the subsidiary has recorded a provision for this contingency. The provision recorded at March 31, 2009 was in the amount of R\$386,274 (R\$324,764 at December 31, 2008), with corresponding escrow deposits in the same amount.

d) *Withholding Income Tax (IRRF) on payments of Interest on shareholders equity Telemig Participações*

Telemig Participações filed Writs of Mandamus requesting the court to declare its right not to be assessed IRRF at source on its receipts of interest on shareholders equity of its subsidiary. Based on the opinion of its legal counsels, the referred lawsuits are classified as possible loss; however, once this refers to a legal obligation under the terms of CVM Resolution No. 489/2005, at March 31, 2009 a provision was recorded with corresponding escrow deposits totaling R\$20,314 (R\$19,828 at December 31, 2008).

b) *Dividends and Interest on Shareholders' Equity*

The preferred shares do not have voting rights, except in the cases stipulated in articles 9 and 10 of the Bylaws, but are ensured priority in the reimbursement of the capital stock, without premium, the right to participate in the dividend to be distributed, corresponding to a minimum of 25% of net income for the fiscal year, calculated in accordance with article 202 of Brazilian Corporate Law, and priority in receiving minimum non-cumulative dividends equivalent to the higher of the following amounts:

b.1) 6% (six per cent) per year on the amount resulting from the division of the subscribed capital by the total number of the Company's shares; or

b.2) 3% (three per cent) per year on the amount resulting from the division of the shareholders' equity by the total number of the Company's shares, and also the right to participate in distributed profit under the same conditions applicable to common shares, after the common shares have been ensured of a dividend equal to the minimum priority dividend established for the preferred shares.

As from the General Shareholders' Meeting held on March 27, 2004, the preferred shares are entitled to full voting rights, in accordance with article 111, paragraph 1, of Law No. 6,404/76, since minimum dividends were not paid on preferred shares for three consecutive years.

At the General Shareholders' Meeting held on March 15, 2007, the payment of dividends on the income for year 2006 to the holders of preferred shares was approved. However, the approved amount was lower than the minimum statutory value required for removing the right to vote of the preferred shares.

b.3) Dividends and Interest on Shareholders' Equity not claimed by shareholders are forfeited in 3 (three) years, as from the date of the beginning of payment, as set forth in article 287, subparagraph II, item a), of Law No. 6,404/76.

At a General and Special Shareholders' Meeting held on February 12, 2009, the payment of dividends and interest on the own capital in the amount of R\$ 426,798 was decided, being as follows: Interest on Shareholders' Equity in the amount of R\$161,113 (R\$136,946 net of the withholding income tax) and dividends in the amount of R\$265,685 paid in March 2009.

c) *Capital Reserves*

c.1) *Goodwill reserve*

This reserve represents the excess of value at the time of the issuance or capitalization in relation to the basic value of the share at the issuance date.

c.2) *Special Goodwill Reserve*

This reserve was recorded as a result of the Corporate Reorganization processes described in note 6.2, as a counter-entry to the net assets transferred, and represents the future tax benefit to be earned by amortization of the goodwill transferred. The portion of special goodwill reserve corresponding to the benefit may be, at the end of each fiscal year, capitalized to the benefit of the controlling shareholder upon the issue of new shares. The increase of capital is subject to the preemptive rights of the non-controlling shareholders, proportionally to their respective interests, by kind and class, at the time of the issue, and the amounts paid upon the exercise of this right shall be directly delivered to the controlling shareholder, in accordance with the provisions in CVM Instruction No. 319/99.

b) *Considerations on risk factors which may affect the Company's and its subsidiaries' business*

The main market risks which the Company and its subsidiaries are exposed to in the conduct of their activities are:

Credit Risk

The credit risk arises out of the potential difficulty to collect the amounts payable for telecommunication services rendered to its customers and for sales of handsets to the distributors network, as well as the risk related to financial statements and accounts receivable for swap transactions.

The credit risk involved in the rendering of telecommunications services is minimized by a strict control of the customer base and active management of customers' defaults, by means of clear policies regarding the sale of post-paid handsets. The customer base of the subsidiaries has, predominantly, a prepaid system, which requires the upfront payment and consequently entails no credit risk.

The credit risk in the sale of handsets and pre-activated prepaid cards is managed under a conservative credit policy, by means of modern management methods, including the application of credit scoring techniques, analysis of financial statements and information, and consultation to commercial data bases.

The Company and its subsidiary (Vivo) are also subject to credit risk originating from their financial investments and amounts receivable from swap transactions. The Company and its subsidiaries act in such a manner as to diversify this exposure among various world-class financial institutions.

Interest Rate and Inflation Risk

The interest rate risk arises out of the portion of the debt and of the liability positions in derivatives contracted at floating rates, and involves the risk of the financial expenses increasing due to an unfavorable change in the interest rates.

The Company and its subsidiary (Vivo) are exposed to the risk of increased interest rates, due to the liabilities portion of the derivative transactions (Exchange Hedge) and to CDI-referenced debts. The balance of financial investments, indexed to the CDI, partially neutralizes this effect.

The inflation rate risk arises out of the debentures issued by Telemig Celular, indexed to the IPCA, which may negatively affect the financial expenses by an unfavorable change of this index.

Exchange Rate Risk

This risk arises out of the possibility of losses on account of exchange rate fluctuations, which may increase the outstanding balances of foreign currency loans.

The Company and its subsidiary (Vivo) have contracted financial derivative transactions so as to protect themselves against exchange rate fluctuations arising out of foreign currency loans. The instruments used were swap contracts.

The table below summarizes the net exposure of the Company and its subsidiary (Vivo) to the exchange rate factor at March 31, 2009 and December 31, 2008:

	US\$	¥

Other liabilities	(33,104)	(20,044)
Total (insufficient coverage)	(37,358)	(20,044)

(a) UMBDES is a monetary unit prepared by the BNDES, composed of a basket of foreign currencies, the main currency being the US Dollar, and for this reason the Company and its subsidiary (Vivo) consider in their analysis of the risk coverage against the exchange rate fluctuations.

c.) *Transactions with Derivatives*

The Company and its subsidiary (Vivo) entered into swap contracts in foreign currency at several exchange rates, in a notional amount at March 31, 2009 of US\$ 435,204, and JPY 37,316,640 (US\$ 515,606, JPY 51,594,615 at December 31, 2008). At March 31, 2009, the Company had interest rate swap contracts in a notional amount of R\$225,000 (R\$225,000 at December 31, 2008) for interest rates in local currency (CDI) and the notional amount of R\$110,000 of swaps indexed to the IGPM (R\$110,000, at December 31, 2008).

As required by Law No. 11,638/07, the Company and its subsidiaries started applying CPC 14 since the transition date on December 31, 2006. CPC 14 must be applied to all derivative instruments, and requires that such instruments are stated in the balance sheet at their fair value. Changes to the fair value of the derivatives are recognized in the income statement, except for in the case of compliance with specific accounting criteria such as hedge.

The derivative financial instruments intended for hedge and the respective items subject matter of hedge are adjusted monthly to the fair value, with due regard to the following: for those financial instruments classified as fair value hedge and evaluated as effective, the valuation or

devaluation of the fair value of the item which is the hedge instrument and of the item subject matter of hedge must be recorded as a counter-entry to a proper revenue or expense account, in the income of the year.

The Company and its subsidiaries started designating certain swap contracts as fair value hedges of a portion of the foreign currency debts (US Dollar and Japanese Yen), local interest rate (CDI) and IGPM.

The Company and Vivo calculate the effectiveness of these hedges at the beginning and continuously (at least on a quarterly basis) and the hedges contracted on March 31, 2009 showed to be effective in relation to the debts subject of such coverage. As long as these derivative contracts are identified as hedge accounting according to CPC 14, the covered debt is also adjusted to the fair value in conformity with the fair value hedge rules.

The CVM, by Resolution No. 550, issued on October 17, 2008, and by Instruction No. 475, issued on December 17, 2008, provided for that publicly-held companies are required to disclose, in a specific explanatory note, qualitative and quantitative information about all their derivative financial instruments, either recognized or not as assets or liabilities in their balance sheet.

Risk Management Policy

All contracting of derivative financial instruments for the Company and its subsidiary (Vivo) is intended for protection against foreign exchange risk and variations in foreign and local interest rates arising out of financial debts, pursuant to a corporate policy of risk management. Accordingly, eventual variations in the risk factors generate an inverse effect on the subject matter they are intended to protect. Therefore, there are no derivative financial instruments for speculation purposes and 99.9% of the financial exchange liabilities are hedged.

The Company and its subsidiary (Vivo) keep internal controls in relation to their derivative instruments which, in the opinion of the Management are adequate for controlling risks associated to each strategy of market action. The results obtained by the Company and its subsidiary (Vivo) in relation to their derivative financial instruments show that the Management has properly managed risks.

Fair values of the derivative financial instruments

The valuation method used for calculating the market value of the loans, financing, debentures and derivatives was the discounted cash flow, considering expectancy of settlement or receipt of liabilities and assets at the market rates as of March 31, 2009.

The fair values are calculated by projecting the future flows of the transactions, using the BM&F Bovespa (*São Paulo Stock Exchange*) curves and bringing them to present value using market DI rates for swaps disclosed by the BM&F Bovespa.

The market values of the exchange coupon swaps x CDI were obtained using the market exchange rates in effect at March 31, 2009 and the rates projected by the market which were obtained from the currency coupon curves. For calculating the coupon of the positions indexed in foreign currency the linear convention of 360 calendar days was adopted and for calculating the coupon of the positions indexed to the CDI the exponential convention of 252 business days was adopted.

The financial instruments disclosed below are recorded with the CETIP, all of them being classified as swaps, not requiring a margin deposit.

Edgar Filing: Vivo Participacoes S.A. - Form 6-K

(2) Swap CDI X Pre (R\$232,806) swap transactions contracted with maturity date in January 2010, for partially protecting against local interest rate fluctuations in relation to debts and derivatives exposed in CDI (debts of R\$2,656,676). For the other exposures to CDI (swap liabilities), the Company and its subsidiary (Vivo) have short term financial investments based on the variation of the CDI (R\$1,795,093 at March 31, 2009) as partial natural hedge. The book values of these financial investments are close to market values, because they are redeemed in the short term.

(3) Swap IGPM x CDI percentage (R\$163,954) swap transactions contracted with maturity date until 2010 with the purpose of protecting the flow identical to the debts at IGPM (R\$163,954).

At March 31, 2009, assets in the amount of R\$431,181 (R\$632,751 at December 31, 2008) and liabilities in the amount of R\$117,621 (R\$203,323 at December 31, 2008) were recorded by the Company and its subsidiary (Vivo) for recognition of the net derivatives positions as of that date.

Analysis of sensibility to the risk variables of the Company and its subsidiary (Vivo)

CVM Instruction provides that publicly-held companies, in addition to the provisions in item 59 of CPC 14 Financial Instruments: Recognition, Measurement and Evidencing, are required to disclose a statement of sensibility analysis, for each type of market risk deemed by the management to be material, originated by financial instruments, to which the entity is exposed at the closing date of each period, including all the transactions with derivative financial instruments.

Edgar Filing: Vivo Participacoes S.A. - Form 6-K

In compliance with the provisions above, each of the transactions with derivatives was evaluated considering a probable realization scenario and two scenarios which may generate adverse results to the Company and its subsidiary (Vivo).

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

FOR THE THREE-MONTH PERIOD ENDED MARCH 31, 2009

(in thousands of Brazilian Reais, except as otherwise mentioned)

In the probable scenario, assuming the realization on the maturity dates of each of the transactions, what the market has been signaling in the future market curves (currency and interest) of the BM&F Bovespa, was considered. Thus, in the probable scenario, there is no impact on the fair value of the financial instruments already presented above. For the adverse scenarios, deterioration of 25% and 50%, respectively, was considered in the risk variables until the maturity date of the financial instruments.

As the Company and its subsidiary (Vivo) only have derivative instruments for hedging their financial debt, changes in the scenarios are accompanied by the respective hedge objects, thus showing that the effects thereof are almost null. For these transactions, the Company has stated the balance of the subject matter (debt) and of the derivative financial instrument (hedge) in separate lines of the sensibility analysis table, in order to inform on the net exposure of the Company, in each of the three mentioned scenarios, as shown below:

Sensibility Analysis Net Exposure

NOTES TO THE QUARTERLY FINANCIAL STATEMENTS

FOR THE THREE-MONTH PERIOD ENDED MARCH 31, 2009

(in thousands of Brazilian Reais, except as otherwise mentioned)

For calculation of the net exposure, all the derivatives were considered at their fair value, as well as the associated debts (hedged elements).

The fair values, shown in the table above, depart from a portfolio position at March 31, 2009, however they do not reflect an estimate of realization due to the market dynamism, constantly monitored by the Company and its subsidiary (Vivo). The use of different premises may significantly affect the estimates.

27. POST-EMPLOYMENT BENEFIT PLANS

Vivo, together with other companies belonging to the former Telebrás System, sponsor private pension plans and medical assistance plans for retired employees under the same conditions of the publication for the last fiscal year, as follows: i) PBS-A; ii) PAMA; iii) PBS- Telesp Celular, PBS-TCO, PBS Tele Sudeste Celular and PBS Tele Leste Celular; iv) TCP Prev and TCO Prev Plans; v) Visão Celular Benefit Plans Celular CRT, Telerj Celular, Telest Celular, Telebahia Celular and Telergipe Celular.

As disclosed in the publication for the last fiscal year, the management and equity of the above referred plans (except for the PBS-A and PAMA, which are still managed by Fundação SISTEL de Seguridade Social SISTEL) was transferred to Visão Prev Sociedade de Previdência Complementar (Visão Prev).

On August 21, 2007, the regulation of Vivo-Prev plan was approved, an individual plan of defined contribution, which has already been managed by Visão Prev. The contributions of Vivo to this plan are equal to the ones from the participants, varying from 0% to 8% of the participation wage, as a function of the percentage chosen by the participant, with migration of the former plans to Vivo Prev, at free option of the participants. The adhesion to the new plan has been massive.

Vivo, through its actuarial consultants, has prepared studies considering the impact of ordinary action No. 04/081.668-0, brought by ASTEL against Fundação Sistel de Seguridade Social, in which Telefonica and Telesp Celular (company that was merged into Vivo) are mentioned, in addition to Sistel, which action is related to the change in the costing system and review of other PAMA benefits. Based on the opinion of its tax consultants, the Management believes that at this time there is no payment risk, and at March 31, 2009 the chance of loss was classified as possible. At March 31, 2009 the amount in question was R\$1,575 (R\$1,475 at December 31, 2008).

Telemig Celular individually sponsors a defined retirement benefits plan Plano PBS Telemig Celular. Besides the benefit of supplementation, medical assistance (PAMA) is provided to retired employees and their dependents, at shared cost.

Telemig Celular also sponsors the CelPrev, a defined contribution plan, under the same conditions as published in the last fiscal year.

Actuarial provisions relating to the plans mentioned above are recorded in Other liabilities (Note 17).

On March 20, 2009, the managements of Vivo Participações, Telemig Celular and Telemig Participações, in the form and for the purposes of CVM Instructions No. 319/999 and 358/02, have informed that their respective Boards of Directors approved the proposal to constitute an independent Committee (in conformity with Parecer de Orientação of CVM No. 35) for a Corporate Reorganization through merger of the shares of Telemig Celular and of Telemig Participações into Vivo Participações, by converting Telemig Celular in to a wholly-owned subsidiary

Edgar Filing: Vivo Participacoes S.A. - Form 6-K

of Telemig Participações and, the latter, into a wholly-owned subsidiary of Vivo Participações.

The purpose of the proposed Corporate Reorganization is to simplify the current organizational structure, which includes three publicly-held companies, two of them having ADRs traded abroad. The simplified structure will reduce administrative costs and allow the shareholders of the companies to hold interest in one sole company whose shares are traded both in Brazilian and international stock exchanges, with more liquidity, besides facilitating unification, standardization and rationalization of the general management of the business.

OPERATING REVENUE

Growth of 9.6% in the net service revenue in 1Q09.

Total **net revenue** grew 9.2% over 1Q08, due to the growth in the service revenue, which represents growth in all components. Such growth is a result of the natural growth in the customer base, of the actions for stimulation of the recharges and of the sale of products and Value Added Services, or VAS. In relation to 4Q08, the total net revenue decreased by 5.8%, mainly due to the reduction of 26.9% in the revenue from handsets, as a result of the seasonality of the period.

Access and usage revenue recorded an increase of 10.4% over 1Q08, mainly due to the increase in the total outgoing traffic due to the incentive to usage. When compared to 4Q08, there was a reduction of 7.5% in the access and usage revenue as a result of the lower number of business days and the seasonality of the period.

Continuous growth of data revenue and VAS.

Data revenue plus VAS has grown 29.0% and 16.6% over 1Q08 and 4Q08, respectively, representing 12.1% of the Net Service Revenue. Several factors contributed to this: 31.1% increase in the data revenue due to the text messaging (SMS/MMS) usage and 44.7% increase due to Wireless Application Protocol, or WAP, Internet 3G and e-mailing usage year-over-year. SMS/MMS has continued to be the largest selling service, accounting for more than 52% of the data and VAS revenue.

OPERATING COSTS

Cost of services increased due to expenses with Fistel Fee.

The 12.1% increase in the **cost of the services rendered** in 1Q09, when compared with 1Q08, is the result of the 33.0% increase in the costs for the Fistel Fee due to the growth of the customer base, the increase in the leased lines and the increase in lease, insurance and condominium expenses. In comparison with 4Q08, it recorded a slight growth of 0.8% related to the increase in Fistel Fee and other expenses, offset by a reduction in the interconnection costs.

Commercial and operational efficiency.

The **cost of goods sold** recorded an increase of 14.9%, in the comparison of 1Q09 over 1Q08 due to the foreign exchange devaluation occurred between the periods that increased the acquisition cost of handsets and to the launching of the operations in the Northeast region, which was offset by an increased activity of sales of Sim Cards. In the comparison with 4Q08, the reduction of 14.9% reflects the decrease in the commercial activity due to the seasonality between the periods being compared.

In the 1Q09, the **selling expenses** grew 3.9% over 1Q08, reflecting the increase in expenses with third-party services, such as: publicity and advertising, outsourced labor and client care. The increase was partially offset by a reduction in the allowance for doubtful accounts and customer retention efforts. In the comparison with 4Q08, selling expenses decreased by 9.2%, as a result of the reduction in expenses with third-party services, especially publicity and advertising, and other expenses with materials for points of sale, partially affected by the increase in the allowance for doubtful accounts. Decrease in the commercial activity was also recorded.

Allowance for doubtful accounts under control.

The **Allowance for Doubtful Accounts** in 1Q09 showed a reduction of 13.8% in relation to 1Q08. The amount of R\$ 77.6 million represents 1.4% of the total gross revenue, lower than it was recorded in 1Q08, of 1.8%. In relation to the 4Q08, which is positively impacted by the corporate segment credit recovery for which provisions had been previously recorded and by the individual segment credit recovery due to the campaigns carried out for bonus amount, there was an increase of 0.4 percentage points. Vivo has continued with its collection actions and strict credit granting criteria, which have maintained this item under control.

The **general and administrative expenses** decreased by 13.9% in 1Q09 in relation to 1Q08, mainly due to the decrease in expenses with third-party services, especially technical assistance. In the comparison with 4Q08, which was positively impacted by the reduction in technical-administrative services and by settlement with non-recurring suppliers, the increase was of 111.9%, reflecting higher expenses with third-party services, especially auditing, legal, data processing and technical services.

Other Operating Revenue/Expenses recorded revenue of R\$ 4.6 million. The comparison with 4Q08 presents a reduction in the revenues from recovered expenses, especially taxes. As set forth in MP 449/08, the amounts which were previously accounted for as non-operating Revenues/Expenses started being posted to this account. The reduction in comparison with 1Q08 was due to reversal of the ICMS provision by Telemig, effected during the quarter.

DEPRECIATION AND AMORTIZATION

Depreciation and amortization expenses recorded an increase of 11.6% in relation to 1Q08, due to the accelerated depreciation of the CDMA technology and to the investments in the period, in addition to the amortization of the goodwill as a result of the acquisition of Telemig. When compared to 4Q08, it recorded a reduction of 1.6%, due to lower investments made in the period.

Drop of 47.3% in financial expenses in comparison with 4Q08.

In relation to 1Q08, Vivo's financial expenses increased by R\$ 109.8 million, mainly due to the increase in the net debt (3G financing and expenditures for acquisition of Telemig Celular Participações S/A) and to a higher effective interest rate in the period (2.85% in 1Q09 and 2.53% in 1Q08).

The financial expenses decreased by R\$ 133.7 million in the comparison between 1Q09 and 4Q08. This variation is mainly explained by the extraordinary effects occurred in 4Q08, such as recognition of the extraordinary provision for 3G and the expense of PIS/COFINS on the distribution of Interest on Shareholders' Equity, effected in 4Q08 (in the amount of R\$ 25.3 million). In addition, a reduction in expenses was recorded due to a lower effective interest rate in the period (2.85% in 1Q09 and 3.26% in 4Q08).

Increase of debt due to payment of Fistel Fee and dividends Improved debt profile.

The Company closed March 2009 with a debt of R\$ 7,713.1 million (R\$ 4,969.5 million at March 31, 2008), of which 23.7% is denominated in foreign currency, 99.9% of which being hedged. The debt recorded in the 1Q09 was offset by cash and financial investments (R\$ 1,820.0 million) and by derivative assets and liabilities (R\$ 313.6 million receivable), resulting in a net debt of R\$5,579.5 million (R\$ 2,229.5 million at March 31, 2008).

Despite the increase in the net debt, the debt profile improved. In 1Q08, 55.4% of the debt was at long term, while in 1Q09 the long term debt represented 61.2%. This change in the debt composition has occurred due to higher funding from structured transactions (BNDES and BNB) and to the use of the credit facility granted for the 3G license which was made available in the auction carried out by Anatel.

The increase in the net debt in 1Q09, when compared to 1Q08, is mainly due to the acquisitions of 3G licenses and of Telemig Celular Participações S/A, offset by generation of cash in the period.

In the comparison between 1Q09 and 4Q08, the consolidated net debt recorded an increase of R\$ 277.4 million. Although the company has recorded a good operational cash generation in 1Q09 in the amount of R\$ 619.2 million, which was impacted by payment of the TFF (Installation and Inspection Fee) to Anatel in the amount of R\$ 552.5 million, Vivo's payments of CAPEX (R\$ 541.3 million) and of dividends (R\$ 122.7 million) increased.

In 1Q09, the Company issued one-series, simple, non-convertible in shares, in the amount of R\$ 210.0 million, at a cost of 113.55% of the CDI, with maturity date on 01/11/10.
